Ultra Installation System
Ultra-efficient installation solutions

Cable Management System

Schneider Electric

Efficient use of time and money is good for you, and good for your customers.

Ultra is a simple and smart installation system made from environmentally friendly materials.

Self-adhesive tape for shorter installation time
Self-adhesive tape makes installation easier and reduces installation time significantly. This is available as an option on all sizes. Pre-punched holes in the trunking base allow fast permanent fixation to the wall, once the trunking base is in the correct position.

Ultra mini-trunking

For cable distribution

Ultra mini-trunking is suitable for smaller installations in both commercial and residential projects. It is available in 4 sizes, from 16x16 to 40x25 mm. All sizes are available with self-adhesive tape for faster and easier installation and come in 2m or 3m lengths. Corners, bends, T-pieces, etc are made of ABS. The trunking is made of self-extinguishing, cadmium and lead-free high-grade PVC, creating an excellent surface finish.

Adjustable corners
The corners are delivered in one piece and are adjustable to perfectly fit the building construction deviations.

Pre-punched holes
The trunking base has pre-punched oval mounting holes every 23cm to make the installation fast and secure.

Secure snap-in
The design of the profile, with a secure snap-in front cover, makes it easy and fast to work with. Once snapped in, the cover stays tightly in place.

As a global specialist in energy management with operations in more than 100 countries, Schneider Electric offers integrated solutions across multiple market segments, including leadership positions in Utilities & Infrastructures, Industries & Machine Manufacturers, Non-residential Buildings, Data Centres & Networks and in Residential.

Focused on making energy safe, reliable, efficient, productive and green, the Group's 130,000 plus employees achieved sales of 22.4 billion euros in 2011, through an active commitment to help individuals and organisations make the most of their energy.

We are changing our brand names and becoming one Schneider Electric. You'll get the same great quality products, but from one name you can remember and trust. This provides you and your customers with the reassurance associated with Schneider Electric.

Some of our market leading brands have already become Schneider Electric including **Merlin Gerin, Telemecanique, Square D, GET, Mita, Sarel, Himel, Thorsman, Towe**r and **TAC**.

Working as one Schneider Electric makes it clearer that our ranges are highly compatible for integrated solutions.
