

**sollysta** wiring accessories  
including white moulded, decorative & grid

# sollysta

## style with substance

Sollysta has been designed to inspire confidence. Its modern, yet soft styling blends with today's interiors and hints at its reliability. Acting as the link to power and lighting, whether for home entertainment or everyday tasks, you must have confidence in the quality of wiring accessories.

They are a part of our everyday life and are always visible. Style and substance are a must. Sollysta's fresh, rounded appearance suggests an understated quality that is confirmed when you use them.

Step closer and you will not be disappointed. Attention to detail is obvious, even the rockers have a subtle curved profile with rounded edges. Set in a slight indentation they suggest a softness reminiscent of furnishings.

Take a moment to switch the rocker and you will notice its ergonomics. Its shape feels comfortable and you will be rewarded with a solid click, providing a positive confirmation that you have completed the switching action.

Small details we know, but this is what sets sollysta apart.

## elegant functionality

First impressions count. When you first step into a building whether it is a home or an office you form an impression. That impression could make the difference between a building remaining empty or not.

Makeovers and advanced technology have transformed the way that we use electricity. Wiring accessories are a vital link in how we use a space, both for leisure and work.

Once, a wall switch and a twin switched socket might have sufficed. Now our demand for both power and data has multiplied.

As their numbers increase, so does the need for them to look the part. Aesthetics are vital in the decision making process.

At the same time you need to be confident that wiring accessories are safe and continue to function. You need to feel assured that the range will meet all of your needs. From wall switches to twin switch sockets, RJ45 outlets to grid systems, sollysta will perform beautifully.

Take a closer look at sollysta wiring accessories. They will grace any building and interior design. They will also exceed your performance specifications.

# sollysta

## beautifully safe

However attractive wiring accessories are to the eye, they remain our link to electricity. They must perform and maintain the highest levels of safety.

Safety was at the top of our agenda when we designed sollysta. The fresh white exterior is manufactured from top grade urea, which forms a tough, durable and shatter resistant barrier.

Our isolating switches do just that, they isolate the electrical supply to meet the latest standards. Our socket outlets all feature a child resistant shutter system, which will prevent access to live parts unless all three pins of a standard british 13 amp plug are in position.

We know that peace of mind is important, which is why sollysta is not just good to look at; it protects as well.

# elegant functionality

## the unique neutral loop terminal

## Lighting Connections

Domestic lighting circuits have for many years been connected using the 3 plate method where the loop terminal is at the ceiling rose.

Today it is increasingly likely that there is a decorative light fitting or even downlighters fitted in place of a standard pendant. These fittings are rarely provided with a neutral loop terminal.

It has also become more popular to make the loop connection at the switch.

This has the advantage of the connections being accessible and at a more convenient working height.

However, this leaves the problem of terminating the neutral conductor.

One solution is to connect the neutral to a connector block inside the wall box, which takes up extra space.

Another is to use the sollysta light switch which has a unique neutral loop terminal.

# beautifully safe safety shutters

## BS 1363 Socket Outlets

One of the fundamental requirements of the 17<sup>th</sup> Edition is to provide basic protection against electric shock.

Socket outlets have apertures for plug pins and therefore will have a shutter mechanism that prevents access to live parts unless the earth pin is also present and has been inserted first. This however can be either intentionally or inadvertently defeated by inserting something into the earth pin aperture.

All sollysta sockets have a unique patented shutter system that not only requires the earth pin to be inserted first, but the simultaneous insertion of the live and neutral pins as well, before the shutter mechanism is activated. This enhances the safety by making it more difficult to defeat the mechanism and therefore reducing the risk of electric shock.

# sollysta

## white moulded

In addition to its installation features for the contractor the white moulded range has particular aesthetic appeal for the end user with a fresh rounded appearance that also suggests something solid and substantial. The sollysta range has a subtle curved profile with rounded edges. The accessories also have a slight indentation around the rockers to further soften the look.

The range of sollysta wiring accessories is the easiest in the market to install with the shallowest back projection for more cabling space.

Behind the faceplate the terminals face in the same direction with lead ins for wiring, backed off screws held captive to prevent loss, wire end stops and clear white labelling off a dark grey background.

The wall switches are the market's first neutral loop terminal contained within the accessory. This allows contractors to complete the loop connection in the switch instead of in the ceiling rose. Not only does this reduce cabling and the uncomfortable time spent working at ceiling level, but it also meets the needs of BS7671 since the connections are readily accessible for inspection.

The socket outlets are double pole and twin earth as standard and feature additional security with a three pin operated shutter mechanism. This prevents access to live parts unless all three pins from a standard British 13 amp plug are in position.

The white moulded range has a high impact strength for safety and is scratch resistant.

## white moulded

### Wiring accessories

In addition to the aesthetics for the home owner the products have been designed to make the installation easier for electrical contractors.

Terminals designed to face in the same direction, with lead-ins for wiring, backed-off screws held captive to prevent loss, wire end stops and clear identification all help make the wiring and cabling much easier.

With the shallowest projection allowing more cabling space and faceplate overlap the final fitting is quicker and provides a neater finish.

#### The advantages for you:

- Terminals are easy to identify, access and tighten.
- Installation time is reduced.
- Termination remains secure when the product is pushed back to the box.
- Aesthetics are excellent, even if the back box is slightly proud of the wall.

#### Technical data:

- Product ranges have been independently tested and certified.
- Faceplates are made from high grade urea ensuring excellent scratch and impact resistance.
- All sockets are provided with our unique safety shutter ensuring the highest levels of protection.

# Quick tips

1

## Terminals

The terminals all face in the same direction for ease of installation and are clearly identified.

2

## Terminal screws

Terminal screws are supplied backed out to save installation time and are captive so they won't be lost.

3

## Lead ins

Moulded lead-ins help to guide the driver blade to the screw head.

4

## Wire end stop

A positive wire end stop provides added security of connection.

5

## Projection

The range has been designed to offer the shallowest projection possible in the back box, maximising space for cabling.

6

## Overlap

The faceplate overlaps the back boxes to cover any discrepancies in the plaster or wall finish.

## High quality

High quality face plates provide resistance to impact and heat for maximum robustness.

## Independently tested

Product ranges have been independently tested and certified.

- Unique patented LOOP terminal to allow Neutral looping at the switch.
- Complies with BS EN 60669-1, a.c. only.
- 'X' rated - No need to derate for fluorescent loads.
- Two way switches can be wired either 1 way or 2 way.
- Clear terminal markings:  
1-way L1  
2-way L2
- Capacity of each terminal  
2 x 4.0mm<sup>2</sup> conductors.
- For mounting boxes see selection chart on page 65.
- For multigang switches use of a 25mm mounting box will provide increased wiring space.
- Supplied with M3.5 x 20mm long fixing screws.

## Controls

- Stylish flush buttons give easy press action.
- Quick press for ON/OFF.
- Hold button down to dim or brighten light level.
- Leading edge.
- Soft start feature prolongs lamp life.
- Suitable for dimming mains and dimmable transformer extra low voltage lamps.
- Complies with BS EN 60669-2-1 (including BS EN 55015).
- Automatic switch off in the case of transformer instability protects the dimmer and the transformer.
- Supplied with M3.5 x 30mm long fixing screws.

### Switch Dimmer

WMDS1

Description	Cat ref.

2 Gang Dimmer 250W	<b>WMDS2</b>
3 Gang Dimmer 250W	<b>WMDS3</b>
4 Gang Dimmer 250W	<b>WMDS4</b>

- Complies with BS EN 60669-2-4
- Rated conditional short circuit current (Inc) 1500A tested with Hager MTN110 6kA B curve MCB.
- Capacity of each terminal 2 x 4.0mm<sup>2</sup> conductors.
- For mounting boxes see selection chart on page 65.
- Supplied with M3.5 x 20mm long fixing screws.

WMPS3PIF

**1 Gang 3 Pole Isolator Switches**

Description	Cat ref.
3 Pole Isolator Switch	<b>WMPS3PI</b>
3 Pole Isolator Switch with Fan Symbol	<b>WMPS3PIF</b>

Socket Outlets

- Unique patented 3 part safety shutter.
- Complies with BS 1363-2, a.c only.
- Double pole switching mechanism on switched sockets.
- Twin socket comes with twin earth as standard.
- All terminal screws grouped in-line and upward facing for ease of installation.
- Clear printed and engraved terminal markings.
- Capacity of each terminal: 5 x 2.5mm<sup>2</sup> conductors switched; 4 x 2.5mm<sup>2</sup> unswitched (for other sized conductors see terminal capacities on page 64).
- For mounting boxes see selection chart on page 65.
- Supplied with M3.5 x 30mm long fixing screws.

WMSS82O

**13A Switched Sockets**

2 Gang Double Pole Switched Socket Dual Earth with LED Indicator	<b>WMSS82N</b>
2 Gang Double Pole Switched Socket Dual Earth Outboard Rockers with LED Indicator	<b>WMSS82ON</b>

WMS51

**5A / 13A Unswitched Socket**

Description	Cat ref.
5A 1 Gang Unswitched Socket	<b>WMS51</b>
13A 1 Gang Unswitched Socket	<b>WMS81</b>
13A 2 Gang Unswitched Socket Dual Earth	<b>WMS82</b>

- Complies with BS EN 60669-1 a.c. only.
  - Cable clamp accommodates up to 1.5mm<sup>2</sup> flexible cord.
- Single screw fast fix cable clamp.
  - Available with LED indicator in rocker.
  - All terminal screws upward facing for ease of installation.
- Clearly printed and engraved terminal marking.
  - Capacity of each terminal 2 x 6.0mm<sup>2</sup> conductors.
- For mounting boxes see selection chart on page 65.
  - Supplied with M3.5 x 30mm long fixing screws.

20A Double Pole Switches

Description	Cat ref.
20A Double Pole Switch	<b>WMDP84</b>
20A Double Pole Switch with Flex Outlet	<b>WMDP84FO</b>
20A Double Pole Switch with LED Indicator	<b>WMDP84N</b>

20A Double Pole Switch with LED Indicator marked Waterheater	<b>WMDP85N</b>
20A Double Pole Switch with LED Indicator & Flex Outlet marked Waterheater	<b>WMDP85FON</b>

WMDP84N

50A Double Pole Switches

- Complies with BS EN 60669-2-4.
  - Rated conditional short circuit current (I<sub>nc</sub>) 1500A tested with Hager MTN150 6kA B curve MCB.
- LED indication.
  - All terminal screws upward facing for ease of installation.
  - Clearly printed terminal marking.
- Capacity of each terminal 2 x 6mm<sup>2</sup>, 1 x 10mm<sup>2</sup>.
  - For mounting boxes see selection chart on page 65.
  - Supplied with M3.5 x 30mm long fixing screws.

50A Double Pole Switches

Description	Cat ref.
50A Double Pole Switch 1 Gang with LED Indicator	<b>WMDP50N</b>
50A Double Pole Switch 2 Gang Vertical with LED Indicator	<b>WMDP50VN</b>

WMDP50N

- Complies with BS 4177.
  - Switch and socket are double pole.
  - Twin earth as standard.
  - Available with optional LED indication.
- Main switch is suitable for isolation.
  - All terminals are upward facing for ease of installation.
  - Clearly printed terminal marking.
- Capacity of terminals 2 x 6.0mm<sup>2</sup>, 1 x 16.0mm<sup>2</sup>.
  - For mounting boxes see selection chart on page 65.
  - Supplied with M3.5 x 30mm long fixing screws.

45A Cooker Control Unit

Description	Cat ref.
45A Cooker Control Unit	<b>WMCC50</b>
45A Cooker Control Unit with LED Indicator	<b>WMCC50N</b>

WMCC50

WMCC50N

Fused Connection Units

- Complies with BS 1363-4.
  - Cable clamp accommodates up to 1.5mm<sup>2</sup> flexible cord.
  - Single screw fast fix cable clamp.
  - Available with LED light indicator in rocker.
- All terminal screws upward facing for ease of installation.
  - Clearly printed terminal markings.
  - Capacity of each terminal 2 x 6.0 mm<sup>2</sup> conductors.
- For mounting boxes see selection chart on page 65.
  - Supplied with M3.5 x 30mm long fixing screws.

13A Switched & Unswitched FCU

Description	Cat ref.
13A FCU Switched	<b>WMSSU83</b>
13A FCU Switched with Flex Outlet	<b>WMSSU83FO</b>
13A FCU Switched with LED Indicator	<b>WMSSU83N</b>
13A FCU Switched with LED Indicator and Flex Outlet	<b>WMSSU83FON</b>
13A FCU Unswitched	<b>WMSU83</b>
13A FCU Unswitched with Flex Outlet	<b>WMSU83FO</b>

WMSSU83

- Complies with BS 5733.
- Terminal capacity:
  - 20A 2 x 6.0mm<sup>2</sup>
  - 45A 2 x 10.0mm<sup>2</sup> conductors
- 20A plate features 2 separate terminals for each of Line, Neutral and Earth so flexible and fixed wiring do not occupy the same terminal.
- Single screw fast fix cable clamp.
- Supplied with M3.5 x 30mm long fixing screws.
- 45A features large open brass terminals for ease of installation.
- Protective red washer must be used under cable clamp to prevent damage to cable.
- Supplied with M3.5 x 20mm long fixing screws.

Outlet Plates

Description	Cat ref.
Flex Outlet Plate 20A	<b>WMP2FO</b>
Cooker Cable Outlet with Terminals 45A	<b>WMP50FO</b>

WMP2FO

- Complies with BS EN 61558-2-5
- Capacity of each terminal 2 x 2.5mm<sup>2</sup> conductors.
- Designed for use in bathrooms and shower rooms and incorporates a double wound transformer for an earth free supply.
- Input 230V a.c. output dual voltage 230V a.c. and 115V a.c. outlets.
- Rating 20VA on either voltage.
- Primary circuit protected by a self resetting thermal overload device.
- Insertion of shaver plug automatically switches on the transformer.
- Supplied with M3.5 x 30mm long fixing screws.

### Shaver Socket

Description

115/230 Volt Shaver Socket

# sollysta

## decorative

### Even more choice

The decorative range maintains all the installation features of the white moulded range; shallow depth, neutral loop terminal, cable lead ins, captive terminal screws, backed off terminal screws, wire end stops, in line terminals and the three pin shutter mechanism on the sockets for additional safety and many more benefits for the contractor.

The white moulded range was designed to meet exacting aesthetics appeal with its fresh rounded appearance, a subtle curved profile with rounded edges.

The decorative products offer even greater possibilities with many options of plate finishes and insert colours to match and enhance room appearances to suit most domestic and commercial installations.

The range covers flat plate and raised plate in polished steel, brushed steel, polished brass, and black nickel with insert colour options of white or black for the most discerning room designers and architects.

### Wiring Accessories

Even more style with substance

Even more elegant functionality

Even more beautifully safe

#### The advantages for you:

- A stylish finish to suit every taste.
- Good looks are protected during installation.
- Matching high quality metal rockers.
- All the features and benefits of the white moulded range **are included**.

#### Technical data:

- Premium quality stainless steel faceplates.
- Removable plastic film protects plates during installation.
- Light coating to minimise risk of scratching for long lasting good looks.

# Quick tips

1

## Packaging

Individually packaged to avoid transit damage.

2

## Recyclable

Packaging designed for ease of recycling.

3

## Protective cover

Each product supplied fitted with a protective removable film cover.

4

## Metal rockers

Matched metal rocker covers enhance decorative style.

5

## Inserts

Choose from white or black inserts for a perfect match to a rooms decor.

6

## Protective coating

Plates are lightly coated to ensure good looks that last.

7

All the benefits of the white moulded range.

8

## Independently tested

Product ranges have been independently tested and certified.

# sollysta - Decorative Wall Switches

- Unique patented LOOP terminal to allow Neutral looping at the switch.
- Complies with BS EN 60669-1, a.c. only.
- 'X' rated - No need to derate for fluorescent loads.
- Two way switches can be wired either 1 way or 2 way.
- Clear terminal markings:  
1-way L1  
2-way L2
- Capacity of each terminal  
2 x 4.0mm<sup>2</sup> conductors.
- For mounting boxes see selection chart on page 65.
- For multigang switches use of a 25mm mounting box will provide increased wiring space.
- Supplied with M3.5 x 20mm long fixing screws.

- Stylish flush buttons give easy press action.
- Quick press for ON/OFF.
- Hold button down to dim or brighten light level.
- Leading edge.
- Soft start feature prolongs lamp life.
- Suitable for dimming mains and dimmable transformer extra low voltage lamps.
- Automatic switch off in the case of transformer instability protects the dimmer and the transformer.
- WR references supplied with M3.5 x 30mm long fixing screws.
- WF references supplied with M3.5 x 20mm long fixing screws.

- Unique patented 3 part safety shutter.
- Complies with BS 1363 Part 2, a.c only.
- Double pole switching mechanism on switched sockets.
- Twin socket comes with twin earth as standard.
- All terminal screws grouped in-line and upward facing for ease of installation.
- Clear printed and engraved terminal markings.
- Capacity of each terminal: 5 x 2.5mm<sup>2</sup> conductors switched; 4 x 2.5mm<sup>2</sup> unswitched (for other sized conductors see terminal capacities on page 64).
- For mounting boxes see selection chart on page 65.
- WR references supplied with M3.5 x 30mm long fixing screws.

# sollysta - Decorative Shaver Socket

- Complies with BS EN 61558-2-5
  - Capacity of each terminal 2 x 2.5mm<sup>2</sup> conductors.
  - Designed for use in bathrooms and shower rooms and incorporates a double wound transformer for an earth free supply.
- Input 230V a.c. output dual voltage 230V a.c. and 115V a.c. outlets.
  - Rating 20VA on either voltage.
  - Primary circuit protected by a self resetting thermal overload device.
- Insertion of shaver plug automatically switches on the transformer.
  - WR references supplied with M3.5 x 30mm long fixing screws.
  - WF references supplied with M3.5 x 20mm long fixing screws.

# sollysta grid

The sollysta range of grid switches are ideal for domestic and commercial applications.

Frontplates are available to complement our new range of sollysta wiring accessories.

Durability and safety have been paramount in the design and development of the sollysta grid range so that, once installed, you can have every assurance that the products will live up to your expectations.

# sollysta grid

## Wiring accessories

In addition to the aesthetics for the home owner the grid accessories have been designed to make the installation easier for electrical contractors.

The robust frames do not distort during fixing, and the switch modules can be easily clipped in and out from the front making the installation much quicker and easier.

Due to the frame design easy access to the switch terminals is even possible when the frames are fitted and maximum cabling space is available thanks to the shallowest switches in the market.

A wide range of modules are available together with an extensive range of markings including specials through our bespoke service (contact Technical Support on 0870 607 6677) for further details).

### The advantages for you:

- Switch modules are the shallowest in the market, maximising cable space in the back box.
- Switch modules can be wired in the hand or when clipped in to the frame.
- Frame will not bend or deform during installation.
- Aesthetics match and complement the white moulded range.

### Technical data:

- All products have been independently tested and certified.
- Switches are rated at 20AX for maximum switching capability.
- Range includes fuse carriers, key switches and retractive switches.
- Faceplates are made from high grade urea ensuring excellent scratch and impact resistance.

# Quick tips

1

## Frames

Robust frames do not distort during installation.

## Shallow

The switches are the shallowest in the market to give the maximum cabling space.

2

## Clip

Switch modules clip in and out of the frames from the front for easy fixing.

## 20AX

All switches are rated at 20AX for maximum switching capability.

3

## Switch terminals

The frame design allows for easy access to the switch terminals even when fitted in the frame.

## Markings

A wide range of popular markings are available, and specials are available with our bespoke marking service (contact Technical Support on 0870 607 6677 for further details).

4

## Earth

Earth terminals are securely fixed with easy accessibility for wiring.

## Wide range

The wide range of modules includes double pole and single pole switches, key switches and fuse carriers.

## Gird Switches & Accessories

- Complies with BS EN 606691-1 switches, BS 5733 fuse carrier.
- Shallowest switch modules for ease of installation.
- Modules clip from the front for ease of installation and maintenance.
- Terminal screw can be accessed with modules clipped into frames.
- Frames locate to finished wall level.
- Frames clip to ease alignment for 6 gang and 8 gang applications.
- WR references supplied with M3.5 x 30mm long fixing screws.
- WF references supplied with M3.5 x 20mm long fixing screws.
