Live well with Honeywell

Honeywell is a world leading provider of innovative technology for the home. Our doorbells are designed to be revolutionary for a reason, to provide homes and families with the perfect balance of comfort, control and peace of mind.

Honeywell was established in 1885, and for the last 130 years we've driven our business forward to greater heights through innovations and a desire to improve lives. Homes and families are at the heart of everything we create. We truly believe that Honeywell products will make a family's life easier, taking away those little stresses and difficulties so people can get on with living well.

Of course, if you want to make people's lives easier then reliability must go hand-in-hand with innovation. You can't rely on products that don't perform to standard. Like our company, our components can weather the test of time; it's important to us that our products are robust enough to withstand the rigours of daily life, as well as improve it. Reliability, quality and excellence are our watchwords, backed up by our 2 year guarantee, a promise we proudly uphold for all our customers.

Life in **harmony** with **Honeywell** doorbells

Honeywell doorbells represent the next generation in technology for the home – doorbells that not only adapt to suit your home, but have the capability to grow with your family as needs and habits evolve.

By taking Friedland's 60 year heritage of creating the best doorbells in the world, and adding Honeywell's expertise and track record in innovation, we've designed a range of truly revolutionary doorbells from the ground up that are not only stunning and incredibly reliable, but also completely change the definition of what a doorbell is capable of.

Honeywell doorbells are different because of their intuitive design and flexibility. They grow with your family, adapting to your home and lifestyle through a range of clever, customisable features so you're always able to control how you use them.

Never miss a visitor or delivery

- ✓ Portable doorbells can be taken with you anywhere around the home and garden
- ✓ Wireless range of up to 200m means your doorbell will always work, wherever you place it
- ✓ Link two doorbells together to boost the wireless range from 200m up to 400m

Disturbance free

- ✓ Sleep mode mutes the sound for 3, 6, 9 or 12 hours, so you can relax free of any disturbance
- ✓ Use mute mode to silence the doorbell until you turn the sound back on again
- ✓ Easily adjust the volume to suit your family or mood

Visual alerts

- ✓ The unique halo light and LED strobe features provide visual alerts – great in loud environments, when sleep or mute mode is activated and for the hearing-impaired
- ✓ Customisable halo light with 7 colours to choose from
- ✓ Nightlight mode guides your way in the dark with a soft comforting glow

Compact size, rich sound

- ✓ Crystal clear sound quality that can be heard throughout the home and garden
- ✓ A maximum volume of 90dB gives an audible range of up to 100m
- ✓ Choose from up to 8 melodies
- ✓ Customise with your own melodies*

Revolutionary design

- ✓ Compact size and stunning design seamlessly fits in with your décor
- ✓ Neutral colours of white and grey complement any room
- ✓ The USB charging feature means you can still charge your phone or tablet without unplugging your doorbell

Peace of mind

- ✓ Connect alarm accessories to your doorbell with Honeywell ActivLink™, to build a simple home alarm system for your family. Adding a Honeywell door and window sensor creates a handy entry alarm system, whilst connecting a Honeywell wireless motion sensor creates a clever early alert system
- ✓ LED confidence light clearly indicates that your doorbell push is working
- ✓ Press three times quickly, and our secret knock function plays a different melody, so you know if it's a family member or friend at the door

Reliability and quality

- ✓ Honeywell ActivLink™, using the 868MHz frequency, is our innovative wireless protocol which delivers 20% wider range, 20% improved battery life and a consistent connection with no interference, making these doorbells our most efficient and reliable yet

- ✓ Up to 5 years battery life, for peace of mind
- ✓ 2 year product guarantee

Easy to install and use

- ✓ Pre-linked and ready to use straight from the box
- ✓ Easy screw-free installation
- ✓ Easy open battery compartment

Enjoy total peace of mind with a Honeywell doorbell kit

Convenient, simple and easy to install, these pre-linked Honeywell doorbell kits provide the perfect doorbell solution for your home. Whether it's alerting you to visitors before they've even reached your front door, or warning you that someone is attempting to enter or leave your home, these kits will keep your family aware and alert. Supported by Honeywell ActivLink™ technology for improved reliability and range, these clever kits will ensure you never miss a visitor again.

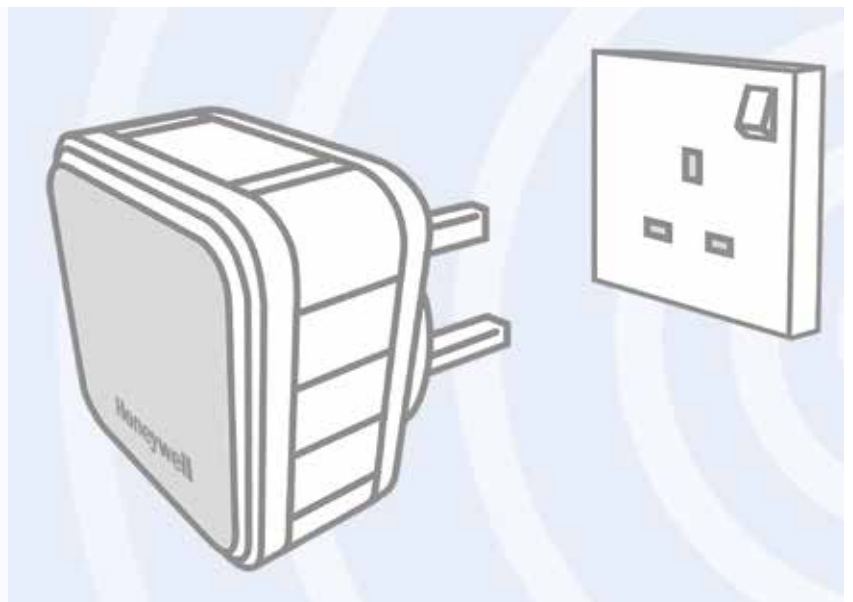

Portable Doorbells

Portable doorbells have an outstanding range, meaning you can take them with you around the home and garden so you'll never miss a visitor or delivery again.

Plug-in Doorbells

Plug-in doorbells are always powered and ready to go. Our range features such benefits as our innovative nightlight mode, as well as USB charging, so you're able to charge phones and tablets.

Home and Garden Kits

Never miss a visitor again with this flexible doorbell kit. Place the plug-in doorbell inside your home and take the portable doorbell with you into the garden, so you'll always know when someone's at the door.

Front and Back Door Kits

Front and back door kits provide a simple, hassle-free solution for your home, providing two pushes that are pre-linked to one doorbell so you'll never miss a visitor again.

Series 9

flexible exceptional
beautifully designed

Series 9 represents the very best of Honeywell's doorbells that have been designed to work in perfect harmony with family homes and busy lifestyles. Portable, versatile and innovative, they grow with your family and adapt to suit your lifestyle.

Featuring Honeywell ActivLink™ technology, these doorbells boast an impressive 200m wireless range, meaning they can be carried throughout the home and garden and still let you know when there's a visitor at the door. ActivLink™ also enables our doorbells to link with our home alarm products, such as Honeywell door and window sensors or Honeywell wireless motion sensors to create simple early alert and door entry systems for added peace of mind.

Simple to set up and install, Honeywell Series 9 doorbells are pre-linked and ready to go from the moment of purchase, with complete peace of mind thanks to a 5 year battery life, and a 2 year product guarantee.

Series 5

stylish compact
designer doorbells

Series 5 doorbells are, quite simply, style personified. Designed to be compact and chic, but packed with amazing features, their sleek design allows them to blend seamlessly into any home.

Featuring portable doorbells for those families who need flexibility, and plug-in kits suited to active households who want to fit and forget, there's a Series 5 doorbell to suit every home, from busy couples to young families, and everyone in between.

Simple to install and set-up to work straight out of the box, all our Series 5 doorbells benefit from Honeywell ActivLink™ technology, which provides incredibly reliable wireless connectivity and improved battery life of up to 2 years, all supported by our 2 year product guarantee.

Pushes and accessories

Honeywell door pushes are the best on the market, teaming great functionality with a best in class design. All come with a LED confidence light, and our innovative security feature called secret knock, which plays an alternative melody when the button is pushed three times in quick succession, letting residents know that it's family or friends at the door.

For total peace of mind, add an accessory product to your doorbell, creating your own doorbell alert system. Link your doorbell to a Honeywell wireless motion sensor, and receive an early alert as visitors approach your home, or add a Honeywell wireless door and window sensor for a warning every time a door is opened.

All pushes and accessories feature Honeywell ActivLink™ technology, which delivers a wider range capability, improved battery life, and a consistent connection that's immune to signal interference, making them the most efficient and reliable on the market.

		Unit Barcode: 5004100965738
DCP311G	Wireless push button with LED confidence light – Portrait, Grey	
	<ul style="list-style-type: none"> • Up to 200m wireless range • LED Confidence light • Secret Knock function • Easy open battery compartment • Up to 2 years battery life • Low battery indicator • Waterproof (IP55) • Easy installation – no wiring required • Fixings included 	Push Button (grey): Dimensions: 30 x 70 x 16mm Batteries: 1 x CR2032 (3V) (included)
		Unit Barcode: 5004100965745
DCP511	Wireless push button with nameplate and LED confidence light – Offset Landscape, White	
	<ul style="list-style-type: none"> • Up to 200m wireless range • Push name plate • LED Confidence light • Secret Knock function • Easy open battery compartment • Up to 2 years battery life • Low battery indicator • Waterproof (IP55) • Easy installation – no wiring required • Fixings included 	Push Button (white): Dimensions: 30 x 70 x 16mm Batteries: 1 x CR2032 (3V) (included)
		Unit Barcode: 5004100965752

HS3MAG1N	Wireless door and window sensor – White	
	<ul style="list-style-type: none"> • Up to 200m wireless range • Easy open battery compartment • Up to 2 years battery life • Low battery indicator • Easy installation – no wiring required • Fixings included 	Dimensions: 71 x 40 x 14mm Batteries: 1 x CR2032 (3V) (included)
	  	Unit Barcode: 5004100965936
L430S	Wireless Motion Sensor (IP54) – White	
	<ul style="list-style-type: none"> • Monitors large areas with 140 degree and 12m sensing range • Up to 150m wireless range • Up to 2 years battery life • Low battery indicator • Waterproof (IP54) • Easy installation – no wiring required • Fixings included 	Dimensions: 111 x 73 x 93mm Batteries: 1 x 9V PP3 (6LR61) (not included)
	  	Unit Barcode: 5004100967428
DCP917S	Doorbell wired to wireless converter kit - White	
	<ul style="list-style-type: none"> • Wire your existing push button to the converter • Link the converter to any Honeywell wireless portable doorbell • Up to 200m wireless range • Easy open battery compartment • Up to 2 years battery life • Low battery indicator • Easy installation – push fit connectors • Fixings included 	Dimensions: 80 x 64 x 15.9mm Batteries: 1 x CR2032 (3V) (included)
	 	Unit Barcode: 5004100967541
