SWIFTS CABLE TRAY JUST GOT

FASTER

...WITH SWIFTCLIP

Swifts cable tray is packed with time-saving design features that make it quicker and easier to get the job done

Now, Legrand has applied its innovative thinking and heritage in cable management to make it even faster.

Introducing Swiftclip: the new, fast-fit alternative to conventional nuts and bolts that seamlessly connects lengths and fittings, making light work of any installation.

SEE SWIFTCLIP IN ACTION

Are you ready to experience Swiftclip in action, as it seamlessly connects Swifts cable tray lengths to lengths and lengths to fittings in a simple, rapid movement?

**SWIFTCLIP CONNECTS
LENGTH TO LENGTH
AND LENGTH TO FITTING**

READY...

Locate coupler across underside of tray joint.

SET...

Insert joggled head of the Swiftclip through both tray and coupler slots.

GO.

Pass each Swiftclip leg through the tray and coupler and you're done.

**4 TIMES
FASTER TO FIT**

Independent tests by BSRIA confirm that Swiftclip is four times faster to fit than standard nuts and bolts.* With just two clips per joint, it not only saves on the number of components needed, but also saves on time, meaning a reduced total installed cost.

**STRONGER,
FASTER, FITTER**

Swiftclip isn't just built for speed. It also offers uncompromised strength that meets the requirements of British Standards.

**COMPATIBLE WITH
EXISTING SYSTEM**

Designed to integrate with the existing Swifts cable tray system, Swiftclip can be used with medium (MRF) and heavy duty (SRF) in 50 to 300mm widths. The entire system offers excellent earth continuity without the use of additional components.

**GALVANISED
OPTIONS**

Available to suit external and internal applications, Swiftclip ensures your Swifts installation will stand the test of time.

*When fitting length to length or length to fitting. Full report available on request from Legrand.
