

UNITRUNK

Total Cable Management Solutions

SECTION 1

STANDARD TRUNKING SYSTEMS

Unitrunk Cable Trunking is a complete range of trunking and fittings manufactured to standards as described in BS EN 50085-1:2005 and is manufactured throughout in best quality hot dipped galvanised sheet steel to BS EN 10346:2009 giving maximum protection from corrosion. Standard Cable Trunking is manufactured and stocked in 3 metre lengths (other lengths available on request please refer to our code guide at the back of this section).

- The Trunking has machine formed inturned, strengthening flanges.
- The lid incorporates a quick action metal locking device operated by a slotted stud. The slot indicates the position of the locking bar. - (Note lid is secured using turnbuckle type fastener)
- Each length of Standard Trunking is supplied complete with lid, Coupling, Screws and Nuts.
- Fittings are manufactured from galvanised sheet steel to match the Trunking.
- Bends, Elbows, Tees and Intersection Boxes are complete with integral couplings.
- Special fittings such as OffSets, Risers, Unequal Tees and Bends can be made to order.
- All dimensions relate to the inside measurement.
