Opening an Account - To open a 30 day credit account call our sales office and ask for a credit application form or simply order direct on a cash with order basis.

Delivery - Orders placed before 3 p.m. for standard stock items are normally delivered within 24 hours. Special orders and bespoke requirements may involve a different timescale but you will be informed of this at the time of order. There may be certain geographical limitations e.g. Eire, Channel Islands etc. that will also extend delivery times. Please confirm this at the time the order is placed. We can also offer pre - 10 a.m. or same day delivery service if required. Please ask for details when placing your order.

Free delivery is available on all standard orders* over £250. For all other orders please ask at the time of placing your order for the cost of delivery.

**Excludes MCCB panel boards and IP65 fuse-switches of 250A and above plus any product deemed necessary to ship via a pallet for which there is a carriage charge of £50.*

Prices - Prices are available on request from our offices in Cannock. If you require additional copies of our price list please contact your local agent or our office on the telephone number provided.

Specials - Protek can produce custom made panels and boards to individual requirements but these cannot be returned should they not be required by the end user.

Returns - All returns require prior consent. Should a product fail to meet your expectations please contact us immediately quoting the following information;

1. Delivery note number
2. Invoice number
3. Product code or description
4. Quantity damage / fault
5. Reason for return

Protek will then provide you with a Return Note Number and instructions for returning the goods.

Please ensure all goods are correctly packaged and are fit for resale. All shortages / damages / returns must be notified within 5 working days from you.

04 - Three Phase MCB Boards

PROTEK's Three Phase Boards are more versatile than ever, offering a greater range of incomers as standard, including Isolators, MCB's, RCD's, MCCB's, and fully adjustable RCBO's.

The range of outgoers has also increased, including the ability to fit up to TWO 125A MCB's four pole RCBO's, and contactors and timers etc.

All boards are Surge and Meter ready, with simple bolt on CT's and easy fit multi function Meters.

05 - MCCB Panel Boards

PROTEK's offers the only 'MiniPanel Board' in the UK with 3, 5 or 7 outgoing ways.

Our standard panel boards come with either 400A and 800A busbars as standard and are meter and or surge ready. 2016 will see the launch of the new addition to the range which will allow 250A three pole MCCBs to be fitted inside the panel boards.

IP CODE

IP Code

VIP verification	Solid particle protection	Liquid ingress protection
VIP	Single numeral: 0-6	Single numeral: 0-9
Mandatory	Mandatory	Mandatory

Solid particle protection

The first digit indicates the level of protection that the enclosure provides against access to hazardous parts (e.g., electrical conductors, moving parts) and the ingress of solid foreign objects.

Level	Object size protected against	Effective against
0	—	No protection against contact and ingress of objects
1	>50 mm	Any large surface of the body, such as the back of a hand, but no protection against deliberate contact with a body part
2	>12.5 mm	Fingers or similar objects
3	>2.5 mm	Tools, thick wires, etc.
4	>1 mm	Most wires, screws, etc.
5	Dust protected	Ingress of dust is not entirely prevented, but it must not enter in sufficient quantity to interfere with the satisfactory operation of the equipment; complete protection against contact (dust proof)
6	Dust tight	No ingress of dust; complete protection against contact (dust tight)

Liquid ingress protection

The second digit indicates the level of protection that the enclosure provides against harmful ingress of water.

Level	Protected against	Testing for	Details
0	Not protected	—	—
1	Dripping water	Dripping water (vertically falling drops) shall have no harmful effect.	Test duration: 10 minutes Water equivalent to 1 mm rainfall per minute
2	Dripping water when tilted up to 15°	Vertically dripping water shall have no harmful effect when the enclosure is tilted at an angle up to 15° from its normal position.	Test duration: 10 minutes Water equivalent to 3 mm rainfall per minute
3	Spraying water	Water falling as a spray at any angle up to 60° from the vertical shall have no harmful effect.	Test duration: 5 minutes Water volume: 0.7 litres per minute Pressure: 80–100 kPa
4	Splashing of water	Water splashing against the enclosure from any direction shall have no harmful effect.	Test duration: 5 minutes Water volume: 10 litres per minute Pressure: 80–100 kPa
5	Water jets	Water projected by a nozzle (6.3 mm) against enclosure from any direction shall have no harmful effects.	Test duration: at least 15 minutes Water volume: 12.5 litres per minute Pressure: 30 kPa at distance of 3 m
6	Powerful water jets	Water projected in powerful jets (12.5 mm nozzle) against the enclosure from any direction shall have no harmful effects.	Test duration: at least 3 minutes Water volume: 100 litres per minute Pressure: 100 kPa at distance of 3 m
6K	Powerful water jets with increased pressure	Water projected in powerful jets (12.5 mm nozzle) against the enclosure from any direction, under elevated pressure, shall have no harmful effects.	Test duration: at least 3 minutes Water volume: 75 litres per minute Pressure: 1000 kPa at distance of 3 m
7	Immersion up to 1m	Ingress of water in harmful quantity shall not be possible when the enclosure is immersed in water under defined conditions of pressure and time (up to 1 m of submersion).	Test duration: 30 minutes Immersion at depth of at most 1 m measured at bottom of device, and at least 15 cm measured at top of device
8	Immersion beyond 1m	The equipment is suitable for continuous immersion in water under conditions which shall be specified by the manufacturer. Normally, this will mean that the equipment is hermetically sealed. However, with certain types of equipment, it can mean that water can enter but only in such a manner that it produces no harmful effects.	Test duration: continuous immersion in water Depth specified by manufacturer, generally up to 3m
9k	Powerful high temperature water jets	Protected against close-range high pressure, high temperature spray downs.	—

TERMS OF SALE

NETT MONTHLY - 2.5% settlement discount allowed, providing payment is made within 1 month following month of invoice. Otherwise strictly NETT.

In the event of a default by a customer in accordance with agreed terms the company shall be entitled to suspend all deliveries without notice.

NEW ACCOUNTS

Prospective customers wishing to open accounts should apply on the appropriate application form, acknowledging these terms and conditions.

DELIVERY, PROPERTY & RISK

(1) Delivery shall be deemed to be effective and the risk in the goods shall pass:

- a. In the case of goods to be collected by the buyers agent - when the goods are loaded onto the vehicle collecting them;
- b. In the case of goods to be supplied CJF and FOB when the goods pass over the ships rails at port of shipment; and
- c. In other cases - when the goods are unloaded at the address nominated by the buyers agent for delivery.

(2) Property of the goods shall pass to the buyer only when the company shall have received payment in full for the goods. Until such time the goods remain the absolute property of the company and the company shall have the right to enter onto the buyers premises to recover the goods supplied hereunder.

PRICES

(1) Unless otherwise agreed by the company in writing, all prices stated are those ruling at the date of quotation or acceptance of order and will be subject to adjustment to the prices ruling at the date of despatch.

(2) Prices shown do not include Value Added Tax (VAT), which is shown on invoices as a separate charge at the appropriate rate.

MINIMUM INVOICE CHARGE

Minimum invoice charge will be £20GBP excluding VAT and any carriage charge.

DELIVERY / DESPATCH

(1) Carriage paid on all orders over £250GBP NETT invoice value to UK mainland destinations by our nominated transport arrangements. Channel Islands, Isle of Man, Northern Ireland; £350GBP NETT invoice value - by our nominated transport arrangements.

(2) Whilst we endeavour to maintain delivery dates, it is a condition of sale that we shall not be liable for damages, direct, consequential or otherwise, for late delivery, nor under any other liability in respect thereto.

DAMAGE OR LOSS IN TRANSIT

The company accepts no liability for loss or damage in transit (unless the company acts as carrier) and claims for such damage or loss shall be made by the buyer to the carrier. In other case of damage or deterioration, both the company and the carrier (if different) should be informed, in writing, within three (3) days of receipt of the goods by the buyer. In the case of loss (total or partial) the company and the carrier (if different) must be informed, in writing, within seven (7) days of receipt of the companies invoice.

CLAIMS

Written notification for claims regarding shortages, non-delivery or damage to goods must be submitted within fourteen (14) days from date of invoice, otherwise no liability will be accepted by the company.

The return of goods will only be accepted by prior arrangement and must be carriage paid. A handling charge of 25% will be payable.

HEALTH & SAFETY AT WORK ACT 1974

Statements to purchasers and prospective purchasers.

Section 6 of this act provides that manufacturers, designers, importers or suppliers of articles for use at work have a duty to ensure, so far as is reasonably practicable, that the article will be safe and without risk to health when properly used. An article is not regarded as being 'properly used' if it is used without regard to any relevant information or advice relating to its use that is made available by the manufacturer, designer, importer or supplier.

PRODUCT LIABILITY

(1) The purchaser relies on his own skill and judgement as to the suitability of all goods offered and supplied for any particular purpose or for use under any specific conditions.

(2) In the event of any article supplied proving defective in material or workmanship, within a twelve month period, we undertake to replace or repair this free of charge, which shall be the limit of our responsibility. We do not accept liability for any other costs, direct or indirect, arising from such defective goods. Defective goods are to be returned to the company for investigation if we so request.

Fusegear

Protek offer a comprehensive range of fusegear for the UK market whether you require single phase or three phase, plastic or metal in IP31, IP40 or IP65 we have something to offer. Our single phase fuse switches are ideal for flats and apartments. Our IP40 range is suitable for industrial applications (10A to 400A) and when conditions require it we have a full range of IP65 metal isolators, fuse switches and changeover switches up to 630A.

Devices

Protek range of MCBs and RCBOs is second to none. We developed our 10KA range of MCBs 10 years ago and in 2010 we introduced to the UK the world smallest 10KA RCBO developed here in the UK at our Cannock HQ. It is based on our proven range of 10KA MCBs and provides contractors with more space in both consumer units and three phase MCB boards.

To compliment our distribution switchgear we have a range of command and control equipment which now includes Protek-Deh surge arresters.

MCB Boards

Protek has listened to our customers and as a result we have launched Titan III into the UK market in 2015. We believe it to be one of the most versatile boards on sale in the UK at this moment in time. As it is of modular design we are able to offer an assortment of incomers, metering Surge protection or simple RCD protection very easily.
