Friedland is synonymous with innovation and excellence, with a prestigious history of design, manufacture and supply of high quality Wirefree and Wired CCTV, Alarms, PIR Lighting and many other security products.

Over 60 years committed to quality

Our reputation for product excellence, choice, reliability and customer service stems from the continuous review of improved methods, including new product development and design innovation. We constantly seek to provide solutions to our customers' individual requirements. Our total quality management system ensures that high standards are maintained in every aspect of the business, from customer support and service through to manufacture and distribution. This commitment to being 'best in class' has been recognised with the highly valued ISO9001 quality approval.

The perfect choice for any home

The breadth of our range of CCTV, Alarms and Security Lighting offer innovation and individualism to every home. From the convenience of the wirefree security products, to the comprehensive range of traditional bells and horns, Friedland products will complement all styles of home, from traditional to modern.

Innovation for the customer

Friedland continues to build on a long history of technical expertise and innovation, these ranges offer easy installation and high quality solutions for a variety of customer needs.

Friedland Wireless CCTV systems are designed for easy installation and simply plug into your existing TV set. By installing a CCTV system, you can protect a property and improve your peace of mind. CCTV cameras act as a visual deterrent and allow you to monitor visitors or intruders on your TV screen and even catch them on video. Wireless CCTV is easy to install and ideal for protecting remote locations such as garages or outbuildings.

Features and Benefits:

- Simple to use, plug and play
- IP54 colour camera
- Night vision feature
- Operating open field range of 100m*
- 12 hours per channel video recording (for DVR only)
- 60° camera viewing angle
- Motion detection feature built in the DVR

* measured in open-field conditions. Note: Building structures, e.g. metal and thick walls will affect transmission range

WIRELESS COLOUR CAMERA CCTV KIT

CWFK1

- Weatherproof CMOS camera (IP54) – suitable for both indoor and outdoor use
- Receiver with 4 selectable RF video channels
- 100m open field operating range
- 11 Infra Red LEDs for low light illumination
- Night vision feature
- Camera viewing angle 60°
- 12v DC plug in power supply
- Simple to use, plug and play set up

CONTENTS

1 x wireless colour camera, 1 x wireless receiver unit, 1 x video output cable for wireless receiver to TV, 1 x camera fixing kit – 2 x power supply adaptors, fixings, installation and operating manual, window sticker

UNIT BARCODE 5017490567390

WIRELESS COLOUR CAMERA AND 2 CHANNEL DVR CCTV KIT

CWFK2

- All the functionality of CWFK1 with 2 channel digital video recorder
- Time and date stamp
- Real time display and playback
- Built in SD card
- 2GB memory card supplied
- 12 hours per channel video recording or 20,000 still images

CONTENTS

1 x wireless colour camera, 1 x wireless receiver unit, 1 x camera fixing kit – 2 x power supply adaptor, fixings, 1 x 2 channel DVR unit, 1 x video output cable for wireless receiver unit to 2 channel DVR (1m), 1 x DIN to RCA adaptor lead for 2 channel DVR, 1 x video output cable for 2 channel DVR to TV (1m), 1 x 2 channel DVR unit power supply adaptor, 1 x SD memory card (2GB), installation and operating manual, 1 x window sticker

UNIT BARCODE 5017490567406

WIRELESS COLOUR CAMERA CCTV KIT

CA3

- Add additional cameras to your wireless CCTV system
- Weatherproof camera (IP54) – suitable for both indoor and outdoor use
- 11 Infra Red LEDs for low light illumination
- Night vision feature
- Camera viewing angle 60°
- 12v DC plug in power supply
- 100m open field operating range

CONTENTS

1 wireless colour camera, 1 x camera power supply adaptor, fixings, installation and operating manual, 1 x window sticker

UNIT BARCODE 5017490567468

Friedland Wired CCTV is a range of security products that are ideal for residential and commercial building applications. By installing a CCTV system, you can protect a property and improve your peace of mind. CCTV cameras act as a visual deterrent and allow you to monitor visitors or intruders on your TV screen and even catch them on video. Wired CCTV is easy to install with expandable kits via additional accessories making the system suitable for many applications.

Features and Benefits:

- Easy to install
- IP54 colour camera
- Night vision feature
- 12 hours per channel video recording (for the 2 channel DVR only)
- 120 hours of video recording per channel (for the 4 channel DVR only)
- Time and date stamp
- Motion detection feature built into the DVR

WIRED COLOUR CAMERA CCTV KIT

CWK1

- Weatherproof (IP54) camera suitable for indoor and outdoor use
- Plug and play with existing TV/monitor
- Colour CMOS image sensor
- Infra red LEDs for low light illumination
- Night vision feature

CONTENTS

1 x wired colour camera with 1m cable, 1 x 10m RCA (male plug) to RCA (male plug) extension cable, 1 x power supply adaptor, fixings, installation and operating manual, 1 x window sticker

UNIT BARCODE 5017490567369

WIRED COLOUR CAMERA AND 2 CHANNEL DVR CCTV KIT

CWK2

- All the functionality of CWK1 with 2 channel Digital Video Recorder
- Time and date stamp
- Real time display and playback
- Built in SD card
- 2GB memory card supplied
- 12 hours per channel video recording or 20,000 still images

CONTENTS

1 x wired colour camera with 1m cable, 1 x 10m RCA (male plug) to RCA (male plug) extension cable, 1 x power supply adaptor, fixings, installation and operating manual, 1 x window sticker, 1 x 2 channel DVR unit, 1 x DIN to RCA adaptor lead for 2 channel DVR, 1 x video output cable for 2 channel DVR to TV (1m), 1 x 2 channel DVR unit power supply adaptor, 1 x SD memory card (2GB), installation and operating manual

UNIT BARCODE 5017490567376

WIRED 2 COLOUR CAMERA AND 2 CHANNEL DVR CCTV KIT

CWK3

- Twin camera wired kit
- Time and date stamp
- Real time display and playback
- Built in SD card
- 2GB memory card supplied
- 12 hours per channel video recording or 20,000 still images

CONTENTS

2 x wired colour camera with 1m cable, 1 x 10m and 1 x 20m RCA (male plug) to RCA (male plug) extension cable, 2 x power supply adaptors, fixings, installation and operating manual, 2 x window stickers, 1 x 2 channel DVR unit, 1 x DIN to RCA adaptor lead for 2 channel DVR, 1 x video output cable for 2 channel DVR to TV (1m), 1 x 2 channel DVR unit power supply adaptor, 1 x SD memory card (2GB), installation and operating manual

UNIT BARCODE 5017490567383

WIRED HEAVY DUTY 2 COLOUR CAMERA AND 4 CHANNEL DVR CCTV KIT
CWK4

- Weatherproof camera (IP54) suitable for both indoor and outdoor use
- High resolution CCD sensor
- Infra red LEDs for low light illumination
- Night vision feature
- Simultaneous recording of 4 cameras
- Motion trigger recording with sensitivity and area setting
- 160GB SATA hard drive
- Total recording time 60 hours
- Time and date stamp

CONTENTS

2 x wired colour heavy duty cameras, 1 x 4 channel DVR unit, 1 x optical mouse, 1 x 160GB SATA hard drive supplied fitted to DVR unit, 1 x 5 way splitter cable, 1 x 4 channel DVR unit power supply adaptor, 1 x 10m BNC (male plug) to BNC (male plug) extension cable, 1 x 20m BNC (male plug) to BNC (male plug) extension cable, 2 x BNC (male) to RCA (female) adaptors, 1 x 4 channel DVR video output cable (1m), 1 x CD backup software (suitable for Windows PC operating systems including Vista), 2 x 4 channel DVR hard drive drawer locking keys, 2 x camera fixings kit – wall plugs and screws, installation and operating manual, 2 x window stickers

UNIT BARCODE 5017490567413

WIRED HEAVY DUTY 4 COLOUR CAMERA AND 4 CHANNEL DVR CCTV KIT
CWK5

- Weatherproof camera (IP54) suitable for both indoor and outdoor use
- 2 x internal dome cameras
- High resolution CCD sensor.
- Infra red LEDs for low light illumination (Heavy duty camera only)
- Night vision feature (Heavy duty camera only)
- Simultaneous recording of 4 cameras
- Motion trigger recording with sensitivity and area setting
- 160GB SATA hard drive
- Total recording time 30 hours
- Time and date stamp

CONTENTS

2 x wired colour heavy duty cameras, 2 x wired internal colour dome cameras (no night vision), 2 x 10m BNC (male plug) to BNC (male plug) extension cable, 2 x 20m BNC (male plug) to BNC (male plug) extension cable, 1 x 4 channel DVR unit, 1 x 160GB SATA hard drive supplied fitted to DVR unit, 1 x optical mouse, 1 x 4 channel DVR unit power supply adaptor, 1 x 1 to 5 power splitter cable assembly, 1 x 4 channel DVR video output cable (1m), 1 x CD backup software (suitable for Windows PC operating systems including Vista), 2 x 4 channel DVR hard drive drawer locking keys, 4 x camera fixings kit – wall plugs and screws, Installation and operating manual, 4 x window stickers

UNIT BARCODE 5017490567420

WIRED PROFESSIONAL 4 COLOUR CAMERA AND 4 CHANNEL DVR CCTV KIT

CWK6

- Professional 4 camera kit
- 2 x dome and 2 x heavy duty High resolution CCD sensor cameras.
- Infra red LEDs for low light illumination (Heavy duty camera only)
- Night vision feature (Heavy duty camera only)
- Simultaneous recording of 4 cameras
- Motion trigger recording with sensitivity and area setting
- 160GB SATA hard drive
- Total recording time 30 hours
- Time and date stamp

CONTENTS

2 x professional wired colour heavy duty cameras, 2 x wired internal colour dome cameras (no night vision), 2 x 10m BNC (male plug) to BNC (male plug) extension cable, 2 x 20m BNC (male plug) to BNC (male plug) extension cable
1 x 4 channel DVR unit, 1 x 160GB SATA hard drive supplied fitted to DVR unit
1 x optical mouse, 1 x 4 channel DVR unit power supply adaptor, 1 x 1 to 5 power splitter cable assembly, 1 x 4 channel DVR video output cable (1m), 2 x 4 channel DVR hard drive drawer locking keys, 1 x CD backup software (suitable for Windows PC operating systems including Vista),
4 x camera fixings kit – wall plugs and screws, Installation and operating manual, 4 x window stickers
* Heavy duty camera fitted with a 1m power cord with a 3 pin UK plug fitted

UNIT BARCODE 5017490567437

WIRED PROFESSIONAL COLOUR CAMERA CCTV KIT

CA5

- Plugs directly into existing TV/Monitor
- Weatherproof camera (IP54) suitable for both indoor and outdoor use.
- Vandal resistant heavy duty housing with sun shield
- 12 Infra red LEDs for low light illumination
- Night vision feature
- Built in fan to eliminate moisture build up
- Operating temp -10°C to 50°C
- 53° camera viewing angle

CONTENTS

1 x large wired colour heavy duty camera, 1 x 10m BNC (male plug) to BNC (male plug) extension cable, 1 x BNC (female) to RCA (male) adaptor,
1 x camera fixings kit – wall plugs and screws, installation and operating manual, 1 x window sticker
* Heavy duty camera fitted with a 1m power cord with a 3 pin UK plug fitted

UNIT BARCODE 5017490567482

WIRED INTERNAL COLOUR DOME CAMERA CCTV KIT

CA8

- Adjustable dome camera with pan and tilt
- IP40 – for internal use
- Camera viewing angle 72°
- Plug and play with existing TV/Monitor

CONTENTS

1 x internal colour dome camera, 1 x 10m BNC (male plug) to BNC (male plug) extension cable, 1 x BNC (female) to RCA (male) adaptor, 1 x dome camera PSU adaptor, 1 x camera fixings kit – wall plugs and screws, installation and operating manual, 1 x window sticker

UNIT BARCODE 5017490567512

WIRED HEAVY DUTY COLOUR CAMERA CCTV KIT

CA10

- Plug and play with existing TV/Monitor or use to expand an existing wired system
- Weatherproof camera (IP54) suitable for both indoor and outdoor use.
- High resolution CCD camera
- Infra red LEDs for low light illumination
- Night vision feature
- Operating temperature -10°C to 50°C
- 50° viewing angle

CONTENTS

1 x wired colour heavy duty camera, 1 x 10m BNC (male plug) to BNC (male plug) extension cable, 1 x BNC (female) to RCA (male) adaptor, 1 x wired heavy duty power supply adaptor, 1 x camera fixings kit – wall plugs and screws, Installation and operating manual, 1 x window sticker

UNIT BARCODE 5017490567536

10M/20M EXTENSION CABLE KITS

CA4/CA12

- Compatible with all wired Response CCTV cameras
- BNC (female) to BNC (male) extension cable
- To extend existing cables. Carries video signal and camera power

CONTENTS

CA4 CCTV extension cable 10m
CA12 CCTV extension cable 20m

UNIT BARCODE CA4 5017490567475

UNIT BARCODE CA12 5017490567550

2 CHANNEL DIGITAL VIDEO IMAGE RECORDER (DVR) FOR RESPONSE WIRELESS/WIRED CCTV KITS

CA1

- Compatible with wired and wireless camera kits
- Time and date stamp
- Real time display and playback
- Built in SD card
- 2GB memory card supplied
- 12 hours per channel video recording or 20,000 still images

CONTENTS

1 x 2 channel DVR unit, 1 x DIN to RCA adaptor lead for 2 channel DVR, 1 x Video output cable for 2 channel DVR to TV (1m), 1 x 2 channel DVR unit PSU adaptor, 1 x SD memory card (2GB), installation and operating manual

UNIT BARCODE 5017490567444

4 CHANNEL DIGITAL VIDEO IMAGE RECORDER (DVR) FOR RESPONSE WIRELESS/WIRED CCTV KITS

CA7

- Simultaneous recording of 4 cameras
- Compatible with wired and wireless cameras
- Motion trigger recording with sensitivity and area setting
- 160GB SATA hard drive
- Up to 120 hours recording time (with x 1 camera connected)
- Time and date stamp
- BNC to RCA lead for direct TV connection

CONTENTS

1 x 4 channel DVR unit, 1 x 160GB hard drive supplied fitted to DVR unit, 2 x BNC (male) to RCA (female) adaptors, 2 x 4 channel DVR hard drive drawer locking keys, 1 x CD backup software (suitable for Windows PC operating systems including Vista), 1 x 4 channel DVR unit power supply adaptor, installation and operating manual, 1 x 4 channel DVR output cable, 1 x optical mouse

UNIT BARCODE 5017490567505

LCD SCREEN FOR RESPONSE WIRELESS/WIRED CCTV KITS

CA2

- 7" Colour TFT LCD display with integrated 2.4Ghz wireless receiver
- Monitor for 2 wired or 3 wireless cameras
- 480 horizontal lines display resolution
- Switch between wired and wireless cameras.
- IR Remote Control

CONTENTS

1 x 7" colour LCD screen, 1 x remote control for 7" LCD screen, 1 x 3v CR2032 cell for remote control (supplied), 2 x wired camera adaptor leads for LCD screen, 1 x PSU adaptor for LCD screen, installation and operating manual

UNIT BARCODE 5017490567451

DUMMY PROFESSIONAL HEAVY DUTY CAMERA
CA6

- Non operating dummy camera
- Identical appearance to CA5 operating camera
- Effective Visual deterrent

CONTENTS

1 x dummy large heavy duty camera, 1 x camera fixings kit – wall plugs and screws, installation manual, 1 x window sticker

UNIT BARCODE 5017490567499

DUMMY INTERNAL DOME CAMERA
CA9

- Non operating dummy camera
- Identical appearance to CA8 operating camera
- Effective Visual deterrent

CONTENTS

1 x dummy dome camera, 1 x camera fixings kit – ceiling/wall plugs and screws, installation manual, 1 x window sticker

UNIT BARCODE 5017490567529

DUMMY HEAVY DUTY CAMERA
CA11

- Non operating dummy camera
- Identical appearance to CA10 operating camera

www.friedland.co.uk

technical hotline +44 (0) 8447 369149

Friedland Response is a wired and wirefree range of security systems, offering a cost effective solution which is easy to install and easy to operate. Systems are available in a variety of sizes and capabilities to suit specific installation requirements. A full range of accessories are available to upgrade and expand systems.

Features and Benefits:

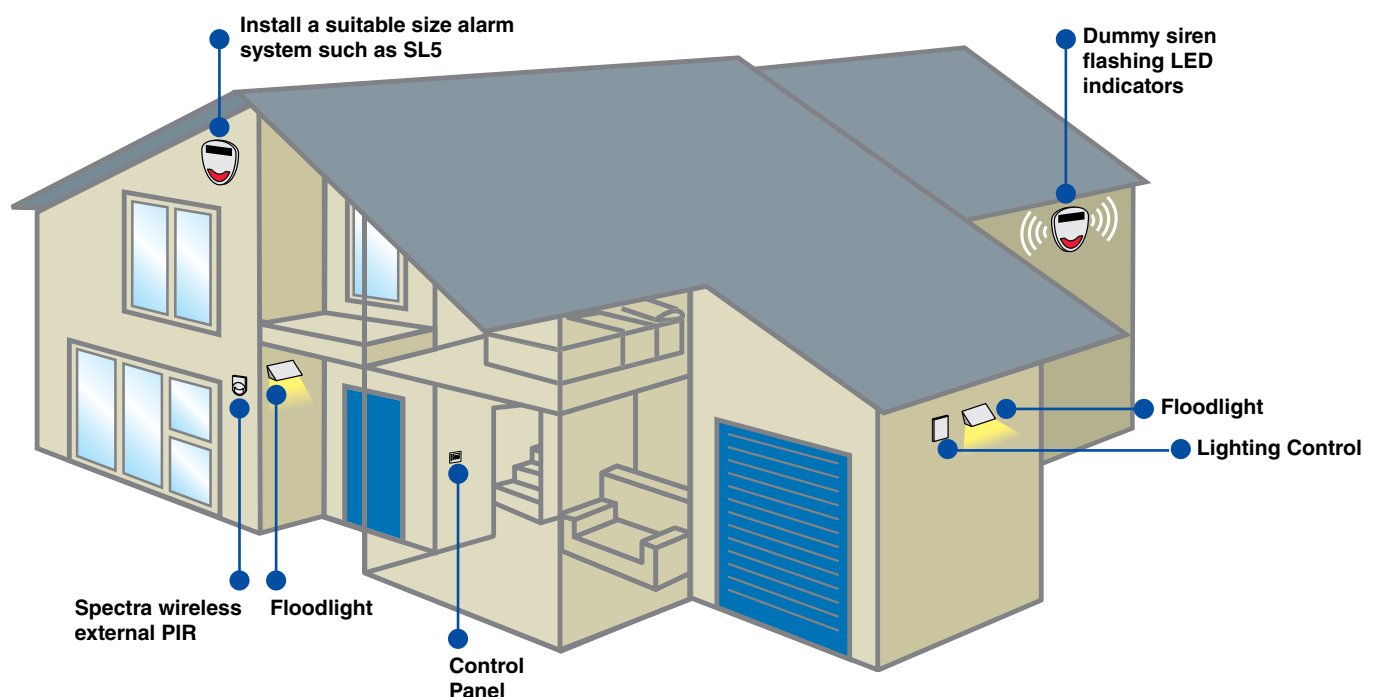

- Suitable for any home
- Secure 868MHz technology (wireless alarms only)
- Comprehensive range of accessories
- Tamper and jamming detection provides additional security and prevents interference from potential intruders
- Energy saving solar siren (wireless alarms only)

Friedland have a successful history of providing wirefree alarm systems to homeowners across both the UK and Europe, offering quality products with simple wireless installation and easy operation.

All wireless alarm systems operate by sending signals across radio frequencies, commonly the crowded 433MHz frequency. Friedland now introduce a new range of wireless alarm systems, using the more secure 868MHz frequency that is less prone to interference from other devices than systems operating on 433MHz. The higher antenna output provides a stronger transmission enhancing the performance and range from the control unit to the accessories.

Features and Benefits:

- Improved range between control unit and accessories – providing greater flexibility on where to install devices
- 20 bit technology gives one million house codes – maximum security virtually eliminating risk of signal jamming or hacking
- G4 is a unique protocol owned and developed by Friedland – compatible only with Friedland products
- Self learning between components and control units – faster, easier installation – no more dip switches
- Tighter regulatory restrictions for the 868MHz band than those for the 433MHz band – specifically for security and alerting products
- Solar siren – powered by light, reduces inconvenience of changing batteries

PREMIUM WIRELESS HOME AND AWAY ALARM SYSTEM

SL1

- Suitable for the smaller home
- Easy to install
- Advanced 868MHz technology
- Energy saving solar powered siren
- Remote control
- 125m range
- Expand system up to 12 PIRs and/or door contacts plus 6 remotes/keypads

CONTENTS

1 x solar siren with LED indicators, 2 x door/window contacts, 1 x movement (PIR) detectors, 1 x remote control, batteries, fixings, instruction manual and installation DVD

UNIT BARCODE 5004100954909

PREMIUM WIRELESS MULTI USER ALARM SYSTEM

SL2

- Suitable for the family home
- Easy to install
- Advanced 868MHz technology
- Energy saving solar powered siren
- Keypad operated
- 125m range
- Expand system up to 12 PIRs and/or door contacts plus 6 remotes/keypads

CONTENTS

1 x solar siren with LED indicators, 2 x door/window contacts, 2 x movement (PIR) detectors, 1 x remote keypad, batteries, fixings, instruction manual and installation DVD

UNIT BARCODE 5004100954893

PREMIUM WIRELESS MULTI FUNCTION ALARM SYSTEM

SL3

- Suitable for the larger home
- Easy to install
- Advanced 868MHz technology
- 6 zone LED control panel
- Energy saving solar powered siren
- Compatible with Premium Wireless external lighting control accessory (HW12)
- 125m range
- Expand system up to 18 PIRs and/or door contacts plus 6 remotes/keypads

CONTENTS

1 x solar siren with LED indicators, 2 x door/window contacts, 2 x movement (PIR) detectors, 1 x control panel, batteries, fixings, instruction manual and installation DVD, plug in power supply for control panel

UNIT BARCODE 5004100954886

PREMIUM WIRELESS TELECOMMUNICATING ALARM SYSTEM
SL5

- Suitable for the larger home with added functionality for maximum security
- Easy to install
- Advanced 868MHz technology
- 36 Zone LCD control panel (32 wireless + 4 wired zones) 1 detector per zone
- Energy saving solar powered siren
- Compatible with Premium Wireless external lighting control accessory (HW12)
- Remote phone access
- 125m range

CONTENTS

1 x solar siren with LED indicators, 2 x door/window contacts, 2 x movement (PIR) detectors, 1 x control panel, 1 x dummy siren, batteries, fixings, instruction manual and installation DVD, plug in power supply for control panel

The Response Wirefree Alarm Systems offer internal space protection by monitoring entry points and the interior of the property. To attain maximum coverage, and to prevent false alarms there are a number of rules to follow when installing detectors.

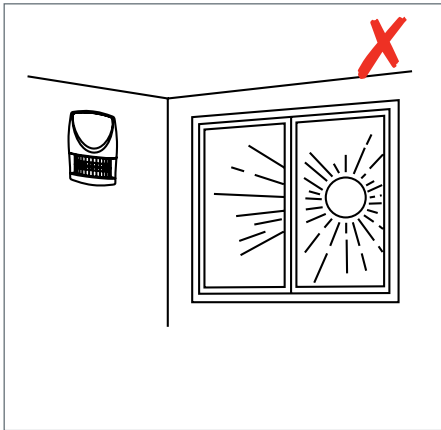

Installation hints and tips

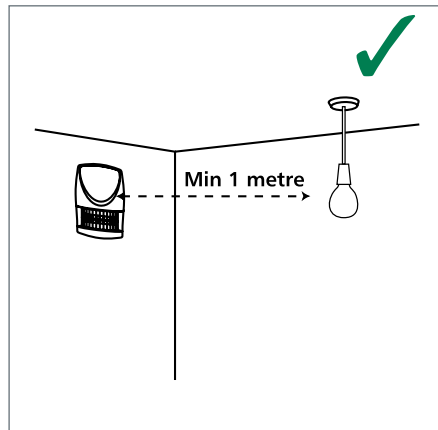

-  PIR Movement Detector
-  CP Control Panel
-  Solar Siren
-  Magnetic Contact

Installation hints and tips

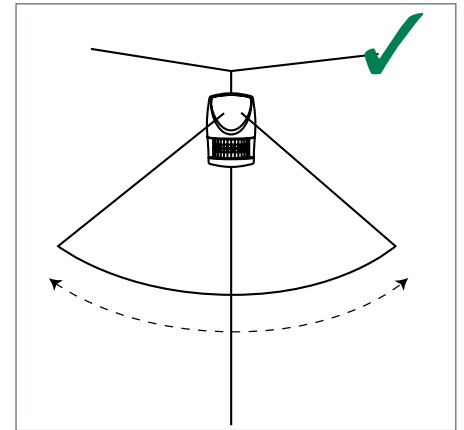

PIR detectors may be wall or corner mounted by applying different knockouts.

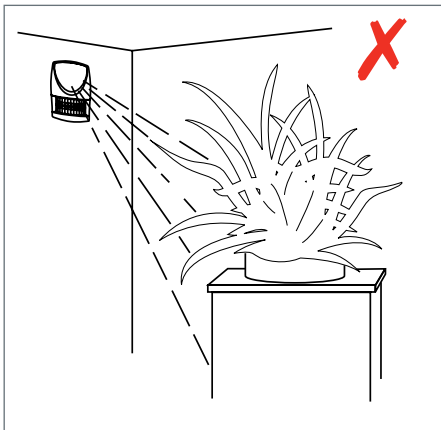

Do not install where the detector is in or facing direct/reflected sunlight or strong draughts/heaters

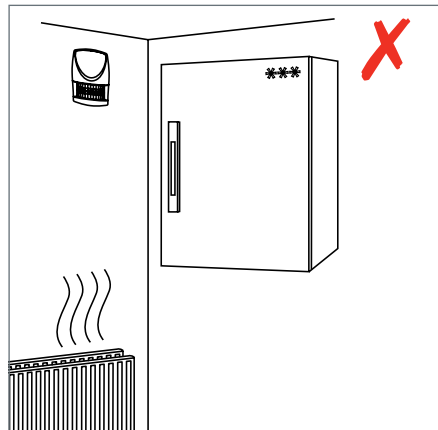

Locate the detector at least one metre away from any illumination, to avoid possible interference

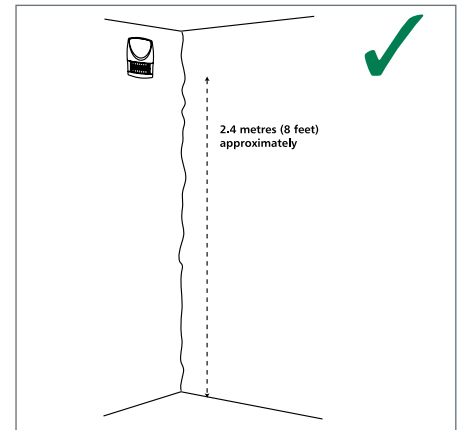

Mount in the corner of a room. PIR detectors are more sensitive to motion passing across the detection zones than toward the unit

Ensure that there are not any obstructions (plants, screens, furniture etc.) in the field of view which may cause incorrect cover/operation of the detector

Avoid locating the detector in areas which contain equipment that may change the environment temperature rapidly. For example: above radiators

Install the detector at the recommended height on a rigid, even surface

The wired and wirefree Spectra+ range provides an easy to install detection solution.

The NEW range of PIR Movement Detectors consists of high specification models that will turn new and existing lighting into security lighting for safety and convenience. The PIR's can control a wide range of lighting from 600W fluorescent, 2300W tungsten/halogen to 20x20W Compact Fluorescent Lamps and LEDs.

Features and Benefits:

- Up to 15m detection range
- Wirefree operation on the 868MHz technology
- 140° 200° and 360° detection areas
- Wired versions supplied with remote control to switch between ON/OFF and AUTO mode
- Adjustable sensitivity level (on specific models)
- Adjustable lux level to switch on the lighting at various brightness levels upon movement detection.
- "Walk test" allows easy setting and adjustment during daylight
- Adjustable Time On period – up to 20 minutes
- Pan +/- 45°
- Tilt - down 30°
- Incorporated with manual override mode to switch ON/OFF lighting using external wall switch
- IP55 rated
- 16A relay rating
- Fixings included
- Battery for remote control included
- 2 Year guarantee

SHED ALARM

ML1

- Plug and play shed alarm for simple installation
- Simple functional protection of your shed or outbuilding
- Any unauthorised attempt to interfere with the door contact wiring when armed will activate the alarm
- Requires 1 x 9v PP3 alkaline battery (not supplied)

UNIT BARCODE 5004100954800

WINDOW ALARM TWIN PACK

ML2

- Sensor detects the vibration of a window during an attempted forced entry
- Mounts directly onto window
- Door/Window warning sticker supplied
- Self adhesive pad supplied – no tools required
- 2 sensitivity settings
- Each unit supplied and fitted with 4x1.5v (LR44) alkaline batteries
- For internal use only

UNIT BARCODE 5004100954787

DOOR/WINDOW ALARM TWIN PACK

ML3

- Alarm sounds when magnetic contact is separated
- Mounts onto door or window frame
- Door/Window warning sticker supplied
- Self adhesive pad supplied – no tools required
- 2 settings – Chime or Alarm
- Each unit supplied and fitted with 4x1.5v (LR44) alkaline batteries
- For internal use only

UNIT BARCODE 5004100954794

DOOR/WINDOW ALARM

ML4

- Keypad controlled alarm – sounds when magnetic contact is separated
- Mounts onto door or window frame
- 4 digit user code protected
- Entry and exit delays
- 2 settings – Chime or Alarm
- Door/Window warning sticker supplied
- Fixings supplied
- Batteries not included (requires 3 x 1.5v LR03 (AAA) Alkaline)
- For internal use only

UNIT BARCODE 5004100954817

SINGLE ROOM PIR ALARM WITH KEYPAD

ML5

- Keypad controlled alarm – sounds when a movement is detected in the room
- Mounts on wall
- 4 digit user code protected
- Entry and exit delays
- 2 settings – Chime or Alarm

- Door/Window warning sticker supplied
- Mounting bracket and fixings supplied
- Batteries not included (requires 3 x 1.5v LR6 (AA) Alkaline)
- For internal use only

UNIT BARCODE 5004100954770

SINGLE ROOM PIR ALARM WITH REMOTE CONTROL

ML6

- Keypad controlled alarm – sounds when a movement is detected in the room
- Mounts on wall
- Convenient Remote controlled on/off
- Entry and exit delays
- 2 settings – Chime or Alarm
- Panic Alarm

- Door/Window warning sticker supplied
- Mounting bracket and fixings supplied
- Batteries (1 x 3v CR2032 Lithium) (not supplied 3 x 1.5v LR6 (AA) Alkaline)
- For internal use only

UNIT BARCODE 5004100954763

SINGLE ROOM PIR AND PERSONAL SAFETY ALARM KIT

ML7

- Remote controlled alarm – sounds when any movement is detected in the room
- Mounts on wall
- Convenient Remote controlled on/off
- Entry and exit delays
- 2 settings – Chime or Alarm
- Panic Alarm

- Door/Window warning sticker supplied
- Mounting bracket and fixings supplied
- Door contact magnet prewired for approx. 2 metres
- Batteries 1 x 3v CR2032 Lithium) (not supplied 3 x 1.5v LR6 (AA) Alkaline), PA alarm 4 x 1.5v A76 (LR41)
- For internal use only

UNIT BARCODE 5004100954756

PERSONAL PANIC ALARM

ML9

- Alarm sounds by removing pull cord
- Supplied with belt clip
- Continuous operation after removal of cord
- Ideal for: joggers, children, elderly
- Batteries supplied (4 x 1.5v (LR41 alkaline)
- LED Torch

UNIT BARCODE 5004100954824

Features and Benefits:

- Designed for long-life and total reliability
- Solenoid operated
- Compatible with all leading intruder alarm control panels
- Suitable for use in fire alarm systems and general industrial/commercial signalling applications
- Masterbell available in red and grey in a wide choice of voltages
- Wall bracket included

AC MASTERBELL AND BIG BELL/DC MASTERBELL 56-/59-/66

Friedland acknowledges the environment as a business issue. In pursuit of business successes, the company recognises the need to conduct its activities in an environmentally responsible manner.

The company is concerned with the need to find solutions to potentially adverse environmental impacts of our business activities and is committed to the prevention of pollution and a programme of continuous improvement.

The company believes that the impact its activities may have on the environment are not confined to our manufacturing processes or indeed within the confines of our site facilities. Rather they can be spread over the life cycle of a product or service, and may contribute to adverse environmental effects in a number of indirect ways. From production of raw material through to end of life disposal of a product, we aim to minimise harm to the environment in every aspect over which we have an influence.
