FRIEDHELM LOH GROUP

Complex made simple

Eplan and Rittal are powerful partners in the game plan to optimise and streamline value chains. Our solutions speed up your processes and boost your productivity.

Your value chain is optimised and streamlined at every stage in the process, from engineering, purchasing and manufacturing, through to operations and IT. We support you to emerge as a winner through process streamlining in the goal to achieve the new Industry 4.0 standard.

Our approach is simple: The solutions our customers need tomorrow have been developed by us yesterday and are already in stock today.

Our thinking is in sync with your processes.

1 Engineering

Digitisation and prototyping boost productivity

The key to greater productivity in enclosure manufacturing lies in digital integration and end-to-end data transfer across the entire value chain. Digital prototyping from the outset, with the digital twin at its heart, provides the basis for rapid links between processes, systems and beyond.

The complete range of Eplan and Rittal tools is available to you for every aspect of engineering. Up-to-date product data from Rittal and other manufacturers can be accessed quickly via the EPLAN Data Portal. With EPLAN Pro Panel, you are ideally equipped for the future with 3D-assisted design.

2 Sourcing

Do it faster, with configuration aids and our online shop

The Rittal Configuration System allows you to select your racks and enclosures quickly and easily at the click of a button, and then order them directly from the online shop. What's more, you benefit from error-free product & accessory configurations and detailed mechanical plans. It's never been easier to configure and order your perfect solution!

As an innovative and technological leader, Rittal uses automated production techniques based on Industry 4.0 principles to manufacture its world-leading products. Our mission is to manufacture rack and enclosure systems as efficiently and perfectly as possible, as at the digitally integrated Rittal plant in Haiger, for example.

Standard products are delivered within 24/48 hours in Germany/Europe, in line with our brand promise: "Rittal – The System. Faster, better, everywhere."

3 Manufacturing

Do it better with Industry 4.0 and automation

For customised machining of racks and enclosures with the same standards of precision and quality of volume production, Rittal offers fully automated machines for machining, component mounting and wire processing. EPLAN Smart Wiring makes wiring easier than ever before. All work stations are interlinked into one seamless, efficient process using data from the virtual prototype.

Rittal Automation Systems supplies all the automation support you need for faster, easier and more accurate panel building that can be duplicated time and again – your ideal workflow from a single source.

4 Operations

Do it more reliably with our smart, global service

We're there for you, whether you are looking to replace vital cooling unit components or your systems need an efficiency check.

After commissioning, machines and systems must ensure reliable long-term operation as the key to efficient, high-performance production. Keep an eye on the status of your current project data, from any location, with the cloud-based solution EPLAN eVIEW. And use the Rittal global service to minimise downtime and boost efficiency.

We think ahead: With IoT links to our cooling units and chillers, for example, predictive maintenance is already a reality.

Operations

Service

Find your solution from page 1132 onwards.

Become more future-proofed

With the IT platform and edge cloud technology

The latest IT technologies and applications – from cloud and edge computing, to analytics and AI, through to 5G – will shape the production of the future.

Processing production data in real time, while ensuring data sovereignty and value creation, is a breeze with the turnkey edge cloud data centre ONCITE.

What is more, the Rittal IT platform with its modular system design will help you to master all IT scenarios quickly and easily, from rack installations through to edge and hyperscale data centres.

Monitoring

Data Analysis

Find your solution from page 834/661 onwards.

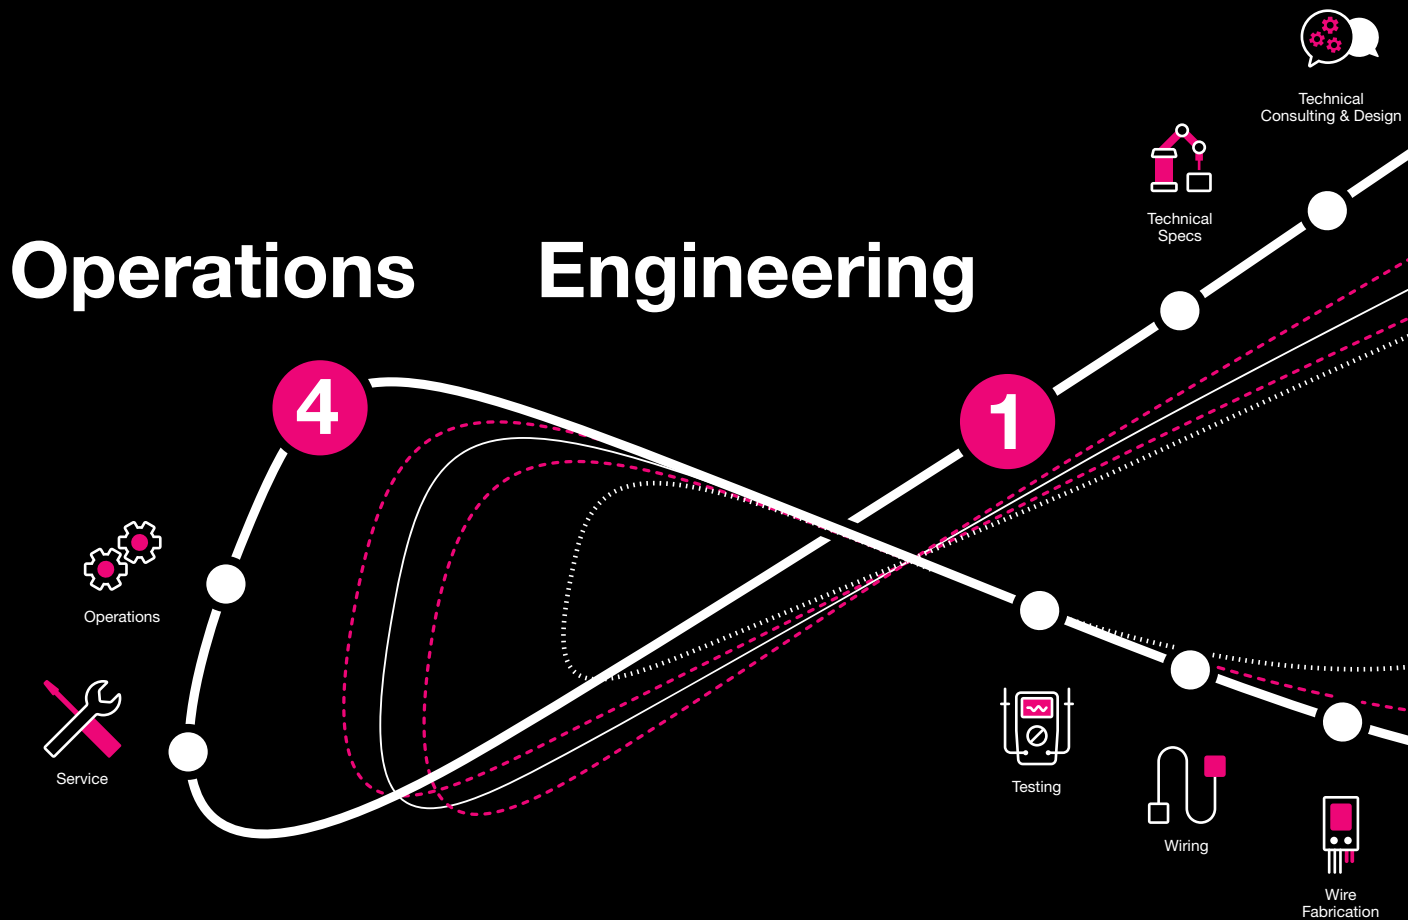

Be more competitive

With know-how and interplay

Combining engineering solutions from Eplan with system and automation expertise from Rittal will help to optimise and streamline your panel building and switchgear manufacturing processes across the entire value chain.

Invest in your future with Eplan and Rittal.
The future has arrived.

Eplan delivers software and service in all fields of electrical engineering, automation and mechatronics. We have developed one of the world's leading software solutions for mechanical & plant engineering and enclosure manufacturing.

“Efficient engineering” is our motto. When it comes to streamlining challenging engineering processes, Eplan is your ideal partner. Whether you are a small or a large company, we can help you deploy your expertise more efficiently.

THE EPLAN PROCESS AT A GLANCE

When it comes to your design, engineering and manufacturing tasks, having the correct expert systems is one thing. But what about the connections between the systems?
And the single source of truth (SSOT)?

We examine your process, across the full range of different operations to optimise greater efficiency and data continuity:

- Interdisciplinary communication
- Macros and configuration
- Two-way data exchange
- Interfaces to ERP/PDM
- Data forwarding to enclosure manufacturing
- Efficiency via cloud solutions

From engineering to production

One thing is clear: the greatest potential for efficiency improvements lies in the process. Smooth interactions between all systems, from engineering through to production, are the key to creating more value.

Aim for reuse

Similarly, structuring your projects and templates correctly will significantly enhance the opportunities to reuse them. We can help you!

A standardised database for your project

At the start of any project, you should ask yourself: Which components do we need for planning? The EPLAN Data Portal can supply these components and complete your data in a logical fashion.

EPLAN

efficient engineering.

EPLAN SOLUTIONS – YOUR GATEWAY TO GREATER EFFICIENCY

EPLAN helps you to develop a cross-disciplinary approach to your engineering.

The EPLAN platform provides the basis for this, by linking our software solutions together. For you, this translates into significant efficiency gains when working on your EPLAN project, because your digital data flows seamlessly from solution to solution, becoming further augmented with every process step.

EPLAN ePULSE additionally provides access to an innovative cloud system, genuinely adding value to multi-location projects, for example.

The EPLAN platform and EPLAN ePULSE combine to create EPLAN Solutions, your key to cutting-edge advanced engineering.

“By digitizing your processes and standardizing your data, you will retain a long-term competitive edge.

We can support you, with open systems and professional advice to safeguard your efficient engineering for the future.”

Bernd Schewior,
Vice President Professional Services EPLAN

ENGINEERING WITH ITS FINGER ON THE PULSE

EPLAN platform

The EPLAN platform combines software solutions for every engineering discipline, from pre-planning, to project management, through to the construction of switchgear and cable harnesses. It comprises:

- Automated Engineering: EPLAN Engineering Configuration (EEC) provides you with a versatile tool for the design and use of configuration interfaces. EPLAN Cograeer provides you with the basis for automated generation of wiring schematics.
- EPLAN Preplanning helps you to record engineering data even at the preplanning stage.
- EPLAN Fluid is your engineering tool specifically designed for the project management and automatic documentation of circuits for fluid engineering systems.
- EPLAN Electric P8 helps you project-plan your electrical design for machinery and equipment in an engineering solution at the heart of the EPLAN platform.
- With EPLAN Pro Panel you devise and design control cabinets, switchgear and power distribution systems for energy supply in 3D.
- Use EPLAN Harness proD for efficient design and documentation of cables and cable harnesses in 3D and 2D.

EPLAN Cogineer

Maximise the potential of your engineering in next to no time with EPLAN Cogineer and boost the quality of your electrical and fluid documentation. Use your existing circuit templates to build a macro-library, and generate wiring schematics automatically at the click of a button with EPLAN Cogineer. What is more, you will benefit from the innovative techniques and add value to your engineering without a lengthy implementation process, across all industries and in companies of all sizes. With EPLAN Cogineer you can now compile circuit diagrams from a template library with just a few clicks directly from your Web browser.

Users of EPLAN ePULSE have automatic access to a free premium version of EPLAN Cogineer if already working with the Eplan platform.

FAQs

■ How will EPLAN Cogineer improve the quality of my projects?

EPLAN Cogineer is based on the standardised reuse of Eplan macros. Once correctly created, they work like a high-quality library, thus avoiding typical copy-and-paste errors. This saves time and money.

■ Do I need extensive prior knowledge to be able to work with EPLAN Cogineer?

You do not need expert knowledge of Eplan to be able to generate wiring schematics to the customer's specifications; training is fast and straightforward. Nor do you need any knowledge of advanced programming languages.

■ Can I benefit from EPLAN Cogineer even at the implementation phase?

Yes, because with EPLAN Cogineer you have the option of gradually phasing in versions of automated wiring schematics.

EPLAN Engineering Configuration (EEC)

With EPLAN Engineering Configuration (EEC), you map your product portfolio in a modular system with interdisciplinary functional units. As a result, EEC is your go-to tool for the design and application of configuration interfaces and the automatic generation of documents. This multi-disciplinary approach integrates sales, order processing, mechanical engineering, electrical and control engineering as well as production and documentation. Standardised, recognizable structures also make the commissioning and servicing of your products easier.

Your benefits

- Benefit from automated data reuse with simple product structuring and the creation of modules.
- Save time and money, and optimise the quality of your documentation.
- Significantly shorten your production and delivery times, which in turn will cut project throughput times at your company.
- A wide range of distinct and varied specification parameters are supported and enable the handling of customer-specific requirements.
- EEC can be seamlessly integrated into existing system structures and supports consistent workflows.

EPLAN solutions

EPLAN Preplanning

EPLAN Preplanning helps you to log your engineering data even at the preplanning stage. For example, this might include the actuators and sensors in a system, machine or building. You can import data from external spreadsheets as well as making a graphical record of plant and machine overviews and process and instrumentation diagrams. This allows you to generate the initial data sheets and specifications for material procurement quickly. Downstream engineering planning phases can also access the collated and augmented data from EPLAN Preplanning.

Your benefits

- You have a clearly structured overview of all plant, machine and building data at all times.
- Engineering data logged early on in the project remains readily accessible to anyone working on the project for its entire duration.
- Preplan basic information such as signal, pipeline and cable data in a graphical format to guide you more easily through the project.
- By using EPLAN Preplanning at the quote preparation phase and seamlessly transferring this information to engineering, you can boost the quality of your data throughout the entire planning process.

www.eplan-software.com/solutions

EPLAN Fluid

EPLAN Fluid is your engineering tool specifically designed for the project planning and automatic documentation of fluid circuits in hydraulics, pneumatics, cooling and lubrication. The direct link to the EPLAN platform also allows you to implement tasks from other engineering disciplines in parallel. Planning and production documents are derived from the same source.

Good to know

- Fluid engineering planning with EPLAN Fluid is compliant with the latest standard ISO 1219 or IEC 81346 with a mechatronic approach.
- Standards and expertise are stored in the system as macros for reuse.

EPLAN solutions

EPLAN Electric P8

EPLAN Electric P8 allows consistent, seamless, fast project planning of your electrical machinery and equipment designs in one engineering system. The software supports a range of engineering techniques, from manual generation through to standardised and template-based approaches. Once recorded in the circuit diagram, the machinery and equipment documentation is auto-completed using the project data. EPLAN Electric P8 automatically generates detailed evaluations on your behalf as an integral part of the project documentation. This can be supplied continuously or bundled at the end of the project, as you prefer. This allows you to supply all downstream process stages with the necessary engineering information: from seamless planning through to production, commissioning, maintenance and repair.

Your benefits

- Switch symbols are logically autoconnected in a flash.
- Choose between a graphical, logical or equipment-based project planning approach to support a variety of work processes.
- Evaluations such as terminal and cable plans or parts lists are generated automatically for you.
- Functions for processing mass data such as “search and replace” or “process in Excel” will accelerate your project planning while at the same time improving quality.

EPLAN Pro Panel

EPLAN Pro Panel Professional allows you to devise and design control cabinets, switchgear and power distribution systems for energy supply in 3D. This means you can solve a wide range of engineering tasks with just one software package: from the creation of electrical circuit diagrams, to planning the installation layout in 3D, through to the virtual laying of connections. What is more, EPLAN Pro Panel Professional allows for comprehensive improvements of the production processes in enclosure and switchgear manufacturing: A wide range of manufacturing data and information is supplied automatically, from component labelling through to support of the manual wiring process. In short, EPLAN Pro Panel Professional provides a solid foundation for the automation and streamlining of your enclosure manufacturing.

Your benefits

- From the creation of circuit diagrams to assembly layout to production integration, a single software package does it all.
- For more automated enclosure production, order information and comprehensive manufacturing documentation can be provided.
- Shorten throughput times and cut costs while maintaining a high standard of quality.
- Work profitably on any unit volume, from specific projects with a batch size of just 1 through to mass production.

www.eplan-software.com/solutions

EPLAN solutions

EPLAN Smart Wiring

EPLAN Smart Wiring is your virtual assistant for manual wiring in enclosure production. From the connection point through to the precise cable route, the software provides wiring experts with all the information they need in digital form, in 3D if required. You decide whether to wire the displayed connections individually or in a preset sequence.

Wiring status can be indicated with the traffic-light principle. If you need confirmation, you can call up the electrical wiring plan to cross-check, starting from each individual connection. Any anomalies can be forwarded directly to the planning department by email. Project data is made available on a central server, allowing you to produce multiple identical enclosures in parallel or collaborate with several wiring experts.

Your benefits

- As a wiring expert, you receive detailed step-by-step instructions for simple usage.
- Wiring without a wiring plan is also possible, this is stored in the assistant.
- Assembly layout, operating equipment, connections, connection setups and cable routes are clearly and comprehensively visualised.
- For any last minute changes, an automatic project adjustment capability helps to prevent errors.
- Status information supports the transfer of the project to several different employees and enables you to monitor the project.

www.eplan-software.com/solutions

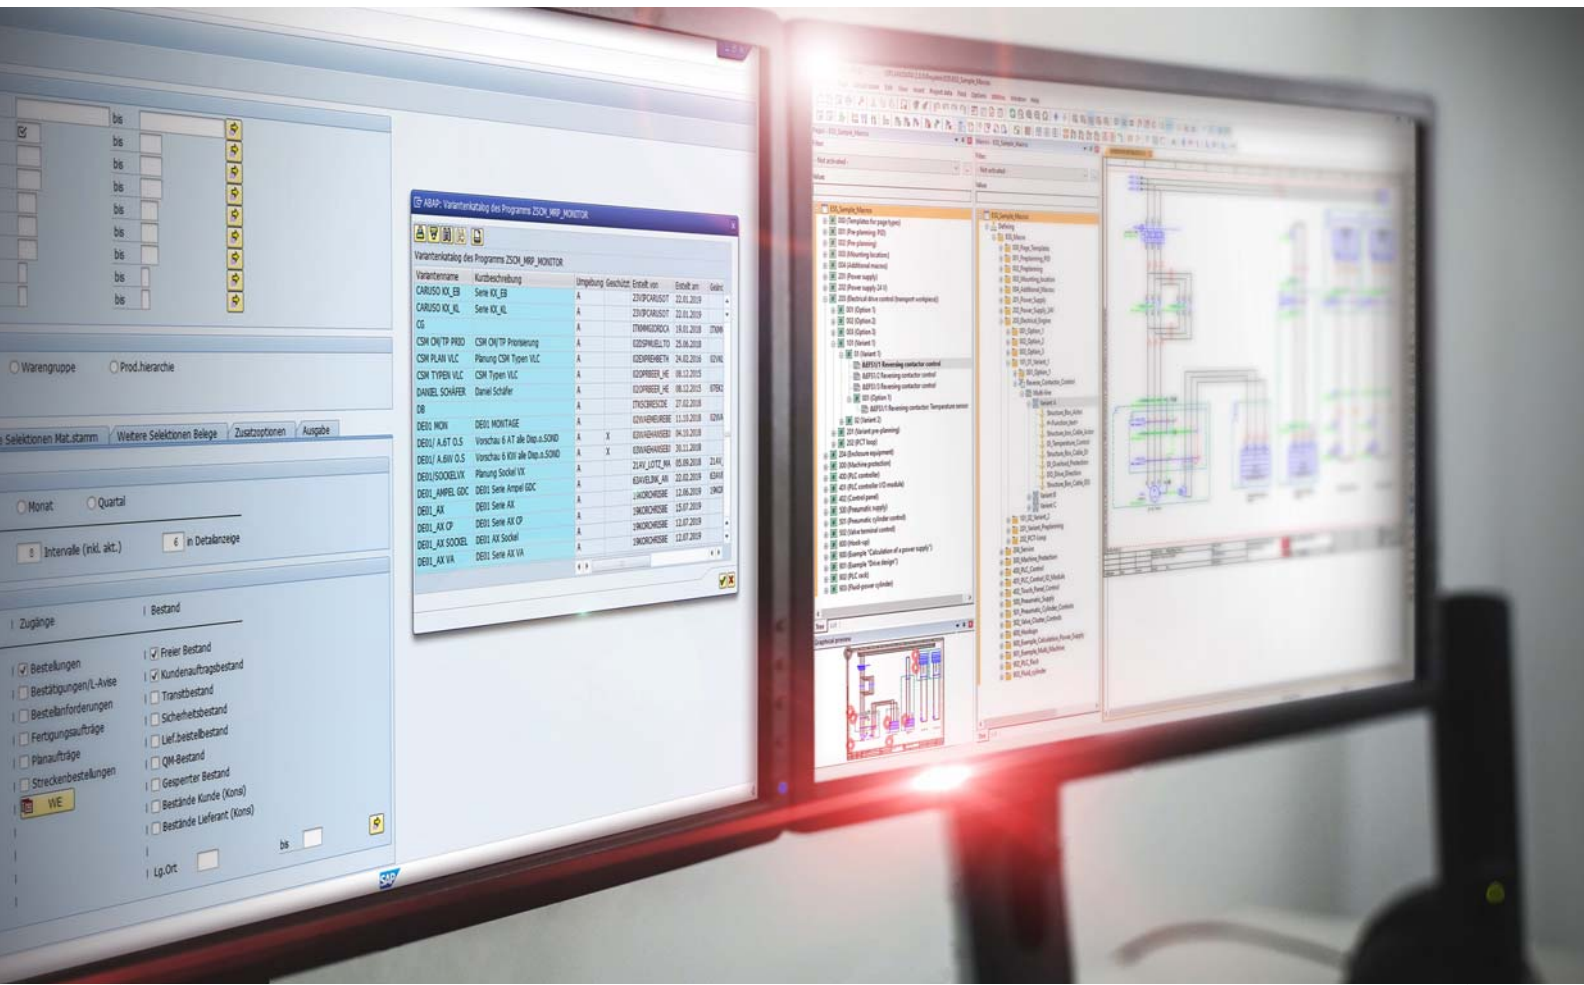

EPLAN Harness proD

EPLAN Harness proD is used for the efficient design and documentation of cables and cable harnesses in 3D and 2D. The software allows you to automate typical work operations in cable and cable harness design – from transferring the connection information from the EPLAN platform, to intuitive cable laying, through to generation of the production documents. The software is open to MCAD systems and is therefore seamlessly integrated into existing system landscapes. The cable and cable harness design does not depend on the availability of a mechanical prototype. You can upgrade the digital twin with the relevant electrical information even during the engineering process.

Your benefits

- The intuitive 3D environment makes it easier for you to design cables and cable harnesses.
- The required production documents including pinboard drawing and cable drawing can be derived automatically. This saves you time and money and enhances the quality of your documentation.
- Electrical pathways are more easily distinguished and wires and cables can be routed automatically.

EPLAN solutions

EPLAN ERP/PDM Integration Suite

Seamless data flows ensure transparency in the product development process. The EPLAN Integration Suite supports integration into existing ERP, PDM and PLM system protocols. This helps you to optimise your work processes, from the circuit diagram through to the master data. Fast, specific data is supplied in a two-way exchange with the systems without needing to leave your work space within the EPLAN platform.

EPLAN Data Portal

The EPLAN Data Portal gives you direct online access to high-quality product catalogues from a host of component manufacturers. All products within the EPLAN platform have equal access to this Web service. By dragging and dropping the available components into the EPLAN documentation, you can reduce project planning work and upgrade the quality of machine and system documentation. The time savings achieved with the EPLAN Data Portal at the start of project planning extend right through to commissioning: The representation of a device in various system plans is always based on a uniform source.

Your benefits

- Quickly and easily located standardised, intelligent, globally valid device data.
- Minimise the effort required for master data maintenance.
- Benefit from significant project planning time savings compared with manual generation.
- Significantly enhance the quality of your documentation.

www.eplan-software.com/eplan-data-portal

EPLAN solutions

EPLAN eBUILD

EPLAN eBUILD is a member of the EPLAN ePULSE family, which brings together open and cloud-based data and projects, disciplines and engineers worldwide. The automated creation of wiring schematics helps users to take their first steps towards automated engineering.

Your benefits

- Free template libraries, including logic and variance, are available to use.
- Readily available in the Eplan platform (from version 2.8, hotfix 3).
- New template libraries from well-known manufacturers are continuously being added to EPLAN ePULSE as cloud-based options.
- This tool is suitable for universal use across all industries and is international.

www.eplan-software.com/solutions

EPLAN eVIEW

With EPLAN eVIEW, your Eplan project is uploaded to the cloud for you. This means that any data created and added to in the EPLAN platform is evident to everyone involved in the project throughout the entire value chain, from engineering, production and assembly, through to maintenance and servicing. EPLAN eVIEW allows you to view project data from any location via your browser and comment on any amendments. The software guides you easily and intuitively through the redlining process. This enables simple communication and collaboration across different projects, departments and companies, so you can collaborate securely and transparently with different teams, suppliers and service-providers. Everything is paperless, using data directly from the cloud.

Good to know

- EPLAN eVIEW allows you to access and view the status of a distinct EPLAN project at any time.
- Clearly definable access rights ensure data privacy.
- A consistent redlining process supports communication between the engineering team and the local commissioning and servicing teams.
- Cloud-to-cloud: EPLAN eVIEW can also be linked to your own in-house cloud solutions.

Polycarbonate enclosures PK

PK accessories Page 47 System accessories Page 877 Cable gland, polyamide Page 1056

Applications:

- Ambient temperature range: -35 °C...+80 °C
- The specified temperatures may be limited by the installed equipment

Material:

- Enclosure: Fibreglass-reinforced polycarbonate
- Cover: Fibreglass-reinforced polycarbonate, all-round foamed-in PU seal
- Cover screws: Polyamide
- Insulating bungs: Polyethylene

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- IP 66

Protection category NEMA:

- NEMA 4X

Supply includes:

- Enclosure with cover
- Cover screws
- Insulating bungs for wall mounting screws

Approvals:

- UL
- cUL
- DNV-GL

Hinge

for PK

For hinged attachment of covers. The supplied drilling template ensures problem-free assembly.

Material:

- Polystyrene

Colour:

- Similar to RAL 7035

Supply includes:

- 20 hinges
- Assembly parts

For enclosure width mm	For enclosure height mm	Material	Packs of	Model No.
≥ 180	≥ 110	Polystyrene	20 pc(s).	9581.000

Wall mounting bracket

for PK

The enclosure can be screwed to the wall using four wall mounting brackets. The bracket is securely attached to the enclosure by means of pins.

Applications:

- For all PK enclosures

Material:

- Polyamide, grey

Colour:

- Similar to RAL 7035

Packs of	Model No.
40 pc(s).	9583.000

Cast aluminium enclosures GA

GA accessories Page 49 System accessories Page 877

Material:

- Enclosure: Cast aluminium
- Cover: Cast aluminium, all-round CR cellular rubber cord seal

Surface finish:

- Textured paint

Colour:

- RAL 7001

Protection category IP to IEC 60 529:

- IP 66

Protection category NEMA:

- NEMA 4

Supply includes:

- Enclosure with cover
- Cover screws, captive
- Screws for attaching support rails
- Screw for connection of the PE conductor

Terminal boxes KX – Added precision

Precision

- The mini cam lock is very simple to operate. A quarter of a turn is sufficient to correctly centre the cover while locking; this ensures all-round air-tight positioning.

Ease of assembly

- The standard eyelet in the rear panel allows rapid screw-fastening of the wall mounting bracket from the outside with a self-tapping screw; no need for a lock nut on the inside. The high protection category is retained in full.

Space utilisation

- The support rails may optionally be fitted on the front of the integral perforated mounting strip or, to maximise the enclosure depth, directly onto the rear wall of the enclosure.

Potential equalisation

- Installation of the gland plate includes automatic potential equalisation. Contact is made by two self-tapping screws guided through special holes.

Small enclosures KX

System accessories Page 877 Terminal boxes KX, stainless steel Page 230 Ex enclosures Page 257 Hygienic Design Page 217

Material:

- Enclosure: Sheet steel
- Cover: Sheet steel, all-round foamed-in PU seal

System accessories Page 877 **Terminal boxes KX, stainless steel** Page 230 **Ex enclosures** Page 257 **Hygienic Design** Page 217

Material:

- Enclosure: Sheet steel
- Cover: Sheet steel, all-round foamed-in PU seal

Surface finish:

- Enclosure and cover: Dipcoat primed, powder-coated on the outside, textured paint

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- IP 55

NEMA protection category:

- NEMA 12

Supply includes:

- Enclosure with cover
- Mini cam locks
- Sheet steel gland plates with seals and assembly parts

Approvals:

- UL
 - cUL
- Further approvals can be found on the Internet.

Rittal – The System.

Wall mounting bracket

see page 966

UL conformity

Guaranteed when Rittal accessory components are used

E-Box KX – Added time savings

Protection

- The deliberately slimline enclosure edge fold provides broad, secure contact with the seamless PU foam seal and helps preserve the protection category of IP 66.

Space

- The 180° door hinges create more space and improve access to the enclosure interior.

Ease of assembly

- The standard eyelet in the rear panel allows rapid screw-fastening of the wall mounting bracket from the outside with a self-tapping screw; no need for a lock nut on the inside. The high protection category is retained in full.

Speed

- The mounting plate and door may be taken straight from the packet and are ready for processing.

Small enclosures KX

System accessories Page 877 E-Box KX, stainless steel Page 232 Ex enclosures Page 257

Material:

- Enclosure: Sheet steel
- Door: Sheet steel, all-round foamed-in PU seal

Surface finish:

- Enclosure and door: Dipcoat-primed, powder-coated on the outside, textured paint
- Mounting plate: Zinc-plated

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- IP 66

Protection category NEMA:

- NEMA 4

Supply includes:

- Enclosure with door
- Mounting plate
- Cam lock with 3 mm double-bit insert

Approvals:

- UL
- cUL

Further approvals can be found on the Internet.

¹⁾ Must be cut to length accordingly

Rittal – The System.

Sealing frame, modular

see page 1048

Bus enclosures KX – Added clarity

Flexibility

- Depending on requirements, the enclosures may be fitted with support rails or mounting plates.
- The support rails may optionally be fitted on the front of the integral perforated mounting strip or, to maximise the enclosure depth, directly onto the rear wall of the enclosure.

Precision

- The quick-release fastener is very simple to operate. A quarter of a turn is sufficient to correctly centre the cover while locking; this ensures all-round air-tight positioning.

Access

- The wide door opening angle of up to 180° gives you plenty of space to fit and replace modules quickly and easily. The large viewing window is convenient for continuously monitoring the components inside the enclosure.

Ease of assembly

- The standard eyelet in the rear panel allows rapid screw-fastening of the wall mounting bracket from the outside with a self-tapping screw; no need for a lock nut on the inside. The high protection category is retained in full.

Small enclosures KX

System accessories Page 877 Bus enclosures KX, stainless steel Page 234

Material:

- Enclosure: Sheet steel
- Cover: Sheet steel, all-round foamed-in PU seal
- Viewing window: Polycarbonate, 4 mm

Surface finish:

- Enclosure and cover: Dipcoat-primed, powder-coated on the outside, textured paint

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- IP 65

Protection category NEMA:

- NEMA 12

Supply includes:

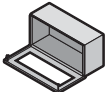

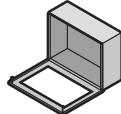

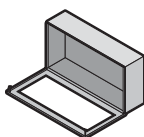

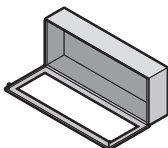

- Enclosure with hinged cover
- Viewing window in cover
- Mini cam lock

Approvals:

- UL
- cUL

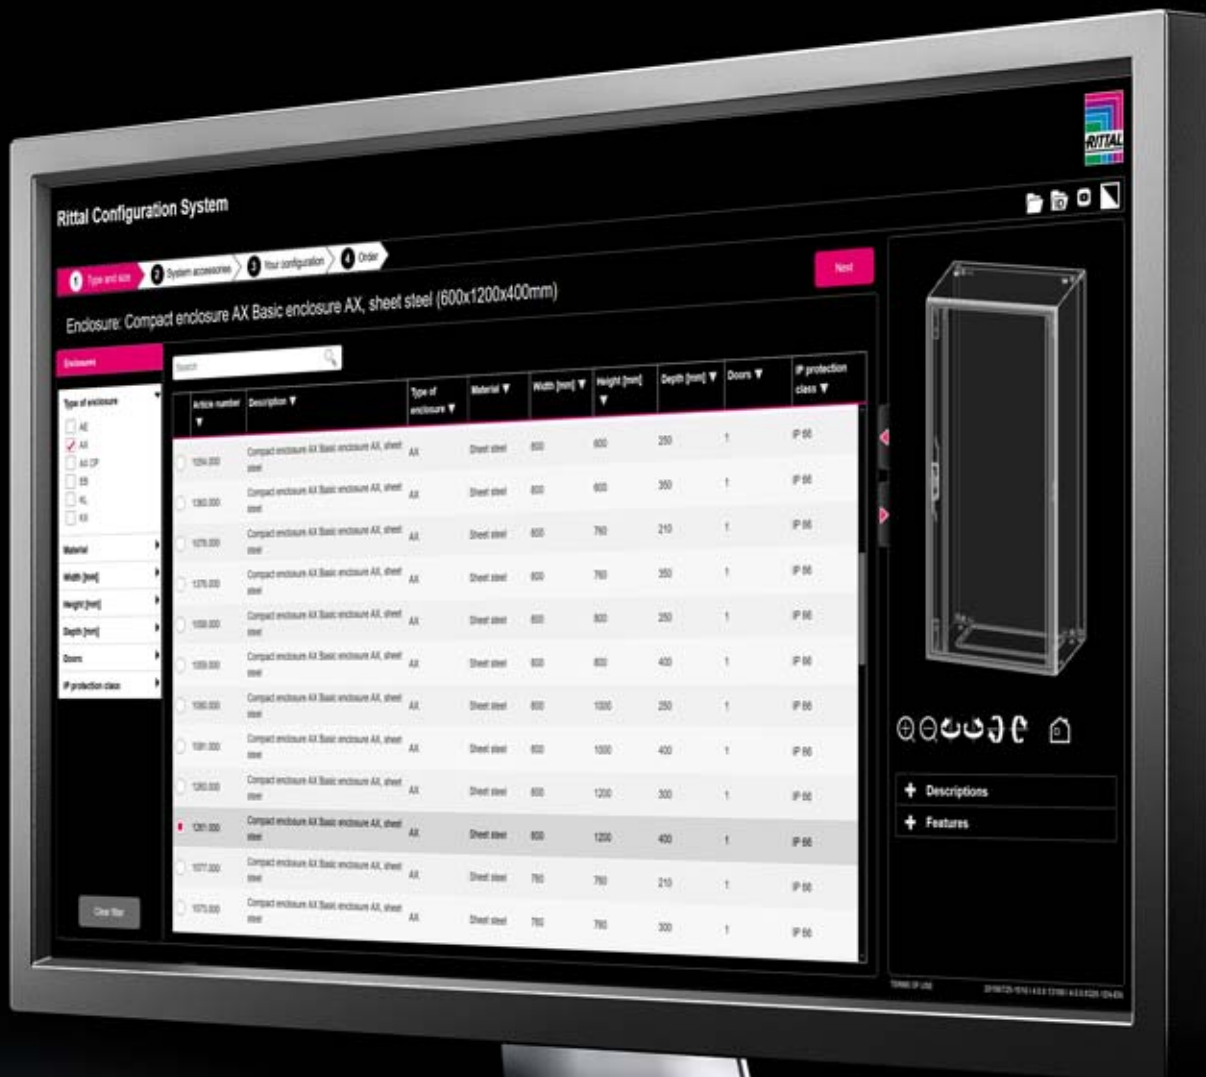

Further approvals can be found on the Internet.

Compact enclosures AX – Product comparison

Basic enclosure AX, single-door, sheet steel	Basic enclosure AX, single door, stainless steel	Basic enclosure AX, two-door, sheet steel	
All enclosure panels may be taken directly from the packaging, without dismantling, and machined			
Interior installation on a 25 mm pitch pattern; no machining required			
Wall mounting brackets are easily secured from the outside with a self-tapping screw while retaining the UL	There is no opening to the wall mounting for hygiene reasons, but the position is prepunched and can be drilled without having to measure and mark out	Wall mounting brackets are easily secured from the outside with a self-tapping screw while retaining the UL	
A QR code on the enclosure, door and mounting plate allows seamless monitoring, from receipt of the incoming goods through to delivery of the finished product			
Simple earthing, even retrospectively, using machined keyholes in the mounting plate, and in the case of sheet steel enclosures, in the perforated door strip			
For enclosures with a cam lock, the door and cam locks are rapidly fitted with no need for tools. For enclosures with 3-point locking system, the doors and locks are fully assembled. The locked door is easily relocated without machining the enclosure.			
Up to 33% larger gland plates support cable entry with ever-higher packing densities	The fully sealed base ensures a high protection category of up to IP 66	Up to 33% larger gland plates support cable entry with ever-higher packing densities	
The three-phase surface treatment provides optimum protection against corrosion and is resistant to mineral oils, lubricants, machining emulsions and many solvents	Stainless steel 1.4301 (AISI 304) and stainless steel 1.4404 (AISI 316L) meet maximum hygiene and corrosion protection requirements	The three-phase surface treatment provides optimum protection against corrosion and is resistant to mineral oils, lubricants, machining emulsions and many solvents

Compact enclosures AX – Product comparison

	Basic enclosure AX, two-door, sheet steel	Plastic enclosure AX, without viewing window	Plastic enclosure AX, with viewing window
	All enclosure panels may be taken directly from the packaging, without dismantling, and machined	Fully preassembled enclosure	
	Interior installation on a 25 mm pitch pattern; no machining required	Numerous mounting lugs for direct mounting of punched sections and rails for interior installation on a 25 mm pitch pattern	
	There is no opening to the wall mounting for hygiene reasons, but the position is prepunched and can be drilled without having to measure and mark out	The wall mounting brackets are easily secured from the outside while retaining the UL	
	A QR code on the enclosure, door and mounting plate allows seamless monitoring, from receipt of the incoming goods through to delivery of the finished product		
	Simple earthing, even retrospectively, using machined keyholes in the mounting plate and perforated door strip	Simple earthing of the mounting plate, even retrospectively, using machined keyholes	
	The cam locks are rapidly fitted with no need for tools. For enclosures with a locking rod, the doors and locks are fully assembled.	The door hinge is easily swapped from right to left. The integral rain protection strip on the top and bottom of the door provides a double sealing level. The standard double-bit lock insert is easily exchanged for type A lock inserts.	
	The fully sealed base ensures a high protection category of up to IP 55	All-round cable entry is supported with the modular sealing frame and cable glands	
	Stainless steel 1.4301 (AISI 304) and stainless steel 1.4404 (AISI 316L) meet maximum hygiene and corrosion protection requirements	The enclosure is made from fibreglass-reinforced, UL-certified plastic with a high level of chemical and UV resistance, all-insulated and suitable for outdoor applications

□ Cam lock ■ 3-point locking system

Compact enclosures AX – Added protection

Flexibility/stability

- The integrated locators in the enclosure support the use of an interior installation rail for time-saving, precise installation with Rittal punched sections with mounting flanges and accessories.
- The height-flexible, form-fit rail used in the continuous pattern of locators for interior installation increases stability, especially with dynamic loads.

Protection

- The deliberately slimline enclosure edge fold provides broad, secure contact with the seamless PU foam seal and helps preserve the protection category (up to IP 66) and protection class IK 10.

Potential equalisation

- Special drilled holes in the gland plate ensure automatic potential equalisation during screw-fastening, which saves time and materials as well as enhancing safety.

Ease of assembly

- The standard eyelet in the rear panel allows rapid screw-fastening of the wall mounting bracket from the outside with a self-tapping screw; no need for a lock nut on the inside. The high protection category is retained in full.

Compact enclosures AX – Added efficiency

Ease of installation/flexibility

- Tool-free installation of the doors saves extra time. Simply position the door, press down on the hinge pin, and it's done.
- The AX door hinge allows you to swap the hinge to the opposite side, even with two-door enclosures, without any machining of the enclosure. This allows simple, fast relocation of the lockable door while the space-saving door population translates into extra space gains.

Area extension

- The perforated door strip with U extrusion and system punchings on a flexible 25 mm pitch pattern allows fast, simple extension of the installation area. Because it is compatible with Rittal system accessories, no door machining is required.

Time savings/rapid assembly

- Cam locks are supplied loose to allow unobstructed machining of the door. No time-consuming dismantling work is required in advance.
- Lock installation is fast and tool-free. Simply insert, lock into place, and voilà!

The perfect fit

- The runner on the perforated door strip ensures that even heavily populated doors fit precisely and are compliant with the protection category.

Compact enclosures AX – Added system benefits

Reliable engineering

- A wide range of conversion and planning tools are available to Rittal customers to support them with the automated production process and when working with a virtual prototype:
 - Configurators
 - Parts list converters
 - EPLAN Pro Panel
 - 2D/3D CAD data
 - ecl@ss Advanced
 - Technical documentation
 - Data for planners
 - Assembly videos

Digitalization

- The QR code on all machinable enclosure panels permits fully automated incorporation into the production workflow, for seamless digital monitoring from the incoming goods right through to the finished product.

Diverse industries

- The choice of sheet steel or stainless steel allows the AX to be used in any industry, at any location, in any climate, in any environment, and in a wide range of individual applications.

Time savings

- The process-optimised packaging concept means it can go straight into production, because all panels and cam locks are supplied unfitted, so no dismantling is required.

Enclosures

Compact enclosures AX

System accessories Page 877 AX stainless steel Page 236 AX plastic Page 92 Hygienic Design Page 217 Outdoor housing Page 958

Material:

- Enclosure: Sheet steel
- Door: Sheet steel, all-round foamed-in PU seal

Surface finish:

- Enclosure and door: Dipcoat-primed, powder-coated on the outside, textured paint
- Mounting plate: Zinc-plated

Colour:

- RAL 7035

Supply includes:

- Enclosure with door(s)
- Gland plate(s) in enclosure base

- Mounting plate
 - Perforated door strip
 - Lock: 3 mm double-bit
- Please note the product-specific scope of supply.

Approvals:

- UL
 - cUL
- Further approvals can be found on the Internet.

¹⁾ For two-door enclosures: Installation in the lockable door

Plastic enclosures AX – Added durability

Enclosures

- 14 different enclosure variants, with or without viewing panel
- Symmetrical layout means the enclosure is easily rotated through 180°
- Double seal with an integral rain protection strip on the top and bottom edge of the door to protect the seal from dust and rainwater
- Fibreglass-reinforced plastic with a high level of UV resistance

Siting

- Wall mounting brackets are easily secured from the outside while retaining the UL approval
- The pole clamp may be screw-fastened directly into the external threaded inserts
- Ideally suited for outdoor applications

Mounting plate

- The mounting plate is easily screw-fastened onto the pre-assembled bolts from the front
- Simple earthing of the mounting plate, even retrospectively, using machined keyholes
- If no mounting plate is used, top hat rails may be mounted directly onto the available mounting bosses

Interior installation

- Numerous mounting bosses for individual interior installation
- Interior installation on a 25 mm pitch pattern with universal bracket for mounting punched sections and rails
- Direct door installation with support strips and punched sections with mounting flanges 14 x 39 mm, for use as an additional mounting surface
- Door-operated switches may be attached directly to the mounting bosses

Plastic enclosures AX

System accessories Page 877 Ex enclosures Page 257

Material:

- Enclosure and door: Fibreglass-reinforced unsaturated polyester
- Fire protection corresponding to UL 94 V-0
- Door: All-round foamed-in PU seal
- Mounting plate: Sheet steel

Surface finish:

- Enclosure and door: Dyed plastic with no after-treatment
- Mounting plate: Zinc-plated

Colour:

- Similar to RAL 7035

Protection class:

- II at 1000 V AC

Protection category IP to IEC 60 529:

- IP 66

Protection category NEMA:

- NEMA 4X

Supply includes:

- Enclosure with hinged door, of all-round solid construction, 3 mm double-bit lock
- Door hinged on the right, may be swapped to the left
- Mounting plate
- Twin seal on the top and bottom edges of the door as integral rain protection strip

Please note the product-specific scope of supply.

Note:

- Interior installation screws are required to secure components inside the enclosure
- Components such as punched sections with mounting flanges may be attached on a 25 mm pitch pattern using the universal bracket

Approvals:

- UL
- cUL

Further approvals can be found on the Internet.

Plastic enclosures AX

Accessories

Mini-comfort handle AX

for AX plastic

The unlatched handle swivels to open the lock. Prepared for the installation of lock inserts or for the installation of standard commercially available 40 or 45 mm profile half-cylinders, as well as lock and push-button inserts.

Packs of	Model No.
1 pc(s).	1485.600
Lock inserts, type A	
7 mm square	2460.000
8 mm square	2461.000
7 mm triangular	2462.000
8 mm triangular	2463.000
Screwdriver	2464.000
Daimler insert	2465.000
3 mm double-bit	2466.000
Fiat	2307.000
6.5 mm triangular	2460.650
Lock and push-button inserts	
Lock insert, lock no. 3524 E ¹⁾	2467.000
Push-button insert	2468.000
Push-button and lock insert ¹⁾	2469.000 ²⁾
Profile half-cylinders	
To DIN 18 252 ³⁾	9785.040 ⁵⁾
	9785.042 ⁴⁾

¹⁾ With 2 keys

²⁾ Lock no. 2123; no other lock is possible

³⁾ With 3 keys for each lock insert

⁴⁾ Packs of two, simultaneous locking within the same pack, no simultaneous locking for different packs

⁵⁾ Lock-specific key

Door stay AX

for AX plastic and Ex enclosure, plastic

To secure the door in the open position. May be fitted without machining the enclosure.

Supply includes:

- Assembly parts

Installation options:

- Installation directly at the top/bottom right
- When swapping the door hinge to the opposite side, the prefitted door stay is easily removed and re-installed

Assembly	Packs of	Model No.
Top/bottom	2 pc(s).	1485.100

Plastic enclosures AX

Accessories

Wall mounting bracket

for AX plastic

For attachment to the wall, only possible from the outside of the enclosure.

Material:

- Fibreglass-reinforced polyamide¹⁾

Supply includes:

- Assembly parts for mounting on the enclosure

Colour	Packs of	Model No.
RAL 7035	4 pc(s).	1485.400
RAL 9011	4 pc(s).	1485.500¹⁾

¹⁾ With graphite additive for Ex applications

Universal bracket

for AX plastic and Ex enclosure, plastic

For the interior installation on a 25 mm pitch pattern of

- Punched sections with mounting flanges
- Door rails
- Support strips

Material:

- Sheet steel, zinc-plated

Supply includes:

- Assembly parts

Packs of	Model No.
4 pc(s).	1485.200

Screw for interior installation

for AX plastic

For mounting accessories on the mounting bosses of the enclosure frame.

Drive: Multi-tooth 25

Dimensions: 5 x 14 mm

Type of screw	Packs of	Model No.
Pan head screw, self-tapping	50 pc(s).	1485.300

Rittal – The System.

Faster – better – everywhere.

³⁾ Without door ⁴⁾ Sheet steel with magnesium zinc coating

Baying enclosure system VX25 – Added system benefits

System benefits – Rittal's standards (not to be taken for granted)
create additional cross-system benefits

Digitalization

- The QR code on all machinable enclosure panels permits fully automated incorporation into the production workflow, for seamless digital monitoring from the incoming goods right through to the finished product.

Material savings

- As standard, potential equalisation of the enclosure panels occurs during screw-fastening, which saves up to seven earth straps per enclosure and also improves work safety by eliminating sharp-edged protruding parts.

System

- Automatic potential equalisation of the roof, rear panel and sides acts as earthing when Rittal climate control devices and Rittal fan-and-filter units are installed.

Reliable engineering

- Rittal's customers are supported by a wealth of conversion and planning tools in the automated production process and when working with a virtual prototype:
 - Configurators
 - Parts list converters
 - EPLAN Pro Panel
 - 2D/3D CAD data
 - ecl@ss Advanced
 - Technical documentation
 - Data for planners
 - Assembly videos

Baying enclosure system VX25 – Added system benefits

Frame and punched sections – Now with added assembly-friendliness plus efficient engineering thanks to a symmetrical frame section on a 25 mm pitch pattern across all levels, accessible from all sides.

Accessibility

- The system offers an outer mounting level in addition to the inner level, making the enclosure readily accessible and configurable from the outside.

Installation options

- The continuous pattern of square punchings supports the use of M5/M6/M8 cage nuts to create more mounting options at all profile levels.

Stability

- The corner piece with welded base frame makes it easier to secure to the floor and base and improves stability.
- The enclosure is secured to the base/plinth or subsurface either via the M12 thread in the corner piece or via the stable base structure.

Simple cable entry

- The blunt edges minimise the risk of cable damage when routing cables underneath the enclosure.
- The earthing points pre-labelled as standard provide quick guidance and help to speed up the work process.
- The double edge fold of the gland plates is resistant to bending even under heavy loads to ensure compliance with the high protection category.

Baying enclosure system VX25 – Added time savings

Doors and walls – More flexible, assembly-friendly and economical, thanks to an ingenious hinge system, a quick-fit and readily replaceable lock system, and the elimination of avoidable machining processes.

Making life easier

- The new hinge allows doors to be fitted and removed incredibly easily without any tools, and separately locking and unlocking the hinge bolts is a thing of the past.

Handling

- For one-man assembly, the positioning aid for the side and rear panels allows labour-saving pre-fixing for the ideal fit, which you can screw-fasten later on when you have both hands free.

Flexibility

- Because the hinges of the main and adjacent doors in two-door enclosures can be swapped to the opposite side if required, this creates greater flexibility when installing cooling units in the enclosure doors and helps to avoid collisions between equipment and doors.

Time savings

- The tool-free, readily exchangeable lock systems, e.g. on the comfort handle, reduce the amount of assembly time required.

Baying enclosure system VX25 – Added reductions in complexity

Baying – Complexity is further reduced thanks to a simplified, more consistent baying system for all applications.

Overview

- The baying connectors have been designed to cover every potential baying scenario in enclosure production with just a few baying solutions. This allows easier decision-making and relieves the pressure on engineering.

Location flexibility

- The option of baying from all four sides allows an individual response to every space situation.

Clamping force

- The baying connectors are screwed into place in the direction of baying to bring the enclosures safely into position and are approved for transportation.

Sealing efficiency

- The seal, which can be inserted in a flash, allows precise positioning and can be removed at any time.

Enclosures

Baying enclosure system VX25 – Added assembly-friendliness

Mounting plate – More time gains, installation options and assembly-friendliness thanks to improved mounting kits, also suitable for dynamic loads.

Space gain

- The option of fitting the mounting plate 20 mm deeper in the enclosure with a special installation kit creates additional space in the enclosure depth.

Process efficiency

- The integral clip means that the mounting plate slide block can be dismantled with no need for tools and easily refitted. This helps to streamline the fully automated machining process in every respect.

Flexibility

- The system divider designed for installation in the enclosure depth divides wide enclosures into two halves, increasing the flexibility of interior installation.

Additional benefits

- The practical mounting plate slide rail can be removed once the mounting plate has been inserted and used elsewhere in the enclosure as a fully functional punched section.
- The grid print facilitates the simple, fast positioning of components on the mounting plate.

Baying enclosure system VX25

Baying enclosure system VX25

System accessories Page 877 **VX25 basic enclosure** Page 116 **VX25 stainless steel** Page 242 **VX25 EMC-shielded** Page 136

Material and surface finish:

- Enclosure frame: Sheet steel, 1.5 mm, dipcoat-primed
- Roof: Sheet steel, 1.5 mm, dipcoat-primed, powder-coated on the outside, textured paint
- Glazed door: Extruded aluminium section, powder-coated, single-pane safety glass, 3 mm
- Rear door: Sheet steel, 2 mm, dipcoat-primed, powder-coated on the outside, textured paint
- Gland plates: Sheet steel, 1.5 mm, zinc-plated, passivated

Colour:

- Enclosure frame, door frame, corner pieces, panels: RAL 7035
- Viewing window (printed mask on the inside): RAL 9005

Protection category IP to IEC 60 529:

- IP 55

Protection category NEMA:

- NEMA 12

Supply includes:

- Enclosure frame
- Door(s) (r/h hinge, may be swapped to opposite side)
- Roof plate
- Glazed door at front
- Rear door
- Gland plates
- Lock: 3 mm double-bit

Approvals:

- UL
- cUL
- CSA

Further approvals can be found on the Internet.

Baying enclosure system VX25

System accessories Page 877 **VX25 basic enclosure** Page 116 **VX25 stainless steel** Page 242

The large enclosures in the VX25 series offer a good level of shielding across a broad frequency range, even in the standard version. For increased EMC requirements, Rittal's VX25 enclosure is also available in a high RF attenuation version.

Material and surface finish:

- Enclosure frame: Sheet steel, 1.5 mm, with magnesium zinc coating
- Roof: Sheet steel, 1.5 mm, with magnesium zinc coating, spray-finished on the outside and paint-free on the inside

- Door: Sheet steel, 2 mm, with magnesium zinc coating, spray-finished on the outside and paint-free on the inside
- Rear panel: Sheet steel, 1.5 mm, with magnesium zinc coating, spray-finished on the outside and paint-free on the inside
- Gland plates: Sheet steel, 1.5 mm, zinc-plated
- Mounting plate: Sheet steel, 3 mm, zinc-plated

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- IP 55

NEMA protection category:

- NEMA 12

Supply includes:

- Enclosure frame
- Door(s) (door hinged on the right, may be swapped to the left)
- Rear panel
- Roof plate
- Gland plates
- Mounting plate
- Lock: 3 mm double-bit
- 2 punched rails 18 x 39 mm

Note:

- For bayed enclosures, the EMC shielding seal is required

Approvals:

- UL
- cUL

Further approvals can be found on the Internet.

Free-standing enclosure system VX SE

Added efficiency with planning and assembly

Digitalization

- The QR code on all machinable enclosure panels permits fully automated incorporation into the production workflow, for seamless digital monitoring from the incoming goods right through to the finished product.

Reliable engineering

- In the automated production process and when working with virtual prototypes, Rittal supports its customers with a host of conversion and planning tools:
 - Configurators
 - Parts list converters
 - EPLAN Pro Panel
 - 2D/3D CAD data
 - ecl@ss Advanced
 - Technical documentation
 - Data for planners

Large variety of sizes

- Enclosure widths from 600 – 1800 mm
- Widths 1600 and 1800 mm are only available for VX SE. These replace several bayed enclosures.

Benefits:

- No baying work
- One large, continuous mounting plate
- Savings on accessories:
 - Only one base/plinth
 - Only one handle
- No need to use a mounting plate infill
- 300 mm deep enclosures are ideal for use in facility management

Smart construction

- High stability thanks to a self-supporting, integral construction technique, with roof and sides from a single piece with roll-formed frame
- High protection category up to IP 66
- A wide range of sheet steel and stainless steel versions for almost any application area
- 300 mm deep enclosures are ideal for use in facility management

Free-standing enclosure system VX SE

Compatibility with the VX25 for added efficiency in interior installation, even more efficient

Compatible interior installation

- With the new base assembly and optional adaptor rail, interior installation is compatible with the VX25
- All VX25 punched sections and bars for the inner mounting level may be used without restriction
- The large swing frame supports full or partial installation for 482.6 mm (19") components. It is fully depth-adjustable within the 25 mm pitch pattern, and hinged on the left or right. Two swing frames may also be fitted together in 1200 mm wide enclosures.

Optimum installation options

- The continuous square holes on the vertical section when using adaptor rail VX support the use of metric screw-fastenings M5, M6, M8

System benefits

- The smart enclosure design from a single piece eliminates the need for additional earth straps from the roof and side panels to the frame
- Automatic potential equalisation from the rear panel to the enclosure as standard
- When using a Rittal climate control device and Rittal fan-and-filter unit in the roof, rear panel and side panels, additional earthing is not required
- The smart enclosure design from a single piece ensures good EMC properties

Simple cable entry

- The blunt edges minimise the risk of cable damage when routing cables underneath the enclosure
- The earthing points pre-labelled as standard provide quick guidance and help to accelerate the work process
- The double edge fold of the gland plates prevents bending even under heavy loads to ensure compliance with the high protection category

Console systems/PC enclosure systems/IW – Product comparison

	Universal consoles	PC enclosure systems	Industrial Workstations
	Enclosures with a high level of stability. The standard rear door provides free access to the continuous mounting plate. The mounting plate has a C-fold and is depth-adjustable on a 25 mm pitch pattern. The front may optionally be equipped with a short door and desk section or tall door.	Enclosure body folded from a single piece for a high level of stability. Continuous rear door for simple service access from the rear. High level of access protection thanks to an interior lock on the glazed door and lockable keyboard drawer. There are four versions with different operating concepts available to suit individual requirements.	Modular enclosure system for operation and monitoring. Five different enclosure variants may be combined into individual workstations with special worktops and command panels.

TopConsole system TP

Overview of installation components

- 1 Three-part assembly comprising:
 - Console
 - Desk unit
 - Pedestal
- 2 Two-part assembly comprising:
 - Desk unit
 - Pedestal
- 3 One-part assembly comprising:
 - Cover plate
 - Pedestal

TopConsole system TP

Fast planning and assembly

- Identical covers for the console and desk unit ensure straightforward engineering
- Individual installation with bar systems
- Simple installation of preassembled modules using partial mounting plates

Simple handling

- Simple one-handed operation and reliable latching of the lid stay in the topmost position
- Secure lock mechanism with end stop acknowledgement, suitable for all common lock inserts
- Stylishly finished with an aluminium strip (accessory) as a design or handle element on the cover

Flexible interior installation

- Rapid assembly of the mounting plate, simply insert and clip into place (400 mm construction depth)
- Depth-adjustable mounting plate (500 mm construction depth)
- Plenty of free space for individual configuration on the mounting plate
- Individual installation with bar systems
- Two-piece gland plates for simple cable entry

TopConsole system TP

Material:

- Enclosure: Sheet steel, 1.5 mm
- Door and console cover: Sheet steel, 2.0 mm, all-round foamed-in PU seal
- Mounting plate: Sheet steel 2.5 mm (depth 500 mm), 3.0 mm (depth 400 mm)

Surface finish:

- Enclosure, cover and door: Dipcoat-primed, powder-coated on the outside, textured paint
- Mounting plate: Zinc-plated

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- IP 55

Protection category NEMA:

- NEMA 12

Supply includes:

- Console**
 - Enclosure
 - Cover hinged at bottom, including cover retainer
 - Open base for individual cable entry

Desk section

- Enclosure
- Hinged cover, 2 stays with automatic latching, automatic unlatching on the left and manual unlatching on the right
- Opening for cable entry into the enclosure base

Pedestal

- Enclosure open at top
- Door or double door with locking rod (with depth 400 mm at the front, with depth 500 mm at the front and rear)
- Depth-adjustable mounting plate (with depth 500 mm)
- Gland plates

Approvals:

- UL
- cUL

TopConsole system TP

Accessories

TP aluminium strip

For retrospective external mounting on TP desk units, consoles and one-piece consoles.

Applications:

- TP three-part/two-part
- One-piece consoles TP
- May be mounted on all enclosures/covers with 20 mm fold height (max. metal thickness 2 mm)

Installation options:

- Easily cut to length for other sizes
- 3 x width 600 mm
- 2 x width 800 mm
- 1 x width 1000 mm + 1 x width 600 mm
- 1 x width 1200 mm
- 1 x width 1600 mm

Material:

- Extruded aluminium section
- Cover caps: Plastic

Surface finish:

- Aluminium extruded section: Natural anodised

Colour:

- Cover caps: RAL 7035

Length mm	Model No.
1750	6731.120

Supply includes:

- 1 aluminium section
- 6 plastic cover caps
- Drilling template
- Assembly parts

Cover plate

Secure accommodation of all PC components, from monitors, to PCs, to keyboards. For ultimate ease of operation in a modern design. Perfect protection from humidity and dirt, temperature fluctuations and unauthorised access.

Material:

- Enclosure, door, rear door, mounting compartment, supports: Sheet steel
- Handles, decorative trim panels: Plastic
- Door trim panel: Aluminium
- Viewing window: Single-pane safety glass

Surface finish:

- Enclosure and door: Dipcoat-primed, powder-coated on the outside, textured paint
- Mounting compartment, support: Powder-coated

Colour:

- Enclosure, door, decorative trim panels, supports: RAL 7035
- Handle: RAL 7015
- Monitor panel, door centre part: RAL 7015

Protection category IP to IEC 60 529:

- IP 55

Protection category NEMA:

- NEMA 12

Supply includes:

- Enclosure, door, rear door
- Please note the product-specific scope of supply.

Approvals:

- UL
- cUL

Operating housings AX with handle strips

Uniform system in design and function

Modern design, adapted to support arm system CP 60/120/180

Convenience in perfection

- Integral interior installation bracket with system punchings, to match system accessories
- Fast, safe, simple servicing access from the front or rear
- Lock with integral door runners for easy locking

Built-in added value

- Support arm connection for one-person assembly
- Support arm connection \varnothing 130 mm, pre-formed off-centre in the reinforcement plate, easily drilled out

Ergonomic design

- Design strip including handle function
- Aluminium front panel, easily dismantled for machining

Support arm system
CP 60/120/180

see page 183

Operating housing AX for desktop TFT up to 24"

System accessories Page 877 Support arm systems Page 183 Stand systems Page 211

For the installation of commercially available desktop TFTs with a screen diagonal of up to 24" in the formats 16:9/16:10.

Material:

- Enclosure: Sheet steel
- Door: Sheet steel, all-round foamed-in PU seal
- Handle strips: Aluminium
- Cover caps: Plastic
- Viewing window: Single-pane safety glass
- TFT holder: Sheet steel

Surface finish:

- Enclosure and door: Powder-coated on the outside, textured paint
- Handle strip: Natural anodised

Colour:

- Enclosure and door: RAL 7035
- Cover caps: similar to RAL 7024

Protection category IP to IEC 60 529:

- IP 65

Protection category NEMA:

- NEMA 12

Supply includes:

- Enclosure with door, cut-out and reinforcement for support arm connection Ø 130 mm
- Viewing window, single-pane safety glass
- Holder for desktop TFT with VESA 75/100 locator
- Side handle strips and cover caps
- Rear door with r/h hinge
- Cam lock with 3 mm double-bit insert

Note:

- The support arm connection and door hinge may be swapped over by rotating the enclosure
- Optional: Support arm connection Ø 130 mm, pre-formed off-centre in the reinforcement plate, easily drilled out
- Lock insert may be exchanged for mini-comfort handle AX, 27 mm lock inserts, type A

Approvals:

- UL
- cUL

System accessories Page 877 **Support arm systems** Page 183 **Stand systems** Page 211

For small operating units built into front panels. The front panel is inserted from the rear and secured with screw clamps. Special front panels with a material thickness of between 2 and 6 mm are possible. Rear panel optionally hinged on the left or right. Roof tray with cut-out and reinforcement for support arm system CP 40 steel.

Design:

- With support arm connection 90 x 71 mm for CP 40, steel

Material:

- Roof tray, base tray: Die-cast zinc
- Rear panel: Aluminium
- Side parts: Extruded aluminium section
- Screw cover: Plastic

Surface finish:

- Roof tray, base tray, side parts: Powder-coated
- Rear panel: natural anodised

Colour:

- RAL 7024

Protection category IP to IEC 60 529:

- IP 65

Protection category NEMA:

- NEMA 12

Supply includes:

- Roof tray
- Base tray
- Rear panel
- Side parts
- Screw cover
- Seal and screw clamp

Comparison of support arm systems

Support arm configurator

The support arm configurator determines the correct support arm system according to user-specific parameters.

More detailed information can be found at: www.rittal.com

Support arm system CP 40, steel

Component overview

- 1 Tilting adaptor +100/-60° for support arm connection □ 120 x 65 mm/
□ 90 x 71 mm (6206.460)
- 2 Attachment CP 40, steel, for support arm connection □ 90 x 71 mm
(6501.070)
- 3 Coupling CP 40, steel, for support arm connection □ 90 x 71 mm
(6501.050)
- 4 Coupling CP 40, steel, for support arm connection □ 120 x 65 mm
(6501.130)
- 5 Connection console VESA 75/100 for support arm connection
□ 120 x 65 mm (6206.480)
- 6 Connection console for support arm connection □ 120 x 65 mm
(6206.490)
- 7 Angle coupling 90° CP 40, steel (6501.120)
- 8 Support section CP 40, steel (6501.000, 6501.020)
- 9 Angle piece 90° CP 40, steel (6501.140)
- 10 Wall-mounted hinge CP 40, steel (6501.150)
- 11 Top-mounted joint CP 40, steel (6501.160)
- 12 Wall/base mounting bracket CP 40, steel (6501.110)
- 13 Mounting components CP 40, steel, for signal pillar (2375.030)

Load information

When using support arm system CP 40, steel in conjunction with support arm system CP 60 (in the horizontal run of the system), the load diagram for support arm system CP 60 applies.

Load information

Permissible load depending on system configuration

Support arm system CP 60/120/180

Uniform engineering

- All load levels up to 1800 N
- One system
- Simple system replacement in the vertical axis to cut costs and weight
- Consistent combination options

Multi-functional assembly

- Uniform adjustment principle, even retrospectively without dismantling
- Perfect limitation of rotation ranges
- Simple, one-person installation
- Sections are easily cut to the required length

Efficient cable management

- Cross-section sufficient for large connectors
- Supports simple separation between data and power cables
- Flexible cable entry and routing options
- Automatic, consistent potential equalisation of all support arm components
- Open support section for easy upgrade and servicing access

Consistent protection category

- Consistent protection category of all components, even with adaptations

Enclosures

Support arm system CP 60

Component overview

- 1 Tilting adaptor 10° for support arm connection Ø 130 mm (6206.400)
- 2 Tilting adaptor 10° for support arm connection □ 120 x 65 mm (6206.440)
- 3 Tilting adaptor +/-45° for support arm connection Ø 130 mm (6206.420)
- 4 Tilting adaptor +100°/-60° for support arm connection □ 120 x 65 mm (6206.460)
- 5 Connection console VESA 75/100 for support arm connection □ 120 x 65 mm (6206.480)

- 9 Coupling CP 60 for support arm connection □ 120 x 65 mm (6206.340)
- 10 Angle coupling 90° CP 60 for support arm connection Ø 130 mm (6206.380)
- 11 Support section CP 60, closed (6206.025, 6206.050, 6206.100, 6206.200)
- 12 Support section CP 60, open (6206.110)
- 13 Angle adaptor 90° for support arm combination CP 60/40 (6206.640)
- 14 Support section CP 40, steel (6501.000)
- 15 Coupling CP 40, steel, for support arm connection □ 90 x 71 mm (6501.050)
- 16 Angle piece 90° CP 60 (6206.600)
- 17 Intermediate hinge CP 60 (6206.620)
- 18 Top-mounted joint CP 60, horizontal outlet (6206.700)
- 19 Wall-mounted hinge CP 60, horizontal outlet (6206.740)
- 20 Wall/base mounting bracket CP 60, small (6206.820)
- 21 Wall/base mounting bracket CP 60, large (6206.800)
- 22 Mounting component CP 60 for signal pillar (6206.900)

Load information

Permissible load depending on system configuration

- 1 System configuration without intermediate hinge 6206.620
- 2 System configuration with intermediate hinge 6206.620

Note:

- Wall/base mounting bracket, small 6206.820 must not be used in conjunction with intermediate hinge 6206.620!
- Intermediate hinge 6206.620 should only be used once per system!

- 7 Support section CP 120, open (6212.150, 6212.110, 6212.210)
- 8 Support section CP 60, closed (6206.025, 6206.050, 6206.100, 6206.200)
- 9 Adaptor for support arm combination CP 120/60 (6212.640)
- 10 Angle piece 90° CP 120 (6212.600)
- 11 Intermediate hinge CP 120, without height offset (6212.680)
- 12 Intermediate hinge CP 120, with height offset (6212.620)
- 13 Top-mounted joint CP 120, vertical outlet (6212.720)
- 14 Top-mounted joint CP 120, horizontal outlet (6212.700)
- 15 Wall-mounted hinge CP 120, vertical outlet (6212.760)
- 16 Wall-mounted hinge CP 120, horizontal outlet, without height offset (6212.780)
- 17 Wall-mounted hinge CP 120, horizontal outlet, with height offset (6212.740)
- 18 Wall/base mounting bracket CP 120, small (6212.820)
- 19 Wall/base mounting bracket CP 120, large (6212.800)
- 20 Mounting component CP 120/180 for signal pillar (6212.900)

Load information

Permissible load depending on system configuration

- 1 System configuration without intermediate hinge 6212.620/.680, with closed or open support section
- 2 System configuration with intermediate hinge 6212.620/.680 and closed support section
- 3 System configuration with intermediate hinge 6212.620/.680 and open support section
- 1 Maximum system length 2500 mm for systems with horizontal outlet at the system start
- 2 Maximum system length 1500 mm for systems with vertical outlet at the system start. The overall height at the vertical system start must not exceed 500 mm.

Note:

- Wall/base mounting bracket, small 6212.820 must not be used in conjunction with intermediate hinge 6212.620/.680!
- Intermediate hinge 6212.620/.680 should only be used once per system!

Support arm system CP 120

Comfort Panel P. 172 Optipanel P. 174 Operating housings AX with handle strips P. 178 Operating housing AX for desktop TFT P. 180

Support section CP 120

Attachment to the connection components with 4 self-tapping screws in the screw channel. May be cut to any required length, no thread-tapping required. Closed cable duct with a large cross-section. Open cable duct for easy servicing access and for pre-assembled cables with connectors; lockable via cover section.

X-shaped profiling for greater load capacity, large cable routing channels. Upper channel adequate for cables with large connectors (e.g. DVI or VGA) and available/usable throughout the entire system.

Size:

- External dimensions: 75 x 120 mm

Material:

- Support section: Extruded aluminium section

Colour:

- Support section: RAL 7035

Protection category IP to IEC 60 529:

- IP 54

Supply includes:

- Support section

Combination with support section, height adjustable

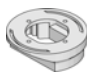

Note:

When using an intermediate hinge, the height-adjustable support section should always be inserted in the closest horizontal position to the enclosure.

- 1 Wall-mounted hinge CP 120, horizontal outlet (6212.740)
- 2 Support section, height-adjustable (6212.120), see page 206

Support arm system CP

Support arm, height-adjustable

Component overview

- 1 Wall/base mounting bracket CP 120, small (6212.820)
- 2 Wall-mounted hinge CP 120, horizontal outlet, with height offset (6212.740)
- 3 Top-mounted joint CP 120, horizontal outlet (6212.700)
- 4 Wall-mounted hinge CP 120, horizontal outlet, without height offset (6212.780)
- 5 Support section, height-adjustable CP 120/CP 60 (6212.060, 6212.065)
- 6 Angle piece 90° CP 60 (6206.600)
- 7 Angle adaptor 90° for support arm combination CP 60/40 (6206.640)
- 8 Support section CP 60 (6206.110, 6206.025, 6206.050, 6206.100, 6206.200)
- 9 Support section CP 40, steel (6501.000, 6501.020)
- 10 Coupling CP 60 for support arm connection Ø 130 mm (6206.300)
- 11 Coupling CP 40, steel, for support arm connection □ 90 x 71 mm (6501.050)
- 12 Angle coupling 90° CP 60 for support arm connection Ø 130 mm (6206.380)
- 13 Support section, height-adjustable CP 120/CP 120 (6212.120)
- 14 Angle piece 90° CP 120 (6212.600)
- 15 Adaptor for support arm combination CP 120/60 (6212.640)
- 16 Support section CP 120, open (6212.150, 6212.110, 6212.210)
- 17 Support section CP 60 (6206.110, 6206.025, 6206.050, 6206.100, 6206.200)
- 18 Coupling CP 120 for support arm connection Ø 130 mm (6212.300)
- 19 Coupling CP 60 for support arm connection □ 120 x 65 mm (6206.340)
- 20 Angle coupling 90° CP 120 for support arm connection Ø 130 mm (6212.380)
- 21 Angle piece 90° CP 120 (6212.600)
- 22 Support section CP 120, closed (6212.025, 6212.050, 6212.100, 6212.200)
- 23 Top-mounted joint CP 120, vertical outlet (6212.720)

Note:

- In combination with support section, height adjustable observe:
- When using an intermediate hinge, the height-adjustable support section should always be inserted in the closest horizontal position to the enclosure.

Support arm system CP

Support section, height-adjustable

Now even more ergonomic, thanks to

- Adjustment range for tall and short operators, as well as seated and stand-up workstations:
6212.060/120: 600 mm ± 300 mm
6212.065: 950 mm ± 475 mm
- Support arm holds securely in any position
- Additional fixing with clamping lever if required
- Precise coordination to the suspended load via an adjusting screw at the front of the support section
- Adjusting screw can be accessed without dismantling any components
- Removable side panel for easy access to cable routing
- Tilt angle of the mounted enclosure is identical in every height position
- Cables with connectors such as DVI, VGA are easily inserted
- Broad weight range from 4 to 60 kg with just two systems

Maximum cross-section for cable entry:

- 17 x 41 mm for CP 6212.060/.065
- 17 x 59 mm for CP 6212.120

Colour:

- RAL 7035/7024

Protection category IP to IEC 60 529:

- IP 54

Supply includes:

- Assembly parts

Note:

For combination with support section, height-adjustable, please note:

- When using an intermediate hinge, the height-adjustable support section should always be inserted in the closest horizontal position to the enclosure

Support arm configurator

for CP 40/60/120/180 and support section, height-adjustable

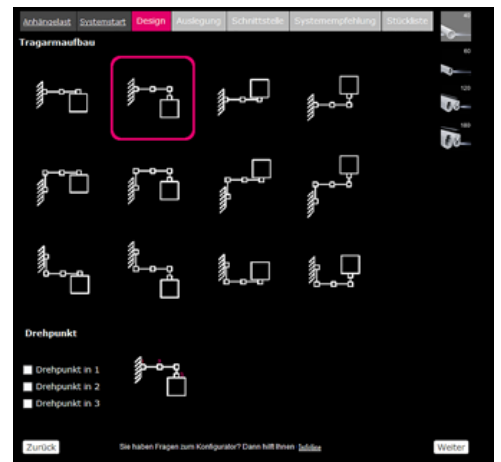

The tool determines the perfect system for your application from key user-specific parameters such as the jib length, enclosure weight or required cable cross-sections.

Benefits:

- Individual assembly tailored to the requirements of the application
- Built-in consistency check
- The outcome is a plausibility-checked parts list
- Detailed cutting dimensions for the support sections
- Free online configurator
- Simple, systematic menu prompting
- Seamless system solution
- Supply of CAD data for the configured system

Note:

- Configure online at www.rittal.com/configurators

Support arm system CP 40/60/120/180

Connection console VESA 75/100

For rear connection of
 – Slimline operating housings
 – Commercially available TFTs
 – Industrial PCs
 with VESA 75/100 connection

Connection to Rittal support arm systems
 – CP 40
 – CP 60
 – CP 120 via adaptor from support arm connection
 Ø 130 mm to □ 120 x 65 mm

Benefits:

- Fast, simple one-person assembly using machined keyholes
- More space for installation and servicing
- Cables may be routed to devices outside and inside the console
- Removable cover for simple cable routing and access to interior device connections
- Integral cable clamping facilities
- Cover with captive screws

Material:

- Die-cast zinc

Colour:

- Connection console: RAL 7035
- Cover: RAL 7024

Protection category IP to IEC 60 529:

- IP 54

Supply includes:

- Connection console VESA
- Seals
- Cable ties for cable clamping
- Assembly parts

Weight kg	Model No.
1.1	6206.480

! Also required:

- Attachment CP 60 for support arm connection
 □ 120 x 65 mm, 6206.360
- Coupling CP 60 for support arm connection
 □ 120 x 65 mm, 6206.340
- Tilting adaptor 10° for support arm connection
 □ 120 x 65 mm, 6206.440
- Coupling CP 40 for support arm connection
 □ 120 x 65 mm, 6501.130
- Tilting adaptor +/-45° for support arm connection
 □ 120 x 65 mm, 6206.460
- Adaptor from support arm connection Ø 130 mm
 to □ 120 x 65 mm, 6212.500

VESA connection hole pattern

Connection console

For rear connection of slimline operating housings.
 Removable lid for simple cable entry.

Connection to Rittal support arm systems
 – CP 40
 – CP 60
 – CP 120 via adaptor from support arm connection
 Ø 130 mm to □ 120 x 65 mm

Material:

- Attachment CP 60 for support arm connection
 □ 120 x 65 mm, 6206.360
- Coupling CP 60 for support arm connection
 □ 120 x 65 mm, 6206.340

Support arm system CP 40/60/120/180

Adaptor for Siemens Pro-Panel

Weight kg	Model No.
0.3	6206.500

For the external mounting of Siemens Simatic

- MP 377 Pro
- Thin Client 15" Pro
- Flat-Panel Monitor 15", 19" Pro
- HMI IPC477C Pro
- ThinClient Pro

Connection to support arm systems

- CP 40, steel
- CP 60/120 with support arm connection
□ 120 x 65 mm

Material:

- Aluminium

Colour:

- RAL 7035

Supply includes:

- Adaptor
- Seals
- Assembly parts

Connection plates

with reinforcement plate

Weight kg	Model No.
1.4	6212.540

For easy location of the command panel onto the support arm or pedestal. More space for cable entry.

For mounting command panels

- Comfort Panel from a front panel width of 247 mm and installation depth of 152 mm
- Optipanel from a front panel width of 220 mm and installation depth of 150 mm
- Sheet steel from 135 mm installation depth

For mounting on support arm system components

- Attachment CP 60/120 for support arm connection Ø 130 mm, 6206.320, 6212.320
- Coupling CP 60/120 for support arm connection Ø 130 mm, 6206.300, 6212.300
- Angle coupling 90° CP 60/120 for support arm connection Ø 130 mm, CP 6206.380, 6212.380
- Tilting adaptor 10° CP 60/120 for support arm connection Ø 130 mm, 6206.400
- Tilting adaptor +/-45° CP 60/120 for support arm connection Ø 130 mm, 6206.420
- Coupling CP 180 for support arm connection Ø 130 mm, 6218.300

Material:

- Connection plate: Cast aluminium
- Reinforcement plate: Sheet steel, 6 mm

Colour:

- RAL 7035

Supply includes:

- Connection plates
- Reinforcement plate
- Seals
- Assembly parts

Support arm system CP 40/60/120/180

Tilting adaptor +/-45°

for command panels with support arm connection Ø 130 mm

For mounting between:

- Coupling CP 60, 6206.300
- Coupling CP 120, 6212.300
- Coupling CP 180, 6218.300

or

- Attachment CP 60, 6206.320
- Attachment CP 120, 6212.320

or

- Angle coupling 90°, CP 60, 6206.380
- Angle coupling 90°, CP 120, 6212.380

and the command panel

Tilt angle:

- Adjustable in 7.5° increments

Material:

- Tilting adaptor: Cast aluminium
- Concertina section: Plastic

Colour:

- RAL 7024

Supply includes:

- Tilting adaptor
- Concertina section
- Seals
- Assembly parts

Weight kg	Model No.
1.2	6206.420

Enclosures

Tilting adaptor +100°/-60°

for command panels with support arm connection □ 120 x 65 mm

For mounting on

- IW worktop, prepared for attachment of Ø 130 mm
- Surfaces
- Attachment/coupling with support arm connection □ 120 x 65 mm

To fit enclosures up to 20 kg with support arm connection

- □ 90 x 71 mm
- Ø 130 mm
- □ 120 x 65 mm
- VESA Standard 75

With cable tube for protected cable entry.

Tilt angle:

- Adjustable in 7.2° increments via clamping lever and may be limited to +100°/-15° using the stop screw supplied loose

Material:

- Tilting adaptor: Sheet steel, spray-finished
- Concertina section: Plastic

Colour:

- Tilting adaptor: RAL 7035
- Concertina section: RAL 7024

Supply includes:

- Tilting adaptor
- Concertina section
- Assembly parts

Weight kg	Model No.
0.8	6206.460

Support arm system CP 40/60/120/180

Tilt coupler

for support arm system CP 60

For mounting two enclosures on a support arm/stand system.

Benefits:

- Ergonomic adjustment of the screen and keyboard enclosure
- Simple, linear adjustment of the required position via the friction brake

Material:

- Cast aluminium

Surface finish:

- Textured paint

Colour:

- Tilt coupler: RAL 7035
- Covers: RAL 7024

Protection category IP to IEC 60 529:

- IP 54

Supply includes:

- Tilt coupler
- Seals
- Assembly parts

Packs of	Model No.
1 pc(s).	6206.350

Accessories:

- Adaptor CP 60 to □ 120 x 65 mm, see page 210

Adaptor for tilt coupler

CP 60 to support arm connection

□ 120 x 65 mm

Material:

- Cast aluminium

Colour:

- RAL 7035

Packs of	Model No.
1 pc(s).	6206.550

Pivot

with/without jib

For direct, vertically hinged integration into machines and systems.

Applications:

- Enclosure suspended or top-mounted

Benefits:

- With integral rotation range restrictor

Installation options:

- To fit enclosures with support arm connection Ø 130 mm.

Load capacity:

- 700 N

Rotation range/swivel area:

- Approx. 310°
- The range of rotation can be limited by inserting the grub screws provided.

Protection category IP to IEC 60 529:

- IP 54

Hygienic Design

Small and compact enclosures HD

Product advantages	218
Terminal boxes HD	220
Compact enclosures HD, single-door	221
Compact enclosures HD, two-door	222
Accessories	223

Hygienic Design enclosures – Added cleanliness guaranteed!

Silicone seal

- All-round external joint-free silicone seal
- Easy to replace
- Guides and fixes the lid to the screw fasteners
- All-round tilt for terminal boxes
 - Enclosure: 3°
 - Lid: 10°

Interior installation

- Mounting hole pitch pattern of 6.25 mm for greater flexibility
- KX support rails and mounting plates may be directly fitted

Hinges and seal

- Hinges that are inside the sealing zone create an exceptionally easy-clean design on the outside
- The durable all-round, external silicone seal is joint-free
- Installed sealing frames are easily replaced
- No external cavity between enclosure and door
- Seal dyed blue to clearly distinguish it from foodstuffs

Screw fastener

- Captive
- With external seal
- Hexagon shape for perfect cleanliness

Lock and lock insert

- External parts made of stainless steel
- Material and shape allow easy and reliable cleaning

Roof, tilted

- 30° tilt on compact enclosures prevents objects from being deposited on it
- Easily inspected
- Allows fluids to drain off rapidly

Accessories

Levelling feet HD

Benefits:

- Minimises cleaning time thanks to fully covered, permanently sealed threads
- Compensation of floor inclines up to an angle of 10° thanks to flexible base
- Baying can even be achieved on sloping floors, thanks to a large levelling range

Material:

- Stainless steel 1.4301 (AISI 304)

Load capacity:

- Max. 7000 N static per levelling foot

Supply includes:

- Assembly parts and seals

Design	Thread	Adjustment range mm	Packs of	Model No.
without base mount	M12	122 - 175	4 pc(s).	4000.240
with base attachment	M12	122 - 175	4 pc(s).	4000.250

Wall spacer bracket HD

Benefits:

- Creates space for cleaning behind the enclosure
- Shorter assembly times by eliminating the need for an all-round seal
- Improved hygiene by avoiding inaccessible dead spaces or gaps between the enclosure and wall

Functions:

- Mounting on the wall optionally from the enclosure interior via a through-hole (max. M8) or from the rear via an integral M10 thread

Material:

- Stainless steel 1.4301 (AISI 304)

Supply includes:

- Assembly parts and seals

Note:

- Depending on the size of the enclosure, up to 4 wall spacer brackets are required to ensure sufficiently stable wall mounting

Wall distance mm	Packs of	Model No.

Stainless steel enclosures

The secure choice for harsh environments

Incredible enclosure diversity

- Stainless steel enclosures for all requirement profiles in modern industrial technology. They meet the extremely high demands associated with corrosion protection and chemical substances.
- The smooth surface boasts outstanding hygienic properties which means less cleaning work.
- Depending on the requirements, the materials used are stainless steel 1.4301 (AISI 304) or stainless steel 1.4404 (AISI 316L).
- Cleverly thought-out system platforms, in conjunction with an extensive selection of system accessories, create outstanding solution diversity in the Rittal stainless steel range.

Coordinating accessories

- The uniform system platforms used in the sheet steel range produce unique installation diversity with identical engineering.
- In particular, the interior installation largely eliminates any machining of the enclosures and therefore plays a key role in maintaining the high protection category.

Optimum climate control

- Among stainless steel applications, climate control often represents a major problem because the risk of expensive system failures or machine standstills can only be decisively reduced with the right climate control components. Rely on Rittal for the perfect solutions:
 - An extensive range of wall- and roof-mounted cooling units with efficient Blue e+ technology
 - Fan-and-filter units combined with a hose-proof hood provide a simple, efficient and secure solution provided the ambient temperature is sufficiently low
 - With one of the world's leading ranges and a comprehensive service portfolio, Rittal offers individual solution concepts to minimise the risks

Efficient engineering

- Uniform design basis for sheet steel and stainless steel racks and enclosures for simple, fast assembly
- Identical engineering for sheet steel and stainless steel allows simple, time-saving planning
- A host of tools provide support with the automated production process and when working with virtual prototypes:
 - Rittal Configuration System
 - EPLAN Pro Panel
 - 2D/3D CAD data
 - ecl@ss Advanced
 - Technical documentation
- Fast, efficient calculation of climate control requirements for individual enclosure assemblies with Therm software

Small enclosures KX

System accessories Page 877 **Terminal boxes KX, sheet steel** Page 56 **Ex enclosures** Page 257 **Hygienic Design** Page 217

Material:

- Enclosures: Stainless steel 1.4301 (AISI 304)
- Cover: Stainless steel 1.4301 (AISI 304), all-round foamed-in PU seal

Surface finish:

- Enclosure and cover: Brushed, grain size 400

Protection category IP to IEC 60 529:

- IP 66

Protection category NEMA:

- NEMA 4X

Supply includes:

- Enclosure with cover
- Mini cam locks

Approvals:

- UL
- cUL

Further approvals can be found on the Internet.

¹⁾ The perforated door strip is required for the installation

²⁾ For two-door enclosures: Installation in the lockable door

Hose-proof hood

Increases the protection category and facilitates cleaning, see page 538

Baying enclosure system VX25

System accessories Page 877 VX25 sheet steel Page 116 Hygienic Design Page 217 VX SE stainless steel Page 248

Material and surface finish:

- Enclosure frame: Stainless steel 1.4301 (AISI 304), 1.5 mm
- Roof: Stainless steel 1.4301 (AISI 304), 1.5 mm, exterior brushed, grain size 400
- Door: Stainless steel 1.4301 (AISI 304), 2 mm, exterior brushed, grain size 400
- Rear panel: Stainless steel 1.4301 (AISI 304), 1.5 mm, exterior brushed, grain size 400
- Gland plates: Stainless steel 1.4301 (AISI 304), 1.5 mm
- Mounting plate: Sheet steel, 3 mm, zinc-plated, passivated

Protection category IP to IEC 60 529:

- IP 55

Protection category NEMA:

- NEMA 12

Supply includes:

- Enclosure frame
- Door(s) (r/h hinge, may be swapped to opposite side)
- Roof plate
- Gland plates
- Rear panel
- Mounting plate
- Lock: 3 mm double-bit
- 2 punched rails 18 x 39 mm

Note:

- Due to the hardness of the material, we recommend using metal multi-tooth screw 2486.400 for the interior installation

Approvals:

- UL
- cUL
- DNV-GL

Further approvals can be found on the Internet.

¹⁾ The VX adaptor rail is required for installation in the vertical enclosure sections. Overview of VX SE compatible rail systems, see page 986

²⁾ The VX adaptor rail for 1800 mm high enclosures 8617.750 can be cut to length accordingly for use in 1600 mm high enclosures

Free-standing enclosure system VX SE

System accessories Page 877 VX SE stainless steel Page 142

Material and surface finish:

- Enclosure: Stainless steel 1.4301 (AISI 304), 1.5 mm, exterior brushed, grain size 400
- Door: Stainless steel 1.4301 (AISI 304), 2 mm, exterior brushed, grain size 400
- Rear panel: Stainless steel 1.4301 (AISI 304), 1.5 mm, exterior brushed, grain size 400
- Mounting plate: Sheet steel, 3 mm, zinc-plated, passivated
- Base plate: Stainless steel 1.4301 (AISI 304), 1.5 mm

Protection category IP to IEC 60 529:

- IP 66

Protection category NEMA:

- NEMA 4X

Supply includes:

- Enclosure, solid top and sides
- Door(s)
- Door hinged on the right, may be swapped to the left
- Rear panel, detachable
- Mounting plate
- Base, solid
- Lock: 3 mm double-bit
- 2 punched rails 18 x 39 mm

Note:

- Due to the hardness of the material, we recommend using metal multi-tooth screw 2486.400 for the interior installation

Approvals:

- UL
- cUL

Benefits:

- Resistant to high-pressure cleaning: The seal lies between two surfaces and is optimally compressed by the screw fastening.
- Suitable for clean room use: Screw fastening to comply with high standards in the food industry. With plastic stoppers on the inside or hex screws on the outside.

Material:

- Stainless steel 1.4301 (AISI 304)

Surface finish:

- Brushed, grain 400

Protection category IP to

IEC 60 529:

- IP 66
- IP X9

Ex enclosures

System accessories Page 877

Applications:

- Zone 1 and 2 or 21 and 22 to 2014/34/EU
- Ambient temperature range: -30 °C...+80 °C
- The specified temperatures may be limited by the installed equipment
- Explosion protection category to EN 60 079: Equipment protection thanks to increased safety (Ex e), equipment protection thanks to enclosure (Ex tB)

Material:

- Enclosure: Fibreglass-reinforced unsaturated polyester, surface resistance: $< 10^9 \Omega$
- Door: Fibreglass-reinforced unsaturated polyester, surface resistance: $< 10^9 \Omega$ all-round foamed-in silicone seal
- Mounting plate: Sheet steel, zinc-plated, passivated

Colour:

- RAL 9011

Protection category IP to IEC 60 529:

- IP 66

Supply includes:

- Enclosure
- Door
- Mounting plate

Certificates:

Available on the Internet

Approvals:

Outdoor

Outdoor enclosures

Basic enclosures	266
Wall-mounted enclosures	269

Outdoor project solutions

Toptec	270
Multifunctional enclosures	271

At home in any outdoor application

Energy

- Mounting benefits – Flexible basic enclosure, with doors front and rear on request, for rapid interior installation and optimum on-site accessibility
- Variable base mounting – Easy to plan, because it is suitable for all site conditions: Concrete base/plinth, base plate, plastic base/plinth

Water industry

- The ideal material – Powder-coated aluminium for a long service life and corrosion resistance, plus fast machining of cut-outs
- Fast interior installation – All-round 25 mm system punchings and an extensive range of system accessories help to reduce assembly time

Telecommunications

- Fully integrated system solutions for mobile communications and broadband network installation reduce planning complexity
- Vandal-resistant – Enclosure solutions up to resistance class RC4

Telematics

- Optimum protection against corrosion – Coordinated mix of materials for heavily contaminated roadside environments helps to extend servicing intervals

Outdoor Basic enclosures – Flexibility included

Systematic roof concept

Multi-functional benefits:

- Roof projection increases the proportion of shading
- Air exchange with all-round louvred grilles
- Fan for active climate control has an IP-compatible covering

Integral transport options

- Eyebolts on the inner roof, concealed by the rain canopy
- For transporting the fully configured unit by crane

Systematic installation benefits

- System punchings in the base ensure system compatibility
- Extensive range of system-compatible accessories for individual installations

Outdoor Basic enclosures

Climate control Page 449 Outdoor housing Page 958 Cable routing Page 1044

Outdoor enclosure with 100 mm transport plinth and rain canopy with projections on all sides.

Material:

- Aluminium AlMg3

Surface finish:

- Powder-coated
- UV-resistant pure polyester

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- IP 55
- NEMA 3R

Supply includes:

- Single-walled outdoor enclosure, fully preconfigured
- Basic enclosure with three-part gland plate
- 25 mm system punchings in the roof, base, front and in the enclosure depth
- Front door(s) with door stay, swing lever handle and profile half-cylinder, lock BJ 20027
- Transport plinth with screw-fastened trim panels front and rear
- Enclosure width 1200 mm has two 600 mm wide mounting panels
- Rain canopy

Toptec project solutions

The universal platform for outdoor applications

- Weather canopy – With projection on all sides
- Chimney effect of the twin-walled structure – Reduces the influence of sunlight
- Mounting benefit – Open frame structure for fast configuration, also applies to bayed variants
- Energy-efficient – The new wall-mounted cooling unit Blue e+ Outdoor can be used worldwide, thanks to its multi-voltage capability, and is suitable for use e.g. with Toptec project solutions

Design

Enclosure type:

- Outdoor enclosure, twin-walled

Material:

- Base frame: Stainless steel
- Enclosure panels: Aluminium
- Rain canopy: Aluminium

Project solutions with multifunctional enclosures

Your platform for telecommunications solutions

- Weather canopy with ventilation
- Gland plate with cable glands
- 482.6 mm (19") mounting angles inside the enclosure, in stainless steel throughout
- Aluminium mounting plate
- Depending on the design, with single door/two doors, symmetrical or asymmetrical

Design

Enclosure type:

- Modular outdoor enclosure system, single- or twin-walled

Material:

- Base frame: Aluminium
- Enclosure and panels: Aluminium
- Rain canopy: Aluminium
- 482.6 mm (19") standard field: Stainless steel

Software for enclosures

Configurators/tools/CAD data

Enclosures

Menu-prompted configurators help you to select the right enclosure and matching standard accessories. The calculated results contain the Rittal Model Numbers for your parts list definition.

Rittal Configuration System

The latest dimension in configuration for Rittal – The System.

Simply select your preferred enclosure system and launch the configuration process. Climate control components, busbars and accessories are easily added to the enclosure without specialist product know-how, thanks to the use of plausibility-checked components. The configuration progress can be followed at any time with 3D visualisation. Cut-outs e.g. for fan-and-filter units, switches, connectors and cable entries are easily planned and positioned directly on the enclosure with the Rittal Configuration System. Parts lists, drawings and technical documents for your configuration are generated automatically.

Benefits:

- Plausibility-checked, error-free product configuration
- Control of the ongoing configuration status with 3D visualisation
- Simple planning of modifications and machining of enclosures and housings
- Order configured products directly from the Rittal online shop
- Direct data transfer of the configuration results into EPLAN Pro Panel
- Free online tool – suitable for use with any standard Web browser, no login required

Note:

- Configure online at www.rittal.com/configurators

Software for enclosures

Configurators/tools/CAD data

Human/machine interface

Operation and monitoring play an increasingly vital role in mechanical and plant engineering. Rittal meets the exacting requirements placed on the "packaging" of the sensitive yet powerful electronics with its integrated modular system at the human/machine interface.

Design, function and ergonomics are the distinguishing features of this product range. Rittal provides free Internet planning tools to assist with planning and engineering of the command panels and support arm systems. In this way, the right product for your customer application is achieved simply, quickly and reliably.

Command panel configurators for aluminium command panels

The online configurators for Comfort Panel and Optipanel allow you to configure individual, perfectly coordinated panel solutions. Using a catalogue of questions, the configurators automatically guide you through the individual selection masks until you have compiled a complete system. The system also has a built-in smart consistency check to ensure that your configuration is complete and error-free.

Benefits:

- Select the enclosure to match the HMI panel used (the integral database contains a variety of commercial panels from various manufacturers)
- Navigate easily through the catalogue of questions
- Quickly compile the required features
- Request a quote based on the selected data records
- Request a 3D CAD model for integration into the system design

Note:

- Optipanel and Comfort Panel:
Configure online at
www.rittal.com/configurators

Support arm configurator for CP 40/60/120/180, support section, height-adjustable

The tool is able to precisely define the correct system using important user-specific parameters such as the jib length, enclosure weight or required cable cross-sections.

Benefits:

- Individual assembly tailored to the requirements of the application
- Built-in consistency check
- The outcome is a plausibility-checked parts list plus CAD data for the configured components
- Order directly from the online shop

Note:

- Configure online at
www.rittal.com/configurators

Software for enclosures

Configurators/tools/CAD data

CAD data

Greater efficiency in plant design

Whichever CAD system you use, 2D and 3D CAD data provide effective support with the efficiency and productivity of your plant design work.

It includes both 2D and 3D drawings for all Rittal items plus an extensive range of system accessories.

Retrieval options:

- CAD data online: Request data from the product page on the Rittal website
- Online: Data via the Web platform "PARTcommunity"
- Online: As an app

Benefits for users of CAD data:

- All CAD data may be transferred into any commercially available CAD system, thanks to the intelligent, native 2D/3D multiCAD-compatible format.
- The accurately detailed and validated drawings allow users to create design drawings with optimum planning confidence, in a fraction of the time taken for conventional design, by simply remodelling.
- Thanks to the freely selectable level of detail in CAD models, these may be represented in a greatly simplified format, enabling huge performance enhancements among users.

Note:

- Fast online access to original data in all commercially available CAD formats directly from the Model Number

Online conversion assistant for small enclosures KX and compact enclosures AX

Convert quickly and easily with the parts list converter

- Load your complete parts list based on enclosure types KL, EB, BG, AE and CM including accessories into the conversion assistant and convert to AX/KX
- Quick search: Individual Model Numbers are also easily located using the search box
- Generate CSV parts lists for uploading into the EPLAN Data Portal basket

Benefits:

- Save time with fast, simple conversion of entire parts lists
- Directly recode project parts lists and transfer all project items into your own item database via the EPLAN Data Portal basket. There is no need to download individual macros into the item database.

Note:

- Convert directly online at www.rittal.com/ax

Product Scan app

All product information in a single scan

- Fast access to all relevant product information by scanning the QR code on the product
- Create scan lists and export the lists for subsequent use
- Track scanned products in your scan history

Note:

- Downloaded free from the App Store and from the Google Play Store

Android app

iPhone app

RiLine Compact – Power distribution in a confined space

Tool-free installation made easy

- The board with integral circuit board conductors and all components are simply top-mounted; no tools required.
- Attaching the components simultaneously ensures a secure electrical connection to the all-round shock-hazard-protected board.
- The contact pitch pattern of the RiLine Compact system allows the assemblies to be positioned anywhere, in line with requirements.

Safe adaptor connection

- The RiLine Compact system adaptors support fast connection of cables and devices.
- The screw-free connection technology in the adaptor means that conductors are quickly connected, and the contact point itself is completely maintenance-free.
- The component adaptors with preassembled connection cables satisfy the special requirements of IEC 61 439 and UL.

Space-saving installation of electronic components

- The compact power supply unit provides a regulated control voltage of 24 V DC. The integral push-in terminal allows simple, fast connection of the conductors.
- The motor controller with electronic overload protection has an exceptionally space-saving design and takes up 50% less space than a conventionally wired motor controller. The hybrid technology creates a low-loss motor controller which is particularly gentle on the switching contacts. This helps to extend the service life.

Power distribution

Connection adaptors

Board Page 284 **Component adaptors** Page 286 **NH fuse-switch disconnectors** Page 290 **Motor controller/power pack** Page 291

Functions:

- To supply power to the board

Material:

- Polyamide
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 7035

Note:

- The technical data may vary for UL applications

Approvals:

- UL

Rated current max. 80 – 125 A, 3-pole

Rated current max. A	Packs of	80	125	Page
Rated operating voltage V, ~		690 (AC), 3~ 600 (DC), 3~	690 (AC), 3~ 600 (DC), 3~	
Number of poles		3-pole	3-pole	
Cable outlet		Top/bottom	Top/bottom	
Type of connection		Spring terminal	Box terminal	
Connection of round conductors, fine wire without wire end ferrule mm ²		1.5 - 16	6 - 50	
Connection of round conductors, fine wire with wire end ferrule mm ²		1.5 - 16	6 - 50	
Connection of round conductors, multi-wire mm ²		1.5 - 16	6 - 50	
Connection of round conductors, single-wire mm ²		1.5 - 10	6 - 50	
Connection of round conductors		AWG 6 - 16	AWG 1 - 10	
When using fine-wire round conductors 16 mm ² with wire end ferrule, we recommend the following crimping tools: Rittal 4054.004, Weidmüller PZ 16, Phoenix Contact Crimpfox 25R		■	-	
Can be used as a central infeed or as a longitudinal connector for two bayed boards		-	■	
Width mm		22.5	45	
Height mm		160	160	
Depth mm		115.5	92.5	
Model No.	4 pc(s).	9635.200	9635.210	

Component adaptors

Board Page 284 Connection adaptors Page 285 NH fuse-switch disconnectors Page 290 Motor controller/power pack Page 291

Functions:

- For mechanical attachment and direct contacting of electrical equipment on the board

Material:

- Polyamide
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 7035

Note:

- Different adaptor versions are required depending on the preferred phase connection
- The technical data may vary for UL applications

Approvals:

- UL

Circuit-breaker component adaptors

Board Page 284 Connection adaptors Page 285 NH fuse-switch disconnectors Page 290 Motor controller/power pack Page 291

Functions:

- For mechanical attachment and direct contacting of circuit-breakers on the board
- Circuit-breaker is fitted using variably adjustable fixing points (M4)

Material:

- Polyamide
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 7035

Note:

- Consider the mounting distance of the circuit-breaker when selecting the circuit-breaker component adaptor
- Depending on the circuit-breaker used, there may be a reduction in output
- The technical data may vary for UL applications

Approvals:

- UL

NH fuse-switch disconnectors

Board Page 284 **Connection adaptors** Page 285 **Component adaptors** Page 286 **Motor controller/power pack** Page 291

Functions:

- To protect connected equipment
- Integral test holes provide measurement access to the contact parts of the fuse inserts
- For cable outlet at the top, the NH fuse-switch disconnector must be mounted on the board rotated through 180°

Material:

- Polyamide
- Fire protection corresponding to UL 94-V0
- Contact tracks: Silver-plated hard copper

Colour:

- RAL 7035

Basis of test:

- IEC/DIN EN 60 947-3

Board Page 284 Connection adaptors Page 285 Component adaptors Page 286 NH fuse-switch disconnectors Page 290

Functions:

- For controlling motors as direct or reversing starters with integral over-ride protection
- The hybrid technology used facilitates frequent switching by semi-conductors with zero wear
- During operation, mechanical contacts ensure a low heat loss
- Space-saving configuration thanks to the minimal build width

Material:

- Polyamide
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 7035

Note:

Rittal – The System.

Faster – better – everywhere.

RiLine

Busbar systems 3-/4-pole and DC

Support + bars + contact hazard protection

- Flat copper bar system, see page 300
- PLS busbar system, see page 302
- Accessories, see page 340

Connection system 3- and 4-pole

- Busbar connection adaptors, see page 304
- Connection clamps, see page 349
- Connection block, see page 351
- Accessories, see page 349

Component adaptors 3- and 4-pole

- OM adaptors, see page 307
- Circuit-breaker component adaptors, see page 314
- Accessories, see page 352

Fuse elements 3-pole

- Bus-mounting fuse bases, see page 323
- NH fuse-switch disconnectors, see page 325
- NH slimline fuse-switch disconnectors, see page 335
- Fuse holders, see page 337
- Accessories, see page 356

VX25 Power Engineering

see page 446

- Simple component selection, integral switchgear database
- Automatic calculation of rated currents and heat losses
- Configuration of RiLine busbar systems (offline version RPE 7.0)

RiLine busbar systems up to 800 A (60 mm)

Busbar connection adaptors Page 304 **OM adaptors** Page 307 **Circuit-breaker component adaptors** Page 314 **Fuse elements** Page 323

Material:

- Polyamide
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 7035

Note:

- UL approval only valid in conjunction with AC applications
- The use of a base tray is required for UL applications.

Bus-mounting fuse base

Busbar system Page 300 Connection adaptors Page 304 OM adaptors Page 307 Circuit-breaker component adaptors Page 314

Material:

- Bus-mounting fuse base: Fibreglass-reinforced, thermoplastic polyester (PBT)
- Contact hazard protection: Polyamide
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 7035

Note:

- For the use of fuse inserts to EN 60 269-3 (DIN VDE 0636-3)

Design		-	Easy Connect	-	Easy Connect	-	Easy Connect	Page

Bus-mounting fuse base D-Switch

Busbar system Page 300 **Connection adaptors** Page 304 **OM adaptors** Page 307 **Circuit-breaker component adaptors** Page 314

Material:

- Polyamide
- Fire protection corresponding to UL 94-V0

Colour:

- Chassis: RAL 7035
- Fuse holder: RAL 7001

Supply includes:

- Retaining springs for D 01 and 10 x 38 mm fuses

Basis of test:

- IEC/DIN EN 60 947-3

Note:

- For the use of fuse inserts to EN 60 269-3 (DIN VDE 0636-3)
- With integral visual fuse monitoring via flashing indicator and operating status display as well as cable routing for conductors up to 6 mm²

NH fuse-switch disconnectors Page 325

Compact measurement unit consisting of measurement data acquisition unit, evaluation electronics, communication module, measurement power supply and flash data memory.

Functions:

- Continuous measurement of energy-related data
- Data logging in CSV format (Excel)
- Individual limit monitoring and alarm function
- May be integrated into the CMC III monitoring system
- Automatic address allocation via CAN bus

Material:

- Polyamide
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 7035

Supply includes:

- NH measurement module
- Connector 2 x 2.5 mm² with preassembled bridge
- USB cable (mini-B connector on micro-B jack)

NH measurement module for NH fuse-switch disconnectors

Smart monitoring system

Accessories

LCD display

for monitoring

Functions:

- Illuminated display with more than 50 measurement parameters
- Intuitive configuration of alarm and limit values
- Voltage supply for display via pluggable RJ12 patch cable

Material:

- Polyphenylene ether (PPE)

Colour:

- RAL 9005

Protection category IP to IEC 60 529:

- IP 51 (front)
- IP 41 (enclosure)

Supply includes:

- LCD display
- Modbus RTU cable (RJ12), length: 2 m

Interfaces	1 x Modbus RTU (RJ12)
Operating temperature range	-5 °C...+55 °C
Storage temperature range	-25 °C...+70 °C
Operating humidity range %	5 - 95
Width mm	96
Height mm	96
Depth mm	46
Packs of	1 pc(s).
Model No.	9343.410

**Also required:**

- Power pack, see page 334

Power pack

for LCD display

For mounting on support rails to EN 60 715, 7.5 mm high.

Material:

- Polycarbonate
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 9005

Protection category IP to IEC 60 529:

- IP 20

Supply includes:

- Power pack
- Connector 2 x 2.5 mm²

Interfaces	1 x Modbus RTU (RJ12) 2 x Modbus RTU (RJ45)
Operating temperature range	-5 °C...+55 °C
Storage temperature range	-25 °C...+70 °C
Operating humidity range %	5 - 95
Width mm	71
Height mm	91
Depth mm	61
Rated operating voltage V, Hz	85 - 265 (AC/DC), 50/60
Output current (max.) A	0.42
Output voltage V (DC)	24

RiLine accessories

Busbars

CUPONAL busbars

Copper-coated aluminium busbars, suitable for configuring busbar systems with busbar supports 9340.000/9340.050.

Material:

- Aluminium
- Copper

Note:

- The rated current is derived at 65 °C bar temperature and 35 °C ambient temperature
- Correction factor diagram to DIN EN 43 671
- May be cut individually to required length

Standards:

- DIN EN 13 601

Short-circuit resistance diagram 9340.000/9340.050

- x** Busbar support spacing (mm)
- y** I_p Surge-current resistance (kA)

RiLine accessories

Busbars

PLS special busbars E-Cu

Material:

- E-Cu

Note:

- May be cut individually to required length

Approvals:

- UL

Accessories:

- PLS busbar connectors, see page 344
- PLS expansion connectors, see page 345

For system PLS 800

For enclosure width mm	Cross-section mm ²	Length mm	Bar thickness mm	Packs of	Model No.
600	300	495	5	3 pc(s).	3524.000
800	300	695	5	3 pc(s).	3525.000
1000	300	895	5	3 pc(s).	3525.010
1200	300	1095	5	3 pc(s).	3526.000
-	300	2400	5	1 pc(s).	3509.000

For system PLS 1600

For enclosure width mm	Cross-section mm ²	Length mm	Bar thickness mm	Packs of	Model No.
600	900	495	10	3 pc(s).	3527.000
800	900	695	10	3 pc(s).	3528.000

-	900	2400	10	1 pc(s).	3516.000

PLS busbar connectors

For connecting the PLS special busbars; no drilling required.

Material:

- E-Cu

Surface finish:

- Nickel-plated

Approvals:

- UL

For system PLS 800

Connection type	Packs of	Model No.
Single connection	3 pc(s).	3504.000
Baying connection from enclosure to enclosure	3 pc(s).	3505.000

For system PLS 1600

Connection type	Packs of	Model No.
Single connection	3 pc(s).	3514.000
Baying connection from enclosure to enclosure	3 pc(s).	3515.000

PLS expansion connectors

For thermal and mechanical compensation when connecting PLS special busbars from enclosure to enclosure.

Material:

- E-Cu

Note:

- At a temperature increase of 30 K, there is an expansion in the length of the busbars by approximately 0.5 mm/m. For this reason, it is advisable to use an expanding connection for thermal compensation in busbar systems with busbar sections > 3600 mm.

Approvals:

- UR

For system	Packs of	Model No.
PLS 800	3 pc(s).	9320.060
PLS 1600	3 pc(s).	9320.070

Also required:

- PLS busbar connectors, see page 344

Assembly instruction:

- Two busbar connectors are needed to fit one expansion connector.

The Copper Workstation CW 120-M is ideal for bending, punching and cutting busbars, from page 639

RiLine accessories

Laminated copper bars

Laminated copper bars

Material:

- Cu lamina High-purity electrolyte copper F20
- Insulation: Highly resistant vinyl compound, elongation 370%, temperature: -30 °C...+105 °C, fire protection corresponding to UL-94 V0, dielectric strength: 20 kV/mm

Note:

- Construction = Number of lamina x lamina width x lamina thickness
- May be cut individually to required length
- The conductor temperature of the laminated copper bar is derived by adding the ambient temperature and the temperature increase together. Example: 3565.005 carrying 180 A, i.e. the temperature increases by 30 K. At an ambient temperature of 35 °C, this produces a resultant conductor temperature of 35 °C + 30 K = 65 °C.

Accessories:

- Universal support, see page 346

Construction mm	Length mm	Rated current (at 70 K) A	Rated current (at 50 K) A	Rated current (at 30 K) A	Packs of	Model No.

Universal support

for laminated copper bars

For the attachment of laminated copper bars from 5 x 20 x 1 to 10 x 63 x 1 mm.

Material:

- Fibreglass-reinforced, thermoplastic polyester (PBT)
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 7035

Supply includes:

- Assembly parts

Packs of	Model No.
3 pc(s).	3079.000

Accessories:

- Punched rail 23 x 23 mm, see page 994

Universal support

for laminated copper bars

For the attachment of multi-stacked laminated copper bars from 5 x 40 x 1 to 10 x 100 x 1 mm.

Material:

- Fibreglass-reinforced, thermoplastic polyester (PBT)
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 7035

Supply includes:

- Assembly parts

Packs of	Model No.
1 pc(s).	3079.010

Note:

- 1 universal support corresponding to the supply scope shown in the photograph

Accessories:

- C rails 30/15, see page 996

RiLine accessories

Contact hazard protection

Base tray

for RiLine busbar systems

For rear contact hazard protection of the busbar assembly.

Material:

- Thermally modified hard PVC.
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 7035

Note:

- May be cut individually to required length

Approvals:

- UL

RiLine accessories

Contact hazard protection

Cover section

for RiLine busbar systems

For clip-on mounting onto the base tray.

Material:

- Thermally modified hard PVC.
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 7035

Note:

- If the cover section is loaded from the front, the support panel is needed for stability
- May be cut individually to required length

Approvals:

- UL

For system	Length mm	Packs of	Model No.
Flat copper busbars, 3-pole PLS 800, 3-pole PLS 1600, 3-pole	700	2 pc(s).	9340.200
Flat copper busbars, 3-pole PLS 800, 3-pole PLS 1600, 3-pole	1100	2 pc(s).	9340.210
Flat copper busbars, 4-pole PLS 1600, 4-pole	1100	2 pc(s).	9340.214

Also required:

- Base tray, see page 347

Accessories:

- Support panel, see page 348

Support panel

for cover section

To prevent side access to the cover section. The support panel also provides additional stability. Recommended mounting distance ≤ 500 mm.

Material:

- Polyamide
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 7035

Approvals:

- UL

For system	Packs of	Model No.
3-pole	5 pc(s).	9340.220
4-pole	5 pc(s).	9340.224

Cross member

for RiLine busbar connections

To comply with the clearances required for "feeder circuits" under UL 508. For flat bar systems with 60 mm bar centre distance and PLS 800/1600.

Material:

- Polyamide
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 7035

Note:

- 2 cross members are required for one busbar connection

Approvals:

- UL

For system	Length mm	Packs of	Model No.
3-pole	160	2 pc(s).	9340.230

Also required:

- Support panel, see page 348

RiLine accessories

Connection systems

Conductor connection clamps

Push-in

Applications:

- For use as busbar pick-off of L, N or PE conductors in switchgear and controlgear, and as a conductor connection clamp in meter boxes.
- For mounting on E-Cu or CUPONAL busbars

Benefits:

- Maintenance-free
- Time-saving top-mounting
- Terminal box with integral label panels
- Universal conductor connection

Functions:

- Fully insulated terminal for tool-free conductor connection
- Conductor is released by the integral release pin

Material:

- Polyamide
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 7042

Basis of test:

- IEC 60 999-1
- IEC 60 947-7-1/-2

RiLine accessories

for bus-mounting fuse bases

Contact hazard protection cover plate

for bus-mounting fuse bases

The cover ensures contact hazard protection from the front, top and below. All-round contact hazard protection (up to IP 2X) in conjunction with the side cover 3093.010/.020.

Material:

- Polyamide
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 7035

To fit Model No.	Fuse inserts	Packs of	Model No.
3418.010	D 02-E 18	10 pc(s).	3418.020
3427.010	D II-E 27	10 pc(s).	3427.020
3433.010	D III-E 33	10 pc(s).	3433.020

Cover, side

for bus-mounting fuse bases

For clip-on mounting onto the cover plate, contact hazard protection.

Material:

- Polyamide
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 7035

To fit Model No.	Fuse inserts	Packs of	Model No.
3418.010	D 02-E 18	10 pc(s).	3093.010
3427.010/ 3433.010	D II-E 27 D III-E 33	10 pc(s).	3093.020

Connection space extender

for bus-mounting fuse bases

Contact hazard protection cover plate including cable duct for side extension of the connection space by 14 mm.

Material:

- Polyamide
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 7035

To fit Model No.	Fuse inserts	Packs of	Model No.
3418.010	D 02-E 18	10 pc(s).	3418.030
3427.010	D II-E 27	10 pc(s).	3427.030
3433.010	D III-E 33	10 pc(s).	3433.030

Wiring duct

for D-Switch bus-mounting fuse base

For safe, shock-hazard-protected routing of connection cables. Also suitable for use as a spacer support.

Material:

- Polyamide
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 7035

Width mm	To fit Model No.	Packs of	Model No.
13.5	9340.950	10 pc(s).	9340.905

RiLine accessories

for NH fuse elements

Box terminal

for NH fuse-switch disconnectors

For direct connection of round and sector-shaped conductors and laminated copper bars. Suitable for NH fuse-switch disconnectors with screw terminal.

Material:

– Cast brass

Surface finish:

– Nickel-plated

For size	Connection of round conductors mm ²	Connection of sector-shaped conductors mm ²	Clamping area for laminated copper bars (W x H) mm	Packs of	Model No.
1	35 - 150	50 - 150	20 x 14	3 pc(s).	9344.610
2/3	95 - 300	120 - 300	32 x 20	3 pc(s).	9344.620

Arcing chamber

for NH fuse-switch disconnectors

To increase switching capacity (utilisation category).

For size	Packs of	Model No.
1 - 3	3 pc(s).	9344.680

Connection space cover

for NH fuse-switch disconnectors

For extending the contact hazard protection cover, e.g. when using ring terminals with a long collar. Bayable as required at the top and bottom.

Material:

– Polyamide

Colour:

– RAL 7035

For size	Packs of	Model No.
00	2 pc(s).	9344.520
1	2 pc(s).	9344.530
2	2 pc(s).	9344.540
3	2 pc(s).	9344.550

Connection space cover

for NH slimline fuse-switch disconnectors

Extended version for the use of ring terminals with a long collar.

Material:

– Polycarbonate

For size	Packs of	Model No.
00	1 pc(s).	9346.460

RiLine accessories

for NH fuse elements

Micro-switch

for NH fuse-switch disconnectors/NH slimline fuse-switch disconnectors (185 mm)

To indicate the switch position of the NH unit (cover).

For size	Rated operating current max. A	Rated operating voltage V	Product-specific scope of supply	Packs of	Model No.
NH fuse-switch disconnectors, size 000/00 NH slimline fuse-switch disconnectors, size 00 - 3 (185 mm)	5	250	-	5 pc(s).	3071.000
NH fuse-switch disconnectors, size 1 - 3	5	250	Including plastic lug for attaching the micro-switch to the disconnector chassis	2 pc(s).	9344.510

Micro-switch

for NH slimline fuse-switch disconnectors

To indicate the switch position of the NH unit (cover).

For size	Rated operating current max. A	Rated operating voltage V	Packs of	Model No.
00	5	250	5 pc(s).	9346.400

Clamp-type terminal connection

for NH slimline fuse-switch disconnectors

For the connection of round conductors. Suitable for NH slimline fuse-switch disconnectors with screw terminal.

Material:

- Cast brass

Surface finish:

- Nickel-plated

For size	Connection of round conductors mm ²	Packs of	Model No.
00	1.5 - 95	3 pc(s).	3592.010

Push-in conductor connection clamps

Simple, tool-free cable connection, see page 349

VX25 Ri4Power system 185 mm – System assembly without drilling

The busbar system is quickly and conveniently installed in the enclosure in just three steps:

- Position the punched section with mounting flange and system attachment in the enclosure
- Secure the busbar assembly
- Clip the cover system into position

Busbar support

- For busbar dimensions ranging from 40 x 10 to 120 x 10 mm
- The support may be top-mounted with components using the pitch pattern of the cover system
- Rated short-time withstand current I_{cw} up to 50 kA
- Rated busbar currents of up to 2100 A
- Mounting via system attachment in the VX25 baying enclosure system, no drilling required

Power distribution

Cover section

- Contact hazard protection up to IP 2XB (safe from finger-contact)
- Integral busbar shielding to prevent accidental arcing
- Secure positioning of the top-mounting components, thanks to centring device
- New contact system allows components to be top-mounted on the cover section
- Components are easily retrofitted without removing the cover section

Base tray

- For rear contact hazard protection of the busbar assembly
- For optimum all-round contact hazard protection in conjunction with the cover section
- Prepared ready to install, fits VX25 baying enclosure system widths from 600 mm to 1200 mm

The perfect-fit adaptor system

Connection and component adaptors for tested, safe connection at high currents

- For air circuit-breakers up to 630 A and 1600 A
- Direction connection of various conductor types
- No-drill connection system to the busbar

Busbar connection adaptors and connection blocks

- Compact, fast connection of cables and lines
- Suitable for various types of conductor
- With standardised contact hazard protection cover plates

Power distribution

Component adaptors for compact circuit-breakers

- Two sizes up to 630 A and 1600 A
- Variants for clamping or screw attachment
- Make contact without drilling
- Ideal for incoming and outgoing circuits

Connector kit and transformer

- Form-fit, prepared for switch brands ABB, Eaton, Schneider Electric, Siemens
- Preassembled connector kits from the adaptor to the circuit-breaker
- Optional integration of a current transformer
- Complete contact hazard protection in the inlet and outlet zones

Fuse elements to suit all situations

The new system of NH slimline fuse-switch disconnectors is based on separate air routing for heat dissipation and targeted removal of switching gases, while the NH slimline switch-disconnectors ensure user-independent disconnection and switching for enhanced safety.

- Simple device assembly
- Safe operation
- Optimum contact hazard protection

NH slimline fuse-switch disconnectors, sizes 00 to 3

- Single-pole and 3-pole switchable variants
- Symmetrical layout for cable outlet at the top and bottom
- Optional integration of current transformers
- Versions with and without fuse monitoring
- Self-closing voltage testing holes
- Prepared for multiple lead seals
- Hinged terminal cover
- Cascadable connection space extension
- Simple conversion of the bolt or screw connections
- Contact hazard-proof fuse contacts with the top section dismantled
- Optional micro-switch monitoring of the cover switch position

NH slimline switch-disconnectors, size 00 to 3

- Disconnect and switch with one device
- Integral, user-independent quick-break contact ensures safe operation
- User-friendly cable connection from above or below
- Versions with and without fuse monitoring
- Integral switch position display
- No-drill contacting with clamping screw attachment
- Double-break allows de-energised fuse replacement

Power distribution

Busbar support (185 mm)

Connection adaptors Page 370 **Connection block** Page 371 **Component adaptors** Page 372 **NH slimline switch-disconnectors** Page 374

Material:

- Polyamide
- Fire protection corresponding to UL 94-V0

Material:

- Polyamide
- Fire protection corresponding to UL 94-V0
- Contact tracks: Partially silver-plated hard copper

Colour:

- Chassis: RAL 7035
- Cover: RAL 7001
- Handle: RAL 7016

Basis of test:

- IEC/DIN EN 60 947-3
- DIN EN 60 269-2 (fuse inserts)

Note:

- When using components on busbars with contact hazard protection cover, the contact terminal must be used

Size 00 – 3, with electronic fuse monitoring

Busbar system 185 mm

Accessories

System attachment

for VX

For attaching busbar systems with 185 mm centre-to-centre spacing inside the enclosure.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- 2 system attachments (left/right)
- 2 punched sections without mounting flanges
- Assembly parts

For enclosure width mm	Product-specific scope of supply	Packs of	Model No.
600	–	1 pc(s).	9677.511
800	–	1 pc(s).	9677.521
1000	System attachment (centre)	1 pc(s).	9677.531
1200	System attachment (centre)	1 pc(s).	9677.541

Assembly instruction:

- For variable depth adjustment of the busbar system in the enclosure, the punched section with mounting flange 23 x 64 mm for VX (for the inner mounting level) is additionally required. Select according to the enclosure depth.

Accessories:

- Punched section with mounting flange, 23 x 64 mm, see page 991
- Captive nuts, see page 1002

Busbar connector

For connecting rectangular busbars, no drilling required.

Material:

- E-Cu

Surface finish:

- Tin-plated

Note:

- If using a 100 x 10 mm busbar, one 9677.610 and one 9677.620 are required

For busbar mm	Quantity required per bar	Length mm	Packs of	Model No.
40 x 10	1	40	1 pc(s).	9677.610
80 x 10	2			
100 x 10	1			
60 x 10	1	60	1 pc(s).	9677.620
100 x 10	1			
120 x 10	2			

End cover

for busbar supports

For contact hazard protection of the busbar system on the left and right. Attachment is on the busbar supports.

Material:

- Polyamide
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 7035

Supply includes:

- 1 end cover, left
- 1 end cover, right

To fit Model No.	Packs of	Model No.
9677.500	2 pc(s).	9677.600

Contact hazard protection cover plate

for 185 mm busbar system

For contact hazard protection of the busbar assembly at the rear and front.

Material:

- Base tray: Polyphenylene ether (PPE)
- End section: Polyphenylene ether (PPE)
- Cover section: Polyamide
- Centre cover: Polyamide

Colour:

- RAL 7035

Supply includes:

- Cover section, slotted, 50 mm wide
- Cover sections, slotted, 100 mm wide
- Base trays
- Trim sections

For enclosure width mm	Product-specific scope of supply	Packs of	Model No.
600	-	1 pc(s).	9677.550
800	-	1 pc(s).	9677.560
1000	Centre cover for busbar support	1 pc(s).	9677.570
1200	Centre cover for busbar support	1 pc(s).	9677.580

Accessories:

- Cover strip, see page 381

Cover strip

for contact hazard protection cover

For covering the front exposed contact slots in the cover section.

Material:

- Polyamide
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 7035

Width mm	Height mm	To fit Model No.	Packs of	Model No.
100	67	9677.550/ 9677.560/ 9677.570/ 9677.580	3 pc(s).	9677.650

Contact hazard protection cover plate

for enclosure connection

For rear and front contact hazard protection of the connection points from enclosure to enclosure, with and without busbar connectors.

Material:

- Base tray: Polyphenylene ether (PPE)
- Cover section: Polyamide
- Centre cover: Polyamide

Colour:

- RAL 7035

Supply includes:

- 3 base trays
- 1 cover (front)
- 2 centre covers for busbar support

Packs of	Model No.
1 pc(s).	9677.640

Busbar system 185 mm

Accessories

Contact hazard protection cover plate

for connection block

To cover the connector block at the front.

Material:

- Polyamide
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 7035

Width mm	Height mm	Packs of	Model No.
105	245	1 pc(s).	9677.925

Connector kit

for component adaptors

Preassembled connector kit for common brands of moulded-case circuit-breaker (MCCB). For electrical connection between the switch and the component adaptor (3-pole).

Material:

- E-Cu

Supply includes:

- Assembly parts

For switchgear make (model)	To fit Model No.	Packs of	Model No.
ABB (Tmax T7 - 800 A/1000 A) Schneider Electric (NS - 800 A/1000 A)	9677.700/9677.705	1 pc(s).	9677.730

Contact hazard protection cover plate

for component adaptors

To cover the connector kit at the front. The cover may also optionally be used for the switchgear cable connection. Open cable accesses in the contact hazard protection cover may be sealed using the side panels.

Material:

- Polyamide
- Fire protection corresponding to UL 94-V0

Supply includes:

- Side panels

For switchgear make (model)	Packs of	Model No.
-	1 pc(s).	9677.790
ABB (Tmax T7)	1 pc(s).	9677.792
Eaton (NZM 4)	1 pc(s).	9677.794
Siemens (3VL7/3VL8)	1 pc(s).	9677.796
Schneider Electric (NS1600)	1 pc(s).	9677.798

Connection space cover

for NH slimline fuse-switch-disconnectors/NH slimline switch-disconnectors

Cascadable connection space cover to guarantee contact hazard protection in the cable connection zone when using ring terminals with a long collar.

Material:

- Polycarbonate
- Fire protection corresponding to UL 94-V0

Note:

- When using NH slimline fuse-switch disconnectors with top cable outlet, use of the connection space cover is mandatory

For size	To fit Model No.	Cable outlet	Note on Model No.	Packs of	Model No.
00	9677.0X0/9677.0X5	Bottom	Also suitable for use with NH slimline switch-disconnectors with top cable outlet	1 pc(s).	9677.400

Contact terminal

for NH slimline fuse-switch disconnectors/ connection adaptors

For mounting components on busbar systems with 185 mm centre-to-centre spacing, no drilling required.

Material:

- Sheet steel, zinc-plated
- E-Cu, tin-plated

Note:

- Only suitable for use on busbar system with contact hazard protection cover (cover section, slotted)

For size	Packs of	Model No.
00	3 pc(s).	9677.450
1 - 3 and connection adaptors	3 pc(s).	9677.460

Busbar system 185 mm

Accessories

Busbar terminal

for NH slimline fuse-switch disconnectors/ connection adaptors

For mounting components on busbar systems with 185 mm centre-to-centre spacing, no drilling required.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Note:

- Can only be used on busbar systems without contact hazard protection cover (cover section, slotted)

For size	Packs of	Model No.
00	3 pc(s).	9677.470
1 - 3 and connection adaptors	3 pc(s).	9677.480

Prism terminal

for NH slimline fuse-switch disconnectors

For the direct connection of round conductors.

Material:

- Brass

Surface finish:

- Tin-plated

For size	To fit Model No.	Connection of round conductors mm ²	Packs of	Model No.
00	9677.000/ 9677.010/ 9677.015	10 - 95	3 pc(s).	9677.420

V connection terminal

for NH slimline fuse-switch disconnectors

For the direct connection of round conductors.

Material:

- Brass

Surface finish:

- Tin-plated

For size	To fit Model No.	Connection of round conductors mm ²	Packs of	Model No.

Current converter

for NH slimline fuse-switch-disconnectors/ NH slimline switch-disconnectors

Compact design without altering the installation depth via mechanical integration into the NH slimline switch-disconnector (185 mm centre-to-centre spacing); this allows space-saving assembly.

Material:

– Polyamide

Basis of test:

- IEC 60 044-1

Accessories

Trim strip

for NH slimline fuse-switch-disconnectors/
NH slimline switch-disconnectors

To create a contact surface for individual use of a front contact hazard protection cover plate. Mounted on the side of the NH strip enclosure.

Material:

– Hard PVC

Colour:

– RAL 7035

For size	Packs of	Model No.
00 - 3	2 pc(s).	9677.407

Connection space cover, rear

for NH slimline switch-disconnectors

To guarantee contact hazard protection in the rear cable connection zone when using ring terminals with long press sleeves. In conjunction with the front connection space cover (9677.400/.410), this achieves all-round contact hazard protection of the connection space.

Material:

– Polyamide

Colour:

– RAL 7035

For size	Packs of	Model No.
00	1 pc(s).	9677.402
1 - 3	1 pc(s).	9677.412

Clamp-type terminal

for NH slimline switch-disconnectors

For the connection of round conductors.

Material:

– Sheet steel

Surface finish:

– Zinc-plated

For size	Connection of round conductors mm ²	Packs of	Model No.
00	16 - 70	3 pc(s).	9677.425

Box terminal

for NH slimline switch-disconnectors

For converting NH slimline switch-disconnectors to box terminal connection for round conductors.

Material:

- Aluminium
- E-Cu, silver-plated

Supply includes:

- Connection space cover, rear

For size	Connection of round conductors mm ²	Packs of	Model No.
1 - 3	70 - 240	3 pc(s).	9677.435
1 - 3	185 - 300	3 pc(s).	9677.445

Contact terminal

for NH slimline switch-disconnectors

For mounting NH slimline switch-disconnectors on bar systems with 185 mm centre-to-centre spacing, no drilling required.

Material:

- Sheet steel, zinc-plated
- E-Cu, tin-plated
- Polyamide

Note:

- Only suitable for use on busbar system with contact hazard protection cover (cover section, slotted)

For size	Packs of	Model No.
1 - 3	3 pc(s).	9677.485

Micro-switch

for NH slimline switch-disconnectors

To indicate the switch position of the NH unit (cover).

Supply includes:

- Bracket

For size	Rated operating current max. A	Rated operating voltage V	Packs of	Model No.
00 - 3	5	250	1 pc(s).	9677.418

Busbar systems (100/185/150 mm)

NH slimline fuse-switch disconnectors Page 335/374

Material: Busbar supports, inserts

- Fibreglass-reinforced, thermoplastic polyester (PBT)
- Fire protection corresponding to UL 94-V0

Colour:

- RAL 7035

Note:

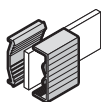

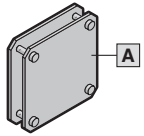

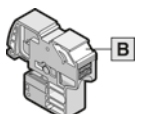

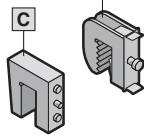

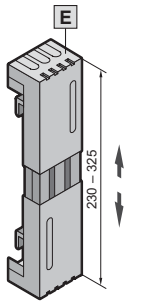

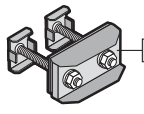

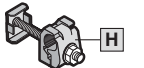

- The base component of busbar support 3052.000 may also be used as a single-pole support

Busbar systems

1250 A (100 mm), 1600 A (185 mm), 2500 A (150 mm), 3000 A (150 mm)

¹⁾ The required screw connection must be ordered separately according to the busbar width, see page 400

VX25 Ri4Power – Greater flexibility with interior installation

Variable adaptation

- Removal of the pre-punched knock-outs in the compartment dividers is burr-free, for flexible subdivision of the openings depending on the planned cable routing. This supports a continuous, direct power supply to the control and wiring sections.
- Cross member cutter 4054.870 for removing the pre-punched knock-outs, see page 586.

Flexible busbar routing

- The main busbars may optionally be routed in the roof section or central rear section, for enhanced planning and space flexibility.

Optimum continuity

- Because PE or N conductors are connected by directly screw-fastening the busbar supports to the frame section, this ensures an identical, consistent arrangement of bars in the rear or front enclosure area across all section types.

VX25 Ri4Power – Enhanced efficiency for bar systems

Significant reduction in parts

- The 25 mm pitch pattern allows busbar supports to be mounted directly onto the enclosure section. Just three screws is all you need. No further components are required.

A high level of standardisation

- Standard bars in sizes 30 x 10 mm and 50 x 10 mm are used.

Quick busbar connection

- The open busbar support can additionally accommodate the busbar connector, for simple, fast connection to the next section.

Power distribution

Busbar system

Flat-PLS

Busbar supports

for distribution busbar system

For assembling vertical distribution busbar systems (2 x 30 x 10 mm, 3-/4-pole, 70 mm centre-to-centre spacing) or busbar systems (30 x 5/10 mm, 3-/4-pole, 60 mm centre-to-centre spacing) with RiLine components in modular outgoing sections.

Material:

- Duroplastic
- Fire protection corresponding to UL 94-V0

Colour:

- Similar to RAL 9005

Supply includes:

- Assembly parts

For busbar mm	Bar centre distance mm	Packs of	Model No.
30 x 5/10	60	2 pc(s).	9686.100
30 x 10	70		

Also required:

- Busbars E-Cu, see page 342

Accessories:

- End cover, see page 396

Busbar supports

for busbar entry (roof section)

For inserting 3- or 4-pole flat copper busbar systems into the roof section.

Material:

- Duroplastic
- Fire protection corresponding to UL 94-V0

Colour:

- Similar to RAL 9005

Supply includes:

- Assembly parts

For busbar mm	Bar centre distance mm	Packs of	Model No.
30 x 10	80	2 pc(s).	9686.010
50 x 10	80	2 pc(s).	9686.040

Also required:

- Busbars E-Cu, see page 342
- Captive nuts, see page 1002

Assembly instruction:

- For the installation of max. 4 busbars (sub-conductors) per phase
- Cage nut (M8) 4165.500 is required to attach the busbar supports to the enclosure section.

Accessories:

- End cover, see page 396

Busbar system

Flat-PLS

Busbar supports

for busbar baying (roof section)

For baying 3- or 4-pole flat copper busbar systems from enclosure to enclosure in the roof section.

Material:

- Duroplastic
- Fire protection corresponding to UL 94-V0

Colour:

- Similar to RAL 9005

Supply includes:

- Assembly parts

For busbar mm	Bar centre distance mm	Packs of	Model No.
30 x 10	80	2 pc(s).	9686.000
50 x 10	80	2 pc(s).	9686.030

Also required:

- Busbars E-Cu, see page 342
- Longitudinal connector E-Cu, see page 397
- Captive nuts, see page 1002

Assembly instruction:

- For the installation of max. 4 busbars (sub-conductors) per phase
- Cage nut (M8) 4165.500 is required to attach the busbar supports to the enclosure section.

Accessories:

- End cover, see page 396

Possible alternative:

- Busbar E-Cu, slotted, see page 396

Busbar supports

for busbar entry (rear section)

For inserting 3-pole flat copper busbar systems into the rear section of the enclosure.

Material:

- Duroplastic
- Fire protection corresponding to UL 94-V0

Colour:

- Similar to RAL 9005

Supply includes:

- Assembly parts

For busbar mm	Bar centre distance mm	Packs of	Model No.
50 x 10	185	2 pc(s).	9686.070

Also required:

- Busbars E-Cu, see page 342
- Captive nuts, see page 1002

Assembly instruction:

- For the installation of max. 4 busbars (sub-conductors) per phase
- Cage nut (M8) 4165.500 is required to attach the busbar supports to the enclosure section.

Accessories:

- End cover, see page 396

Busbar system

Flat-PLS

Busbar supports

for busbar baying (rear section)

For baying 3-pole flat copper busbar systems in the rear section from enclosure to enclosure.

Material:

- Duroplastic
- Fire protection corresponding to UL 94-V0

Colour:

- Similar to RAL 9005

Supply includes:

- Assembly parts

For busbar mm	Bar centre distance mm	Packs of	Model No.
50 x 10	185	2 pc(s).	9686.060

Also required:

- Busbars E-Cu, see page 342
- Longitudinal connector E-Cu, see page 397
- Captive nuts, see page 1002

Assembly instruction:

- For the installation of max. 4 busbars (sub-conductors) per phase
- Cage nut (M8) 4165.500 is required to attach the busbar supports to the enclosure section.

Accessories:

- End cover, see page 396

Possible alternative:

- Busbar E-Cu, slotted, see page 396

End cover

for busbar supports

For shock-hazard-protected covering of the busbar ends on the busbar holder.

Material:

- Polyamide
- Fire protection corresponding to UL 94-HB

Colour:

- Similar to RAL 9005

Supply includes:

- Assembly parts

Width mm	Height mm	Packs of	Model No.
50	147	3 pc(s).	9686.080

Busbar E-Cu, slotted

Busbars with integral punchings.

Material:

- Busbar claw with threaded insert M10

Busbar system

Connection system Flat-PLS

Connection plate

for laminated copper bars

For connecting laminated copper bars to a busbar distributor system made from flat copper. Suitable for 10 mm bar thickness.

Material:

- Connection plate: E-Cu
- Thrust piece: Stainless steel
- Busbar claw: Stainless steel

Supply includes:

- Assembly parts (excluding screws)

No. of sub-conductors per phase	Clamping area for laminated copper bars (W x H) mm	Mounting dimensions mm	Packs of	Model No.
2	32 x 20	50	1 pc(s).	9676.747
2	63 x 20	50	1 pc(s).	9676.748
2	100 x 20	50	1 pc(s).	9676.749

Also required:

- M10 screw, see page 400

Assembly instruction:

- The required screw length must be selected in line with the busbar width W, i.e. length = W + fastening measurement. Screws are not included with the supply.
- Busbar claw with threaded insert M10

Accessories:

- Laminated copper bar, see page 346

Connection plate

for ring terminals

For connecting ring terminals to a busbar distributor system made from flat copper. Suitable for 10 mm bar thickness.

Material:

- Connection plate: E-Cu, nickel-plated
- Busbar claw: Stainless steel

Supply includes:

- Assembly parts (excluding screws)

Thread	No. of sub-conductors per phase	Mounting dimensions mm	Product-specific scope of supply	Packs of	Model No.
M10	2	40	-	1 pc(s).	9676.710
M12	2	20	Grub screw	1 pc(s).	9676.700

Also required:

- M10 screw, see page 400

Assembly instruction:

- The required screw length must be selected in line with the busbar width W, i.e. length = W + fastening measurement. Screws are not included with the supply.
- Busbar claw with threaded insert M10

Busbar system

Connection system Flat-PLS

Connection set

for Flat-PLS

For attaching NH slimline fuse-switch disconnectors and NH slimline switch-disconnectors (185 mm) or for connecting busbars. Suitable for busbar system with flat copper 50 x 10 mm

Material:

- Sheet steel, zinc-plated

Note:

- Screws are not included with the supply

Thread	For no. of busbars	Packs of	Model No.
M8	2	3 pc(s).	9686.800
	4		
M10	2	3 pc(s).	9686.810
	4		

Assembly instruction:

- The connection set may only be used with top-mounting components with screw fastening
- NH slimline fuse-switch disconnectors:
The required screw length when using busbars is 2 x 50 x 10 mm = 35 mm and 4 x 50 x 10 mm = 55 mm
- NH slimline switch-disconnectors: Only suitable for attaching to busbars 2 x 50 x 10 mm
- When using 4 busbars per phase, a filler piece is additionally required

Accessories:

- M10 screw, see page 400
- Filler piece, see page 400

Filler piece

for connection set

When using top-mounting components on a busbar system with 4 busbars per phase, a filler piece is additionally required between the bars.

Material:

- E-Cu

Maxi-PLS 60

Busbar system

Connection system Maxi-PLS

Connection clamp

for round conductors

For the connection of round conductors.

Material:

- Connection clamp: Brass, tin-plated
- Terminal stud: Steel, zinc-plated
- Sliding block: E-Cu

Supply includes:

- Connection clamp
- Terminal studs
- Sliding block
- Assembly parts

For system	Connection of round conductors mm ²	Packs of	Model No.
Maxi-PLS 45 S/45	95 - 300	1 pc(s).	9640.325
Maxi-PLS 60	95 - 300	1 pc(s).	9650.325

Connection plate

for laminated copper bars

For the connection of laminated flat copper bars.

Material:

- Connection plate: E-Cu
- Thrust piece: Stainless steel

Supply includes:

- Assembly parts

For system	Clamping area for laminated copper bars (W x H) mm	Packs of	Model No.
Maxi-PLS 45 S/45	32 x 20	3 pc(s).	9640.330
Maxi-PLS 45 S/45	63 x 20	3 pc(s).	9640.340
Maxi-PLS 45 S/45	100 x 20	3 pc(s).	9640.350
Maxi-PLS 60	32 x 20	3 pc(s).	9650.330
Maxi-PLS 60	63 x 20	3 pc(s).	9650.340

Accessories:

- Laminated copper bar, see page 346

Terminal studs

for Maxi-PLS

For connecting cables with ring terminals.

Material:

- Terminal stud: Steel, zinc-plated
- Sliding block: E-Cu

Supply includes:

- Terminal studs
- Sliding blocks
- Assembly parts

For system	Thread	Thread length mm	Packs of	Model No.
Maxi-PLS 45 S/45	M12	30	3 pc(s).	9640.370
Maxi-PLS 45 S/45	M16	30	3 pc(s).	9640.380
Maxi-PLS 60	M12	32	3 pc(s).	9650.370
Maxi-PLS 60	M16	32	3 pc(s).	9650.380

Sliding block

for Maxi-PLS busbars

For attaching flat copper bars and connection components to Maxi-PLS busbars. For sliding into the busbar section at the side and tightening the threaded bolts.

Material:

- E-Cu

For system	Length mm	Thread	Packs of	Model No.
Maxi-PLS 45 S/45	20	M8	15 pc(s).	9640.970
Maxi-PLS 45 S/45	25	M10	15 pc(s).	9640.980
Maxi-PLS 60	25	M10	15 pc(s).	9650.980
Maxi-PLS 60	35	M12	15 pc(s).	9650.990

Also required:

- Threaded bolts, see page 404

Busbar system

Connection system Maxi-PLS

Sliding nut

for Maxi-PLS busbars

For attaching flat copper bars and connection components to Maxi-PLS busbars. For sliding into the busbar section retrospectively and tightening the threaded bolts.

Material:

- E-Cu

For system	Thread	Packs of	Model No.
Maxi-PLS 45 S/45	M6	15 pc(s).	9640.900
Maxi-PLS 45 S/45	M8	15 pc(s).	9640.910
Maxi-PLS 45 S/45	M10	15 pc(s).	9640.920
Maxi-PLS 60	M6	15 pc(s).	9650.900

Compact infeed

for Maxi-PLS

For individual use as a 3-pole cable connection bar system. Direct mounting on the mounting plate or punched section without mounting flange.

Material:

- End support: Polyamide (PA 6)
- Retaining plate: Sheet steel, zinc-plated
- Punched rail: Sheet steel, zinc-plated

Supply includes:

- 6 end supports
- 2 support plates for end supports
- 1 punched rail 23 x 23 mm (length 495 mm)
- Assembly parts

For system	Packs of	Model No.
Maxi-PLS 45 S/45	1 pc(s).	9660.980

Busbar system

Accessories for connection components

Screw

for connection components

For connecting components such as connection brackets and connection kits.

Material:

- Sheet steel, zinc-plated

Supply includes:

- 8 nuts and 16 washers

Screw design mm	Packs of	Model No.
M10 x 40	8 pc(s).	9676.966
M10 x 45	8 pc(s).	9686.845
M10 x 55	8 pc(s).	9686.865
M10 x 60	8 pc(s).	9676.967
M10 x 80	8 pc(s).	9676.968

Support set (stabiliser)

for connector kit

To support connector kits, top or bottom, for open air circuit-breakers (ACB).

Material:

- Stabiliser: Fibreglass-reinforced polyester
- Angle bracket: Sheet steel

Supply includes:

- 4 plastic stabilisers
- 2 angle brackets
- Assembly parts

Note:

- The angle brackets included with the supply are only suitable for use in TS enclosures
- When using the support set in VX enclosures, angle bracket 9686.495 is additionally required

Packs of	Model No.
1 pc(s).	9660.205

Angle bracket

for support set (stabiliser)

For positioning and securing the holder set (stabiliser) to the enclosure section.

Material:

- Sheet steel, zinc-plated

Supply includes:

- Assembly parts

Note:

- An angle bracket consists of one bracket to be fastened to the enclosure section or the compartment side panel, and one bracket for mounting plastic stabilisers

Packs of	Model No.
4 pc(s).	9686.495

Busbar system

Connection components

Connection components for air circuit-breakers and busbar connections

For connecting air circuit-breakers (ACB) or for connecting horizontal and vertical busbar systems (T-connectors).

Material:

- E-Cu

Note:

- The design code required for the configuration code is generated by the VX25 Rittal Power Engineering software (www.rittal.com/rpevx25/)
- Please quote the complete configuration code on all enquiries and orders (see example)

Configuration code = order number + design code	Description	Section types
Model No. 9686.912 + design code	Connector kit for top/bottom	Air circuit-breakers (ACB), coupling section, cable transition section
Model No. 9686.924 + design code	T-connector kit for top/bottom	Modular outgoing feeder section, fuse-switch disconnect section horizontal/vertical, multi-terminal busbar section, riser section, corner section

Example of creating the configuration code

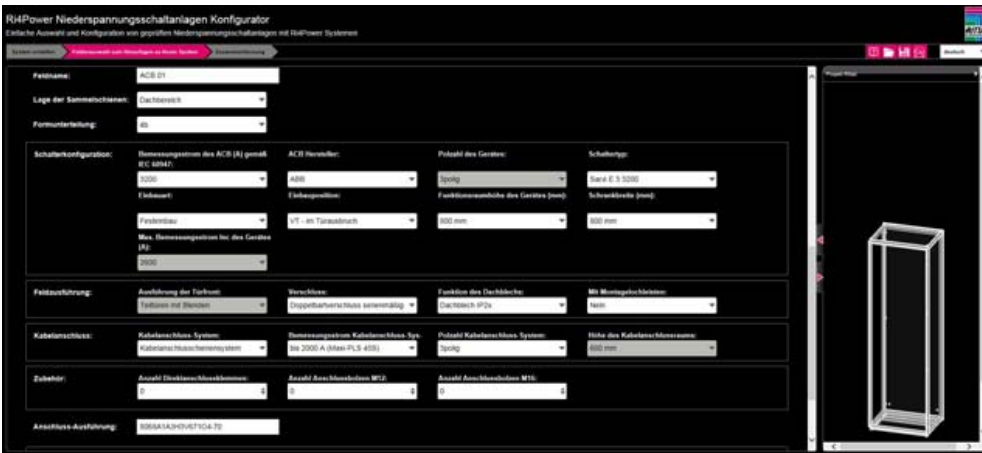

1. Select section type "air circuit-breaker"

Busbar system

Connection components

2. Select switch and manufacturer and enter other technical parameters, such as busbar position, number of poles, rated current etc.

3. The connector kit data is output using the "Determine prices and weights" function. Design code and associated drawings (.dwg, .pdf) are available via the "Download" function. The configuration code for the enquiry or order will then look like this:
Air circuit-breaker (ACB) Model No. 9686.912 + 8068A1A4H3V661O4-70

Cover systems

Form 1

Cover plate

Slotted

To cover live parts and comply with the internal protection category IP 2X and IP XXB within low-voltage switchgear and controlgear. Integral vent holes allow convection inside a system.

Material:

- PVC

Width mm	Height mm	Packs of	Model No.
1200	800	1 pc(s).	9674.990

Accessories:

- Mounting bracket, see page 408

Mounting bracket

for contact hazard protection cover

For the attachment of contact hazard protection covers. Tapped hole M6.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly screws

Packs of	Model No.
24 pc(s).	9660.090

Contact hazard protection cover plate

for enclosures with NH slimline fuse-switch disconnectors

To cover outgoing sections with NH slimline fuse-switch disconnectors and busbar system in the rear enclosure section so that they are safe from finger contact (IP 2X).

Material:

- Sheet steel, 1.5 mm

Surface finish:

- Zinc-plated

Supply includes:

- 4 side panels (left/right side)
- 2 side panels (top/bottom)
- Assembly parts

Note:

- The specified installation width when using the contact hazard protection cover only applies when using busbar supports 9686.060/9686.070

For enclosure width mm	Free installation width when using Flat-PLS mm	Packs of	Model No.
600	400	1 pc(s).	9684.960
800	600	1 pc(s).	9684.980
1000	800	1 pc(s).	9684.900
1200	1000	1 pc(s).	9684.920

Accessories:

- Blanking cover, see page 409

Blanking cover

for contact hazard protection cover

To cover free NH slimline fuse-switch disconnector slots.

Material:

- Sheet steel, 1.5 mm

Surface finish:

- Zinc-plated

Supply includes:

- 2 covers
- 2 cover brackets
- Assembly parts

Width mm	Packs of	Model No.
50	2 pc(s).	9684.990

Compartment configuration

Form 1-4

Compartment side panel

for VX

Side divider panel for attaching partial mounting plates and compartment dividers.

Material:

- Sheet steel, 1.5 mm

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

For busbar system assembly in the rear section

For enclosure height mm	For enclosure depth mm	Height mm	Depth mm	Packs of	Model No.
2000	600	1881	538	2 pc(s).	9683.006
2000	800	1881	738	2 pc(s).	9683.008

For busbar system assembly in the roof section

For enclosure height mm	For enclosure depth mm	Height mm	Depth mm	Packs of	Model No.
2000	600	1731	538	2 pc(s).	9683.016
2000	800	1731	738	2 pc(s).	9683.018

2200	800	1931	738	2 pc(s).	9683.038

Accessories:

- Plastic gland plate, see page 410
- Compartment divider, see page 411
- Partial mounting plate, see page 413

Plastic gland plate

for compartment side panel

For closing cable entry openings.

Material:

- PVC, 3 mm

Colour:

- Similar to RAL 7045

Supply includes:

- Assembly parts

Width mm	Height mm	Packs of	Model No.
152	48	10 pc(s).	9683.040

Retaining plate

for cable connection space

For mounting Maxi-PLS busbars including end supports in the cable connection area.

Material:

- Sheet steel, 1.5 mm

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

For enclosure depth mm	Height mm	Depth mm	Packs of	Model No.
600	375	543	2 pc(s).	9683.200
800	375	743	2 pc(s).	9683.210

Also required:

- End supports, see page 401

Compartment configuration

Form 1-4

Terminal box

for modular outgoing section

For shielding the connections (terminals) of the compartment, busbar space and cable chamber in accordance with Form 4b to IEC 61 439-2.

Material:

- Lid and cover: Sheet steel, 1.5 mm
- Cable retainer: Sheet steel

Surface finish:

- Lid and cover: Zinc-plated

Supply includes:

- 2 lids (top/bottom)
- 2 covers (front/rear)
- 2 cable retainers
- Assembly parts

For enclosure depth mm	For compartment height mm	Packs of	Model No.
600 800	150	1 pc(s).	9683.701
600 800	200	1 pc(s).	9683.702
600 800	300	1 pc(s).	9683.703
600 800	400	1 pc(s).	9683.704
600 800	600	1 pc(s).	9683.706

Also required:

- Compartment side panel, see page 410

Assembly instruction:

- The terminal boxes are externally mounted on the compartment side panel in the cable chamber, to match the heights of the compartments
- If necessary, a clamping strip may be mounted on the cable retainer included with the supply

Compartment divider

for VX

For the horizontal separation of compartments. In combination with the side panels, this creates Form separation to Form 1 to 4. For attachment to the compartment side panel or the enclosure section. The integral cut-outs with pre-punched knock-out option are used for the vertical routing of control lines or cable ducts and for the routing of distribution busbars or connection kits.

Design:

- With louvres

Material:

- Sheet steel, 1.5 mm

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Assembly instruction:

- For assembling compartments as internal Form separation, compartment side panels are required

Accessories:

- Plastic gland plate, see page 412
- Compartment side panel, see page 410

Also required:

- Mounting bracket, see page 412

Mounting bracket

for air circuit-breaker support rail

For attaching the air circuit-breaker support rail to the enclosure section or compartment side panel.

Material:

- Sheet steel, 2.5 mm

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

For enclosure depth mm	Packs of	Model No.
600	2 pc(s).	9683.326
800	2 pc(s).	9683.328

Compartment configuration

Form 1-4

Partial mounting plate

for compartment side panel

For direct attachment to the compartment side panel for internal compartmentalisation. Universal interior installation with switchgear and controlgear. Creation of additional mounting levels. In combination with compartment dividers and side panel, internal compartmentalisation in accordance with Form 1 to 4 is possible.

Material:

- Sheet steel, 2 mm

Surface finish:

- Zinc-plated

Supply includes:

- Angle brackets and assembly parts

Power distribution

Compartment configuration

Form 1-4

Support frame

for DIN rail-mounted devices

Support frame set for accepting DIN rail-mounted devices (e.g. MCBs). The support rails are fastened with two mounting brackets to the compartment side panel. The cover is fastened to the support frame with knurled screws. In combination with functional space dividers, partial mounting plates and side panel modules, internal compartmentalisation in accordance with Form 2, 3 or 4 is possible.

Material:

- Support frame: Sheet steel, zinc-plated, passivated, 1.5 mm
- Cover: Sheet steel, spray finished, 1.5 mm

Supply includes:

- Support rails
- 2 mounting brackets
- 1 cover with cut-out
- Assembly parts

For enclosure width mm	For compartment height mm	No. of pitch units 17.5 mm	Packs of	Model No.

Fuse-switch disconnecter section

Busbar support

for fuse-switch disconnecter section

Busbar supports for the distribution busbar system of the fuse-switch disconnecter section.

Material:

- Duroplastic polyester

Supply includes:

- Mounting bracket and screws

For busbars mm	Number of poles	Packs of	Model No.
60 x 10	3-pole 4-pole	1 pc(s).	9674.416
80 x 10	3-pole 4-pole	1 pc(s).	9674.418
100 x 10	3-pole 4-pole	1 pc(s).	9674.410

Also required:

- Busbars E-Cu, see page 342
- End support, see page 415

End support

for fuse-switch disconnecter section

End support for the distribution busbar system of the fuse-switch disconnecter section, for vertical support of the distribution busbar system with infeed from above.

Material:

- Duroplastic polyester

Supply includes:

- Mounting bracket and screws

For busbars mm	Number of poles	Packs of	Model No.
60 x 10	3-pole 4-pole	1 pc(s).	9674.436
80 x 10	3-pole 4-pole	1 pc(s).	9674.438
100 x 10	3-pole 4-pole	1 pc(s).	9674.430

Also required:

- Busbars E-Cu, see page 342

Cover

Set for distribution busbar

(Jean Müller fuse-switch disconnecter section)

To cover the distribution busbar system of a fuse-switch disconnecter section, designed to accommodate Jean Müller devices. The 150 mm high busbar and cable connection space covers shield the busbar compartment from the functional space so that it is safe from finger contact, with a protection category of IP 20.

Material:

- PVC, black

Supply includes:

- Set consisting of 12 busbar covers and cable connection space covers

For enclosure height mm	Packs of	Model No.
2000 2200	1 pc(s).	9674.380

Also required:

- Punched rail, see page 416

Fuse-switch disconnecter section

Punched rail

Set for cover, distribution busbar (Jean Müller fuse-switch disconnecter section)
Required for mounting the distribution busbar cover.

Material:

- Sheet steel, zinc-plated

Supply includes:

- Set consisting of 2 punched rails
- Assembly parts

Note:

- For 1 fuse-switch disconnecter section, 1 pack of punched rails is required.

For enclosure height mm	Packs of	Model No.
2000 2200	1 pc(s).	9674.381

Cover

for distribution busbar (ABB/Siemens fuse-switch disconnecter section)

To cover the distribution busbar system of a switch-disconnector-fuse section, designed to accommodate ABB (SlimLine) or Siemens (3NJ62) devices. The 200 mm high busbar compartment covers shield the busbar compartment from the functional space so that it is safe from finger contact, with a protection category of IP 20.

Material:

- PVC, black

Note:

- The cover may be ordered from ABB under model number NHP 407062R000X
- For enclosure height 2000 mm, a height of 1500 mm should be covered, and for enclosure height 2200 mm, a height of 1700 mm should be covered

Ri4Power accessories

Busbar system/wiring system

Copper spacer roll

for Maxi-PLS busbars and flat copper bars

For use as a universal spacer.

Wiring trim panel

for VX

Inner front cover of the main busbar system with the option of mounting a 40 x 20 mm (WxD) wiring channel. Suitable for use in Ri4Power switchgear with 300 mm high front trim panels. Horizontal cable routing behind the front trim panels. Also supports the installation of support rails with DIN rail mounted devices.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- 1 wiring trim panel, 3-part
- Assembly parts

Note:

- For vertical cable routing, compartment dividers enable the installation of a wiring channel, thanks to pre-punched cut-outs.

For enclosure width mm	Packs of	Model No.

Rittal – The System.

Faster – better – everywhere.

VX25 Ri4Power ISV distribution enclosures

Distribution enclosures

- Based on baying enclosure system VX25, see page 116
- Mounting kits, see page 420

Wall-mounted distributors

- Based on compact enclosure AX, see page 84
- Mounting kits, see page 420

Installation modules

- Easy mounting on support frame or support plate
- Individual combination and configuration
- Pitch pattern 150 x 250 mm
- Installation modules, see page 421

Power distribution components

- Bus-mounting fuse bases, see page 323
- NH fuse-switch disconnectors, see page 325
- NH slimline fuse-switch disconnectors, see page 335

Power distribution

ISV distribution enclosures

Mounting kits

ISV installation kit

for VX

For mounting ISV installation modules in the enclosure.

Material:

- Mounting frame holder: Sheet steel, zinc-plated
- Contact hazard protection: sheet steel, spray-finished
- Contact hazard protection, sides: PVC

Supply includes:

- Mounting aid support
- Contact hazard protection
- Assembly parts

Accessories:

- Cross rail ISV, see page 429
- Mounting angles ISV, see page 429
- Depth stay, see page 430
- Equipment support connectors, see page 430

ISV distribution enclosures

Installation modules

Connection terminal block

For connecting copper and aluminium conductors.
For laminated copper bars or solid and stranded conductors with a pressed wire end ferrule.

Material:

- Duroplastic

Colour:

- RAL 7035

Supply includes:

- Assembly parts

**Also required:**

- Contact hazard protection module, see page 421
- Mounting set, see page 423

**Assembly instruction:**

- Contact hazard protection module 9666.020 is additionally required to cover the connection terminal block

Rated current max. A	Number of poles	Connection of round conductors mm ²	Clamping area for laminated copper bars (W x H) mm	Packs of	Model No.

ISV distribution enclosures

Installation modules

NH fuse-switch-disconnector module

Suitable for accommodating NH fuse-switch disconnectors for mounting plate assembly. Cover is prepared for a lead seal.

Material:

- Cover: Polystyrene
- Cross member: Sheet steel

Colour:

- RAL 7035

Supply includes:

- Assembly parts

 **Assembly instruction:**

- When using the NH fuse-switch disconnector 2 x size 2 (9344.210/.230/.250) or 1 x size 3 (9344.310/.330/.350), the disconnector cross-member 9666.420 and contact hazard protection module 9666.060 should be used as the module unit

 **Accessories:**

- Blanking cover, see page 428

ISV distribution enclosures

Installation modules

NH slimline fuse-switch-disconnector module

For NH slimline fuse-switch disconnectors, sizes 00 to 3 (3-pole, 100/185 mm bar centre distance).

Material:

- Cover: Polystyrene
- Holder: Fibreglass-reinforced plastic

Colour:

- RAL 7035

Supply includes:

- Assembly parts

Note:

- In order to ensure problem-free cable connection, a contact hazard protection module or an N/PE busbar module must be installed above or below the NH slimline fuse-switch disconnector modules.

Also required:

- Busbars E-Cu, see page 342

Accessories:

- Contact hazard protection module, see page 421
- Busbar module N/PE, see page 426

ISV distribution enclosures

Installation modules

Meter mounting board module

Open module for internal measurements. Clearance depth available for meter installation 170 mm.

Design:

- Attachment rails to accommodate a meter

Material:

- Meter mounting board: Polystyrene
- Mounting rails: sheet steel, zinc-plated

Colour:

- RAL 7035

Supply includes:

- Assembly parts

Note:

- The meter mounting board module does not comply with meter mounting board standard DIN 43 870/VDE 0603 and does not meet the conditions for total insulation. Use in unmetered areas only by arrangement with the local electricity supply company.

 **Assembly instruction:**

- 1 contact hazard protection module / DIN rail-mounted device module or support rail module with 1 WU and at least 1 U is required both above and below the meter mounting board module

 **Accessories:**

- Contact hazard protection module, see page 421
- Support rail module, see page 422
- DIN rail mounted device module, see page 422

Rittal Energy and Power Solutions

End-to-end solutions from generation to consumer

Renewable energies

- Reliable energy generation and infeed, together with smart connectivity, are the key to the new energy world, where energy solutions must transcend individual sectors.
- There is a demand for solutions with global availability and internationally recognised approvals plus effective protection from a wide range of ambient conditions.
- Plant and systems engineering needs solutions to create significant competitive advantages through energy efficiency plus time and money savings.

Power distribution

Energy storage solutions

- Battery stores can help to stabilise the power supply in the renewable energies environment, e.g. by means of peak load management, frequency retention and an uninterruptible power supply (UPS).
- The different battery module designs available on the market necessitate a variable solution for building energy storage systems. The standardised modular system offers the required degree of variability and supports the integration of 482.6 mm (19") battery types and other variants using rails and heavy-duty shelves.
- The range of products includes indoor, outdoor and even container solutions. Our standard products will help to reduce your planning and production costs.

Charging infrastructure

- Charging centres generally comprise a scalable number of charging pillars, the requisite backend infrastructure, plus a low-voltage main distributor.
- We usually distinguish between normal charging in the range < 50 kW (primarily AC technology), fast charging from 50 kW upwards, and high-power charging > 150 kW (DC technology).

Renewable energies

Flexible enclosure solutions for wind power and photovoltaics

Rotor hub / nacelle

- Rittal provides suitable enclosure and case systems for all areas of wind farms, based on impressive modular technology.
- Control cabinets in the nacelle and pitch enclosure directly in the rotor hub, to reliably withstand even the highest dynamic forces

Tower

- The components we use are modular, efficient and low-maintenance, for fast (and in some cases, customised) configuration.
- Complete system solutions for powerful frequency converters including climate control

Power distribution

Central inverter

- There is a growing use of inverter systems under difficult ambient conditions.
- Smart standard solutions offer a high level of physical protection for the enclosure, equipped with power distributor and climate control.

Solar panel

- Compact enclosures in the AX and KX series are ideal for housing the electronics for solar tracking systems or as a general junction box. The small and compact enclosures offer simpler, faster assembly coupled with greater flexibility and security.

Energy Storage Solutions (ESS)

The perfect system solution for every storage task

Heavy-duty shelves for loads up to 100 kg per level

- Rittal's modular product system includes standard components for flexible assembly of an infrastructure with a battery energy storage system (BESS).
- Battery types not compliant with the 482.6 mm (19") standard may be integrated, e.g. using heavy-duty shelves with a load-bearing capacity of up to 100 kg.

Integration with the 482.6 mm (19") rack mounting system

- The technology behind the 482.6 mm (19") standard is exceptionally assembly-friendly and supports simple integration of these battery types.
- For larger battery capacities, Rittal enclosures may be bayed.

Efficient monitoring

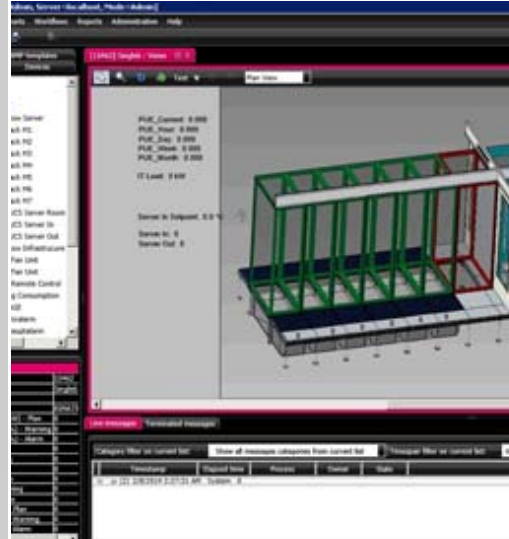

- For seamless monitoring of performance and risk of failure, ESS may be combined with CMC and RiZone for the monitoring system.
- Web connectivity is provided via the Rittal IoT interface.

Efficiency in plant design

- Lithium ion batteries have a specific thermal operating window which must be observed for safety reasons. Depending on the installation site and use of the system, therefore, a range of design features from active ventilation through to climate control may be required.
- Rittal offers FEM and CFD analyses to represent your individual project in its specific situation, so that you can gauge which concepts are viable and which are not.

	VX25 rack system	Outdoor enclosure system	Container	Wall-mounted cooling unit Blue e+	Roof-mounted cooling unit Blue e+
System solution	The modular VX25 enclosure system is available in a range of sizes, both as a standalone rack and as a bayable solution. Our extensive range of accessories supports a broad range of solutions. With a weight capacity of 1500 kg, all standard battery types may be integrated.	Identical system platform in the outdoor sector as for IE or IT enclosure systems. Additionally with weather canopy, with projection on all sides. The double-walled design reduces the influence of sunlight. The open frame structure offers installation benefits. Also available as a baying variant.	On a project-specific basis, we offer 20ft and 40ft containers with up to 18/36 bays. Where required, these may be designed with suitable climate control.	Our energy-efficient Blue e+ wall-mounted cooling units ensure the correct temperature inside the enclosure. The outputs range from 1.6 to 6 kW. Their unique multi-voltage capability makes them suitable for international use. The cooling units are IoT-compatible and support modern condition monitoring.	Our energy-efficient Blue e+ roof-mounted cooling units ensure the correct temperature inside the enclosure. The output is 1.3 kW. Their unique multi-voltage capability makes them suitable for international use. The cooling units are IoT-compatible and support modern condition monitoring.

Charging infrastructure

System solutions to meet the challenges of a charging infrastructure

Normal charging

- Normal charging refers to the output category below 22 kW, primarily with AC voltage. The charge control may be accommodated in the charging pillar itself or in a backend infrastructure supplying multiple charging pillars simultaneously. Typical application areas include company car parks, supermarkets, hotels or multi-storey car parks where vehicles are parked for long periods and therefore have sufficient time to charge the battery.

Power distribution

Quick charging

- Quick charging refers to an output category of more than 22 kW. Quick charging is primarily achieved with DC voltage. As with normal charging, the charge control may be accommodated in the charging pillar itself or in a backend infrastructure supplying multiple charging pillars. Once again, typical applications include supermarkets, hotels and multi-storey car parks where the electric vehicles are parked for long periods and therefore have time to charge the battery.

High-power charging

- High-power charging is always DC-based and in the output category of above 150 kW. The most common applications are service areas, bus stops and fuel stations where a quick recharge of the vehicle battery is needed. The enclosures must provide protection from harsh environmental conditions as well as access control.

Power distribution software

Configurators/tools/CAD data

Power distribution

The VX25 Power Engineering planning software sets brand new standards when planning low-voltage switchgear. The Web-based tool guides users quickly and efficiently through the planning process in simple, logical steps.

VX25 Power Engineering

Efficient planning of low-voltage switchgear

From plant configuration, to calculation of the copper bars, through to generation of the design verification to IEC 61 439.

Benefits:

- The web-based application ensures that planning data is always up-to-date
- Parts list creation and assembly based on a specific set of rules
- Automatic calculation and documentation of the copper busbars
- Generation of a design verification to IEC 61 439

UL listing under category FTTA

Additional approval under the category "environmental-rated accessories for enclosures (CCN: FTTA)" is particularly beneficial for users.

This ensures that the type rating of the application (enclosure protection category) is retained even if the enclosure has a mounting cut-out for installation of a climate control component.

This is a clear benefit which facilitates use in the 508A zone and eliminates potential discussions about reducing the type rating.

SOFTWARE & SERVICES

Climate control

Rittal – The System.

Faster – better – everywhere.

Type of climate control	Cooling with ambient air	Cooling units	
	Ambient air cooling units are ideally suited for dissipating heat loads exceptionally cost-effectively. The pre-requisite for this is that the ambient air must be relatively clean and at a temperature below the required enclosure internal temperature.	Cooling units keep the enclosure internal temperature at a constant level, which is independent of the ambient temperature. The air routing meets individual requirements. Two separate circuits prevent the ingress of dust into the enclosure.	
Air throughput, unimpeded airflow m ³ /h	20 – 1069	–	
Specific thermal output W/K	17.5 – 90	–	
Total cooling output W	–	80 – 5800	
Continuous thermal output W	–	–	
Product characteristics	Exceptionally energy-efficient, barely discernible loss of space within and outside of the enclosure, and a high protection category of IP 54 as standard.	The Rittal Blue e+ series is the world's most efficient cooling unit. With heat pipe technology as standard and speed-controlled components, average energy savings of 75% can be achieved.	
From page	453	473	

Climate control

	Cooling with water	Enclosure heaters	Climate control accessories
	Efficient liquid cooling may be used in all situations where a high cooling load is required, such as process and machine cooling or when dissipating heat loss from enclosures via air/water heat exchangers. Liquid cooling allows you to achieve spatial separation between cooling production and process cooling.	Condensation poses a particular risk for control electronics, especially with outdoor siting. A range of output categories ensures that the correct thermal output is always available.	Perfectly coordinated components allow you to customise the climate control to your specific requirements, whether you need targeted air routing, precise control of the equipment or appropriate consumables.
	–	–	–
	–	–	–
	300 – 25000	–	–
	–	10 – 800	–
	Energy savings of up to 70% can be achieved with the Blue e+ generation of chillers. They ensure efficient cooling of liquid media with a high degree of control accuracy thanks to innovative DC inverter technology.	The innovative profile geometry means that heat is distributed evenly inside the enclosure and cold spots are prevented. The tool-free push-in connection technology speeds up the wiring process considerably.	With innovative accessories, the efficiency and reliability of climate control components can be additionally enhanced with monitoring, control and individual air routing.

Fan-and-filter units and roof-mounted fans

Efficient climate control with ambient air

TopTherm fan-and-filter units

Tool-free assembly

- Straightforward assembly, maintenance and exchange with no need for tools of any kind
- The air flow direction is easily reversed by rotating the fan module
- The electrical connection is individually positionable using a screwless spring terminal; no tools required
- Louvred grille latch mechanism for fast filter mat replacement without tools

Efficient technology

- New diagonal fan technology for greater pressure stability and constant air throughput in its installed state, even with a contaminated filter mat
- Minimum installation depth
- Air flows in a diagonal direction from the fan, for a more even air distribution inside the enclosure
- Extended service life of filter mats means longer maintenance intervals
- Fan with smart, efficient EC technology

Roof-mounted fans

Simple to fit and maintain

- Innovative clamping attachment supports flexible locking optionally from the outside or inside
- Connector terminal for easy electrical connection
- Good accessibility permits fast filter mat changes

High protection category

- IP 55 as standard, thanks to a sophisticated labyrinth system and high-quality foamed-in seal

High efficiency

- At an air throughput of 1,000 m³/h, smart EC fans ensure maximum energy efficiency
- Integral interface for linear speed control and fan monitoring

TopTherm fan-and-filter units

Air throughputs incl. outlet filter and protection categories Page 463 **Accessories for climate control** Page 533 **Therm software** Page 558

Fan-and-filter units with diagonal fan technology have superior pressure stability and ensure a more constant air throughput. The diagonal direction of outflow ensures more even heat dissipation from the enclosure.

Colour:

- RAL 7035
- Optionally available in RAL 9005

Supply includes:

- Complete unit ready to install, including filter mat

Note:

- With the fan-and-filter unit 3237.XXX, electrical connection is made via two single wires on the unit. For all other fan-and-filter units, a screwless spring terminal is used.

TopTherm fan-and-filter units

Air throughputs incl. outlet filter and protection categories Page 463 **Accessories for climate control** Page 533 **Therm software** Page 558

EMC fan-and-filter units offer a high shielding/attenuation effect and meet requirement category 2 to EN 61587-3.

Colour:

– RAL 7035

Supply includes:

– Complete unit ready to install, including filter mat

Note:

– To improve energy efficiency and extend the service life of the devices, we recommend the use of thermostats or temperature displays

Approvals:

Available on the Internet

TopTherm fan-and-filter units

Air throughputs incl. outlet filter and protection categories Page 463 Accessories for climate control Page 533 Therm software Page 558

Energy-efficient version of the TopTherm fan-and-filter units with diagonal fan technology. Fans 3240.500 to 3245.510 may be controlled and monitored. The fan may be activated via the control interface with tacho signal output integrated as standard, and monitoring of the fan speed and function is supported.

Colour:

– RAL 7035

Supply includes:

– Complete unit ready to install, including filter mat

Note:

– For even more efficient operation or for monitoring the fan-and-filter units, we recommend the use of an EC speed control for EC fan-and-filter units

Approvals:

Available on the Internet

Roof-mounted fan, roof vent

Accessories for climate control Page 533 Therm software Page 558

Roof-mounted fan with a high protection category and flexible installation from the inside or outside.

Colour:

– RAL 7035

Protection category IP to IEC 60 529:

- IP 21 without filter mat
- IP 55 including filter mat

Protection category NEMA:

– NEMA 12

Supply includes:

- Complete unit ready to install, including filter mat

Note:

- To improve energy efficiency and extend the service life of the devices, we recommend the use of thermostats or temperature displays

Approvals:

TopTherm air/air heat exchangers

Accessories for climate control Page 533 Therm software Page 558

Air/air heat exchangers are particularly well-suited to aggressive ambient conditions, because the internal and external air circuits are completely separate from one another.

Temperature control:

- Electronic control with digital display (factory setting +35 °C)

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- Internal circuit IP 54
- External circuit IP 34

Supply includes:

- Complete unit ready for connection
- Plug-in terminal strip
- Floating fault signal contact in case of overtemperature
- Drilling template
- Assembly parts

Air/air heat exchanger

Accessories for climate control Page 533 **Therm software** Page 558

Air/air heat exchangers are particularly well-suited to aggressive ambient conditions, because the internal and external air circuits are completely separate from one another.

Colour:

- Cover: RAL 7035
- Enclosure: RAL 7016

Protection category IP to IEC 60 529:

- Internal circuit IP 54
- External circuit IP 34

Supply includes:

- Complete unit ready for connection
- The fans are connected via two 3-wire connection cables, with wire end ferrules
- Drilling template
- Assembly parts

Note:

- For precise temperature control inside the enclosure, we recommend the enclosure internal thermostat, the digital enclosure internal temperature display and thermostat or the speed control.

Specific thermal output 66 W/K, roof-mounted

The perfect symbiosis of the VX25 baying enclosure system and Blue e+ cooling unit

- **Integrated all-in-one system**
The Blue e+ cooling unit is already integrated in the VX25 enclosure
- **Plug & play**
Cooling unit, door limit switches and cabling are installed ready to connect
- **State-of-the-art design**
No cooling unit built onto the enclosure

Thermoelectric coolers

Accessories for climate control Page 533 Therm software Page 558

Powerful thermoelectric cooling units in a lightweight design for the climate control of command panels and small enclosures.

Material:

– Device: Aluminium, anodised

Colour:

– Cover: RAL 7015

Protection category IP to IEC 60 529:

– External circuit IP 34
– Internal circuit IP 54

Supply includes:

- Thermoelectric climate control unit
- Fully wired ready for connection (plug-in terminal strip)
- Mounting accessories
- Filter mat
- USB cable A/B
- Drilling template

Rittal Configuration System

see page 272

TopTherm wall-mounted cooling units Blue e

Accessories for climate control Page 533 Therm software Page 558 RiDiag software Page 559

Energy-efficient Blue e wall-mounted cooling units with integral e-Comfort controller, RiNano coating on the condenser and electrical condensate evaporation as standard.

Benefits:

- May be linked to the IoT interface via the Blue e IoT adaptor

Temperature control:

- e-Comfort controller (factory setting +35 °C)

Protection category IP to IEC 60 529:

- External circuit IP 34
- Internal circuit IP 54

Supply includes:

- Nano-coated condenser
- Integral electric condensate evaporation
- Fully wired ready for connection (plug-in terminal strip)
- Drilling template
- Assembly parts

Approvals:

see page 555

TopTherm wall-mounted cooling units Blue e, slimline

Accessories for climate control Page 533 Therm software Page 558 RiDiag software Page 559

Energy-efficient Blue e wall-mounted cooling units with e-Comfort controller integrated as standard, RiNano coating on the condenser and electrical condensate evaporation. Slimline design.

Benefits:

- May be linked to the IoT interface via the Blue e IoT adaptor

Temperature control:

- e-Comfort controller (factory setting +35 °C)

Protection category IP to IEC 60 529:

- External circuit IP 34
- Internal circuit IP 54

Supply includes:

- Nano-coated condenser
- Integral electric condensate evaporation
- Fully wired ready for connection (plug-in terminal strip)
- Drilling template
- Assembly parts for internal mounting

Note:

- For external mounting of the cooling unit, trim frame 3377.000 including assembly parts may be fitted. This gives the cooling unit a closed front appearance.

Wall-mounted cooling units Blue e+

The world's most efficient range of cooling units.

Incredibly efficient

- Average 75% energy savings with innovative hybrid technology
- Active cooling circuit with speed-regulated components for demand-based cooling
- Integral heat pipe for passive cooling dissipates heat from the enclosure as soon as the ambient temperature falls below the setpoint

Intelligent networking

- In conjunction with the IoT interface, all Blue e+ cooling units can now be networked and digitalised

The benefits for you:

- Continuous monitoring of temperature levels
- Avoidance of downtime costs and consequential damage
- Automatic notification of any cooling unit malfunctions
- Asset Management: Localisation and organisation of cooling units
- Remote access: Device parameters can be configured remotely

Climate control

Easier to operate

- Fast unit analysis using RiDiag III software via USB port
- Fast parameterisation, data reading and plain-text system messages via the intelligent, multilingual, industry-grade display
- Contactless on-site information sharing and fast, direct analysis via the NFC interface with the Blue e+ app

Maximum flexibility

- One device for all voltages and networks, suitable for worldwide use thanks to inverter technology:
 - 110 to 240 V, 1~, 50/60 Hz
 - 380 to 480 V, 3~, 50/60 Hz
- International approvals and certifications
- Available in sheet steel or stainless steel
- One version for external mounting, partial internal mounting and full internal mounting with identical mounting cut-out

Wall-mounted cooling units Blue e+

Accessories for climate control Page 533 Therm software Page 558 Blue e+ app Page 559 IoT interface Page 554

Benefits:

- Average 75% energy savings thanks to speed-regulated components and heat pipe technology
- Suitable for international use due to a unique multi-voltage capability
- Longer service life of the components inside the enclosure and the cooling unit due to component-friendly cooling
- Intuitive operation due to touch display and intelligent interfaces

Temperature control:

- e+ controller (factory setting +35 °C)

Protection category IP to IEC 60 529:

- Internal circuit IP 55

Supply includes:

- Nano-coated condenser
- Integral electric condensate evaporation
- Assembly parts
- Fully wired ready for connection (plug-in terminal strip)

Optional:

- For remote monitoring and networking of cooling units and chillers in the Blue e+ generation, please use the IoT interface (Model No. 3124.300). Increase machine availability and process reliability with remote monitoring of device data, statuses and system messages.

Note:

- Please observe the mounting instructions.
- Firmware can be updated using the RiDiag III software (3159.300)

Approvals:

TopTherm wall-mounted cooling units Blue e, NEMA 4X

Accessories for climate control Page 533 Therm software Page 558 RiDiag software Page 559

Energy-efficient Blue e wall-mounted cooling units with e-Comfort controller integrated as standard, RiNano coating on the condenser and electrical condensate evaporation. Protection category NEMA 4X.

Benefits:

- May be linked to the IoT interface via the Blue e IoT adaptor

Temperature control:

- e-Comfort controller (factory setting +35 °C)

Protection category IP to IEC 60 529:

- External circuit IP 34
- Internal circuit IP 55

Protection category NEMA:

- NEMA 4X

Supply includes:

- Nano-coated condenser
 - Fully wired ready for connection (plug-in terminal strip)
 - Drilling template
 - Assembly parts
- Please observe the product-specific scope of supply.

Climate control

Rittal – The System.

Therm software

see page 558

Wall-mounted cooling unit TopTherm Blue e, UL Type 3R/4

For indoor and outdoor

Suitable for outdoor siting

- Vandalism-protected (e-Comfort controller on the rear of the cooling unit)
- Outdoor paint finish in accordance with UL 1332
- Temperature range: -20 °C to +50 °C (in compressor mode +10 °C to +50 °C)

Optimum protection

- Protection category: UL Type 3R/4/12 and IP 56
- The cooling units provide protection against damaging influences, e.g. water and external icing
- The RiNano coating prevents the accumulation of dirt deposits on the condenser, thereby extending maintenance intervals and ensuring a constant long-term cooling output

Benefits of Blue e technology

- Energy savings of up to 45%
- Intelligent control with Comfort controller, icing protection and motor monitoring
- Eco-mode control: The evaporator coil fan cuts out as necessary, depending on the enclosure internal temperature
- Longer service life of components in the enclosure and cooling units, because efficient components such as fans and compressors run at their optimum operating point
- The integral electric condensate evaporation system means that condensate evaporates and dissipates to the ambient air via the external fan

Worldwide use

- International approvals (cULus Listed, cULus FTTA, CE and EAC)
- Worldwide service and spare parts availability

Intelligent networking

- In conjunction with the IoT interface and Blue e IoT adaptor, it is a simple matter to integrate the cooling units into Industry 4.0 environments
- Condition monitoring of up to 10 cooling units in a master/slave arrangement

TopTherm wall-mounted cooling units Blue e, UL Type 3R/4

Energy-efficient Blue e wall-mounted cooling units with integral e-Comfort controller, RiNano coating on the condenser and electric condensate evaporation as standard, protection category UL Type 3R/4, 12.

Benefits:

- Suitable for outdoor siting
- Blue e technology
- May be linked to the IoT interface via the Blue e IoT adaptor

Temperature control:

- e-Comfort controller (factory setting +35 °C)

Material:

- Sheet steel

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- External circuit IP 34
- Internal circuit IP 56

Protection category NEMA:

- UL Type 3R
- UL Type 4
- UL Type 12

Supply includes:

- Nano-coated condenser
- Fully wired ready for connection (plug-in terminal strip)
- Connection box
- Drilling template
- Assembly parts

Please observe the product-specific scope of supply.

Note:

- Compressor cooling mode from +10 °C ambient temperature. Only the internal fan is active in the temperature range -20 °C to +10 °C.

Wall-mounted cooling unit Blue e+ outdoor

Energy efficiency for the outdoor sector

Suitable for outdoor siting

- Vandalism-protected enclosure (e+ controller on the rear of the cooling unit)
- For universal mounting on outdoor enclosures
- Aluminium enclosure with outdoor spray finish to UL 1332
- Temperature range: -30 °C to +60 °C

Optimum protection

- Protection category: UL type 3R/4/12 and IP 56
- The cooling units provide protection against damage e.g. from water and external icing
- The RiNano coating prevents the accumulation of dirt deposits on the condenser, thereby extending maintenance intervals and ensuring a consistent cooling output for longer

Intelligent networking

In conjunction with the IoT interface, all Blue e+ cooling units can now be networked and digitalised

- Continuous monitoring of temperature levels
- Avoidance of downtime costs and consequential damage
- Automatic notification of any cooling unit malfunctions
- Asset management: Localisation and organisation of cooling units
- Remote access: Device parameters can be configured remotely

Benefits of Blue e+ technology

- Efficiency – Average 75% energy savings thanks to speed-controlled components and heat pipe technology
- Versatility – Unique multi-voltage capability supports global use
- Reliability – Component-friendly cooling helps extend the service life of all components inside the enclosure and the cooling unit
- User-friendliness – Touch display and smart interfaces support intuitive operation

Global use

- International approvals (cULus Listed, cULus FTTA, CE and EAC)
- Worldwide service and spare parts availability

Wall-mounted cooling unit Blue e+ outdoor

Accessories for climate control Page 533 Toptec Page 270 RiDiag software Page 559

The energy-efficient wall-mounted cooling unit Blue e+ Outdoor can be used worldwide, thanks to its multi-voltage capability, and is suitable for use with Toptec project solutions, for example.

Benefits:

- Average 75% energy savings thanks to speed-regulated components and heat pipe technology
- Longer service life of the components inside the enclosure and the cooling unit due to component-friendly cooling
- Intuitive operation due to touch display and intelligent interfaces

Temperature control:

- e+ controller (factory setting +35 °C)

Material:

- Aluminium AlMg3

Surface finish:

- Powder-coated
- UV-resistant pure polyester

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- Internal circuit IP 56

Protection category NEMA:

- UL Type 4/3R/12

Supply includes:

- Nano-coated condenser
- Integral electric condensate evaporation
- Fully wired ready for connection (plug-in terminal strip)
- Sealing frame for universal attachment to outdoor enclosures for external, partial internal and full internal mounting.
- Assembly parts

Rittal – The System.

Blue e IoT adaptor

see page 555

VX25 Blue e+ integration solution/ Blue e+ roof-mounted cooling units

With revolutionary efficiency

Time and cost savings

- Plug and play: Cooling unit, door limit switches and cabling are pre-installed and ready to connect
- The cooling unit pulls forwards easily for maintenance purposes

Comfort

- Intuitive operation with touch display

Optimum data quality

- All cooling solutions are available in duplicate – real and digital. Thanks to the digital twin, planning, ordering, machining and much more can be carried out by the person who knows your company the best: You.

Efficiency

- High level of energy efficiency, also when used as an autonomous roof-mounted cooling unit

Ready for Industry 4.0

- Digitalisation and networking offer huge opportunities for every company. With the IoT interface (optional), Rittal cooling solutions are easily connected to Industry 4.0 environments.

Climate control

Blue e+ roof-mounted cooling unit

Accessories for climate control Page 533 Therm software Page 558 RiDiag software Page 559 IoT interface Page 554

Benefits:

- Average 75% energy savings thanks to speed-regulated components and heat pipe technology
- Suitable for international use due to a unique multi-voltage capability
- Longer service life of the components inside the enclosure and the cooling unit due to component-friendly cooling
- Intuitive operation due to touch display and intelligent interfaces

Temperature control:

- e+ controller (factory setting +35 °C)

Protection category IP to IEC 60 529:

- External circuit IP 54 with pleated filter
- Internal circuit IP 54 with pleated filter

Supply includes:

- Blue e+ roof-mounted cooling unit
- Pleated filter
- Fully wired ready for connection
- Assembly parts
- Condensate hose (3 m)

Optional:

- For remote monitoring and networking of cooling units and chillers in the Blue e+ generation, please use the IoT interface (Model No. 3124.300). Increase machine availability and process reliability with remote monitoring of device data, statuses and system messages.

Note:

- Only suitable for mounting on enclosures with minimum dimensions (W x D) 800 x 600 mm
- Operation without a pleated filter is inadmissible
- Firmware can be updated using the RiDiag III software (3159.300)

Approvals:

Available on the Internet

Performance diagrams:

VX25 Blue e+ integration solution

Accessories for climate control Page 533 RiDiag software Page 559 Blue e+ roof-mounted cooling unit Page 504 IoT interface Page 554

Benefits:

- The perfect symbiosis of the VX25 baying enclosure system and Blue e+ cooling unit
- The cooling unit is easily pulled out forwards for maintenance purposes
- No assembly work required – the cooling unit, door-operated switch and connection cabling are installed ready-to-connect
- Cooling unit offers all the benefits of Blue e+ Technology

Temperature control:

- e+ controller (factory setting +35 °C)

Protection category IP to IEC 60 529:

- External circuit IP 54 with pleated filter
- Internal circuit IP 54 with pleated filter

Supply includes:

- Basic enclosure VX25, door, roof, rear panel, side panels, gland plates, mounting plate
- Lock: 3 mm double-bit
- Integral door-operated switch
- Integral Blue e+ cooling unit
- Electric condensate evaporator
- Pleated filter
- Condensate hose (3 m)

Optional:

- For remote monitoring and networking of cooling units and chillers in the Blue e+ generation, please use the IoT interface (Model No. 3124.300). Increase machine availability and process reliability with remote monitoring of device data, statuses and system messages.

Note:

- Operation without a pleated filter is inadmissible
- Firmware can be updated using the RiDiag III software (3159.300)

Modular climate control concept – cooling module Blue e

Accessories for climate control Page 533 VX25 enclosures Page 116 Therm software Page 558 RiDiag software Page 559

All cooling modules may be individually combined with any climate control door. The cooling modules are equipped with energy-efficient Blue e technology, with integral e-Comfort controller, RiNano coating on the condenser and electric condensate evaporation as standard.

Benefits:

- May be linked to the IoT interface via the Blue e IoT adaptor

Temperature control:

- e-Comfort controller (factory setting +35 °C)

Material:

- Sheet steel

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- External circuit IP 34
- Internal circuit IP 54

Supply includes:

- Cooling module prepared for installation in climate control door
- Nano-coated condenser
- Integral electric condensate evaporation
- Fully wired ready for connection (plug-in terminal strip)

Note:

- A base/plinth with a height of 100 or 200 mm is required for efficient operation

Sheet steel climate control doors for the installation of climate control module types SK 3307.7XX to 3310.7XX. The climate control doors fit perfectly with the overall design of the enclosure.

Material:
– Sheet steel
Colour:
– RAL 7035

Supply includes:
– Climate control door without preconfigured cooling module
– 180° hinges, door opening angle approx. 130°

Note:
– To fit VX enclosures
– For 1200 mm wide VX enclosures, the existing hinged door may be used, irrespective of the device position (left or right)

Air/water heat exchangers

Accessories for climate control Page 533 Chillers Page 519 Therm software Page 558 Hygienic Design HD Page 217

Air/water heat exchanger for hygienically sensitive production zones in the food and consumables industry – the optimum addition to the Rittal Hygienic Design range. The cleaning-friendly design reduces the risk of contamination and ensures food safety.

Benefits:

- Easy-to-clean, hygienic design
- A roof tilt of 30° prevents objects from being deposited on it, and allows liquids to run off quickly
- All-round external, replaceable silicone seal prevents the accumulation of dirt between the enclosure and the air/water heat exchanger

Material:

- Enclosure: Stainless steel 1.4301 (AISI 304)

Surface finish:

- Enclosure: Brushed, grain 400, peak-to-valley height < 0.8 µm

Protection category IP to IEC 60 529:

- IP 56/59

Protection category NEMA:

- NEMA 4X

Cooling medium:

- Water (see Internet for specifications)

Supply includes:

- Fully wired ready for connection
- Drilling template
- Sealing and assembly parts

Note:

- To achieve a protection category of IP 66/69 to IEC 60 529, the ingress of leakage air through the condensate discharge opening must be completely prevented

Approvals:

Available on the Internet

Design:

- Compact, modular layout of the refrigeration components
- Nano-coated condenser
- Pump to convey the medium

Benefits:

- Precise temperature control, based on microprocessor technology
- Collective fault signal with floating contact
- One version for two frequencies = international compatibility

Temperature control:

- Microcontroller control (factory setting +20 °C)

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- IP 44 (electronics)

Supply includes:

- Complete unit ready for connection
- Multilingual documentation including functional diagram and wiring plans

Blue e+ chillers with the principle

Forward-looking climate control

- Active cooling circuit with speed-controlled components for demand-based cooling
- High control accuracy thanks to DC inverter technology with two regulating modes
- Excellent operational reliability thanks to integrated flow sensor, overflow valve and electronic fill level monitoring
- Temperature limits from $-5\text{ }^{\circ}\text{C}$ to $+50\text{ }^{\circ}\text{C}$
- 55% less refrigerant thanks to the use of microchannel technology
- Energy savings of up to 70%

Intelligent networking

- In conjunction with the IoT interface, all Blue e+ chillers can now be networked and digitalised

The benefits for you:

- Continuous monitoring of temperature accuracy
- Avoidance of downtime costs and consequential damage
- Temperature records and energy efficiency analyses
- Enhanced process reliability

Easier to operate

- Fast unit analysis using RiDiag III software via the USB port
- Fast parameterisation, data reading and plain-text system messages via the intelligent, multilingual, industry-grade display (21 languages pre-installed)

Maximum flexibility with assembly and siting

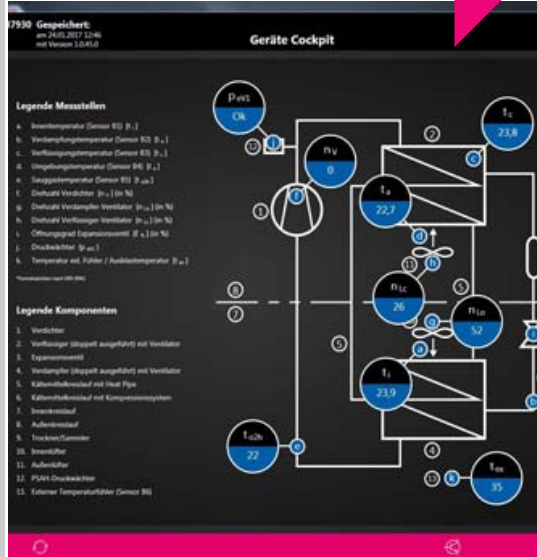

- Simple plug & play assembly
- Identical footprint for all performance classes
- Eyebolts for easier transportation
- Service-friendly thanks to optimum accessibility of all components
- Easy replacement of components

For global use

- One device for all voltages and networks:
 - 380 to 415 V, 3~, 50 Hz
 - 440 to 480 V, 3~, 60 Hz
- International approvals: cULus Listed, EAC, CB-Report
- Pre-configured option packages

Climate control

Chillers Blue e+

Accessories for climate control Page 533 **Chiller configurator** Page 558 **IoT interface** Page 554

Benefits:

- Blue e+ chillers ensure centralised and efficient cooling of liquid media with a high level of temperature accuracy and innovative DC inverter technology
- Suitable for international use thanks to its unique multi-voltage capability (without rewiring) and high operating limits
- Maximum reliability thanks to integral overflow valve and monitoring sensors
- Intuitive operation due to touch display and intelligent interfaces
- Compact and modular layout ensures minimum footprint
- Pumps with highly efficient IE3 motors

Temperature control:

- e+ controller (factory setting +20 °C)

Colour:

- Textured RAL 7035

Protection category IP to IEC 60 529:

- IP 24

Supply includes:

- Complete unit ready for connection (plug-in terminal strip)
- Multilingual documentation

Optional:

- For remote monitoring and networking of cooling units and chillers in the Blue e+ generation, please use the IoT interface (Model No. 3124.300). Increase machine availability and process reliability with remote monitoring of device data, statuses and system messages.

Blue e chillers

Targeted cooling output with exceptional efficiency

Simple user prompting

- Fast parameterisation, data reading and plain-text system messages via the intelligent, multilingual, industry-grade touch display
- Prioritised error messages with three escalation levels (warning, error, maintenance)

Targeted climate control

- Central activation of the fan and compressor via a digital controller
- Hysteresis with precision controller (HGBP) ± 0.25 K

Sustainably eco-friendly

- 40% less refrigerant thanks to the use of microchannel technology
- No galvanic corrosion, as the micro-channel heat exchanger is made from 100% aluminium

Simple assembly

- Plug & play
- Fully wired ready for connection
- Service-friendly thanks to optimum accessibility of all components

Integral safety functions

- Integral overflow valves
- Fill level monitoring
- Flow monitor

Pre-configured options (also available as add-on packages)

- For shorter delivery times and a simplified ordering process
- 1 Increased-output pump (4 and 6 bar)
- 2 Pumps: Multi-circuit systems
- 3 Outdoor (up to -20 °C)
- 4 Heater
- 5 Industrial connector
- 6 Precision controller (HGBP)
- 7 Special spray finish
- 8 Water-cooled condenser
- 9 Laser application

Chillers Blue e

Accessories for climate control Page 533 Cooling medium Page 545

Design:

- Robust industrial standard
- Variable air routing is possible via the l/h or r/h side panel
- Floating contact for collective fault signal

Benefits:

- Reduced volume of refrigerant, thanks to microchannel technology
- Touch display for simplified user guidance
- Intelligent interfaces
- Integral safety functions
- Pre-configured options

Colour:

- Enclosure: RAL 7035
- Base/plinth: RAL 7016

Protection category IP to IEC 60 529:

- IP 44 (electrics)

Supply includes:

- Chiller wired ready for connection
- Multilingual documentation including functional diagram and wiring plans

Approvals:

- Available on the Internet

VX25 TopTherm chillers

Accessories for climate control Page 533 Chiller configurator Page 558

TopTherm chillers in a VX25 enclosure with a small footprint are perfect for integrating into an enclosure suite. Their dual-frequency compatibility makes them extremely flexible. The microchannel technology reduces the volume of refrigerant required.

Benefits:

- Convenient servicing
- High reliability thanks to icing protection
- One version for two frequencies = international compatibility
- Reduced volume of refrigerant, thanks to microchannel technology
- Bayable by screw-fastening at the sides
- Integral safety functions

Temperature control:

- e-controller (factory setting +18 °C)

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- IP 44 (electrics)

Supply includes:

- Fully wired unit ready for connection with side panels and door

Note:

- Regular leak tests are not prescribed by law.

Enclosure heaters

Accessories for climate control Page 533 Therm software Page 558

Enclosure heaters to regulate relative humidity, prevent temperatures from dropping below the dew point and stop condensation forming inside the enclosure. This prevents consequential damage associated with corrosion or electrical short circuits.

Material:

- Aluminium, anodised

Protection category IP to IEC 60 529:

- IP 20

Protection class:

- II (all-insulated)

Supply includes:

- PTC heater
- Quick-connection terminal
- Assembly parts

Note:

- A thermostat is recommended for precise temperature control inside the enclosure
- In order to prevent condensation on assemblies, a hygrostat is recommended to regulate heating
- In larger enclosures, even heat distribution is best achieved by installing several low-output heaters

Approvals:

Available on the Internet

Innovative climate control accessories

Perfectly coordinated components customised to your requirements, from page 533

Accessories for climate control

Filter technology

Filter mat

for tangential fans

Made of chopped-fibre mat with a progressive structure. Temperature-resistant to 100 °C, self-extinguishing category F1 to DIN 53 438. Dust-laden air side: Open structure. Clean-air side: Closed structure. Reliable filtering of virtually all types of dust from a particle size of 10 µm.

Material:

- Chemical fibres

For tangential fans/front outlet grilles 2 U

To fit Model No.	W x H x D mm	Packs of	Model No.

Accessories for climate control

Filter technology

Metal filter

Particularly when cooling units are used in dusty and oily environments, it is advisable to use washable metal filters. If air or steam condenses on the metal surfaces, any particles present will adhere to the metal, and can easily be washed out with water or grease-dissolving detergents.

Material:

- Aluminium

Spare filter mat

Made of chopped-fibre mat with a progressive structure. Temperature-resistant to 100 °C, self-extinguishing category F1 to DIN 53 438. Dust-laden air side: Open structure. Clean-air side: Closed structure. Reliable filtering of virtually all types of dust from a particle size of 10 µm.

Note:

- Performance data, protection category and device approvals are only guaranteed when used in conjunction with original Rittal filter mats.

For roof-mounted fan

Pleated filter

for Blue e+ roof-mounted cooling unit and VX25 Blue e+ integration solution

To achieve a protection category of IP 54 with roof-mounted cooling unit Blue e+ and VX25 Blue e+ integration solution.

Material:

- Non-woven fabric

Note:

- Operation without a pleated filter is inadmissible

Filter class to DIN EN 779:

- G4

To fit Model No.	W x H x D mm	Packs of	Model No.
3185.030/ 3185.730	652 x 158 x 15	3 pc(s).	3285.700

Accessories for climate control

Filter technology

Outlet filter

Standard

For ventilation by convection, an outlet filter can be installed in the upper and lower sections of the enclosure.

Material:

- ABS

Colour:

- RAL 7035
- Optionally available in RAL 9005

Protection category IP to IEC 60 529:

- IP 54 including filter mat
- IP 55 with standard filter and additional fine filter
- IP 56 with standard filter and hose-proof hood

Protection category NEMA:

- NEMA 12

Supply includes:

- Outlet filter
- Filter mat

Accessories:

- Spare filter mat, see page 535
- Fine filter mat, see page 536
- Hose-proof hood, see page 538
- Blanking cover, see page 538

Blanking cover

for fan-and-filter units / outlet filters

If existing mounting cut-outs for fan-and-filter units/outlet filters need to be closed to achieve a higher protection category, the filter mat of the fan-and-filter unit/outlet filter can simply be replaced with a blanking cover; welding or other mechanical modification of the enclosure is not necessary.

Material:

- PE, closed-cell

Colour:

- Anthracite

Protection category IP to IEC 60 529:

- IP 54

Filter technology

Front outlet grille 2 U

for tangential fans

This front outlet grille is required if a 482.6 mm (19") cross-flow blower (SK 3144.000/SK 3145.000) is used in the lower section of the electronic enclosure and the hot air is to be expelled to the outside from the upper section of the enclosure. The design of the grille matches that of the intake grille in the cross-flow blower. These grilles can also be used as simple inflow and outflow grilles with natural convection.

Packs of	Model No.
1 pc(s).	3176.000

+ Accessories:

- Filter mat, see page 533

Enclosure internal fan

To prevent hot-spots and support the air routing of active enclosure climate control components. Adjustable in two axes. Attached to the frame section. Several fans may be cascaded using the quick-release clamping strip.

Supply includes:

- Complete unit with axial fan ready for connection
- Snap-on pivot device
- Assembly parts

Air throughput (unimpeded air flow) m³/h	Rated operating voltage V, ~, Hz	Power consumption W	Rated current A	Packs of	Model No.

Integrated louvres

For ventilation by convection; easily retro-fitted using 4 screws.

Material:

- Sheet steel

Colour:

- RAL 7035

Supply includes:

- Assembly parts

W x H x D mm	Packs of	Model No.
160 x 110 x 8	4 pc(s).	2541.235
210 x 100 x 8	4 pc(s).	2542.235
330 x 110 x 8	4 pc(s).	2543.235

Accessories for climate control

Air routing

Air duct system

for roof-mounted cooling units and roof-mounted air/water heat exchangers

Cold air may be routed directly to specific areas of the enclosure using the air duct system. The risk of air short circuits due to self-ventilated installed devices is therefore eliminated. The dimensions of the shallow duct are W x H x D 229 x 1500 x 29 mm, and can be shortened to the required length.

Material:

- Flame-resistant plastic to DIN 4102/B1

Colour:

- RAL 7035

Supply includes:

- Shallow duct
- Compensating hose

Note:

- Do not direct cold air straight at active components.
- When using the ducting system, the performance of the cooling unit may be reduced, depending on the application in question.
- For devices 3359.../3382..., the air duct adaptor 3286.840 is additionally required.

To fit Model No.	Packs of	Model No.
3209.../3210.../3273.../3359.../3382.../3383.../3384.../3385...	1 pc(s).	3286.870
3386.../3387...	1 pc(s).	3286.970

! Also required:

- Support strip, see page 952

+ Accessories:

- Deflector, 90°, see page 540
- Stoppers, see page 542
- Flat duct extension, see page 541

Air duct adaptor

for air duct system and shallow air duct system

The adaptor serves as a connection between the roof-mounted cooling unit (air inlet opening) and the air-duct system.

Material:

- ABS

Colour:

- RAL 9005

To fit Model No.	Packs of	Model No.
3359.../3382...	1 pc(s).	3286.840

Deflector, 90°

for air duct system

For targeted air deflection at the end of the shallow duct.

Material:

- Flame-resistant plastic to DIN 4102/B1

Colour:

- RAL 7035

Packs of	Model No.
1 pc(s).	3286.990

Accessories for climate control

Air routing

Shallow air duct system

for roof-mounted cooling units and roof-mounted air/water heat exchangers

Cold air may be routed directly to specific areas of the enclosure using the air duct system.

The risk of air short circuits due to self-ventilated installed devices is therefore eliminated.

The dimensions of the shallow duct are W x H x D 229 x 1500 x 29 mm, and can be shortened to the required length.

Applications:

- Suitable for enclosures with widths of 800 mm or more and depths of 600 mm or more

Material:

- Flame-resistant plastic to DIN 4102/B1

Colour:

- RAL 7035

Supply includes:

- Shallow duct
- Adaptor
- Compensating piece
- Deflector, 90°

Note:

- Do not direct cold air straight at active components.
- When using the ducting system, the performance of the cooling unit may be reduced, depending on the application in question.
- Not suitable for use in conjunction with quick-change frame.

To fit Model No.	Packs of	Model No.
3209.../3210.../3273.../ 3383.../3384.../3385.../ 3359.../3382...	1 pc(s).	3286.850

! Also required:

- Air duct adaptor, see page 540
- Support strip, see page 952

🔧 Assembly

- For devices 3359.XXX and 3382.XXX, the air duct adaptor 3286.840 is required for mounting.

+ Accessories:

- Deflector, 90°, see page 540
- Stoppers, see page 542
- Flat duct extension, see page 541

Flat duct extension

Extension kit for shallow air duct system 3286.850 for length compensation in the width, depth or height in enclosures.

Material:

- Flame-resistant plastic to DIN 4102/B1

Colour:

- RAL 7035

Supply includes:

- Shallow duct 1500 mm
- Connecting piece

Packs of	Model No.
1 pc(s).	3286.860

Accessories for climate control

Air routing

Stoppers

for roof-mounted cooling units and roof-mounted air/water heat exchangers

To cover any cold air outlets that are not required.

Material:

– Polyurethane foam

To fit Model No.	Ø mm	Max. no. of stoppers per unit	Packs of	Model No.
3359..../3382....	80	1	2 pc(s).	3286.780
3209..../3210..../3273..../ 3383..../3384..../3385....	100	2	2 pc(s).	3286.880
3386..../3387....	150	1	2 pc(s).	3286.980

Air diverter

For use with wall-mounted cooling units, for targeted routing of cold air in a downward direction. Particularly well-suited for densely-packed electrical components in the lower section of the enclosure.

Material:

– Sheet steel

Colour:

– RAL 7035

To fit Model No.	Installation depth mm	Packs of	Model No.
3304..../3305....	65	1 pc(s).	3213.310
3328..../3329....	65	1 pc(s).	3213.320

Accessories for climate control

Water distribution

Electric condensate evaporator

For external mounting on the enclosure. For use with all enclosure cooling units and air/water heat exchangers (wall-mounted).

Benefits:

- Suitable for international use thanks to multi-voltage support

Colour:

- RAL 7035

Supply includes:

- Electric condensate evaporator, ready to connect

W x H x D mm	Rated operating voltage V, ~, Hz	Operating temperature range	Evaporation performance	Packs of	Model No.
280 x 129 x 105	115 - 230, 1~, 50/60	+5 °C...+60 °C	230 V: 3.5 l/d 115 V: 3.0 l/d	1 pc(s).	3301.500
400 x 129 x 105	115 - 230, 1~, 50/60	+5 °C...+60 °C	230 V: 3.5 l/d 115 V: 3.0 l/d	1 pc(s).	3301.505

Electrical condensate evaporator

for Blue e+ roof-mounted cooling units

Tool-free mounting of the condensate evaporator on the underside of the roof-mounted Blue e+ so that it is not visible from the outside. Any condensation is evaporated and emitted to the ambient air via the air exhaust of the cooling unit.

Material:

- Plastic

Colour:

- RAL 9005

Supply includes:

- Electrical condensate evaporation
- Shipping brace screw
- Entry grommet

Note:

- Power is supplied via the cooling unit

To fit Model No.	W x H x D mm	Rated operating voltage V (DC)	Operating temperature range	Evaporation performance	Packs of	Model No.
3185.730	89 x 121 x 158	380	+5 °C...+60 °C	100 ml/h	1 pc(s).	3355.720

Accessories for climate control

Water distribution

Condensate collecting bottle

For mounting on the enclosure. For use with all enclosure cooling units and air/water heat exchangers. Safety overflow at the side. Capacity approximately 0.75 l.

Supply includes:

- Condensate collecting bottle
- Bottle holder
- Assembly parts

Packs of	Model No.
1 pc(s).	3301.600

- 1** Condensate discharge tube
- 2** Membrane grommet
- 3** Max. 70 mm

Condensate hose

For discharging and transporting condensate. For connection to enclosure cooling units and air/water heat exchangers.

Material:

- PVC, transparent

To fit Model No.	Length m	Ø mm	Material thickness mm	Packs of	Model No.

Accessories for climate control

Water distribution

Connection set

for air/water heat exchangers

For professional laying of water connections and regulation of volumetric flow. The pressure hoses may be cut to length individually, depending on the application.

Material:

- Water-carrying parts EPDM/brass

Supply includes:

- Hose for water return
- Hose for water inlet including regulator valve for regulating the volumetric flow (setting range 3 to 12 l/min)
- Assembly parts

To fit Model No.	Length mm	Water connections	Permissible operating pressure (p. max.) bar	Packs of	Model No.

Flow regulator valve

For use with air/water heat exchangers, especially if more than one heat exchanger ($n > 1$) is used in the water cooling circuit. The correctly set valve then ensures the same quantity of cooling medium for all equipment.

Applications:

- The valve is used for hydraulic balancing.

Material:

- Brass

Accessories for climate control

Control/regulation

Digital enclosure internal temperature display and thermostat

For installation in the enclosure door or wall.

Technical specifications:

- Three-digit, 7-segment display
- Option of switching between °C/°F
- Includes 1800 mm long NTC sensor
- Two relay outputs as change-over contact and normally open contact (max. contact load 230 V, 6 A)
- Freely selectable switching difference

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- IP 54

Rated operating voltage V, ~, Hz	Installation depth mm	Setting range	Operating temperature range	Packs of	Model No.

Thermostat

Enclosure internal thermostat

Particularly suitable for controlling fans, heaters and heat exchangers, this thermostat can also be used as a signal generator for monitoring the enclosure internal temperature.

Benefits:

- Time-saving connection technique using a terminal strip with a screw connection from the outside
- Flexible mounting on a vertical or horizontal 35 mm support rail to EN 50 022, and snap fastening in the enclosure section or on the mounting plate using the supplied adaptor

Technical specifications:

- Bi-metal controller as a temperature-sensitive element with thermal feedback
- Contact population: Single-pole change-over contact as a quick-break contact
- Permissible contact load: Category 5 – 3 (heating) AC 10 (4) A (inductive load at $\cos \phi = 0.6$)/category 5- 4 (cooling): AC 5 (4) A (inductive load at $\cos \phi = 0.6$)/DC = max. 30 W
- Switching difference: approx. 1 K \pm 0.8 K

Colour:

- RAL 7035

Accessories:

- Bottom-mounted adaptor, see page 548
- Mounting plate, see page 998

W x H x D mm	Rated operating voltage V, ~	Setting range	Packs of	Model No.
71 x 71 x 33.5	24 - 230, 1~ 24 - 60 (DC)	+5 °C...+60 °C	1 pc(s).	3110.000

Hygostat

Activates the heater and/or fan when a preset relative humidity in the enclosure is exceeded. This reduces the relative humidity and prevents condensation on assemblies and electronic components.

Benefits:

- Time-saving connection technique using a terminal strip with a screw connection from the outside
- Flexible mounting on a vertical or horizontal 35 mm support rail to EN 50 022, and snap fastening in the enclosure section or on the mounting plate using the supplied adaptor

Technical specifications:

- Contact population: Single-pole change-over contact as a quick-break contact
- Permissible contact load: AC ~ 5 (0.2) A (inductive load at $\cos \phi = 0.6$)/DC = max. 20 W
- Setting range: 50 – 100% relative humidity
- Switching difference: approx. 4%

Colour:

- RAL 7035

Accessories:

- Bottom-mounted adaptor, see page 548
- Mounting plate, see page 998

Accessories for climate control

Control/regulation

Bottom-mounted adaptor for enclosure internal thermostat and hygrostat

With mounting option for screwed cable glands, for targeted cable infeed from appropriate equipment such as SK fan-and-filter units and enclosure heaters. In conjunction with screwed cable glands, it also provides strain relief.

Colour:
– RAL 7035

To fit Model No.	Packs of	Model No.
3110.000/3118.000	1 pc(s).	3110.200

EC speed control

Control unit for EC fan

Temperature-dependent speed control for EC fans to reduce noise and save energy. The function of the fan can also be monitored.

Functions:

- Activation and monitoring of up to 4 EC fan-and-filter units
- For mounting on a 35 mm support rail EN 50 022
- External temperature sensor to record the actual temperature
- Status LED to display the operating status
- Alarm relay for reporting overtemperature, fan defect, cable break and sensor failure

Supply includes:

- Speed control
- NTC sensor, length 1.80 m

To fit Model No.	Rated operating voltage V	Setting range	Packs of	Model No.
3240.500/3241.500/3243.500/ 3244.500/3245.XXX/3140.500/ 3140.510	100 - 250	+5 °C...+55 °C	1 pc(s).	3235.440

EC speed control

Sensor for speed control

NTC sensor for temperature-dependent speed control of EC fans to reduce noise and save energy. Activation and power supply via an EC fan-and-filter unit.

Technical specifications:

- Control characteristic: fixed setpoint at 35 °C, with linear control range between +35 °C (maximum speed 100%) and +20 °C (minimum speed 10%)

Protection category IP to IEC 60 529:

- IP 40

Supply includes:

- External sensor with connection cable (length 3 m)

To fit Model No.	Rated operating voltage V	Operating temperature range	Packs of	Model No.
3240.500/3241.500/ 3243.500/3244.500/ 3245.XXX/3140.500/ 3140.510	10 - 12 (DC)	-25 °C...+80 °C	1 pc(s).	3235.450

Speed control

For fan-and-filter units and air/air heat exchangers

Temperature-dependent speed control to minimise noise and save energy in part-load operation.

Technical specifications:

- For mounting on a 35 mm support rail EN 50 022
- Phase cross-over with microcontroller
- Maximum fan output 300 W or 2 A

Supply includes:

- Speed control
- NTC sensor, length 1.80 m

Note:

- Only suitable for use with single-phase AC motors and equipment
- Not suitable for EC motors

Accessories:

- Mounting plate, see page 998

W x H x D mm	Rated operating voltage V	Setting range	Packs of	Model No.
105 x 90.5 x 60.2	100 - 230	+20 °C...+55 °C	1 pc(s).	3120.200

Temperature sensor

for Blue e+ cooling units, Blue e+ chillers

NTC sensor to regulate Blue e+ cooling units according to an individual measurement point within the enclosure (control based on an external sensor), and according to the cold air outlet from the cooling unit inside the enclosure (control based on outlet temperature). For chillers: Differential control is used if it is necessary to regulate the temperature of the medium depending on the ambient temperature (positive or negative). For this, the temperature sensor needs to be positioned near the Blue e+ chiller.

Supply includes:

- External sensor with connection cable (length 2.5 m)

Packs of	Model No.
1 pc(s).	3124.400

Accessories for climate control

Control/regulation

Master/slave cable

for SK BUS system

The SK BUS system allows several cooling units and air/water heat exchangers with e-Comfort controller to communicate with one another Master-slave configuration for complex bayed enclosure systems, for optimum operating results.

Technical specifications:

- The master-slave layout facilitates common activation and deactivation via door limit switches, parallel activation and deactivation via a temperature setpoint, and common collective fault signals and temperature logging, eliminating the need for intricate wiring.

Supply includes:

- 3 m shielded interface cable
- Operating instructions on programming the cooling units

Note:

- $n_B = n_K - 1$
- n_B : Number of order units (SK BUS system)
- n_K : Number of cooling units to be linked

Packs of	Model No.
1 pc(s).	3124.100

Toroidal transformer

Primary connection 115 V/400 V

For the power supply of wall-mounted 230 V air/water heat exchangers. Available with 115 V or 400 V primary connection.

Technical specifications:

- Output 110 VA
- Voltage tolerance $\pm 10\%$
- Primary connection 3500 mm long
- Secondary connection 1500 mm long
- For mounting on a 35 mm support rail EN 50 022

Supply includes:

- Toroidal transformer
- Assembly parts

To fit Model No.	W x H x D mm	Rated operating voltage V, ~, Hz	Packs of	Model No.

Industrial Internet of Things

Fast, uninterrupted, automated production,
from page 552

Climate control

IoT interface

Digitalised and networked

Industrial Internet of Things

- Fast, uninterrupted, automated production
- The Industrial Internet of Things (IIoT) makes it possible.

Condition monitoring for rack and process cooling

- In conjunction with the IoT interface, Rittal cooling solutions can now be networked and digitalised
- Continuous monitoring plays a key role in boosting system availability.

Climate control

Sensors for enclosure monitoring

- The use of Rittal sensors allows reliable monitoring of a wide range of switchgear parameters.
- Potential failures are identified early on, and operational reliability is increased

Rittal Smart Service

- Data-based service for visualising the response of your networked cooling solutions
- Overview of energy and CO₂ consumption
- Centralised detection of maintenance requirements and critical errors, including recommended actions
- Fast problem analysis and troubleshooting

Accessories for climate control

Control/regulation

IoT interface

The IoT interface is a central component for the intelligent networking of Rittal cooling solutions or sensors for monitoring physical ambient conditions. Equipped with a wide range of interfaces and protocols, it is used to collate and transmit data to superordinate IT systems or to systems for the local monitoring of machine statuses.

Benefits:

- Digitalisation and networking offer huge opportunities for every company. With the IoT interface, Rittal cooling solutions and sensors for monitoring physical ambient conditions are easily connected to Industry 4.0 environments without affecting the automation logic.
- Plug and run: The IoT interface is quickly and conveniently configured and commissioned via the integral Web server, no programming required.

Material:

- Plastic to UL 94-V0

Colour:

- RAL 7016

Protection category IP to IEC 60 529:

- IP 20

Supply includes:

- IoT interface
- USB cable (USB-A connector on micro-USB-B connector)
- Angle bracket for Blue e+ cooling unit

Note:

- The IoT interface is only supported by Blue e+ cooling units from firmware version 1.11.0 or above. If applicable, update the firmware using the RiDiag III software (3159.300).
- To interlink cooling units in the Blue e series, the Blue e IoT adaptor (3124.310) is additionally required.

Assembly

- The IoT interface can be secured on a 35 x 7.5 top hat rail to DIN EN 60715 using a spring-loaded metal clip, or to the rear of a Blue e+ cooling unit using the angle bracket.

Accessories:

- Blue e IoT adaptor, see page 555

Model No.	3124.300

Blue e IoT adaptor

In conjunction with the IoT interface, the adaptor supports intelligent networking of cooling units in the Blue e series.

Benefits:

- Digitalisation and networking offer huge opportunities for every company. In conjunction with the IoT interface (3124.300), cooling units in the Blue e series are easily connected to Industry 4.0 environments without affecting the automation logic.
- Plug and run: The IoT interface is quickly and conveniently configured and commissioned via the integral Web server, no programming required.
- Condition monitoring of up to 10 cooling units in a master/slave arrangement

Material:

- Plastic
- Front: Smooth
- Enclosure: Textured

Colour:

- Front: RAL 9005
- Enclosure: RAL 7035

Protection category IP to IEC 60 529:

- IP 30

Supply includes:

- Blue e IoT adaptor
- Installation and Short User's Guide
- Mounting bracket
- Assembly parts
- Sub-D to RJ11 connection cable
- Mounting clips for securing top-hat rails

Also required:

- IoT interface, see page 554

Accessories for climate control

Mounting accessories

Trim frame

for slimline cooling units

Slimline cooling units can be internally or externally mounted on an enclosure door or wall. The trim frame presents a closed front for the cooling unit.

Material:

- Sheet steel

Colour:

- RAL 7035

Supply includes:

- Trim frame
- Sealing and assembly parts

To fit Model No.	W x H x D mm	Packs of	Model No.
3366....	448 x 1583 x 140	1 pc(s).	3377.000

Baying plate

for VX25 Blue e+ integration solution

The baying plate guarantees a protection category of IP 54 when baying the VX25 Blue e+ integration solution to a 2,000 mm high, 600 mm deep enclosure.

Material:

- Sheet steel

Colour:

- Textured RAL 7035

Supply includes:

- Baying plate
- Cross member
- Assembly parts and sealing material

To fit Model No.	W x H x D mm	Packs of	Model No.
3185.030	600 x 200 x 17	1 pc(s).	3355.710

Quick-change frame

for roof-mounted cooling units

The quick-change frame is more than just an alternate frame. Together with the seal, the lower part of the frame is screw-fastened to the enclosure. In this way, it is possible to install and remove the connector-ready cooling unit with the upper part of the alternate frame previously mounted on the cooling unit with quick-release fasteners. During servicing work, this means shorter assembly times and hence minimised downtime. What is more, the quick-change frame offers effective protection against the ingress of oil into the enclosure in oily atmospheres, thanks to its integral drainage trough.

Material:

- Sheet steel

Colour:

- RAL 7035

Supply includes:

- Quick-change frame
- Seal
- Quick-release fasteners

To fit Model No.	Packs of	Model No.

Accessories for climate control

Mounting accessories

Guide frame

for Vario rack-mounted fan

Supply includes:

- Guide frame
- Connector and fitted connection cable
- Mounting bracket for optional attachment to the 482.6 mm (19") mounting level
- Assembly parts

To fit Model No.	Suitable for rated operating voltage	Length of connection cable m	Packs of	Model No.
3350.230/3351.230/ 3352.230	115 V, 50/60 Hz 230 V, 50/60 Hz	3	1 pc(s).	3355.100
3352.500	24 V DC 115 - 230 V	3	1 pc(s).	3357.100

Display frame

for Blue e+ roof-mounted cooling unit and VX25 Blue e+ integration solution

The display frame allows the touch display of the roof-mounted cooling unit Blue e+ or the VX25 Blue e+ integration solution to be positioned in the enclosure door.

Benefits:

- For positioning the display at the optimum operator height

Material:

- Plastic

Colour:

- RAL 7016

Protection category IP to IEC 60 529:

- IP 54

Supply includes:

- Display frame
- Blanking cover
- RJ 12 extension cable (3 m)
- Assembly parts and sealing material

To fit Model No.	W x H x D mm	Packs of	Model No.
3185.030/ 3185.730	316 x 118 x 27.5	1 pc(s).	3355.700

Climate control software

Configurators/tools/CAD data

Climate control

The optimum design, control and monitoring of the installation are crucial to efficient climate control. We support you with user-friendly tools and software for rapid calculation, plus Web-based tools and interfaces to easily control your climate control solution.

Chiller configurator

The chiller configurator is the cost-effective way to design your required machine and process cooling. Cooling output, volumetric flow and refrigerant temperatures are precisely tailored to your required application.

Benefits:

- Calculate the heat loss, either mathematically or manually
- Comprehensive range of accessories
- Drawings downloadable in dwg, pdf, or 3D pdf format
- Downloadable specifications/tender texts
- Interactive performance diagram: cooling output and pump output
- Add option packages and download bill of materials
- Transfer order list to shopping basket
- Send a quote request

Note:

- Configure online at www.rittal.com/configurators

Chiller app

The Rittal Chiller app allows users to make their selections from a mobile device. Alongside the existing online version of the chiller configurator, the app also supports automated calculation of the required cooling output. The matching chiller may be selected interactively in just four steps, with outputs ranging from 1 to 40 kW.

Note:

- Download free from the App Store

iPhone app

Therm software

Precise, efficient climate control

Therm undertakes the time-consuming calculation of the required cooling output and selects suitable products. The calculation provides you with detailed documentation for maximum peace of mind when designing the optimum climate control. Therm is based on the requirements of IEC/TR3 60890 AMD 1 and DIN 3168 for enclosure cooling units. The overtemperature to DIN 61439 is calculated with a single click.

Benefits:

- Fast, thorough determination of the required climate control measures
- Identification of the correct climate control measures can cut costs
- Easy calculation of the required actual cooling output, as well as any upgrades or enhancements to the switchgear
- Detailed documentation is supplied with the calculation

Note:

- Configure online at www.rittal.com/software

Therm app

Note:

- Downloaded free from the App Store and from the Google Play Store

Android app

iPhone app

Climate control software

Configurators/tools/CAD data

RiDiag II

For the diagnosis, maintenance and long-term data capture of TopTherm units with e-Comfort controller. RiDiag logs equipment data and prepares an error list. RiDiag also offers the option of displaying and setting the device's operating parameters. Logged measurement data can be tracked in real time in the form of a diagram.

Packs of	Model No.
1 pc(s).	3159.100

Note:

- Download free at www.rittal.com/software

RiDiag III

Diagnosis software for the analysis and parameterisation of cooling units and chillers in the Blue e+ series.

	Model No.
¹⁾ This additional function can be enabled with a chargeable licence	3159.300

Note:

- Download RiDiag III for free at www.rittal.com/software

The following functions may be used in the device and efficiency cockpit:

- Quick analysis and setting of all parameters
- Display configuration: e.g. NFC, language, PIN
- Reading of historical data from the last two years¹⁾
- Creation of service enquiries and selection of spare parts
- Software and firmware updates for devices

Blue e+ app

The Blue e+ app supports the contactless exchange of information as well as quick on-site analysis via the NFC interface.

Benefits:

- Saves time when reading the units
- Limit access by requesting a PIN (PIN of cooling unit)
- Superior operational reliability, thanks to improved fault and maintenance management
- Identical displays and menu prompting as on the Blue e+ device display
- Direct link to Rittal Service
- Simply send repair, maintenance and spare parts enquiries from your smartphone

Note:

- Download for free from the Google Play Store

Android app

Boosting efficiency through automation

Rittal has all the machines and devices you need – The Rittal Automation Systems division can supply everything you need to make panel building and switchgear manufacturing easier, faster, more accurate and more reproducible through automation. This allows you to link all work operations together into one highly efficient, digitally seamless, automated process. Manual handling aids and a wide selection of hand tools are available from a single source and can be ordered directly from Rittal.

Further information, machines and devices can be found in the brochure “Rittal Automation Systems – Automate your panel building and switchgear manufacturing”.

Design:

- 19 separate compartments for tools
- Cushioned compartment for laptop or tablet
- Document wallet
- Two additional storage pockets inside

Benefits:

- Careful storage
- Shoulder pad for comfortable carrying
- Flexible use

Material:

- Polyester

Supply includes:

- Screwdriver, insulated SL 3.5 x 0.6 (Model No.: 4052.102), SL 6 x 1.2 (Model No.: 4052.107), PZ 2 (Model No.: 4052.122)
- Screwdriver, non-insulated PZ 2 (Model No.: 4052.022), SL 6 x 1.2 (Model No.: 4052.011), TX 20 (Model No.: 4052.055), TX 25 (Model No.: 4052.056), TX 30 (Model No.: 4052.058)
- Bit holder with handle, magnetic (Model No.: 4053.300)
- Bit set with bit holder, 7-piece (Model No.: 4053.420)
- Crimping pliers for wire end ferrules, for cross-section 0.5 - 6 mm², square crimp (Model No.: 4054.001)
- Wire stripper for wire end ferrules, for cross-section 0.02 - 11 mm² (Model No.: 4054.300)
- Stripping tools for cables Ø 2.5 - 11 mm (Model No.: 4054.400), for cables Ø 8 - 13 mm (Model No.: 4054.405)
- Side cutter for cables Ø 0.2 - 11 mm (Model No.: 4054.600)
- Electrician's scissors for cables Ø 0.1 - 3.7 mm (Model No.: 4054.700)
- Combination pliers with insulated handle (Model No.: 4054.800)
- Needle-nose pliers with insulated handle (Model No.: 4054.850)
- Tool bag (Model No.: 4053.000)

Width mm	Height mm	Depth mm	Packs of	Model No.
420	340	190	1 pc(s).	4053.500

Tool bag

Unconfigured

The practical, high-quality shoulder bag may be used either as a tool bag or laptop case.

Design:

- 19 separate compartments for tools
- Cushioned compartment for laptop or tablet
- Document wallet
- Two additional storage pockets inside

Benefits:

- Careful storage
- Shoulder pad for comfortable carrying
- Flexible use

Material:

- Polyester

Width mm	Height mm	Depth mm	Packs of	Model No.
420	340	190	1 pc(s).	4053.000

Screwdrivers

Screwdrivers

insulated

With a long, slender handle and high-performance tip with non-transfer insulation.

Design:

- Isolation protection 1000 V

Benefits:

- Minimal force required, thanks to ergonomically styled handle
- Handle head with anti-roll protection and clear screw labelling
- Black coated blade tip to preserve precision and accuracy of fit
- Handle 30% and insulation up to 50% slimmer than comparable tools
- Optimum interconnection of hand and handle supports higher torques and longer, fatigue-free working

Material:

- Blade: Chrome-molybdenum-vanadium alloy
- Handle core: Hard plastic
- Handle body: Elastic, highly flexible plastic

Colour:

- Handle: Anthracite and Rittal Power Pink

Standards:

- IEC 60 900

Approvals:

- VDE
- TÜV-tested safety

Screwdrivers

Screwdrivers

uninsulated

Ergonomic screwdriver which adapts perfectly to the hand, thereby minimising the force required.

Benefits:

- Handle head with anti-roll protection and clear screw labelling
- Black coated blade tip to preserve precision and accuracy of fit
- Optimum interconnection of hand and handle supports higher torques and longer, fatigue-free working

Material:

- Blade: Chrome-molybdenum-vanadium alloy
- Handle core: Hard plastic
- Handle body: Elastic, highly flexible plastic

Colour:

- Handle: Anthracite and Rittal Power Pink

Approvals:

- TÜV-tested safety

Material:

- Blade: Chrome-molybdenum-vanadium alloy
- Handle core: Hard plastic
- Handle body: Elastic, highly flexible plastic

Colour:

- Handle: Anthracite and Rittal Power Pink

Supply includes:

- Combined blade holder: Screwdriver and T handle
- 12 blades each with 2 tips
- Storage box

Blade length mm	Handle length mm	Handle dia. mm	Packs of	Model No.
160	105	39	1 pc(s).	4053.450

Hex wrenches

Hex wrench set

for Allen screws

Hex wrench with optimum, narrow-tolerance hexagonal profiles and precise ballhead geometry. The extra-long design achieves a greater leverage effect.

Benefits:

- Up to 30% more corrosion resistance
- Optimum hardness and elasticity
- Intensive leverage effect
- Special geometry in the critical zone

Technical specifications:

- For hex socket: 1.27 - 1.5 - 2.0 - 2.5 - 3.0 - 3.5 - 4.0 - 4.5 - 5.0 - 5.5 - 6.0 - 7.0 - 8.0 - 9.0 - 10.0 mm

Supply includes:

- 15 hex wrenches
- Storage box

Packs of	Model No.
1 pc(s).	4052.480

Industrial bit for cordless screwdrivers

with long shaft

Precisely manufactured screwdriver with a long shaft for industrial use.

Benefits:

- Maximum hardness and torque values

Technical specifications:

- Tool adaptation E 6.3 (¼")

Material:

- High-quality special tool steel

For slot-head screws

Bits and bit holders

Industrial bit set for cordless screwdriver

with long shaft

Precisely manufactured screwdriver with a long shaft for industrial use.

Benefits:

- Robust viewing box
- Secure storage

Technical specifications:

- Tool adaptation E 6.3 (1/4")

Material:

- High-quality special tool steel

Supply includes:

- Set with 6 bits
- Viewing box

Blade tip	Length mm	Packs of	Model No.

Bit set

with bit holder

7-piece bit set with a practical assortment of quality bits with a short shaft and magnetic holder.

Benefits:

- One-handed operation
- Function as auxiliary screwdriver

Technical specifications:

- Tool adaptation C 6.3 (1/4")

Supply includes:

- Set with 6 bits
- Bit holder

Blade tip	Length mm	Packs of	Model No.
TX 25 TX 30 TX 40 PH 1 PH 2 PH 3	25	1 pc(s).	4053.420

Bit holder

with handle, magnetic

Ergonomic, adaptable bit holder with handle.

Benefits:

- Extra-strong magnet for optimum retention force
- Precise concentricity
- Handle for anti-roll protection

Technical specifications:

- Tool adaptation C 6.3 (1/4")
- Tool adaptation E 6.3 (1/4")

Material:

- Handle core: Hard plastic
- Handle body: Elastic, highly flexible plastic

Colour:

- Handle: Anthracite and Rittal Power Pink

100	6.3	101	33	1 pc(s).	4053.300

Bits and bit holders

Bit holder

magnetic

Magnetic holder with hex drive to hold bits securely.

Benefits:

- Extra-strong magnet for optimum retention force
- Precise concentricity

Technical specifications:

- Tool adaptation E 6.3 (1/4")

Material:

- High-quality special tool steel

Blade length mm	Blade dia. mm	Packs of	Model No.
47	6.3	1 pc(s).	4053.310

Crimping pliers

Flex crimping tool

for wire end ferrules

For use with wire end ferrules with no insulating collar to DIN 46228, Part 1 and wire end ferrules with insulating collar to DIN 46228, Part 4.

Benefits:

- Front or side accommodation of the wire end ferrule with a rotatable head
- Minimal effort required with large conductor cross-sections
- Uniformly high quality compression
- Releasable ratchet
- Self-adjusting

Material:

- High-quality special tool steel

Surface finish:

- Coated, black, matt

Colour:

- Handle: Anthracite and Rittal Power Pink

Accessories:

- Wire end ferrules, see page 581

For cross-section mm ²	AWG	Direction of cable entry	Compression	Length mm	Design	Packs of	Model No.
0.14 - 10	26 - 8	front and side	Trapezoid crimp	180	Straight	1 pc(s).	4054.030

Crimping pliers

for wire end ferrules

For use with wire end ferrules with no insulating collar to DIN 46228, Part 1 and wire end ferrules with insulating collar to DIN 46228, Part 4.

Benefits:

- Minimal effort required with large conductor cross-sections
- Uniformly high quality compression
- Releasable ratchet
- Self-adjusting

Material:

- High-quality special tool steel

Surface finish:

- Matt, plated

Colour:

- Handle: Anthracite and Rittal Power Pink

Crimping pliers

Crimping pliers

for wire end ferrules

For use with wire end ferrules with no insulating collar to DIN 46228 Part 1 and wire end ferrules with insulating collar to DIN 46228 Part 4.

Benefits:

- Minimal effort required with large conductor cross-sections
- Uniformly high quality compression
- Marked die stations for precise machining of the relevant cross-sections
- Releasable ratchet

Material:

- High-quality special tool steel

Surface finish:

- Matt, plated

Colour:

- Handle: Anthracite and Rittal Power Pink

Accessories:

- Wire end ferrules, see page 581

For cross-section mm ²	AWG	Direction of cable entry	Compression	Length mm	Design	Packs of	Model No.

Crimping pliers

for crimp tab terminals

For use with non-insulated crimp tab terminals.

Benefits:

- Releasable ratchet
- Marked die stations for precise machining of the relevant cross-sections

Material:

- High-quality special tool steel

Surface finish:

- Matt, plated

Colour:

- Handle: Anthracite and Rittal Power Pink

For cross-section mm ²	AWG	Compression	Length mm	Design	Packs of	Model No.

Crimping pliers

Crimping pliers

for ring terminals

For use with non-insulated ring terminals.

Benefits:

- Releasable ratchet
- Optimised lever transmission means that only minimal actuator forces are required, even with large cross-sections

Material:

- High-quality special tool steel

Surface finish:

- Matt, plated

Colour:

- Handle: Anthracite and Rittal Power Pink

For cross-section mm ²	AWG	Compression	Length mm	Design	Packs of	Model No.

Crimping pliers

Crimping pliers

for ring terminals

For use with insulated ring terminals and connectors.

Benefits:

- Clear allocation of cross-sections, thanks to colour coding on the dies
- Releasable ratchet
- Releases as soon as the required pressure is reached, to prevent underpressing

Material:

- High-quality special tool steel

Surface finish:

- Matt, plated

Colour:

- Handle: Anthracite and Rittal Power Pink

For cross-section mm ²	AWG	Compression	Length mm	Design	Packs of	Model No.

Wire end ferrules

Wire end ferrules

on a reel

With plastic collar.

Technical specifications:

- Heat-resistant to 105 °C

Material:

- E-Cu, galvanic tin-plated
- Plastic collar: Polypropylene

Note:

- UL-certified in conjunction with the relevant tools, such as crimping machines.

Standards:

- AEH DIN 46228

Approvals:

- Available on the Internet

Wire end ferrules

Wire end ferrules

loose

With plastic collar.

Technical specifications:

- Heat-resistant to 105 °C

Material:

- E-Cu, galvanic tin-plated
- Plastic collar: Polypropylene

Note:

- UL-certified in conjunction with the relevant tools, such as crimping machines.

Standards:

- AEH DIN 46228

Approvals:

- Available on the Internet

Insulation stripping tools

Wire stripper

For stripping cables and conductors. Self-adjusting, with ergonomically styled handle, replaceable insulation stripping blade.

Benefits:

- Flexible end stop for the insulation stripping length
- Practical integrated wire cutter
- Automatic adjustment mechanism for a wide range of insulations and conductor diameters
- Dies compatible with all types of pliers, may be replaced in a few actions
- Two-component handle with anti-slip soft zone

Colour:

- Handle: Anthracite and Rittal Power Pink

Accessories:

- Spare blades can be found on the Internet

For cross-section mm ²	AWG	Length mm	Design	Note	Packs of	Model No.

+ Accessories:

- Spare blades can be found on the Internet

Side cutter

For copper and aluminium conductors.

Benefits:

- Guarantees long-term stable cutting performance and a clean cut
- Ergonomically styled handles for fatigue-free, non-slip working

Material:

- High-quality special tool steel

Surface finish:

- Matt, plated

Colour:

- Handle: Anthracite and Rittal Power Pink

Standards:

- Isolation protection 1000 V
- VDE

For cable diameters mm	Length mm	Design	Packs of	Model No.
0.2 - 11	160	Straight	1 pc(s).	4054.600

Electronic side cutter

With pointed head, 21° angled blades and small chamfer.

Benefits:

- Even, smooth-running opening with opening spring
- Ergonomically styled handles
- Box-joint for permanent stability and optimum force progression

Material:

- High-quality special tool steel

Surface finish:

- Polished, oiled

Colour:

0.1 - 3.7	160	1 pc(s).	4054.700

Cross member cutter

To create openings by cutting the cross members in compartment side panels and compartment dividers for VX enclosures and for fuse-switch-disconnector enclosures.

Benefits:

- Cutting of materials without deformation
- Clean edge cuts, no reworking of the cut section required
- Easy to use
- Ergonomically styled handles for fatigue-free, non-slip working

Material:

- Tool body: Special tool steel, rolled, oil-hardened

Colour:

- Handle: Anthracite and Rittal Power Pink

Supply includes:

- Cross member cutter including swarf deflector

Maximum data quality

Streamline your workflow with software-based engineering

This enclosure is available in duplicate – real and digital.

The maximum data quality of the enclosures creates greater flexibility with configuration, manufacturing and assembly. What's more, the digital twin allows the planning, ordering, processing and much more to be carried out by the person who knows your company the best: you.

Mechanical tools

Deburring blade

Universal deburrer, for deburring holes and edges.

Design:

- Steel blade may be clamped in an axial or radial direction as required
- Steel blade brushed on both sides

Benefits:

- Blade automatically assumes the optimum position
- Length of blade support is adjustable
- Easy to use
- Effortless deburring
- Ergonomically styled handle

Material:

- Handle core: Hard plastic
- Handle body: Elastic, highly flexible plastic
- Blade holder: Steel
- Blade: Hardened steel blade, with PVD TiN (titanium nitride) coating

Colour:

- Handle: Black and red

Supply includes:

- Handle
- Blade holder
- Steel blade

Handle length mm	Handle dia. mm	Packs of	Model No.
110	28	1 pc(s).	4050.722

Accessories:

- Steel blade, see page 590

Steel blade

for deburring blade

Spare blade for deburrer. Rotating 360° blades for deburring.

Design:

- Steel blade brushed on both sides

Material:

- Hardened steel blade, with PVD TiN (titanium nitride) coating

To fit Model No.	Blade length mm	Blade dia. mm	Packs of	Model No.
4050.722	23	3	10 pc(s).	4050.723

Also required:

- Deburring blade, see page 590

Multitool

for AX, VX

Multifunctional tool. Ideal for handling and mounting AX enclosures and VX doors.

Functions:

- Cutting of packaging (tapes and foil)
- Enclosure key (double-bit)
- Installation and dismantling of hinge pins with AX enclosures
- Temporary door stay for AX enclosures
- Safe installation and removal of VX doors
- Magnet for securing drawings and attaching to enclosure surfaces
- Bottle opener function

Technical specifications:

- Load capacity max. 40 kg (lift door)

Material:

- Door lift function: Stainless steel
- Double-bit: Die-cast zinc
- Mounting aid for hinge pins: Die-cast zinc
- Door stay: Die-cast zinc
- Blade: Stainless steel blade
- Handle: Plastic

Colour:

- Handle: Anthracite and Rittal Power Pink

Packs of	Model No.
1 pc(s).	4052.000

Lifting aid for mounting plate for AX

Lifting tool to support the assembly process of mounting plates for AX enclosures. Allows easy location and positioning of the mounting plate without risk of injury.

Benefits:

- Easy location of populated mounting plates
- Tool-free mounting on the mounting plate
- Loop function for crane use
- No risk of fingers or hands becoming trapped

Technical specifications:

- Load capacity max. 40 kg per cable

Material:

- Lifting rope and loop: Steel
- Handle: Plastic
- Mounting plate adaptor: Die-cast zinc

Colour:

- Handle: Anthracite and Rittal Power pink

Supply includes:

- 1 set $\hat{=}$ 4 lifting aids

Packs of	Model No.
1 pc(s).	4050.140

Drilling template for AX

For precise positioning and support when drilling extra holes in AX enclosures. Designed for steel and stainless steel enclosures.

Applications:

- Universal bracket 2373.000
- Swing frame installation kit 2034.010
- Door stay 1485.100
- 180° hinges 2449.010

Benefits:

- Protects the edge of the enclosure
- No measurement or marking out required
- Avoids scratches and damage to the enclosure surface

Technical specifications:

- For holes \varnothing 4.5 / 5.5 / 6.5 mm

Material:

- Hard plastic

Colour:

- RAL 9005

Width mm	Height mm	Depth mm	Packs of	Model No.
96	30	45	1 pc(s).	4052.500

Hole punching tools

Hydraulic punches

Manual hydraulic punch

For punching round, square and rectangular cut-outs.

Benefits:

- Extend tool life with a built-in overpressure valve

Punching capacity:

- Round punch up to Ø 82 mm
- Square punch up to 68 x 68 mm
- Rectangular punch up to 46 x 86 mm
- Punching force 75 kN
- Max. operating pressure 680 bar/9850 psi

Material:

- Aluminium

Supply includes:

- Manual hydraulic punch
- Hydraulic screw Ø 19 mm
- Hydraulic screw Ø 9.5 / 19 mm
- HSS pilot drill Ø 11 mm
- Spacer sleeve set (3-part)
- Plastic case

Design	Packs of	Model No.

Electric hydraulic punch

For punching round, square and rectangular cut-outs.

Benefits:

- Extend tool life with a built-in overpressure valve
- High-performance drive motor with ergonomically styled handle
- Slide in the battery packs from two sides to balance the weight

Punching capacity:

- Round punch up to Ø 82 mm
- Square punch up to 68 x 68 mm
- Punching force 75 kN
- Max. operating pressure 680 bar/9850 psi

Material:

- Aluminium

Supply includes:

- Electric hydraulic punch with 2 NiMH batteries, 18 V
- Charging device 18 - 28 V
- Hydraulic screw Ø 9.5 / 19 mm
- Hydraulic screw Ø 19 mm
- Spacer sleeve set (3-part)
- HSS pilot drill Ø 11 mm

Hole punching tools

Hydraulic punches

Manual hydraulic punch set, M16 - M63

Manual hydraulic punch in a practical set with hole punches for sheet steel. Maximum machinable material thickness 2 or 3 mm.

Benefits:

- Extend tool life with a built-in overpressure valve

Supply includes:

- Manual hydraulic punch, straight
- 7 splitter hole punches, triple splitting
- Hydraulic screw Ø 19 mm
- Hydraulic screw Ø 9.5 / 19 mm
- HSS pilot drill Ø 10 mm
- Spacer sleeve set (3-part)

Hole punching tools

Hole punches

Hole punch, round

for sheet steel

For punching round cut-outs. The hole punch is operated with a wrench or hydraulic punch.

Design:

- With 3 cutting points

Supply includes:

- Female dies
- Male dies
- Tension screw without ball bearing

Note:

- When operating with wrenches, tension screws with ball bearings should be used
- Other sizes, see splitter hole punch, round, stainless steel

Accessories:

- Tension screw, see page 602
- Hydraulic tension screw, see page 603

Hole punch set, metric

for sheet steel

For punching round cut-outs. The hole punch is operated with a wrench or hydraulic punch.

Design:

- With 3 cutting points

Supply includes:

- 5 female dies
- 5 male dies
- Plastic case

Note:

- When operating with wrenches, tension screws with ball bearings should be used

Accessories:

- Tension screw, see page 602
- Hydraulic tension screw, see page 603

For threads	Ø punch mm	Tension screw with ball bearing Model No.	Hydraulic tension screw Model No.	Maximum machinable material thickness, sheet steel mm	Packs of	Model No.

Hole punch set, PG

for sheet steel

For punching round cut-outs. The hole punch is operated with a wrench or hydraulic punch.

Design:

- With 3 cutting points

Supply includes:

- 5 female dies
- 5 male dies
- 2 tension screws with ball bearing Ø 9.5 x 50 mm
- HSS pilot drill Ø 11 mm
- 1 tube of lubricant paste
- Plastic case

Note:

- When operating with wrenches, tension screws with ball bearings should be used

Accessories:

- Hydraulic tension screw, see page 603

Notching pliers

Punches slots quickly and easily. Saves the time-consuming process of filing the grooves for anti-twist protection of push buttons, switches and instruments. Slots in sizes 3.2 mm and 4.8 mm can be created.

Benefits:

- Long service life
- Male and female die made from hardened tool steel
- Easy punching with large leverage

Material:

- Handles: Plastic-coated

Maximum machinable material thickness, sheet steel mm	Packs of	Model No.
2	1 pc(s).	4055.690

Wiring duct cutter MC 125

For manual cutting of wiring ducts, with adjustable length end stop for the machined material. Anodised contact surface with laser-engraved calibration in millimetres and inches. Integral finger guard ensures safe machining. Intended for mounting on a workbench.

Benefits:

- Enables inexpensive manual cutting of wiring ducts
- Easier for cutting wiring ducts to length compared to sawing by hand

Machinable material:

- Plastic

Model No.	Packs of	4050.435	Page
Footprint size (W x H x D) mm		1332 x 798 x 405	
Max. machinable width of cable duct mm		125	
Max. machinable wall thickness of cable duct mm		2.5	
Max. insertion height mm		28	
Weight kg		15.0	
Accessories			
Spare blade MC 125	1 pc(s).	4050.436	

Support rail cutter MC3

Support rails Page 996 **Mounting angles** Page 996

Manual profile cutter for cutting C rails 30/15 and support rails TS 35/7.5 and TS 35/15 to length, burr-free. The desired rail length is set precisely and reproducibly using the ruler (mm/inch) and the adjustable end stop. For mounting on the workbench.

Benefits:

- Inexpensive manual cutting of mounting angles and support rails

- Easier to cut mounting angles and support rails to the correct length than sawing by hand
- Burr-free cutting to length with eccentric lever, no major force required
- Low-maintenance and with a long service life

Machinable material:

- Sheet steel
- Aluminium
- Copper

Model No.	Packs of	4050.437	Page

Assembly frames and LT 1000 storage and transport trolley

We have the perfect ergonomic solution for you, particularly when it comes to the automation and rationalisation of every stage of the enclosure machining, assembly, wiring and testing process. Our assembly frames are mobile, tiltable and (depending on the version) height-adjustable for machining mounting plates and enclosures. All types offer simple, variable fixing of mounting plates using quick-release fasteners, are independent from the mains power, and take up minimal space when not in use. For easier handling of enclosure panels, we also offer the storage and transport trolley LT 1000.

- Tilt-adjustable and optionally height-adjustable for ergonomic, effective, time-saving construction, wiring and testing of mounting plates or complete enclosures

Numerous adaptation options available:

- Widening to a maximum of 1900 mm
- Wire routing
- Wire reel holder

More options, see brochure "Rittal Automation Systems – Automate your panel building and switchgear manufacturing", from page 58

- Individually adjustable thanks to height-adjustable supports

- Four castors including total lock function ensure simple handling

- Eight wide fan sections for effortless storage and transportation of enclosure panels
- User-friendly transportation through the workshop on castors

Accessories Page 608

The assembly frames are mobile, tiltable and (depending on the version) height-adjustable frames for assembling plates and enclosures.

Benefits:

- For ergonomic, back-friendly working
- Individually positionable in the workshop, as it is independent from the power network
- Minimum space requirements during non-use
- Simple handling due to four castors including total lock function
- Variable fixing of mounting plates with a quick-release fastener

Technical specifications:

- Tilt adjustment approx. 0 – 80°

Supply includes:

- Assembly frame
 - 1 clamping unit pack, bottom
 - 1 clamping unit pack, top
- Please observe the product-specific scope of supply.

Note:

- With the assembly frame extension, a maximum machining area of 1900 x 1900 mm can be achieved

Accessories

for assembly frame

Extension

for assembly frame

For widening assembly frames 150 MN, 200 EN, 300 ENH to a maximum width of 1900 mm.

Supply includes:

- Extension
- Assembly parts

To fit Model No.	Packs of	Model No.
4050.150/4050.200/ 4050.300/4051.100	1 pc(s).	4050.210

Enclosure set

for assembly frame

For secure attachment of an enclosure such as AX to assembly frame 150 MN, 200 EN, 300 ENH.

Supply includes:

- Packs of 2

To fit Model No.	Packs of	Model No.
4050.150/ 4050.200/ 4050.300	1 pc(s).	4050.211

Wire routing

for assembly frame

For user-friendly handling of wires on assembly frame 150 MN, 200 EN, 300 ENH.

To fit Model No.	Packs of	Model No.
4050.150/ 4050.200/ 4050.300	1 pc(s).	4050.212

Clamping unit

for assembly frame

For secure attachment of a mounting plate onto the assembly frames 150 MN, 200 EN and 300 ENH.

To fit Model No.	For	Design	Product-specific scope of supply	Packs of	Model No.
4050.150/ 4050.200/ 4050.300	Mounting plate VX/SE	Top	1 clamping unit pack, top	2 pc(s).	4050.213
4050.150/ 4050.200/ 4050.300	Mounting plate VX/SE	Bottom	1 clamping unit pack, bottom	2 pc(s).	4050.214

Accessories

for assembly frame

Wire reel holder

for assembly frame

For adapting wire reels or drums on assembly frames 150 MN, 200 EN and 300 ENH.

To fit Model No.	Packs of	Model No.
4050.150/ 4050.200/ 4050.300/ 4051.100	1 pc(s).	4050.216

Spare battery

for assembly frame

Battery to fit electrical tilt/height adjuster for assembly frame 200 EN, 300 ENH.

To fit Model No.	Packs of	Model No.
4050.200/ 4050.300	1 pc(s).	4050.217

Screw adaptor

for spindle hoist

For operating the assembly frame spindle drive using a cordless screwdriver. To fit assembly frame 150 MN.

To fit Model No.	Packs of	Model No.
4050.150	1 pc(s).	4050.218

Roller conveyor

for assembly frame

For inserting the mounting plate sideways into the enclosure. To fit assembly frame 300 ENH.

To fit Model No.	Packs of	Model No.
4050.300	1 pc(s).	4050.220

Accessories

for assembly frame

Set of brackets

for assembly frame

For secure attachment of a mounting plate onto the assembly frames 150 MN, 200 EN, 300 ENH.

Supply includes:

- 4 cover caps
- 12 handles
- 2 holders
- 16 washers
- 12 sliding blocks

To fit Model No.	For	Packs of	Model No.
4050.150/ 4050.200/ 4050.300	Mounting plate AX	1 pc(s).	4050.221

Voltage supply

for assembly frame

Charging station power pack for assembly frame 200 EN and 300 ENH.

To fit Model No.	Suitable for rated operating voltage	Packs of	Model No.
4050.200/ 4050.300	110 V	1 pc(s).	4050.219

Also required:

- Connection adaptor, see page 610

Connection adaptor

for voltage supply

Adaptor connector for the power supply to assembly frames 200 EN and 300 ENH.

Design:

- USA, Canada, Central and South America, Japan

To fit Model No.	Packs of	Model No.
4050.200/4050.300	1 pc(s).	4050.222

Also required:

- Voltage supply, see page 610

Storage and transport trolley LT 1000

The LT 1000 warehouse and transport trolley is used for storage and order picking, and ensures easy handling of enclosure panels such as mounting plates, enclosure doors, side panels and rear panels.

Design:

- 2 fan supports each with 8 slots, distance between tubes 100 mm

Benefits:

- Individually adjustable thanks to height-adjustable supports

- Effortless storage and transportation of enclosure panels
- User-friendly transportation on industrial castors
- Fan support, powder-coated, protects enclosure panels such as doors, side panels etc. from scratches and damage

Material:

- Base plate: Plastic
- Fan support: Steel, powder-coated

Model No.	Packs of	4050.000	Page
Transport dimensions (W x H x D) mm		1000 x 1500 x 1000	
Load capacity kg		500	
Weight kg		122.0	

Functional trolley

The functional trolley is a veritable multi-talent: Whether for transporting materials and tools to the installation site or for commissioning, the functional trolley is perfectly suited for assembly technicians and service personnel. The sophisticated fold-out concept is the ideal solution when you are on the road, and its compact dimensions mean that it can be conveniently transported by car.

Folds together for space-saving transportation

Handcart function

Integral folding chair, e.g. for programming work during commissioning

- Made from V2A stainless steel for robustness and durability

- Computer mouse-friendly surface

- Converts from a transport function to a practical desk by simply unfolding

Functional trolley

Whether for transporting essential materials and tools to the installation site or for commissioning, the functional trolley's fold-out system is the ideal solution for assembly technicians and service personnel.

Benefits:

- Table surface suitable for computer mouse
- Converts from its transport function to a practical desk by simply unfolding
- High level of resilience and robustness

Material:

- Functional trolley: Stainless steel 1.4301 (AISI 304)
- Work surface: Plastic coating
- Seat surface: Woven polyester fabric, coated in PVC

Load capacity:

- Handcart (max. 20 kg)
- Table (max. 30 kg)
- Folding chair (max. 100 kg)

Supply includes:

- Functional trolley
- Folding chair

Model No.	Packs of	4050.130	Page
Transport dimensions (W x H x D) mm		610 x 1000 x 85	
Handcart dimensions (W x H x D) mm		300 x 610 x 1000	
Table dimensions (W x H x D) mm		1290 x 780 x 610	
Weight kg		20.0	

Smart Lifter enclosure lifting and transportation device

Enclosure logistics made easy: the Smart Lifter allows populated and bayed enclosures up to a maximum weight of 1.8 t and a length of 4.8 m to be safely and easily transported. The height adjuster with torque drive can lift to a height of 230 mm, allowing operators to fit the base/plinth and lower onto pallets or square timbers. By using the torque cranks, the entire system can be gently lowered into place.

- The steering system with heavy-duty castors allows smooth relocation of the enclosure suite, and even rotation on the spot

- Lift function with torque crank handle allows the bayed enclosures to be gently raised and lowered

- Simple, safe relocation of the support points with a lock system makes the Smart Lifter a universal lifting tool for different enclosure depths

- Height adjustment with a lift of 230 mm allows easier fitting of the base/plinth to enclosures

The Smart Lifter is your flexible, mobile transport system for switchgear manufacturers, logistics specialists and service teams. The Smart Lifter is distinguished by its versatility and industrial design with built-in torque crank handle to protect employees from incorrect operation.

The belt and double-bit key are stored outside of the work zone

The torque crank handle allows bayed enclosures to be raised and lowered with minimal force

Steering system for easy manoeuvring

Simple base/plinth mounting with lift function up to 230 mm

The pick-up forks for different enclosure depths are easily adjusted

Transportation of enclosures in various lengths, depths and weights

Automation Systems

Smart Lifter

Lifting and transport device for enclosures and enclosure suites up to 4.80 m length.

Benefits:

- Supports simple mounting of base/plinths beneath enclosures
- Easy transportation of bayed enclosures in the workshop or at the installation site
- Flexible use for enclosures of different depths, thanks to adjustable forks
- Ergonomic working (lifting and lowering) with a torque crank

Functions:

- Transportation of bayed enclosures up to a length of 4.80 m
- Lifting of bayed enclosures up to a height of 230 mm and a weight of 1800 kg

Technical specifications:

- Dimensions per trolley (W x H x D): 750 x 1100 x 400 mm

Supply includes:

- 2 transport trolleys

Model No.		4050.005	Page
Load capacity kg		1800	
Weight kg		70.0	

Boost efficiency, cut costs

The digital twin engineered using Eplan software tools links together all downstream processes in panel building and switchgear manufacturing 4.0.

Cutting

Panel Modification

Terminal Strip Assembly

Wire Fabrication

Wiring

Smart Wiring [↗](#)

The browser-based EPLAN Smart Wiring solution supplies all wiring data in a 100% digital form and visualises your wiring in 3D. Users benefit from a significant reduction in errors and substantial time savings. A digital twin of the enclosure also contains all the information needed for wiring enclosures. See page 32.

Wire Station WS 540 wiring workstation

For flexible, efficient wire assembly and wiring work in the workshop. The wiring workstation is the ideal interface between the fully automated production of wires with the Rittal Wire Terminal and wiring work on mounting plates or in the enclosure. The Wire Station WS 540 is an ergonomic process optimiser for use with all wiring-related activities.

- Universal accessories tailored to the application, such as component supports for semi-automatic machines
- Optional workstation add-ons help to boost flexibility and efficiency in essential manual process stages

EPLAN Smart Wiring: Wiring made easy

- Using data from the Digital Twin
- Wire lists with filter function
- Visualisation of cable routes
- Wiring plan revision management

- Stocking and processing of pre-produced wires from the Rittal Wire Terminal
- Complete project handling with variable arrangement of the wire magazines directly at the workstation

Wire management, stocking and production

- Automatic cutting with the Rittal C8+ length-cutting machine accelerates and streamlines the manual wiring process

Wire Terminal WT fully automated wire processing machine
Fully automated wire processing with patented ordering system, see page 656

Rittal assembly frames
Flexible, straightforward handling in the workshop. Ergonomically adjustable assembly frames for building and wiring enclosures and mounting plates, see page 606

With the complete modular system surrounding the WS 540, your workstation can be functionally adapted to suit individual panel building and switchgear manufacturing requirements. Assistance is at hand for process-optimised project handling with EPLAN Smart Wiring, the Rittal length-cutting, insulation-stripping and crimping machines, and label printers. Another modular element to boost efficiency in modern panel building and switchgear manufacturing.

Optional monitor support

Integral scale and electrically adjustable operating height

Optional tool/drinks holder

Optional Mini-PC holder

Optional wire routing for up to 8 different wires

Integral socket strip

Integral shadow board to fit Rittal tools such as screwdrivers, side cutters, crimping tools etc., see page 566

To fit the following products:

- 4052.058, 4052.141
- 4052.101, 4052.142
- 4052.102, 4054.002
- 4052.104, 4054.004
- 4052.106, 4054.141
- 4052.107, 4054.300
- 4052.121, 4054.410
- 4052.122, 4054.600
- 4052.131, 4054.750
- 4052.132, 4054.850

Wire Station WS 540

Accessories for Wire Station WS 540 Page 621 **Length-cutting machine C8+** Page 632 **Crimping machines** From page 634

Mobile wiring workstation, height-adjustable, for flexible use in the workshop. For ergonomic, fatigue-free wire processing work.

Benefits:

- Electronically adjustable desk for the optimum working height, adjustable from 710 – 1250 mm
- Multiplex worktop, washable and scratch-resistant
- Ideal solution in conjunction with the length-cutting and crimping machines plus pre-assembled wires with the Wire Terminal

- Integral scale for quick manual measurements
- Prepared to accommodate a monitor for wire processing with EPLAN Smart Wiring
- Optionally expandable with shelves for wire boxes, wire reels and holders for tools and small parts
- For flexible use in the workshop thanks to rubberised wheels
- Drawer with shadow board prepared for tools

Supply includes:

- Wiring table with electrical height adjuster
- Connection cable, 7 m
- 7-way socket strip, with rocker switch

Note:

- The vertical mounting braces, Model No. 4051.106, are required for accessories such as storage box holders, magazine supports etc.

Accessories

for Wire Station WS 540

Shelf

for WS 540

Shelf set for mounting below the desktop. Different shelf depths provide ample knee and leg room for seated working at the workstation.

Benefits:

- For optimum use of the space beneath the desktop without restricting legroom
- Tool-free mounting of the shelves by simply hanging in place

Technical specifications:

- Top shelf (W x D): 510 x 335 mm
- Bottom shelf (W x D): 510 x 200 mm

Material:

- Sheet steel

Colour:

- RAL 7016

Supply includes:

- 2 shelves

Packs of	Model No.
2 pc(s).	4051.101

Component support, left

for WS 540

Component support unit to fit length-cutting machine C8+ and an additional shelf to accommodate most common label printer brands. Mounted on the left of the WS 540 Wire Station.

Benefits:

- Additional shelf for universal use
- Compact external mounting
- Flexibly adjustable in the width and height

Technical specifications:

- Component support (W x H x D): 360 x 335 x 20 mm, including height adjustment of 480 mm
- Support arm (W x H): 500 x 700 mm
- Shelf (W x H x D): 417 x 267 x 20 mm

Material:

- Sheet steel

Colour:

- RAL 7016

Supply includes:

- Component support for the C8+ length-cutting machine
- Semi-automated machine support arm, left
- Universal shelf for printer/label printer
- Assembly parts

Packs of	Model No.
1 pc(s).	4051.102

Accessories

for Wire Station WS 540

Component support, right for WS 540

Component support unit to fit crimping machine RC or R8 E, for mounting on the right of the Wire Station WS 540.

Benefits:

- Compact external mounting
- Flexibly adjustable in the width and height

Technical specifications:

- Component support (W x H x D): 318 x 313 x 20 mm, including conduit for height adjustment of 480 mm
- Support arm (W x H): 500 x 700 mm

Material:

- Sheet steel

Colour:

- RAL 7016

Supply includes:

- Component support for crimping machines
- Semi-automated machine support arm, right
- Assembly parts

Packs of	Model No.
1 pc(s).	4051.103

Monitor attachment for WS 540

For mounting all commercially available monitors up to screen diagonals of 32" with Vesa 75/100.

Benefits:

- Stable monitor attachment
- Vertically hinged
- Height-adjustable

Technical specifications:

- Height-adjustable up to 285 mm
- Extendable up to 430 mm
- Swivel range left/right with full extension 90°
- Swivel range of ball head 35° all-round
- Vesa 75/100

Material:

- Aluminium/sheet steel

Supply includes:

- Monitor attachment
- Assembly parts

Approvals:

- GS-tested

Load capacity max. kg	Packs of	Model No.
10	1 pc(s).	4051.104

Accessories

for Wire Station WS 540

LED work light

for WS 540

For attaching to the table top, with clamping device.

Benefits:

- Bright, glare- and flicker-free lighting, homogeneous and shadow-free
- Selectable colour temperature between warm white, neutral white and daylight white promotes concentration and reduces symptoms of fatigue
- Excellent colour fidelity and high contrast
- Aluminium spring arm with 3D head joint, swivelling and lockable for free positioning of the light source

Technical specifications:

- Spring arm: Length 970 mm
- Colour reproduction: 94 – 98 Ra
- Transmission angle: 100°

Material:

- Light housing: Aluminium
- Glare control: Macrolon

Protection category IP to IEC 60 529:

- IP 40

Protection class:

- III (SELV)

Supply includes:

- LED work light
- Assembly parts

Mounting braces, vertical

for WS 540

For optional attachment of accessories such as wire pack holders, open-fronted storage boxes and shelves.

Benefits:

- Individual and functional configuration with component supports, storage box holders, consoles, wire pack holders, etc.
- Simple screw-fastening of accessories
- Individual height adjustment of the accessories with a rail system

Technical specifications:

- Dimensions (W x H x D): 85 x 1350 x 50 mm

Material:

- Sheet steel

Colour:

- RAL 7016

Packs of	Model No.
1 pc(s).	4051.106

Accessories

for Wire Station WS 540

Storage box holder

for WS 540

For fastening to the vertical mounting braces of the WS 540 and for storing small parts and accessories.

Technical specifications:

- Dimensions of storage box holder (W x H x D): 110 x 350 x 15 mm
- Dimensions of open-fronted storage box (W x H x D): 100 x 85 x 160 mm

Material:

- Support: Sheet steel
- Open-fronted storage boxes: Plastic

Colour:

- Support: RAL 7016
- Open-fronted storage boxes: Yellow

Supply includes:

- Storage box holder
- 3 open-fronted storage boxes
- Assembly parts

Packs of	Model No.
1 pc(s).	4051.107

Also required:

- Mounting braces, vertical, see page 623

Adaptor bracket

for WS 540

For individual configuration and enlargement of the WS 540. The adaptor bracket is required for mounting additional vertical mounting braces and supports a range of width settings from 50 – 400 mm.

Technical specifications:

- Side dimensions (W x H): 483 x 383 mm

Material:

- Sheet steel

Colour:

- RAL 7016

Packs of	Model No.
1 pc(s).	4051.108

Also required:

- Mounting braces, vertical, see page 623

Waste bin

for WS 540

For waste disposal directly at the workstation.

Benefits:

- Front mounting without impairing legroom

Technical specifications:

- Dimensions (W x H x D): 150 x 290 x 320 mm
- Capacity: 12 litres

Material:

- Plastic

Colour:

- Dark grey

Supply includes:

- Waste bin
- Bracket
- Assembly parts

Packs of	Model No.
1 pc(s).	4051.115

Accessories

for Wire Station WS 540

Socket strip

for WS 540

For mounting on the worktop of the WS 540.

Design:

- 5-way, with rocker switch (green)

Benefits:

- Ergonomic access thanks to the 45° angle on the worktop

Material:

- Extrusion: Aluminium
- Socket inserts: Plastic

Supply includes:

- Socket strip, connection cable and earthing contact plug
- Assembly parts

Electrical connection V, Hz	Rated current A	Packs of	Model No.
230, 50	16	1 pc(s).	4051.114

Magazine support

for WS 540

To accommodate up to 4 wire rail magazines with pre-assembled wires from the Wire Terminal WT.

Benefits:

- For universal use on any mounting brace, vertical

Technical specifications:

- Dimensions (W x H x D): 330 x 200 x 35 mm

Material:

- Sheet steel

Colour:

- RAL 7016

Supply includes:

- Magazine support
- Assembly parts

Packs of	Model No.
1 pc(s).	4051.111

Also required:

- Mounting braces, vertical, see page 623

Wire routing for mounting braces, vertical

for WS 540

Targeted wire routing for up to 8 different wires is supported. Mounting on the vertical mounting braces.

Benefits:

- Individually height-adjustable on the mounting brace
- Optimum running characteristics of the wires

Technical specifications:

- Dimensions (W x H x D): 130 x 263 x 322 mm
- Depth adjustment directly at the wire guide up to 100 mm
- Wire routing from 0.5 – 2.5 mm² supported

Material:

- Holder: Sheet steel
- Reel and wire guide: Plastic

Packs of	Model No.
1 pc(s).	4051.120

Also required:

- Mounting braces, vertical, see page 623

Accessories

for Wire Station WS 540

Wire routing for component support, left

for WS 540

Targeted wire routing for up to 8 different wires is supported. For mounting on the component support, left.

Benefits:

- Optimum wire routing to the C8+ length-cutting centre
- Optimum running characteristics of the wires

Technical specifications:

- Dimensions (W x H x D): 129 x 190 x 169 mm
- Wire routing from 0.5 – 2.5 mm² supported

Material:

- Holder: Sheet steel
- Reel and wire guide: Plastic

Packs of	Model No.
1 pc(s).	4051.121

Also required:

- Component support, left, see page 621

Wire pack holder

Shelf for wire packs, to fit assembly frames and WS 540. Attached to the Wire Station on the vertical mounting braces on the left or right.

Technical specifications:

- Dimensions of wire pack holder (W x H x D): 207 x 105 x 207 mm
- Storage space to fit wire packs up to a maximum size of 207 x 207 mm

Material:

- Sheet steel

Colour:

- RAL 7016

Supply includes:

- Wire pack holder
- Assembly parts

To fit Model No.	Design	Packs of	Model No.

Tool holder, round

for WS 540

For safe storage of hand-held devices or drinks. The tool holder is secured to the desktop.

Applications:

- Holder for hand tools such as cordless screwdrivers, hot-air dryers or beverage bottles
- For hand-held tools up to 80 mm in diameter

Technical specifications:

- Dimensions (W x H x D): 140 x 87 x 200 mm

Material:

- Sheet steel

Colour:

- RAL 7016

Supply includes:

- Tool holder, round
- Assembly parts

Packs of	Model No.
1 pc(s).	4051.113

Accessories

for Wire Station WS 540

Stripping machine console for WS 540

For positioning the S22 stripping machine on the WS 540. The console may be positioned on either the left or right.

Technical specifications:

- Console area (W x D): 278 x 178 mm
- Height-adjustable up to 480 mm

Material:

- Sheet steel

Colour:

- RAL 7016

Packs of	Model No.
1 pc(s).	4051.112

 **Assembly instruction:**

- The stripping machine console is also suitable for component supports 4051.102 and 4051.103

Universal utility shelf for WS 540

Universal utility shelf for mounting on the vertical mounting braces of the WS 540. Storage for tools or small parts.

Technical specifications:

- Dimensions (W x H x D): 130 x 15 x 190 mm

Material:

- Sheet steel

Colour:

- RAL 7016

Supply includes:

- Universal utility shelf
- Assembly parts

Packs of	Model No.
1 pc(s).	4051.109

 **Also required:**

- Mounting braces, vertical, see page 623

Mini-PC holder for WS 540

For secure attachment of a mini-PC to the WS 540. The holder is mounted underneath the workbench on the left.

Technical specifications:

- Dimensions (W x H x D): 70 x 235 x 200 mm
- Individually adjustable up to 60 mm

Material:

- Sheet steel

Colour:

- RAL 7016

Supply includes:

- Mini-PC holder
- Assembly parts

Packs of	Model No.
1 pc(s).	4051.110

Length-cutting machine C8+ and stripping machine S22

The length-cutting machine C8+ makes work processes more efficient by cutting wires up to 8 mm diameter or 10 mm² cross-section to individually set lengths. Cutting orders can also be managed, documented and transmitted to the length-cutting machine C8+ from a PC or CAE data interface (EPLAN Pro Panel) via USB. In this way, the C8+ length-cutting machine additionally supports the cable labelling and wiring process by displaying the source/target code.

The stripping machine S22 is electrically powered for accurate, careful stripping of the insulation from your wires.

Stripping and crimping machine R8 E

The electrically driven R8 E crimping machine processes insulated wire end ferrules and standard PVC cables in cross-sections ranging from 0.5 to 2.5 mm² (AWG 20 – 14) with a crimping length of 8 mm. For flexible use in the workshop, all you need is a power connection. The machine guarantees UL-certified crimping in conjunction with wire end ferrules from Rittal.

- Holder for taped wire end ferrules on a reel

R8 E

insert
wire

- Easy replacement of consumables
- Simple adjustment
- Flexible use in the workshop

Stripping and crimping machines L8 and RC

Electro-pneumatically driven wire-stripping and crimping machines for safe, fast processing of insulated wire end ferrules. The particular feature of our electro-pneumatic crimping machines is their fully automated detection of the wire cross-section and processing of the wire end ferrules. No tool changes are required. Linear adjustment of the blades and the high forces generated by the pneumatic crimping unit support the processing of all standard cables as well as special ferrules (AWG) in the application range from 0.5 to 2.5 mm² (AWG 20 – 14) with a crimping length of 8 mm. The integrated daily unit counter provides a continuous overview of your project quantities.

The crimping machine RC is suitable for processing wire end ferrules in 8 mm and 10 mm lengths with labelling on the underside. The 5-way holder eliminates the need to switch between wire end ferrules for different cross-sections.

Note:

The wire end ferrules shown here are not included with the supply.

Length-cutting machine C8+

Semi-automated machine for cutting wires to an individually adjustable length.

Design:

- With command panel
- Stop & go function

Benefits:

- User-friendly operation
- Simple insertion of the wires
- Simple opening of the feed rollers
- PC compatible
- Length-cutting with interface to CAE data supported
- Supports the process of labelling cables by showing the connection point on the display
- Simply transmit projects and orders to length-cutting machine C8+

Technical specifications:

- Fine-wire strand 0.08 - 10 mm² (AWG 28 - 8)
- Single-wire strand 0.08 - 2.5 mm² (AWG 28 - 14)
- For wire lengths 1 - 99999 mm
- Feed rate 0 - 1.5 m/s
- Controllable pressing force of the feed rollers
- DC servo-drive
- Insertion length 27 mm (1.06 in.)

Supply includes:

- Length-cutting machine C8+
- Connection cable with connector
- Software connection, CAE data
- Installation CD

Model No.	Packs of	4050.455	Page
Machine dimensions (W x H x D) mm		380 x 470 x 360	
Cycle time s		< 2	
Electrical connection V, ~, Hz		100 - 240, 1~, 50	
Apparent power VA		240	
Interfaces		EPLAN Pro Panel CAE data	
Weight kg		20.0	
Accessories			
Wire dispenser	1 pc(s).	4050.463	637

Stripping machine S22

Semi-automated machine for stripping wires of varying cross-section ranges.

Design:

- Touchscreen display
- Integral counter (total quantity)
- Integral counter (daily quantity)
- Linear adjustment of the wire stripping length

Benefits:

- Cross-section is easily set using the rotary knob
- Simple insertion of the wires
- User-friendly operation

Technical specifications:

- Electrically powered
- Wire stripping range 0.05 - 6 mm² (AWG 30 - 10)
- Insulation stripping length 3 - 20 mm (0.12 - 0.79 in.)
- Draw-off length 3 - 20 mm (0.12 - 0.79 in.)
- Insertion length 22 mm (0.87 in.)

Supply includes:

- Stripping machine S22
- Special funnel for inserting thin conductors
- Spare blades

Model No.	Packs of	4050.451	Page
Machine dimensions (W x H x D) mm		190 x 190 x 295	
Cycle time s		0.5	
Electrical connection V, ~, Hz		100 - 240, 1~, 50/60	
Apparent power VA		70	
Weight kg		7.5	

Crimping machine R8 E

Wire end ferrules Page 578

Electrically powered wire stripping and crimping machine for taped wire end ferrules on a reel.

Design:

- Touchscreen display

Benefits:

- Easy to operate
- Fast adjustment
- Flexible use in the workshop
- Rapid replacement of consumables

Technical specifications:

- Crimping range 0.5 - 2.5 mm² (AWG 20 - 14)
- Crimping length 8 mm (0.31 in.)
- Insertion length 40 mm (1.57 in.)

Note:

- The standard crimping form is trapezoid – others available on request

Model No.	Packs of	4050.454	Page
Machine dimensions (W x H x D) mm		288 x 230 x 345	
Cycle time s		1.8	
Compression		Trapezoid crimp	
Electrical connection V, ~, Hz		100 - 240, 1~, 50/60

Wire end ferrules		see page	578

Crimping machine L8

Wire end ferrules Page 578

Electro-pneumatically driven wire stripping and crimping centre for loose, insulated wire end ferrules.

Design:

- Touchscreen display

Benefits:

- Easy to operate
- Secure, fast processing of insulated wire end ferrules
- No set-up time, thanks to automatic tool change
- Handling of special wires supported
- Simple, quick component mounting
- Automatic detection of cross-sections

Technical specifications:

- Crimping range 0.5 - 2.5 mm² (AWG 20 - 14)
- Crimping length 8 mm (0.31 in.)
- Insertion length 35 mm (1.38 in.)
- Processing of wire end ferrules with plastic collars in special sizes supported

Supply includes:

- Crimping machine L8
- 1 oscillating conveyor 0.5 - 1.5 mm²
- 1 oscillating conveyor 1.5 - 2.5 mm²

Note:

- The standard crimping form is trapezoid – others available on request

Model No.	Packs of	4050.452	Page
Machine dimensions (W x H x D) mm		390 x 460 x 330	
Cycle time s		1.5	
Compression		Trapezoid crimp	
Electrical connection V, ~, Hz		100 - 240, 1~, 50/60

Compressed air connection bar		5.5	
Weight kg		31.0	
Accessories			
Oscillating conveyor		see page	637
Wire end ferrules		see page	581

Crimping machine RC

Wire end ferrules Page 578

Electropneumatic crimping machine with 5-way magazine for processing insulated wire end ferrules on a reel.

Design:

- Touchscreen display
- Select the wire cross-section via touchscreen
- Support may be fitted with a maximum of 23,000 wire end ferrules

Benefits:

- Easy to operate
- Secure, fast processing of insulated wire end ferrules
- No set-up time, thanks to automatic tool change
- Simple, quick component mounting
- No changing of the wire end ferrules required due to 5-way magazine

Technical specifications:

- Crimping range 0.5 - 2.5 mm² (AWG 20 - 14)
- Crimping length 8 and 10 mm
- Insertion length 27 mm (1.06 in.)

Note:

- The standard crimping form is trapezoid – others available on request

Model No.	Packs of	4050.456	Page
Machine dimensions (W x H x D) mm		335 x 565 x 485	
Cycle time s		< 2

Wire end ferrules		see page	578

Accessories

for wire processing machines

Oscillating conveyor

for crimping machine L8

Feed guide for loose wire end ferrules.

Benefits:

- Accurate, careful feeding of wire end ferrules

To fit Model No.	Application	Packs of	Model No.
4050.452	For loose wire end ferrules with cross-section 0.5 – 1.5 mm ²	1 pc(s).	4050.467
4050.452	For loose wire end ferrules with cross-section 1.5 – 2.5 mm ²	1 pc(s).	4050.468

Wire dispenser

for length-cutting machine

Dispensing device for the infeed of conductors. Suitable for conductors on cable coils or from boxes.

Benefits:

- Convenient removal and dispensing of cables and wires

Technical specifications:

- Cable coil diameter ≤ 300 mm (≤ 11.8 in.)
- Cable coil width ≤ 200 mm (≤ 7.9 in.)
- Clamping cone 15 - 23 mm (0.59 - 0.91 in.)
- Box dimensions 240 x 250 x 150 mm (9.45 x 9.84 x 5.9 in.)

Packs of	Model No.
1 pc(s).	4050.463

Busbar machining, static CW 120-S

The units in the CW 120-S product series are ideal for bending, punching and cutting busbars. The integral precision laser facilitates the cutting and bending process.

Electro-hydraulic pump

- To operate products in the CW 120-S product series.

Busbar cutting unit

- Time savings compared to manual cutting
- Precise marking of the cutting point

Busbar bending and hole-punching unit

- Simple tool changes
- High level of bending and punching accuracy
- Independent busbar machining

Machining examples for the CW 120-S

Punching

Cutting a busbar to length

Bending a busbar

Busbar machining, mobile CW 120-M

The Copper Workstation CW 120-M is ideal for bending, punching and cutting busbars. It supports cutting and bending up to a maximum width of 120 mm and a maximum thickness of 12 mm. The integral precision laser facilitates the cutting and bending process. Generally speaking, round holes with a diameter of 6.6 to 21.5 mm and slots up to a maximum width of 18 mm and a length of 21 mm may be punched.

Machining examples for the CW 120-M

Cutting busbars to length with integral precision laser

Bending busbars

Punching busbars, pull-out measurement system

Making cut-outs in steel and stainless steel (accessories, hydraulic hose and cylinder, see page 645)

Busbar bending and hole-punching unit CW 120-S

Female dies Page 643 **Male dies** Page 643 **Accessories** Page 644

The bending and hole-punching unit in the CW 120-S product series is ideal for bending and punching busbars. Round holes and slots may be punched. The bending and hole-punching unit is easily positioned on a workbench.

Design:

- Electric protractor
- Length stop
- Mandrel R10
- Bending die
- Laser pointer (auxiliary laser), beam power laser class 1

Benefits:

- High level of bending and punching accuracy
- Simple tool changes

Machinable material:

- Copper
- Aluminium

Note:

- With a Z bend, the length of the short side depends on the material thickness

Model No.	Packs of	4055.700	Page
Machine dimensions (W x H x D) mm		700 x 410 x 461

Busbar machining CW 120-M

Female dies Page 643 **Male dies** Page 643 **Accessories** Page 644

The mobile product solution for busbar machining is ideal for the precise, fast and ergonomic bending, punching and cutting of busbars directly at your workstation. The integral precision laser facilitates the cutting and bending process.

Design:

- Electric protractor
- Mandrel R10
- Bending die
- External 230 V power inlet
- Pull-out side support extension for long rails
- External hydraulic connection for almost all machining options
- 4 castors (2 lockable)
- Drawer pull-outs
- Integral hydraulic pump
- Laser pointer (auxiliary laser), beam power laser class 1
- Length end stop, pull-out

Benefits:

- High level of bending and punching accuracy
- Simple tool changes
- Flexible use in the workshop

Machinable material:

- Copper
- Aluminium

Supply includes:

- Busbar machining, mobile CW 120-M
- Foot-switch

Note:

- With a Z bend, the length of the short side depends on the material thickness
- For punching, slots of up to a max. of 21 x 18 mm are also supported
- Slot tools available on request
- We reserve the right to make technical modifications

Model No.	Packs of	4055.800	Page
Machine dimensions (W x H x D) mm		1380 x 1270 x 945	
Support surface (W x D) mm		811 x 1211	
Working height mm		974	
Power consumption kW		2.2	
Electrical connection V, Hz		230, 50/60	
Permissible operating pressure (p. max.) bar		700	
Bending (max.) mm		120 x 12

Accessories

for busbar machining CW 120

Hydraulic cylinder

The hydraulic cylinder is ideal for making cut-outs in sheet steel and stainless steel. It is used in conjunction with the hydraulic pump or the CW 120-M.

Design:

- With quick-release coupling

Benefits:

- Flexible use in the workshop
- Ergonomic handling
- Allows you to create cut-outs without the application of force

Machinable material:

- Sheet steel
- Stainless steel

Punching force t	Packs of	Model No.
11	1 pc(s).	4055.806

! Also required:

- Hydraulic hose, see page 645

Hydraulic hose

The hydraulic hose, in combination with the hydraulic cylinder, allows round, square and rectangular cut-outs to be punched in sheet steel and stainless steel. It is used in conjunction with the hydraulic pump or the CW 120-M.

Design:

- Double-walled

Length m	Packs of	Model No.
3	1 pc(s).	4055.807

Ride-up roller for busbars

Ride-up roller for user-friendly handling when cutting busbars to size.

2 pc(s).	4055.714

Boost productivity at every step

Seamless optimisation of all process stages. The efficiency of panel building and switchgear manufacturing is determined by the quality of productivity, as well as all automated and manual work stages. Digitalization supports the ideal workflow, from engineering right through to production.

Machining

- Significant time savings with the Perforex BC milling centre
- High level of precision with the Perforex BC laser centre
- Less wastage with the Secarex AC 18 cutting centre

Component mounting

- Efficient population of terminal blocks on support rails with the Athex TC 80 CS terminal block assembly centre

Wire processing and wiring

- Faster processes, thanks to fully automated wire processing with the Wire Terminal WT

ENCLOSURES

Rittal and EPLAN automate panel building

Alongside the Eplan software tools, Rittal Automation Systems provides a comprehensive range of equipment for professional workshop operation. To accelerate individual production stages, we offer a number of automation concepts which may be cost-effectively adapted to suit individual requirements and different sized companies.

Our product spectrum ranges from manual tools through to fully automated machining centres. Depending on the level of automation, you can reduce machining times, as illustrated by the following case study.

Accelerate processes by boosting the level of automation

Automation Systems

Cutting centre Secarex AC 18

The Secarex cutting centre is convenient to use and cuts wiring ducts, cable duct covers and support rails to length quickly, precisely and reliably. The integral label printer provides project-specific labelling of the support rails and cable trunking. The cutting centre helps to improve quality, optimise cutting waste, lower costs and accelerate the overall process. Investing in a Secarex cutting centre AC 18 for cutting support rails and wiring ducts to size is cost-effective from just 200 enclosures per annum. In this example, the ROI calculation is approximately 3 years.

- Modern operating solution: 18.5" monitor, top-hat rail industrial PC with i3 processor, and keyboard with trackball
- Data is transferred directly from CAE systems (EPLAN Pro Panel) or Perforex workshop programming, or alternatively, dimensions may be entered manually by the operator
- USB interface

- Special equipment: Optional drawer system

- Five DIN rail sizes in one template

Mousepad support, vertically hinged

Machine operation with keyboard and label printing for project-specific allocation of blanks when using cut optimisation

Cut-to-size unit for support rails and wiring ducts

- Safe, two-handed operation for cutting wiring ducts and support rails to size at the push of a button
- Cut optimisation across multiple projects
- Automatic length end stop

Milling centre Perforex BC

Perforex machining centres accelerate your throughput times when machining anything from the smallest enclosures and enclosure panels, right through to large enclosures. The drilling and milling centres in the Perforex BC series allow you to machine any material, including spray-finished sheet and stainless steel as well as aluminium, copper and plastic. The Perforex BC series is characterised by its fast, simple machining. The fully welded machine frame guarantees short throughput times with a consistently high machining quality plus fast, precise and reliable working. A short-term ROI of < 3 years can be achieved from just 150 enclosures per annum.

User-friendly shop-floor programming with central database

- Interface to EPLAN Pro Panel and all common CAD systems
- Processing of the neutral DXF format
- Transfer of configuration data from the Rittal Configuration System (RiCS)

Operational safety

- A light barrier/light array ensures operator safety and correct functioning of the machine
- The machine can be restarted directly after acknowledging the safety function

Performance package

- Faster feed rate for the milling cutter
- Rapid, user-friendly clamping of workpieces
- Dampened vibrations and noise emissions
- Extended tool life
- Shorter processing times

Installation – Maintenance – Servicing

- Short installation and training times
- Maintenance-friendly with easy access
- Global service network

Powerful high-performance spindle

- Up to 23,000 rpm
- Faster processing times
- Higher throughput
- Use of DIN tools and automatic tool checks

Integral swarf extraction in the spindle

- Extraction close to machining
- Less cleaning work
- Fast workpiece changes
- Greater productivity

Laser centre Perforex LC

The 3D laser technology in the Perforex LC is ideally suited for machining stainless steel and sheet steel, as well as powder-coated metals such as enclosure doors, side panels etc. Spray-finished metal parts are cut without any visible paint damage or discolouration, even with delicate contours. What is more, there is no tarnishing of the cut edges when machining stainless steel. It is worth investing in a laser from around 300 enclosures per annum, ideally with a stainless steel proportion of around 30%.

User-friendly shop-floor programming with central database

- Machine operation with 3D visualisation
- Interfaces to EPLAN Pro Panel
- Processing of the neutral DXF format
- Transfer of configuration data from the Rittal Configuration System (RiCS)

Simultaneous machining of five sides

- Less setup time
- Less strain on the operating personnel
- Machining of multiple components in a single operation

Thread tapping option for LC 3030

- Six different thread sizes in the tool magazine
- Automatic change-over of the machine head
- Greater variability in manufacturing

Contactless, low-vibration manufacturing process

- Clean, non-wearing cutting without coolant/lubricant
- Machining speed with stainless steel is several times higher than with conventional milling processes
- No rework required
- Shorter throughput times
- Greater productivity

Simple attachment of enclosures without clamping

- More ergonomic
- Faster population
- Less risk of damage
- Less strain on the operating personnel

Wire Terminal WT fully automated wire processing machine

Component wiring is a time-consuming task, accounting for around 50% of the time in panel building and switchgear manufacturing. The compact Wire Terminal 24 or 36 fully automated wire processing machine ensures efficient, cost-effective wire processing. Up to 36 different wires in cross-sections ranging from 0.5 mm² to 2.5 mm² may be processed fully automatically without retooling. The optional print system prints the wires in black or white, then transfers them to downstream process stages via a controlled ordering system capable of accommodating up to 1800 processed wires. All production data can be read and processed via suitable interfaces. Manual logging of wire lists is likewise supported.

- Integral touch display for data processing

- Label printer for wire magazine identification

Wire storage

The modular, space-saving wire store and wire routing system for the Wire Terminal. Six wire drums are stored on each of the two levels in a space-saving design. Depending on the number of wires used, the fully automatic wire processing machine may be fitted with additional wire stores (central, left, right), each with space for 12 wire containers.

24 or 36 wires

The Wire Terminal may be fitted with wire guides for 24 or 36 wires. Wires are fed in via a 24-/36-wire feed magazine which is horizontally adjustable and controlled via a servo-motor NC axis. Wires are clamped by a spring-assisted clamp which is pneumatically released during the wire feed process.

Wire labelling and processing

To ensure optimum positioning of the origin/destination on the wires, the Wire Terminal may be fitted with black, white or both marking systems. Multiple insulation stripping and crimping machines may also be integrated via an optional lift.

Selection of wire magazines

The pre-processed wires can be sequentially stored in 13 wire rails by cross-section and by other project-specific criteria.

Wire Cart

The optional Wire Cart allows assembled wires to be processed directly at the workstation on a project-specific basis. It can also accommodate tools and provide for adaptation of a monitor. The integral storage system can be used for more wires.

Smart Wiring

EPLAN Smart Wiring is ideal for efficient wire processing.

Design

- For fully automatic processing of wire lists for wire assembly
- Suitable wire stores are selected depending on the number of wires
- When using multiple crimping machines for different cross-sections, the machine may be fitted with a lift option

Benefits

- Processes are 8 times faster, thanks to fully automated wire processing with individual wire printing and order-picking
- Fully interlinked, from the E-CAD tool through to the production processes
- Consistently high quality
- Amortisation period of 2.5 years from a minimum of 300 enclosures per annum

Machinable material

- Fine-wire copper cables to DIN VDE 0295 Category 5

Terminal block assembly centre Athex TC 80 CS

The Athex TC 80 CS terminal block assembly centre handles data from EPLAN Pro Panel or manually configured XML formats. During machining, support rails from the buffer store are measured and automatically cut to size, then marked on the underside with a needle engraver for order-picking / project-planning. In a subsequent operation, the terminals required are either fitted directly on the terminal strip with a gripper system, or optionally labelled with the laser marking system prior to positioning. The finished terminal strip is ejected from the machine via the sorting unit and can be removed. Users with a high volume of terminal blocks (> 760,000 units per annum) will achieve ROI within approximately 4 years.

■ Engraving function for order picking

■ Automated DIN rail infeed

■ System-independent data imports from EPLAN Pro Panel as well as XML formats

Design

- Material store for support rail versions TS 35/7.5 and TS 35/15 to EN 60 715
- Automatic measurement and cutting unit
- Needle marking system for labelling the support rail undersides
- Fully automated gripper system for populating the support rails with terminal blocks
- Laser marking system for labelling the terminals and components
- Sorting and buffer stores for the finished terminal strips

Sorting unit and buffer stores for the finished terminal strips

- Upgradable with up to 80 magazine slots
- Up to 800 terminals per hour (excluding printing)
- Terminal types from all well-known manufacturers may be used

Stocking of up to 80 magazines for terminal blocks, miniature fuse-breakers etc.

Automated terminal block assembly and labelling with a laser marking system

- Labelling during assembly with a laser marking system

SOFTWARE & SERVICES

Industry 4.0 trends

Data processing close to production

More automation, more data

The digital transformation is revolutionising production. To control production in line with Industry 4.0, all components are now inter-linked and communicate with one another: robots, human/machine interfaces, sensors and actuators, machines, tools and control systems. Their values are compared against their digital twin. This generates vast volumes of data.

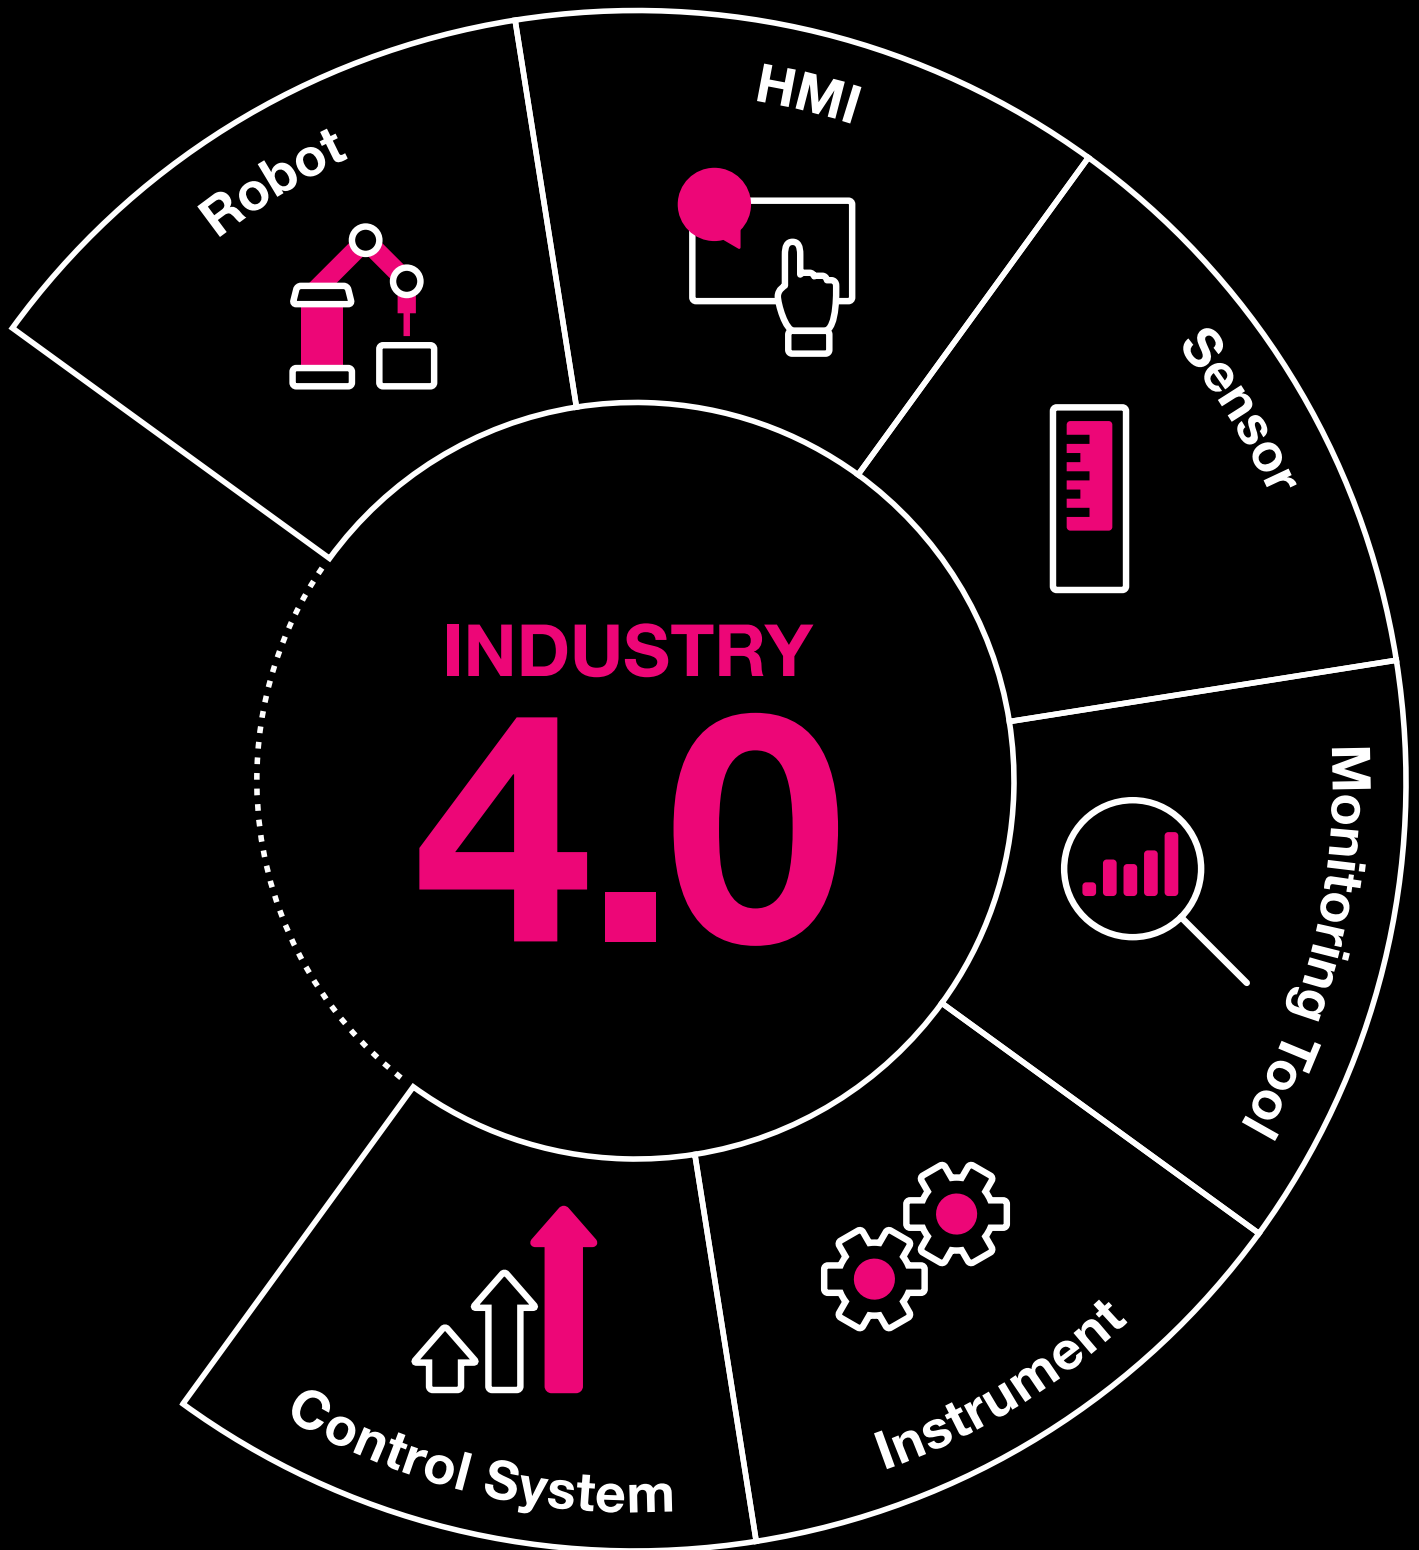

Edge data centres reduce latencies

Large volumes of data generated in the immediate production environment must be processed quickly and reliably. To this end, Rittal offers scalable edge data centres which ensure low latencies, maximum computing power and optimum security.

Private clouds offer security

From the individual sensor to the private cloud: invaluable, success-critical data flows need protective mechanisms to meet escalating security requirements. A combination of edge data centres and private cloud solutions allows customers to decide for themselves who may use their data and to what extent.

RiMatrix Next Generation

Next Generation IT infrastructure platform

Rittal takes its popular RiMatrix IT infrastructure platform to a new dimension with the RiMatrix NG. IT trends indicate we will be facing enormous challenges in the years to come. Digital twins, autonomous things, artificial intelligence, augmented analytics and smart cities are just a few of the buzzwords that will rely on high-performance networks and powerful data centres. RiMatrix NG is the perfect solution for companies worldwide, covering the full spectrum from small individual rack installations to edge, enterprise, colocation and hyper-scale data centres.

Innovative platform

- RiMatrix NG now includes a number of additional key components, such as predefined data centre modules and built-in OCP technology.
- Our ongoing R&D work keeps us up-to-date with future technology trends.
- Energy-efficient components provide the basis for implementing customised sustainability concepts.

Flexibly adaptable

- RiMatrix NG flexibly supports the IT lifecycle, from planning through to operation and optimisation.
- RiMatrix NG is freely scalable in every dimension, be it output range, installation size, availability or fail-safe operation. The open platform concept supports the addition of certified products and solutions from third-party providers.
- Variable financing models complement the portfolio and support flexible investment decisions.

Fast availability

- Predefined, tried-and-tested solutions such as edge and container data centres reduce the customer input.
- RiMatrix NG is perfectly tailored to the demands of IT components as well as super-ordinate management systems and applications, and supports the prompt implementation of complete solutions (XaaS).

Reliable solutions

- RiMatrix NG is synonymous with tested Rittal quality which meets international standards.
- The new platform is compatible with existing installed systems and guarantees flexible extendibility.
- Documentation and training, plus a comprehensive customer service package, round out the platform concept.

Rittal Competence Centre

Expert teams for the data centre lifecycle

Safeguard long-term efficiency and scalability

Data centres demand long-term action extending far beyond the initial setup. Everything must be modular and flexible to enable it to grow over a period of many years, while still maintaining maximum efficiency. With this in mind, the expert teams at the Rittal Competence Centre IT are happy to support your data projects throughout their entire lifecycle.

The lifecycle IT

Rittal's lifecycle IT helps you to develop state-of-the-art IT landscapes. It defines the periodic lifecycle of data centres at the following stages:

Design

Once the data centre concept has been developed, the solution modules are selected, and the investment (CAPEX) and operating costs (OPEX) are calculated.

Implementation

The physical infrastructure (electricity, cooling, monitoring, security) is assembled. This is followed by commissioning and sign-off of the data centre.

Operation

You may opt to operate the data centre yourself, or use a managed service from Innovo Cloud. You can also link into Innovo's central data centres, e.g. for backup purposes or to cushion peak loads.

Optimization

The efficiency, costs, sustainability and scalability of the installed solution are analysed. This allows us to draw conclusions about the potential for optimising your IT landscape.

Adopting an holistic view of all framework conditions and influencing factors helps to prevent data centre planning errors and develop a future-viable, resilient solution. A flexible, modular data centre architecture means you can respond flexibly to new or modified requirements to ensure that you always operate your data centre at the optimum point. This guarantees permanent savings, not just in relation to investments but also with operating costs. The expert teams at the Rittal IT competence centres have extensive expertise from many years spent working on countless international IT projects. Our specialists will support you with all issues relating to concept development and detailed planning of data centres, calculation of TCO, security aspects, and monitoring and maintenance planning.

Edge data centres

On-site data management

Production to Industry 4.0 generates huge volumes of data which must be processed and transported extremely rapidly, securely and seamlessly, for example for interaction between machines. This may prove too much for cloud-based solutions. Edge data centres, on the other hand, allow data to be processed in the immediate environment of the production process (i.e. at the edge of the cloud). This helps to boost the level of automation in production directly on site.

Minimal latency

- Autonomous systems such as vehicles and machines must be able to respond quickly to data generated in real time.
- High-performing data networks such as optical fibre connections, as well as 5G connections and edge data centres, are the key technologies in this regard.

System security

- Data privacy is vital and poses a challenge, particularly in distributed systems such as IIoT applications.
- Not only is it necessary to protect personal data, but also product and process data. Digital twin is the buzzword here, because a product's data is just as important as the product itself.

Local data processing

- Smart machines, autonomous systems and robots generate such huge volumes of data that it would be inappropriate to transmit them directly to a core or cloud data centre.
- Within the context of Industry 4.0 applications, as well as in smart cities, edge data centres are indispensable for bringing applications to the point of data generation.

High availability

- The availability of an edge data centre reflects the availability of the application.
- Redundant supply paths, backed-up power supplies and cooling, together with finely-tuned workflows and failover scenarios help to ensure the availability of a solution.

Dynamically scalable systems

- Edge applications are tailored to the customer's requirements. This calls for a high level of flexibility in infrastructure components (IT and OT) as well as in applications.
- For this reason, edge data centres need to be scalable and, in conjunction with the applications, capable of aligning with requirements. Predefined data centre modules that nevertheless offer a high degree of flexibility provide the basis for distributed data centre topologies.

IT infrastructure solutions

Green, reliable and efficient – an example

One of the world's largest data centres is housed in a decommissioned mine at the Lefdal Mine Datacenter (LMD) on the west coast of Norway. The five-storey tunnel system with 75 chambers provides 120,000 square metres of space with a potential total capacity of up to 200 MW. It is one of the most cost-effective, secure, flexible and eco-friendly data centre solutions in Europe. It is powered solely by electricity from renewable sources such as hydropower plants and solar farms, and uses water from the nearby fjord for cooling. The primary circuit is connected to the 565 metre deep fjord, which guarantees unlimited supplies of cold water. Water/water heat exchangers supply the secondary circuit in the mine, keeping the energy needed to cool the container and whitespace solutions to a minimum.

LMD uses IT containers from the Rittal container platform, such as server containers with an output of up to 300 kW. Standardised interfaces for power supply, water connections and the network allows equipment to be incorporated rapidly into the heavy-duty shelving system, where up to three containers may be stacked on top of one another in a tunnel. The container platform is scalable in terms of both output and redundancy, and customer requests are flexibly accommodated.

The tunnels at LMD are also perfectly suited to whitespace solutions. The Rittal security room GSR is used to protect valuable IT components from the harsh mine environment. Infrastructure modules from the aforementioned container solutions are installed here. Individual planning of these areas is supported, making LMD freely scalable in every dimension.

When the Total Cost of Ownership (TCO) is taken into account, LMD is 40 percent cheaper than other data centres in Europe. This is due not only to the attractive electricity price and the use of sea water cooling from the fjord, but also to the outstanding partial PUE (efficiency) of the standardised data centre modules across the full breadth of applications, from memory-intensive storage/backup solutions through to high-performance computing (HPC).

Of course, a comprehensive security concept is also included in the range of services. In this regard, the mine system offers inestimable benefits: the facility is only accessible via well-protected entry points. The rock formation provides natural protection from electromagnetic pulses. Specially trained security staff patrol the entire installation around the clock, 365 days a year. A three-stage authentication process and smart camera systems provide additional security. The installation is certified to Uptime Tier III design and represents one of the most secure data centre solutions in the Nordic market.

Rittal – The System.

Faster – better – everywhere.

Your benefits

Network/server racks

- For individual use as stand-alone installations and data centres
- Complete system solutions for small to large networks
- Maximum configuration versatility and protection for installed equipment
- Simple conversions and use of our extensive modular system ensures flexibility and safeguards your investment

Wall-mounted enclosures

- A comprehensive choice of products – the right enclosure for every application – up to protection category IP 66
- Wide range of sizes available from 3 U to 21 U
- Extensive selection of accessories with "Rittal – The System."
- Fast assembly, modification and simple installation based on the modular principle

Sample applications

- 1 Wall-mounted enclosure EL, see page 715
- 2 VerticalBox, see page 712
- 3 Wall-mounted enclosure AX IT with 482.6 mm (19") mounting angles, see page 719
- 4 VX IT with glazed door for rack climate control, see page 692, base/plinth and installation accessories, see page 880
- 5 VX IT with vented door for room cooling, see page 686, bayed with base/plinth and installation accessories, see page 878
- 6 Small fibre-optic distributor, see page 720

VX IT

The solution for all network and server applications

Whether you need a network rack to house a corridor distributor, or server racks for an edge, cloud or hyperscale data centre, the new VX IT provides the ideal platform and meets all the requirements of a modern IT infrastructure.

Consistent customer focus

The new VX IT is based on a modular concept with a customer-friendly configurator to guide you quickly and easily to a solution that is tailored to your individual requirements. A state-of-the-art production line and optimised logistics ensure fast availability and on-time delivery.

Matching modules

The new VX IT provides the basis for RiMatrix Next Generation, the latest generation to have evolved from our extremely popular Rittal IT system, now with numerous new features and innovative products.

Seamless compatibility

A data centre infrastructure will outlive its individual servers. Compatibility with established RiMatrix systems is therefore crucial. The VX IT and RiMatrix NG are therefore ideal for extending existing data centres and replacing individual components.

Future-proof

We stay abreast of the latest trends and understand what drives experts and companies, enabling us to deliver forward-looking solutions. The VX IT, like the RiMatrix NG, are continuously being refined to keep pace with the challenges of an evolving IT infrastructure.

Comprehensive modular system

For all requirements

Versatility for every application

- Even the standard variants are available in up to 28 sizes (EU series) – 2 widths, 6 heights and 4 depths.
- Select your individual 482.6 mm (19") installation to meet your specific requirements from a comprehensive range of racks, components and accessories plus two different load classes (dynamic or standard, as per the detailed rack specifications) and your chosen 482.6 mm (19") interior installation variant, with maximum load limits of 15,000 N or 18,000 N.

Tailored door concept

The choice of door depends on the spatial conditions and your individual requirements with regard to access, climate control and protection category.

- The new 180° hinge ensures a maximum door opening angle even when bayed plus a large-scale handle system including security lock with profile half-cylinder.
- There is a door to suit every climate control system, be it rack, suite or room cooling.
- New options include an automatic door opener to provide emergency cooling or to ensure rack extinguishing with a gas-based room extinguisher system.
- Glazed doors are available for an optimum view or to ensure a closed climate control zone in conjunction with high-performance cooling applications, such as high-capacity heat exchangers.

Roof concept with the required protection category

The choice of roof solution will depend on your planned cable entry and prescribed protection category, for example:

- One-piece, solid, with a protection category of up to IP 55
- With brush strip on both sides across the entire enclosure depth
- Cable entry via brush strip horizontally at the rear, across the entire enclosure width
- Cable entry in the corner zones via brush strips

User-friendly side panel solutions

Your choice of side panel will depend on the required level of access and the prescribed security and protection category parameters, for example:

- For individual enclosures: Optionally one-piece, multi-piece, horizontally divided, plug-in or vertically divided, hinged
- To finish off an enclosure suite: Multi-piece, screw-fastened or partitions, one-piece, slide-in fixing for physical separation of individual enclosures within an enclosure suite

High load capacity

With maximum flexibility

Flexible 482.6 mm (19") installation

Choose from two 482.6 mm (19") installation systems to suit your requirements:

- Standard – Load capacity up to a maximum of 15,000 N or 12,000 N to UL 2416
- Dynamic – Load capacity up to a maximum of 18,000 N or 15,000 N to UL 2416
- Different installation concepts are available for the 482.6 mm (19") mounting angles, depending on the enclosure dimensions. While 600 mm wide racks are mounted directly onto the enclosure frame, in 800 mm wide racks the 482.6 mm (19") levels are mounted on depth stays or cross-members. In this way, alternative mounting dimensions of 21", 23" and 24" are readily accommodated in the enclosure width 800 mm, as are asymmetrical arrangements of the 482.6 mm (19") mounting level. The standard installation variant with cross-members is used with rack depths of up to 800 mm and is ideally suited for use as a network distributor by supporting fast, simple cable management across the entire enclosure width in any height unit.
- An asymmetrical arrangement of the 482.6 mm (19") level gains additional installation space on one side which may be used for optimised cable routing or to integrate a Liquid Cooling Unit (LCU).

Easily extend your existing systems

- The VX IT is also compatible with all existing IT infrastructure solutions assembled with the TS IT and DK TS systems – in other words, further configuration and baying are easily achieved with the VX IT.
- The new baying variant with 3 mm baying gap means that entire racks or liquid cooling packages are easily extracted from the enclosure suite and replaced with updated hardware.

Converting to VX IT couldn't be simpler

- Our smart conversion assistant, available on the Rittal website, allows you to easily convert your existing enclosure systems to the new VX IT system.

Security and ease of use

Customised at all levels

Roof

- A broad spectrum of individual roof solutions
- Ideal solutions for secure, simple cable entry, even with high cable volumes
- Closed variants for a high protection category of IP 55

Walls

- Divided side panels for problem-free one-man assembly
- Vertically divided, hinged side panels for easy access without dismantling the side panel
- Side panels latched from the inside for superior access protection

Doors

- Vented or solid, to suit the individual climate control concept
- Mechanical and electronic lock systems for optimum security
- Door control systems to automatically open the doors in the event of a cooling failure or for room-based extinguisher systems

Base

- Individual base modules for optimum, secure cable entry from below
- Base/plinth systems with integral cable management solutions

IT infrastructure

Room integration

- Perfectly adapted modules for achieving cold or hot aisle solutions

Interior installation

With unlimited diversity

Power

- Wide range of socket strips and power distribution systems
- Power distribution unit in the zero-U space
- Professional monitoring and link to DCIM software (such as RiZone)
- Measurement of power, current, active and apparent power and power factor

Cooling

- Individual climate control concepts for rack, suite and room cooling up to 53 kW per rack
- Energy-efficient systems help to minimise operating costs

Monitoring

- CMC III enables preventive intervention to reduce the risk of downtime
- Mechanical and electronic lock systems for optimum security

Security

- Fire alarm and extinguisher systems for early fire detection and automatic extinguishing
- Door control systems to automatically open the doors in the event of a cooling failure and for room-based extinguisher systems

IT infrastructure

Interior installation

- Practical vertical and horizontal air routing inside the rack, even with a high density of ports
- Component shelves, for static or withdrawable installation
- Air blocking systems for optimum air routing inside the rack, adapted to the individual climate control concept

Material:

- Sheet steel
- Aluminium

Surface finish:

- Enclosure frame: Dipcoat-primed
- Interior installation: Spray-finished
- Rear door and roof: Dipcoat-primed, powder-coated
- Front door: Aluminium, anodised/spray-finished

Colour:

- Enclosure frame, rear door and roof: RAL 7035
- Front door: Vertical sections, silver coloured and horizontal sections, RAL 9005
- Interior installation, vent grille at the front: RAL 9005
- Handle and hinges: RAL 9005

Supply includes:

- VX enclosure frame with doors and roof plate
- Aluminium/sheet steel door at the front, vented (vented surface area approx. 85% perforated), 180° hinges
- Sheet steel rear door, vented (vented surface area approx. 85% perforated)
- Lock front and rear: Comfort handle for profile half-cylinders and security lock 3524 E
- Spacers, height 50 mm, to raise the cover plate above the fan cut-out in the roof plate, for passive cooling (supplied loose)
- 12 x 482.6 mm (19") fastener, 1 U, conductive (supplied loose)
- 25 multi-tooth screws, conductive (supplied loose)
- IPPC pallet

Please observe the product-specific scope of supply.

Note:

- Depending on how and where it is sited, the door opening angle may vary for selected applications

Approvals:

- UL
- cUL

Material:

- Sheet steel
- Aluminium

Surface finish:

- Enclosure frame: Dipcoat-primed
- Interior installation: Spray-finished
- Rear door and roof: Dipcoat-primed, powder-coated
- Front door: Aluminium, anodised/spray-finished

Colour:

- Enclosure frame, rear door and roof: RAL 7035
- Front door: Vertical sections, silver coloured and horizontal sections, RAL 9005
- Interior installation, vent grille at the front: RAL 9005
- Handle and hinges: RAL 9005

Supply includes:

- VX enclosure frame with doors and roof plate
- Aluminium/sheet steel door at the front, vented (vented surface area approx. 85% perforated), 180° hinges
- Sheet steel rear door, vented (vented surface area approx. 85% perforated), vertically divided, 180° hinges
- Lock front and rear: Comfort handle for profile half-cylinders and security lock 3524 E
- Spacers, height 50 mm, to raise the cover plate above the fan cut-out in the roof plate, for passive cooling (supplied loose)
- 12 x 482.6 mm (19") fastener, 1 U, conductive (supplied loose)

- 25 multi-tooth screws, conductive (supplied loose)
 - IPPC pallet
- Please observe the product-specific scope of supply.

Note:

- Depending on how and where it is sited, the door opening angle may vary for selected applications

Approvals:

Material:

- Sheet steel
- Aluminium
- Glazed door: Single-pane safety glass, 3 mm

Surface finish:

- Enclosure frame: Dipcoat-primed
- Interior installation: Spray-finished
- Rear door and roof: Dipcoat-primed, powder-coated
- Front door: Aluminium, anodised/spray-finished

Colour:

- Enclosure frame, rear door and roof: RAL 7035
- Front door: Vertical sections, silver coloured and horizontal sections, RAL 9005
- Interior installation: RAL 9005
- Handle and hinges: RAL 9005

Supply includes:

- VX enclosure frame with doors and roof plate
 - Glazed aluminium door at the front, 180° hinges
 - Sheet steel rear door, solid, vertically divided, 180° hinges
 - Lock front and rear: Comfort handle for profile half-cylinders and security lock 3524 E
 - Spacers, height 50 mm, to raise the cover plate above the fan cut-out in the roof plate, for passive cooling (supplied loose)
 - 12 x 482.6 mm (19") fastener, 1 U, conductive (supplied loose)
 - 25 multi-tooth screws, conductive (supplied loose)
 - IPPC pallet
- Please observe the product-specific scope of supply.

Note:

- Depending on how and where it is sited, the door opening angle may vary for selected applications

Approvals:

Cable management enclosure

More space for network cabling

The cable management enclosure is the ideal solution when you need to manage large quantities of cables, especially surplus cables. Because it is fitted as standard with six punched sections with mounting flanges, the enclosure is perfectly equipped to accommodate a wide range of cable management systems. The cable management enclosure can also be used for the symmetrical balancing of cold/hot aisle containment.

The benefit to you:

- Optimum integration into VX IT rack suites, 2000 mm high and 1000 / 1200 mm deep
- Doors at the front and rear for easy access
- Fast cable entry in the base and roof section, thanks to integral brush strips

Cable management rack VX IT

Cable management Page 1044 **System accessories** Page 877 **IT monitoring** Page 799 **IT cooling** Page 757

For laying, securing and storing cables or as an empty enclosure with uneven Liquid Cooling Package (LCP) installations.

Applications:

- As a cable management rack between fully configured network and server racks
- As an empty rack for symmetrical balancing in cold/hot aisle containment with an uneven number of LCPs in two enclosure suites
- As a placeholder for easy retrofitting of LCP installations

Benefits:

- Optimum accommodation of surplus cables and structured cable management

Material:

- Sheet steel
- Aluminium

Surface finish:

- Enclosure frame: Dipcoat-primed
- Doors and roof: Dipcoat-primed, powder-coated

Colour:

- Enclosure: RAL 7035
- Front: RAL 9005

Supply includes:

- Enclosure frame with front and rear door
- Aluminium door, front, solid with black designer trim panel, 180° hinges
- Sheet steel rear door, solid, one-piece, 130° hinges
- Lock front and rear: Comfort handle for profile half-cylinders and security lock 3524 E
- 2 roof/base plates, with cut-outs for cable entry via brush strips
- 3 VX punched sections with mounting flanges mounted on the left and right
- Baying seal

Note:

- For positioning at the start/end of an enclosure suite, a side panel will be required

Network racks TE 8000

Efficient and cost-effective

TE 8000 – the flexible network rack

- 482.6 mm (19") network rack, may be dismantled, which uses the 482.6 mm (19") level as its supporting structure
- By removing the doors and side panels, free access is available from all sides
- The entire interior is available to use for IT components, cabling and accessories
- Fast assembly, dismantling and conversion (dismantles fully for transporting to confined locations)

Comprehensive range of accessories for customised interior installation

- AX comfort handle with various lock options
- Brush strip for sealing the cable entries in the roof plate
- Depth-variable cable guide rail
- Universal interior installation with depth-variable attachment
- Direct installation on the 482.6 mm (19") mounting frame

System accessories for assembling a professional IT environment

- Power distribution system (PDU) in a range of sizes and functions
- Enclosure monitoring with the CMC III monitoring system
- Optimum cable management with the Network Cable Organizer (NCO)
- Cooling options for use in the network sector

Network racks TE 8000

System accessories Page 877 IT monitoring Page 799 IT cooling Page 757 IT power Page 723

Benefits:

- No frame structure
- Optimum accessibility
- Readily dismantled and therefore easily installed
- Interchangeable door hinge

Material:

- Sheet steel
- Glazed door: Single-pane safety glass, 3 mm

Surface finish:

- Mounting frame: Dipcoat-primed
- Enclosure panels: Powder-coated

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- IP 20

Max. load capacity (static) per enclosure:

- 4000 N

Supply includes:

- Self-supporting 482.6 mm (19") mounting frames, front and rear, depth-variable
- Glazed door at the front, including 130° hinge, designer handle and security lock 3524 E
- Sheet steel door at the rear, including 130° hinge, security lock 3524 E
- Base frame with maximum cut-out (for optional population with module plates)

- Roof plate including concealed cut-out for cable entry and optional fan
 - 4 levelling feet, M10 (supplied loose)
 - 4 spacers, 20 mm (supplied loose) to raise the roof plate
- Please observe the product-specific scope of supply.

Distributor racks

19" installation Page 1079 System accessories Page 877 TE 8000 Page 703

Benefits:

- Optimum accessibility from all sides during assembly and installation
- Unrestricted airflow, due to the open design
- The distance between attachment levels is infinitely variable

Material:

- Sheet steel

Surface finish:

- Powder-coated

Colour:

- RAL 7035

Max. load capacity (static) per enclosure:

- 7000 N

Supply includes:

- Self-supporting mounting frame, with 482.6 mm (19") mounting level front and rear
- Roof-plate, prepared for accommodating cable organisers
- Open base frame with 2 punched sections with mounting flanges for individual configuration fitted in the width
- 4 levelling feet, M10 (supplied loose)

Please observe the product-specific scope of supply.

Small IT racks series

Solutions for every application

VerticalBox – the ideal solution for small networks in office environments

- Compact wall-mounted, under-desk or desktop rack
- Free access from all sides to the 482.6 mm (19") level
- Door and side parts may be dismantled with no need for tools
- Passive ventilation as standard, fan may be retrofitted

FlatBox – the space-saving flat-pack solution

- 482.6 mm (19") rack for networks in office environments
- Supplied flat-packed, for easy and fast tool-free assembly
- May be used as wall-mounted or floor-standing enclosure, with free access from all sides
- Passive ventilation as standard, fan may be retrofitted

Wall-mounted enclosure EL, 3-part – optimum access to IT components

- Flexible wall-mounted enclosure in a range of designs and outputs
- Vertically hinged centre part for optimum access to IT equipment
- Suitable for industrial and IT applications
- High protection category up to IP 55

AX IT – for use in harsh environments

- Enclosure series to accommodate small IT components
- Data collection and distribution in industrial environments
- High protection category up to IP 66

VerticalBox

System accessories Page 877

Compact 482.6 mm (19") enclosure for small networks.

Benefits:

- May be used as wall-mounted, under-desk or desktop enclosure
- Free access from three sides for interior installation
- Passive ventilation with vent slots
- Rear panel prepared to accommodate a fan
- Freely selectable door hinging
- Space-saving, vertical mounting of 482.6 mm (19") installation components at the side

Material:

- Sheet steel
- Viewing window: Single-pane safety glass, 3 mm

Surface finish:

- Powder-coated

Colour:

- RAL 7035

Supply includes:

- Enclosure with glazed door
- Side panels (1 x fixed, 1 x slot-in) with vent slots
- Knockouts for cable entry via roof or base
- Slot-in rear panel with knockouts for cable entry and fan accommodation
- 482.6 mm (19") mounting level, 5 U, horizontal front and rear, depth-variable, distance between levels 434 – 489 mm
- Security lock 12321 on the door, side and rear panel
- 4 plastic feet, self-adhesive

For flexible use as a wall-mounted or floor-standing enclosure.

Benefits:

- Tool-free quick assembly
- System assembly on the open 482.6 mm (19") frame

Material:

- Sheet steel
- Viewing window: Single-pane safety glass, 3 mm

Surface finish:

- Powder-coated

Colour:

- RAL 7035

Supply includes:

- Flat-packed enclosure
- 1 wall section
- 2 basic supports
- 2 roof/base plates, with cut-outs for cable entry via brush strips
- 2 side panels, lockable
- 1 glazed door, lockable, security lock 3524 E, door hinge point selectable
- Connection components for tool-free, fast assembly
- Earthing kit for system-compatible earthing of all enclosure parts

Please observe the product-specific scope of supply.

Note:

- Max. installation depth: Depth - 58 mm to rear panel
- Max. distance between two 482.6 mm (19") levels: Depth - 104 mm

Wall-mounted enclosures EL, 3-part

System accessories Page 877 **Socket strips** Page 1040 **Wall mounting bracket** Page 958 **Cable clamps** Page 1060

Wall-mounted enclosure with optimum accessibility due to hinged part.

Material:

- Wall and hinged part: Sheet steel, 1.5 mm
- Viewing window: Single-pane safety glass, 3 mm

Surface finish:

- Powder-coated

Colour:

- Wall and hinged part: RAL 7035
- Glazed door: RAL 7035/7015 (slate grey)

Protection category IP to IEC 60 529:

- IP 54 in conjunction with solid gland plate, top and bottom

Supply includes:

- Wall section with solid gland plate at the top and brush strip at the bottom, two vertical mounting rails and C rail, horizontal, for cable clamping
- Hinged part with 25 mm pitch pattern of holes in the front and rear frame, two 482.6 mm (19") mounting angles at the front, infinitely depth-variable, and side outlet filters on the left and right
- Earth rail with star earthing

- Designer glazed door
 - 1 double-kit key no. 5
- Please observe the product-specific scope of supply.

Approvals:

- UL
- cUL

Wall-mounted enclosures AX IT

System accessories Page 877 **Socket strips** Page 1040 **Captive nuts** Page 1002 **Glazed doors** Page 926

IT wall-mounted enclosure based on AX, with high protection category, for use in industrial environments.

Applications:

- IT enclosure for use in industrial environments
- Secure, protected integration of IT directly into your production plant processes

Benefits:

- Fully pre-assembled IT enclosure for immediate accommodation of 482.6 mm (19") IT components, with depth-variable mounting angles
- Welded enclosure construction with all-round solid body ensures maximum protection for installed components, up to IP 66
- Door hinged on the right, may be swapped to the left
- Maximum usable interior volume with an extremely compact design
- Individual interior configuration
- Maximum cut-out in the enclosure base with optimised gland plates increases the space for cable routing by up to 33%
- Convenient cable entry from below via a gland plate with integral brush strip

Installation options:

- Pre-configured mounting bracket including C rail for cable clamping
- Mounting bracket to accommodate a central earth rail
- Mounting bracket for mounting a 482.6 mm (19") socket strip

Material:

- Sheet steel

Surface finish:

- Enclosure and door: Dipcoat primed, powder-coated on the outside, textured paint
- Interior installation: Zinc-plated

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- IP 10 (up to IP 66 on request)
- Up to IP 66 (depending on the selected gland plate)

Supply includes:

- Pre-assembled IT enclosure with hinged door, of all-round solid construction
- Cam lock with 3 mm double-bit insert
- Gland plate with brush strip
- 482.6 mm (19") mounting angle, front, mounted onto four interior installation rails with depth adjustment in 25 mm pitch pattern
- Mounting bracket
- C rail, fastened to the rear panel

Note:

- Variant with UL approval available on request

with 482.6 mm (19") mounting angles, depth-variable

Small fibre-optic distributor

System accessories Page 877

Benefits:

- Mounting plate with variable accommodation for up to two splicing cassettes (cassette width variable from 92 to 120 mm) and integral anti-twist guard
- Dividing plate with comb strip for cable clamping, to cover the splicing cassette, and to accommodate 2 patch panels
- Cable entry via prepunched knockouts using cable glands (2 x 22.5 mm and 12 x 12.5 mm)

Material:

- Enclosure with cover: Fibreglass-reinforced polycarbonate
- Cover screws: Polyamide
- Insulating bungs: Polyamide
- Foamed-in PU seal

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- IP 66

Supply includes:

- Enclosure with knockouts for cable glands
- Hinged cover with seal
- 2 cover screws, prepared for a lead seal
- Insulating bungs for wall mounting
- Mounting plate
- Dividing plate
- 12 cable glands M12 x 1.5
- 1 cable gland M20 x 1.5

with mounting plate and splicing cassette accommodation

Accessories751

Upgrade solution

RCM measurement module – Inline meter753
Overvoltage protection module, type 3754

Your benefits

- Holistic, systematic energy management concepts
- Comprehensive, complete solutions for power distribution and back-up, consistently modular, and flexibly extendible at any time
- Optimum energy and cost efficiency with maximum availability of the entire system
- Reduced installation, administration and resource costs
- High level of investment security
- All from a single source

Sample applications

- 1 Power distribution, see page 724
- 2 UPS (partner product), see page 726
- 3 Power Distribution Rack PDR, see page 728
- 4 Power Distribution Unit PDU, see page 742

VX25 Ri4Power

The reliable mains infeed for supplying power to data centres

Low-voltage power distribution for data centres

- The VX25 Ri4Power is suitable for use with open and compact circuit-breakers from all well-known manufacturers.
- The busbar systems are dimensioned to your specific requirements with standard copper bars up to 6300 A and individually configured.
- This allows you to achieve a range of infeed sources for data centres (A and B supply) and to connect emergency generators and UPS systems.
- Automatic transfer switches (ATS) may be used to switch between different infeed sources.

Tailored power distribution

- Power supply to individual areas (e.g. server zone, plant room) is implemented in the outgoing section.
- Individual functional spaces, shielded from one another, are created within the outgoing section.
- Each outgoing section can be tailored to your specific requirements and individually populated e.g. with switchgear.
- May also be contacted directly with the multi-terminal busbar systems in data centres using a flexible busbar system.

Simple, efficient planning

- The Rittal Power Engineering planning software makes it much easier to configure section types and equipment. The connector kits are automatically generated and documented when this software is used for project planning.
- Installation of the operating equipment in low-voltage switchgear complies with IEC 61 439 and documented with a design verification. Once the system has been planned with Rittal Power Engineering, the design verification is easily generated.

UPS systems

The ideal power back-up solution for data centres

UPS systems from ABB/Rittal

- Critical loads need to be protected by online double conversion UPS systems. The UPS systems from ABB provide optimum availability and total cost of ownership (TCO), and are based on a complete redundancy concept.
- In the modular UPS series, each UPS module has all the hardware and software needed for autonomous operation. All critical components are available in each individual module, thereby eliminating weak points altogether. This modular approach is known as DPA™ (decentralised parallel architecture).

UPS systems for every application

- The DPA UPScale RI is one of the most compact uninterruptible power supply systems on the market. It can be installed directly into the 482.6 mm (19" level) of the rack and is therefore particularly ideal for customer-specific solutions. DPA UPScale RI is designed for applications in the lower and medium output range with 10kW or 20 kW modules and an overall output of between 10 kW and 80 kW per system.
- Conceptpower DPA S4 is a double conversion UPS system for applications in the medium to high output range. The modular architecture of Conceptpower DPA allows a flexible output configuration with 50 kVA rack-mounted modules, which may be retrofitted to meet a rising power demand. This enables implementation of rack-mounted modular and monoblock systems with an output of up to 3 MW.
- With an efficiency of 97.4% in online double conversion mode, this is one of the most advanced systems available on the marketplace.

Communicate easily

- In line with IEC/EN 62040-3, the double conversion UPS meets all the requirements for category VFI-SS-111.
- For connecting the UPS to the network with the option of linking additional sensors and I/O options, either directly on the card or via a sensor manager. HTTP, SNMP, SMTP, Modbus RS232 and Modbus TCP protocols are supported.

Power Distribution Rack

Targeted power distribution in the data centre

Power distribution module in the 482.6 mm (19") format

- Power distribution between the UPS and rack PDU or PSM in a compact 482.6 mm (19") form factor for installation within the IT rack
- Ideal for small data centres and individual rack installations
- Four fused 3-phase outlets to the rack
- Independent fusing of each phase and each output
- Built-in master switch
- All outputs plug-type
- Optional RC circuit-breaker

Power distribution for the rack suite

- Compact PDR for installation within the rack suite with a width of just 300 mm
- Seamless integration into a rack suite with VX IT rack
- Additional equipment may optionally be connected whilst operational
- Optional current measurement system
- Prepared for project-specific design
- Ideal for applications in the IT container

Flexible power distribution

- Installation as either a room or rack solution
- Project-specific selection of peripheral conditions such as rack type and form, ACB type and options ensures flexibility
- Compact design

Power Distribution Unit

Demand-based power distribution in the IT rack

The convincing benefits

- The compact design and tool-free clip fastening onto the 482.6 mm (19") frame in Rittal IT racks allows simple installation in the zero-U-space, guaranteeing free access to the 482.6 mm (19") level – a major advantage when retrofitting IT equipment with the system operational.
- The PDU has every application covered with just five variants
 - Basic (simple power distribution)
 - Metered (measurement per phase)
 - Metered Plus (measurement per output slot)
 - Switched (measurement per phase, switching function per output)
 - Managed (measurement and switching per output)
- The fully redundant Gigabit network interface for connection to management systems such as RiZone allows cascading of up to 16 PDUs.

Technical perfection

- Key monitoring functions (alarm relay, digital input and alarm signal generator) are pre-integrated into the PDU, and up to 8 sensors are supported.
- Extended measuring functions such as fault current monitoring (RCM type B) are available.
- The modular concept means that the PDU controller board and overvoltage protection are replaceable.
- The reliable bistable relays allow up to 300 A starting current on all switchable PDUs.
- Optional integrated surge protection with arresters, which can be replaced with the system operational.

Configure your individual solution online

- The PDU's modular system concept allows individual configuration and optimum adaptation to your specific application. For example, you choose the colour of the housing, the length of the cable, the connector plug or the position of the display yourself.
- Rittal can provide further configuration options, e.g. changing the output slots, adding features such as fault current monitoring and overvoltage protection. Please call us to discuss your individual configuration.

Power Distribution Unit

Overview Page 737 Network/server racks VX IT Page 686

Benefits:

- With the compact PDU, any IT rack is easily equipped with a professional power distribution system
- With the VX IT rack, assembly is tool-free
- Compact design
- Easy to install, even in the zero-U-space
- Power-saving design with minimal inherent consumption by the PDU itself, thanks to the use of bistable relays and durable TFT colour display with power-saving function
- Integral Web server for direct network connection with extensive user administration functions

- Redundant power supply from all 3 phases and additionally via an existing PoE (Power over Ethernet) network
- Extensive range of management and monitoring functions
- High-MTBF and measurement accuracy of $\pm 1\%$
- Redundant network interface, may also be used for cascading up to 16 PDUs (not with PDU basic)
- Electric handle systems and ambient monitoring with up to 8 CMC III sensors (temperature, humidity, access, vandalism)
- 2 x Gigabit Ethernet interfaces for fully redundant network connection
- PDU controller may be replaced without having to disconnect the PDU from the power supply

PDU design variants:

PDU basic

Robust, compact basic power distributor for the IT environment

PDU metered

Energy measurement per phase, i.e. output requirement of an entire IT rack

PDU metered plus

Energy measurement per output connector, to determine the power requirements of individual consumers

PDU switched

Measurement function per phase and individually switchable output slots

PDU managed

High-end IT rack, power distribution with energy measurement and monitoring functions for each individual output slot

Material:

- Extruded aluminium section, anodised

Protection category IP to IEC 60 529:

- IP 20

Supply includes:

- Connector lock for IEC C14 and C20 connectors
- Assembly parts

Standards:

- EN 62 368-1
- EN 61 000-4
- EN 61 000-6
- EN 55 022

Assembly instructions:

- For mounting in the TE 8000 rack, mounting adaptor 7000.688 is additionally required

Low Voltage Directive:

- 2014/35/EU

EMC directive:

- 2014/30/EU

Power Distribution Unit

Overview

PDU version ¹⁾	managed	switched	metered plus	metered	basic
Mechanical	managed	switched	metered plus	metered	basic
Compact extruded aluminium section, black anodised (other enclosure colours optionally available), W x D: 1 U x 70 mm, various lengths depending on number of slots	■	■	■	■	■
May be fitted in the the zero-U-space in the 600 mm wide Rittal IT rack, (2 PDUs per side, up to 4 in 800 mm wide Rittal IT racks)	■	■	■	■	■
Special PDU versions available for 482.6 mm (19") mounting	■	■	■	■	■
Colour coding of phases and fuse circuits (L1 = pink, L2 = black, L3 = white)	■	■	■	■	■
Universal mounting kit and assembly parts included with the supply	■	■	■	■	■
Tool-free installation kit especially for Rittal VX IT rack included with the supply	■	■	■	■	■
Display/controller unit in the PDU enclosure rotatable through 180° and replaceable	■	■	■	■	–
Connection cable, static, 3 m, with CEE (IEC 60 309) or IEC C20 input connector (customised modification available)	■	■	■	■	■
Compact circuit-breaker, 16 A, Carling type (only for 32 A PDU versions)	■	■	■	■	■
Output slots IEC 60 320 C13 available	■	■	■	■	■
Output slots IEC 60 320 C19 available	■	■	■	■	■
Output slots CEE 7/3 (earthing-pin socket) available	■	■	■	■	■
Output slots BS 1363 (UK plug) available	–	–	–	■	■
Connector lock for C13 and C19 sockets (optionally as accessories)	■	■	■	■	■
Lockable cover for unneeded C13/C19 slots (optional accessory)	■	■	■	■	■
Electrical	managed	switched	metered plus	metered	basic
Rated operating voltage 230 V (400 V, 3–), 50 – 60 Hz	■	■	■	■	■
PDUs for rated current 16 A/32 A, single-phase/3-phase	■	■	■	■	■
Integral, fully-redundant power pack, power supply from all phases	■	■	■	■	–
Power-saving design, minimal intrinsic power consumption	■	■	■	■	–
PDU with own power supply, no external power supply required	■	■	■	■	–
Error-tolerant PDU power supply redundant across all phases (with 3-phase PDUs)	■	■	■	■	–
Emergency power supply to PDU web server via PoE (Power over Ethernet) and sequential relay circuit (PoE+ to IEEE 802.3at), remains accessible even in the event of a mains failure	■	■	–	–	–
Optional: Type 3 overvoltage protection with interchangeable arresters while operational, with status monitoring, suitable for integration into PDU enclosure	■	■	■	■	■
Switching function per output slot	■	■	–	–	–
Sequential activation of the outputs once the power is resumed (avoids overload peaks)	■	■	–	–	–
Relay states are saved even in the event of a power failure	■	■	–	–	–
Bistable relays/low current consumption/high switching capacity also for higher starting currents (max. 300 A)	■	■	–	–	–
Grouping (joint switching of several outputs)	■	■	–	–	–
Programmable startup response following voltage recovery (on/off/last status)	■	■	–	–	–
Programmable startup response (time and programmable logic)	■	■	–	–	–
Measurement functions	managed	switched	metered plus	metered	basic
Voltage (V), current (A), frequency (Hz)	■	■	■	■	–
Active power (kW), active energy (kWh), apparent power (VA), apparent energy (kVA)	■	■	■	■	–
Power factor (cosPhi) and phase angle	■	■	■	■	–
Neutral conductor measurement to identify unbalanced loads (3-phase PDUs only)	■	■	■	■	–
Optional: Differential current measurement (type B) per infeed/phase/fuse	■	■	■	■	–
Fuse monitoring for PDUs with integral fuse (32 A PDUs)	■	■	■	■	–
Monitoring of the optionally available overvoltage protection	■	■	■	■	–
Alarm contact for optional overvoltage protection on terminals	–	–	–	–	■
Measurement per phase or infeed	■	■	■	■	–
Measurement per output slot	■	–	■	–	–
Measurement accuracy ±1% to IEC/EN 62 053-21	■	■	■	■	–

¹⁾ In addition to the defined products, customised modifications are also possible.

Note:

- Select plausibility-checked enclosures and components easily with the Rittal Configuration System, plan machining and place your order, see page 272

Power Distribution Unit

Overview

PDU version ¹⁾	managed	switched	metered plus	metered	basic
Connectivity/management functions	managed	switched	metered plus	metered	basic
Powerful CPU (ARM Cortex A8)	■	■	■	■	–
Integral real-time clock with battery buffering (max. 10 years, battery replaceable)	■	■	■	■	–
Integral piezo beeper	■	■	■	■	–
Digital input (floating contact)	■	■	■	■	–
Additional alarm output/relay output (changeover contact)	■	■	■	■	–
Bright TFT display, 128 x 128 pixels (RGB) with back-lighting and energy-saving mode (display of output data and basic PDU configuration)	■	■	■	■	–
Position sensors for display rotation and correct PDU representation on the website	■	■	■	■	–
Multi-colour LEDs (green/amber/red) to indicate switching states and warning/alarm limits per phase or infeed	■	■	■	–	–
Multi-colour LEDs (green/amber/red) to indicate switching states and limits per individual output slot	■	–	■	–	–
Power LED, indicates presence of voltage	■	■	■	■	–
Adjustable limit values (warning/alarm) for voltage, current, output	–	■	–	■	–
Adjustable limit values (warning/alarm) for current, voltage, output, individually setting for each output slot	■	–	■	–	–
Operating hours meter, total and cyclical (resettable)	■	■	■	■	–
Fully redundant Ethernet interface 10/100/1000 Mbit/s (2 x RJ45)	■	■	■	■	–
USB 2.0 port (USB-A) for mass configuration, firmware update and data logging	■	■	■	■	–
CAN bus interface (RJ 45) for a maximum of 8 ambient sensors	■	■	■	■	–
Serial interface RS232 (RJ12) for CMC III LTE unit, scripting, CLI	■	■	■	■	–
Web server (HTTP, HTTPS, SSL, SSH) Telnet, NTP	■	■	■	■	–
TCP/IP v4 and v6, DHCP, DNS	■	■	■	■	–
SNMP v1, v2c and v3, Modbus/TCP, OPC-UA	■	■	■	■	–
MIB for linking into 3rd party DCIM software	■	■	■	■	–
FTP/SFTP (update/file transfer)	■	■	■	■	–
Rest API	■	■	■	■	–
Use of own certificates/TLS 1.3	■	■	■	■	–
E-mail forwarding in case of alarm (SMTP)	■	■	■	■	–
User administration including rights management	■	■	■	■	–
LDAP(S)/Radius/Active Directory connection	■	■	■	■	–
Syslog server connection (max. 2 servers)	■	■	■	■	–
Fully redundant monitoring via 2nd network	■	■	■	■	–
CMC III CAN bus sensors may be connected for ambient monitoring (max. 8 sensors)	■	■	■	■	–
CMC III sensors: Temperature, humidity, smoke detector, VX IT handle systems, infrared access sensor, vandalism sensor, airflow, differential pressure, etc.	■	■	■	■	–
Ambient conditions	managed	switched	metered plus	metered	basic
Operating temperature	+5...+50 °C @100% load				
Storage temperature	-25 °C...+70 °C				
Ambient humidity (non-condensing)	10 – 95% rel. humidity				
Protection category (IEC 60 529)	IP 20				
Approvals and standards	managed	switched	metered plus	metered	basic
Approvals and standards	CE/EAC/RoHS/WEEE				
Low Voltage Directive	2014/35/EU				
EMC Directive	2014/30/EU				
Standards (excerpt)	EN 62 368-1/EN 62 053-21/EN 61 000-3/EN 61 000-4/ EN 61 000-6				

¹⁾ In addition to the defined products, customised modifications are also possible.

Sample application

PDU cascading

Cascading of up to 16 PDUs in series is supported via the network interface.

Master/slave operating mode

Each PDU may also be used individually as a master or slave PDU. The master PDU controls up to three slave PDUs.

Connection of CAN bus sensors

Up to 8 CMC III CAN bus sensors may be connected to one PDU for ambient monitoring (temperature, humidity, access, vandalism).

Technical specifications

Equipment		
Standards	Safety	EN 62 368-1

Low Voltage Directive		2014/35/EU
EMC Directive		2014/30/EU
MTBF (at 40 °C)		100,000 hours
Protection category		IP 20 (IEC 60 529)
Protection class		1
Contamination level		2
Overvoltage category		II
Environmental properties		RoHS 2 (2011/65/EU)
Storage temperature		-20 °C...+70 °C
Ambient temperatures		+5 °C...+50 °C
Ambient humidity (non-condensing)		10 – 95% rel. humidity
Connector lock C14/C20		1 x (optional additional locks 7979.020)
Covers C13		Optional 7955.010
Covers C19		Optional 7955.015

Power Distribution Unit

Technical specifications

Compact power distributor for use in IT server and network racks. Please observe the relevant product dimensions and check whether the PDU can be installed in your preferred rack. The PDU dimensions and the minimum rack height required may be found in the ordering table from page 733. The technical specifications listed below apply wholly or partially to the following PDU products:

- PDU metered (power measurement at the infeed or per phase. Without switching function)
- PDU metered plus (power measurement per individual outgoing slot. Without switching function)
- PDU switched (power measurement at the infeed or per phase. With switching function)
- PDU managed (power measurement per individual outgoing slot. With switching function)

Technical specifications apply to the following product variants:

PDU metered 7979.2XX, PDU metered plus 7979.5XX, PDU switched 7979.3XX, PDU managed 7979.4XX

Equipment		
Input voltage range (L – N)	230 V (400 V, 3~), 50 – 60 Hz	
Input current	16 A/32 A (depending on product variant)	
No. of phases	1 or 3 depending on product variant	
PDU inherent supply	Integral long-range SMPS, error-tolerant from all phases	
PDU power consumption	approx. 10 W	
Redundant power supply via PoE	Yes (with PDU switched, PDU managed)	
Marking of phases (3-phase PDUs only: L1, L2, L3)	Rittal Power Pink, black, white	
Slots type EN 60 320/C13	Quantity depends on version	
Slots type EN 60 320/C19	Quantity depends on version	
No. of circuit-breakers	2 (single-phase) or 6 (3-phase) with 32 A version	
Hydraulic-magnetic protective circuit-breaker	16 A (Carling)	
Slots individually switchable	Yes, only for PDU switched, PDU managed (bistable relay, minimal inherent consumption)	
Connector, PDU input	EN 60 309/CEE or EN 60 320-C20 (depending on product variant)	
Length of connection cable	3 m	
Connection cable type	H05-VV	
No. of wires	3/5 (single-phase/3-phase PDU)	
Cable cross-section	2.5 mm ² /4.0 mm ² (for 16 A/32 A versions)	
PDU enclosure width	44 mm (1 U)	
PDU enclosure depth	70 mm	
PDU enclosure height (length)	Depends on product variant	
PDU material	Aluminium, anodised in RAL 9005 (black, other colours may be configured)	
PDU mounting adaptor	Plastic, black	
PDU mounting options	On the enclosure frame, at the side of the 482.6 mm (19") mounting frame (zero-U space) as well as on the cable route (push-button attachment)	
Measurement functions (input/phase or output slot)	Values recorded (standard configuration)	Voltage (V), phase current (A), frequency (Hz), active power (kW), active energy (kWh), apparent power (VA), apparent energy, reactive power, power factor, neutral-conductor measurement / load imbalance detection, crest factor, THDU/THDI, fuse monitoring (with 32 A versions) and operating hours meter
	Acquired values (individually configurable)	Differential current measurement (RCM type B), measurement range: 0 - 100 mA AC, max. 6 measuring points per PDU supported, input per phase/per fuse
	Overvoltage protection (type 3, replaceable with the system operational)	Electronic monitoring with PDU metered, metered plus, switched, managed, with PDU basic via floating alarm contact
	Voltage measurement range	90 V – 260 V
	Voltage resolution	0.1 V
	Current measurement range	0 – 16/32 A (depending on product variant)
	Current resolution	0.1 A
	Measurement accuracy	Typ. 1%
Freely settable limit values for warning/ alarm	Yes	
Operating hours meter	Yes	
Display	TFT colour display, RGB 128 x 128 pixels, LED per slot (for PDU switched, PDU managed)	
Network interface	2 x RJ45, 10/100/1000 Mbit/s	
Supported protocols	TCP/IP v4 and v6, HTTP, HTTPS, SSL, SSH, NTP, Telnet, DHCP, DNS, NTP, Syslog, SNMP v1, v2c and v3, XML, FTP/SFTP (update/file transfer), e-mail forwarding (SMTP), OPC-UA server, Modbus/TCP	
User administration including rights management	Yes	
LDAP(S)/Radius/Active Directory connection	Yes	
Interfaces		
USB port for firmware update, data logging function, mass configuration	Yes	
Serial interface	RS232 (RJ12) for LTE unit, scripting, CLI	
Digital input	Floating contact	
Alarm (acoustic)	Piezo beeper	
CAN bus interface	RJ45, for connecting sensors	
CAN sensor types	Temperature, temperature/humidity (combined), infrared access sensor, vandalism sensor, handle systems (except wireless) and automatic door opening	
Max. number of sensors per PDU	8 sensor configuration freely selectable	
Plug & play drivers in the Rittal RiZone DCIM software	Yes	
Conformity	CE, EAC	

We reserve the right to make technical modifications

Power Distribution Unit

Ambient monitoring with up to 8 CMC III sensors,
see page 730

Modular Power Distribution Unit

Flexible power distribution in IT racks

Maximum efficiency

- A modern PDU (PSM) allows you to respond flexibly at any time to changing requirements for the IT power supply in the server rack, even years later. You can change the slot configuration of the modular PDU (PSM) at any time, and even add completely new functions, without having to interrupt the power supply to the IT rack.
- The vertical, contactless busbar as the basic equipment for any IT rack permits a high degree of flexibility with versatile, plug-in modules with different socket types that may be exchanged while the system is operational.
- Patented plug & play system for exchanging modules while operational. In redundant systems, the circuit is changed by simply rotating the module.

Monitor, control and switch

- Power measurement and switching functions for the output slots can be added to any busbar with these plug-in modules. The modules are also suitable for upgrading existing installations if it becomes necessary to record the power data or add a switching option for the connected equipment.
- The outgoing slots may be switched individually and in groups, with the status for each slot indicated by an LED.
- Voltage, current and active power limits may be configured to suit your requirements. This supports the implementation of ISO 50001 and EN 600-2-2.

Impressive functions

- Extensive power measurement and switching functions for each output slot, both individually and in groups
- Easily integrated into the CMC III monitoring system
- Single-phase or 3-phase infeed, up to 22 kW per PSM busbar
- All standard protocols supported in conjunction with CMC III

Modular PDU (PSM)

Modular busbars

PSM busbars and PSM socket modules

PSM busbars

The modular system facilitates basic configuration of the racks, thanks to a vertical support rail with single-/3-phase infeed. The various socket modules to supply the active components may be snap-fitted into the support rail. This can even be done whilst the system is operational, because the support section is shock hazard-protected.

PSM socket modules

The various modules, earthing pins, IEC 60 320 etc. may be inserted into the support rail in any combination. This is easily achieved, even by non-electricians, thanks to the shock hazard protected plug & play system.

Approvals:

Available on the Internet

Technical specifications/benefits:

- Each socket module picks off a phase on the support rail, either from infeed **A** or from the redundant infeed **B**, depending on the direction of connection
- Single-/3-phase construction with a maximum current of 2 x (3 x 16 A)
- 3-phase redundant infeed supported
- The redundant circuit is completely separate from the 3 phases of the support rail
- Modules may be retrofitted whilst operational
- Modules may be equipped with integral overcurrent protection, so that only the affected module is deactivated in the event of an excessively high current; the other modules remain operational
- Overvoltage protection may be integrated into the supply line
- Various modules also available with current measurement and switchable outputs

Modular PDU (PSM)

Modular PDU (PSM)

Modular measurement bars

PSM measurement bar for CMC III

Measurement bars for direct connection to the CMC III system. With a PSM mounting kit, the measurement bar may be vertically mounted in 2000 mm high VX IT racks. Display and monitoring of all major output parameters is supported, separated by phase and infeed. An integral display provides a local on-site display in the rack. Remote administration and network connectivity are created via the CMC III system.

Benefits:

- Modular extendible system
- For 16 A and 32 A phase current
- Various PSM connection modules (pin patterns)
- PSM modules may be connected with the system operational
- Easy to assemble
- CAN bus for connection to CMC III system
- Extensive management and monitoring monitoring functions (via CMC III)
- High-MTBF and measurement accuracy of 1 %
- Energy-efficient electric design – minimal inherent power consumption
- High-quality aluminium housing, for flexible mounting

Measurement functions:

- Voltage (V), current (A), frequency (Hz)
- Active power (kW), active energy (kWh), apparent power (VA), apparent energy (kVAh)
- Power factor (cos phi)
- Zero conductor current measurement/ load imbalance detection
- Measurement per phase or infeed
- Measurement accuracy 1% (kWh) to IEC 62 053-21

Material:

- Extruded aluminium section, anodised

Protection category IP to IEC 60 529:

- IP 20

Standards:

- EN 61 000-6-1
- EN 61 000-6-2
- EN 55 022

Low Voltage Directive:

- 2014/35/EU

EMC directive:

- 2014/30/EU

Approvals:

Modular PDU (PSM)

PSM measurement modules

PSM measurement modules with CAN bus

for PSM busbars

A power meter and switching functions for the output slots can be added to any PSM busbar with these PSM plug-in modules. The modules are also suitable for upgrading existing PSM installations if it becomes necessary to record the power data or add a switching option for the connected equipment.

There are three variants available with different socket types. In the PSM busbar, the PSM modules occupy two module slots each. Measurements are displayed locally on a backlit LC display. For quick checks, the colour of the display backlight changes to red if current and power limits are exceeded.

Functions:

- Simple, shock-hazard-protected, plug & play installation with the system operational
- Measurement of power consumption per module
- Output slots may be switched individually and in groups
- Blue LEDs per slot to visually indicate the switching status
- Status LEDs for CAN bus communication per module
- LC matrix display with multi-coloured backlight for local display
- Location sensor for correct display and Web view in 90° increments
- Adjustable limits for voltage, current and active power
- Configurable overload detection per module
- High level of measurement accuracy
- Alarm signalling via the display
- Facilitates the implementation of requirements to ISO 50 001 and EN 50 600-2-2
- Stable aluminium section with plastic socket inserts
- Supports universal connector locking of the IEC 60 320, C13 and C19 slots
- Supports the closure of unneeded IEC 60 320, C13 and C19 slots
- PSM module is easily fitted into and removed from the PSM busbar, for use at different locations
- Compatible with the European PSM busbar range
- Depending on the PSM busbar, up to four modules per bar may be fitted
- In redundant systems, the circuit may be switched over by rotating the module
- For ambient temperatures up to +60 °C

Integration into the CMC III monitoring system

Multiple modules may be interconnected and linked directly to the CMC III enclosure monitoring system via the integral CAN bus interface. The PSM measurement module supports the configuration of an energy data management (EMS) system to ISO 50001. This may be combined with the CMC III. Using the CMC III, the individual output slots of the PSM modules may be switched individually or in groups via the network. Similarly, data logging, including diagrammatic representation, is also available via the CMC III website. Data is forwarded from the CMC III via an Ethernet interface with common protocols such as SNMPv3, Modbus/TCP and OPC-UA. The switch function is easily linked to other sensors connected to the CMC III monitoring system (e.g. CMC III temperature sensor, smoke alarm or DET-AC III extinguisher system). In larger installations, we recommend incorporating the CMC III PU with PSM modules into a DCIM software package (e.g. RiZone).

Additional functions:

- Alarm management via CMC III (e.g. e-mail or text message)
- Visualisation of the switching status on the CMC III website and RiZone
- Up to 16 PSM modules on one CMC III PU (per IP address)
- Rights management via CMC III (e.g. restriction of the switching function)

- 1** Voltage supply 24 V (DC) and redundant voltage supply 24 V (DC)
- 2** Supports up to 16 sensors per CAN bus (depending on the power supply/connection combinations)
- 3** Supports up to 8 PSM modules per CAN bus

Modular PDU (PSM)

PSM measurement modules

PSM measurement modules with CAN bus

for PSM busbars

Supply includes:

- PSM measurement module, depending on type
- CAN bus connection cable, 1 m long

Also required:

- PSM busbars and accessories, see page 745
- CMC III Processing Unit/Compact, see page 803
- CMC III accessories, see page 806

Accessories:

- Slot cover, see page 752
- Connector lock, see page 752

PDU/Modular PDU (PSM)

Accessories

Mounting kit for PSM busbars

Benefits:

- In the VX IT rack, orientation of the busbar is possible either to the rear or to the enclosure interior

Material:

- Sheet steel, zinc-plated

Supply includes:

- 2 mounting brackets
- Assembly parts

To fit enclosure type	Installation options	Packs of	Model No.
1 TE 8000	Static	1 pc(s).	7000.684
2 VX IT	Plug & play on the rack frame	1 pc(s).	7859.060
3 VX IT	Plug & play in the zero-U space	1 pc(s).	7859.065

Connection cable for PSM busbars

Connection cable, 3-phase			
	Length m	Packs of	Model No.
CEE-conforming 5-pole/16 A	3	1 pc(s).	7856.025
Connection cable, 1-phase			
CEE-conforming 3-pole/16 A	3	1 pc(s).	7856.026
Connection cable, UPS, single-phase			
C14/X-COM 10 A/UPS, 1 – 2 kVA	3	1 pc(s).	7856.027
C20/X-COM 16 A/UPS, 3 kVA	3	1 pc(s).	7856.030
Connection cable C19/C20			
16 A	2	1 pc(s).	7200.217
Connection cable C13/C14			
10 A	0.5	2 pc(s).	7856.014

Overvoltage protection PSM

Connected upstream of the busbar.

Rated operating voltage:

- 230 V, 3~

Rated current:

- 16 A

Overvoltage protection:

- Fine fuse (type 3 arrester)

Connections:

- Jack Wago X-COM
- Connector Wago X-COM

Overvoltage protection	Packs of	Model No.
With adaptor connector	1 pc(s).	7856.170

Note:

- With redundant infeed to the PSM busbar, 2 x this item is required

PDU/Modular PDU (PSM)

Accessories

Cable lock PSM

for all modules with EN 60 320 C13 connector configurations

All terminal connection cables are therefore protected against unintentional disconnection of the power supply. Two bars are needed for two cables.

Type	Packs of	Model No.
Bar	20 pc(s).	7856.013

Accessories:

- Optimum locking function is only achieved with connection cable 7856.014, see page 751

Connector lock

for C14 and C20 connectors

The universal lock can be used to latch IEC 60 320 C14 or C20 connectors in place to prevent accidental removal. Latching is adjustable and adapts to standard connector forms. This creates a reliable manufacturer-independent connection for most connection cables commonly available on the market.

Material:

- Plastic (PA 12)

Colour:

- RAL 9005

Packs of	Model No.
20 pc(s).	7979.020

Slot cover

for C13 and C19 slots

The slot cover is used to close open, unused IEC 60 320 C13 and C19 slots. This prevents accidental overloading of individual phases. The cover can be removed at any time using the enclosed release tool (or a slotted screwdriver).

Material:

- Plastic (PA 66)

Colour:

- RAL 9005

Supply includes:

- Release tool

For slots	Packs of	Model No.
C13	10 pc(s).	7955.010
C19	10 pc(s).	7955.015

PDU mounting adaptor

for TE

For installing the power distribution unit PDU in the zero-U space of the TE. The divider kit included with the supply of the PDU is required for mounting.

Material:

- Sheet steel, zinc-plated

Supply includes:

- Assembly parts

Packs of	Model No.
2 pc(s).	7000.688

Modular PDU (PSM) Page 744 **Power basic** Page 733

Autonomous energy metering unit (including differential current monitoring) in a 1 U/19" form factor. The unit is incorporated into the supply lead to the equipment, a PDU basic or a modular PDU without measurement function. All key electrical characteristics are logged in the same way as with a PDU metered. Additionally, the measurement module features an integral differential current measurement (type B) for fault current monitoring of the connected equipment. Consumption data is conveniently retrieved via a network interface or locally via a TFT display. Additionally, all the PDU metered interfaces, e.g. for connecting external sensors and smart handle systems, are available.

Benefits:

- The ideal solution for upgrading existing installations which lack modern measurement functions
- Includes differential current measurement/fault current monitoring
- Extensive measuring functions (as with PDU metered)
- Versions for 16 A/32 A phased current, 1-phase/3-phase
- Versions with connection cable and CEE connectors, ready to use immediately
- Fast upgrade, installation only requires a brief interruption to operation
- Compact 482.6 mm (1 U 19") enclosure with pre-assembled connection cables
- High degree of measurement accuracy (typically $\pm 1\%$)

- Energy-efficient design, minimal inherent power consumption
- Acoustic alarm may be set if certain limits are exceeded (such as fault currents)
- Integral GbE interface with web server for autonomous operation without any additional components
- Sensor interface for up to 8 CMC III/PDU ambient sensors (including access management/handle systems)

Material:

- Extruded aluminium section, anodised

Colour:

- RAL 9005

Protection category IP to IEC 60 529:

- IP 51

Standards:

- EN 62 368-1
- EN 61 000-4
- EN 61 000-6
- EN 55 022

Low Voltage Directive:

- 2014/35/EU

EMC directive:

- 2014/30/EU

Upgrade solution

Modular PDU (PSM) Page 744 Power distribution unit (PDU) Page 732

Compact overvoltage protection module for protecting terminal equipment (type 3) with alarm contact, for mounting on the enclosure frame. The modules are used to protect sensitive hardware and represent the third or final stage in the overvoltage protection chain. Additionally, other type 1 or type 2 overvoltage protective devices must be present in the building installation or power distribution system.

Benefits:

- Fully wired overvoltage protection solution, ready to connect and use immediately
- For universal use
- High availability – In the event of a fault, arresters can be replaced without interrupting the power supply
- Maintenance-friendly version with a plug-in system for the protective modules
- Versions for 16 A/32 A phased current, 1-phase/3-phase
- Versions with connection cable and CEE connectors
- Ready to use immediately on TN-S networks
- Connection paths L/N and N/PE
- Optical status monitoring directly on the arrester
- Status message via floating alarm contact for forwarding e.g. to building services management
- Space-saving assembly thanks to compact design

Material:

- Extruded aluminium section, anodised

Colour:

- RAL 9005

Protection category IP to IEC 60 529:

Air Handling Units AHU

High-efficiency room cooling for large data centres	796
-----------------------------------------------------------	-----

Your benefits

- State-of-the-art climate control technology, from cooling of a single rack through to entire data centres
- Individual climate control concepts for rack, suite and room cooling
- Enhanced security plus superior energy and cost efficiency
- Optimisation with aisle containment and cross-system control concepts
- Energy-efficient cooling using IT chillers
- Minimise your operating costs with free cooling
- Environmentally friendly, thanks to resource savings and reduced CO₂ emissions
- Planning, assembly, commissioning and servicing – all from a single source!

Sample applications

- 1 Aisle containment, see page 788
- 2 Liquid Cooling Package LCP, from page 773
- 3 IT chiller with integral free cooling (partner product), see page 794
- 4 Pipework
- 5 Raised floor for cold air supply
- 6 Computer Room Air Conditioner CRAC (partner product), see page 792
- 7 Roof-mounted cooling unit Blue e+ IT, see page 764
- 8 Wall-mounted cooling unit Blue e+ IT, see page 765
- 9 LCU DX, see page 768
- 10 Inverter-regulated external unit, see page 768

Low IT thermal load per rack

Medium IT thermal load per rack

From cooling a single rack through to entire data centres – climate control technology from Rittal covers all your applications. Whether you opt for fan systems, refrigerant-based or water-based solutions, reliability and optimum energy and cost efficiency are the paramount considerations.

Low density

Professional IT climate control for individual IT racks and mini data centres

Mid density

Bespoke solutions for more demanding data centres

High density

The most powerful solutions for high-end data centres

High IT thermal load per rack

Cooling units Blue e+ IT

Rack cooling with innovative hybrid technology

Blue e+ IT – the world's most efficient IT cooling unit

- Cooling of closed IT racks with a heat loss of up to 3 kW in ventilated rooms
- Cooling of edge data centres and network racks in ventilated corridor distributor rooms
- Heat pipe technology reduces operating costs
- Simple installation equals minimal commissioning costs
- Suitable for use in industrial environments, thanks to the high protection category

How are Blue e+ units used?

- The roof-mounted unit is mounted on the racks. The cold air is blasted immediately in front of the 482.6 mm (19") level and drawn in by the IT equipment. The warm air expelled to the rear is drawn in and cooled down again by the roof-mounted unit. Air baffle plates on the 482.6 mm (19") level separate the cold and hot air.
- The wall-mounted unit is mounted on the rear door of the IT rack. The outlet opening of the cooling unit docks onto an air duct which directs the cold air forwards, in front of the 482.6 mm (19") level. There, the cold air is drawn in by the IT equipment, heated, expelled to the rear and then drawn in again by the cooling unit.
- In both applications, air baffle plates on the 482.6 mm (19") level separate the cold and hot air

Simply efficient

- Active cooling circuit with speed-regulated components for demand-based cooling
- Integral heat pipe for passive cooling achieves up to 75% energy savings
- USB interface, Blue e+ app, IoT interface, touchscreen display
- Ethernet connection and data retrieval via SNMP, OPC-UA and Modbus/TCP
- Blue e+ efficiency calculator

Roof-mounted cooling unit Blue e+ IT

Accessories for IT cooling Page 784 IT rack system Page 684 Roof-mounted cooling unit Page 498 IoT interface Page 554

The use of Blue e+ technology makes this bundle ideally suited to the requirements of energy-efficient cooling of IT racks. In combination with the IoT interfaces, it supports communication with various different systems as well as monitoring and energy management.

Benefits:

- Energy savings thanks to speed-regulated components and heat pipe technology
- Suitable for international use due to a unique multi-voltage capability
- Intuitive operation due to touch display and intelligent interfaces

Functions:

- The cold air is directed immediately in front of the 482.6 mm (19") level and drawn in by the IT equipment. The warm air expelled to the rear is drawn in and cooled down again by the roof-mounted unit. Air baffle plates on the 482.6 mm (19") level separate the cold and hot air.

Temperature control:

- e+ controller

Protection category IP to IEC 60 529:

- External circuit IP 54 with pleated filter
- Internal circuit IP 54 with pleated filter

Supply includes:

- Bundle comprised of the following individual components:
- Roof-mounted cooling unit (3185.730)
 - IoT interface (3124.300)
 - Temperature sensor (3124.400)
 - Connection cable (7030.091)
 - Nylon loop cable holder (7111.350)

Note:

- Firmware can be updated using the RiDiag III software (3159.300)

Liquid Cooling Unit DX

Efficient cooling with no loss of space

Single or redundant – your compact IT cooling solution

- Cooling of closed IT racks with a heat loss of up to 6.5 kW
- Cooling of edge and micro data centres
- Cooling of IT equipment in uncooled IT rooms or decentralised data centre applications
- Single version (one cooling circuit) and redundant version (two separate cooling circuits) have the same internal unit dimensions, but two independent external units

How are the LCU DX units used?

- The LCU DX is fitted in the IT rack at the side, to the left or right of the 482.6 mm (19") level
- The cold air is blasted in front of the slightly recessed 482.6 mm (19") level across the entire height of the LCU DX and drawn in by the IT equipment
- The warm air expelled to the rear is drawn back in over the full height of the LCU DX at the rear and cooled
- Air baffle plates on the 482.6 mm (19") level separate the cold and hot air

The compact system solution

- Active cooling circuit with speed-regulated components for demand-based cooling
- By only cooling the IT rack rather than the entire room, energy savings are achieved
- Unlike conventional ceiling and wall cassettes, cooling is demand-based
- All waste heat from the IT equipment is dissipated out of the building and emitted to the surrounding environment at the site of the external condenser
- May be combined with integral rack extinguisher systems

Liquid Cooling Unit

Network/server racks VX IT Page 686 Micro Data Center Page 842

Applications:

- Cooling unit for VX IT server racks and for Micro Data Centers

Benefits:

- Space-saving solution by installing the internal unit in the VX IT server enclosure or the Micro Data Center
- Maximum energy efficiency due to EC fan technology and IT-based control
- Control of the server inlet temperature
- The inverter-controlled compressor adapts the cooling output to the current heat loss inside the enclosure
- Absorbed thermal energy is emitted directly to the ambient air at the (inverter-controlled) external unit's location, without heating up the installation room

Functions:

- The device supports front-to-back air routing typical of IT applications, and regulates the server inlet temperature to the set value

Material:

- Sheet steel, spray-finished

Colour:

- Internal unit: RAL 7035
- External unit: white

Protection category IP to IEC 60 529:

- Internal unit IP 20
- External unit IP X4

Supply includes:

- Internal unit (evaporator coil)
- External unit (inverter-controlled)
- 482.6 mm (19") mounting trim panel with display and control components
- Condensate hose

Note:

- Below the operating limit, fluctuations in the air inlet temperature are possible
- The electrical connection is made on the external unit. The internal unit is supplied by the external unit.

Installation in VX IT:

- 482.6 mm (19") mounting angles, standard or dynamic, must be offset in the width by 50 mm off-centre
- The front distance between the 482.6 mm (19") mounting angles and the front edge of the VX frame must be at least 100 mm
- Two punched sections with mounting flanges are required for attachment on the inner mounting level
- Air baffle plates are required to separate the hot/cold zones within an enclosure
- A base/plinth is required to route the cable downwards

- 1 Internal unit
- 2 External unit
- 3 Refrigerant lines
- 4 Power supply
- 5 Data cable

Network/server racks VX IT Page 686 Micro Data Center Page 842

Applications:

- Cooling unit for VX IT server racks and for Micro Data Centers

Benefits:

- Space-saving solution by installing the internal unit in the VX IT server enclosure or the Micro Data Center
- Maximum energy efficiency due to EC fan technology and IT-based control
- Control of the server inlet temperature
- The inverter-controlled compressor adapts the cooling output to the current heat loss inside the enclosure
- Absorbed thermal energy is emitted directly to the ambient air at the (inverter-controlled) external unit's location, without heating up the installation room

Functions:

- The redundant variants have two cooling circuits and controllers inside the internal unit, plus two inverter-regulated external units. The fault and operating hours changeover allows regular switching between the two external units, and ensures automatic changeover in the event of a malfunction or failure.
- The device supports front-to-back air routing typical of IT applications, and regulates the server inlet temperature to the set value

Material:

- Sheet steel, spray-finished

Colour:

- Internal unit: RAL 7035
- External unit: white

Protection category IP to IEC 60 529:

- Internal unit IP 20
- External unit IP X4

Supply includes:

- Internal unit (evaporator coil)
- 2 external units (inverter-controlled)
- 482.6 mm (19") mounting trim panel with display and control components
- Condensate hose

Note:

- Below the operating limit, fluctuations in the air inlet temperature are possible
- The electrical connection is made on the external unit. The internal unit is supplied by the external unit.
- A separate power supply may be needed, depending on the external unit

Installation in VX IT:

- 482.6 mm (19") mounting angles, standard or dynamic, must be offset in the width by 50 mm off-centre
- The front distance between the 482.6 mm (19") mounting angles and the front edge of the VX frame must be at least 100 mm
- Two punched sections with mounting flanges are required for attachment on the inner mounting level
- Air baffle plates are required to separate the hot/cold zones within an enclosure
- A base/plinth is required to route the cable downwards

Service with manufacturer know-how

Our service experts would be pleased to offer you their advice on our full range of customer services:

- Construction, installation and commissioning
- Fast trouble-shooting
- Inspection
- Leak test
- Professional maintenance
- Original spare parts
- Individual service contracts
- Efficiency and system consulting
- Modernisation

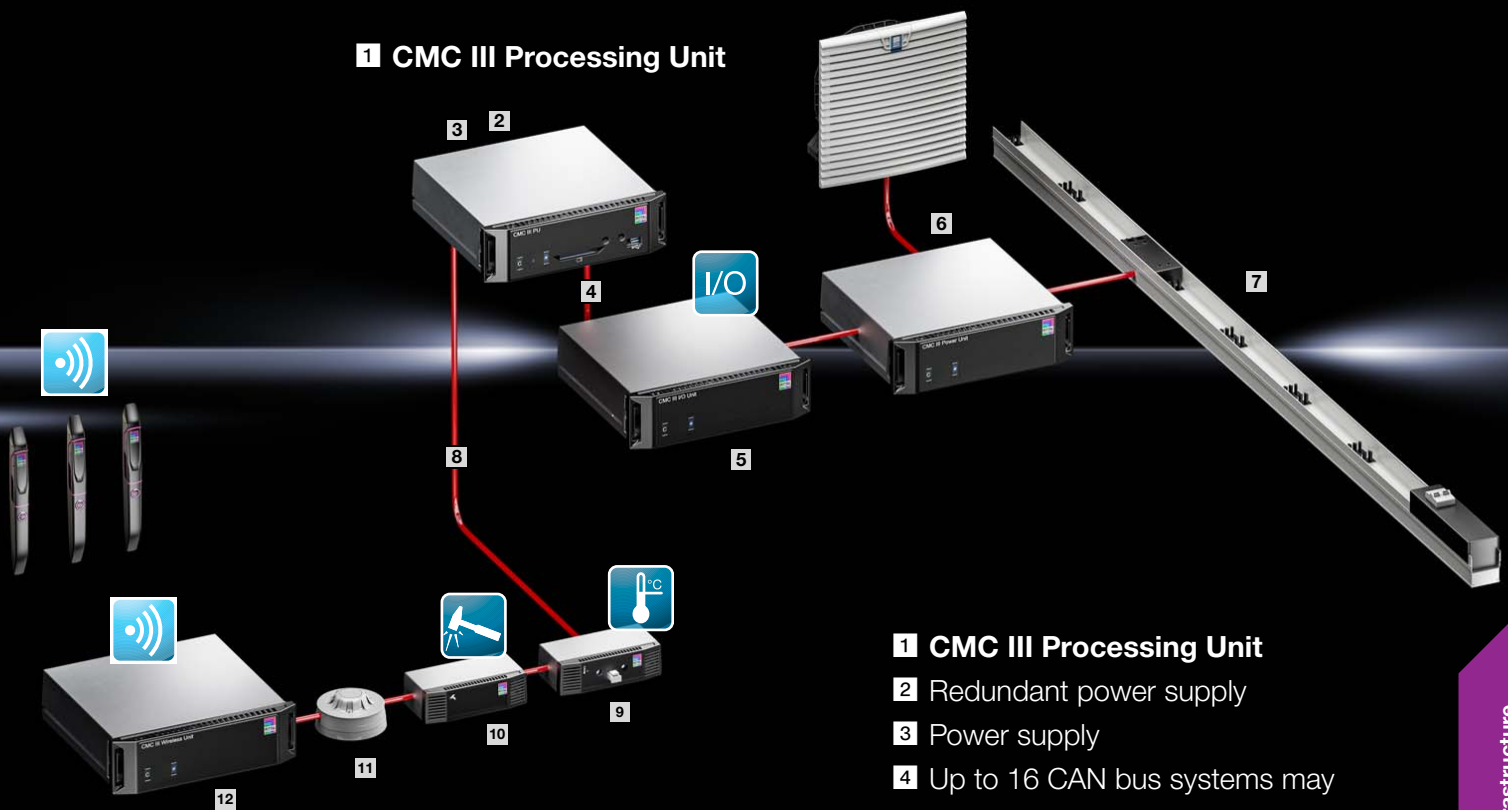

We would be pleased to visit you in person.

CMC III – Monitoring system

Computer Multi Control (CMC) is an alarm system for network and server enclosures, standard enclosures, containers and rooms.

1 CMC III Processing Unit

1 CMC III Processing Unit

- 2 Redundant power supply
- 3 Power supply
- 4 Up to 16 CAN bus systems may be connected
- 5 CMC III I/O unit
- 6 CMC III power unit
- 7 CMC III PSM measurement bar for direct connection
- 8 Up to 16 CAN bus systems may be connected
- 9 CMC III temperature sensor
- 10 CMC III vandalism sensor
- 11 CMC III smoke alarm
- 12 CMC III Wireless Unit with radio comfort handles VX

Liquid Cooling Packages DX

The new output categories for suite cooling

LCP DX – An innovative solution for both rack and suite cooling

- Cooling of closed and open IT racks with high heat losses in the output categories 12 kW, 20 kW and 35 kW
- Cooling of IT equipment in uncooled IT rooms or decentralised data centre applications (edge)
- Ideal for IT cooling in small and medium-sized enterprises (SMEs)
- 35 kW DX/FC variant saves energy by using indirect free cooling
- With suite cooling, additional equipment such as UPS, printers and other equipment in the installation room are cooled at the same time

How are the LCP DX units used?

- LCP rack DX units cool up to two closed IT racks to the left and right of the unit. The cold air is blasted in front of the slightly recessed 482.6 mm (19") level across the entire height of the LCP DX and drawn in by the IT equipment. The warm air expelled to the rear is drawn in again across the full height of the LCP DX at the rear and cooled.
- LCP Inline DX units cool multiple open IT racks in suites on both the left and right. To this end, the cold air from the LCP Inline DX is blasted into the cold aisle and drawn in by the IT equipment via the perforated front doors of the IT racks. The air heated by the IT hardware is blasted into the hot aisle via the perforated rear door of the IT rack and from there, is drawn in via the perforated rear door of the LCP Inline DX and cooled again. Aisle containment separates the air in the cold/hot aisle.
- In both cases, air baffle plates on the 482.6 mm (19") level separate the cold and hot air within the IT rack.

Customer benefits

- Active cooling circuit with speed-regulated components for demand-based cooling
- Regulated to the IT inlet temperature
- Hot spot cooling directly at the point of heat generation
- All waste heat from the IT equipment is dissipated and emitted to the surrounding environment at the site of the external condenser
- Depending on the application, this may be combined with integral rack or room extinguisher systems

Liquid Cooling Package

Accessories for IT cooling Page 784 Network/server racks VX IT Page 686 System accessories Page 877

Applications:

- Ideal for IT cooling of small and medium-sized locations
- One or two racks can be cooled separately

Benefits:

- Maximum energy efficiency due to EC fan technology and IT-based control
- Minimal pressure loss at the air end, which in turn minimises the power consumption of the fans
- Control of the server inlet temperature
- Thanks to the speed-regulated compressor, the cooling output is ideally adapted to actual requirements

- With redundant temperature sensor integrated at the air end as standard
- Specific maintenance of the LCP DX due to separation of cooling and server racks

Functions:

- The LCP draws in the air at the sides at the rear of the server enclosures, cools it using high-performance compact impellers, and blows the cooled air back into the front part of the server enclosure at the sides
- Absorbed thermal energy is emitted to the ambient air at the external condenser location, without heating up the installation room

IT monitoring:

- Direct connection of the unit via SNMP over Ethernet
- Integration into RiZone

Temperature control:

- Linear fan control
- Inverter-controlled compressor

Material:

- Sheet steel, spray-finished

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- IP 20

Cooling medium:

- Refrigerant

Optional:

- Humidifier
- Dehumidification and reheater
- Condensate drain pump
- Higher cooling output
- Low-temperature/high-temperature condenser (-40 °C/+53 °C)

Note:

- Variant with UL approval available on request

Liquid Cooling Package

Accessories for IT cooling Page 784 Network/server racks VX IT Page 686 Aisle containment Page 788

Applications:

- Ideal for IT cooling of small and medium-sized locations
- One or two racks can be cooled separately

Benefits:

- Maximum energy efficiency due to EC fan technology and IT-based control
- Minimal pressure loss at the air end, which in turn minimises the power consumption of the fans
- Temperature monitoring and control
- With redundant temperature sensor integrated at the air end as standard

- Thanks to the speed-regulated compressor, the cooling output is ideally adapted to actual requirements
- Specific maintenance of the LCP DX due to separation of cooling and server racks
- Using LCP DX/FC variants in combination with indirect free cooling helps to save operating costs

Functions:

- The LCP is designed for siting within a bayed enclosure suite. Hot air is drawn in from the aisle at the rear of the device, cooled by the high-capacity compact impellers, and blown back into the room or cold aisle after cooling.

- The LCP DX/FC variants include both a refrigerant and a water/glycol heat exchanger. There is an additional free cooler integrated into the external condenser.
- Absorbed thermal energy is emitted to the ambient air at the external condenser location, without heating up the installation room

IT monitoring:

- Direct connection of the unit via SNMP over Ethernet
- Integration into RiZone

Temperature control:

- Linear fan control
- Inverter-controlled compressor

Material:

Rittal IT health check – do you know the real condition of your data centre?

Upon request, we can perform a free health check on your data centre:

- Evaluation of your current solution
- Assessment of the risk of obsolescence
- Analysis of energy consumption
- Due consideration of current laws and regulations
- Elaboration of optimal measures, including individual guidance on actions to safeguard your efficiency and availability

IT cooling calculator

For simple calculation of the required cooling output of LCP CW cooling units

Configure online at www.rittal.com/configurators

IT infrastructure

Liquid Cooling Packages CW

High-performance cooling

LCP CW – Efficient high-performance cooling

- Cooling of closed and open IT racks with high heat losses of up to 53 kW
- Cooling of IT equipment in uncooled IT rooms or decentralised data centre applications (edge)
- Ideal for IT cooling in medium and large data centre infrastructures as well as high-performance computing (HPC)
- Saves energy by using indirect free cooling
- Cooling of very high heat losses with a small footprint (HPC)

How are the LCP CW units used?

- LCP rack CW units cool up to two closed IT racks to the left and right of the unit. The cold air is blasted in front of the slightly recessed 482.6 mm (19") level across the entire height of the LCP rack CW and drawn in by the IT equipment. The warm air expelled to the rear is drawn in again across the full height of the LCP rack CW at the rear and cooled.
- LCP Inline CW units cool multiple open IT racks in suites on both the left and right. Cold air is blasted into the cold aisle via the perforated front door or at the side of the LCP Inline CW, and from here, is drawn in by the IT equipment via the perforated front doors of the IT racks. Warm air from the IT hardware is blasted into the hot aisle via the perforated rear door of the IT rack and from there, is drawn in via the perforated rear door of the LCP Inline CW and cooled again.
- In both cases, air baffle plates on the 482.6 mm (19") level separate the cold and hot air within the IT rack.

A configurable portfolio

- Cooling output is achieved with high water inlet temperatures, which enables a high proportion of free cooling
- High water return temperatures with LCP CW glycol variants help to improve heat recovery
- All waste heat from the IT systems is dissipated out of the building and emitted to the surrounding environment at the installation site of the external chiller or free cooler
- Depending on the application, this may be combined with integral rack or room extinguisher systems
- A calculator enables the simple selection of Liquid Cooling Packages CW for rack and suite cooling in the IT infrastructure.
- IT cooling calculator:
www.rittal.com/configurators

Liquid Cooling Package

Accessories for IT cooling Page 784 Network/server racks VX IT Page 686 Chillers for IT cooling Page 795

Benefits:

- Maximum energy efficiency due to EC fan technology and IT-based control
- Minimal pressure loss at the air end, which in turn minimises the power consumption of the fans
- Control of the server inlet temperature
- With redundant temperature sensor integrated at the air end as standard
- Optimum adaptability due to dynamic, continuous control of the cold water volume flow
- By using high water inlet temperatures, the proportion of indirect free cooling is increased, which in turn reduces operating costs
- Targeted cooling output due to modular fan units

- Fan modules configurable as n+1 redundancy
- Standard 3-phase connection for electrical redundancy
- The separation of cooling and enclosure prevents the ingress of water into the server enclosure
- A footprint of max. 0.36 m² for all cooling services
- Improved heat recovery, thanks to high water return temperatures when using LCP CW glycol variants, for example in combination with a heat pump
- Optimum access for maintenance and servicing from the front and rear
- Tool-free replacement of the fan modules

Functions:

- The LCP draws in the air at the sides at the rear of the server enclosures, cools it using high-performance compact impellers, and blows the cooled air back into the front part of the server enclosure at the sides

IT monitoring:

- Monitoring of all system-relevant parameters such as server air intake temperature, server waste air temperature, water inlet/return temperature, water flow, cooling output, fan speed, leakage
- Direct connection of the unit via SNMP over Ethernet
- Integration into RiZone

Temperature control:

- Linear fan control
- Two-way control valve

Material:

- Sheet steel, spray-finished

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- IP 20

Optional:

- Fully integrated fire detection and extinguisher system
- Automatic server enclosure door opening
- Direct connection of additional CMC III sensors is supported
- Racks 2200 mm high

IT cooling

Accessories

Air duct

for wall-mounted cooling unit Blue e+ IT

For cold air infeed in front of the 482.6 mm (19") level in combination with the Blue e+ IT wall-mounted cooling unit.

Benefits:

- One air duct for different enclosure depths

Installation options:

- Mounting in the bottom 3 U of the 482.6 mm (19") level

Material:

- Sheet steel, spray-finished

Colour:

- RAL 9005

Supply includes:

- Assembly parts

Width mm	Height U	For enclosure depth mm	Packs of	Model No.
482.6	3	800 1000 1200	1 pc(s).	3312.820

Roof plate

for roof-mounted cooling unit Blue e+ IT

For mounting the roof-mounted cooling unit. The cut-out in the roof plate is arranged so that the roof-mounted cooling unit is positioned centrally on the enclosure.

Material:

- Sheet steel

Surface finish:

- Spray-finished

Colour:

- RAL 7035

To fit Model No.	Width mm	Depth mm	Packs of	Model No.
3312.800	800	800	1 pc(s).	3312.805

3312.800	800	1200	1 pc(s).	3312.807

Assembly

- Use the assembly parts of the existing solid roof plate for assembly

Sheet steel door

for wall-mounted cooling unit Blue e+ IT

For mounting the roof-mounted unit. The cut-out in the door is arranged so that the roof-mounted cooling unit is positioned centrally on the door.

Material:

- Sheet steel

Surface finish:

- Spray-finished

Colour:

- RAL 7035

Supply includes:

- Sheet steel door at the rear, 180° hinges
- Comfort handle for profile half-cylinders with security lock 3524 E
- Assembly parts

To fit Model No.	Width mm	Height mm	Packs of	Model No.

3312.810	800	2000	1 pc(s).	3312.816

Refrigerant lines

for LCU DX

For connecting the internal and external unit of the LCU DX. Consisting of intake gas line and liquid line. The refrigerant lines are insulated.

Design	Length m	Product-specific scope of supply	Packs of	Model No.
LCU DX 3 kW	20	Intake gas line ½" Liquid line ¼"	1 pc(s).	3311.495
LCU DX 6.5 kW	20	Intake gas line ¾" Liquid line ¾"	1 pc(s).	3311.496

Touchscreen display, colour

for LCP Rack/Inline CW

The display offers the opportunity of directly monitoring key functions of the LCP, and implementing settings.

Supply includes:

- Assembly parts

Packs of	Model No.
1 pc(s).	3311.030

Condenser unit

for LCP DX

The condenser units are necessary for operating refrigerant-based LCPs. Depending on the version, the units have an external condenser and fan, or additionally a free cooler. The variant with free cooler is needed for the combination variant LCP DX/FC. The units are suitable for roof and wall mounting.

Material:

- Sheet steel, spray-finished

Surface finish:

- Powder-coated, zinc-plated

Colour:

- RAL 9003

Supply includes:

- Assembly parts

Connection hose

for LCP Rack/Inline CW

Flexible connection hose at the bottom or top, may be cut to required length, including union nuts on both ends for connecting the LCP to existing pipe-work.

Material:

- EPDM

Length m	Water connections	Packs of	Model No.
1.8	1½"	2 pc(s).	3311.040

Rear adaptor

for LCP Inline CW

May be positioned to the rear of the set forward LCP Inline CW to close the existing gap to the rear section.

Material:

- Sheet steel, spray-finished

Colour:

- RAL 7035

Supply includes:

- Adaptor
- With roof plate
- Assembly parts

Width mm	Height mm	Depth mm	Packs of	Model No.
300	2000	200	1 pc(s).	3312.081

Condensate pump

for LCP Rack/Inline CW

For discharging condensate with LCP Rack/Inline CW applications.

Benefits:

- Plug & play installation in all LCP Rack/Inline CW variants

Supply includes:

- Condensate pump
- Condensate hose
- Condensate sensor
- Connection cable
- Assembly parts

Packs of	Model No.
1 pc(s).	3312.012

Fan module

for LCP Rack/Inline CW

To increase the cooling output, individual fan modules may be retro-fitted into the LCPs. Additional integration can also achieve redundancy and reduce the electrical power consumption of the LCP.

Packs of	Model No.
1 pc(s).	3313.016

The LCP 3313.130/.230/.530 (max. 30 kW) is supplied with one fan module as standard.

To achieve the max. cooling output, the customer/service should install two additional fan modules.

The LCP 3313.540/.550 (max. 30/28 kW) is supplied with two fan modules as standard.

To achieve the max. cooling output, the customer/service should install two additional fan modules.

The LCP 3313.250/.260/.560/.570 (max. 35/53/53/35 kW) is supplied with four fan modules as standard.

To achieve the max. cooling output, the customer/service should install two additional fan modules.

Note:

- The max. cooling output for the relevant LCP variants can be found in the order tables from page 774

Aisle containment

Liquid Cooling Package Page 772 **Network/server racks VX IT** Page 686

Slimline door element with viewing window and sliding door. Stable roof elements in a composite material with a high level of light permeability. Where required, safety glass may also be used. The aisle width is 1,200 mm.

Applications:

- Depending on the application, aisle containment may be used with CRAC systems or LCP Inline as hot or cold aisle containment

Benefits:

- Increased energy efficiency and performance capability of climate control
- Easily installed and retrofitted, as it is fully compatible with the VX IT rack system
- An inexpensive way to boost the performance of your existing installation, lengthening the investment cycle until a replacement needs to be purchased

Functions:

- Aisle containment is a combination of door and roof components which facilitate consistent separation of the hot and cold air in the data centre. Such separation is pivotal to saving energy and increasing the efficiency of the available climate control technology.

Material:

- Sheet steel, spray-finished

Colour:

- RAL 7035

Roof-mounted fans

for VX, VX IT, for the office sector

This roof ventilation concept offers many performance, assembly and cost benefits associated when using integrated ventilation systems. The roof-mounted fan may be ordered with and without a roof plate. For the version with roof plate, the roof-mounted fan is pre-installed. This roof plate also has an integral rear cable entry via a sliding plate with rubber cable clamp strip. Another outstanding feature is the enormous volumetric flow combined with exceptionally low noise levels, making it ideal for use in sensitive office areas.

Benefits:

- Easy assembly, the roof plate variant eliminates the need to create mounting cut-outs
- Fully wired ready for connection

Material:

- Sheet steel, spray-finished

Colour:

- RAL 7035

Supply includes:

- Roof-mounted fans
- Assembly parts

Note:

- Reduction in the specified air throughput to 800 m³/h at 40 Pa counterpressure using two vented base/plinth trim panels

- Thermostat, see page 547

Small cooling units

Fan mounting plate

for VX IT, TE

For active ventilation. The unit may optionally be extended with additional fans.

Applications:

- For use in the cut-out integrated into the roof plate

Colour:

- RAL 7035

Supply includes:

- 1 fan unit
- 2 fans
- 1 thermostat
- Connection cable, open-ended
- Assembly parts

Note:

- The noise level given refers to the first fan
- Connection via distributor box or country-specific connector

Accessories:

- Fan expansion kit, see page 790

Small cooling units

Cover plates for fan panels

for FlatBox

To cover unused fan panels when using fans in the FlatBox.

Material:

- Sheet steel

Surface finish:

- Powder-coated

Colour:

- RAL 7035

Supply includes:

- Assembly parts

Packs of	Model No.
6 pc(s).	7507.760

Vent cover

for VX, VX IT

The ideal addition for incorporating sealed racks into an existing central climate control system. The stepped connection is suitable for standard pipe diameters, thereby ensuring effective cooling thanks to targeted air exchange inside the rack.

Material:

- PET-G

Colour:

- Transparent

Supply includes:

- Assembly parts

Note:

- Required cut-out in the roof plate (W x D):
380 x 230 mm

W x H x D mm	Diameter of hose connection mm	Weight kg	Packs of	Model No.
450 x 144 x 300	150/200	0.96	1 pc(s).	7826.750

CRAC systems

Precision climate control units for data centres

CRAC DX/CW – Climate control for large data centres

- Cooling with CRAC systems is ideal for data centres with low to medium outputs per IT rack
- The racks being cooled must be open
- Precision climate control units with accurate temperature and humidity control
- Reliable, familiar technology with a tried-and-tested track record spanning several decades

How are CRAC systems used?

- Downflow: CRAC units extract hot air from the data centre via the unit's open roof. The air is cooled via a heat exchanger and then blasted into the raised floor by fans.
- Upflow: CRAC units extract hot air via the front of the device and blast cold air back into the room via the open roof
- In both cases, air baffle plates on the 482.6 mm (19") level separate the cold and hot air within the IT rack

Tried-and-tested technology

- All waste heat from the IT systems is dissipated out of the building and emitted to the surrounding environment
- There are a range of different options (humidifier, reheater, filter, pressure regulator etc.) available
- Downflow units (raised floor required)
- Upflow units (raised floor not required)
- DX, CW or dual fluid (DX + CW) versions available
- Direct free cooling is supported

IT chillers

Precision climate control units for high cooling outputs

IT chillers – A continuous supply of cool water

- The ideal solution for server rooms and data centres with medium to high outputs which are supplied with cold water by one or more chillers (e.g. for CRAC CW or LCP CW systems, depending on the heat loss of the IT systems)
- Numerous configurations of the many different variants cover a broad spectrum of required cooling outputs
- Integral or additional free cooling option available for all variants

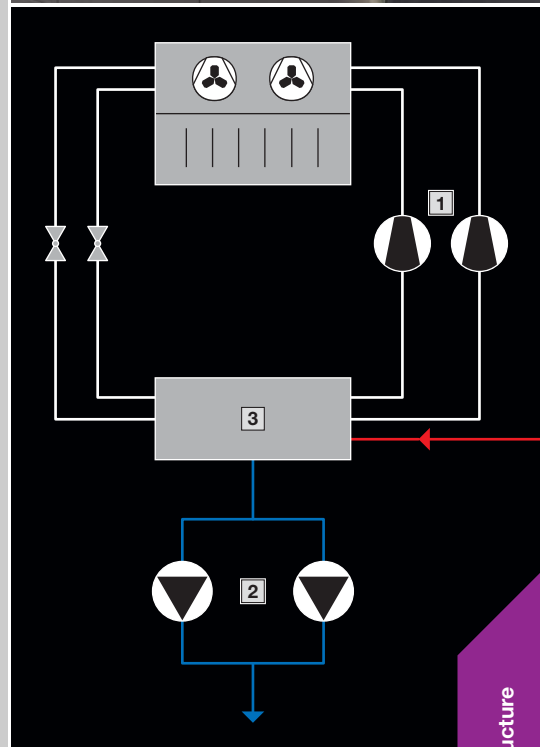

How do IT chillers work?

- IT chillers are air-cooled and suitable for outdoor siting
- Using large heat exchangers and high-end scroll compressors enables a high level of energy efficiency; depending on the cooling output, cold water is produced on the evaporator coil by one or two independent cooling circuits
- From the evaporator coil, one or two pumps (redundant) supply the equipment (CRACs or LCPs) with cold water. The use of an inverter gives the system a high degree of flexibility to vary the water flow-rate as well as the available pressure (to support large distances between chillers and server rooms)
- The smart device software manages thermal load fluctuations via the regulated use of all or selected compressors and via the pump speed
- At low external temperatures (below the water return temperature), the free cooling function is activated, which helps to save energy by shutting off selected compressors

- 1 Two independent cooling circuits (two or more compressors)
- 2 Two pumps (one operational, one in standby mode)
- 3 Evaporator coil

Customer benefits

- Low operating costs, thanks to a high level of energy efficiency and free cooling option
- Redundancy in selected chillers, thanks to two integrated, independent cooling circuits (over 50 kW) and two redundant pumps
- System redundancy permits cascading of multiple chillers and automatic operational rotation, either a preset times or in the event of a malfunction
- Remote monitoring via Ethernet and polling of status and alarm messages, plus remote operation of device functions

Air Handling Unit

High-efficiency room cooling for large data centres

AHU – Cooling for large data centres

- An air handling unit or ventilation system is generally used in large data centres (hyperscale) where large volumes of air need to be moved
- The ventilation system makes extensive cooling output available without taking up space in the data centre. As the thermal loads being dissipated are generally high, a very large volumetric efficiency of the air-flow is required.

How does an AHU work with adiabatic cooling in the data centre?

- In the ventilation system, the hot waste air from the IT systems emits its energy to the cooler ambient air
- Energy is exchanged in the AHU via heat exchangers, e.g. cross-flow (indirect cooling)
- The data centre air does not come into contact with potentially contaminated exterior air
- Air is fed into the data centre via air ducts
- If the exterior air is cooler than the waste air from the IT systems, an active cooling system is not needed (indirect free cooling)
- As the exterior temperature rises, this period can be extended by spraying the heat exchanger with water (adiabatic cooling, or evaporation cooling)
- In enclosure suites, cold and hot zones are separated via aisle partitioning
- Air baffle plates on the 482.6 mm (19") level separate cold and hot air within the IT rack

Integration into the building structure

- The AHU and its infrastructure (air ducts etc.) must be incorporated into the data centre structure. For this reason, AHUs tend only to be used with new-build data centres.
- Retrofitting existing building infrastructures is usually too costly and labour-intensive
- AHUs are custom-designed for each specific project – please contact us for advice

CMC III – Monitoring system

Computer Multi Control (CMC) is a monitoring system for network and server racks, standard enclosures, containers and rooms.

- It monitors temperatures, humidity, access, smoke, energy and many other physical ambient parameters.
- The system is modular and can be flexibly adapted to meet specific monitoring requirements.
- User benefits plus exceptional savings are achieved thanks to monitoring via the network and the automation of security processes.

More information can be found on the Rittal website.

System overview

CMC III Processing Unit / Compact

System overview Page 802/803 **Basic modules and connection accessories** From page 806

Central unit of the CMC III monitoring system. In addition, up to 32/4 external sensors/CAN-Bus connection units may be connected to the integral sensors.

Applications:

- Monitoring of enclosures, rooms and containers in the IT environment

Benefits:

- High redundancy due to redundant power supply
- Cost saving due to optimal space utilisation and connection technique
- High flexibility due to modular system
- High reliability due to permanent monitoring of the physical enclosure parameters

Material:

- Plastic

Surface finish:

- Front: Smooth
- Enclosure: Textured

Colour:

- Front: RAL 9005
- Enclosure: RAL 7035

Protection category IP to IEC 60 529:

- IP 30

Supply includes:

- Basic system
- External temperature sensor incl. connection cable (supplied loose)
- Infrared access sensor (integrated)
- Assembly parts for mounting on surfaces

Note:

- Unencrypted protocols may be deactivated for enhanced network security

Approvals:

- UL
- cUL

¹⁾ Max. 5 pieces for power supply with PoE

System components

Interface for CMC-TC sensors

The CMC III CAN bus sensor supports the connection of selected sensors from the CMC-TC system to the current CMC III, allowing old applications to be upgraded with the CMC III Processing Unit / Compact. As well as the two CAN bus connections, the unit also has another connection for one of the CMC-TC sensors. In this way, the unit functions as an interface between the CMC-TC sensor and the current CMC III Processing Unit, and adapts the sensor data to the CAN bus protocol.

Dimensions:

- W x H x D:
110 x 30 x 40 mm

Material:

- Plastic

Surface finish:

- Front: Smooth
- Enclosure: Textured

Colour:

- Front: RAL 9005
- Enclosure: RAL 7035

Protection category IP to IEC 60 529:

- IP 30

Supply includes:

- Sensor
- Mounting plate
- Assembly parts

The following CMC-TC access sensors may be connected to the CMC III CAN bus sensor:

- 1 x temperature sensor
- 1 x analog input 4 – 20 mA
- 5 x access sensors in series
- 1 x airflow sensor
- 1 x smoke detector
- 1 x motion detector
- 1 x digital input
- 1 x digital relay output
- 1 x voltage monitor
- 1 x 48 V voltage sensor
- 1 x leak sensor
- 1 x leak sensor, 15 m sensors
- 1 x door control unit (two connections)
- 1 x DET-AC Plus extinguisher system (three connections)
- 1 x DET-AC Plus early fire detection system (three connections)

Also required:

CMC III access

System components

CMC III access control

CMC III unit for controlling and monitoring access to enclosures. One handle and one reader unit may be connected to one CMC III access control. The handles can be linked to various numerical codes or transponder cards via the CMC III Processing Unit/Compact website, which means that all the handles connected to a CMC III Processing Unit/Compact can be controlled with just one reader unit. The integral infrared sensor also ensures that the status of the controlled door (open/closed) is monitored.

Dimensions:

- W x H x D:
110 x 30 x 40 mm

Sample applications:

- Record of every access and each time the door is opened, with user information and time stamp
- One central reader unit per CMC III system is supported
- Fixed allocation between handles and reader units
- Four-eyes principle
- Central administration of access rights across systems and locations with RiZone
- Activating the LED display in the handle

Material:

- Plastic

Surface finish:

- Front: Smooth
- Enclosure: Textured

Colour:

- Front: RAL 9005
- Enclosure: RAL 7035

Protection category IP to IEC 60 529:

- IP 30

Supply includes:

- CMC III access control
- Mounting plate
- Assembly parts

CMC III access

System components

Coded lock

for CMC III

For managing access to doors.

Benefits:

- Individual codes with up to 8 digits
- Use of a read system for multiple handles is supported, provided this is connected to the same CMC III system
- High security standards thanks to the four-eyes principle

Installation options:

- On VX IT doors
- Adjacent to room doors

Functional principle:

- Direct connection to the CMC III Access Control or CMC III Door Control Module
- Optical (LED) and acoustic (alarm sound) status display
- Authorisations are managed via the CMC III system or RiZone
- Door opening with a maximum of two linked numerical codes (four-eyes principle)
- Control via CMC III of:
 - Online comfort handle VX
 - Automatic Door Opening System (vent flaps)
 - Relay outputs from the CMC III

Packs of	Model No.
1 pc(s).	7030.233

Dimensions:

- W x H x D: 50 x 190 x 25 mm door-mounted

Material:

Protection category IP to IEC 60 529:

- IP 40

Supply includes:

- Coded lock
- Connection cable 2.9 m
- Adaptor for glazed aluminium door for VX IT
- Assembly parts

Also required:

- CMC III access control, see page 812
- CMC III Processing Unit/Compact, see page 804

Accessories:

- CMC III online comfort handle VX, see page 946
- Door control module, see page 817

Transponder reader

for CMC III

For managing access to doors.

Benefits:

- Use of a read system for multiple handles is supported, provided this is connected to the same CMC III system
- High security standards thanks to the four-eyes principle

Installation options:

- On VX IT doors
- Adjacent to room doors

Functional principle:

- Direct connection to the CMC III Access Control or CMC III Door Control Module
- Optical (LED) and acoustic (alarm sound) status display
- Authorisations are managed via the CMC III system or RiZone
- Door opening with a maximum of two linked transponder cards (four-eyes principle)
- Control via CMC III of:
 - Online comfort handle VX
 - Automatic Door Opening System (vent flaps)
 - Relay outputs from the CMC III

Dimensions:

- W x H x D: 50 x 190 x 25 mm door-mounted

Material:

- Plastic

Colour:

- RAL 9005

Protection category IP to IEC 60 529:

- IP 40

Supply includes:

- Transponder reader
- Connection cable 2.9 m
- Adaptor for glazed aluminium door for VX IT
- Mifare classic transponder card
- Assembly parts

Also required:

- CMC III access control, see page 812
- CMC III Processing Unit/Compact, see page 804

Accessories:

- Transponder card, see page 814
- Door control module, see page 817
- CMC III online comfort handle VX, see page 946

CMC III access

System components

Transponder card

Mifare classic

Contactless smart card for opening doors.

Benefits:

- Personalised authentication with history is supported in conjunction with the CMC III system

Applications:

- For use with the CMC III transponder reader or the CMC III radio comfort handle VX with integral card reader

Dimensions:

- W x H x D: 85 x 54 x 1 mm

Transponder card	Packs of	Model No.
Mifare classic	2 pc(s).	7030.628

Also required:

- CMC III transponder reader, see page 813
- CMC III radio comfort handle VX, see page 947

CMC III online comfort handle VX

with master key function for VX, VX IT

For door locking, handle lever monitoring and status display.

Further ordering information may be found in the chapter on system accessories, page 946

Packs of	Model No.
1 pc(s).	7030.611

CMC III access

System components

CMC III Wireless Unit

for radio comfort handle VX

Up to 16 radio comfort handles VX and/or defined EnOcean sensors may be connected via the Wireless Unit. In complex environments with high levels of interference, additional CMC III Wireless Units may be used at alternative locations. This allows the wireless comfort handles/sensors to send their signal to multiple Wireless Units and facilitate redundancy. The Wireless Units can also be placed in multiple separate rooms/units in order to interlink the existing radio handles and sensors. The maximum overall length of the CAN bus route is 50 m/ bus. The unit is compatible with the CMC III Processing Unit.

Benefits:

- High standard of security thanks to encrypted radio transmission of security-relevant signals
- Redundant transmission with up to 16 Wireless Units

Dimensions:

- W x H x D:
138 x 40 (1 U) x 120 + 12 mm front assembly

Material:

- Plastic

Colour:

- Front: RAL 9005
- Enclosure: RAL 7035

Protection category IP to IEC 60 529:

- IP 30

Supply includes:

- Basic system
- Aerial with magnetic base, 2.5 m connection cable
- Assembly parts for mounting on surfaces

Radio technology	Packs of	Model No.

- Mounting unit, 1 U, see page 819
- Radio comfort handle VX, see page 947

Radio comfort handle VX

with card reader for VX, VX IT

Battery-operated radio handle for door locking, handle lever/rack door monitoring and status display.

Further ordering information may be found in the chapter on system accessories, page 947

Packs of	Model No.
1 pc(s).	7030.621

CMC III Automatic Door Opening (ADO)

CMC III Automatic Door Opening (ADO)

For automatic cooling of closed network/server racks in an emergency situation.

The ADO system is comprised of:

- Door control module
- Glazed door VX IT for ADO with integral vent flaps

Applications:

- Overtemperature in the closed VX IT rack
- Extinguisher gas should be able to enter the rack from the room

Activated via the Door Control Module (DCM) unit. One DCM activates one rack with 2 doors (front/rear door). The vent flaps integrated into the glazed door VX IT for ADO are kept closed by a system of magnets, and in an emergency situation are pressed open by the gas pressure damper system. We recommend the use of CMC III and access sensors.

Benefits:

- Stand-alone mode
- Independent power supply
- The integral temperature sensor ensures a high level of reliability, by making it independent from other systems and their power supplies
- The ADO system is not activated for normal access to the rack interior

Note:

The following doors may be connected:

- 2 glazed doors VX IT for ADO with integral vent flaps, Model No. depending on door variant
- For emergency ventilation, we recommend use of the DCM temperature sensor which creates fewer dependencies on other systems and their power supplies for superior reliability.

Activation in case of alarm:

- CMC III task
- DCM, temperature sensor including connection cable
- DCM, digital input

Activation for user access:

- The lock system for manual door access may be selected with standard VX IT doors, see page 919

Also required:

- Door control module DCM, see page 817
- Glazed door VX IT for ADO with integral vent flaps, see page 919

Accessories:

- CMC III Processing Unit/Compact, see page 804
- Combination lock/transponder reader for local function tests, see page 813
- Access sensor, see from page 807

System diagram CMC III Automatic Door Opening (ADO)

CMC III Automatic Door Opening (ADO)

Door control module

Control unit for automatic opening of glazed doors VX IT for ADO with integral vent flaps. Designed for a rack with front and rear door. To fit CMC III system with CAN bus.

Material:

- Plastic

Colour:

- Front: RAL 9005
- Enclosure: RAL 7035

Supply includes:

- Basic system
- Temperature sensor including connection cable (supplied loose)
- Assembly parts for mounting on surfaces

Also required:

- Glazed doors VX IT for ADO with integral vent flaps, see page 919
- CMC III power pack, see page 818
- Mounting unit, 1 U, see page 819

Accessories:

- Redundant power pack, see page 818
- Coded lock/transponder reader, see page 813
- CMC III Processing Unit/Compact, see page 804
- CAN bus cable, see page 818

Model No.	7030.501
Packs of	1 pc(s).
Maximum no. of PU/PU Compact	16/4
1st rated voltage	24 V (DC) 7030.060 for door control module and glazed doors VX IT for ADO, redundant to 2nd rated voltage

CMC III

Accessories

CMC III power pack for PU, PU Compact, LED light strip, door control module

The power pack is specifically tailored to the CMC III design and may be positioned in a mounting unit. As well as a special connector for the CMC III Processing Unit/Compact, there are also two further terminals available as 24 V outputs.

Technical specifications:

- Input voltage: 100 – 240 V / 50/60 Hz
- Output voltage: 24 V (DC)/2.5 A
- Length of 24 V (DC) connection cable: 0.6 m
- Input: IEC 320 connector C14

Dimensions:

- W x H x D:
138 x 40 x 120 + 12 mm front frame

Material:

- Plastic

Surface finish:

- Front: Smooth
- Enclosure: Textured

Colour:

- Front: RAL 9005
- Enclosure: RAL 7035

Supply includes:

- Assembly parts for mounting on surfaces

Packs of	Model No.
1 pc(s).	7030.060

Also required:

- Connection cable, see page 819
- Mounting unit, 1 U, see page 819

Programming cable

For first-time commissioning of the Processing Unit (PU) or PU Compact. During initial start-up, the programming cable connects the CMC III Processing Unit/Compact to the USB interface of a PC. A driver for Windows systems is also included with the supply and must be installed on the PC.

Supply includes:

- CD with driver and system description

Packs of	Model No.
1 pc(s).	7030.080

CAN bus connection cable

For connecting the PU to the CAN bus sensors III, units III and control units III as a bus, also for cabling together.

Because it is available in different lengths, the CMC III system can be adapted to various applications and built to a custom design.

CMC III CAN bus connection cable	Length m	Packs of	Model No.

1	2 pc(s).	7320.814

Mounting unit, 1 U

For installing CMC III units in network and server racks. To accommodate up to three CMC III enclosures and for mounting in the 482.6 mm (19") section.

To accommodate:

- CMC III Processing Unit
- CMC III Processing Unit Compact
- CMC III control unit
- CMC III Wireless Unit
- CMC III power pack
- CMC III LTE unit
- CMC III door control module

Benefits:

- Fire protection: Self-extinguishing to UL 94-HB

Packs of	Model No.
1 pc(s).	7030.088

Material:

- Plastic

Colour:

- RAL 9005

Supply includes:

- Mounting unit, 1 U
- 2 blanking covers
- Assembly parts

Accessories:

- Cable clamp strap 7030.087, see page 819

Cable clamp strap

For tool-free attachment to the rear of the CMC III 482.6 mm (19") mounting unit 7030.088. Enables tidy cable routing behind the built-in CMC III devices and can be used to attach cables for strain relief purposes. Cables are easily laid in a loop to allow the built-in CMC III devices to be removed from the mounting unit without the need for tools.

Applications:

- Cable management

Benefits:

- Cable support
- Fire protection: Self-extinguishing to UL 94-HB

Packs of	Model No.
1 pc(s).	7030.087

Material:

- Assembly parts

CMC III

Accessories

Mounting unit

To accommodate one CMC III unit and for mounting on the enclosure frame.

To accommodate:

- CMC III Processing Unit
- CMC III Processing Unit Compact
- CMC III Control unit
- CMC III Wireless Unit
- CMC III Power pack
- CMC III LTE unit
- CMC III Door control module

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Packs of	Model No.
1 pc(s).	7030.071

CMC III LTE unit

For configuring a redundant transmission channel or, if there is no network infrastructure available, for alarm forwarding. The alarm signal is designed in text message format. Cover for LTE (4G), UMTS (3G) and GSM (2G) with automatic changeover function, see bands and frequencies. A standard, commercially available SIM card must be provided by the customer.

Material:

- Plastic

Colour:

- Front: RAL 9005
- Enclosure: RAL 7035

Supply includes:

- CMC III LTE unit
- RJ12 cable
- Aerial including magnetic base
- Assembly parts for mounting on surfaces

Packs of	Model No.
1 pc(s).	7030.571

Network support / bands and frequencies:

- 4G LTE band 1 (2100 MHz)
- 4G LTE band 3 (1800 MHz)
- 4G LTE band 8 (900 MHz)
- 4G LTE band 20 (800 MHz)
- 4G LTE band 28 (700 MHz)
- 3G UMTS band 1 (2100 MHz)
- 3G UMTS band 8 (900 MHz)
- 2G GSM (900 MHz)
- 2G GSM (1800 MHz)

**Also required:**

- CMC III Processing Unit/Compact, see page 804
- Mounting unit, 1 U, see page 819

Interference suppressor for fans

for CMC III

For connecting fans via the CMC III power unit 7030.050. The interference suppressor prevents excessive breaking currents. One interference suppressor is required for each fan.

Material:

- Plastic

Colour:

- RAL 9005

Supply includes:

- Assembly parts

Packs of	Model No.
1 pc(s).	7030.051

LED light strip

for CMC III

For colour status display within a network/server rack. If an error occurs, the light strip will change to the set colour.

Benefits:

- Stand-alone mode by connecting the RGB LED light strip directly to a 24 V (DC) power pack
- Easy to install with the integral magnetic attachment

Functional principle:

- Activation via CMC III
- Connection via three of the four relay connections on the CMC III I/O unit
- Connection via the alarm relay of the Processing Unit/Compact with colour change
- Connects directly to the CMC III power pack
- The three connection cables of the LED light strip activate the three basic colours red, green and blue. Activating two or three colours simultaneously will create the corresponding secondary colours. Links to sensor warnings or alarms are made via task links in the CMC III system.

Technical specifications:

- Rated voltage: 24 V (DC)
- Rated current: 1.1 A

Dimensions:

- W x H x D: 18 x 1830 x 24.2 mm

Material:

- Aluminium
- Plastic

Supply includes:

- LED light strip including magnetic attachment
- Connection cable 0.1 m
- Connection cable 2.4 m with four pre-assembled connectors for the CMC III I/O unit

Packs of	Model No.
1 pc(s).	7030.950

Also required:

- CMC III power pack, see page 818

Accessories:

- CMC III I/O unit, see page 806
- CMC III Processing Unit/Compact, see page 804

Monitor/keyboard unit

Monitor/keyboard unit, 1 U

with 17" TFT display and VGA/DVI connection

The unit is housed in a pull-out drawer. The monitor can be flipped up and the drawer latches into the end position. This means that the unit only requires 1 U in the 482.6 mm (19") rack.

Benefits:

- With digital and analog interfaces, VGA, DVI-D, PS/2, USB
- Simple one-person assembly

Main components:

- TFT monitor 17"
- Keyboard, German or English
- Touchpad

Supply includes:

- Monitor/keyboard unit
- VGA cable
- DVI cable
- 2 x PS/2 cable
- USB cable
- Earthing-pin mains cable
- Assembly parts

Technical design:

- 432 mm/17" TFT display
- Physical resolution: 1280 x 1024
- Format: 4 : 3
- Colours: 16.7 million colours
- Brightness approx. 350 cd/m² (typ.)
- Contrast ratio: approx. 1000 : 1
- Mains voltage: 100 – 240 V / 50/60 Hz
- Ambient temperature: +5 °C...+45 °C (operation)
- Max. power consumption in operation: 32 W
- Max. power consumption with closed monitor unit: < 1 W
- Rear connections: Mains voltage, VGA, DVI, PS/2, USB
- Lockable at the front
- Cables are safely routed in the energy chain

Fire alarm and extinguisher system

System accessories Page 877 Network/server racks VX IT Page 686 Micro Data Center Page 842

The active extinguisher system includes the smoke extraction system and the extinguisher unit. The smoke extraction system is identical to the smoke extraction system in the EFD III. The extinguishing process begins automatically when a main alarm is activated. For the extinguishing process, the tank is pressurised via a propellant cartridge. The extinguisher gas Novec™ 1230 evaporates at the extinguisher nozzle and is distributed in the server enclosure.

Benefits:

- Early fire detection
- Automatic extinguishing
- Innovative extinguisher Novec™ 1230: eco-friendly, non-critical for IT components, non-conductive
- 482.6 mm (19") rack mount with just 1 U
- Tested by VdS Schadenverhütung GmbH
- CAN bus interface to the CMC III monitoring system
- Floating relay outputs (pre-alarm/main alarm/collective fault)

Material:

- Sheet steel

Colour:

- Enclosure: RAL 7035
- Front: RAL 9005

Protection category IP to IEC 60 529:

- IP 30

Note:

- This system is designed solely for use in closed, non-accessible enclosure systems with a maximum volume of 2.8 m³.

Early fire detection system

System accessories Page 877 Network/server racks VX IT Page 686 Micro Data Center Page 842

The EFD III early fire detection system includes the smoke extraction system in a 482.6 mm (19") subrack with just 1 U. An integral fan continuously extracts air from the area being protected via a system of pipes. The air drawn in passes two fire detectors. If smoke is detected, the highly sensitive detector will emit a pre-alarm, while the second detector will activate the main alarm. The fire detectors are permanently monitored for correct functioning by the evaluation and control electronics on the control card.

Benefits:

- Early fire detection
- 482.6 mm (19") rack mount with just 1 U
- Tested by VdS Schadenverhütung GmbH
- CAN bus interface to the CMC III monitoring system
- Floating relay outputs (pre-alarm/main alarm/collective fault)

Material:

- Sheet steel

Colour:

- Enclosure: RAL 7035
- Front: RAL 9005

Protection category IP to IEC 60 529:

- IP 30

Note:

- This system is designed solely for use in closed, non-accessible enclosure systems.

This add-on unit to the DET AC III Master includes an additional extinguisher unit. In addition to the DET-AC III unit, a DET-AC III slave unit is used for each additional bayed enclosure and supplies the extinguishing agent for that enclosure. Detection occurs via the DET-AC III master system, even when multiple enclosures are bayed together. If a main alarm is reported, the DET-AC III Master will activate extinguishing in all systems simultaneously.

Benefits:

- Innovative extinguisher Novec™ 1230: eco-friendly, non-critical for IT components, non-conductive
- 482.6 mm (19") rack mount with just 1 U
- Tested by VdS Schadenverhütung GmbH
- CAN bus interface to the CMC III monitoring system
- In conjunction with the DET-AC III Master, extinguishes up to five racks in an enclosure suite
- May be used in combination with EFD III
- Floating relay outputs (pre-alarm/main alarm/collective fault)

Material:

- Sheet steel

Fire alarm and extinguisher system

Accessories

Pipe kit

for DET-AC III/EFD III

Non-adhesive plug-in system for connecting to the DET-AC III fire alarm and extinguisher system and the EFD III early fire detection system.

Functions:

- The system fans continuously draw air out of the protected area via this pipe system.

Technical specifications:

- Diameter of plastic pipe: 18 mm internal, 22 mm external

Colour:

- Black

Supply includes:

- 3 plastic pipes @ 1 m
- T-piece
- 2 connector pieces, straight
- 4 connection brackets, 90°
- 2 end caps
- Assembly parts

Sealing kit for VX IT and LCP

in conjunction with DET-AC III master/slave

For closing openings in VX IT network/server racks and Liquid Cooling Packages when using a DET-AC III fire alarm and extinguisher system.

Applications:

- Closes the brush strips in two roof plates of the VX IT rack
- Closes 1 brush strip in the roof plate of the LCP
- Closes the opening in the base of the LCP CW/LCP DX in the vicinity of the refrigerant/water lines

Benefits:

- Sealing of cable, hose and pipe glands in the roof and base section without impairing their function

Material:

- Polythene foam, self-adhesive on one side

Colour:

- Anthracite

Supply includes:

- 4 blanks to fit two VX IT roof plates
- 1 blank for an LCP

Packs of	Model No.
1 pc(s).	7338.135

IT infrastructure

RiZone

Data centre infrastructure management – RiZone

RiZone is Rittal's DCIM solution for easy, efficient monitoring and control of a data centre's physical infrastructure. It is designed to help improve the availability and efficiency of the data centre. The high availability demands of data centre users necessitates a comprehensive security management system. This relies on the monitoring of all data centre components and parameters with relevance to security and availability. RiZone is tasked with implementing all messages, sensor values and actuators in the IT infrastructure and server environment into a plausible message chain to ensure transparent operation of the data centre. The formulaic correlation in RiZone Editor transforms individual warnings, data or signals into logical information and actions, to maintain the data centre's availability.

RiZone – Optimum monitoring of IT infrastructure components

- Incorporation of the physical IT infrastructure
- Automatic detection of Rittal components
- Simple configuration of power distribution systems
- Workflow editor for user-defined scenarios
- Enhanced security and reliability
- Improved energy efficiency
- Integration of SNMP-compatible third-party equipment

IT infrastructure in context

RiZone is the ideal solution for operating the entire IT infrastructure safely and efficiently. To this end, all processes are viewed in context and all components are perfectly coordinated with one another.

Prevention and reliability

- Identify hot spots in servers early on
- Continuously monitor individual electricity phases, avoid overloads and safeguard availability
- Set optimum climate control parameters

Trends and resource planning

- Identify bottlenecks in the physical supply early on
- Transparently plan extensions to the infrastructure

Functionality and efficiency

- Monitor PUE (power usage effectiveness) values
- Optimise energy efficiency in all areas

DCIM – Data Centre Infrastructure Management

RiZone – Perfect support of IT infrastructure components

Optional support of Rittal components – from server enclosures to power supply and climate control, through to security and monitoring technology – during integration and in the operational phase, with coordinated sensors and control systems.

- The physical data centre infrastructure (OT devices) is incorporated into a data centre infrastructure management system.
- RiZone supports SNMP V1/V2C and SNMP V3
- Simple configuration
- Automatic detection of Rittal components
- Workflow editor for user-defined scenarios (what happens if ...)
- Enhanced security and reliability thanks to logical representation of the operating concept in RiZone
- Energy optimisation in the data centre
- Integration of SNMP-compatible third-party equipment

■ Autodiscovery

Detection of all SNMP-compatible IT infrastructure components

■ Database

In-house SQL database or link to external MS-SQL and Oracle databases

■ Capacity management

- Monitoring of data centre capacity utilisation
- Redundancy monitoring of the climate control and power supply
- Determination of optimum server installation positions
- Optimisation of capacity utilisation and data centre availability

■ Off-line project planning

- Pre-configuration of RiZone projects
- Supports Rittal CMC III components as well as RiMatrix S
- Components are easily replaced using drag and drop

■ Central access control

- Central administration of access data and PINs
- One-time PIN function
- Emergency PIN function
- 2-way authorisation

■ User administration

- Granular user administration within RiZone
- Support directory services

■ Open Virtualization Format (OVF)

- The virtual RiZone appliance is supplied in the industry standard OVF

■ Active Directory

- The RiZone server may be a member of a directory service
- RiZone users may be a member of a directory service

■ CMC III access control

- Central administration of access control by RiZone
- Administration of transponder cards
- Centralised administration of access data
- Import function

RiZone plus Rittal components creates a system solution with maximum energy efficiency.

Note:

- RiZone Appliance Standard
 - RiZone IP node licence
- see page 831

IT management software

Rizone Appliance Standard

RiZone is supplied as a software appliance.

The software appliance is available as a virtual server in Open Virtualization Format (OVF) which is easily used on existing hardware in the data centre.

RiZone installer

- RiZone is installed on a client server
- The software is installed by a Rittal engineer on a Windows server 2012R2 or 2016

Note:

- RiZone supports the protocols SNMP V1/V2C and SNMP V3 for monitoring infrastructure components (OT devices) in a data centre. RiZone is manufacturer-neutral and suitable for use in a heterogeneous landscape of OT devices.
- Available to download at www.rittal.com/software

Also required:

- RiZone IP node licence according to the number of IP nodes available

Standard version	Model No.		
	Hard drive + Windows	RiZone software	RiZone graphics tool
Software appliance ¹⁾	7990.103	7990.203	7990.303
Installer	-	7990.402	7990.502

¹⁾ All Model Nos. on the same line belong together, and must always be ordered together

RiZone Appliance IP node licence

The flexible RiZone licence model allows optimum adaptation to any project size, while at the same time being capable of growing with the data centre.

The volume licences for the IP nodes are graduated with 25 and 100 nodes and may be adapted precisely to the size of the data centre. One node licence is required for each active component or other SNMP-compatible component to be covered.

For no. of IP nodes ¹⁾	Console licences included	Model No.	
		RiZone software	RiZone graphics tool
25	4	7990.206	7990.306
100	8	7990.208	7990.308

¹⁾ All Model Nos. on the same line belong together, and must always be ordered together

Note:

- Download available at www.rittal.com/software

Edge Data Center

The ideal solution for your applications

Edge & cloud solutions – for successful digitalization

- Industry 4.0, mobile streaming and self-driving cars all demand the fastest response times, top-level security, and availability. Rittal edge solutions deliver just that. They allow you to securely store, process and share large quantities of data in real time, wherever it is needed.
- Edge computing can significantly reduce storage and transmission costs, because large volumes of data can be pre-processed with only relevant data subsequently being transferred to a cloud or IT infrastructure. In this way, an edge data centre ensures minimal latency combined with maximum reliability and security.

Flexibility and reliability

- Edge data centres are always based around the local application. They must offer all the features of a “conventional” data centre, such as security and availability, since the availability of a production line depends on all its components, from the robot through to the edge data centre.
- Redundancy and fail-safe operation are key: The concept of continuous power & cooling ensures that the IT remains available for a defined period of time following a power failure so that the systems can be made safe.
- Fully redundant edge solutions can also be used to protect highly sensitive applications.

Scalability and physical protection

- Edge data centres are found across all industries in a wide range of application scenarios. The ability to adapt flexibly to the current situation is vital, as are standardised modular solutions enabling the fast assembly of large-scale edge topologies.
- Container solutions and outdoor enclosures facilitate siting outdoors, while micro data centres and security rooms provide bespoke protection in buildings when edge data centres must be protected from physical threats. Of course, the physical protective shield can be tailored precisely to keep pace with your growth plans.

Edge Data Center

With efficient plug & play solutions and innovative cooling technology

In industrial operations, building management, the logistics chain and logistics centres, the market for applications with edge data centres is continuously expanding. The emphasis here is on efficiency and reliability. Rittal's innovative cooling units in the Blue e+ series with integral heatpipe herald a new dimension in efficiency, particularly for edge data centres at the lower end of the output range.

Your benefits at a glance:

- Interfaces to all sensors, machines and devices
- Low latency in critical applications
- Capture and analysis of unstructured data to avoid unnecessary transmission to the cloud
- Interface to other edge data centres and to superimposed services in the cloud
- Efficient plug & play cooling solution with no installation work required

Example of a rear door-mounted cooling unit application:

- Cooling of IT equipment with standalone enclosure solutions
- Plug & play cooling solution with no installation work
- Rack-based cooling solution combined with 482.6 mm (19") rack extinguisher systems
- For use in industrial environments

IT accessories	IT LED system light, 600 lm	1	7859.000

All the variants shown are sample configurations. Individually adaptable.

Edge Data Center

Reliable and redundant with split cooling solutions

Edge data centres can handle a wide variety of tasks, not just data capture and condition monitoring. With critical processes, such as controlling traffic flows or monitoring production processes, it is particularly vital for an edge data centre to reflect the availability of the application. Scalable redundancy is the key here.

Example of an integrated cooling unit application:

IT infrastructures comprising just one or two IT racks must still offer the same features as a large data centre. This begins with a reliable power supply and cooling, and extends through to monitoring. Smaller edge data centres are ideally suited for distributed installation across various locations for processing data in real time (for example, traffic monitoring and control).

The coolant-based cooling units are designed as split solutions. Depending on the cooling output, the heat exchanger is either built into the server rack or bayed to the server rack. Heat is emitted direct outside of the building.

IT Infrastructure	Product description	Packs of	Model No.
IT rack	Network/server enclosure VX IT, IP 55	2	5309.190
IT power	PDU metered, 24 x C13/4 x C19, 1-, 32 A	4	7979.216
IT cooling	LCU DX, redundant, 6.5 kW	2	3311.493
IT monitoring	CMC III monitoring system	1	7030.000
IT security	Fire alarm and extinguisher system DET-AC III	1	7338.121
IT accessories	IT LED system light, 600 lm	2	7859.000
	CAT 6, Network Cable Organizer	4	7044.110

All the variants shown are sample configurations. Individually adaptable.

Example of a rack-based suite cooling application:

Smart cities, interconnected vehicles and streaming services bring with them the challenge of continuous availability of safety-relevant data. This calls for data centres with a maximum degree of fail-safeness. Edge data centres are the answer, being exceptionally energy-efficient with a small footprint.

IT Infrastructure	Product description	Packs of	Model No.
IT rack	Network/server rack VX IT, IP 55	4	5309.136
IT power	PDU metered, 24 x C13/6 x C19, 3-, 16 A	8	7979.236

All the variants shown are sample configurations. Individually adaptable.

Edge Data Center

The modular concept in a security safe or container

Data such as personal patient data is highly sensitive and must be protected from theft, while production data must be protected from physical threats such as dust, fire and splashed water. The Micro Data Center provides the perfect housing for edge data centres. The numerous options available, coupled with the opportunity of buying, permit a high degree of flexibility at the point of use.

Continuously growing data volumes are having a major impact on IT infrastructure. Demand for CPU and storage capacity is increasing at the same pace, which means that more and more servers and storage systems are needed, while the floorspace available for IT infrastructure has barely changed. Rittal's data centres in containers offer the perfect solution, because the standardised RiMatrix Data Cubes are installed in a short time and the concept is individually tailored to your requirements.

Benefits of Rittal container solutions:

- Customised container solutions on a platform basis
- Predefined modules are individually compiled to create a container data centre
- Pre-assembled container solutions can be up and running in next to no time.
- Project planning by Rittal
- Turnkey delivery of a field-tested solution complete with comprehensive documentation.

If there is no suitable space available in the office building, factory hall or institution, it may be possible to site the edge data centre outdoors. The modular container from Rittal is the ideal platform for combining predefined solutions of server, power and cooling containers. Numerous options and a choice of redundancy classes mean that solutions are precisely aligned with customer requirements.

Application examples for Rittal container solutions:

- Lack of space, because more IT hardware is needed as data volumes grow
- Influence of IoT and Industry 4.0: Data exchange between the machines and data centre must be guaranteed
- With edge data centres, the computing performance is provided locally, data volumes are reduced, and pressure on the main company data centre is relieved

IT Infrastructure	Product description	Packs of	Model No.
Container	RiMatrix Data Center Container all-in-one, max. IT output 35 kW	1	RDC-AIO 35/3-M-II

Micro Data Center

High availability in a security safe

Optimum protection from physical threats

- Data such as personal patient data can be highly sensitive and must be protected from theft, while production data must be protected from physical threats such as dust, fire and splashed water.
- The Micro Data Center provides the perfect housing for data centres. The numerous options available, coupled with the opportunities for buying, make it an extremely flexible solution.
- With its modular layout and option of dismantling and reassembly at any time, your data centre can expand as your requirements grow. The security safe offers complete protection from physical threats in even the smallest space.

Options for adapting to your needs

- The Micro Data Center is available in two variants – Level B (solid basic protection) and Level E (maximum protection).
- Level E MDCs are also bayable and can be fitted around your current installed IT racks even while operational.
- There are a range of climate control options available, with varying dissipated thermal loads and redundancies. For example, cooling in a security safe may be designed as fully redundant.
- A fire alarm and extinguisher system protects your valuable IT components from threats inside the safe.

Simple configuration of tested system solutions

- With the Rittal Micro Data Center, your security safe solution can be tailored to your exact application.
- System-tested quality means that the entire solution has been tested for fire protection, intruder protection, smoke protection and water/dust-tightness in accordance with the specified standards.
- Testing has been carried out by accredited institutes and confirmed with test reports.

Micro Data Center Level E

System accessories Page 877

Applications:

- A high level of protection against potential physical threats for IT components
- Targeted configuration components transform the safe into a complete Micro Data Center

Benefits:

- As well as facilitating installation in poorly accessible sites, the modular design also makes it possible to retrospectively enclose existing IT structures.
- Extensibility, dismantling and re-assembly mean targeted, future-safe investments
- Tested security – testing has been carried out by accredited institutes and confirmed with test reports

Protection standards:

- Fire protection category F 90 to DIN 4102 Part 2
- Compliance with limit values $\Delta T < 50$ K, rel. humidity $< 85\%$ over 30 minutes
- Burglary resistance RC 2, optionally RC 3, tool attack analogous to DIN EN 1630/2011-09 and optionally WK 4, tool attack analogous to DIN V ENV 1630/1999-04/WK 4
- Smoke protection based on DIN 18 095-2: 1991-03

Material:

- Sheet steel, coated

Colour:

- Enclosure and service door: RAL 7035
- Operator door: RAL 9005

Protection category IP to IEC 60 529:

- IP 56

Supply includes:

- Micro Data Center with operator door and service door
- Cable entry in both side elements
- Both doors with key lock

Optional:

- Choice of door hinges
- Bifold doors
- Different cable entry systems and different positions
- Cable entry in the top/base unit
- Different lock variants
- Supporting structure

Note:

- The Micro Data Center is configured on a project-specific basis

RiMatrix S

The standardised data centre

IT infrastructure – Fully operational

The RiMatrix S standardised data centre is suitable for all architectures, be it main data centres, small data centres in distributed locations, or edge data centres located outdoors. The local conditions are of secondary importance, because RiMatrix S can be used both in existing properties and in container data centres.

The significantly reduced planning times are key, because these highly efficient modules are fully pre-planned, including existing data sheets, implementation diagrams and documentation.

In the longer term, another benefit of this system-tested solution is a significant reduction in your electricity bills, with detailed calculations possible even at the planning phase.

Save time when planning

- Easily select your required modules with just one Model No.
- Complete documentation available at the planning phase
- Short delivery times and fast commissioning
- Pre-assembled modules for the installation of IT equipment, ready to use immediately
- Simplified final certification of the finished data centre

Efficient technology

- Unique, efficient cooling solution
- Space-saving climate control in the raised floor
- n+1 redundancy in the power supply and cooling
- Complete low-voltage distribution system and PDUs pre-installed in the racks, UPS built into selected modules
- Optional packages for comprehensive PUE (power usage effectiveness) monitoring using a prefabricated DCIM solution are available
- Documented low PUE (power usage effectiveness) of between 1.5 and 1.15
- Documented system test of the entire data centre module

Scalability from the edge to the cloud

- Standardised modules for simplified worldwide delivery
- Simple, uniform connection to supply infrastructures
- Different modules with outputs ranging from 10 kW to 450 kW (scalable)
- For use in existing premises in a simple protective cover or robust container structure

RiMatrix S at a glance

Standard room

The standardised data centre is assembled at your premises within the context of hot aisle/cold aisle containment.

Benefits:

- Aisle containment is a combination of door and roof components which allow consistent separation of the hot and cold air

Supply includes:

- Advice and ROI calculation
- Delivery and integration into the customer infrastructure
- Commissioning and handover
- Documentation, training, instruction
- Hotline and service/service agreements
- Precise-fit aisle containment

Data centre container

The modular concept for complete IT infrastructures

IT technology plus matching infrastructure equals a complete system

Growing data volumes and escalating requirements are creating ever more problems with space. Modular containers suitable for outdoor siting offer a possible solution and are highly scalable. Thanks to the container structure, a data centre can be planned with minimal effort and extended in the future. RiMatrix Data Cubes are a modular system from Rittal which provide the ideal basis for suitable projects and include server, power and cooling modules. There is also an all-in-one (AIO) variant available as a plug & play solution, in which the server zone and technical room are accommodated together in a single module.

A scalable, modular system

- This flexible solution accommodates the specific requirements of individual applications
- Simple selection options help to streamline planning, with detailed planning of individual assemblies specifically for the application in each container
- Standardised components with tested and certified safety.
- Industrial production of the entire container is very fast, with installation and cabling of the IT hardware on request
- Suitable for outdoor siting
- Reduced installation phase thanks to the plug & play principle
- High level of scalability
- Mobile and future-proof

Efficiency and service

- Low CO₂ emissions: Modern IT cooling units from Rittal support high levels of efficiency in containers compared with conventional data centres
- Continuous advice and planning from the Rittal data centre experts
- Servicing and preventive maintenance help to safeguard the longevity and maximum availability of your infrastructure

RiMatrix Data Cube Cooling:

Efficient recooling systems in the container frame, ready to connect and system-tested with redundant chillers, free-cooling mode or additional free cooler and network functions

RiMatrix Data Cube IT:

Ready-to-connect IT infrastructure in a robust container shell, as standardised IT modules in a range of output categories for SME, Cloud and Edge applications.

Robust container cover:
For siting outdoors, standardised dimensions for reduced planning effort

Modular raised floor:
In a range of application-specific heights

Network racks:
Pre-configured type VX IT for installing network technology and structured cabling, with two PDUs for redundant power supply

Server racks:
Pre-configured type VX IT for server installation, with cable guide rails and two PDUs for redundant power supply in the server exhaust air zone

RiMatrix Data Cube

Modules with maximum scalability

From individual all-in-one containers through to large container parks, Rittal offers the maximum possible scalability with its comprehensive portfolio of solutions. For larger applications, uninterruptible power supply and cooling modules in the same container pitch pattern are added to the RiMatrix Data Cubes.

For the conventional components of rack, power, cooling and monitoring, Rittal and its strategic partners Innovo Cloud and Lefdal also offer "IT as a Service", together with a location – the Lefdal Mine Datacenter in Norway – which can save up to 40 percent energy costs annually compared with a data centre in Germany.

RiMatrix Data Cube Power:
Modular UPS systems with redundancy to supply one or more IT modules

Individual equipment:
All containers are equipped with the necessary infrastructure (lighting, service sockets, structured cabling etc.)

Low-voltage distributor:
Complete distributor system with connection point for the main supply and the outgoing feeders from all PDUs

IT cooling:
Cold water or coolant-based systems for energy-efficient cooling of the entire server inlet air zone, speed-controlled and with redundancy

RiMatrix Data Cube IT

Design			RDC IT 50/10-L-III	RDC IT 60/12-L-II	
Maximum total IT output in kW			50	60	
Maximum IT output per rack in kW			5	5	
Redundancy of cooling system			2n	n+1	
Redundancy of power supply			2n	2n	
Cooling concept			LCP systems are positioned between the racks, and depending on the variant, are either flush with or set forward from the enclosure suite. These systems cool the entire cold aisle in front of the servers and have a redundant design in the container variants. The variants with a second set of cold water pipelines also support n+n redundancies.		
Power concept			The container main power supply is split among individual outgoing feeders to the PDUs in the individual enclosures via a low-voltage distributor. Each enclosure has an A supply and a B supply, thereby achieving n+1 redundancy. The main distributor offers separate connections for the A and B supply to which one or two UPS-buffered supply lines may be connected. A RiMatrix Data Cube Power with integral UPS may also be used to supply the containers. The container peripherals are supplied via an additional C-line.

Security room

High availability for data centres

Customised protection from physical threats

- Innovative services provided by regional governments and banks, for example, demand the highest standards of security for storing sensitive citizen data and protecting it from manipulation.
- This data must be protected from physical threats such as fire, smoke, corrosive gases, dust and water, as well as unauthorised access.
- Security rooms are a room-within-a-room solution, in other words, a security room is constructed from base, wall and ceiling elements in an existing building and can be flexibly adapted to suit the local conditions, especially if changes cannot be made to the building's structure.

Adaptation to the building infrastructure and operational IT requirements

- The basic protection room/basic protection Plus room provides a high-quality, system-tested solution. The basic protection room is an optimum, modular room-within-a-room solution for protecting IT components and creating technical rooms. The flexible modular system allows it to be extended whilst operational.
- The high-availability room offers maximum physical protection for data centres. The system was certified by ECB (European Certification Body GmbH) to ECB-S regulations. The modular concept offers the same benefits as a basic protection room, but with a higher level of protection.

Tested system solutions

- System-tested quality means that the entire solution has been tested for fire protection, intruder protection, smoke protection and water-/dust-tightness in accordance with the specified standards.
- System testing covers the entire structure, comprising the cell structure and built-in modules such as doors, cable shields and ventilation units.
- Testing is carried out by accredited institutes and documented in test reports.

IT infrastructure

Basic Protection room and Basic Protection Plus room (GSR)

Standard protection from:

IT power Page 722 IT cooling Page 756 IT monitoring Page 798

Your benefits with GSR, GSR Plus and HVR

- System-tested protection
- Multi-functional risk coverage
- Dust- and noise-reduced installation
- Dismantling and reassembly plus extendibility = investment security
- Adaptation of the different room systems

With HVR only:

- System-tested high-availability protection
- ECB-S certification
- Independent quality monitoring

High security requirements

The Basic Protection room provides a system-tested solution for protecting infrastructure components such as extinguisher systems, uninterruptible power supplies and cooling.

The Basic Protection Plus room also offers solid basic protection for IT in addition to protection of infrastructure components.

Structure of the Basic Protection room

- Element core made from thermally effective insulating material
- Robust, encapsulated sheet steel cassette panels
- Innovative connection system using patented profile technology
- Use of temperature- and humidity-resistant seals

Criterion	Standard
System testing	 System testing
Fire protection	 ECB-S certification to EN 1047-2, 50 K temperature increase and 85% rel. humidity up to 24 hours (post-heating period), 60 minutes flame impingement time 50 K temperature increase and 85% rel. humidity without post-heating period, flame impingement time 30 minutes F 120 to DIN 4102; EI 120 (wall) to EN 1363 (component-tested) F 90 to DIN 4102 EI 90 to EN 1363
Corrosive combustion gases	Acrid gas-tightness based on DIN 18 095
Falling debris	Impact test 200 kg from a drop height of 1.5 m with impact energy of 3,000 Nm Protection category IP X6 to IEC 60 529
Water	Protection from standing water
Dust	Protection category IP 5X to IEC 60 529
Unauthorised access	Resistance class RC4, tool attack analogous to DIN/EN 1630, door system only Resistance class RC3, tool attack analogous to DIN/EN 1630 Resistance class RC2, tool attack analogous to DIN/EN 1630
Explosion	Detonation test
EMC	Shield attenuation levels of up to 60 dB in the frequency range from 30 MHz to 3 GHz

System-tested structures are tested as a complete unit, comprising the cell structure and built-in modules such as doors, cable shields or ventilation units. By contrast, generic component testing only refers to individual parts.

Conventional construction methods refer to room structures made of plasterboard, concrete and other standard construction materials which do not offer sufficient protection for data centre applications. Conventional construction methods are generally unsuitable for use as a fire wall and are only component-tested.

High-Availability room (HVR)

Standard protection from:

Fire

Extinguisher water

Corrosive gases

Vandalism

Unauthorised access

Dust

Explosion

Falling debris

Theft/burglary

Mechanical access

IT power Page 722 IT cooling Page 756 IT monitoring Page 798

Maximum security

The High-Availability room offers maximum physical protection for data centres and IT system locations. The system was certified by ECB (European Certification Body GmbH) to ECB-S regulations. This certification confirms that the High-Availability room meets the requirements of EN 1047-2 without restriction. Moreover, the construction of the security room is subject to continuous quality monitoring by an independent agent.

Structure of the High-Availability room

- Complex 4-layer element core made of thermally effective insulation substances
- Robust, encapsulated sheet steel cassette panels
- ECB-S tested, multiple lock, panic release
- Patented connection system
- Fireproof floor elements
- Use of extremely temperature- and humidity-resistant seals

Open Compute Project (OCP)

Big data is a subject which is shaking up many areas of industry, commerce and trade. It is not only that data volumes are increasing exponentially. Also important is that efficient and fast data processing will in future be more and more decisive for business success.

The OCP community came together to find solutions to this challenge. The prime objective of the Open Compute Project (OCP) is to reduce the investment and operating costs, energy consumption and environmental impact of data centres by way of innovative, fully standardised IT architectures. To this end, the OCP provides an open platform for the sharing of ideas and know-how, as a vehicle for the definition of ground-breaking standards for the data centre of the future.

IT infrastructure – Architectures for the future

As a leading manufacturer of IT infrastructures, Rittal is proud to be a member of the OCP community. Expertise in the standardization of data centre architectures, in particular, has established Rittal's reputation as a strong partner when it comes to demanding OCP-related tasks.

As well as building application-specific racks, Rittal has also extended its standard portfolio to include the Open Compute Project segment. This means that Rittal can now handle customer-specific enquiries as well as requests for standardised racks based on the latest OCP design. As well as the rack itself, Rittal also offers a comprehensive range of accessories, a special power supply unit, and a cooling system tailored to innovative OCP architecture, reinforcing Rittal's image as an operational technology (OT) portfolio provider to the OCP segment.

In a joint collaboration with Bel Power Solutions & Protection, Rittal provides power supplies for OCP racks. These innovative and efficient power distributors are a key element of any OCP architecture. Substantial power savings can be made by transforming the power centrally and distributing it via the busbars that typify an OCP system.

48 V DC/36 kW

48 V DC/15 kW

12 V DC/6.6 – 13.2 kW

Open Compute Project (OCP)

Rack design for greater flexibility

Tried-and-tested rack design

- Complies with Open Rack Standards 1.2 and 2.0
- Stable, firmly linked frame structure on castors
- Prepared to accommodate special OCP hardware with a system width of 21" at the front
- Highly efficient power distribution by connecting the hardware directly to the busbar integrated into the rack
- UL listed, CE compliant
- Variants available for both system voltages 12 V DC and 48 V DC
- Potential output range of a rack based on OCP: 13.2 kW – 40 kW

More flexibility

- Doors available with a broad selection of lock options for keys, magnetic cards or numerical codes
- One-piece side panel for the end of row (EOR) rack
- Modular configuration of busbars

Variable interior

- Height units in the Open Compute Design with a variable OpenU pitch pattern (OU) from 1 OU (48 mm) to 3 OU
- Preconfigured slide rails for direct installation of servers, height-adjustable on the OpenU (OU) pitch pattern
- 21"19" adaptor for the additional integration of 482.6 mm (19") components optionally available
- Standard 1 U 482.6 mm (19") adaptor for tool-free installation of 19" hardware
- Special 482.6 mm (19") EIA brackets in various heights to accommodate multiple 19" devices

Standard R-OCP V2 rack

OCP rack, 41 OpenU (OU), for use in energy-efficient IT architectures based on the principles of the Open Compute Project. Depending on the variant, with split 12 V DC busbar fitted at the rear, or without busbar for individual configuration. Depending on accessories and the use of power packs, one (single) or two (dual) power zones may be used in the rack.

Benefits:

- Complies with Open Rack Standards 1.2 and 2.0
- Stable, firmly linked frame structure on castors
- Height units in the Open Compute Design with a variable OpenU pitch pattern (OU) of between 1 OU (48 mm) and 3 OU
- Pre-assembled slide rails for direct installation of servers, height-adjustable on the OpenU (OU) pitch pattern
- Prepared to accommodate special OCP hardware with a system width of 21" at the front
- Highly efficient power distribution by connecting the hardware directly to the 12 V DC busbar integrated into the rack
- 21"/19" adaptor for the additional integration of 482.6 mm (19") components optionally available
- Matching OCP power packs (power shelves) and batteries (back-up units) for central power supply and protection optionally available in the rack
- Extendible up to a maximum of 3 busbars

Material:

- Frame: Sheet steel

Colour:

- RAL 9005

Supply includes:

- Firmly linked frame structure, with fitted castors, without doors, without side panels
- 2 pairs of slide rails, 3 OU, pre-assembled
- 16 pairs of slide rails, 2 OU, pre-assembled

Please observe the product-specific scope of supply.

Standards:

- Open Rack Standard V2

Approvals:

- UL

12 V DC	6.6 - 13.2 kW	1 pc(s).	7100.312

OCP busbar 12 V DC for power distribution in a standard R-OCP V2 rack. The busbar is fitted at the rear and is used to supply power to the hardware in the rack. The hardware and busbar make contact via a clip connection at the rear of the hardware.

Benefits:

- Multiple 12 V DC busbars may be combined
- Simple configuration of two to one power zone
- Greater energy efficiency with silver-plated contact area

Material:

- Copper, zinc-plated, silver-plated

Supply includes:

- Assembly parts

OCP Power Supply Unit

The power supply unit (PSU) is a power pack which centrally transforms the current or voltage in an OCP rack. The PSUs operate in parallel mode. A power shelf is needed for installation of the power supply units. Depending on the power shelf, up to 6 PSUs may be installed.

Benefits:

- May be connected with the system operational
- Parallel operation with active load distribution

Software for IT infrastructure

Configurators/Tools/CAD data

IT Infrastructure

Security, availability and efficiency are crucial to the productive operation of a data centre. This calls for a comprehensive approach which addresses all the relevant requirements as well as the peripheral conditions in order to devise a suitable solution. As well as personalised advice, Rittal can also provide you with a comprehensive range of tools for selecting, configuring and monitoring all relevant parameters.

IT infrastructure selector

The selector supports you as partner, system integrator, system engineer or end customer in selecting the right IT products for your specific application.

Selector for:

- VX IT network/server enclosures
- Power Distribution Unit
- Liquid Cooling Package DX/CW
- Monitoring system CMC III
- Monitor/keyboard unit
- Fire alarm and extinguisher system DET-AC III

Benefits:

- All product segments in the data centre at a glance: Network/server racks, solutions for IT cooling, IT power and IT monitoring
- For added value, suitable accessories are suggested in every segment.
- The result is an individual IT infrastructure, ready for you to request a quote from Rittal.

Note:

- Use it online at www.rittal.com/it-configurator

RiMatrix S selector

Your selector for standardised data centres for SMEs, branch concepts and flexible cloud applications. Your solution is configured on the basis of standardised data centre modules.

Benefits:

- RiMatrix S at a glance
- Explanation of the option packages
- Efficiency calculation for your location
- As the outcome, you can save your compiled RiMatrix S solution as a PDF file.

Note:

- Use it online at www.rittal.com/configurators
- Download for free from the Google Play Store or App Store

Android app

iPhone app

Micro Data Center configurator

Configuration of your security safe, including a range of configuration components.

Benefits:

- Your complete micro data centre in just a few steps
- Individual selection of configuration components
- When you have finished, you can request a quote for your current configuration

Note:

- Configure online at www.rittal.com/mdc-configurator

Software for IT infrastructure

Configurators/Tools/CAD data

PDU configurator

Customise PDUs from the Rittal standard portfolio to suit your specific requirements. Assisted by the Rittal Configuration System (RICS), you can then visualise your configured solution directly during the selection process.

The modular concept:

- Adapt existing standard PDUs (built to order), delivery time up to 14 days
- Use a modular system comprised of individual system modules
- Wide range of accessories
- Additional modules, e.g. for overvoltage protection and for measuring differential current

Benefits:

- List and visualise your configuration
- Delivery times are shown transparently
- Get direct pricing information when you log into the online shop

Note:

- Use it online at www.rittal.com/configurators

IT cooling calculator

Simple selection of water-based Liquid Cooling Packages (LCP) for rack and suite cooling for your IT infrastructure.

Benefits:

- Calculation of the cooling output of LCPs
- Consideration of the various physical parameters
- Save your finished calculation as a PDF file

Note:

- Configure online at www.rittal.com/it-cc

DCIM – Data Centre Infrastructure Management

RiZone – Perfect support of IT infrastructure components

- Customer-focused and cost-efficient
- Optimum monitoring of IT infrastructure components
- The physical data centre infrastructure (OT devices) is incorporated into a data centre infrastructure management system.
- RiZone supports SNMP V1/V2C and SNMP V3
- Simple configuration
- Automatic detection of Rittal components
- Workflow editor for user-defined scenarios
- Enhanced security and reliability
- Enhanced energy efficiency
- Integration of SNMP-compatible third-party equipment

Note:

- Detailed product description, see page 830

Base/plinth system VX – More efficiency

Integral centring aid

- The centring aid for base/plinth mounting on the enclosure frame ensures precise positioning of the enclosure on the base/plinth

Enclosure attachment

- The nuts integrated into the base/plinth corner piece allow screw-fastening directly from above, through the stable base frame, or from below, into the enclosure corner piece

Simple cable management

- Secure cable attachment and cable routing via the punched section with mounting flange in the base/plinth
- Gain space with simple integration of the cable clamping rail and C rail for secure, user-friendly cable routing

Base/plinth

Base/plinth system VX

Modular base/plinth diversity

The innovative base/plinth system VX offers an unprecedented diversity of functions and applications. It combines all existing base/plinth functions in a single solution, as well as opening up many new applications. As if that isn't enough, it is also compatible with existing enclosure solutions TS, TS IT, SE, PC and IW. In short, it is a base/plinth system.

The base/plinth system VX comprises the following components:

- Base/plinth corner pieces with base/plinth trim panels, front and rear
- Base/plinth trim panels, sides

Thanks to fully symmetrical corner pieces, and by using the same base/plinth trim panels in the width and depth, the system opens up many new applications. For example, the vented trim panels and trim panels with brush strips available as accessories may now optionally be attached at the sides, or exchanged for the front/rear trim panels.

All trim panels may optionally be clipped into the corner piece, or securely screw-fastened. Depending on the application, for example, users can dispense with the trim panels between bayed enclosure suites, or a 100 mm high trim panel may be used to stabilise the base/plinth corner pieces. In combination with its extensive range of accessories, and thanks to its compatibility with enclosure accessories, the base/plinth system VX offers almost infinite possibilities in terms of siting, transportation, cable routing, cable attachment and base/plinth configuration.

One Model No. for the **base/plinth corner pieces with base/plinth trim panels, front and rear**

Configuration examples

Order includes	Functional benefits
3 packs Base/plinth corner pieces with base/plinth trim panels 1 pack Base/plinth trim panels, sides, 200 mm high	Continuous cable chamber
3 packs Base/plinth corner pieces with base/plinth trim panels 1 pack Base/plinth trim panels, sides, 200 mm high 1 pack Base/plinth trim panels, sides, 100 mm high 1 pack Baying brackets, internal (8617.500, packs of 6) 4 pc(s). are required for this solution	Additional stability during transportation with base/plinth trim panels rotated through 90°
3 packs Base/plinth corner pieces with base/plinth trim panels 2 packs Base/plinth trim panels, sides, 200 mm high	Shielding of the base/plinths from one another

Other options:

- Cable entry at the side by fitting a 100 mm base/plinth trim panel with brush strip
- Cable entry from the rear by dismantling one or more trim panels from the base/plinth corner pieces and replacing them with trim panels with brush strips
- Cable routing in the base/plinth by using punched sections with mounting flanges on the base/plinth trim panels

Base/plinth

Base/plinth system VX

Base/plinth corner pieces with base/plinth trim panels, front and rear

Sheet steel

for VX, VX IT, VX SE, TE, TopConsole, one-piece console, PC, IW

High-load capacity base/plinth corner pieces with moulded self-positioning to the enclosure, may be used with or without trim panels depending on the application. Large openings in the corner piece for optimum access to the screw-fastening point, may be concealed with a plastic corner and baying cover.

Material:

- Base/plinth corner piece: Sheet steel
- Base/plinth trim panel, front/rear: Sheet steel
- Corner and baying cover: Plastic

Colour:

- RAL 9005

100 mm high supply includes:

- 4 base/plinth corner pieces, 100 mm high
- 4 corner covers
- 1 baying cover
- 2 base/plinth trim panels, front/rear, 100 mm high
- Assembly parts

200 mm high supply includes:

- 4 base/plinth corner pieces, 200 mm high
- 4 corner covers
- 1 baying cover
- 1 base/plinth trim panel, front/rear, 200 mm high
- 2 base/plinth trim panels, front/rear, 100 mm high

Base/plinth

Base/plinth system VX

Base/plinth trim panels, vented

Sheet steel for base/plinth VX

For venting the enclosure via the base/plinth. Specifically in applications such as power distribution where the enclosure gland plates are not used, this can be used to achieve a higher air throughput inside the enclosure. Various solutions to raise the roof and special roof plates with vent openings are also available for enclosure venting. With a 200 mm base/plinth height, one or two vented trim panels may optionally be used. Thanks to the complete symmetry of the base/plinth system VX, the vented trim panels may either be fitted at the front, rear or side on the base/plinth corner piece.

Material:

- Sheet steel

Colour:

- RAL 9005

Supply includes:

- 2 base/plinth trim panels, vented
- Assembly parts for mounting on the base/plinth corner piece

For enclosure width/depth mm	Model No.
600	8620.090
800	8620.091

Accessories:

- Filter mat, see page 883
- Base/plinth installation bracket, see page 885
- Spacers for lifting the roof, see page 964
- Roof plate with vent holes, see page 961

Filter mat

for base/plinth trim panel, vented

The filter mat is simply inserted into the trim panel from the rear.

Supply includes:

- 1 pack = 2 rolls, length 2 m each, may be shortened to required length

Packs of	Model No.
1 pc(s).	8620.100

Baying cover

for VX base/plinth

To neatly close the gap between two bayed base/plinths and it is required to close the gap at the rear when baying three or more base/plinths.

Material:

- Plastic ABS, halogen-free

Colour:

- RAL 9005

Note:

- A baying cover is already included as standard with the supply of base/plinth corner pieces with base/plinth trim panels, front and rear

Height mm	Packs of	Model No.
100	10 pc(s).	8620.010
200	10 pc(s).	8620.011

1200	600	1 pc(s).	8600.265

+ Accessories:

- Side panels for cable chamber, see page 884

Side panel

for cable chamber

Height: 200 mm

Material:

- Sheet steel

Colour:

- RAL 7035

Supply includes:

- 2 side panels
- Assembly parts

For enclosure depth mm	Packs of	Model No.
500	2 pc(s).	8600.510
600	2 pc(s).	8600.520

Transport castors

for VX base/plinth

For locating onto the base/plinth corner piece, 100 or 200 mm high.

Load capacity:

- Maximum permissible load per twin castor: 750 N

Colour:

- RAL 9005

Supply includes:

- 4 twin castors, 2 x with, 2 x without locks

Floor clearance mm	Model No.
100	8100.700

+ Accessories:

- Base/plinth trim panels, sides, sheet, for stabilisation, see page 882
- Base/plinth trim panels, sides, stainless steel, for stabilisation, see page 887

Base/plinth

Base/plinth system VX

Base mounting plate

for base/plinth VX, base/plinth AX and base/plinth, complete

For attaching the base/plinth to the floor.
For assembly screws up to 12 mm Ø.

Material:

– Sheet steel

Surface finish:

– Zinc-plated

Packs of	Model No.
10 pc(s).	2817.000

Base/plinth installation bracket

for VX base/plinth

For configuring the base/plinth with punched sections with mounting flanges or cable clamp rails. To fit 100 and 200 mm high base/plinth trim panels in sheet steel and stainless steel.

Material:

– Stainless steel 1.4301 (AISI 304)

Supply includes:

- 2 installation brackets
- 2 mounting brackets for cable clamp rail
- Assembly parts

Note:

- For interior installation on upright base/plinth trim panels
- For base/plinth trim panels rotated through 90°, the installation bracket is not needed, because in this position, the system punchings of the base/plinth trim panels may be used directly

For base/plinth trim panel Height mm	Packs of	Model No.
100	2 pc(s).	8620.400
200	2 pc(s).	

Accessories:

- Punched section with mounting flange, 23 x 64 mm, see page 991
- Punched section with mounting flange, 23 x 89 mm, see page 991
- Cable clamp rail, see page 1059

- 1 Installation bracket with mounting bracket for cable clamp rail
- 2 Cable clamp rail
- 3 Installation bracket
- 4 Punched section with mounting flange, 23 x 89 mm
- 5 Base/plinth trim panel, rotated through 90°

Base/plinth

Base/plinth system VX

Levelling component

for VX base/plinth

For retrospective levelling on uneven floors at the installation site up to a maximum of 15 mm. Installed through the base/plinth corner piece. Adjusted using a hex spanner, width across flats 19 mm.

Benefits:

- A door offset caused by uneven flooring can be corrected
- Installed on the assembled enclosure, i.e. no need to plan levelling in advance

Load capacity:

- Max. admissible load: 2500 N per levelling component (check the load capacity of the floor)

Supply includes:

- Assembly parts

For base/plinth height mm	Packs of	Model No.
100	4 pc(s).	8100.710
200	4 pc(s).	8100.711

Base/plinth corner pieces with base/plinth trim panels, front and rear

Stainless steel for VX, VX SE, PC

High-load capacity base/plinth corner pieces with moulded self-positioning to the enclosure, may be used with or without trim panels depending on the application. Large openings in the corner piece for optimum access to the screw-fastening point, may be concealed with a plastic corner and baying cover.

Material:

- Base/plinth corner piece: Stainless steel 1.4301 (AISI 304)
- Base/plinth trim panel, front/rear: Stainless steel 1.4301 (AISI 304 steel)
- Corner and baying cover: Plastic

Surface finish:

- Trim panel: Grain size 400

100 mm high supply includes:

- 4 base/plinth corner pieces, 100 mm high
- 4 corner covers
- 1 baying cover
- 2 base/plinth trim panels, front/rear, 100 mm high
- Assembly parts

200 mm high supply includes:

- 4 base/plinth corner pieces, 200 mm high
- 4 corner covers
- 1 baying cover
- 1 base/plinth trim panel, front/rear, 200 mm high
- 2 base/plinth trim panels, front/rear, 100 mm high
- Assembly parts

For enclosure width mm	Height mm	Model No.
600	100	8620.050

800	200	8620.061
1000	200	8620.062
1200	200	8620.063

Also required:

- Base/plinth trim panels, sides, to finish off a unit, for additional stabilisation between base/plinths, or for interior configuration, see page 887

Accessories:

- Base/plinth installation bracket, see page 885
- Levelling component for base/plinth, see page 886
- Base mounting plate, see page 885
- Base/plinth adaptor for twin castors and levelling feet, see page 893
- Transport castors for base/plinth, see page 884
- C rails, see page 996

Base/plinth

Base/plinth system VX

Base/plinth trim panels, sides

Stainless steel for base/plinth VX

To finish off a base/plinth unit at the sides and for additional stabilisation or for the interior configuration of bayed base/plinths. One 200 mm high or two 100 mm high trim panels may optionally be fitted on 200 mm high base/plinths.

Material:

- Stainless steel 1.4301 (AISI 304)

Surface finish:

- Brushed, grain size 400

Supply includes:

- 2 base/plinth trim panels
- Assembly parts

For enclosure depth mm	Height mm	Model No.
400	100	8620.070
500	100	8620.071

400	200	8620.080
500	200	8620.081
600	200	8620.082

Accessories:

- Base/plinth installation bracket, see page 885

Base/plinth

Base/plinth system AX

Modular base/plinth diversity

The innovative base/plinth system AX offers an unprecedented diversity of functions and applications.

The base/plinth system AX comprises the following components:

- Base/plinth corner pieces with base/plinth trim panels, front and rear
- Base/plinth trim panels, sides

One Model No. for the **base/plinth corner pieces with base/plinth trim panels, front and rear**

One Model No. for the **base/plinth trim panels, sides**

One complete **base/plinth AX**

Base/plinth height	Basic form	Cable entry options				Stabilisation of bayed base/plinths	
100 mm							
200 mm							

Base/plinth corner pieces with base/plinth trim panels, front and rear

Sheet steel for AX, AX IT

Base/plinth corner pieces with large opening for optimum access to the screw-fastening point, may be concealed with a plastic corner cover.

Material:

- Base/plinth corner piece: Sheet steel
- Base/plinth trim panel, front/rear: Sheet steel
- Corner cover: Plastic

Colour:

- RAL 9005

100 mm high supply includes:

- 4 base/plinth corner pieces, 100 mm high
- 4 corner covers
- 2 base/plinth trim panels, front/rear, 100 mm high
- Assembly parts

200 mm high supply includes:

- 4 base/plinth corner pieces, 200 mm high
- 4 corner covers
- 1 base/plinth trim panel, front/rear, 200 mm high
- 2 base/plinth trim panels, front/rear, 100 mm high
- Assembly parts

600	2820.062
800	2820.082
1000	2820.102
1200	2820.122

Also required:

- Side base/plinth trim panels, to finish off a base/plinth unit at the end or for interior configuration of the base/plinth, see page 889

Accessories:

- Base mounting plate, see page 885

Base/plinth

Base/plinth system AX

Base/plinth trim panel, sides

Sheet steel for base/plinth AX

To finish off a base/plinth unit at the sides or for the interior configuration of the base/plinth. One 200 mm high or two 100 mm high trim panels may optionally be fitted on 200 mm high base/plinths.

Material:

- Sheet steel

Colour:

- RAL 9005

Supply includes:

- 2 base/plinth trim panels
- Assembly parts

100 mm high

For enclosure depth mm	Model No.
300	2820.310

Base/plinth

Base/plinth

Base/plinth, complete

Sheet steel for TP universal console

Trim panels, front and rear with fitted corner pieces and side trim panels.

Height: 100 mm

Material:

- Sheet steel

Surface finish:

- Spray-finished

Colour:

- RAL 7022

Supply includes:

- 4 corner pieces
- 2 trim panels, front/rear
- 2 trim panels, side
- Mounting accessories for mounting on the enclosure

For consoles		Base/plinth depth mm	Model No.
Width mm	Depth mm		
600	500	450	2807.200

+ Accessories:

- Fastening bolt, see page 891
- Base mounting plate, see page 885

Base/plinth, complete

Stainless steel for one-piece console, stainless steel

Height: 100 mm

Where necessary, 2 base/plinths may be installed one above the other.

Material:

- Stainless steel 1.4301 (AISI 304)

Surface finish:

- Brushed

Supply includes:

- 2 trim panels, front/rear
- 2 trim panels, side
- Mounting accessories for mounting on the enclosure

For enclosures / consoles		Model No.
Width mm	Depth mm	
600	400	2865.000
800	400	2869.000
1000	400	2867.000
1200	400	2870.000

+ Accessories:

- Levelling feet HD, see page 223

Base/plinth, static

for PC, IW

Design-coordinated with the enclosures, height 100 mm, with front projection.

Material:

- Sheet steel, 2.0 mm

Colour:

- RAL 7035
- Design component, front: RAL 7015

Supply includes:

- 1 design component, front
- 1 base/plinth component, rear
- 2 base/plinth trim panels, side

For depth mm	Packs of	Model No.
600	1 pc(s).	8800.920

+ Accessories:

- Twin castors 7495.000, see page 893
- Levelling feet 4612.000, see page 892
- Fastening bolt 2819.000, see page 891

Base/plinth

Base/plinth

Fastening bolts

for base/plinth, complete and base/plinth, static

For mounting on base/plinth trim panels, side. The lockable fastening bolt allows the installation of cable clamp rails. Tighten with hex spanner, width across flats 19 mm.

Material:

– Hexagonal steel

Surface finish:

– Zinc-plated

For base/plinth trim panel Height mm	Packs of	Model No.
100	10 pc(s).	2819.000
200	10 pc(s).	2819.200

Accessories:

– Cable clamp rail, see page 1059

¹⁾ Only for height 200 mm

Cross member

adjustable for VX, VX SE, TP, PC, IW

To increase stability, adjustable to the enclosure depth.

Height: 70 mm

To increase stability, the cross member is positioned below the base frame of the enclosure and protrudes 138 mm at the front and rear. For deeper enclosures, the rear part may be extended and screw-fastened again. For screw-fastening to the floor and enclosure with mounting hole at the sides, front and rear. The castors and levelling feet may be secured to the welded nuts M12.

Material:

– Sheet steel

Surface finish:

– Spray-finished

Colour:

– RAL 7015

For enclosure depth mm	Model No.
400	8601.450
500	
600	8601.680
800	

Accessories:

– Twin castors 6148.000, 7495.000, see page 893
– Levelling feet 4612.000, see page 892

Assembly instruction:

– Ensure sufficient stability to prevent the enclosure from tipping over

Base/plinth

for FlatBox

For attachment purposes, the base/plinth may be mounted on the pre-existing thread in the base area of the FlatBox. There is a rear recess provided for cable entry.

Material:

– Sheet steel

Surface finish:

– Powder-coated

Colour:

– RAL 7035

Supply includes:

– 4 levelling feet
– Assembly parts

For base area		Height mm	Packs of	Model No.
Width mm	Depth mm			
600	600	50	1 pc(s).	7507.750
700	700	50	1 pc(s).	7507.755

Base

Base

Levelling feet

for VX, VX IT, VX SE, PC, IW

To compensate for height differences with floor irregularities. Mounting thread M12.

Load capacity:

- Max. admissible load: approx. 3000 N per levelling foot

For enclosure	Levelling range mm	Packs of	Model No.
Sheet steel	18 – 43	4 pc(s).	4612.000
Stainless steel	55 – 125	4 pc(s).	8100.780

Also required:

- For mounting on the base/plinth:
Base/plinth adaptor, see page 893

Levelling feet

with internal adjustment, for VX IT

To compensate for floor irregularities. When used in the mounting bracket, the levelling feet are moved inwards to allow convenient operation from inside the enclosure so that the enclosure is easily levelled, even retrospectively.

Load capacity:

- Max. admissible static load: 6500 N per levelling foot

Supply includes:

- 4 levelling feet, M12, with TX30 hex socket drive
- 4 mounting brackets
- Assembly parts

Packs of	Model No.
4 pc(s).	5301.326

Note:

- Use levelling foot 4612.000 and base/plinth adaptor 8100.770 for mounting on the VX base/plinth

Levelling feet

for FlatBox M10 x 20 mm

For screw-fastening onto the enclosure base when used as a floor-standing or desktop enclosure. Width across flats 17, mounting thread multi-tooth 30.

Load capacity:

- Max. admissible static load:
5500 N per levelling foot
700 N per enclosure

Packs of	Model No.
4 pc(s).	7507.740

Levelling feet

for VX, VX SE, PC
85 – 115 mm high

For mounting on enclosures, for easier floor cleaning and to compensate for floor irregularities ±15 mm.

Load capacity:

- Max. admissible load: 3,500 N per levelling foot

Material:

- Stainless steel 1.4301 (AISI 304)

Supply includes:

- Assembly parts

Packs of	Model No.
4 pc(s).	2859.000

Twin castors

Mounting thread M12 x 20.

For:

- Baying enclosure system VX
- Network/server racks VX IT
- Free-standing enclosure system VX SE
- PC enclosure system
- Pedestal base plate
- Pedestal 6106.200/6106.300
- TopConsole pedestals
- Industrial Workstation
- Data Rack

Supply includes:

- Packs of 4 twin castors, 2 x with, 2 x without locks
- Assembly parts

	Maximum admissible static load (per castor)	75 kg
1	Floor clearance	85 mm
	Colour	Black with grey running surface
	Model No.	6148.000

	Maximum admissible static load (per castor)	120 kg
2	Floor clearance	125 mm
	Colour	Black
	Model No.	7495.000

Note:

For mounting on the VX base/plinth, only twin castors 7495.000 may be used in combination with the base/plinth adaptor for twin castors, see page 893

Base/plinth adaptor

for twin castors and levelling feet

For mounting twin castors and levelling feet to the base/plinth.

Material	Packs of	Model No.
Sheet steel	4 pc(s).	8100.770
	4 pc(s).	8100.771

Also required:

- When fitting twin castors, side trim panels, see page 882/887, are required.

Base

Base

Transport kit

for VX, VX IT empty enclosures

To easily transport empty enclosures to the point of use.

Load capacity:

- Max. static load: 2,000 N per set of castors, including enclosure

Supply includes:

- 4 castors
- 4 mounting brackets
- Assembly parts

Packs of	Model No.
1 pc(s).	5301.515

Assembly instruction:

- The base area must be open at the mounting points

Castor module

for VX, VX IT

For mobile use even with preconfigured enclosures. The castor module is screw-fastened to the structure directly underneath the base frame and is suitable for transporting configured enclosures on flat ground and inside buildings. The castor modules already have pre-integrated levelling feet, allowing the enclosure to be levelled directly on site at the point of installation. The castor module can remain underneath the enclosure.

Load capacity:

- Max. admissible load: Static 15,000 N
- Max. admissible load: Dynamic 10,000 N

Supply includes:

- 1 transport module with 2 castors
- 1 transport module with 2 castors, fixed
- Assembly parts

For enclosure width mm	Packs of	Model No.
600	2 pc(s).	5301.516
800	2 pc(s).	5301.518

Note:

- The maximum admissible load capacity (dynamic) of 10,000 N refers to rolling over flat ground

Assembly instruction:

- The base area must be open at the mounting points

Stabiliser

for VX IT

If required, the optional stabiliser for the VX IT may be retrofitted in situ at any time. With the front door open, simply snap onto the vertical sections of the enclosure frame and level to match the enclosure height. This enlarges the enclosure's footprint and makes it less likely to tip over when installed components are withdrawn from the enclosure or fitted in the front. It can be used as an alternative if the enclosures cannot be screw-fastened to the floor or secured in an enclosure suite. After installation, simply remove the stabiliser again. The stabiliser may be used on the enclosure frame without bottom-mounting and in combination with levelling feet or a base/plinth up to 200 mm high. The striking signal-red spray-finish draws attention to this trip hazard.

Packs of	Model No.
2 pc(s).	5301.325

Load capacity:

- Max. extension weight: 200 kg, point of gravity 250 mm from the enclosure front

Material:

- Sheet steel, spray finished in RAL 3001 (signal red)

Supply includes:

- 2 levelling stabilisers with fast, tool-free installation

- 1 Max. distance to the front edge of the enclosure 250 mm

Transport castors

for TE

The castors may be screw-fastened in the corner areas of the base frame in place of the levelling feet. Floor clearance: 58 mm, mounting thread M10 x 20

Supply includes:

- Assembly parts

Max. load capacity (static) per enclosure N	Packs of	Model No.
3000	4 pc(s).	7000.672

System divider

for VX, VX SE

Divides the enclosure width into two zones. For example, this allows mounting plates, cable clamp rails or swing frames from 600 mm wide enclosures to be fitted in 1200 mm wide enclosures.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Depth mm	Packs of	Model No.
500	2 pc(s).	8620.900
600	2 pc(s).	8620.901

Accessories:

- Swing frame mounting kit, see page 1078
- Cable clamp rail, see page 1059
- Support rails 48 x 26 mm, see page 996

Base

Base

Gland plates

for VX, VX IT, VX SE

For individual configuration of the floor space. Potential equalisation is provided via assembly components and earthing points.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Note:

- At least one sliding plate is required to fully seal a base opening
- For two-door enclosures, one pack is sufficient for one half of the enclosure

Example with enclosure depth 600 mm

T1 (600 mm) - 148 = T2 (452 mm)

1 Sliding plate

Accessories:

- Sliding plate, see page 896

For enclosure width 600 mm

275	1 pc(s).	8001.225

Sliding plate

for VX, VX IT, VX SE

For variable compensation as well as a flexible opening in the base area. May be combined with gland plates.

Sliding plate depth:

- 65 - 115 mm

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

For enclosure width mm	Packs of	Model No.
600	1 pc(s).	8001.239
800	1 pc(s).	8001.241
1000	1 pc(s).	8001.242
1200	1 pc(s).	8001.243

Gland plate set, multi-piece, solid

for VX IT

Multi-piece gland plate set consisting of solid base plate modules and a sliding plate for cable entry. The solid gland plate module, depth 237.5 mm, may optionally be exchanged for gland plate module variants for cable entry.

Benefit:

- The sequence of individual modules may be freely selected

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Gland plate set
- Sealing tape
- Assembly parts

For enclosure width mm	For enclosure depth mm	Gland plate module, solid				Sliding plate depth 115 mm	Packs of	Model No.

Gland plate module, vented

for VX IT

For closing the base

Benefit:

- Large perforated section to support passive climate control of the enclosure
- Filter mat slides in from above for easy replacement

Gland plate depth:

- 237.5 mm

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Gland plate module, vented
- Filter mat
- Assembly parts

For enclosure width mm	Packs of	Model No.
600	1 pc(s).	5301.330
800	1 pc(s).	5301.331

Assembly instruction:

- Several gland module plates must be combined to seal the base completely in the VX IT
- The gland plate module may be combined in exchange with other base modules with a depth of 237.5 mm

Gland plate module, one-piece, with brush strip

for VX IT

For targeted cable entry from below.

Gland plate depth:

- 237.5 mm

Material:

- Module plate: Sheet steel
- Brush strip: Plastic, UL 94 HB, halogen-free

Surface finish:

- Module plate: Zinc-plated

Supply includes:

- Assembly parts

For enclosure width mm	Packs of	Model No.
600	1 pc(s).	5301.332
800	1 pc(s).	5301.333

Note:

- Gland plate modules with brush strip not suitable for applications with a protection category to IEC 60 529

Assembly instruction:

- Several gland module plates must be combined to seal the base completely in the VX IT
- The gland plate module may be combined in exchange with other base modules with a depth of 237.5 mm

Base

Base

Gland plate module, multi-piece, with brush strip, super-airtight

for VX IT

For targeted cable entry from below. With correct cable entry, special brush strips with alternating off-set brushes provide a more effective seal from the environment to support climate control. The two-piece design even allows retrospective fitting of the base module with the cables already installed.

Gland plate depth:

- 237.5 mm

Material:

- Module plate: Sheet steel
- Brush strip: Plastic, UL 94 HB, halogen-free

Surface finish:

- Module plate: Zinc-plated

Supply includes:

- Assembly parts

For enclosure width mm	Packs of	Model No.
600	1 pc(s).	5301.334
800	1 pc(s).	5301.335

Note:

- Gland plate modules with brush strip not suitable for applications with a protection category to IEC 60 529

Assembly instruction:

- Several gland module plates must be combined to seal the base completely in the VX IT
- The gland plate module may be combined in exchange with other base modules with a depth of 237.5 mm.

Gland plate module for side cable entry

for VX IT

With adjustable opening and brush strips on both sides. The version which is open at the side even allows the base plate module to be retro-fitted with the cables already installed.

Gland plate depth:

- 237.5 mm

Material:

- Module plate: Sheet steel
- Brush strip: Plastic, UL 94 HB, halogen-free

Surface finish:

- Module plate: Zinc-plated

Supply includes:

- Assembly parts

For enclosure width mm	Packs of	Model No.
800	1 pc(s).	5301.348

Note:

- Gland plate modules with brush strip not suitable for applications with a protection category to IEC 60 529

Assembly instruction:

- Several gland module plates must be combined to seal the base completely in the VX IT
- The gland plate module may be combined in exchange with other base modules with a depth of 237.5 mm.

Module plates

for TE

The base area of the TE may be varied as required using the module plates.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

450	200	600	7526.850
650	200	800	7526.860

Please note the following when selecting suitable module plates:

B1 = Enclosure width (B) - 150 mm

T1 = Enclosure depth (T) - 50 mm

Base

Base

Base mounting bracket

for VX, VX IT

To anchor the enclosure to the floor, particularly if it is top-heavy and inclined to tilt or cannot be incorporated into a suite of enclosures.

Material:

- Sheet steel, zinc-plated

Supply includes:

- Assembly parts

Packs of	Model No.
2 pc(s).	5301.350

Assembly instruction:

- The base area must be open at the mounting points
- Additional holes in the false base are required for mounting
- The assembly parts for connecting the enclosure to the substructure will vary according to its specific properties and are not included with the supply

Pressure relief stopper

Especially when enclosures are exposed to changing climatic conditions, pressure differences may cause condensation to form in sealed enclosures. The integral sealing membrane in the pressure relief stopper largely prevents such pressure differences and hence eliminates condensation; additionally, it also prevents the ingress of moisture from the outside.

Installed in vertical surfaces to protect against dirt.

Technical specifications:

- Air permeability up to 120 litres/hour with a pressure difference of 70 mbar
- Connection thread M12 x 1.5
- For fitting in wall thicknesses up to 4 mm

Packs of	Model No.
5 pc(s).	2459.500

Material:

- Polyamide

Colour:

- Similar to RAL 9005

Protection category IP to IEC 60 529:

- IP X8

Protection category IP to DIN 40 040-9:

- IP 69K

Supply includes:

- Lock nut

Condensate discharge

For reliable condensate discharge from the inside and protection against splashed water from the outside (labyrinth effect). A hole diameter of 16 mm is required (with AX sheet steel, the holes are already provided in the base).

Material:

- Polyamide

Colour:

- Similar to RAL 7035

Protection category:

- Protection from splashed water, when correctly installed at the bottom

Packs of	Model No.
6 pc(s).	2459.000

Side panel, screw-fastened, sheet steel

for VX, VX IT

- Time-saving assembly thanks to clip-in side panel holders
- Automatic potential equalisation and higher EMC protection, thanks to enclosure panel holders with earthing inserts located on the inside
- Easy positioning in the height and depth with the location aid
- Simple assembly
- Earthing bolts with large, paint-free contact surface for optimum contact

Material:

- Sheet steel, 1.5 mm

Surface finish:

- Dipcoat-primed, powder-coated on the outside

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- IP 55 (in conjunction with enclosures from the VX, VX IT series)

Protection category NEMA:

- NEMA 12 (in conjunction with enclosures from the VX, VX IT series)

Supply includes:

- Assembly parts

Walls

Side panels

Hinge

for side panel, screw-fastened, sheet steel

The 180° opening angle allows unhindered access from the side.

Material:

- Die-cast zinc

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- IP 55 (in conjunction with enclosures from the VX, VX IT series)

Supply includes:

- Assembly parts

Packs of	Model No.
6 pc(s).	8106.260

Note:

- Hinge mounting (red) is only possible in the vicinity of the rear panel (blue)
- Only for use with a side panel depth of 800 mm or less

Internal latch

for side panel, screw-fastened, sheet steel

Additional security is achieved via the option of latching the side panel from the inside. The side panels on the frame section are screw-fastened from the inside with latching brackets.

Surface finish:

- Sheet steel, zinc-plated

Protection category IP to IEC 60 529:

- IP 55 (in conjunction with enclosures from the VX, VX IT series)

Supply includes:

- 2 mounting brackets
- Assembly parts

Packs of	Model No.
2 pc(s).	5301.235

Assembly instruction:

- Access via the front and rear doors must be guaranteed

Side panel, horizontally divided for VX IT

For sealing IT enclosure systems, both stand-alone and baying arrangements.

Benefits:

- Simple handling
- Supports tool-free installation and removal of the side wall
- Locked using security lock 3524 E
- Integral internal latch

Material:

- Sheet steel

Surface finish:

- Powder-coated

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- IP 20

Supply includes:

- Top piece
- Bottom piece
- 6 mounting brackets
- 2 lock components
- Assembly parts

For enclosure height mm	For enclosure depth mm	Packs of	Model No.

Side panels

Side panel, vertically divided for VX IT

Benefits:

- Simple handling
- Easy to close with snap fasteners
- Optimum access to all installed components
- Opening is only possible via internal locking elements, which requires free access via the doors, but significantly increases access security
- Individual side parts may be completely dismantled at any time without the need for tools

Material:

- Sheet steel

Surface finish:

- Powder-coated

Colour:

Protection category IP to IEC 60 529:

- IP 20

Supply includes:

- 4 cam locks including security lock 3524 E

Corrosion protection primer

The one-component primer is suitable as corrosion protection on paint-free spots which occur due to cut-outs etc. Used to renew corrosion protection of paint-free spots in accordance with the standard IEC 61439 for low-voltage and switchgear assemblies.

Benefits:

- Exceptional bonding
- Passive protection from corrosion
- Very high filling force

Colour:

- Dark grey

Walls

Divider panels/partitions

Partition, one-piece, for slide-in fixing

for VX IT

For rack mounting, suspended between two bayed enclosures. With one Ø 40 mm hole in the left-hand and right-hand corner areas for inserting cables, conduits etc. These drilled holes may be sealed with the enclosed cover caps.

Benefits:

- Simply slides into position

Material:

- Sheet steel, zinc-plated

Protection category:

- IP 20 (with fitted cover caps)

Supply includes:

- Partition
- 2 cover caps

Note:

- Use baying connector, external, 3 mm
- Not suitable for use in conjunction with a baying seal
- Any baying seal that may be present must be removed prior to installation

For enclosure height mm	For enclosure depth mm	Packs of	Model No.

2450	1000	1 pc(s).	5301.315
2450	1200	1 pc(s).	5301.317

Assembly instruction:

- A baying gap of 3 mm is required to insert the partition

Accessories:

- Baying connector, external, 3 mm, see page 914

Partition, vertically divided, for screw fastening

for VX IT

For retrospective installation/dismantling of bayed enclosures. The integrated sealing profile supports enclosure sealing for climate control or for applications with extinguisher gas. It may be fitted from the outside prior to baying the enclosure, or from the inside after baying the enclosure. As the partition is located inside the frame structure, it may be retrofitted at any time. There are no specific required baying distances between the enclosures.

Material:

- Sheet steel, zinc-plated

Supply includes:

- 2 partitioning plates
- 4 cover caps
- Punched rail
- Seal
- Assembly parts

For enclosure height mm	For enclosure depth mm	Packs of	Model No.

2450	1000	1 pc(s).	5301.319
2450	1200	1 pc(s).	5301.321

Assembly instruction:

- Assembly/removal only supported for enclosures without interior installation

Accessories:

- Baying connector, external, see page 912
- Baying connector, external, 3 mm, see page 914

Divider panels/partitions

Divider panel

for VX

For shielding individual enclosure cells. Thanks to the symmetry of the frame system, the divider panel can also be used at the rear. All-round, double fold for stability and to hold the seal.

Material:

- Sheet steel, 1.5 mm

Surface finish:

- Zinc-plated

Protection category IP to IEC 60 529:

- IP 54 (in conjunction with enclosures from the VX series)

Supply includes:

- Assembly parts

Also required:

- When buying in conjunction with a divider panel:
Baying bracket, internal 8617.500, see page 912 or
baying connector, external 8617.502/ 8617.503, see page 912

Walls

Divider panels/partitions

Divider panel

for module plates for VX

With cut-outs for the installation of module plates for connectors or for cable entry, and also for the entry of busbar systems and other installed equipment. All-round, double fold for stability and to hold the seal. The symmetry of the enclosure frame means that divider panels may also be fitted at the rear, dimensions permitting.

Material:

- Sheet steel, 2 mm

Surface finish:

- Zinc-plated

Supply includes:

- Seal and assembly parts

Also required:

- When buying in conjunction with a divider panel:
Baying bracket, internal 8617.500, see page 912
or
baying connector, external 8617.502/ 8617.503,
see page 912

Cover with door

for VX

- To protect and finish off connectors or other installed equipment.
- Optional cable entry from above or below

Material:

- Cover: Sheet steel, 1.5 mm
- Door: Sheet steel, 2.0 mm

Surface finish:

- Dipcoat-primed, powder-coated on the outside

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- IP 55 (in conjunction with enclosures from the VX series)

Protection category to NEMA:

- NEMA 12 (in conjunction with enclosures from the VX series)

Supply includes:

- Cover
- Door with locking rod and double-bit lock insert
- 2 trim panels for top and bottom

For enclosures		Model No.
Height mm	Depth mm	
2000	500	8609.220
2000	600	8609.230

Accessories:

- Lock inserts, type G, see page 941
- Comfort handle VX, see page 937
- 180° hinge, see page 951

Isolator door locking

Isolator door cover

for VX

Including main door latch for safety locking of enclosures and bayed enclosure suites in accordance with UL regulations. Tested in conjunction with actuator lever for master switch from the following companies:

- Allen Bradley
- Square D
- General Electric
- Eaton
- Siemens

A detailed overview of types can be found on the Internet, together with the product description.

Benefits:

- Meets the requirements of UL 508 A
- In conjunction with the operating mechanism, adjacent door lock and interconnecting rods, these requirements are also met for bayed combinations
- Optional mounting on the left or right of the enclosure. With this cover, all single-door bayed enclosures may be configured as isolator door enclosures. The complete installation surface of the enclosure is retained.
- In conjunction with the integrated mounting plate infill, the mounting surface of the main enclosure can be enlarged by up to 14%.
- Two cut-outs for actuator levers on the front, for internal mounting at varying heights

Protection category IP to IEC 60 529:

- IP 55 (in conjunction with enclosures from the VX series)

Protection category to NEMA:

- NEMA 12 (in conjunction with enclosures from the VX series)

Supply includes:

- Main door lock, cover plate and assembly parts

Note:

- Cover may only be mounted on a single-door enclosure with tubular door frame

Also required:

For bayed suites:

- Operating mechanism 4912.000, for enclosure with isolator door cover and additionally in every fourth adjacent enclosure, see page 910
- Adjacent door latch 4911.000, 4911.100, for every adjacent enclosure, see page 910
- Interconnecting rods, for every adjacent enclosure in the appropriate enclosure width, see page 910
- Side panel, screw-fastened, see page 901

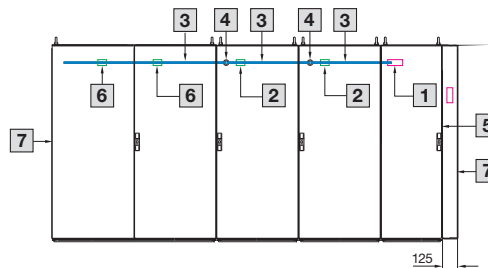

Accessories:

- Mounting plate infill, see page 971

Isolator door lock

- 1 Operating mechanism
- 2 Adjacent door latch (single-door)
- 3 Interconnecting rod
- 4 Connection component
- 5 Main door latch
- 6 Adjacent door latch (two-door)
- 7 Side panel, screw-fastened

Walls

Isolator door locking

Door latch for bayed enclosure suites

In conjunction with the isolator door cover, the requirements of UL 508 A are also met for bayed enclosure suites. Depending on the baying combination, different components will be required; refer to the assembly sketch on page 909.

Note:

- The door latch for bayed enclosure suites can also be used without the isolator door cover and in combination with commercially available master switches. In this way, adjacent doors cannot be opened until the main door has been opened.

1 Operating mechanism

Fitted in the enclosure with main switch and additionally in every fourth adjacent enclosure

VX IT

Baying system

Baying

Baying bracket, internal

for VX, VX IT

- Fast, secure installation either from the front or from the side
- For all-round installation on the baying point
- May be flexibly positioned to avoid collisions with installed equipment
- Also suitable for baying base/plinth components

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Baying bracket, internal
- Baying seal
- Assembly parts

Packs of	Model No.
6 pc(s).	8617.500

Note:

- 1 pack is sufficient for one baying joint
- Transportation of bayed enclosures, see page 915

Possible alternative:

- Baying block, internal, see page 912
- Baying connector, external 8617.502, see page 912

Baying block, internal

for VX, VX IT

- Side mounting creates a flush surface to the profile, suitable for top mounting, thus avoiding collisions with installed equipment
- For all-round installation on the baying point

Material:

- Die-cast zinc

Supply includes:

- Baying block, internal
- Baying seal
- Assembly parts

Packs of	Model No.
6 pc(s).	8617.501

Note:

- 1 pack is sufficient for one baying joint

Possible alternative:

- Baying bracket, internal, see page 912
- Baying connector, external 8617.502, see page 912

Baying connector, external

for VX, VX IT

For mounting on the vertical enclosure sections from the outside.

Supply includes:

- Baying connector, external
- Baying seal
- Assembly parts

Material	Packs of	Model No.
Sheet steel, zinc-plated	6 pc(s).	8617.502
Stainless steel 1.4301 (AISI 304)	6 pc(s).	8617.503

Note:

- 1 pack is sufficient for one baying joint

Possible alternative:

- Baying bracket, internal, see page 912
- Baying block, internal, see page 912

Baying system

Baying

Quick-fit baying clamps

for VX

- For all-round installation on the baying point
- May be flexibly positioned to avoid collisions with installed equipment
- Simply tighten the screws, tap in the quick-fit baying clamp, pull the enclosures together and secure
- Additional mounting level between bayed enclosures, e.g. for mounting cable ducts

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Packs of	Model No.
6 pc(s).	8617.506

Note:

- 1 pack is sufficient for one baying joint

Accessories:

- Baying seal 8617.507, see page 914

Angular baying bracket

for VX

For stable connection in the corners of bayed enclosures. Perfectly suited for aligning enclosures with one another on uneven floors

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Packs of	Model No.
4 pc(s).	8617.508

Note:

- 1 pack is sufficient for one baying joint
- To achieve the required protection category and transportation stability, further baying connectors should be used halfway up the enclosure

Baying connector, external, 9 mm

for VX IT/VX IT with side panels

For retrospective baying of enclosures with side panels.

Material:

- Sheet steel

Colour:

- RAL 7035

Supply includes:

- Assembly parts

Packs of	Model No.
4 pc(s).	7824.540

Baying system

Baying

Baying connector, external, 3 mm

for VX IT

Applications:

- For retrospectively exchanging racks or LCP devices
- For retroactive installation/removal of partitions, one-piece, slide-in

Benefits:

- Supports retroactive exchange of racks or LCP devices
- Guarantees the required baying distance of 3 mm for carrying out retrospective modifications

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- 4 baying connectors, external, 3 mm
- Baying seal, 8 m
- Assembly parts

Packs of	Model No.
1 pc(s).	5301.310

Note:

- Within a bayed enclosure suite, the external dimension is increased by 2 mm per baying point
- The maximum achievable IP protection category to IEC 60 529 is IP 20.

Baying clamp

for VX IT/TS IT

For baying enclosures in the VX IT series to TS IT.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- 4 baying connectors, external
- 2 baying connectors, internal
- Baying seal, 8 m
- Assembly parts

Packs of	Model No.
1 pc(s).	5301.312

Note:

- The maximum achievable IP protection category to IEC 60 529 is IP 54

Baying seal

for VX

May be used individually for baying on all existing enclosure sizes. The seal sits securely around the section edge, and is easily removed at any time without leaving any residues. It is also reusable.

Packs of	Model No.
1 pc(s).	8617.507

Material:

- EPDM

Supply includes:

- 8 m

Notes on the transportation of bayed VX enclosures

When transporting bayed enclosures, for example, the baying bracket, internal (8617.500), the baying block, internal (8617.501) or the baying connector, external (8617.502 and 8617.503) may be used in conjunction with the combination angle (4540.000). The load capacity with a cable pull angle of 60° is as follows:
 for the left-hand enclosure 7000 N,
 for the central enclosure 14000 N,
 for the right-hand enclosure 7000 N.

The cable pull angle between the roof plate and the cable has a significant influence on the total permissible load. The cable pull angle must not be less than 45°, and ideally not less than 60°.

Combination angle

for VX

For optimum distribution of tensile forces during transportation of bayed enclosures by crane.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Packs of	Model No.
4 pc(s).	4540.000

Accessories:

- Baying cover, top, see page 915

Baying cover, top

for VX, VX IT

A cover with two end caps may additionally be clipped over the seal between the two enclosures. This prevents dirt and liquid from accumulating on the baying seal.

Supply includes:

- Assembly parts

Note:

- May also be fitted in the width with enclosure suites bayed back-to-back
- May be cut to required length, if necessary.
- May also be used in conjunction with dust guard trim, see page 959

For enclosure depth mm	Packs of	Plastic RAL 7035	Stainless steel 1.4301 (AISI 304)	Model No.

Baying system

Baying

Baying cover, vertical for VX

To balance out the gap between the side panels when baying back-to-back. For enclosure height 2200 mm, or may be cut to length individually for lower heights.

Material:

- Cover section: Plastic

Colour:

- RAL 7035

Supply includes:

- Assembly parts

Packs of	Model No.
2 pc(s).	8800.875

Also required:

- Baying connector, external, 8617.502, see page 912

Baying kit, VX25 to TS 8

For extending existing TS 8 bayed enclosure suites with VX25 enclosures.

Material:

- Baying connector: Sheet steel

Supply includes:

- 8 baying connectors
- 1 seal
- Assembly parts

Packs of	Model No.
1 pc(s).	8617.505

Baying kit

for TE/TE

For connecting individual enclosures into bayed suites at the sides. The enclosures are connected between the base and roof frame.

Benefits:

- Baying of TE 8000 to TE 7000 enclosures is supported

Width mm	Packs of	Model No.
55	4 pc(s).	7888.640

Material:

- Sheet steel, spray-finished

Colour:

- RAL 7035

Supply includes:

- Assembly parts

Baying kit

for AX, KX

For baying AX/KX enclosures.

The additional cut-outs are to be provided by the customer.

Special screws and nuts

- For fast, simple assembly without thread-tapping
- Compression of the seal is limited to a pre-defined level, to ensure a long-lasting, permanent seal between enclosures

Seal, self-adhesive

- Comprised of bayable sealing elements and corner pieces, for individual adaptation to various enclosure sizes

One pack is sufficient for a baying joint up to H x D = 800 x 350 mm.

Packs of	Model No.
1 pc(s).	1199.100

Supply includes:

- Special screws and nuts
- Sealing elements, self-adhesive

Door variants

Glazed door

for VX

Instead of a sheet steel door or rear panel.

Material:

- Frame: Extruded aluminium section
- Viewing window: Single-pane safety glass, 3 mm

Surface finish:

- Powder-coated

Colour:

- Frame and corner pieces: RAL 7035
- Viewing window (printed mask on the inside): RAL 9005

Protection category IP to IEC 60 529:

- IP 55

Supply includes:

- Glazed door
- Locking rod with double-bit lock insert and lock plate
- 180° hinges, 4 pc(s).

For enclosures		Model No.
Width mm	Height mm	
600	1800	8618.000
800	1800	8618.010

800	2000	8618.030
600	2200	8618.040
800	2200	8618.050

Also required:

- When mounting instead of the rear panel or double door: Lock components for frame 8618.110, see page 917

Accessories:

- Comfort handle VX, see page 937
- Lock inserts, type G, see page 941

Lock components

For retrofitting a glazed door or sheet steel door in place of a rear panel.

Material:

- Die-cast zinc

Supply includes:

- Assembly parts

Packs of	Model No.
4 pc(s).	8618.110

Lockable and adjacent door

for VX

For example, if two 400 mm doors are used instead of one 800 mm wide door in order to comply with escape routes. May also be fitted instead of an 800 mm wide rear panel.

Material:

- Sheet steel

Surface finish:

- Dipcoat-primed, powder-coated on the outside

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- IP 55

Supply includes:

- 2 doors, including tubular door frame, hinges and lock components

For enclosures		Model No.
Width mm	Height mm	
800	2000	8618.120

Accessories:

- Comfort handle VX, see page 937
- Lock inserts, type G, see page 941

Doors/locks

Door variants

Glazed door

for VX SE

Instead of a sheet steel door.

Material:

- Frame: Extruded aluminium section
- Corner pieces: Die-cast zinc
- Viewing window: Single-pane safety glass, 3 mm

Surface finish:

- Powder-coated

Colour:

- Frame and corner pieces: RAL 7035
- Viewing window (printed mask on the inside): RAL 9005

Protection category IP to IEC 60 529:

- IP 55

Supply includes:

- Glazed door
- Locking rod with double-bit lock insert and lock plate
- 180° hinges, 4 pc(s).

For enclosures		Model No.
Width mm	Height mm	
600	1800	8610.685
800	1800	8610.885

RAL 7035	8611.080

For designer door IW and PC, bottom door

Colour	Model No.
RAL 7035	8611.300

Glazed door VX IT

for Automatic Door Opening (ADO)

With integral vent valves for automated opening function in the event of an alarm or power failure. The glazed door for the Automatic Door Opening System replaces the standard VX IT door.

Benefits:

- Supports remote control via the CMC III system
- Tinted single-pane safety glass ensures a high standard of safety
- Combining the vent flaps with a tubular door frame creates exceptional stability
- The vent flaps only protrude into the escape route by 200 mm
- No adjustment to the lock systems system required
- Manual opening of the door without any effect on the vent flaps
- Automatic opening of the vent valves in the event of a power failure

Functional principle:

- Activation via CMC III door control module (DCM)
- Automatic, mechanical opening of the integral vertical ventilation flaps in an emergency if the cooling system fails or an extinguishing system is activated
- Depending on the room volume and temperature, the air inside the room is used for emergency cooling, or the extinguisher gas may flow directly into the IT enclosures

Technical specifications:

- Rated voltage: 24 V DC
- Rated current: 780 mA
- External projection of the vent flap: 200 mm (when opened)
- Internal projection of the mechanism: 52.5 mm
- Connection cable from door catch: 2.5 m
- Door hinged on the right, may be swapped to the left
- Spring damper for flap opening
- Magnets for fixing the flaps
- Valves are open at zero current

Protection category IP to IEC 60 529:

- IP 20 for solid vent flaps

Supply includes:

- Glazed door with comfort handle VX for profile half-cylinders
- Connection cable

Note:

- Other colours (RAL 9005) and sizes (H = 2200 mm) available on request

Also required:

- Door control module, see page 817
- CMC III power pack, see page 818

Accessories:

- CMC III Processing Unit/Compact with connection, power supply and mounting accessories, from page 804
- Lock inserts, see page 942

Doors/locks

Door variants

Glazed aluminium door, one-piece

for VX IT

To replace existing doors.

Material/surface finish:

- Frame: Extruded aluminium section
- Vertical extrusion: Aluminium, anodised
- Horizontal extrusion: Aluminium, spray finished
- Viewing window: Single-pane safety glass, 3 mm

Colour:

- Comfort handle VX, hinges, horizontal extrusion: RAL 9005
- Vertical profile: silver coloured

Protection category IP to IEC 60 529:

- IP 55

Supply includes:

- Door with comfort handle VX for profile half-cylinders with security lock 3524 E
- 3 x 180° hinges, fitted
- Assembly parts

Note:

- Door opening angle for stand-alone siting: max. 240°
- Door opening angle when baying: max. 105°

For enclosures		Packs of	Model No.
Width mm	Height mm		
800	2000	1 pc(s).	5301.423

Assembly instruction:

- For a door opening angle of 180° when baying, a 180° baying hinge is required, see page 951

Glazed sheet steel door, vertically divided

for VX IT

To replace existing doors. With underlaid viewing panel and 4-point locking rod. The divided design allows room-optimised siting of the enclosures coupled with the best possible access, thanks to a reduced distance between the individual bayed enclosure suites.

Material:

- Frame: Sheet steel
- Viewing window: Single-pane safety glass, 3 mm

Surface finish:

- Powder-coated

Colour:

- Frame: RAL 7035
- Comfort handle VX, hinges: RAL 9005

Protection category IP to IEC 60 529:

- IP 55

Supply includes:

- Door, vertically divided, with comfort handle VX for profile half-cylinders with security lock 3524 E, right
- 4 x 180° hinges, fitted on each half of the door
- Assembly parts

Note:

- Door opening angle for stand-alone siting: max. 240°
- Door opening angle when baying: max. 160°

For enclosures		Packs of	Model No.
Width mm	Height mm		
800	2000	1 pc(s).	5301.437
800	2200	1 pc(s).	5301.438

Assembly instruction:

- For a door opening angle of 180° when baying, a 180° baying hinge is required, see page 951

Door variants

Sheet steel door, one-piece, solid

for VX IT

To replace existing doors.

Material:

- Sheet steel

Surface finish:

- Spray-finished

Colour:

- Door: RAL 7035
- Comfort handle VX: RAL 9005

Protection category IP to IEC 60 529:

- IP 55

Supply includes:

- Door with comfort handle VX for profile half-cylinders with security lock 3524 E
- 4 x 130° hinges, inside
- Assembly parts

Note:

- Door opening angle for stand-alone siting: max. 165°
- Door opening angle when baying: max. 110°

For enclosures		Packs of	Model No.
Width mm	Height mm		
800	2000	1 pc(s).	5301.540
800	2200	1 pc(s).	5301.542

Assembly instruction:

- For a door opening angle of 180° when baying, a 180° baying hinge is required, see page 951

Sheet steel door, vertically divided, solid

for VX IT

To replace existing doors. Thanks to the minimal rotation radius of the individual doors, the distance between individual bayed enclosure suites may be reduced.

Material:

- Sheet steel

Surface finish:

- Spray-finished

Colour:

- Door: RAL 7035
- Comfort handle VX, hinges: RAL 9005

Protection category IP to IEC 60 529:

- IP 20

Supply includes:

- Door, vertically divided, with comfort handle VX for profile half-cylinders with security lock 3524 E, right
- 3 x 180° hinges, fitted on each half of the door
- Assembly parts

Note:

- Door opening angle for stand-alone siting: max. 240°
- Door opening angle when baying: max. 160°

For enclosures		Packs of	Model No.
Width mm	Height mm		
600	2000	1 pc(s).	5301.602
800	2000	1 pc(s).	5301.612

Assembly instruction:

- For a door opening angle of 180° when baying, a 180° baying hinge is required, see page 951

Doors/locks

Door variants

Aluminium/sheet steel door, vented

for VX IT

To replace existing doors. The vented surface area is approx. 85% perforated.

Material/surface finish:

- Frame: Extruded aluminium section
- Vent grille: Sheet steel
- Vertical extrusion: Aluminium, anodised
- Horizontal extrusion: Aluminium, spray finished

Colour:

- Comfort handle VX, hinges, horizontal extrusion, vent grille: RAL 9005
- Vertical profile: silver coloured

Supply includes:

- Door with comfort handle VX for profile half-cylinders with security lock 3524 E
- 3 x 180° hinges, fitted
- Assembly parts

Note:

- Door opening angle for stand-alone siting: max. 240°
- Door opening angle when baying: max. 105°

For enclosures		Packs of	Model No.

Assembly instruction:

- For a door opening angle of 180° when baying, a 180° baying hinge is required, see page 951

Sheet steel door, one-piece, vented

for VX IT

To replace existing doors. The vented surface area is approx. 85% perforated.

Material:

- Sheet steel

Surface finish:

- Spray-finished

Colour:

- Door: RAL 7035
- Comfort handle VX: RAL 9005

Protection category IP to IEC 60 529:

- IP 20

Supply includes:

- Door with comfort handle VX for profile half-cylinders with security lock 3524 E
- 3 x 130° hinges, fitted on the inside
- Assembly parts

Note:

- Door opening angle for stand-alone siting: max. 165°
- Door opening angle when baying: max. 110°

For enclosures		Packs of	Model No.
Width mm	Height mm		
600	2000	1 pc(s).	5301.561
800	2000	1 pc(s).	5301.571

Assembly instruction:

- For a door opening angle of 180° when baying, a 180° baying hinge is required, see page 951

Door variants

Sheet steel door, vertically divided, vented

for VX IT

To replace existing doors. The vented surface area is approx. 85% perforated.

Material:

- Sheet steel

Surface finish:

- Spray-finished

Colour:

- Door: RAL 7035
- Comfort handle VX, hinges: RAL 9005

Protection category IP to IEC 60 529:

- IP 20

Supply includes:

- Door, vertically divided, with comfort handle VX for profile half-cylinders with security lock 3524 E, right
- 3 x 180° hinges, fitted on each half of the door
- Assembly parts

Note:

- Door opening angle for stand-alone siting: max. 240°
- Door opening angle when baying: max. 160°

For enclosures		Packs of	Model No.
Width mm	Height mm		
800	2000	1 pc(s).	5301.652

Assembly instruction:

- For a door opening angle of 180° when baying, a 180° baying hinge is required, see page 951

Doors/locks

Door variants

Protective bar

As an alternative to a door, e.g. in sealed switch rooms. Prevents people from falling into the open enclosure frame. Easily removable for maintenance purposes. For 1200 mm enclosure width; may be shortened or divided for other sizes.

Material:

- Wood, spray-finished, RAL 3000

For enclosure width mm	Length mm	Packs of	Model No.
1200	1090	1 pc(s).	8801.010

Enclosure width mm	Clearance between the enclosure frame (B3) mm	Length of protective bar (L) mm

600	511	490 ¹⁾
800	711	690 ¹⁾
1000	911	890 ¹⁾
1200	1111	1090

¹⁾ The protective bar 8801.010 (1090 mm) will need to be shortened

Also required:

- Holder 8801.000, see page 924

Holder

for protective bar

For mounting on the vertical section. The protective bar is simply inserted.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly screws

Packs of	Model No.
2 pc(s).	8801.000

Variable modular climate control concept

Instead of an enclosure door in a 600 mm/800 mm/1200 mm wide and 1800 mm/2000 mm high VX enclosure, section doors with integral cooling module may be retrofitted without major assembly work.

Possible alternative:

- Modular climate control concept, see page 506/507

Installation accessories for modular front design

Modular front design

Suitable for 400 to 1200 mm wide enclosures instead of a door or rear panel.

The partial doors with and without viewing panels for the baying enclosure system VX25, see page 132/133, may be combined with one another as required. A trim panel is required at the top and bottom in each case.

The requirements for your individual front design and the considerations which must be taken into account are illustrated on the sample configuration opposite.

- 1 Front trim panel, top
- 2 Front trim panel, bottom
- 3 Partial door with viewing window
- 4 Partial door

Note:

Installation accessories for modular front design, see page 926 – 927

Doors/locks

Installation accessories for modular front design

Partial door

for VX

The door may be optionally hinged on the right or left. The partial door is attached to the enclosure with no drilling required. Standard double-bit lock insert may be exchanged for lock inserts, type A.

Material:

- Partial door: Sheet steel, 2 mm
- Viewing window: 3 mm single-pane safety glass

Surface finish:

- Textured paint

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- IP 54

Supply includes:

- Cross member, hinges and lock components
- Assembly parts

Note:

- Opening angle of partial doors max. 130°

Also required:

- Front trim panel, top, see page 927 or top-hinged trim panel, see page 928
- Front trim panel, bottom, see page 927

Accessories:

- Mini-comfort handle AX for partial door from a height of 200 mm, see page 940
- Lock inserts, type A, see page 941
- Perforated mounting strip, see page 927

Installation accessories for modular front design

Perforated mounting strip

for partial door

For retrospective external mounting. The perforated mounting strips have a 25 mm pitch pattern of holes and may be used for mounting individual accessories such as cable ducts, conduit holders etc. on the rear of the door.

Hole diameter of perforated mounting strip: 4.5 mm

Material:

- Sheet steel, 1 mm

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

For enclosure width mm	Length mm	For partial door height mm	Packs of	Model No.

Note:

- For enclosure width 1000 mm you will need: 1 x 9681.204 and 1 x 9681.206
- For enclosure width 1200 mm you will need: 2 x 9681.206

Front trim panel, top

for VX

To finish off the modular front design at the top when using partial doors. The front trim panels may be removed from the outside by unscrewing. The cross member required for mounting is included with the supply of the mounted partial door.

Material:

- Sheet steel, 1.5 mm

Surface finish:

- Textured paint

Colour:

- RAL 7035

Supply includes:

- Front trim panel
- Assembly parts

Support stay

for trim panel, hinged at the top

5 pitch pattern positions up to a maximum opening angle of approx. 85°.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Packs of	Model No.
2 pc(s).	8801.260

Viewing window/operating panel

System window

To cover display and operating elements or cut-outs, and to protect against dirt and liquids as well as unauthorised access.

Consisting of the following 2 components:

1. Base frame:

- Easily screw-fastened to the door thanks to modified dimensions (tubular door frame may be used as a drilling template)
- Readily height-adjustable
- Stabilises the door cut-out
- Conceals the cut edge
- The rain canopy
 - prevents dirt from landing on the seal
 - protects the glass from being lifted out
 - prevents the ingress of dirt, and prevents moisture from running behind the window when opened
- Frame section height 30 mm or 60 mm

2. Viewing window:

- Made from single-pane safety glass:
 - High level of resistance to solvents and scratches
 - Anti-static
 - Reduced risk of injury if broken
- Cam lock with double-bit insert, may be exchanged for lock inserts, type A, see page 941
- Hinge with 180° opening angle, easily inserted

Material:

- Extruded aluminium sections with die-cast zinc corner pieces and single-pane safety glass

Surface finish:

- Base frame: Powder-coated in RAL 7035
- Hinge and lock section: Natural-anodised

Protection category IP to IEC 60 529:

- IP 54

Comfort handle

for VX SE, PC, IW, EL

As the handle does not take up any swing space, due to its folding action, the door surface area available for installed equipment is maximised.

Prepared for the installation of lock inserts, lock and push-button inserts or for the installation of standard commercially available 40 or 45 mm profile half-cylinders.

Also required:

- Handle adaptor, see page 918, for mounting on glazed door for VX SE, PC bottom door, IW designer door

Note:

- When replacing the comfort handle in the wall-mounted enclosure EL, 3-part with 21 U, please note that the handle can only be replaced as a complete system (handle including lock insert)
- The comfort handle 8611.020 is included with the supply of the enclosure

Safety lock

Fitted to doors, to protect against contact with live electrical equipment whilst the master switch is ON.

Function:

- Locks the door when the master switch is ON.
- Mains power (voltage) is only enabled whilst the door is closed.
- Monitoring of the lock magnet via an additional closing contact.

Supply includes:

- Lock
- Actuator
- Angle bracket
- Assembly parts

Connection voltage for lock magnet	Model No.
230 V AC 11 VA	2416.000
24 V DC 8 W	2418.000

Doors/locks

Lock systems

Comfort handle VX

with numerical code, for VX, VX IT

Flexible access opportunities with individual 4-digit code.

Benefits:

- Enhanced security by automatically wiping the code after use
- Emergency opening and overwriting of the code is possible with a 40 mm profile half-cylinder to DIN 18 252

Functional principle:

- The 4-digit code may be set individually by the user
- Programming mode can only be accessed via the set code
- Once the code has been entered or used, it is automatically reset to the digits "0000" and thus cannot be read by a third person once the handle has been opened
- May be opened in an emergency situation or if the code is forgotten using the master key function with key

Dimensions:

- W x H x D: 41 x 386 x 46 mm, door-mounted

Material:

- Die-cast zinc
- Plastic

Colour:

- RAL 9005

Protection category IP to IEC 60 529:

- IP 30

Packs of	Model No.
1 pc(s).	7030.601

Supply includes:

- Comfort handle for profile half-cylinders
- Handle adaptor for VX IT aluminium glazed door and VX IT aluminium sheet steel door, vented (door hinge on right/left)
- Assembly parts

Also required:

- Profile half-cylinders, see page 942

Accessories:

- Mounting adaptor for TS 8 doors, see page 948

CMC III online comfort handle VX

with master key function for VX, VX IT

For door locking, handle lever monitoring and status display. It can be opened directly via a 24 V DC supply voltage or connected to the CMC III via the CMC III Access Control.

Benefits:

- Remote control and an extensive range of functions for automated access control by linking to the CMC III, e.g. activation via an optional coded lock or transponder reader
- Optical LED status display of the handle or superordinate CMC III system in the rack
- Individual activation and colour selection configurable via the CMC III
- Prepared for use of a 40 mm profile half-cylinder to DIN 18 252

Technical specifications:

- Rated voltage: 24 V DC
- Rated current: 100 mA

Dimensions:

- W x H x D: 41 x 386 x 42 mm, door-mounted

Material:

- Die-cast zinc
- Plastic

Colour:

- RAL 9005

Protection category IP to IEC 60 529:

- IP 30

Packs of	Model No.
1 pc(s).	7030.611

Supply includes:

- Comfort handle for profile half-cylinders
- Connection cable RJ12, 2.9 m
- Handle adaptor for VX IT aluminium glazed door and VX IT aluminium sheet steel door, vented (door hinge on right/left)
- Assembly parts

Also required:

- Profile half-cylinders, see page 942

Accessories:

- CMC III access control, see page 812
- CMC III Processing Unit/Compact, from page 804
- CMC III coded lock VX, see page 813
- CMC III transponder reader VX, see page 813

Radio comfort handle VX

with card reader for VX, VX IT

Battery operated radio handle for door locking, handle lever/rack door monitoring and status display.

Benefits:

- Supports remote control via radio by linking to CMC III
- Stand-alone operation supported
- Easily retrofitted without any machining thanks to radio technology
- Optical LED status display of the handle or superordinate CMC III system in the rack
- Individual activation and colour selection configurable via CMC III
- Service life of the integral batteries is up to 2 years.
- Supports use of the handle without radio technology, connection to CMC III via optional online adaptor
- High standard of security thanks to encrypted radio transmission of security-relevant signals using Advanced Encryption Standard 128 Bit (AES 128)

Functional principle:

- Battery operation: EnOcean 868 MHz radio technology with encryption
- Operation with CMC III: Up to 128 radio handles on one CMC III system
- Stand-alone operation: Handle settings via master card or Android app "Access Control VX" with NFC-enabled smartphone
- Supports emergency opening via an integral USB-C-slot, transponder handle and external power supply
- Integral transponder card reader for Legic Advant, HID, FeliCa and NFC via Android app (Legic Prime available on request)
- Integral monitoring of lever handle
- Integral rack door monitoring of the handle position with a compass signal or infrared sensor

Dimensions:

- W x H x D: 41 x 377 x 27 mm, door-mounted

Material:

- Die-cast zinc
- Plastic

Colour:

- RAL 9005

Protection category IP to IEC 60 529:

- IP 30

Supply includes:

- Handle
- 2 batteries, type CR123A
- Handle adaptor for VX IT aluminium glazed door and VX IT aluminium sheet steel door, vented (door hinge on right/left)
- 1 Mifare classic transponder card
- Assembly parts

To fit enclosure type	Packs of	Model No.
TS 8	1 pc(s).	7030.692

Online adaptor

for radio comfort handle VX

For converting the VX radio comfort handle to a wired solution. The adaptor is inserted into the VX radio comfort handle instead of the batteries.

Application:

- Deactivation of radio technology

Functional principle:

- Control via connection cable and 24 V DC power supply instead of batteries
- Connection to CMC III access control system is also optionally supported

Technical specifications:

- Rated voltage: 24 V DC
- Rated current: 100 mA

Dimensions:

- W x H x D: 34 x 33 x 21 mm

Material:

- Plastic

Supply includes:

- Connection cable RJ12, 2.9 m

Packs of	Model No.

Also required:

- Radio comfort handle VX, see page 947

Accessories:

- CMC III access control, see page 812
- CMC III Processing Unit/Compact, from page 804

Cable routing kit for doors

VX, VX IT

For optimised cable routing on the inside of the VX enclosure system doors when using a CMC III handle.

Benefits:

- The duct cover and the ring cable holder may be shortened to any desired length

Functional principle:

- When installing handles or reader units with cables, these will need to be laid close to the inside of the door. The cables are routed in the aluminium extrusion of the doors.
- To close the duct, the duct cover simply snaps onto the profile.
- For cable routing with ventilated or sheet steel doors, the ring cable holder is glued to the inside of the door.

Material:

- Plastic

Colour:

- Pale grey

Packs of	Model No.
1 pc(s).	7030.695

Supply includes:

- Duct cover, 2 m
- 4 ring cable holders, 0.5 m
- Assembly parts

Doors/locks

Door, internal

Support strip

For attachment of

- Cable ducts
- Cable conduit holders
- Contact hazard protection covers
- Equipment installed on the door
- Cable clamping and attachment

4.5 mm diameter hole on a 25 mm DIN pitch pattern

For VX, VX SE, AX plastic, TP, PC, IW

Installation options:

- In VX, VX SE, PC, IW on tubular door frame
- TP on perforated door strip
- In AX plastic on mounting boss in the door

For AX

Installation options:

- In AX sheet steel in the enclosure door with cam lock
- In AX stainless steel in enclosure door with cam lock in conjunction with perforated door strip

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Accessories:

- Screws and self-tapping screws M5, see page 1004

- For installation in AX stainless steel: AX perforated door strip, stainless steel, see page 953

Punched section with mounting flange, 14 x 39 mm

for door installation, for VX, VX SE, AX, AX plastic, PC, IW

Secure location and fast mounting on the tubular door frame.

For attaching

- Cable ducts
- Cable conduit holders
- Equipment installed on the door, etc.

Installation options:

- In VX, VX SE, PC, IW on tubular door frame
- In AX sheet steel in the enclosure door with 3-point lock system in the lockable door
- In AX stainless steel in enclosure door with 3-point lock system in the lockable door in conjunction with perforated door strip
- In AX plastic on mounting boss in the door

AX perforated door strip, stainless steel, see page 953

Door stay for escape routes

In an emergency situation, conventional door stays could block the escape route. The stay is activated automatically by pressure, releasing the door in both directions. In conjunction with 180° hinges, this ensures that no escape routes are blocked by open doors in the event of an emergency.

Supply includes:

- Assembly parts

For	Packs of	Model No.
1 VX	1 pc(s).	8618.425
2 VX SE, PC	1 pc(s).	4583.500

Accessories:

- 180° hinge, see page 951

Ride-up roller

for door VX, VX SE, PC

Lifts up the door when there is heavy installed equipment (e.g. cooling unit) as a closing aid. For attaching to the tubular door frame.

For	Packs of	Model No.
1 VX	10 pc(s).	8618.420
2 VX SE, PC	10 pc(s).	4538.000

Shipping brace

for door VX

To stabilise the door when transporting from an additional weight load of 15 kg.

Material:

- Plastic

Colour:

- RAL 7035

Supply includes:

- Assembly parts

Packs of	Model No.
10 pc(s).	8618.410

Transport and mounting handle

for doors VX, VX SE

For safe installation and removal of the door and during relocation in the workshop.

Packs of	Model No.
1 pc(s).	2415.100

Document clip, magnetic

For simple attachment of installation documentation as a reminder or for flexible accommodation of a wide range of documents, measurement records, test reports etc. May be attached to any magnet-compatible surface via a permanent magnet.

Material:

- Plastic

Colour:

- Clip: Transparent
- Handle pieces: Black

Packs of	Model No.
2 pc(s).	7950.200

Alternate frame, magnetic

For individual marking or labelling of the existing network infrastructure. The magnetic surface facilitates flexible mounting on all magnet compatible surfaces. Adhesive strips are supplied for non-magnetic surfaces. The maximum size of the labels is 130 x 50 mm.

Packs of	Model No.
10 pc(s).	7950.150

Roof/wall mounting

Roof

Outdoor housing

for compact enclosures AX

- For use outdoors
- For creating an enclosure-within-an-enclosure concept
- Cut-out at the bottom and integrated louvres in the side and base for optimum enclosure ventilation

Material:

- Aluminium AlMg3

Surface finish:

- Powder-coated

Note:

- Depending on the application/environment, a sheet steel or stainless steel enclosure may be built into the housing

Roof

Pressure stoppers

for roof plate

For converting the IP 55 roof plate into a roof plate with pressure relief function. The pressure relief function is essential for compliance with health and safety regulations for arc-proofing to IEC/TR 61 641. After fitting the pressure stopper, a protection category of IP 54 is achieved.

Material:

- Polyamide

Supply includes:

- 2 warning stickers

Note:

- 2 pressure stoppers and 1 warning sticker are required for one roof plate
- The arc-proofing compliance limits are dependent on the busbar system used

for AX sheet steel, KX sheet steel, AX IT, EL
Ideal for convenient one-person assembly of wall-mounted enclosures, even in confined spaces.

Benefits:

- Screw-fastened directly from the rear with a self-tapping screw in the enclosure eyelet
- Simply suspend the wall mounting bracket 2508.020, which is equipped with an additional suspension contour, from a screw in the wall
- Different mounting positions allow the wall mounting bracket to be tailored to local conditions on site
- If necessary, the support may be finished with a stylish cover cap
- Additional option of attaching with a nut for dynamic applications

Supply includes:

- Wall mounting bracket
- Cover cap
- Assembly parts

Material	Wall distance mm	Packs of	Model No.
Sheet steel, zinc-plated	20	4 pc(s).	2508.020
	40	4 pc(s).	2503.020

Sample applications

Attachment with self-tapping screw

Roof/wall mounting

Wall mounting

Wall mounting bracket

for AX stainless steel, KX stainless steel

For the attachment of AX and KX stainless steel enclosures.

Benefits:

- Simply suspend the wall-mounted bracket from a screw in the wall
- Different mounting positions allow the wall mounting bracket to be tailored to local conditions on site
- If necessary, the support may be finished with a stylish cover cap

Supply includes:

- Wall mounting bracket
- Cover cap
- Assembly parts

Note:

- For hygiene reasons, and in view of the protection category, the stainless steel enclosures do not have any drilled holes for the wall mounting brackets

Material	Wall distance mm	Packs of	Model No.
Stainless steel 1.4301 (AISI 304)	20	4 pc(s).	2433.010
Stainless steel 1.4404 (AISI 316L)	20	4 pc(s).	2433.510

Wall angle

for AX, KX, AX IT

For the attachment of sheet steel and stainless steel enclosures.

Supply includes:

- Assembly parts for mounting on the enclosure

Note:

- Additional holes required in the enclosure

Material	Colour	Packs of	Model No.
Sheet steel	RAL 7035	4 pc(s).	2505.510
Stainless steel 1.4301 (AISI 304)	-	4 pc(s).	2583.010

Wall bracket

for VX, VX SE, VX IT

For attaching enclosures with a shallow depth and e.g. heavy components on the door or a built-in swing frame, to a wall at the top.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Packs of	Model No.
4 pc(s).	4595.000

Roof/wall mounting

Wall mounting

Pole clamp

for AX, KX, AX plastic, AX IT

For reliable, convenient fastening to round or square poles.

- For pole diameter / size:
- Ø from 40 to 170 mm
 - □ from 50 to 150 mm

Material:

- Mounting angles, clamping section: Sheet steel
- Clamping strap: Stainless steel 1.4301 (AISI 304)

Surface finish:

- Mounting angle, clamping section: Zinc-plated

Supply includes:

- 2 mounting angles, 600 mm long
- 4 clamping sections
- 2 clamping straps
- 4 clamping brackets
- Assembly parts

Packs of	Model No.
2 pc(s).	2584.100

Note:

- The pole clamp cannot be used in conjunction with a protective roof for AX

Enclosure connectors

Adjustable

Between command panels, terminal boxes, compact enclosures and horizontal or vertical surfaces. Pre-mount the connector halves on both sides, screw together and secure with a locking screw, and/or adjust the angle of rotation.

Rotation range:

- ±105° adjustable in 7.5° stepped increments

Material:

- Die-cast zinc

Surface finish:

- Powder-coated

Colour:

- RAL 7035

Supply includes:

- Assembly parts for both sides

Packs of	Model No.
2 pc(s).	6016.200

Note:

- The locking screws may be exchanged for standard, commercially available clamping levers (M10 x 50 mm)

Roof/wall mounting

Wall mounting

Frame connector, adjustable

for Comfort Panel

Between the command panel and keyboard housing and horizontal or vertical surfaces.

Rotation range:

– Adjustable in 8° stepped increments, see drawing

Material:

– Die-cast zinc

Surface finish:

– Powder-coated

Colour:

– RAL 7024

Supply includes:

– Assembly parts and clamping levers for both sides

Packs of	Model No.
2 pc(s).	6005.500

Wall mounting

Vertically hinged

Between the Compact Panel and horizontal or vertical surfaces.

Rotation range:

– 180° adjustable on a 7.2° pitch pattern

Material:

– Wall mounting: Sheet steel

– Knurled screw: Steel with plastic knurled handle

Supply includes:

– Knurled screw and assembly parts for mounting on the Compact Panel

Packs of	Model No.
2 pc(s).	6341.000

Interior installation

Mounting plates

Mounting plate

for terminal boxes KX, bus enclosures KX,
terminal boxes HD, Ex enclosures

For component installation outside of the enclosure.
Assembly screws included as accessories with the enclosure.

Material:

– Sheet steel, 2 mm

Surface finish:

– Zinc-plated

Accessories:

– Self-tapping screws 2487.000, see page 1004

Possible alternative:

– Support rail, see page 997

Interior installation

Mounting plates

Mounting plate infill

for VX

For a continuous mounting surface in bayed suites where the mounting plate is set forward.

Material:

- Sheet steel, 2 mm

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

For enclosure height mm	Packs of	Model No.
1800	1 pc(s).	4590.700
2000	1 pc(s).	4591.700
2200	1 pc(s).	4592.700

Detail	Mounting position of mounting plate	Benefits
	<p>Set forward from the enclosure frame on a 25 mm pitch pattern</p> <p>Position: -25 mm -50 mm -75 mm etc.</p>	<p>The usable mounting width is enlarged by up to 25%, depending on the enclosure selection.</p>

Mounting plate attachment

Type A, for VX

To reduce vibrations in the mounting plate, e.g. in dynamic applications and when transporting with heavy assemblies. Simple mounting directly on the enclosure frame. During installation, the mounting plate latches automatically into the mounting plate attachment. The mounting plate attachment type A keeps the front of the mounting plate completely free for unrestricted use. Populated mounting plates may be mounted from the front without dismantling the rear panel.

Packs of	Model No.
5 pc(s).	8617.353

Material:

- Spring steel

Supply includes:

- Safety clip
- Assembly parts

Detail	Mounting position of mounting plate	Installation option	Attachment to the mounting plate
	<p>Flush with the enclosure frame</p> <p>Position: ± 0 mm, fitted at the rear</p>	<p>Fitted on the left and right of the mounting plate</p>	<p>Latched home</p>
	<p>Flush with the enclosure frame</p> <p>Position: ± 0 mm, fitted at the front</p>	<p>Fitted on the left and right of the mounting plate at half height</p>	<p>Latched home</p>

Interior installation

Mounting plates

Mounting plate attachment

Type B, for VX

To reduce vibrations in the mounting plate, e.g. in dynamic applications and when transporting with heavy assemblies. Simple mounting directly on the enclosure frame or on the punched section with mounting flange 23 x 64 mm. The mounting plate may optionally be screw-fastened with the mounting plate attachment, or form-fit connected.

Depending on the installation situation, the mounting plate attachment type B either minimally surrounds the mounting plate, or keeps the front of the mounting plate completely free for unrestricted use. May be mounted from the front or the rear, depending on the situation.

Packs of	Model No.
10 pc(s).	8617.351

Material:

- Sheet steel

Surface finish:

- Zinc-plated, passivated

Supply includes:

- Assembly parts

Accessories:

- Punched section with mounting flange 23 x 64 mm for the inner level, see page 991

Detail	Mounting position of mounting plate	Installation option	Attachment to the mounting plate
	Set forward from the enclosure frame Position: -50 mm	1 2 pc(s), per enclosure/mounting plate, at the side, half-way up the mounting plate	Screw-fastened
	Set forward from the enclosure frame Position: -50 mm	2 All-round between the enclosure and mounting plate in any quantity	Connected
	Set forward from the enclosure frame Position: -75 mm	1 2 pc(s), per enclosure/mounting plate, at the side, half-way up the mounting plate	Screw-fastened
	Set forward from the enclosure frame Position: -75 mm	2 All-round between the enclosure and mounting plate in any quantity	Connected
	Set forward from the enclosure frame 1 Position: -100 mm or larger	All-round between the enclosure and mounting plate in any quantity. One punched section with mounting flange 23 x 64 mm to match the enclosure depth is required for each mounting plate attachment.	Connected
	2 Position: -25 mm or larger		

Interior installation

Mounting plates

Mounting plate attachment

Type C, for VX

To reduce vibrations in the mounting plate, e.g. in dynamic applications and when transporting with heavy assemblies. Simple mounting directly on the enclosure frame. The mounting plate may be form-fit connected and clamped with the mounting plate attachment. The mounting plate attachment type C keeps the front of the mounting plate completely free for unrestricted use. With the mounting plate installed and the rear panel dismantled, it can be fitted from the rear.

Packs of	Model No.
10 pc(s).	8617.352

Material:

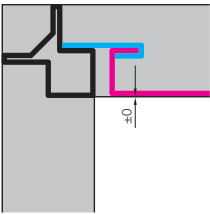

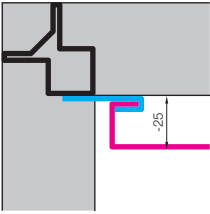

- Sheet steel

Surface finish:

- Zinc-plated, passivated

Supply includes:

- Assembly parts

Detail	Mounting position of mounting plate	Installation option	Attachment to the mounting plate
	Flush with the enclosure frame Position: ± 0 mm	All-round between the enclosure and mounting plate in any quantity	Connected, clamped
	Set forward from the enclosure frame Position: -25 mm	All-round between the enclosure and mounting plate in any quantity	Connected, clamped

VX installation kit

for back-to-back mounting plates

The minimum spacing between the mounting plates facilitates maximum assemblies on both mounting plates.

Material:

- Sheet steel

Surface finish:

- Zinc-plated, passivated

Packs of	Model No.
1 pc(s).	8617.360

Also required:

- Second mounting plate, to fit the enclosure dimensions, refer to Rittal list of spares at www.rittal.com

Accessories:

- For enclosures with a rear panel, following may be used for optimum access to the rear mounting plate:
Glazed door instead of rear panel, see page 917
Lockable and adjacent door 8618.120, for enclosure dimensions W x H = 800 x 2000 mm, see page 917

Interior installation

Mounting plates

Multi-function mounting kit VX for mounting plate

For installing the mounting plate from the rear of the enclosure

- Mounting position flush with the enclosure frame, position ± 0 mm
- The mounting plate is removable from the front and rear for servicing
- For 20 mm more installation depth in the enclosure
- Mounting position set back behind the enclosure frame, position ± 20 mm

For additional screw-fastening of the mounting plate

- For all mounting positions

Packs of	Model No.
1 pc(s).	8617.370

Material:

- Sheet steel

Surface finish:

- Zinc-plated, passivated

Supply includes:

- Assembly parts

Slide rail

for mounting plates, for VX, VX SE

For sliding the mounting plate in from the side. For mounting in a set-forward position.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

For enclosure width mm	Packs of	Model No.
600	2 pc(s).	8617.400
800	2 pc(s).	8617.401
1200	2 pc(s).	8617.402

Cross-brace

for mounting plates, for VX, VX SE

Additional horizontal rigidity for vibration damping and/or retrospective stabilisation of wide mounting plates. This brace may also be used as an attachment aid for heavy components.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- 2 sections
- 4 clamping sections
- 4 grub screws M10 x 16 mm

For enclosure width mm	Model No.
1200	4333.120
1600	4333.160
1800	4333.180

Interior installation

Mounting plates

Partial mounting plate VX

for VX, VX SE, PC, IW

To accommodate additional components inside the enclosure. Partial mounting plates are extremely versatile, providing a platform for a diverse range of applications.

For optional installation either upright as a vertical mounting surface, or flat as a horizontal base. For attachment either directly to the enclosure section or, with a set-forward construction, for example, to any mounting level in the enclosure using punched sections with mounting flanges. For multi-level installation one behind the other, partial mounting plates may be vertically hinged, via hinge attachment 8617.650, to allow rapid access to the levels behind.

Material:

- Sheet steel, 2.5 mm

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Note:

- Depending on the mounting situation, additional parts such as punched sections with mounting flanges may be required, see installation example on page 976

Also required:

- For the installation in VX SE, PC, IW:
Adaptor rail VX, see page 995

Accessories:

- Punched section with mounting flange
18 x 64 mm for the outer level, see page 990
- Punched section with mounting flange
23 x 64 mm for the inner level, see page 991
- Hinge attachment 8617.650, see page 977

Installation examples:

See page 976

Interior installation

Mounting plates

Partial mounting plates VX, installation examples

Full installation in the width/depth

Choose a partial mounting plate 100 mm smaller than the nominal size of the enclosure.
For example, a partial mounting plate with dimensions 500 x 700 mm can be installed in enclosures with nominal dimensions of 600 and 800 mm.

Full installation, set forward in the width/depth

For set-forward installation, punched sections with mounting flanges are required for the inner or outer mounting level, according to the enclosure depth.

Full installation in the height

The sum total of partial mounting plates 100 mm should be smaller than the nominal size of the enclosure. For example, in a 2000 mm high enclosure, the sum total of partial mounting plates should not exceed 1900 mm.

Partial installation

Also required:

- Punched section with mounting flange 23 x 64 mm **(A)** to match the enclosure width or depth, see page 991
- Punched section with mounting flange 23 x 64 mm **(B)** to match the enclosure height, see page 991

Door installation

Choose a partial mounting plate 100 mm smaller than the nominal size of the enclosure.
For example, a partial mounting plate with dimensions 500 x 700 mm can be installed on the tubular door frame of enclosures with a nominal size of 600 mm.

Interior installation

Mounting plates

Hinge attachment

for partial mounting plate VX

In conjunction with the mounting kit for swing frames, small, the partial mounting plate VX can be hinged to allow access to the components behind it for servicing.

Installation options:

- At the front, on the frame section
- Set back, in the enclosure depth
- At the side, in conjunction with the hinged side panel

Material:

- Steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Packs of	Model No.
1 pc(s).	8617.650

! Also required:

- Installation kit for swing frame, small, for enclosure width 600 mm (8619.600) or 800 mm (8619.610), see page 1076
- Punched section with mounting flange 23 x 64 mm according to the enclosure depth, see page 991

Examples

In the highest or lowest position

Front

Set back

- 1 Installation kit for swing frame, small
- 2 Punched section with mounting flange 23 x 64 mm in accordance with the enclosure depth

In a central position

Front

Set back

Interior installation

Mounting plates

Partial mounting plate holder for partial mounting plate VX

The partial mounting plate may be fitted set back by 20 mm behind the enclosure frame using the partial mounting plate holder, and also fastened directly to the frame from the outside. The partial mounting plate is also removable from the inside for servicing.

Material:

- Sheet steel

Surface finish:

- Zinc-plated, passivated

Supply includes:

- Assembly parts

Packs of	Model No.
4 pc(s).	8617.655

Partial mounting plate VX

Provides flexible and individual interior installation,
see page 980

Interior installation

Mounting plates

Partial mounting plate VX

for VX, VX SE

To accommodate additional components inside the enclosure. Partial mounting plates are extremely versatile, providing a platform for a diverse range of applications. They are attached directly to the enclosure section. For individual interior installation, system punchings are additionally provided in the edge fold.

Material:

- Sheet steel, 1.5 mm

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Dimensions mm	Packs of	Model No.
500 x 400	1 pc(s).	8617.660

Mounting plate attachment

for TP one-piece console, TP pedestal
for high dynamic loads

To reduce vibrations in the mounting plate.

Applications:

- During transportation with heavy assemblies
- For dynamic applications, if a direct connection between the mounting plate and the enclosure is required for mobile use (e.g. with accompanying enclosures in crane systems, etc.)

Tested as per DIN EN 60 721

Severity 3 M4, with a weight of 150 kg evenly distributed over the mounting plate.

Simply screw-fasten to the existing holes in the mounting plate to pre-assemble for:

1 Wall mounting from the inside

Direct using a bracket and wall / support mounted enclosure.

2 Wall mounting from the outside

Screws for wall mounting brackets can easily be screwed into the square nut from the outside

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Interior installation

Rail systems

Rail for interior installation AX

For mounting in the enclosure, no machining required. Suitable for mounting on the side, base and roof using the locators integrated into the enclosure.

Variable with 2 rows of system punchings, creates additional mounting space e.g. for:

- Punched section with mounting flange, 14 x 39 mm
- Enclosure lights
- Door-operated switch
- Door stay
- Cable conduit holder

Benefits:

- Only one screw for attaching the rail inside the enclosure
- Including adaptor for door-operated switch
- Compatibility with VX25 accessories
- Enclosure protection category is retained (no machining required)
- Automatic potential equalisation
- May be retro-fitted even with the mounting plate in situ, suitable for installation via gland plates

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Also required:

- For installing LED system light: Mounting bracket for interior installation, see page 1000

For enclosure depth mm	Packs of	Model No.
210	4 pc(s).	2393.210

Also required:

- Interior installation rail AX for configuration in the enclosure height and width, see page 989

Accessories:

- Screws and self-tapping screws M5 for configuring the customer's own components on the punched section with mounting flange, see page 1004

Punched section with mounting flange, 18 x 64 mm

for VX

For variable, individual interior installation of the enclosure frame on the outer mounting level. Simply locate into the system punchings from the outside and screw-fasten. System punchings on all four sides. With bayed enclosures, the punched sections with mounting flanges may also be fitted from the inside of the enclosure.

Installation options:

- On the outer mounting level, on the enclosure section
- On the outer mounting level, between two punched sections with mounting flanges 23 x 64 mm

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

For enclosure width/height/depth mm	Packs of	Model No.

- Screws, see page 1004
- Cable tie 2597.000, see page 1061

Punched section with mounting flange, 23 x 64 mm

for VX, VX IT, VX SE, AX plastic

For variable and individual interior installation. Simply locate into punchings and screw-fasten. System punchings on all four sides. With slots at the top and bottom for cage nuts, for attaching your own components via metric screws.

Installation options:

VX/VX IT

- On the inner mounting level, on the enclosure section VX

VX SE

- On the vertical section of the VX SE with adaptor rail VX

AX plastic

- In the width and height of the enclosure in conjunction with universal bracket

System accessories

- On identical punched sections with mounting flanges
- In the base/plinth system VX in the width and depth, combined with a base/plinth installation bracket

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Punched section with mounting flange, 23 x 89 mm

Stainless steel

for VX, VX SE

For variable, individual interior installation of the enclosure frame on the inner mounting level. Simply locate into punchings and screw-fasten. System punchings on all four sides. With slots at the top and bottom for cage nuts, for attaching your own components via metric screws. Especially for cable routing in the base/plinth system VX, stainless steel and for the installation of busbar supports (non-magnetic stainless steel).

Installation options:

VX

- On the inner mounting level, on the enclosure section VX

VX SE

- On the vertical section of the VX SE with adaptor rail VX

System accessories

- On identical punched sections with mounting flanges
- In the base/plinth system VX, stainless steel, in the width and depth, combined with a base/plinth installation bracket

Material:

- Stainless steel

Supply includes:

- Assembly parts

For enclosure width/depth mm	Packs of	Model No.

Accessories:

- Screws, see page 1004
- Cable tie 2597.000, see page 1061
- Cage nut, see page 1002
- Base/plinth installation bracket, see page 885

Interior installation

Rail systems

Punched section with mounting flange, 17 x 73 mm

for VX SE, TP, PC, IW

For universal skeleton structures or partial assembly. Simply locate onto the punchings and secure.

Installation options:

VX SE, PC, IW

- On the vertical enclosure section
 - On the outer mounting level, all-round, at the same height
 - On the inner mounting level, all-round, height-offset

VX SE, PC

- On the horizontal enclosure extrusion
 - May be mounted on the top horizontal section in the depth

TP

- Via rail for interior installation
 - In the depth, for outer mounting level
 - In the width, for inner mounting level

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly screws

Also required:

- For installation in TP: Rail for interior installation, see page 995

Accessories:

- Screws, see page 1004
- Cable tie for fast assembly 2597.000, see page 1061.

Interior installation

Rail systems

Punched section without mounting flanges, 23 x 64 mm

for VX, VX SE

For variable, individual interior installation of the enclosure frame on the inner mounting level. Mounted flush with enclosure frame. The additional mounting brackets mean it can also be used with a pre-installed mounting plate, and is also prepared for cutting to any required length. System punchings on all four sides. With slots at the top and bottom for cage nuts, for attaching your own components via metric screws.

Installation options:

VX
– On the inner mounting level, on the enclosure section

VX SE
– On the vertical section of the VX SE with adaptor rail VX

System accessories

– Between two punched sections with mounting flanges for the inner mounting level
– As installation kit for component shelves

Material:

– Sheet steel

Surface finish:

– Zinc-plated

Supply includes:

– 1 pack =
2 punched sections without mounting flanges 23 x 64 mm
4 mounting brackets

For enclosure width/height/depth mm	Packs of	Model No.
400	2 pc(s).	8100.740
500	2 pc(s).	8100.741
600	2 pc(s).	8100.742

1200	2 pc(s).	8100.745

Also required:

– For VX SE: Adaptor rail VX, see page 995

Punched rail 18 x 39 mm

for VX, VX SE

For variable, individual interior installation of the enclosure frame on the inner mounting level, may also be used in conjunction with other punched sections. Prepared at the rear to accommodate cable clamps for optimum cable routing inside the enclosure.

Installation options:

VX
– On the inner mounting level, on the enclosure section

VX SE
– On the vertical section of the VX SE with adaptor rail VX

Material:

– Sheet steel

Surface finish:

– Zinc-plated

Supply includes:

– Assembly parts

For enclosure width/depth mm	Packs of	Model No.
400	4 pc(s).	8617.700
500	4 pc(s).	8617.710

Rail systems

Adaptor rail VX

for VX compatibility for VX SE

To create compatibility of the interior installation between VX SE and VX25. The adaptor rail VX can be cut to length for customised configurations.

Installation options:

- On the vertical enclosure section of the VX SE (over the full installation height or in sub-sections)
- On the horizontal roof section of the VX SE, in the width

Supply includes:

- 4 adaptor rails
- Assembly parts

For enclosure height mm	Length mm	Packs of	Model No.
-	200	4 pc(s).	8617.760
1800	-	4 pc(s).	8617.750
2000	-	4 pc(s).	8617.751

Rail for interior installation

for TP, compact enclosures HD

For mounting on the existing threaded bolts. With system punchings on three sides.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

For enclosure width mm	For enclosure height mm	For enclosure height mm	Packs of	Model No.

- ¹⁾ Only with TP console and desk unit (cover or rear panel/base), one-piece console in cover
²⁾ Only with TP pedestal/one-piece console

Note:

- Installation options TP, see page 984/985
- Installation options HD, see page 225

Base configuration rail

for TP

For mounting in the enclosure depth, on the existing threaded bolts, no machining required. System punchings on 2 sides. Creates additional installation options.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

For enclosure depth mm	Packs of	Model No.
400	2 pc(s).	5001.370

Interior installation

Rail systems

C rail 30/15

to EN 60 715, for VX, VX SE

Installation options:

- On the inner mounting level, on the enclosure section
- In the base/plinth VX

Material:

- Sheet steel

Surface finish:

- Zinc-plated

For enclosure width/depth mm	Length mm	Packs of	Model No.

Mounting clip

For fast, secure attachment of:

- Cable ducts
- Mounting plates
- Mounting angles

on support rail TS 35/7.5 and 35/15 to EN 60 715.

Simply pre-assemble the mounting clip on the part to be installed, then snap into position on the support rail.

Packs of	Model No.
30 pc(s).	2309.000

Interior installation

Rail systems

Mounting claw for second mounting level

for terminal boxes KX, bus enclosures KX

For fixing top hat rails directly onto the rear panel of KX terminal boxes and KX bus enclosures. Creates an additional mounting level with an extra 10 mm of installation depth without having to machine the enclosure.

Packs of	Model No.
20 pc(s).	2309.100

Accessories:

- Support rails TS 35/7.5 to EN 60 715, see page 997

Mounting plate

Locatable for AX, VX, VX SE

Installation options:

- On the inner and outer mounting level, on the enclosure section
- On punched sections with mounting flanges
- On rail for interior installation AX
- On the perforated door strip AX

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly screws

Packs of	Model No.
4 pc(s).	8612.400

Accessories:

- Screws, see page 1004
- Cable tie 2597.000, see page 1061

Mounting plate

Screw-fastened, large for AX, VX, VX SE, AX plastic

Installation options:

- On all enclosures and mounting parts with system punchings on a 25 mm pitch pattern
- On the perforated door strip AX

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly screws

Packs of	Model No.
4 pc(s).	8612.410

Accessories:

- Screws, see page 1004
- Cable tie 2597.000, see page 1061

Mounting plate

Screw-fastened, small for AX, VX, VX SE, AX plastic

Installation options:

- On all enclosures and mounting parts with system punchings on a 25 mm pitch pattern
- On the perforated door strip AX

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly screws

Packs of	Model No.
4 pc(s).	4532.000

Accessories:

- Screws, see page 1004
- Cable tie 2597.000, see page 1061

Mounting plate

with integral top hat rail for AX, VX, VX SE, AX IT, VX IT, TE

For direct snap-mounting of components such as speed control, enclosure internal thermostat and hygrostat.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Packs of	Model No.
1 pc(s).	7526.964

Mounting bracket

Installation options:

- On all enclosures and mounting parts with system punchings on a 25 mm pitch pattern

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly screws

Packs of	Model No.
4 pc(s).	4597.000

Accessories:

- Screws, see page 1004
- Cable tie 2597.000, see page 1061

Interior installation

Rail systems

Mounting bracket

for interior installation

For installing punched sections with mounting flanges and support strips in

- Comfort Panel horizontal/vertical from 74 mm installation depth

or for installing in:

- Optipanel from an installation depth of 100 mm

For installing the LED system light in

- compact enclosures AX in conjunction with the rail for interior installation AX, see page 989, without machining and without the use of tools

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Packs of	Model No.
4 pc(s).	6205.100

Mounting options in Comfort Panel/Optipanel

		Front panel width 482.6 mm (19")	Page
Punched section with mounting flange	Horizontal	8612.150	992
	Vertical		
Support strips	Horizontal	4695.000	994
	Vertical		

Interior installation

Assembly components

Bracket/spacer

For flexible attachment of C rails, punched rails or cable clamp rails (angle piece). On the sides, to accommodate square sections or tubes (Ø 20 mm). Attachment points with M8 thread.

Installation options:

- On vertical and horizontal VX, VX SE enclosure section
- On punched sections with mounting flanges for the inner mounting level
- On enclosures and rails with rectangular system punching 12.5 x 11 mm

Material:

- Die-cast zinc

Supply includes:

- 1 pc(s). =
 - 1 bracket/spacer
 - 2 screws M8 x 16 mm
 - 2 spring lock washers
 - 2 cage nuts M8
 - 2 screws

Packs of	Model No.
6 pc(s).	4199.000

Also required:

- For VX SE: Adaptor rail VX, see page 995

Accessories:

- Angle piece 4134.000, see page 1001

Quick-assembly block

for a variety of installation options.

Installation options:

- On vertical and horizontal VX, VX SE enclosure section
- On punched sections with mounting flanges for the inner mounting level
- On enclosures and rails with rectangular system punching 12.5 x 11 mm

Material:

- Die-cast zinc

Supply includes:

- 12 quick-assembly blocks
- 12 threaded blocks M8
- 24 screws M8 x 12 mm
- 24 square nuts M8

Packs of	Model No.
12 pc(s).	4133.000

Also required:

- For VX SE: Adaptor rail VX, see page 995

Accessories:

- Angle piece 4134.000, see page 1001

Angle piece

For assembling mounting surfaces with a 45° incline. Optimum positioning of cable clamp rails, etc.

With two mounting options as standard:

- Conductively connected to the subsurface
- Insulated from the mounting surface

Installation options:

- On vertical and horizontal VX, VX SE enclosure section
- On punched sections with mounting flanges for the inner mounting level
- On the bracket/spacer
- On the quick-assembly block
- On enclosures and rails with rectangular system punching 12.5 x 11 mm

Material:

- Angle pieces: Die-cast zinc
- Insulating pieces: Plastic

Supply includes:

- 1 pc(s). =
 - 1 angle piece
 - 1 insulating piece
 - 1 insulating screw
 - 2 assembly screws
 - 1 threaded block M8

Packs of	Model No.
12 pc(s).	4134.000

Also required:

- For VX SE: Adaptor rail VX, see page 995

Interior installation

Assembly components

Mounting bracket

for VX, VX SE

For variable attachment of punched rail 23 x 23 mm.

Installation options:

- Optionally flush with the outer edge of the enclosure or the enclosure clearance width
- On the vertical VX, VX SE enclosure section
- On the horizontal VX enclosure section
- On the horizontal VX SE enclosure section, bottom
- On the horizontal VX SE enclosure section, top in the width and depth
- On enclosures and rails with rectangular system punching 12.5 x 11 mm

Material:

- Die-cast zinc

Supply includes:

- 1 pc(s). =
- 1 mounting bracket
- 1 screw M6 x 12 mm,
- 1 cage nut M6

Packs of	Model No.
24 pc(s).	4182.000

Also required:

- U nut (recommended: M6), see page 1003
- Multi-tooth screws M6 x 12 mm, see page 1004
- For VX SE: Adaptor rail VX, see page 995

Rail mounting bracket

For individual mounting of rails at a distance from the mounting surface.

Material:

- Sheet steel, zinc-plated

Rail mounting bracket	Packs of	Model No.
Flat	20 pc(s).	2365.000
Inclined	20 pc(s).	2366.000

Cage nut

For all-round metric mounting on the enclosure section.

Benefits:

- For all-round mounting on the enclosure section
- The compression spring, designed as an insertion aid, ensures reliable mechanical and electrical connection in the system punchings.
- Simply slides in from the side
- Safely and easily released with a screwdriver

Installation options:

- On vertical and horizontal VX, VX SE enclosure section
- On punched sections with mounting flanges, 23 x 64 mm
- On punched sections with mounting flanges, 23 x 89 mm, stainless steel
- On punched rails 23 x 23 mm
- On punched section without mounting flanges, 23 x 64 mm
- On enclosures and rails with rectangular system punching 12.5 x 11 mm

Thread	Packs of	Model No.
M5	20 pc(s).	4166.500
M6	20 pc(s).	4164.500
M8	20 pc(s).	4165.500

Also required:

- For VX SE: Adaptor rail VX, see page 995

Interior installation

Assembly components

U nut

for punched rail 23 x 23 mm

For mounting punched rails and punched sections without mounting flanges on mounting brackets, we recommend U nuts with M6 thread 4179.000.

Thread	Packs of	Model No.
M4	20 pc(s).	4119.000
M5	20 pc(s).	4157.000
M6	20 pc(s).	4179.000
M8	20 pc(s).	4180.000

Accessories:

- Multi-tooth screws M6 x 12 mm, for 4179.000, see page 1004

Threaded block

For all-round metric mounting in the enclosure section. With snap-off insertion aid, made from die-cast zinc.

Installation options:

- On vertical and horizontal VX, VX SE enclosure section
- On punched sections with mounting flanges, 23 x 64 mm
- On punched sections with mounting flanges, 23 x 89 mm, stainless steel
- On punched rails 23 x 23 mm
- On punched section without mounting flanges, 23 x 64 mm
- On enclosures and rails with rectangular system punching 12.5 x 11 mm

Thread	Packs of	Model No.
M6	50 pc(s).	4162.000
M8	50 pc(s).	4163.000

Also required:

- For VX SE: Adaptor rail VX, see page 995

Spring nut M5

For

- Comfort Panel from an installation depth of 74 mm
- Optipanel from an installation depth of 100 mm
- Compact Panel

The spring ensures reliable protection against unintentional displacement.

Other interior installation, e.g. with

- Mounting bracket 4597.000, see page 999 or
- mounting bracket components for interior installation 6205.100, see page 1000

Material:

- Steel, zinc-plated

Packs of	Model No.
50 pc(s).	6108.000

Interior installation

Assembly components

Universal bracket

For the installation of

- Enclosure lights in
 - Compact enclosures AX
- Door-operated switches in
 - Compact enclosures AX
 - TopConsole system TP
- Cable conduit holders 2593.000 and 2591.000 in
 - Compact enclosures AX
- Support rails for terminals in
 - Operating housings and operating housings with door

Mounting screws are concealed when the door is closed. Offers variable mounting options in compact enclosures, command panels and consoles.

Material:

- Sheet steel, zinc-plated

Supply includes:

- Assembly parts

Packs of	Model No.
6 pc(s).	2373.000

Multi-tooth screw

M6 x 12 to fit:

- Cage nuts 4164.500
- U nuts 4179.000
- Threaded blocks 4162.000

M8 x 12 to fit:

- Cage nuts 4165.500
- U nuts 4180.000
- Threaded blocks 4163.000

Multi-tooth drive for optimum transmission of torques, an extended tool life and increased safety and reliability when tightening and loosening screw connections.

Metal multi-tooth screw

For the round holes Ø 4.5 mm in the enclosure section, punched rails and punched sections without mounting flanges.

Self-tapping screw

For the round holes Ø 4.5 mm in the enclosure section, punched rails and punched sections without mounting flanges.

Self-tapping screw

Mark, drill and tighten in a single operation using electric or pneumatic tools.

For metal thickness: 0.8 – 3 mm
Length: 16 mm
Usable length: 9.5 mm
Width across flats: 8 mm

Interior installation

Assembly components

Connection kit

for separated frame VX IT

Every VX IT frame is easily converted to a rack suitable for dismantling. To this end, the frame sections in the roof and base frame must be separated, optionally in the width or depth. The four connection components are inserted into the frame section and screw-fastened. The external dimensions of the frame remain unchanged.

Supply includes:

- 4 connection components, internal
- 4 connection components, external
- Earth strap
- Assembly parts

Note:

- The maximum achievable IP protection category is restricted by separation of the frame
- The static load capacity of the frame structure is reduced to 8000 N

Packs of	Model No.
4 pc(s).	5302.037

Interior installation

Component shelves for frame attachment

- 1 Assembly bolts
- 2 Mounting rails
- 3 Punched sections without mounting flanges
- 4 Telescopic slides

Component shelf for frame attachment

for empty enclosures VX and VX IT with enclosure width 600 and 800 mm

For installation in enclosures **without** 482.6 mm (19") accommodation.

Max. depth of component shelves = Enclosure depth - 100 mm.

Technical specifications:

- Mounting bolts or mounting rails may be installed on a 25 mm pitch pattern in the enclosure depth
- Mounting hole for handles provided.
- Component shelf, vented

Installation options:

- Static installation: Component shelf, 50 kg with fixing bolts on punched section without mounting flange
- Static installation: Component shelf, 100 kg with mounting rails on punched sections without mounting flange
- Depth variable: Component shelf with telescopic slides on punched sections without mounting flange

Material:

- Sheet steel

Surface finish:

- Spray-finished

Colour:

- RAL 7035

500 N version supply includes:

- Component shelf, vented
- 4 fixing bolts

1000 N version supply includes:

- Component shelf, vented
- 2 mounting rails

Component shelf, static installation

for TE

The component shelf is attached directly at the side to the front and rear 482.6 mm (19") mounting frames for TE.

Material:

- Sheet steel

Colour:

- RAL 7035

Supply includes:

- Assembly parts

Note:

- Not suitable for combination with telescopic slides

Contact surface, width mm	505
Contact surface, depth mm	410
Distance between 482.6 mm (19") levels mm	495
Load capacity (static) N	300
Packs of	1 pc(s).
Model No.	7000.620

Component shelf, pull-out

482.6 mm (19") for VX IT, TE

For mounting between two 482.6 mm (19") mounting levels.

- Contact width: 419 mm
- Depth-variable to adapt to individual distances between levels
- Tool-free, time-saving one-man assembly from the enclosure front
- Self-locking
- Full withdrawal

Material:

- Sheet steel

Surface finish:

- Component shelf: Spray-finished
- Mounting kit/telescopic slides: Zinc-plated

Colour:

- Component shelf: RAL 9005

Supply includes:

- Component shelf, slotted
- Telescopic slide with mounting kit
- Assembly parts

Distance between levels mm	Load capacity, static kg	Height U	Depth mm	Packs of	Model No.
400 - 600	50	1	500	1 pc(s).	5501.675
600 - 900	50	1	700	1 pc(s).	5501.685

Accessories:

- Handle for component shelf 5501.730, see page 1011

Interior installation

Component shelves for attachment to the 482.6 mm (19") system

Component shelf, pull-out

for TE

For mounting between two 482.6 mm (19") mounting levels.

Benefits:

- Depth-variable to adjust to the distance between 482.6 mm (19") levels in a 25 mm pitch pattern
- Full withdrawal

Material:

- Base: Sheet steel

Surface finish:

- Base: Spray-finished
- Mounting kit/telescopic slides: Zinc-plated

Colour:

- RAL 7035

Supply includes:

- Component shelf, vented
- Telescopic slides with mounting kit

Contact surface, width mm	409
Contact surface, depth mm	500
Distance between 482.6 mm (19") levels mm	395 – 645
Load capacity (static) N	500
Packs of	1 pc(s).
Model No.	7000.625

Component shelf 1 U, static installation

482.6 mm (19")

for one 482.6 mm (19") mounting level

The ideal support surface for small active components such as modems or mini-hubs.

Load capacity:

- 10 kg surface load, static

Material:

- Sheet steel

Surface finish:

- Spray-finished

Colour:

- RAL 7035

Note:

- Usable height inside the U approx. 35 mm

Component shelf depth mm	Packs of	Model No.
140	1 pc(s).	7119.140

Also required:

- Cage nuts, see page 1002
- Screws, see page 1004

Interior installation

Component shelves for attachment to the 482.6 mm (19") system

Component shelf 2 U, static installation

482.6 mm (19") for one 482.6 mm (19") mounting level

The ideal support surface for small active components such as modems or mini-hubs.

Load capacity:
– 25 kg surface load, static

Material:
– Sheet steel

Surface finish:
– Spray-finished

Component shelf, pull-out, 2 U

for one 482.6 mm (19") mounting level

For simple, front installation of wall-mounted or floor-standing enclosures with at least one 482.6 mm (19") mounting level. This complete set comprises the pre-configured variant including telescopic slides, moulded handle, flange and locking pins.

Benefits:
– Simple tool-free assembly
– Full withdrawal
– Self-locking

Material:
– Sheet steel

Surface finish:
– Spray-finished

Colour:
– RAL 9005

Supply includes:
– Component shelf, pre-configured
– Assembly parts

- 1** Assembly bolts
- 2** Mounting rails
- 3** Telescopic slides

Cable support

Hinged, with anti-kink device and quick-release fastener

For secure routing of connection cables from the component shelves with telescopic pull-out to the clamping point. Kink-free cable routing in the central part via mobile chain links. The attachment may be released on both sides, thanks to the quick-release fastener.

Material:

- Sheet steel, zinc-plated
- Central part: Plastic

Supply includes:

- Cable support
- 2 mounting brackets
- Assembly parts

For enclosure depth mm	Packs of	Model No.
≤ 600	1 pc(s).	7163.560
> 600	1 pc(s).	7163.565

Note:

- Max. depth of component shelves = Enclosure depth - 200 mm

Handle

for pull-out component shelves

The component shelves are prepared for the attachment of handles.

Material:

- Die-cast zinc

Surface finish:

- Spray-finished

Packs of	Model No.
2 pc(s).	5501.730

Colour:

- Silver grey

Supply includes:

- Assembly parts

Fastening bolts

for slotted component shelves

For non-slip attachment of your components. The bolts are screwed into the longitudinal slots of the component shelf support surface. Consequently, they are infinitely adjustable and can be adapted to suit any appliance.

Packs of	Model No.
4 pc(s).	7115.000

Material:

- Steel

Surface finish:

- Clear-chromated

LED system light – Sensationally bright

Optimum illumination

- Innovative LED technology for even more light into the very last corner
- Intelligent lighting, tailored to the geometry of the enclosure, thanks to a special optical cover with Fresnel structure
- Optical cover with two different Fresnel structures
- The cover is easily rotated – to adapt the light distribution to the current installation situation
- Enormous luminous intensity up to 1200 lumens, directed selectively into the enclosure

Simple assembly

- Fast, tool-free assembly thanks to a latching hook system on a 25 mm pitch pattern of holes; simply latch and secure
- Optional screw-fastening also available, or opt for complete flexibility with a magnetic attachment freely positionable inside the enclosure
- May be fitted horizontally and vertically with no loss of space in the enclosure; existing rails and sections can simply be covered
- Lights with motion detectors are equipped with a rotating LED board as standard, allowing the direction of light to be perfectly adapted to any installation situation

Flexible connection

- Rotating connectors support installation in the most confined spaces
- Simple through-wiring based on the plug & play system
- Variants with integral motion detectors eliminate the need for installing separate door-operated switches
- If additionally equipped with a socket, electricity will be available whenever it is needed for maintenance work
- Suitable for immediate, global use with wide-range voltage 100 – 240 V (AC) and 24 V (DC)

New – socket box as a plug-in system

- The alternative to the LED system light with integrated socket
- Easier planning for international projects – same light, but with a country-specific socket
- No additional wiring required, thanks to simple connection technology and integration of the LED system light into the circuit
- Socket modules can be easily replaced to suit the user market via plug and play

LED system light

Baying enclosure system VX25 Page 116 **Free-standing enclosure system VX SE** Page 142 **Compact enclosures AX** Page 84

Benefits:

- Optimum illumination of the entire enclosure
- Optionally with clip, screw or magnetic attachment
- Equipment to suit every application

Material:

- Plastic
- Aluminium

Colour:

- Enclosure: RAL 7016

Protection class:

- II (all-insulated)

Light colour:

- 4000 K (neutral white)

Supply includes:

- Assembly screws

Note:

- Connection accessories should be ordered separately

IT LED system light

see page 1027

Socket box – The plug-in system

A global player

- Socket modules in all standard, country-specific variants
- UL variant for the North American market
- Socket modules can be easily replaced to suit the user market via plug and play

Simple assembly

- Easy to screw securely to the round holes in the enclosure profile
- No loss of space thanks to perfect integration into the profile
- No obstruction when installing and removing the mounting plate
- Supports flexible installation throughout the entire enclosure and on the tubular door frame

Fast connection

- Connection ready to plug in without any wiring work
- Direct integration of the LED system light into the circuit
- Same connection accessories as for LED system light
- Multiple socket boxes can be cascaded with numerous LED system lights

Interior installation

LED system light

The optimum system solution for improved flexibility

The socket box turns the LED system light into an all-in-one system, making it possible to easily install additional sockets in six country-specific variants anywhere in the enclosure.

A key advantage of this solution is that the appropriate socket for the end user's particular country can be easily installed via plug and play when the system is delivered. There is no need to replace the LED system light with one that has a suitable socket. All components are ready to plug in and can be installed without manual wiring.

Configuration examples

Free-standing enclosure
LED system light with socket and motion detector

Bayed enclosure with through-wiring via socket box

Enclosure 1:

LED system light with motion detector and additional socket boxes

Enclosure 2:

LED system light without socket or motion detector, but with additional door-operated switch and additional socket box

Bayed enclosure with through-wiring via T distributor

Enclosure 1:

LED system light with motion detector and additional socket boxes

Enclosure 2:

LED system light without socket or motion detector, but with additional door-operated switch and additional socket box

- 1 Infeed
- 2 Socket box
- 3 Through-wiring
- 4 LED system light (various types)
- 5 T distributor
- 6 Door-operated switch with connection cable

Completely UL-compliant construction

The entire system can be constructed in full compliance with UL requirements if UL-approved components (infeed, LED system light, through-wiring and socket box) are used.

Interior installation

LED system light

Socket box

for LED system light

In combination with the LED system light, the socket box creates a flexible modular system for international use.

Benefits:

- Identical connection accessories as for LED system light
- Cascadable with LED system light
- Supports flexible installation throughout the entire enclosure and on the tubular door frame
- No additional wiring required, thanks to simple connection technology and integration of the LED system light into the circuit

Material:

- Plastic

Colour:

- RAL 7016

Supply includes:

- Assembly parts

Mounting kit magnet

for LED system light

For sticking onto the rear of lights without a socket.

Packs of	Model No.
2 pc(s).	2500.490

Interior installation

LED compact system light

LED compact system light in 24 V (DC) version

- Max. EMC compatibility
- Protected, as it operates within the safety extra-low voltage range
- Door operated switch connection supported
- Integral through-wiring
- Vertically hinged light cone

Material:

- Light body: Extruded aluminium
- Light cover: Polycarbonate (halogen-free)
- Light ends: PC-ABS

Colour:

- Similar to RAL 7035

Protection category IP to IEC 60 529:

- IP 20

Supply includes:

- LED compact system light with clip and screw mounting kits, assembly parts

Model No.	4140.810	4140.820	4140.830	4140.840

IT LED system light

Network/server racks VX IT Page 686 Network racks TE 8000 Page 704 Wall-mounted enclosures AX/EL from page 715

Benefits:

- Plug and play compatibility system
- Optimum illumination of the entire IT rack
- Optionally with clip, screw or magnetic attachment
- Equipment to suit every application
- Ready to use immediately, thanks to plug-in connection cable
- Attachment with no loss of U in the rack

Type:

- All-insulated, with internal fuse (T 2A) for operation with Europlug (to CEE 7/16) and IEC 320 connector

Material:

- Plastic
- Aluminium

Colour:

- Enclosure: RAL 7016

Protection class:

- II (all-insulated)

Light colour:

- 4000 K (neutral white)

Supply includes:

- Mounting kit magnet
- Assembly screws

Note:

- Connection accessories should be ordered separately
- The two plug-in connection cables should only be used with the IT LED system light. Use with all other Rittal system lights or external products is inadmissible.
- Cascading of multiple IT LED system lights is not possible

Interior installation

EMC

EMC side panel

for VX

Automatic potential equalisation via assembly components, and a high level of EMC protection thanks to a special EMC seal.

Material:

- Sheet steel, 1.5 mm

Surface finish:

- Magnesium zinc coated, powder-coated on the outside

Colour:

- RAL 7035

Protection category IP to IEC 60 529:

- IP 55

Supply includes:

- Assembly parts

For enclosures		Packs of	Model No.
Height mm	Depth mm		
2000	600	2 pc(s).	8106.760
2000	800	2 pc(s).	8108.760

EMC shielding seal

for VX

For EMC-compliant shielding of the baying point in conjunction with external baying connector.

Protection category IP to IEC 60 529:

- IP 55 in conjunction with external baying connector

Supply includes:

- 8 m

Packs of	Model No.
1 pc(s).	8800.695

Also required:

- Baying connector, external, page 912

EMC divider panel seal

for VX

With bayed EMC enclosure systems and when using a zinc-plated divider panel, this seal ensures optimum contact and shield attenuation.

Material:

- PU foam with electrically conductive sheathing

Supply includes:

- 6 m

Packs of	Model No.
1 pc(s).	4348.500

Rail

for EMC shielding bracket and strain relief

Combined rail for strain relief and EMC contacting of inserted cables.

Design:

- C rail to accommodate cable clamps
- T-head cut-outs on a 40 mm pitch pattern for cable clamping using cable ties

Benefits:

- Additional contacting on the left or right of the rail via existing holes (9 mm diameter)
- Prepared for tool-free mounting of EMC shielding brackets

Installation options:

- On the horizontal/vertical VX, VX SE, PC enclosure section
- On the mounting plate, may also be fitted without a retaining bracket

Material:

- Extruded aluminium section

Surface finish:

- Chrome-free passivated

Supply includes:

- 1 rail
- 2 retaining brackets
- Assembly parts

For enclosure width mm	Length mm	Packs of	Model No.
600	553	1 pc(s).	2388.650
800	753	1 pc(s).	2388.850
1000	953	1 pc(s).	2388.050
1200	1153	1 pc(s).	2388.125

Also required:

- EMC shielding bracket, see page 1029
- Cable clamps, see page 1060

Accessories:

- Support bracket or spacer, see page 1001
- Quick-assembly block, see page 1001
- Angle piece, see page 1001
- Earth straps, see page 1033
- Earthing braid, see page 1033

Possible alternative:

- C rails 30/15, see page 996

EMC shielding bracket

Quick assembly without the use of tools: Press the EMC shielding bracket against the cable shield and clip into the rail. Diameter changes are compensated in full by the spring of the EMC shielding bracket.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

For shield diameter mm	Packs of	Model No.
3 – 10	10 pc(s).	2388.100
4 – 15	10 pc(s).	2388.150

EMC gland plate

for VX, VX SE

For shielded cables with a maximum diameter of 20 mm. Combined EMC/IP seal provides low-resistance contact between cable shield and gland plate. For all 400, 500, 600 and 800 mm deep enclosures in conjunction with standard gland plates.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- 1 gland plate with twin hammer-head punching
- 1 sliding base plate
- 2 EMC/IP seals

Width mm	Packs of	Model No.

Interior installation

VX25 for areas at risk of earthquakes

The versions listed have been tested and meet the requirements to Telcordia GR 63-CORE. They should be seen as a comparative variable to the customer's own plant, since empty enclosures cannot be certified.

Note:

- Further information can be found in the white paper "Earthquake protection for switchgear systems" on the Internet

VX25 for earthquake zone 1 and 2 to Telcordia GR 63-CORE

VX 8806.000:

W x H x D: 800 x 2000 x 600 mm, see page 125

Fitted with:

- Side panels, see page 901
- Base/plinth VX (corner pieces with base/plinth trim panels, front and rear and side base/plinth trim panels, 100 mm high), see page 881/882

VX25 for earthquake zone 3 to Telcordia GR 63-CORE

VX 8806.000:

W x H x D: 800 x 2000 x 600 mm, see page 125

Fitted with:

- Side panels, see page 901
- Comfort handle VX, see page 937
- Earthquake base/plinth, see page 1032

VX25 for earthquake zone 4 to Telcordia GR 63-CORE

VX 8806.000:

W x H x D: 800 x 2000 x 600 mm, see page 125

Fitted with:

- Side panels, see page 901
- Comfort handle VX, see page 937
- Earthquake base/plinth, see page 1032
- Earthquake kit, see page 1032

Interior installation

VX25 for areas at risk of earthquakes

Earthquake base/plinth

for VX
Height 100 mm

- For stable attachment of the earthquake-resistant enclosure to the subsurface.
- External metric M6 thread for a stable connection to the subsurface from the outside

Material:

- Corner piece: Sheet steel, 5 mm
- Trim panels: Sheet steel, 2 mm

Surface finish:

- Powder-coated

Colour:

- RAL 7022

Supply includes:

- 1 pc(s) =
4 corner pieces,
2 depth stays,
1 trim panel each front and rear
Fully assembled.

M8	100 pc(s).	2335.000

Interior installation

Earthing

Earthing plate

- For installation in
- Comfort Panel
 - Optipanel
 - VX
 - VX SE
 - PC

One earthing cable can be screw-fastened to the threaded bolt and connected to up to 8 components with earth straps via 6.3 mm flat-pin connectors.

Packs of	Model No.
1 pc(s).	2570.500

Supply includes:

- Assembly parts

Central earthing point

- For connecting
- Earth straps
 - Earthing braids
- to the vertical and horizontal enclosure sections. The connection bracket is connected to the enclosure frame with 2 screws and is securely contacted. Earth connection is via the threaded bolt M8 x 20 mm.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Packs of	Model No.
1 pc(s).	7829.200

Supply includes:

- 1 connection bracket
- 2 assembly screws for mounting on the enclosure section
- 2 serrated washers
- 1 nut M8
- 1 contact washer M8
- 1 washer

Potential equalisation star

for 8 mm earthing bolt

The earthing connector is used for simple potential equalisation on an 8 mm earthing bolt, or in conjunction with central earthing point 7829.200. Up to five flat-pin connectors (6.3 mm) may be contacted on one earthing point.

Packs of	Model No.
10 pc(s).	7548.210

Supply includes:

- 10 earthing connectors
- Assembly parts

Potential equalisation kit

for VX IT

Central earthing point on the enclosure frame for simple connection of the enclosure to the earthing/potential equalisation network (rack bonding conductor (RBC) connection point).

Application:

- To create seamless central potential equalisation between all installed components and/or to ensure functional earthing to EN 50 310

Functional principle:

- Contact between all enclosure panels and the enclosure frame as central earthing point plus contact with all installed components to the same potential, via a conductive attachment or separate earth strap

Supply includes:

- 7 earth straps (4 mm²), for doors and optional side panels
- Central earthing point
- Assembly parts

Packs of	Model No.
1 pc(s).	5302.027

Note:

- If a risk assessment of the ultimate application has been carried out by a qualified electrician and no extended risk potential has been identified, no protective earthing measures are required

Earthing extension kits

To supplement the existing earthing or potential equalisation sets for integrating additional installation components into the potential equalisation system. For targeted contact of installation components with the enclosure frame. The earth conductors are pre-assembled with connectors ready for connection and cut to the correct length.

Application:

- For extending the existing potential equalisation set

Packs of	Model No.
1 pc(s).	7829.150

Supply includes:

- 8 earth straps, UL style 1015 AWG 12
- Connection accessories

Approvals:

- UL

Potential equalisation kit, Plus version

for VX IT

For improved EMC.

Benefits:

- All enclosure elements are connected via earthing braids to a central, vertical potential equalisation rail (rack bonding busbar, RBB) via the frame structure as central consolidation point

Application:

- Ensures continuous potential equalisation and/or functional earthing
- Improved protection from high-frequency interfering radiation to EN 50 310

Functional principle:

- Potential equalisation rail for central potential equalisation of all installed equipment on the enclosure and components connected to the potential equalisation

Supply includes:

- 6 earthing braids (M8), 10 mm², for sheet steel doors, side panels, potential equalisation rail
- Potential equalisation rail, length 1545 mm, for height 1800 – 2000 mm
- Assembly parts

Packs of	Model No.
1 pc(s).	5302.028

Note:

- If a risk assessment of the ultimate application has been carried out by a qualified electrician and no extended risk potential has been identified, no protective earthing measures are required
- To ensure an increased shielding effect of the enclosure, use of an enclosure with an all-round sealed body is advisable, similar to that used in IP enclosure variants with a solid sheet steel door at the front (as configuration only), solid roof plate, screw-fastened side panels and solid base

Assembly instruction:

- The specific connection cables between the installed equipment and the potential equalisation rail must be supplied by the user

Accessories:

- Conductor connection clamp, see page 349

Interior installation

Earthing

Complete earthing kit

for TE

For system-compatible earthing of all housing parts on the housing frame. The earth conductors are pre-assembled with connectors ready for connection and cut to the correct length.

Supply includes:

- 4 earth straps, 300 mm
- 4 earth straps, 350 mm
- Assembly parts

Packs of	Model No.
1 pc(s).	7000.675

Note:

- If a risk assessment of the ultimate application has been carried out by a qualified electrician and no extended risk potential has been identified, no protective earthing measures are required

PE busbar

699 mm long PE busbar with 42 pre-fitted screws, including terminal clamps up to 6 mm² (fine wire conductors), 10 mm² (single wire or multi-wire conductors) and main terminal clamp up to 35 mm².

Packs of	Model No.
1 pc(s).	2364.000

Accessories:

- Cable retainer, see page 1002

Earth rail, horizontal

for VX, VX SE, VX IT

Supply includes:

- Earth rail made from E-Cu 57 to DIN EN 12 163, DIN EN 13 601, 15 x 5 mm
- 20 connection points with M5 screws
- 2 earth connections 25 mm²
- 2 isolators
- Assembly parts

For enclosure width mm	Width mm	Height mm	Length mm	Packs of	Model No.
600, 800	15	5	450	1 pc(s).	7113.000

Earth rail, vertical

for VX, VX IT

Easily fitted to the 25 mm DIN pitch pattern of distributors or to the 482.6 mm (19") mounting angles. The supplied earth conductors facilitate star earthing of the cable clamp straps in the patch panels. The earth terminals are fully adjustable. Current carrying capacity of rail approx. 200 A.

Supply includes:

- Earth rail made from E-Cu 57 to DIN EN 12 163, DIN EN 13 601, 15 x 5 mm
- 16 push-in conductor connection clamps, 1.5 – 16 mm²
- 15 earthing leads 6 mm², L = 500 mm
- Assembly parts

Extension kit

for earth rail, vertical

For system-compatible expansion of the star earthing on the vertical potential equalisation rail.

Supply includes:

- Earthing leads 6 mm², L = 500 mm
- Preassembled, with ring terminal and wire end ferrule
- Push-in conductor connection clamps 1.5 – 16 mm²
- Assembly parts

Packs of	Model No.
10 pc(s).	7549.000

ESD connection point

Dangerously high potential differences can occur during maintenance or conversion work on the enclosure. To protect sensitive electronic components, this standardised connection point (push-button) provides potential equalisation between service engineer and enclosure. The connection point is directly conductively connected to the enclosure frame via two screws.

Packs of	Model No.
1 pc(s).	7752.950

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Interior installation

Earthing

PE/PEN busbar E-Cu

for VX

With integral punchings.

Material:

– E-Cu

Standards:

– DIN EN 13601

Accessories:

- PE/PEN angle bracket, see page 1038
- PE/PEN baying bracket E-Cu, see page 1039

Busbar support N conductor

N conductor

For assembling 1-pole neutral or PEN conductors. The busbar holder is mounted onto the enclosure section.

Material:

- Polyamide
- Fire protection corresponding to UL 94-HB

Colour:

- Similar to RAL 7016

Supply includes:

- Assembly parts

For busbar mm	Packs of	Model No.
50 x 10	2 pc(s).	9686.300

Also required:

- Busbars E-Cu, see page 342.

Assembly instruction:

- For the installation of max. 4 busbars (sub-conductors) per phase

Accessories:

- Longitudinal connector E-Cu, see page 397

Inserted screw nut M12

Self-holding nuts with knurled ring for busbars E-Cu.

Hole diameter: 14.5 mm

Packs of	Model No.
30 pc(s).	3591.060

Power supply

Socket strips

Socket strips

in an aluminium duct

The socket strips are available in various lengths with different functional elements. Special attention has been devoted to practical, universal fastening: Variable attachment facilities have been created with an angle bracket which may be inserted in four positions. Hence, for example, the 482 mm long socket strip may optionally be mounted on 482.6 mm (19") mounting angles, the 482.6 mm (19") mounting frame, on the enclosure frame, or in the rear section of the wall-mounted distributor. Without additional mounting accessories, the socket strip may be inserted into all sections with a 25 mm hole pattern. This makes selection much easier, as well as providing additional flexibility and saving on warehousing. Provision has also been made for cable routing of the infeed, and when mounting in the 482.6 mm (19") section there is adequate space to route the infeed between the socket strip and the profile rail without kinks.

The arrangement of the IEC 320 sockets at a 45° angle allows unrestricted use of angular connectors.

Technical specifications:

Earthing-pin socket strips

- Connector type F (CEE 7/3)
- Rated operating voltage: 250 V
- Connection cable: 2 m long H05VV-F3G1.5 without connector, [5] with connector

Belgium/France (UTE) socket strips

- Connector type E (CEE 7/5)
- Rated operating voltage: 250 V
- Connection cable: 2 m long H05VV-F3G1.5 with wire end ferrules

Equipment connector strips (IEC 60 320-1/C13) socket strips

- Rated operating voltage: 250 V
- Input: With C14 connector (H05VV-F3G1.0) or without connector (H05VV-F3G1.5), depending on the variant

Material:

- Aluminium section: Natural anodised
- Socket inserts: Polycarbonate

Supply includes:

- Socket strip
- 2 mounting brackets
- Assembly parts

Standards:

- Earthing-pin socket: DIN 49 440
- IEC 320 socket: EN 60 320-2-2
- Overvoltage protection: DIN EN 61 643-11 (VDE 0675 Part 6-11)

Approvals:

- CE
- RoHS

Note:

- Depending on the application, we recommend use of a charging current reserve to prevent incorrect activation due to starting-current spikes

¹⁾ Variable attachment distance within a range of 25 mm, the distance given is hole centre - hole centre of mounting bracket

Socket strip

Earthing-pin, with plastic housing

Robust 8-way earthing-pin socket strip in a plastic housing. The strip may be mounted vertically on the enclosure frame or in the 482.6 mm (19") section. 2.5 U are required for 482.6 mm (19") installation. The earthing-pin inserts are arranged at an angle of 45° so that angular connectors are also easily used. The connection cable is attached to a terminal connection (behind a removable cover) in the socket strip. The socket strip has a terminal for an external earthing connection.

Technical specifications:

- Connector type F (CEE 7/3)
- Rated operating voltage: 230 V
- Rated current: 16 A
- Connection cable: Type H05WW-F3G1.5 (black) with wire end ferrules
- Length: 2 m
- Dimensions:
W x H x D: 483 x 74 x 45 mm

Socket strip	Packs of	Model No.
8-way, earthing-pin	1 pc(s).	7000.630

Supply includes:

- Socket strip
- Assembly parts

Material:

- Plastic (grey/black)

Approvals:

- CE
- RoHS

Socket strip

with power measurement

The socket strip 7x CEE 7/3 (type F - earthing-pin socket) with integrated display measures the power consumed by all connected equipment. The 482.6 mm (19") long socket strip may optionally be mounted on the 482.6 mm (19") mounting angles, on the enclosure frame or in the rear section of wall-mounted distributors. The installation bracket may be mounted in four different positions for variable mounting. Without additional mounting accessories, the socket strip may be inserted into all sections with a 25 mm hole pattern.

Installation options:

- Components with a 25 mm pitch pattern
- 482.6 mm (19") level
- Enclosure frame
- IT rack, at the rear, horizontal (adequate width provided)

Benefits:

- Measurement accuracy of $\pm 5\%$

Functions:

- Measurement of current, voltage, frequency, active power, active energy and phase shift

Material:

- Aluminium section: Natural anodised
- Socket inserts: Polycarbonate

Colour:

- Socket: RAL 7035

Supply includes:

- Socket strip
- 2 mounting brackets
- 3 m connection cable with wire end ferrules
- Assembly parts

Power supply

Socket strips

Junction box

with multi-functional bracket

The angle bracket can be installed in all network enclosures in a system-compatible design. The junction box serves as a transfer point for the power supply to all equipment (fans, lights and socket strips). As well as being used as a junction box or interchange point, the bracket can also accommodate the enclosure internal thermostat 3110.000 or the hygrostat 3118.000, thanks to its integral holes.

Material:

- Sheet steel

Colour:

- RAL 7035

Supply includes:

- Junction box
- Bracket
- 6 m connection cable 3 x 1.5 mm² (flexible)

Packs of	Model No.
1 pc(s).	7280.035

Socket

- For mounting on support rails TS 35/7.5 and TS 35/15 to EN 60 715
- Uniform screw terminals from one side
- Enclosure width: 45 mm

Earthing-pin/CEE 7/3	2 pc(s).	2506.120

Service socket

for enclosure frame attachment/16 A

Integration of a service socket within a separate supply circuit, independently of the IT network and UPS. Simple installation via an angle bracket for attaching to the enclosure frame.

Type: Earthing contact/CEE 7/3

Material:

- Angle bracket: Sheet steel
- Socket: Plastic

Surface finish:

- Angle bracket: Zinc-plated

Supply includes:

- Service socket
- Angle bracket
- Damp-proof socket (IP 44)
- Assembly parts

Packs of	Model No.
1 pc(s).	7280.100

Energy-Box, 3 U, 482.6 mm (19")

Technical specifications:

- Depth-adjustable top hat rail for installed equipment to DIN 43 880, sizes 1 – 3 (e.g. to accommodate built-in sockets, circuit-breakers etc.)
- Cable clamping at the rear, one N and one PE rail on an insulated plinth.
- Plastic hood including extension cover (UL 94-V0)
- Maximum accommodation capacity of 22 HP (22 x 18 mm = 396 mm).
- Enclosure height: 3 U
- Enclosure depth: 155 mm
- Overall installation depth with C rail: 155 mm
- Dimensions: W x H x D: 483 x 132.5 x 155 mm

Colour:

- RAL 7035

Supply includes:

- Energy-Box with fitted N and PE rails and brush strip
- 4 connection clamps, 35 mm²
- 18 connection clamps, 16 mm²
- 2 blanking covers
- 12 clips for cable strain relief
- Identification strips, self-adhesive

Energy-Box, 3 U, 482.6 mm (19")

Pull-out

Technical specifications:

- Depth-adjustable top hat rail for snap-in attachment of installed equipment to DIN 43 880 in sizes 1 – 3 (e.g. to accommodate built-in sockets, circuit-breakers etc.) or entire installation assemblies.
- Cable clamping at rear
- Two power distribution rails with connection clamps on insulated base/plinth
- Plastic hood including extension cover
- Maximum accommodation capacity of 22 HP (22 x 18 mm = 396 mm).
- Enclosure height: 3 U
- Enclosure depth: 223 mm
- Maximum extension: 220 mm
- Dimensions: W x H x D: 483.5 x 132 x 223 mm

Colour:

- RAL 7035

Supply includes:

- Energy-Box with fitted N and PE rails and brush strip
- 4 connection clamps, 35 mm²
- 18 connection clamps, 16 mm²
- 2 blanking covers
- 12 clips for cable strain relief
- Identification strips, self-adhesive

Cable management

Cable entry

Cable entry plate

for VX, VX SE

- Cable entry grommet
 - Connector grommet
- instead of segments from the standard divided gland plates

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Protection category IP to IEC 60 529:

- IP 55 in conjunction with cable entry grommets or connector grommets

Supply includes:

- Assembly parts

Enclosure width mm	Cut-outs per plate	Packs of	Model No.
600	6	2 pc(s).	8619.800
800	8	2 pc(s).	8619.801
1000	5	4 pc(s).	8619.802
1200	6	4 pc(s).	8619.803

Also required:

- Cable entry grommet, see page 1044 or
- Connector grommet, see page 1044

Three examples from a wide range of possibilities

The diagrams show three examples for positioning cable entry plates instead of segments from the three-piece gland plates supplied as standard. In this way, they can be positioned to fit the mounting plate. Thanks to the enclosure symmetry, where dimensions permit, cable entry plates may also be inserted in the enclosure depth, right and left, analogous to the gland plates.

Cable entry grommet

In conjunction with the cable entry plate, supports simple, fast sealing of cables inserted into the base area of enclosures.

Material:

- Body: Polypropylene
- Cover: Thermoplastic elastomer

Protection category IP to IEC 60 529:

- IP 55 if installed correctly

Cables per grommet	Max. Ø mm	Packs of	Model No.

Connector grommets

Suitable for cable diameters from 8 to 36 mm.

Material:

- Outer cover: Polypropylene covered with thermoplastic elastomer
- Seal: Cellular rubber

Protection category IP to IEC 60 529:

- IP 55 if installed correctly

Packs of	Model No.
10 pc(s).	4311.000

Section for cable entry, centre for VX, VX SE

For top-mounting on gland plates.

Material:

- Extruded aluminium section
- Seal: PU foam
- Cross-section: 30 x 25 mm

Protection category IP to IEC 60 529:

- IP 55 if installed correctly

Supply includes:

- Plug-in sections, incl. foam rubber clamp strips

Note:

- You will need two pieces per cable entry point.
- From an enclosure width of 1000 mm, the base assembly is divided into two sections in the width. Two cable entry points (left/right) may be used.

For enclosure width mm	Packs of	Model No.

+ **Accessories:**

- Cable clamp rail, see page 1059

Foam rubber cable clamp strip

For sealing the cable entry between the gland plates. Particularly suitable for identical cable cross-sections.

Material:

- PU foam
- Cross-section: 30 x 30 mm

Protection category IP to IEC 60 529:

- IP 55 if installed correctly

Packs of	Model No.
3 m	2573.000

Cable management

Cable entry

EMC gland plates

see page 1029

Connector gland

for connector cut-outs (24-pole)

For inserting 2 pre-assembled cables through the connector cut-out, without dismantling the cable connector.

Cable diameters: 8 – 36 mm

Material:

- Enclosure: Plastic
- Clamps: Sheet steel

Surface finish:

- Clamps: Zinc-plated

Supply includes:

- 1 pc(s). =
2 half-shells, including seals, with fastening clamp

Packs of	Model No.
1 pc(s).	2400.000

Cable gland

for IW worktops

To fit drilled holes \varnothing 60 mm. For the entry of cables with pre-assembled connectors, the rotating flap and cover are easily removed.

Material:

- Plastic

Sealing frame, modular

For the universal use on all surfaces and walls, for feeding through pre-fabricated cables with connectors. Can also be mounted onto 24-pole or 16-pole connector cut-outs.

Material:

- Plastic

Colour:

- Black

Protection category IP to IEC 60 529:

- IP 66

Supply includes:

- Sealing frame
- Locking frame

Number of small seal inserts	For cut-out mm	Model No.
10	113.5 x 46 (24-pole)	2583.100
8	91 x 46 (16-pole)	2583.080

Also required:

- Inlay for plastic gland plate, modular and sealing frame, modular, see page 1051
- Seal inserts for cable gland plates, modular and sealing frame, modular, see page 1051

Plastic gland plate, modular and sealing frame, modular

The plastic gland plate, modular and the sealing frame, modular, offer extensive flexibility with the entry of assembled and unassembled cables, with or without connectors. Depending on the cable cross-section, suitable modules may be selected to retain the high protection category of IP 66 after cable entry.

The gland plate design also supports mixed use with standard cable glands and inlays with seal inserts. In this way, cables prefitted with connectors may be safely inserted into the enclosure retrospectively. Seven different gland plate sizes are available. The sealing frame design may be used on any sufficiently large surface.

Plastic gland plate, modular for AX

- 1 Rectangular cut-outs for inlays and seal inserts, see page 1051
- 2 Metric knockouts for cable glands, see page 1056
- 3 Plastic gland plates, modular, see page 1050

Sealing frame, modular for AX, KX

Cable management

Gland plates

Plastic gland plate, modular with metric knockouts, for AX

Simply pierce the plastic knockouts, and pull through the cable. Additional rectangular cut-outs and reinforcement frame allow the inlays and seal inserts to be installed directly.

Temperature range:

– Suitable for use from -40 °C...+80 °C

Material:

– Plastic to UL 94-V0

Colour:

– RAL 7035

Protection category IP to IEC 60 529:

– IP 66 if installed correctly

Note:

– The applicable size may be taken from the relevant product ordering page

Accessories:

- Inlay, see page 1051

Cable management

Gland plates

Inlay

for plastic gland plate, modular and sealing frame, modular

Individual inserts to subdivide the cut-outs in the modular plastic gland plate and the modular sealing frame.

Material:

– Plastic

Colour:

– Black

Version	Packs of	Model No.
1 slot	5 pc(s).	2582.100
2 slots	5 pc(s).	2582.200
4 slots	5 pc(s).	2582.400
6 slots	5 pc(s).	2582.600

Seal inserts

for plastic gland plate, modular and sealing frame, modular

In conjunction with the inlays, the seal inserts allow individual cable entry, even with preassembled cables.

Material:

– Plastic

Colour:

– RAL 7035

Accessories:

– When using as a gland plate, modular: Locking clip for seal inserts, see page 1051

Seal inserts, small

7	436 x 221	1 pc(s).	2567.400

Metal gland plate

with metric knockouts, for KX

Simply knock out the holes for the cable glands using a screwdriver.

Material:

– Sheet steel

Colour:

– RAL 7035

Protection category IP to IEC 60 529:

– IP 55 if installed correctly

Diameter	Packs of	Model No.
M20	1 pc(s).	1581.200

Accessories:

– Cable glands made from polyamide or brass, see page 1056

Gland plate

for metric cable glands, for EL

Folded gland plate with foamed-in seal and pre-punched, knock-out holes for metric cable glands M12, M20, M25, M32, M40.

Material:

– Sheet steel, 1.5 mm

Colour:

– RAL 7035

Protection category IP to IEC 60 529:

– IP 55

Width mm	Depth mm	Cable entry (quantity x Ø)	Packs of	Model No.
599	133.5	4 x M12 7 x M20 5 x M25 2 x M32 2 x M40	1 pc(s).	7705.235

Cable management

Gland plates

Gland plate

with brush insert, for EL

Folded gland plate with foamed-in seal and plastic brush inserts for simple cable entry.

Material:

- Sheet steel, 1.5 mm

Colour:

- RAL 7035

Packs of	Model No.
1 pc(s).	7705.035

Brush strip

For individual installation of enclosure panels, gland plates and panels. Cut-outs for cable routing at any position in the side panel, rear panel, doors, roof and base plate may be finished off attractively by simply attaching the brush strip.

Material:

- Plastic, UL 94-HB

Packs of	Model No.
2 m	7072.200

Technical specifications:

- For metal thickness: 0.6 – 1.5 mm
- Bristle length: 30 mm
- Plastic sheath: 18 mm
- Snap-on surface: 10 mm
- Maximum cut-out height: 38 mm

Brush strip, super-airtight

For individual installation of enclosure panels, gland plates and panels. Cut-outs for cable routing at any position in the side panel, rear panel, doors, roof and base plate.

These special brush strips may be used to create airtight entries for cable sections and conductors. The brush strips arranged in an offset configuration ensure good sealing from the routed cables even with large quantities of cables. In this way, unwanted flow losses may be reduced to a minimum.

Packs of	Model No.
2 x 1 m	7825.375

Technical specifications:

- For metal thickness: 1.5 – 2 mm
- Bristle length: 58 mm
- Plastic sheath: 14 mm
- Snap-on surface: 11.5 mm
- Cut-out width: 88 – 90 mm

Material:

- Plastic, fire protection to UL 94-HB

Supply includes:

- 1 brush strip right-hand version
- 1 brush strip left-hand version

Cable management

Cable glands

Cable gland, brass

Benefits:

- Because the gland and lock nut are sold together in a single pack, this saves additional ordering and storage
- Clamping membranes for even tightening and strain relief to protect the cables

Material:

- Brass
- Seal: CR/NBR

Surface finish:

- Nickel-plated

Protection category IP to IEC 60 529:

- IP 68 (5 bar, 30 min.)

Approvals:

- VDE, UR, cUR

EMC cable gland

see page 1030

Cable management

Cable glands

Cable gland HD

More compact design and the lock nut is included with the supply.

Applications:

- Manufacturing and packaging of foodstuffs etc.
- Clean room technology (e.g. pharmaceuticals)
- Biotechnology
- Chemical industry

Benefits:

- Smooth, solid exterior surfaces effectively prevent the depositing of harmful micro-organisms
- Much easier, therefore cheaper, cleaning compared with conventional cable glands

Material:

- Cap nut: Stainless steel 1.4305 (AISI 303)
- Seal: Compliant with FDA 21 CFR 177.2600

Protection category IP to IEC 60 529:

- IP 69
- IP X8 (5 bar, 30 min.)

Supply includes:

- HD cable gland
- Lock nut

- 1 Seal
- 2 Cap nut
- 3 Gripper jaws
- 4 Shield spring (EMC version only)
- 5 Clamping ring
- 6 Enclosure seal
- 7 Base with locator for assembly tool

Why use hygienic cable glands?

Critical points with conventional solutions

- 1 Cable entry in front of seal
- 2 No minimum radii on the hexagon
- 3 External threads
- 4 Gap caused by O-ring on the enclosure surface

Hygienic design features

- 1 Seal directly at the cable entry
- 2 Compliance with minimum radii on the hexagon
- 3 No external threads
- 4 Flush termination between the cap nut and the enclosure

Assembly tool

for cable gland HD

For attaching HD cable glands in an internal thread or using lock nuts. This can be achieved either from the inside or from the outside using an Allen key.

Supply includes:

- 1 pc(s). = Adaptor for sizes from M12 – M25

Packs of	Model No.
1 pc(s).	2410.290

System accessories

Cable management

Cable routing inside the enclosure

Cable duct

- With special DIN punchings for direct mounting on the enclosure section or on surfaces such as mounting plates.
- If the mounting plate is installed flush with the enclosure frame at the rear (installation position ± 0 mm), the horizontally mounted cable ducts are aligned with the cable ducts mounted on the enclosure section.
- Cable duct 50 mm wide for individually sited VX25 enclosures with side panel on the vertical section, on the left and right adjacent to the mounting plate.
- Cable duct 100 mm for mounting on the vertical enclosure frame with bayed enclosures.

Technical specifications:

- Depth: 80 mm
- Length: 2000 mm, may be cut to length
- Bar width: 5.5 mm
- Slot width: 4.5 mm

Material:

- Hard PVC
- Flame-resistant, self-extinguishing
- Temperature resistant to +60 °C

Width (B) mm	Packs of	Model No.

- Isolator cap, see page 1058

1 = W 50 mm

2 = W 100 mm

3 = W 30 to 100 mm

Isolator cap

for screw head

To isolate screw heads within the cable duct.

Material:

- Plastic

Packs of	Model No.
100 pc(s).	8800.770

Cable management

Cable routing inside the enclosure

Cable clamp rail

Right-angle section for VX, VX SE, PC, TP, VX base/plinth

For strain relief with cable entry. Depth-variable mounting on a 25 mm pitch pattern on the horizontal enclosure section or in the base/plinth.

Material:

– Steel

Surface finish:

– Zinc-plated

Supply includes:

– Assembly parts

Enclosure width mm	Packs of	Model No.

Possible alternative:

– Rail for EMC shielding bracket and strain relief, see page 1029

Cable clamp rail

C rail, for mounting plates for VX, VX SE, TP

For strain relief with cable entry. The length of the cable clamp rail is tailored to the width of the mounting plate. The mounting bracket included with the supply supports three different installation situations on the mounting plate:

- 1 Straight, at a distance of 23 mm from the mounting plate
- 2 Straight, at a distance of 10 mm from the mounting plate
- 3 Tilted towards the mounting plate

Material:

– Sheet steel

Surface finish:

– Zinc-plated

Supply includes:

– Two mounting brackets and assembly screws

For enclosure width mm	Length mm	Packs of	Model No.

Cable management

Cable routing inside the enclosure

Cable clamping bracket

For installation in command panels with mounting cut-out □ 120 x 65 mm and Ø 130 mm. Cable clamping optionally via:

- Cable clamps
 - or
 - Cable ties 2597.000
 - Standard commercially available cable ties
- Bracket height = 25 mm with fitted C rail 40 mm

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- C rail and assembly screws

Packs of	Model No.
1 pc(s).	6052.000

+ Accessories:

- Cable clamp, see page 1060
- Cable ties, see page 1061

Cable clamp

for C rail, combination rail

For attaching cables to the C rail.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Plastic insert

For cable diameter mm	Packs of	Model No.
6 – 14	25 pc(s).	7077.000

56 – 64	25 pc(s).	7099.000

+ Accessories:

- C rail, see from page 996
- Combination rail, see page 1063

Cable conduit and cable conduit holder

For secure cable routing e.g. from the enclosure or mounting plate to the door. An attachment facility for standard commercially available cable ties is provided on the cable conduit holder, so that cables may be attached upon entry to/exit from the cable conduit.

Material:

- Cable conduit: Polyethylene
- Cable conduit holder: Polyamide

Cable conduit

Internal Ø mm	Packs of	Model No.
16	25 m	2595.000

29	20 pc(s).	2591.000
36	20 pc(s).	2594.000
48	20 pc(s).	2592.000

! Also required:

- For the installation in AX: Rail for interior installation AX, see page 989 or punched section with mounting flange 14 x 39 mm, see page 952/990

Cable management

Cable routing inside the enclosure

Cable attachment

For professional, secure fastening of cables and conduits.

For fastening:

- Slide into the punched rail 23 x 23 mm,
- Screw-fasten onto the round punchings of the enclosures, as well as all punched rails and punched sections

Material:

- Polyamide

Note:

- As the attachments are bayable, several attachments, even those of different sizes, can be assembled using just 2 screws

For cable diameter from – to mm	Packs of	Model No.
6 – 9	50 pc(s).	4319.090
9 – 12	50 pc(s).	4319.120
12 – 16	50 pc(s).	4319.160
16 – 20	50 pc(s).	4319.200

Also required:

- Posidrive raised countersunk screw M5 x 12 mm, 2488.000, for screw-fastening to the round system punchings, see page 1004

Accessories:

- Punched rail 23 x 23 mm, see page 994

Cable tie

The super-fast solution for fastening cables to the enclosure profile or mounting system parts. Simply clip into the round system punchings.

Length mm	Packs of	Model No.
150	100 pc(s).	2597.000

Nylon loop

With the nylon loop, secured cables are easily released, allowing individual cables to be added or removed. Ideal for sensitive data cables (fibre-optic/Cu), as it avoids indentations on the cable sheathing. In addition, the nylon loop may be screw-fastened to the round system punchings or attached using a quick-release fastener.

Colour:

- Black

Supply includes:

- Quick-release fasteners

Width mm	Length mm	Max. cable diameter mm	Packs of	Model No.

Also required:

- Screw 2486.600 for screw-fastening to the round system punchings, see page 1004

Nylon tape

For tidy cable routing. Supplied on a reel for cutting to the required length.

Unlike cable ties, nylon tape

- protects the cable sheathing
- is easily reopened and
- is reusable

Length mm	Width mm	Packs of	Model No.
5000	16	1 pc(s).	2203.400

Cable management

Cable routing inside the enclosure

Nylon tape holder

- For simple, fast cable attachment
- Tool-free mounting in the system punchings with 10.5 x 12.5 mm, with a quarter rotation
- Direct use on the horizontal VX frame section, on the support strips and mounting angles of the VX IT 482.6 mm (19") interior installation, on the cable route or on punched sections with mounting flanges
- Length of nylon tape: 400 mm

Material:

- Plastic

Supply includes:

- 10 nylon tapes
- 10 holders

Packs of	Model No.
10 pc(s).	5502.155

Nylon loop cable holder

Self-adhesive

Universally suitable for use in all network enclosures and server racks, wall-mounted enclosures, mounting plates and gland plates.

Material:

- Woven polyamide 6.6

Colour:

- Black

Size length x width mm	Packs of	Model No.
70 x 16	10 pc(s).	7111.350

Snap-in cable routing

for clipping into the system punchings

Cable routing suitable for universal use, for tool-free, fast assembly, in two variants:

For locking

- User-friendly opening for cable management via locating points
- For cable diameters 14 – 19 mm
- For system punchings 6.2 mm

For twisting

- User-friendly opening for cable management
- For cable diameters 10.2 – 12.7 mm
- For system punchings 4.7 mm

Material:

- Polyamide 6.6, self-extinguishing to UL 94-V2

Colour:

- Natural

Version	Packs of	Model No.
For locking, for system punchings 6.2 mm	10 pc(s).	7111.300
For twisting, for system punchings 4.7 mm	10 pc(s).	7111.310

Cable management

Cable routing inside the enclosure

Combination rail

for VX IT

Combination of a C rail for cable clamping with cable clamps and a cable guide rail with T-heads for cable routing. The cables can optionally be secured to the combination rail with cable clamps, cable ties or velcro fasteners to be relieved of strain.

Applications:

- For cable routing and strain relief of routed cables on the VX frame structure

Benefits:

- May be installed on either the outside or inside of the enclosure frame

Installation options:

- Direct screw-fastening between the vertical uprights of the enclosure frame

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

For enclosures		Packs of	Model No.
Width mm	Depth mm		
600	600	4 pc(s).	5302.020
800	800	4 pc(s).	5302.021
1000	1000	4 pc(s).	5302.022
1200	1200	4 pc(s).	5302.025

Accessories:

- Cable ties, see page 1061
- Nylon loop, see page 1061
- Angle bracket for combination rail, see page 1063

Angle bracket

for combination rail

For variable mounting of combination rails between two punched sections with mounting flanges in the enclosure interior.

Applications:

- Cascaded cable routing

Benefits:

- Simple clip attachment or optionally screw-fastened

Packs of	Model No.
8 pc(s).	5302.038

Cable clamp rail, depth-variable

for VX IT, TE

For cable routing on the enclosure frame and for strain relief of the routed cables. The cables can be attached to the cable clamp rails with cable ties or velcro fasteners.

The cable clamp rails can be located horizontally at the rear directly onto a 482.6 mm (19") mounting level or in the enclosure depth between two mounting levels. An additional screw fastening secures the unit.

The depth variability of the rails allows their length to be flexibly adapted to the given mounting distance between the two 482.6 mm (19") mounting levels.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Mounting dimension ¹⁾ mm	Packs of	Model No.
325 – 575	1 pc(s).	5302.044

¹⁾ Mounting dimensions + 152 mm = distance between 482.6 mm (19") levels

Accessories:

- Cable ties, see page 1061
- Nylon loop, see page 1061

Cable management

Cable routing inside the enclosure

Cable manager

Applications:

- For vertical cable routing and strain relief with network and server applications

Benefits:

- Simple assembly with tool-free quick-release fastening
- Alternatively suitable for screw-fastening
- Integral multifunctional punching for attaching cable routing components
- Integral mounting holes for fixing the PDUs in a 7 U pitch pattern via a keyhole recess

Material:

- Plastic, UL 94-V0

Colour:

- RAL 9005

Supply includes:

- Mounting clips and assembly parts

	Packs of	Model No.
Maxi-kit	20 pc(s).	5502.405

Cable shunting ring

For flexible, system-compatible cable routing at the side of the 482.6 mm (19") mounting angles.

Material:

- Steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Dimensions mm	Packs of	Model No.
125 x 85	10 pc(s).	7111.900
125 x 65	10 pc(s).	7111.000
85 x 43	10 pc(s).	7112.000

Shunting ring

To accommodate large quantities of cables. Shunting ring for side attachment to 482.6 mm (19") sections in 800 mm wide network enclosures. The ring is attached asymmetrically providing approx.

110 mm free space in front of the 482.6 mm (19") level. This allows even large quantities of cables to be effectively managed.

Material:

- Steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Dimensions mm	Packs of	Model No.
330 x 90/70	4 pc(s).	7220.600

Cable management

Cable routing inside the enclosure

Fibre-optic shunting rings

Fibre-optic shunting or jumper cables can be inserted into the grooves of the inner body. A rubber ring holds different fibre-optic cables up to Ø 4.5 mm. Strain relief and bending radius are ensured.

Length: 120 mm

Material:

– 2K plastic

Colour:

– Exterior: RAL 7035
– Interior: Black

Supply includes:

– 2 rubber rings
– Baying kit
– Assembly parts

Assembly:

The supplied mounting brackets are suitable for universal use; the fibre-optic cables can be routed to the patch panel in all directions in various mounting positions:

- 1 At the side, directly on the patch panel
- 2 In front of the patch panel
- 4 At the side next to the patch panel
- 4 Behind the patch panel

Packs of	Model No.
2 pc(s).	7116.500

Possible alternative:

– Fibre-optic cable management panel, 1 U, see page 1065

Fibre-optic cable management panel , 1 U

482.6 mm (19")

The four fibre-optic cable shunting rings integrated into the front permit optimum management of individual fibres while allowing for minimum baying radii.

Material:

– Panel: Sheet steel
– Ring: 2K plastic

Colour:

– Panel: RAL 9005
– Cable shunting rings on the outside: RAL 7035,
Body: RAL 9005

U	Packs of	Model No.
1	1 pc(s).	5302.203

Possible alternative:

– Fibre-optic cable shunting ring, see page 1065

System supports for cable routes

for VX, VX IT

The depth-variable support system may be attached to all 800 – 1200 mm deep VX enclosures with external screw-fastening of the roof plate. The integral system punchings, for screws or captive nuts, support the attachment of most common cable route systems.

- May be combined with VX IT fan mounting plate
- In combination with punched rail, suitable for accommodating additional cable routing rails or pipelines.
- Support height: 102 mm

Material:

– Sheet steel

Surface finish:

– Powder-coated

Colour:

– RAL 7035

Packs of	Model No.
2 pc(s).	7831.472

Accessories:

– Metal multi-tooth screws 5.5 x 13 mm, 2486.600, see page 1004

Cable management

Cable routing inside the enclosure

Cable route for VX, VX IT

Applications:

- For vertical cable routing and strain relief with network and server applications

Installation options:

- On the VX IT frame between the roof and base frames, all-round
- In 800 mm wide VX IT racks, alternatively, screw-fastening between the upper and lower depth stays is supported

Benefits:

- Simple assembly with tool-free quick-release fastening
- Alternatively suitable for screw-fastening
- Integral multifunctional punching for attaching cable routing components
- Integral mounting holes for fixing the PDUs in a 7 U pitch pattern via a keyhole recess

Material:

- Sheet steel

Surface finish:

- Spray-finished

Colour:

- RAL 9005

Supply includes:

- Assembly parts

Width mm	Height mm	Packs of	Model No.
145	2000	1 pc(s).	5302.120
145	2200	1 pc(s).	5302.122
265	2000 – 2200	1 pc(s).	5302.322

Accessories:

- Cable ties, see page 1061
- Nylon tape, see page 1061
- Nylon tape holder, see page 1062
- Wall-mounted enclosures, see page 1064
- Cable routing bars, see page 1067

Cable route

for TE

For vertical cable entry at the side of the 482.6 mm (19") mounting frame for TE, independently from the enclosure frame.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Width mm	Height mm	Packs of	Model No.
100	1700	1 pc(s).	7000.685

Surplus cable holder

For fastening at the rear area of the enclosure, or at the side of network enclosures. The surplus cable holder can be attached to all depth stays or to punched sections and rails with a 25 mm pitch pattern – mounting dimension 150 mm.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Colour:

- RAL 7035

Supply includes:

- Assembly parts

W x H x D mm	Packs of	Model No.
280 x 151 x 75	1 pc(s).	7220.500

Cable management

Cable routing 19"

Cable routing bars, 482.6 mm (19") attachment

For structured routing of entire cable bundles, the cable bars may be secured to a variety of different positions inside the enclosure.

Applications:

- For horizontal cable routing within the distributor level. Thanks to their open mounting holes, they can also be retrospectively slotted onto the 482.6 mm (19") system punchings of the mounting level at any time and secured with the existing mounting screws of the installed components.

Material:

- Support: Sheet steel
- Cable routing bars, connection combs: Plastic UL 94-V0

Colour:

- RAL 9005

Supply includes:

- Cable routing bars
- Connection combs

Note:

- Size of individual chambers (WxD) approx. 34 x 100 mm

Units U	Number of connection combs	Packs of	Model No.
4	2	4 pc(s).	7111.224

Cable routing bars for universal use

For structured routing of entire cable bundles, the cable bars may be secured to a variety of different positions inside the enclosure.

Applications:

- All-round attachment for universal use for vertical and horizontal cable routing inside the enclosure or within the distributor level.

Material:

- Support: Sheet steel
- Cable routing bars, connection combs: Plastic UL 94-V0

Colour:

- RAL 9005

Supply includes:

- Cable routing bars
- Connection combs

Note:

- Size of individual chambers (WxD) approx. 34 x 100 mm

Units U	Number of connection combs	Packs of	Model No.
4	2	4 pc(s).	7111.222
1	5	10 pc(s).	7111.212

Cable management

Cable routing 19"

Cable duct

for VX IT, TE

Cable duct for concealed cable routing. Convenient access to the cabling at any time via the hinged duct cover, optionally removable. The duct has cable entry options to the enclosure interior and through the rear panel of the duct. The cable retaining bars enclosed with the duct are snap-mounted onto the cable fingers of the duct with variable depth to support cable routing. Alternatively, the cable duct may also be screw-fastened. For optimum air routing, it may be combined with the brush kit for VX IT.

Benefits:

- Simple assembly with tool-free quick-release fastening
- High packing density due to U-based cable routing
- Suitable for back-to-back baying
- Cable duct may be used as a shielding element to prevent air short-circuits within cold aisle containment
- Lockable cable glands, may be fitted with installation components on the 1 U mounting standard

Material:

- Sheet steel
- Plastic to UL 94-HB

Colour:

- RAL 9005

Supply includes:

- Cable duct
- 2 covers
- 14 cable fingers, 6 U
- 10 cable retaining bars
- Assembly parts

Accessories:

- Brush kit, see page 1068
- Cable management panel with brush strip, see page 1074
- Blanking panel, 482.6 mm (19"), see page 1093

Brush kit

for cable duct VX IT

For all-round shielding of the 482.6 mm (19") mounting level and targeted routing of the cold air flow to the installed equipment.

Applications:

- The brush kit is designed for combining two vertical cable ducts on both sides of the 482.6 mm (19") mounting level. The brush kit may be combined with a cable duct and used as an alternative to the air baffle plate.
- A combination with air baffle plate and cable duct is also possible as partial installation

Benefits:

- Simple assembly with tool-free quick-release fastening
- Alternatively suitable for screw-fastening
- Tailored to the maximum enclosure height 47 U for cutting to the required individual length

Functions:

- The brush kit consists of vertical brush strips for the area between the cable duct and side panel as well as horizontal air baffle plates with brush strips for sealing in the roof and floor area on the 482.6 mm (19") mounting level

Installation options:

- 482.6 mm (19") mounting angles, standard
- 482.6 mm (19") mounting angles, dynamic

Material:

- Brush strip: Plastic, UL 94-V0
- Bristles: Plastic, UL 94-HB
- Air baffle plates: Sheet steel, spray finished

For enclosure width mm	Bristle length mm	Packs of	Model No.
800	48	1 pc(s).	5302.036

Colour:

- RAL 9005

Supply includes:

- 2 brush strips, vertical
- 2 air baffle plates, horizontal, including brush strip
- Assembly parts

Also required:

- Blanking panel, 482.6 mm (19"), see page 1093

Assembly instruction:

- When using the cable duct combined with the brush kit as an air routing component, the cable entry openings in the cable duct must be closed or covered with a cable management panel with brush strip

Accessories:

- Cable management panel with brush strip, see page 1074

Cable management

Cable routing 19"

Cable finger

for VX IT

For structured cable routing on the 482.6 mm (19") mounting level in 1 U increments.

Benefits:

- Simple, tool-free installation by snap-mounting directly into the 482.6 mm (19") mounting angle

Installation options:

- Installation is possible both on the front and on the side of the mounting angles at the front and rear

Material:

- Plastic to UL 94-V0

Colour:

- RAL 9005

Note:

- Cable routing in conjunction with air baffle plates is supported

Complete CAT 6 system

for Network Cable Organizer

Modern network infrastructures rely on maximum performance and the greatest possible flexibility in cabling. A useful component here is the Network Cable Organizer (NCO). The robust 1 U mounting frame is pre-configured with 24 cable cassettes and revolutionises conventional structured cabling with 8 times faster installation.

Applications:

- For use in all network racks from a depth of 800 mm.

Benefits:

- Minimise cable chaos – Prevent obstructions to the air circulation in the vicinity of network switches
- Always the right length: Surplus cable lengths – whether CAT 6 or fibre-optic – are simply withdrawn with a spring balancer
- Every cable is 100% tested and supplied with a corresponding measurement record
- Front access – Ideal for retrofitting into racks with a depth of 800 mm or more

Functions:

- Attachment to the front and rear 482.6 mm (19") level

Technical specifications:

- CAT 6 cable STP
- 2 x RJ 45 connectors per cable
- Shielded RJ 45 connector with gold-coated pins
- Usable cable length per cassette: 1.6 m
- ISO/IEC 11801:2002, AWG 36, 100% copper, 250 MHz

Material:

- Mounting frame: Sheet steel
- Cassettes: Stainless steel, plastic (POM)

Colour:

- Mounting frame: RAL 9005

Supply includes:

- Complete CAT 6 system
- 24 CAT 6 cassettes
- Installation kit
- Assembly parts

Accessories:

- Mounting frame, see page 1070
- Blanking cover, see page 1071
- Identification labels, see page 1071

Cable management

Cable routing 19"

Mounting frame

for Network Cable Organizer

Robust 1 U mounting frame for 24 cable cassettes. For individual configuration of the Network Cable Organizer.

Applications:

- For use in all network racks from a depth of 800 mm.
- Attachment to the front and rear 482.6 mm (19") level

Benefits:

- Minimise cable chaos – Prevent obstructions to the air circulation in the vicinity of network switches
- Always the right length: Surplus cable lengths – whether CAT 6 or fibre-optic – are simply withdrawn with a spring balancer
- Front access – Ideal for retrofitting into racks with a depth of 800 mm or more

Material:

- Mounting frame: Sheet steel

Colour:

- Mounting frame: RAL 9005

Supply includes:

- Robust, 1 U sheet steel mounting frame for 24 cable cassettes
- Installation kit
- Assembly parts

Accessories:

- Blanking cover, see page 1071

¹⁾ For the installation in VX SE, the adaptor rail VX is required, see page 995

Note:

Product information, see page 1075

Installation kit

for swing frame, small, and partial mounting plate

For mounting the small swing frame in AX, VX, VX SE or a partial mounting plate (in conjunction with a hinge for partial mounting plates).

Installation options:

- In VX, VX SE
 - Directly on the enclosure section in the foremost position
 - In conjunction with punched section with mounting flange 23 x 64 mm, offset in the depth

Load capacity:

- Up to 1500 N

Material:

- Sheet steel

Surface finish:

- Nickel-plated

Supply includes:

- Assembly parts

For enclosure width mm	Packs of	Model No.
600	1 pc(s).	8619.600
800	1 pc(s).	8619.610

Also required:

- For the installation in compact enclosures AX: Mounting kit AX, see page 1076
- For the installation in standalone rack VX SE: Adaptor rail VX, see page 995

Mounting kit AX

for installation kit for swing frame, small

For mounting the small swing frame in compact enclosures AX.

Supply includes:

- 4 mounting brackets

Note:

- 1 pack is sufficient for mounting one small swing frame

Packs of	Model No.
1 pc(s).	2034.010

482.6 mm (19") installation system

Swing frames

Swing frame, large

for VX, VX SE

for 600, 800 and 1200 mm wide enclosures

For mounting 482.6 mm (19") equipment.

Material:

– Sheet steel

Surface finish:

– Frame: Zinc-plated
– Trim panels: Spray finished

Colour:

– Trim panels: RAL 7035

Supply includes:

– Lock system, 130° hinge and parts for attaching to the installation kit

Note:

– The swing frame stay is required to lock the open swing frame 8619.270, see page 1078

Accessories:

– 482.6 mm (19") fastener, 1 U, 2090.000, see page 1097

Swing frame stay

Secures the swing frame in the open position.

For mounting on swing frame, large

- 8619.270 at the top of the enclosure
- 1980.200 at the bottom of the enclosure (with safety stop at 160°)

	Packs of	Model No.
For 130° hinge	1 pc(s).	8619.270
For 180° hinge	1 pc(s).	1980.200

For mounting on swing frame, small

- 8619.270, may be mounted at the top or bottom on the installation kit

180° hinge

for swing frame, large, for VX

To extend the opening angle from 130° to 180° in the foremost installation position.

Provides optimum access to the components and 482.6 mm (19") components located behind the swing frame.

Load capacity:

- Up to 1500 N

Material:

- Die-cast

Note:

- Only suitable for installation in VX

Packs of	Model No.

482.6 mm (19") installation system

Accessories for Data Rack

Second pair of mounting angles

for Data Rack

To accommodate 482.6 mm (19") network components or for the attachment of component shelves and slide rails. 482.6 mm (19") punched profile at the front, hole centre distance 465 mm (470 mm at the rear), tailored to the attachment of patch panels and cable routing rails. The mounting level may be positioned on a 50 mm pitch pattern. Minimum distance between levels 150 mm, maximum distance between levels 350 mm.

Material:

- Sheet steel, 2 mm

Surface finish:

- Spray-finished

Colour:

- Profile frame: RAL 7035
- Trim panel: RAL 5018

Supply includes:

- Torsionally stiff profile frame with 482.6 mm (19") punchings
- Mounting accessories

- Assembly parts

Depth stays

for Data Rack

For securing and stabilising two pairs of 482.6 mm (19") mounting angles in the Data Rack. The length of the depth stays is adjustable, and can accommodate the following spacings of mounting angles: 250, 300 and 350 mm.

Material:

- Sheet steel

Surface finish:

- Spray-finished

Packs of	Model No.
2 pc(s).	7401.000

Colour:

- RAL 7035

Supply includes:

- Assembly parts

Slide rail, 2 U, static installation, continuous

for two pairs of 482.6 mm (19") mounting angles

To support heavy equipment in the Data Rack. The mounting dimensions of the slide rails were selected to enable them to be combined with 500 mm deep, 482.6 mm (19") component shelves. The mounting distance of the 482.6 mm (19") mounting angles is 350 mm.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Load capacity:

- 500 N, static

Supply includes:

- Assembly parts

Packs of	Model No.
2 pc(s).	7402.000

Also required:

- Second pair of mounting angles, see page 1079

Accessories:

- 482.6 mm (19") fastener, 1 U, see page 1097
- Component shelf for frame attachment, see page 1006

482.6 mm (19") installation system

Mounting angles

Adaptor section, 482.6 mm (19")

for VX, VX SE, enclosure width 600 mm

For mounting electronic components, subracks and other 482.6 mm (19") equipment. Adaptor sections are easily shortened for partial assemblies.

Material:

- Sheet steel, 2 mm

Supply includes:

- Assembly parts

Note:

- The 482.6 mm (19") measurement applies when mounting on the frame
- Depth-offset installation is possible using punched sections with mounting flanges, 18 x 64 mm

For enclosure height mm	U	Packs of	Model No.
1600	33	2 pc(s).	8619.300¹⁾
1800	38	2 pc(s).	8619.310

482.6 mm (19") mounting angles, standard for VX IT

Suitable for assembling a 482.6 mm (19") mounting level or for 482.6 mm (19") partial installation. The L-shaped design directly accommodates all commercially available installation kits for server systems, which are fastened directly to the 482.6 mm (19") system punchings.

The L-shaped design directly accommodates all commercially available installation kits for server systems, which are fastened directly to the 482.6 mm (19") system punchings.

Applications:

- For mounting a 482.6 mm (19") mounting level within the VX IT rack system

Benefits:

- Integral, bidirectional U labelling
- Integral system punchings on a U pitch pattern on the front and sides, allows U-specific mounting of cable routing components for structured cabling

Installation options:

- Alternative installation widths from 21" - 24", depending on the mounting variant and rack dimensions selected

Technical specifications:

- Side punchings, round and square, on a U pitch pattern
- Potential equalisation within the mounting level and with the locating frame is achieved via the assembly components
- 482.6 mm (19") mounting hole including U centre fixing attachment to standard EIA 310 E

Material:

- Sheet steel, 2 mm

Surface finish:

- Primed

Colour:

- RAL 9005

Supply includes:

- Assembly parts

+ Assembly instruction:

- A combination with cross-member, depth stays or mounting bracket is required for attachment
- Use of the different mounting options depends on the relevant enclosure dimensions

+ Accessories:

- Cross member, see page 1083
- Mounting bracket, see page 1082
- Depth stays, see page 1083

482.6 mm (19") installation system

Mounting angles

482.6 mm (19") mounting angles, dynamic

for VX IT

Suitable for assembling a 482.6 mm (19") mounting level or for 482.6 mm (19") partial installation.

The L-shaped design can directly accommodate all commercially available mounting kits for server systems, which are fastened directly to the 482.6 mm (19") system punchings.

Applications:

- For mounting a 482.6 mm (19") mounting level within the VX IT rack system

Benefits:

- Integral, bidirectional U labelling
- Integral system punchings on a U pitch pattern on the front and sides, allows U-specific mounting of cable routing components for structured cabling

Installation options:

- Alternative installation widths from 21" – 24", depending on the mounting variant and rack dimensions selected

Technical specifications:

- Side punchings, round and square, on a U pitch pattern
- Potential equalisation within the mounting level and with the locating frame is achieved via the assembly components
- 482.6 mm (19") mounting hole including U centre fixing attachment to standard EIA 310 E

Material:

- Sheet steel, 2.5 mm

Surface finish:

- Primed

Colour:

- RAL 9005

Supply includes:

- Assembly parts

For enclosure height U	Installation position	Packs of	Model No.

47	rear	2 pc(s).	5302.157

Assembly instruction:

- A combination with cross-member, depth stays or mounting bracket is required for attachment
- Use of the different mounting options depends on the relevant enclosure dimensions

Accessories:

- Mounting bracket, see page 1082
- Cross member, see page 1083
- Depth stays, see page 1083

Mounting bracket

for VX IT 482.6 mm (19") mounting angles

For mounting 482.6 mm (19") mounting angles in VX IT network/server racks. For racks with a width of 600 mm, they are attached directly to the frame and for racks with a width of 800 mm to the cross-member.

Benefits:

- Direct potential equalisation of the mounting angles via the attachment

Material:

- Sheet steel

Surface finish:

- Clear-chromated

Colour:

- RAL 9005

Supply includes:

- Assembly parts

Design	For enclosure width mm	Packs of	Model No.
for VX IT 482.6 mm (19") mounting angles, standard	600	4 pc(s).	5302.110
for VX IT 482.6 mm (19") mounting angles, dynamic	600	4 pc(s).	5302.160

Accessories:

- Cross member, see page 1083

482.6 mm (19") installation system

Mounting angles

Cross member

for VX IT mounting angles, 482.6 mm (19"), standard

For width-variable mounting of standard 482.6 mm (19") mounting angles in 800 mm wide VX IT network/server enclosures.

Benefits:

- Symmetrical or asymmetrical installation supported
- More space for cable routing or integration of a Liquid Cooling Unit (LCU) with one-sided, asymmetrical (laterally offset) installation
- Ideal for integrating 482.6 mm (19") mounting angles for alternative installation with 21", 23", or 24" components
- To boost the energy efficiency of an integral rack climate control system, the surrounding area around the 482.6 mm (19") mounting level can be covered with air baffle plates, enabling the more selective use of the cooling airflow and minimising exhaust airflows

Material:

- Sheet steel

Surface finish:

- Spray-finished

Colour:

- RAL 9005

Load capacity:

- 4000 N

Supply includes:

- Assembly parts

For enclosure width mm	Packs of	Model No.
800	2 pc(s).	5302.167

Note:

- The maximum load capacity of one mounting level on a cross member is 4000 N per mounting level.

Also required:

- Mounting bracket, see page 1082

Assembly instruction:

- It is attached directly onto the enclosure frame
- A cross member mounting bracket is needed to screw-fasten the mounting angles to the cross member

Accessories:

- Air baffle plate, see page 1094

Depth stays

for 482.6 mm (19") mounting angles

To accommodate 19" mounting angles.

Benefits:

- Particularly high load capacity up to 15,000 N
- Enhanced stability thanks to improved load distribution
- Symmetrical or asymmetrical installation supported
- More space for cable routing or integration of a Liquid Cooling Unit (LCU) with one-sided, asymmetrical (laterally offset) installation
- Ideal for integrating 482.6 mm (19") mounting angles for alternative installation with 21", 23", or 24" components

Material:

- Sheet steel

Surface finish:

- Spray-finished

Colour:

- RAL 9005

Supply includes:

- 2 depth stays each for top and bottom for enclosure width > 600 mm
- Assembly parts

Assembly instruction:

- For the attachment of mounting angles in enclosures that are greater than 1000 mm deep and greater than 600 mm wide, additional mounting brackets are required
- For the attachment of mounting angles in enclosures that are greater than 1000 mm deep and greater than 600 mm wide, an additional support rail for VX IT is required

482.6 mm (19") installation system

Mounting angles

Support rail

for VX IT

For the attachment of mounting angles in enclosures > 1000 mm deep and 600 mm or 800 mm wide when using depth stays. The support rail improves load distribution in network/server racks.

Technical specifications:

- Side round and square punchings

Material:

- Sheet steel

Supply includes:

- Assembly parts

Packs of	Model No.
1 pc(s).	5302.170

Assembly instruction:

- The support rail is screw-fastened onto the centre of the frame structure at right-angles below the depth stays

Mounting angles additional fastening attachment

for VX IT 482.6 mm (19") mounting angles, standard

Prevents the mounting angles from twisting in case of unevenly distributed loads. Secured directly between the mounting angle and a mounting section on the outer mounting level of the VX frame structure.

Applications:

- For fixing the 482.6 mm (19") mounting angle, standard, onto the outer mounting level

Benefits:

- Can also be used as individual fastening with 482.6 mm (19") partial installation

Material:

- Sheet steel

Surface finish:

- Spray-finished

Colour:

- RAL 9005

Supply includes:

- Assembly parts

For enclosure width mm	Packs of	Model No.
600	2 pc(s).	5302.123
800	2 pc(s).	5302.124

Also required:

- Punched section with mounting flange, 18 x 64 mm, see page 990

Mounting kit, 2 U

for 482.6 mm (19") equipment

Facilitates fast, simple integration of additional 2 U mounting space within an enclosure by attaching to the enclosure frame or to the existing mounting angles at the sides. The flexible slot fastening of the brackets means that the distance between the two installation brackets may be freely selected, so that other 482.6 mm (19") attachment dimensions may be implemented. The second row of holes is used for the optional configuration of additional mounting surfaces.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Adhesive measurement strip, 482.6 mm (19")

With numerical labelling on a 482.6 mm (19") pitch pattern for clear identification of the various height units.

Applications:

- For retrofitting to existing 482.6 mm (19") sections
- For sticking onto the side adjacent to the system punchings

Benefits:

- Double-sided labelling allows the counting direction to be freely selected
- Clear documentation of the various installed components

Material:

– Sheet steel, spray-finished

Cover, magnetic

for VX IT

For optionally covering the front system punchings with complete air blocking of the front, or in the absence of installed cable fingers. With additional labelling strips for bidirectional U labelling.

Applications:

- For retrofitting to existing 482.6 mm (19") sections

Benefits:

- Double-sided labelling allows the counting direction to be freely selected
- Clear documentation of the various installed components

Material:

- Cover: PVC
- Adhesive measurement strips: Plastic

Supply includes:

- Cover (front)
- 2 adhesive measurement strips, self-adhesive, bi-directional

Design	Length m	Width mm	Packs of	Model No.
Labelling range 1 – 56 U	5	15	1 pc(s).	5501.895

482.6 mm (19") installation system

Slide rails

Slide rail, 2 U, static installation for VX IT

System punchings for mounting accessories and cooling active components.

Applications:

- For mounting on a 482.6 mm (19") mounting level

Installation options:

- for 482.6 mm (19") mounting angles, standard
- for 482.6 mm (19") mounting angles, dynamic

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Load capacity:

- 300 N, static

Supply includes:

- Assembly parts

Units U	Length mm	Packs of	Model No.
2	150	2 pc(s).	5501.400

Slide rail, 1 U, static installation for VX IT

Side system punchings for mounting accessories and cooling components that expel to the side.

Applications:

- For mounting on the front mounting level
- To support heavy installed equipment

Benefits:

- Simply locate into the system punchings of the 482.6 mm (19") mounting brackets after adjusting the required 482.6 mm (19") distance between levels

Installation options:

- for 482.6 mm (19") mounting angles, standard

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Load capacity:

- 800 N, static

Supply includes:

- Assembly parts

Note:

- Effective contact surface 35 mm per side

Units U	Length mm	Distance between 482.6 mm (19") levels mm	Packs of	Model No.

795	85	724	2 pc(s).	7963.710

Slide rail, 1 U, depth-variable

for VX IT, TE

Applications:

- For mounting on the front mounting level
- To support heavy installed equipment
- To adapt to individual distances between 482.6 mm (19") levels

Benefits:

- Tool-free, time-saving one-man assembly from the enclosure front
- All three mounting holes in the EIA system punchings are available for screw-fastening the equipment.
- Alternatively, direct screw fastening in the TE 8000 to the 482.6 mm (19") system punchings is also possible

Installation options:

- 482.6 mm (19") L mounting angles, front and rear
- 482.6 mm (19") mounting frames front and rear
- for VX IT 482.6 mm (19") mounting angles, standard
- for VX IT 482.6 mm (19") mounting angles, dynamic

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Note:

- Effective contact surface 25 mm per side

Distance between 482.6 mm (19") levels mm	Load capacity (static)	Packs of	Model No.

400 - 600	800 N	2 pc(s).	5501.460

482.6 mm (19") installation system

Slide rails

Slide rail, 1 U, depth-variable for VX IT, TE

For direct attachment to the 482.6 mm (19") system punchings on the mounting angles. The slide rails are pulled out to the required length and secured between the front and rear mounting level on the 482.6 mm (19") pitch pattern.

Applications:

- For mounting on the front mounting level

Benefits:

- No loss of U
- Thanks to the thin support surface of only around 0.8 mm thickness, exceeding the U pitch pattern is generally avoided, provided the components do not exceed a maximum height of 43.5 mm. In this way, several units may be easily arranged on top of one another without offset.

Installation options:

- For attachment between the front and rear 482.6 mm (19") mounting level

Distance between 482.6 mm (19") levels mm	Packs of	Model No.

Adaptor kit, 3 U

for 800 mm wide VX enclosures

For fastening individual 482.6 mm (19") components, or as an additional mounting facility at the rear of the enclosure. The mounting level in the adaptor angle can be adjusted in 25 mm increments by up to 100 mm in the depth, leaving sufficient space for baying where patch panels or splicing boxes are used. Attachment is on the inner mounting level of the frame section or a suitable chassis in the enclosure depth.

Material:

- Sheet steel

Colour:

- RAL 7035

Units U	Design	Packs of	Model No.
3	Installation position, centre	2 pc(s).	7246.100

Adaptor, 3 U

Depth offset 100 mm

This adaptor is used to recess 482.6 mm (19") mounting of equipment inside enclosures with 482.6 mm (19") installation in the foremost position, such as server or electronic enclosures. In this way, sufficient space can be gained in front of the mounting equipment to integrate patch panels or switches, whilst at the same time exploiting the maximum enclosure depth.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Units U	Packs of	Model No.
3	2 pc(s).	7246.400

Blanking panel, 482.6 mm (19")

Tool-free attachment

The blanking panel is used to seal unused areas within the 482.6 mm (19") mounting level. Quick tool-free attachment means that it is easily integrated anywhere, and can also be removed again if necessary. The consistent use of blanking panels ensures targeted air routing in partially populated racks.

Material:

- Plastic
- Fire protection: Self-extinguishing, to UL 94 HB, halogen-free

Colour:

- RAL 9005

Supply includes:

- Blanking panel, 1 U, with integral quick-fastening

Installation height U	Width	Packs of	Model No.

Air baffle plate

for VX IT 482.6 mm (19") mounting angles, standard

Applications:

- To separate the hot/cold zones within an enclosure with aisle containment or when using an LCP system.

Benefits:

- For selectively boosting the energy efficiency of a climate control system
- Vertical brush strip for collision-free shielding with installed rail systems on the outer mounting level

Material:

- Sheet steel
- Blanking panel: Plastic, UL 94-HB, halogen-free
- Brush strip: Plastic, UL 94-HB

Surface finish:

- Spray-finished

Colour:

- RAL 9005

Supply includes:

- 2 vertical trim panels
- 2 horizontal trim panels
- 4 brush strips
- 4 cellular PU foam pieces
- Assembly parts

Assembly instruction:

- The vertical trim panels with brush strip may be fitted on both the front and rear 482.6 mm (19") mounting angles for partitioning.
- The horizontal trim panels with brush strips can only be mounted on the front 482.6 mm (19") mounting angles.
- 482.6 mm (19") mounting cut-outs integrated within the partitioning areas may optionally be sealed with the supplied blanking panels, or used to install additional components or for cable routing. Please see the product-specific scope of supply.

Accessories:

482.6 mm (19") air duct

for horizontal air routing

Air duct, passive, for cold air supply to 482.6 mm (19") IT equipment installed at the rear of server racks; air is drawn in from the front.

Benefits:

- For superior air infeed to the rear 482.6 mm (19") components
- Integral brush strip for cable entry of 482.6 mm (19") IT equipment
- Supports front-to-back air routing
- Depth-variable

Material:

- Sheet steel, spray-finished
- Brush strip: Plastic, UL 94-HB

Colour:

- RAL 9005

Width mm	Height U	Depth mm	Packs of	Model No.
482.6	1	223 - 356	1 pc(s).	3301.391

482.6 mm (19") installation system

482.6 mm (19") installation

Air duct

for side air routing

Air duct, passive, for cold air intake to 482.6 mm (19") IT equipment with side air inlet. Suitable for use in conjunction with all-round partitioning around the mounting level via air baffle plates and targeted management of the airflow through the air duct.

Benefits:

- For superior air infeed to the rear 482.6 mm (19") equipment with side air routing
- Integral membrane cover allows cable entry to the rear
- Depth-variable

Installation options:

- for 482.6 mm (19") mounting angles, standard

Material:

- Sheet steel

Surface finish:

- Spray-finished

Colour:

- RAL 9005

Supply includes:

- Air duct
- Adaptor for attaching to 482.6 mm (19") mounting angles
- Magnetic strip to cover the remaining vertical openings in the air baffle plate

Height U	Depth mm	For enclosure width mm	Packs of	Model No.
2	275 - 418	800	1 pc(s).	3301.392

Also required:

- Air baffle plate, see page 1094

Assembly instruction:

- Only suitable for fitting on the front 482.6 mm (19") installation level
- Can only be mounted in the area of the vertical 19" openings of the air baffle plate

Brush strip, vertical

for VX IT

Within the network distributor, this serves as a flexible infill panel which stylishly conceals the cable management area to the side of the 482.6 mm (19") mounting level. The brush strip facilitates convenient cable routing from the side and rear distributor area to the front connection level. The clearance required in front of the mounting level is at least 75 mm. The brush strip is mounted at the side on the vertical frame section, on horizontal or vertical punched sections.

Material:

- Aluminium section, natural anodised
- Brush strip: Plastic, UL 94-HB

Length mm	Bristle length mm	For enclosure height mm	Packs of	Model No.
950	95	2000	4 pc(s).	7827.544

Assembly instruction:

- The brush strip will need to be shortened when mounting on 482.6 mm (19") mounting angles.

482.6 mm (19") installation system

482.6 mm (19") installation

Mounting panel, 482.6 mm (19")

For fast integration of smaller mounting units within the 482.6 mm (19") level, such as potential equalisation rails, distributor boxes, small electrical components etc. Simple screw-fastening of the components to the integral 25 mm system punchings.

Material:

- Sheet steel

Also required:

- 482.6 mm (19") fastener, 1 U, see page 1097
- Multi-tooth screws, see page 1098

Accessories:

- 482.6 mm (19") fastener, 1 U, see page 1097

Support

for small appliances

For secure attachment of non-482.6 mm (19")-conforming small appliances such as modems, power packs, routers etc. Angular support for mounting in the free space at the side between the 482.6 mm (19") level and the side panel on mounting angles or punched sections. Attachment of the components and connection cables can be achieved quickly and easily using nylon tape or cable ties. Also suitable for cable routing in the enclosure depth.

Height mm	Width mm	Depth mm	Packs of	Model No.
150	350	97	1 pc(s).	7246.500

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

482.6 mm (19") fastener, 1 U

with contact

For simple screw connection of installation components within the 482.6 mm (19") mounting level. Simply slide onto the mounting angle from the inside and lock home.

Benefits:

- Fast positioning and installation instead of using individual cage nuts
- Integral contacting for potential equalisation
- Preconfigured 1 U support with 3 cage nuts, including centre attachment to standard EIA 310
- Supports multiple dismantling and reuse

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Thread	Packs of	Model No.
M5	24 pc(s).	2090.000

Note:

- All enclosures in the Rittal range have already been tested within their tolerances for the use of 482.6 mm (19") fasteners. Suitability for use in enclosures from other manufacturers cannot be guaranteed.

Also required:

- Multi-tooth screws, see page 1098

482.6 mm (19") installation system

482.6 mm (19") installation

Captive nuts

For the attachment of rack-mounted electronic equipment, 482.6 mm (19") installed equipment and blanking plates to mounting angles, 482.6 mm (19"). For use with metal thickness from 0.8 – 2.5 mm. Optionally with or without contact of the installed equipment to the 482.6 mm (19") section/enclosure.

Thread	Design	For metal thickness mm	Packs of	Model No.
M5	without contact	0.8 - 2.5	50 pc(s).	2092.500
M5	with contact	0.8 - 2.5	50 pc(s).	2094.500
M6	without contact	0.8 - 2.5	50 pc(s).	2092.200
M6	with contact	0.8 - 2.5	50 pc(s).	2094.200

Possible alternative:

- 482.6 mm (19") fastener, 1 U, see page 1097

Assembly screws

For electronic equipment, 482.6 mm (19") installed components and blanking plates.

Supply includes:

- Plastic washers

Thread	Thread length mm	Design	Packs of	Model No.

Assembly instruction:

- Max. tightening torque 3 Nm

Front-mounting cage nut, 482.6 mm (19")

The cage nut consists of an expanding nut which is simply inserted into the square attachment hole at the front and then secured with the assembly screw. When tightening the screw, the cage expands and thus secures the required components. Clamping range from 1.2 – 4.5 mm. Multi-tooth screw head, bit size T 30.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Pan-head screws
- Expanding nuts
- Plastic washers

M6	10	Phillips-head screw	50 pc(s).	7000.990

Fibre-optic splicing box, depth-variable

The 482.6 mm (19") splicing box is designed to accommodate splicing cassettes and can be installed in any network distributor with 482.6 mm (19") accommodation and used as a fibre-optic termination or distributor. The variable cassette fixture permits twist-proof installation of all standard splicing cassettes. The rear section of the splicing box is completely open for cable entry; a rubber cable clamp strip provides protection against dust. The fibre-optic cables can be secured with cable ties or cable clamps. The splicing box is infinitely depth-adjustable up to 100 mm within the 482.6 mm (19") flanges. In addition, the splicing box may be fully withdrawn from the 482.6 mm (19") flanges. Two strain relief clips and cable routing clips for the fibre stock provide a solution to suit any fibre-optic wiring system.

Material:

- Sheet steel

Colour:

- RAL 7035

Supply includes:

- Splicing box
- Cable routing clips
- Cassette cover
- Mounting accessories for patch panel

Note:

- Supplied without patch panels and splicing cassettes

Units U	Maximum no. of splicing cassettes	Installation depth mm	Packs of	Model No.
1	2	302	1 pc(s).	7241.005

Fibre-optic splicing box with telescopic pull-out

lockable

The 482.6 mm (19") splicing box is designed to accommodate splicing cassettes and can be installed in any network distributor with 482.6 mm (19") accommodation and used as a fibre-optic termination or distributor. The rear section of the splicing box is completely open for cable entry; a rubber cable clamp strip provides protection against dust. The fibre-optic cables can be secured with cable ties or cable clamps; two strain relief clips and cable routing clips for the fibre stock provide a solution to suit any fibre-optic wiring system.

Benefits:

- The telescopic pull-out provides optimum access to the splicing cassettes and cable clamp
- The variable cassette fixture permits twist-proof installation of all standard splicing cassettes
- The security lock fitted at the front protects against unauthorised access

Material:

- Sheet steel

Colour:

- RAL 7035

Supply includes:

- Splicing box
- Cable routing clips
- Security lock
- Cassette cover
- Mounting accessories for patch panel

Note:

- Supplied without patch panels and splicing cassettes

482.6 mm (19") installation system

LSA connection system

Support unit, 3 U

for LSA-Plus strips, max. 150 paired wires

To accommodate a maximum of 15 LSA-Plus strips (each with 10 paired wires). 3 x 5 LSA-Plus connection strips 2/10, series 2, may be installed horizontally. Strip length 124 mm, height pitch pattern 22.5 mm. The support unit may be integrated in all 482.6 mm (19") mounting levels. The mounting level is recessed 75 mm behind the 482.6 mm (19") flanges. Integral shunting rings enable tidy routing and distribution of the telecommunication cables.

Material:

- Stainless steel

Supply includes:

- Support unit, 8 shunting rings

Units U	Model No.
3	7050.100

Accommodation system, 2 U

for LSA installation kit

To accommodate LSA support systems within the 482.6 mm (19") mounting level.

Material:

- Sheet steel

Surface finish:

- Spray-finished

Colour:

- RAL 7035

Supply includes:

- Assembly parts

Units U	Depth mm	Packs of	Model No.
2	98.5	2 pc(s).	7050.035

Handle set

for Comfort Panel

For external mounting on corner pieces, also suitable for retro-fitting.

Material:

- Handle tube: Aluminium
- Handle holder: Die-cast zinc
- Covers: Polyamide

Surface finish:

- Handle tube: Natural anodised
- Handle holder: Powder-coated

Colour:

- Handle holder: RAL 7024
- Covers: Similar to RAL 7024

Supply includes:

- Handle tube, Ø 20 mm
- 2 handle holders
- 2 covers
- Assembly parts

For horizontal mounting

With front panel width	Packs of	Model No.
482.6 mm (19")	1 pc(s).	6375.010

Note:

- Shorter heights and widths can be achieved by cutting the handle tube to length
- For enclosures with 74 mm installation depth, cannot be mounted on the same side as the support arm connection

Accessories:

- Clipboard, see page 1106
- Display board, see page 1106

Handle set

for Optipanel

For external mounting on corner pieces, also suitable for retro-fitting.

Material:

- Handle tube: Aluminium
- Handle holder: Die-cast zinc
- Covers: Polyamide

Surface finish:

- Handle tube: Natural anodised
- Handle holder: Powder-coated

Colour:

- Handle holder: RAL 7035
- Covers: RAL 7024

Supply includes:

- Handle tube, Ø 25 mm
- 2 handle holders
- 2 covers
- Assembly parts

For horizontal mounting

With front panel width	Packs of	Model No.
482.6 mm (19")	1 pc(s).	6385.010

Note:

- Shorter heights and widths can be achieved by cutting the handle tube to length
- For enclosures with 100 mm installation depth, cannot be mounted on the same side as the support arm connection

Accessories:

- Clipboard, see page 1106
- Display board, see page 1106

Handles

Handle set

For vertical and horizontal mounting on all surfaces.

Overall length: 420 mm

Material:

- Handle tube: Aluminium
- Tube holder: Die-cast zinc

Surface finish:

- Handle tube: Natural anodised

Colour:

- Tube holder: RAL 7035

Supply includes:

- 4 tube holders
- 2 handle tubes

Packs of	Model No.
1 pc(s).	2389.000

Accessories:

- Clipboard, see page 1106
- Display board, see page 1106

TP aluminium strip

For retrofitting externally on:

- TP three-part/two-part
- TP one-piece console
- May be mounted on all enclosures/covers with 20 mm fold height (max. metal thickness 2 mm)

Length: 1750 mm (easily cut to length for other dimensions)

Sufficient for desk sections and consoles:

- 3 x width 600 mm
- 2 x width 800 mm
- 1 x width 1000 mm + 1 x width 600 mm
- 1 x width 1200 mm
- 1 x width 1600 mm

Length mm	Model No.
1750	6731.120

Material:

- Aluminium strip: Extruded aluminium section
- Cover caps: Plastic

Surface finish:

- Aluminium strip: Natural anodised

Colour:

- Cover caps: RAL 7035

Supply includes:

- 1 aluminium section
- 6 plastic cover caps
- Drilling template
- Assembly parts

Handles

For horizontal or vertical attachment to the enclosure panel of:

- Comfort Panel
- Optipanel
- Other enclosures or
- Surfaces

Mounting holes and surfaces without fins are required for assembly purposes.

For the Comfort Panel version with fins, selectable via configurators at www.rittal.com/configurators, corresponding milling work may be carried out. To this end, please specify "Prepared for handle set 6107.XXX" for the command panel.

Material:

- Handle holder: Die-cast zinc
- Cover bungs: Plastic
- Handle tube: Aluminium

Surface finish:

- Handle tube: Powder-coated

Colour:

- Handle holder: RAL 7035
- Cover bungs: Similar to RAL 7035
- Handle tube: Similar to RAL 9006

Corner handle

Supply includes:

- 4 handle holders
- 2 handle tubes
- Assembly parts

Mounting on enclosure corner

Packs of	Model No.
2 pc(s).	6107.000

External mounting on straight surface (90° rotation of handle holder)

U handle

Supply includes:

- 2 handle holders
- 1 handle tube
- Assembly parts

For front panel size	Packs of	Model No.
≥ 7 U	1 pc(s).	6107.100
482.6 mm (19")	1 pc(s).	6107.200

Accessories:

Mounting cut-out

Keyboards, supports and drawers

Built-in keyboard 482.6 mm (19")/4 U

with integral touchpad

The integral touchpad eliminates the need to install an additional, correct protection category mouse, which in turn reduces cabling. The short stroke keys are easily identified by edge embossing, less force is required to operate them, and they have a good tactile action

Benefits:

- The separate number pad enables the parameters to be entered quickly
- Sealed, wipeable surface finish
- High level of mechanical and chemical resistance as per DIN 42 115.

Technical specifications:

- Number of keys: 105
- Front panel dimensions: 482.6 x 177.0 mm (19" x 4 U)
- Keyboard depth: 30 mm
- Installation depth: 27 mm
- 12 M5 x 20 threaded bolts at the rear
- Actuation travel/force: 0.3 mm/2.6 N
- Service life: 3 million switching cycles
- Operating temperature: -40 °C...+90 °C
- Touchpad resolution, capacitive: 40 pixels/mm
- Interface: USB

Material:

- Front panel: Aluminium

Protection category IP to IEC 60 529:

- IP 65 (at the front)

Supply includes:

- USB connection cable, length 1.8 m
- Seal
- Drilling template
- Assembly parts for surfaces

Keyboard layout	Packs of	Model No.
German	1 pc(s).	6446.030

! Also required:

- Mounting kit 6053.800 (when installing in Comfort Panel), see page 1108
- Mounting kit 6053.500 (when installing in Optipanel), see page 1108

1 Support surface

Fold-out tray

for keyboard and mouse

For installation in

- 600 and 800 mm wide doors
- 482.6 mm (19") swing frames and enclosures

Standard double-bit lock insert may be exchanged for 41 mm lock inserts, type C, see page 941

Material:

- Flap: Sheet steel
- Side parts: Cast aluminium
- Tray: Extruded aluminium section
- Double-bit lock insert: Stainless steel

Surface finish:

- Flap, side parts: Textured paint
- Tray: Natural anodised

Colour:

- Flap, side parts: RAL 7035

Protection category IP to IEC 60 529:

- IP 55

Protection category NEMA:

- NEMA 12

+ Accessories:

- Mousepad support, pull-out, see page 1112

Mounting cut-out

1 Support surface

For door width mm	External dimensions W x H x D mm	Installation depth mm	Max. keyboard dimensions W x H x D mm	Model No.

¹⁾ Maximum keyboard size with holder for mouse

Keyboards, supports and drawers

Support for mousepad, pull-out with mouse holder

For screw-fastening into the fold-out tray 2379.600/2379.800, see page 1111. To fit all standard mousepads up to 250 x 205 mm.

Colour:

- RAL 7035

Supply includes:

- Assembly parts

Packs of	Model No.
1 pc(s).	2379.900

Utility bar, vertically hinged

To support standard keyboards during programming and servicing work. Mounting distance of utility bars for problem-free insertion: at least 300 mm. Depth adequate for keyboards up to max. 210 mm.

For mounting beneath

- Comfort Panel¹⁾
- Optipanel²⁾
- Any sufficiently large surface, such as:
 - Worktops IW
 - Command panel AX with handle strips

on

- Vertical surfaces (doors/side panels)

Min. front panel width

¹⁾ 385 mm

²⁾ 405 mm

After use, the utility bars fit securely and neatly under the mounting surface, thus giving the operator more space to move around.

Packs of	Model No.
2 pc(s).	6514.200

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Keyboards, supports and drawers

Drawer 482.6 mm (19")/2 U for keyboard and mouse

For installation in:

- Any sufficiently large surface (e.g. door, side panel)
- 482.6 mm (19") system punchings
- Front panels
- Directly in a suitably sized Comfort Panel and Optipanel, selectable via configurators at www.rittal.com/configurators

Suitable for

- Accommodation of keyboards up to max. 390 x 32 x 139 mm
- Support of standard commercially-available mouse or trackball

Version:

- Drawer: With stay
- Front panel: With security lock (lock no. 12321) and handle strip

Width mm	U	Depth mm	Model No.
482.6 (19")	2	150	6002.000

Material:

- Drawer housing: Sheet steel
- Drawer and front panel: Aluminium

Surface finish:

- Drawer housing: Zinc-plated
- Drawer and front panel: Natural anodised

Protection category IP to IEC 60 529:

- IP 54

Supply includes:

- Assembly parts for installation in Comfort Panel/Optipanel command panels

Mounting cut-out
(for installation in surfaces)

Keyboards, supports and drawers

Drawer for keyboard and mouse

with mousepad support

For installation in:

- Any sufficiently large surface (e.g. door, side panel)
- Front panels

Suitable for accommodating

- Keyboards up to a maximum of 460 x 42 x 170 mm
- Standard mouse and mousepad

Version:

- Drawer and housing: With side pull-out mousepad support and tray
- Front panel: With 3 mm double-bit lock insert, folds out as handrest

Packs of	Model No.
1 pc(s).	6003.000

Material:

- Drawer and housing: Sheet steel
- Front panel: Aluminium

Surface finish:

- Drawer and housing: Spray-finished
- Front panel: Natural anodised

Protection category IP to IEC 60 529:

- IP 54

Supply includes:

- Assembly parts

Accessories:

- Standard double-bit lock insert may be exchanged for 27 mm lock inserts, type A, see page 941

Keyboard drawer 1 U

for two 482.6 mm (19") mounting levels

This space-saving keyboard drawer is screw-fastened to the front and rear 482.6 mm (19") mounting angles. The installation spacing is infinitely adjustable from 460 – 750 mm. It is fully extendible, lockable, with strain relief and hinged cable support. The drawer is suitable for accommodating 482.6 mm (19") keyboards.

Interior dimensions:

- W x H x D: approx. 420 x 40 x 220 mm

Material:

- Sheet steel

Colour:

- RAL 7035

Supply includes:

- Assembly parts, excluding keyboard

Note:

- Monitor/keyboard unit, 1 U, see page 822

Distance between levels mm	Model No.
460 – 750	7281.200

Keyboards, supports and drawers

Keyboard drawer 2 U

for one 482.6 mm (19") mounting level

For keyboards up to 430 mm wide and 250 mm deep with the front panel folded over.

Height: 2 U

Material:

- Sheet steel with aluminium front

Surface finish:

- Spray-finished

Supply includes:

- Lockable drawer with handles
- Folding front
- Pull-out mousepad
- Mouse support
- Practical cable entry and strain relief

Colour	Packs of	Model No.
RAL 7035	1 pc(s).	7281.035
RAL 9005	1 pc(s).	5302.205

Installation depth: 390 mm

Support for mousepad

for command panels and surfaces

The angle of the mousepad support is individually adjustable. Two holes are needed on the enclosure for attachment purposes.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Weight kg	Packs of	Model No.
1.0	1 pc(s).	2381.000

Accessories:

- Holder for mouse, see page 1116

Keyboard support

for command panels or surfaces

Benefits:

- Adjustable to different keyboard depths via a simple slide function
- Connection to command panels with support arm connection at the top or bottom
- Easily adjustable tilt angle
- Open support at the side prevents dirt from being deposited

Installation options:

- Operating housing AX with handle strips
- Operating housing AX for desktop TFT up to 24"
- External mounting on vertical surfaces and beneath horizontal surfaces

Technical specifications:

- Support surface fully depth adjustable from 128 – 228 mm

Material:

- Sheet steel
- Hand rest: Extruded aluminium section

Surface finish:

- Textured paint
- Handrest: Natural anodised

Colour:

- RAL 7035

Width mm	Weight kg	Packs of	Model No.
430	3.0	1 pc(s).	6321.010

Supply includes:

- Support fully preassembled
- Nylon tape for attaching the keyboard
- Assembly parts

Accessories:

- Mousepad support, vertically hinged, see page 1116

Keyboards, supports and drawers

Mousepad support, vertically hinged

For mounting on the left/right, beneath the keyboard support. Latches home automatically, both when retracted and extended. With mounting holes for holder for mouse 2382.000.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts and mousepad, stuck on with adhesive

Packs of	Model No.
1 pc(s).	2383.020

+ **Accessories:**

- Holder for mouse, see page 1116

Holder for mouse

To fit mousepad support and for secure accommodation of a standard mouse.

Material:

- Sheet steel

Surface finish:

- Zinc-plated

Supply includes:

- Assembly parts

Packs of	Model No.
1 pc(s).	2382.000

Paper removal flap

For installation in surfaces

Facilitates easy removal of pages from the printer without opening the enclosure door. Acrylic glazed flap with magnetic lock.

Paper removal flap	Colour	Packs of	Model No.
A4	RAL 7015	1 pc(s).	6903.200

Base

for tubular door frame

The space-saving alternative to component shelves for accommodating tower PCs (maximum 20 kg). For screw-fastening to the tubular door frame of 600 mm wide enclosures.

Load capacity:

- 20 kg

Material:

- Sheet steel

Surface finish:

- Spray-finished

Colour:

- RAL 7015

Supply includes:

- Retaining strap and assembly parts

Width x height x depth mm	Packs of	Model No.
445 x 159 x 230	1 pc(s).	6902.950

! **Also required:**

- Support strip for direct screw-fastening to the tubular door frame, see page 952

Interface extension with wall connection and built-in RJ45 module

For extending the internal enclosure interfaces – e.g. of industrial PCs and switches – up to the outside of the enclosure. The wall connection only needs the same space as a switch.

Benefits:

- Rapid access for maintenance work
- The protection category of the enclosure is preserved
- The lock nut cuts automatically into the spray-finish or eloxal layer, thereby creating a conductive connection
- Captive protective cap

Material:

- Housing: Brass
- Cover: Aluminium
- Seal: Polyamide

Surface finish:

- Housing: Nickel-plated
- Cover: Natural anodised

Protection category IP to IEC 60 529:

- IP 66/67 (with protective cap closed)

Anti-twist guard

Interface flap

for RC circuit-breakers

According to standard EN 60 204-1, all circuits with a rated current of ≤ 20 A that supply sockets in or on machine enclosures must be fused with a residual-current circuit-breaker with a rated differential current of ≤ 30 mA. Prepared for the installation of standard, 2-pole RCBO circuit-breakers.

Applications:

- As programming interface for controllers
- As maintenance access for networks
- For temporary connection of additional equipment
- For quick connection to existing network structures
- For programming and maintenance of integral components

Version:

- Spring-action terminals max. 2 x 2.5 mm, connection at rear

Benefits:

- Protection against fault currents and overload
- Standard-compliant fuse to EN 60 204
- The RC switch may be reset without opening the enclosure
- Spring mechanism raises the unlocked cover by 30°, ensuring that you do not forget to close the cover

Functions:

- A snap fastener ensures reliable sealing. This may be locked if required.

Material:

- Mounting frame: Plastic PBT (black)
- Plastic flap: Polycarbonate (semi-transparent)

Protection category IP to IEC 60 529:

- IP 65

Supply includes:

- Interface flap, complete, consisting of plastic frame, socket (VDE), RJ45 (jack/jack, Cat 5e) and cut-out for RC circuit-breaker
- Knockout provided for USB A (jack/jack)
- 3 mm double-bit with slot-in rotary knob

Note:

- Interface flap may only be used with fitted RC circuit-breaker

Width mm	Height mm	Required mounting cut-out mm	Installation depth mm	Rated operating voltage V, ~, Hz	Rated current A	Packs of	Model No.

Interfaces

Interface flap, modular

For universal use in all situations where rapid access to interfaces and sockets is needed. The affected enclosure remains closed and is therefore protected from ambient influences and unauthorised access.

Space-saving installation e.g.

- in **small enclosures and compact enclosures** as a programming interface for controllers
- in **IT and industrial distributors** as maintenance access for networks
- in **PC enclosures and console systems** for the temporary connection of additional equipment
- in mobile **industrial workstations** for rapid connection to existing network structures
- in **command panel systems** for programming and maintenance of integral components.

The mounting frame has a flap which snaps into position at various opening angles from 90 to 180°. A snap fastener ensures reliable sealing. This may be locked if required.

Material:

- Mounting frame and metal flap: Die-cast zinc
- Plastic flap: Polycarbonate (semi-transparent)
- Lock: Polycarbonate, RAL 7024

Surface finish:

- Mounting frame and metal flap: Matt nickel-plated

Colour:

- Lock: RAL 7024

Protection category IP to IEC 60 529:

- IP 65 (with sealed flap and proper assembly)

Signal pillars

Signal pillar, 3-way LED

Benefits:

- Complete plug-and-pay solution
- Extremely long service life of the LEDs (max. 100,000 hours, therefore maintenance-free)
- Minimal assembly work and warehousing costs

Technical specifications:

- 3-stage: red, yellow and green
- Operating voltage: 24 V AC/DC
- Electrical connection: Screwless spring terminals
- Lamp: LED
- Transmission angle: 3 x 120°
- Operating temperature: -20 °C...+50 °C
- Flashing function: Controllable via PLC
- Cable entry: Metric screwed cable gland M12 x 1.5 for cable diameter 3.0 – 6.5 mm

Protection category IP to IEC 60 529:

- IP 65

The 3-phase coating procedure

Coating procedure	Technical properties	Technical specifications	
Surface pretreatment	Used as corrosion protection and to improve paint adhesion.	Degreasing, nanoceramic conversion layer	
Anodic dipcoat priming	Even layer formation on all surfaces, edges and in cavities, which produces a high level of corrosion protection even at the assembly stage. The primer is readily overpainted and free from heavy metals, chromate and silicone.	Erichsen cupping test to DIN EN ISO 1520	≥ 4 mm
		Buchholz hardness to DIN EN ISO 2815	≥ 80
		Cross cutting to DIN EN ISO 2409	Gt 0
Stove enamelling			
Textured powder coating	Powder-coating is distinguished by a high level of mechanical resistance, excellent corrosion protection, good resistance to chemicals and temperature, and its facility for decontamination. The powder coating is readily overpainted and is free from heavy metals, chromate, silicone and solvents.	Erichsen cupping test to DIN EN ISO 1520	≥ 3.5 mm
		Buchholz hardness to DIN EN ISO 2815	≥ 85
		Cross cutting to DIN EN ISO 2409	GT 0-1
		Salt spray test to DIN EN ISO 9227 NSS	Test period: 168 hrs
		Condensate test to DIN EN ISO 6270-2 CH	Test period: 500 hrs
		Condensate test to DIN EN ISO 6270-2 AHT	Test period: 20 cycles
Stove enamelling			

The coating is resistant to:

- Mineral oils
- Lubricants
- Machine emulsions
- Alcohol-based solvents (briefly, e.g. during cleaning)
- Weak acids and alkalines

Primer or powder coating suitable for overpainting

After careful cleaning of the surface, the standard coating may be overpainted with

- DD gloss paints
- Single and dual-component gloss paints
- Car repair paints
- Powder paints
- Water-based paints

If in doubt, perform a compatibility test. Always follow the paint manufacturer's instructions. When overpainting, take care not to exceed 180 °C and a baking time of 15 minutes.

Outdoor use of enclosures

In order to guarantee satisfactory long-term function of enclosures in outdoor use, the relevant environmental factors must be taken into account.

These include:

- UV radiation, the corrosive action of air pollution, rain, icing, snow, wind or other factors in special climatic conditions.

Condensation inside the enclosure

Condensation must be prevented by means of appropriate measures, e.g. by venting or heating the enclosure.

Protection category

The enclosure may be exposed to extreme weather conditions during outdoor use.

Long periods of rain, snow, ice, high winds and temperature fluctuations place particularly high demands on the enclosure sealing. The protection category IP X3 as envisaged for external weather conditions in DIN VDE 0100, part 737, point 5.2 is often insufficient to provide permanent protection for electrical equipment.

Protection categories to IEC 60 529 (EN 60 529)

The IP protection category is characterised by 2 numerals.

Example of a protection category, e.g. IP 43:

Code letters	
IP	
First numeral	Second numeral
4	3

Degrees of protection for protection against contact and foreign bodies: First numeral			Degrees of protection for protection against water: Second numeral		
First numeral	Degree of protection		Second numeral	Degree of protection	
	Description	Explanation		Description	Explanation
1	Protected against solid foreign objects with a diameter of 50 mm and greater	The object probe, a sphere 50 mm in diameter, must not penetrate fully. ¹⁾	1	Protected against vertically falling water drops	Vertically falling drops shall have no harmful effects.
2	Protected against solid foreign objects with a diameter of 12.5 mm and greater	The object probe, a sphere 12.5 mm in diameter, must not penetrate fully. ¹⁾ The articulated test finger may penetrate up to its length of 80 mm, but adequate distance from hazardous parts must be adhered to.	2	Protected against vertically falling water drops when the enclosure is tilted up to 15°	Vertically falling drops shall not have any harmful effects when the enclosure is tilted up to 15° on either side of the vertical.
3	Protected against solid foreign objects with a diameter of 2.5 mm and greater	The object probe, a sphere 2.5 mm in diameter, must not penetrate at all. ¹⁾	3	Protected against sprayed water	Water sprayed at an angle of up to 60° on either side of the vertical shall have no harmful effects.
4	Protected against solid foreign objects with a diameter of 1.0 mm and greater	The object probe, a sphere of 1.0 mm in diameter, must not penetrate at all. ¹⁾	4	Protected against splashed water	Water splashed on the enclosure from any direction shall have no harmful effects.
5	Dust-protected	The ingress of dust is not fully prevented, but dust shall not enter to such an extent as to impair satisfactory operation of the device or safety.	5	Protected against water jets	Water directed at the enclosure from any direction in a jet shall have no harmful effects.
6	Dust-tight	No ingress of dust at a partial vacuum of 20 mbar inside the enclosure.	6	Protected against powerful water jets	Water directed at the enclosure from any direction in a powerful jet shall have no harmful effects.
			7	Protected against temporary immersion in water	Water must not ingress to such an extent as to cause harmful effects when the enclosure is temporarily immersed in water under standardised pressure and time conditions.
			8	Protected against continuous immersion in water	Ingress of water in quantities causing harmful effects shall not be possible when the enclosure is continuously immersed under conditions to be agreed between the manufacturer and the user. However, the conditions must be more difficult than for numeral 7.
			9	Protected against high-pressure and high-temperature water jets	Water projected at high pressure and high temperature against the enclosure from any direction shall not have harmful effects.

¹⁾ The full diameter of the object probe must not pass through an opening of the enclosure.

Automatic potential equalisation via the mounting components (while observing DIN EN 62 208)

UL type rating

UL (Underwriters Laboratories) is an independent organisation based in Chicago which safety-tests products for the North American market. A key aspect for enclosures is the protection of individuals from unintentional contact with equipment and the protection of installed equipment from external factors. Protection categories are classified by UL type ratings.

Further information on protection categories may be found on the Internet at: www.rittal.com

UL/NEMA Type	Intended use and description
1	Enclosures for use indoors Protection against the penetration of foreign bodies
3	Enclosures for use indoors and outdoors Protection from rain, hail, dust, icing and the damage caused by icing
3R	Enclosures for use predominantly outdoors Protection from rain, hail, icing and the damage caused by icing
3S	Enclosures for use predominantly outdoors Protection from rain, hail and dust External mechanisms remain usable despite being coated in ice
4	Enclosures for indoor or outdoor use Protection against rain, foreign bodies, splashed water and hosed water and against damage caused by icing on the exterior of the enclosure
4X	Enclosures for indoor or outdoor use Protection against rain, foreign bodies, splashed water and hosed water and against damage caused by icing on the exterior of the enclosure Increased protection from corrosion
12, 12K	Enclosures for use indoors Protection against dust deposits, foreign bodies, oil and non-corrosive dripping refrigerants
13	Enclosures for use predominantly indoors Protection against dust deposits, sprayed water, oil, and non-corrosive refrigerants

The UL/NEMA classifications are not directly comparable with IP protection categories, since both the test conditions and the evaluation of the test results are different

Approvals and permits

Product certifications and approvals are pivotal to the global acceptance of industrial products.

Rittal products meet the highest internationally recognised quality yardsticks. All components are subjected to the most stringent testing in accordance with international standards and regulations.

The consistently high product quality is ensured by a comprehensive quality management system. Regular production inspections by external test institutes also guarantee compliance with global standards

A precise allocation of products to marks of conformity can be found on our product and service pages on the Internet: www.rittal.com

Earthing

The PE conductor connection must be designed by the manufacturer of switchgear in accordance with the relevant VDE and/or local regulations.

The enclosure packs generally contain earthing materials (screws, nuts, washers). The assembly instructions contain recommendations on installing a PE conductor.

The pre-assembled earth straps, available as accessories in various cross-sections and lengths, are intended to make assembly of a PE conductor easier.

Stainless steel, rust-proof

Rust-proof stainless steel is a collective term for more than 120 different types of steel, all of which are alloyed with at least 10.5% chromium and are resistant to corrosion without any protective coating. They form an invisible passive layer under the influence of oxygen.

Short name	x 5 CrNi 1810	x 2 CrNiMo 17-12-2
Material number	1.4301	1.4404
Principal property	easy to weld corrosion-resistant malleable	weldable highly corrosion-resistant
Typical uses	Foodstuffs industry Dairies	Chemical industry Construction sector Paper industry
Chemical composition/mass content in %		
Carbon C	< 0.07	< 0.07
Chromium Cr	17.5/19.5	16.5/18.5
Molybdenum Mo	–	2.0/2.5
Nickel Ni	8.0/10.5	10.0/13.0

Benefits

- Highly resistant to corrosion and chemical substances
- Outstanding hygiene properties and minimal cleaning effort, thanks to the smooth surface
- No need to treat the surface with enamel or paint
- Environmentally friendly, as 100% recyclable
- Good material properties (tensile strength, expansion, abrasion)

Rittal – The System.

Competent. Globally present. A one-stop service.

Use our service to minimise downtimes, boost efficiency and benefit from the following advantages:

- Around 1,000 service specialists worldwide
- Highly qualified service technicians and infrastructure specialists
- Solid expert knowledge with manufacturer expertise
- Ready availability of original spare parts
- Maximum system availability
- Short response times
- Professional lifecycle management
- 24-hour availability

Whenever, wherever and however you need us, we are always on hand to assist you!

Installation and commissioning

Correctly installed equipment is less susceptible to errors and operates more efficiently. You can be sure that the manufacturer's expertise is applied to the installation and commissioning of your Rittal components.

The benefits for you:

- Reliability from the outset
- Less susceptible to errors
- More efficient operation of your systems

Maintenance and inspection

The remaining service life of the installed components can be significantly extended with professional maintenance by the Rittal service team. This ensures efficient operation and associated cost savings. The additional inspection and leak test by certified service engineers guarantees compliance with statutory regulations, such as the F-gas regulation (EU) No. 517/2014, which in turn ensures the efficient operation of your equipment.

Visual inspection and assessment of the general condition of your equipment

Measurement and documentation of system parameters

Basic cleaning of the equipment

Inspection of fans, air routing and system parameters

The benefits for you:

- Downtime is prevented, to minimise your risks
- Improved value retention for your systems
- The remaining service life of installed components is extended
- Efficiency is increased by up to 30%, with associated cost savings

International service – What we offer

Repairs and troubleshooting

Rittal service engineers are continuously trained to provide top-quality, on-site troubleshooting. The result? 90% of Rittal's service deployments are resolved with just one on-site visit and include a detailed service report with further recommendations. Alternatively, you may opt to send your equipment to our factory for repair.

The benefits for you:

- Fast, professional troubleshooting
- Minimised downtimes
- Reliable service performance

Spare parts – any time, anywhere

Global availability of individual parts adds value

Professional spare parts management ensures maximum availability of spares, because optimum stocking ensures that repairs can be carried out without delay.

Original spare parts

Express shipment with 24h delivery promise (working days only)

Customer-specific stocking of spare parts, either at Rittal or at your premises

Our Global Distribution Centre has over 2,000 different standard spare parts in stock

Local availability, with stocks held by Rittal subsidiaries worldwide

Predictive replacement of worn parts thanks to professional life cycle management

Life cycle management

Knowing the age and condition of installed equipment enables predictive replacement of worn parts. This reduces downtimes and also allows you to plan costs. Here, too, you can rely on the support of Rittal's after sales service team.

International service – What we offer

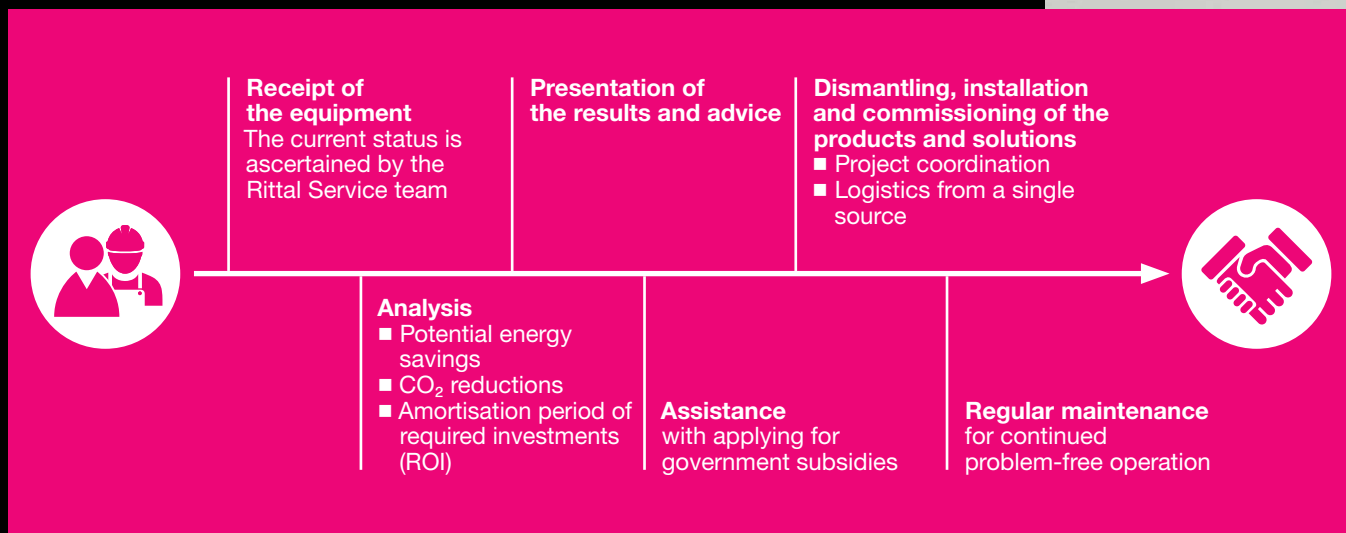

Efficiency and service check

Regular checks of your Rittal components will ensure maximum performance of all cooling units while keeping consumption levels to a minimum.

During the efficiency check, Rittal will analyse your installed equipment for current performance and energy costs. Based on the findings, Rittal will advise you on potential savings and efficiency enhancements and will calculate the amortisation periods of any investments that may be required. The service check is more comprehensive than the efficiency check and includes an analysis of the current status of your equipment, highlighting any maintenance requirements, and incorporating this into your investment calculation.

The benefits for you:

- Performance analysis of installed equipment
- Presentation of energy costs and potential savings
- Reduction of unscheduled production stoppages and associated costs
- Specific energy-saving approaches
- The value of your equipment is preserved

Note:

Please contact your local ASM or customer service team to discuss the scope and availability of this service in your region.

Rittal Manufacturer's Service – Service for industrial applications

Service agreements – Individual and combinable

Rittal service agreements allow you to tailor the scope of services to your specific requirements and combine various modules – with fixed, transparent terms and conditions.

The benefits for you:

- Maximum uptime
- Plannable costs
- Guaranteed response times
- Warranty extension
- Individual stocking of spares

		Scope of services included in standard agreement		Optional modules	
Maintenance 		1 x per year		2 x per year	
Availability 		Working days (Mon – Fri) 7 am – 5 pm	Working days (Mon – Fri) 24 hours	Every day of the week (Mon – Sun) 24 hours	
On-site service 		Next working day (Mon–Fri) 7 am–5 pm	Next week day (Mon – Sat) 7 am–5 pm	Within 8 hours	Within 4 hours
Warranty extension 		No contract commitment, separate agreement	Contract extension +12/+24/+36 months	Preventive replacement of worn parts +12/+24/+36 months	
Stocking of spare parts 		At Rittal	At Rittal and delivered within 24 hours	Individually agreed	
Inspection 		1 x per year	4 x per year	12 x per year	

Note:

Please contact your local ASM or customer service team to discuss the scope and availability of this service in your region.

Rittal Manufacturer's Service – Service agreements for industrial applications

Rittal Automation Systems – Professional service for your machines

No-one knows your machines better than the manufacturer.

Our Manufacturer's Service specialists safeguard the availability and performance of your machines. Regular maintenance of your machines ensures a long service life and a high degree of fail-safe operation.

With our service, you can benefit from consistently high quality and rely on your machines operating exactly as expected.

Service agreements – Individual and combinable

Rittal service agreements allow you to tailor the scope of services to your specific requirements and combine various modules – with fixed, transparent terms and conditions.

		Scope of services included in standard agreement	Optional modules
Maintenance 		1 x per year	2 x per year
Availability 		Working days (Mon – Fri) 7 am – 5 pm	Every day of the week (Mon – Sun) 24 hours
On-site service 		Within 72 hours, incl. reduced hourly rate	Within 48 hours, incl. reduced hourly rate
Warranty of the machine 		No warranty extension	+ 12 months
Individual stocking of spares 		On request	
DXF remote training 		One training session	
Software update 		As necessary (but excluding hardware/PC or operating system replacement)	

Note:

Please contact your local ASM or customer service team to discuss the scope and availability of this service in your region.

Rittal Manufacturer's Service – Service for machines

Maintenance and troubleshooting

Modern IT systems are the lifeblood of many companies. As data volumes grow ever larger and more complex, today it is more important than ever before to rely on a functioning digital infrastructure which is always available. Detailed expert knowledge, short response times and exceptional support quality are basic requirements for every Rittal service. Put your trust in our proven abilities.

IT Health Check

Exceptional performance and early risk detection by servicing your IT infrastructure.

The IT Health Check provides an insight into the maintenance status of your cooling systems and any leaks, as well as energy efficiency and sustainability, the capacity utilisation and scalability of your systems, any obsolescence risks, alarm chains, redundancy circuits, and compliance with statutory requirements, guidelines and standards.

As the outcome of the IT Health Check you will receive an assessment report containing individual optimisation and organisation options including identified cost drivers, potential savings and risk minimisation associated with the optional, predictive replacement of wearing parts.

The benefits for you:

- Individual optimisation and modernisation options
- A list of identified cost drivers and potential savings
- Risk management with predictive replacement of wearing parts

Note:

Please contact your local ASM or customer service team to discuss the scope and availability of this service in your region.

Smart Service

Increased machine availability and optimised service processes for Rittal components in the Blue e+ generation.

Rittal Smart Service visualises the operational performance of Blue e+ cooling units and transfers data in real time for prompt identification of maintenance requirements and critical errors. The automated processing of device data allows fast, efficient troubleshooting.

In the event of a malfunction, you receive situation-specific recommendations and can generate energy efficiency reports via the Rittal Smart Service portal.

Benefit from a combination of event-related recommendations and manufacturer expertise, remote diagnosis and advice from Rittal service experts as the basis for your predictive maintenance.

The advantages to you:

- Asset management and control of maintenance measures
- Visualisation of device data via Web portal including monitoring (condition monitoring)
- Access to operating and temperature characteristics
- Energy efficiency reports and efficiency analyses
- Situational recommendations based on manufacturer expertise

How you benefit:

- Enhanced machine availability
- Increased service efficiency and lower servicing costs, thanks to requirement-driven maintenance
- Fast problem analysis and troubleshooting with remote diagnosis

Note:

Please contact your local ASM or customer service team to discuss the scope and availability of this service in your region.

Smart
Service**

Smart Service – Bespoke and demand-driven

You can opt into our Smart Service at any time and flexibly adapt it to suit your requirements. In this way, we tailor the appropriate service level and range of services to each individual customer.

Rittal Smart Service offers various different service levels, which build on one another to become ever more comprehensive.

Note:

Please contact your local ASM or customer service team to discuss the scope and availability of this service in your region.

Rittal Service

Please contact us with any questions you may have relating to our service portfolio; we will be happy to issue quotes and provide practical assistance.

www.rittal.com/service-worldwide

Quality management is a must.
Quality philosophy is an attitude.

“Rittal – The System.” stands for consistent quality management and on-going refinements to products, services and internal processes.

Rittal quality management ensures that regulations and standards are observed, and individual customer requirements are met. In addition to this, we also define our exacting product quality demands in supplementary Rittal standards. The consistent Rittal quality philosophy guarantees perpetually high standards and ensures the global usability of all products with countless international approvals and licences.

Alongside product quality, we also focus on process and service quality.

All internal processes are continuously refined by quality control groups, and reviewed during in-house audits. Each year, our improvements and high standards are verified by countless successful external system and customer audits.

Rittal offers support from day one

- Project planning of technical specifications
- Prototype assembly, testing and simulations
- Manufacturing and assembly
- Warehousing service and on-time delivery
- Your own personal point of contact throughout the entire project

Accredited Rittal test laboratory

- Simulation of climatic conditions
- Dynamic and static load tests
- 3D measurement
- Testing of IP/IK protection categories and NEMA type ratings
- Corrosion testing
- Electrical safety and function tests
- Software tests
- Performance testing of chillers, cooling units and heat exchangers
- Material testing

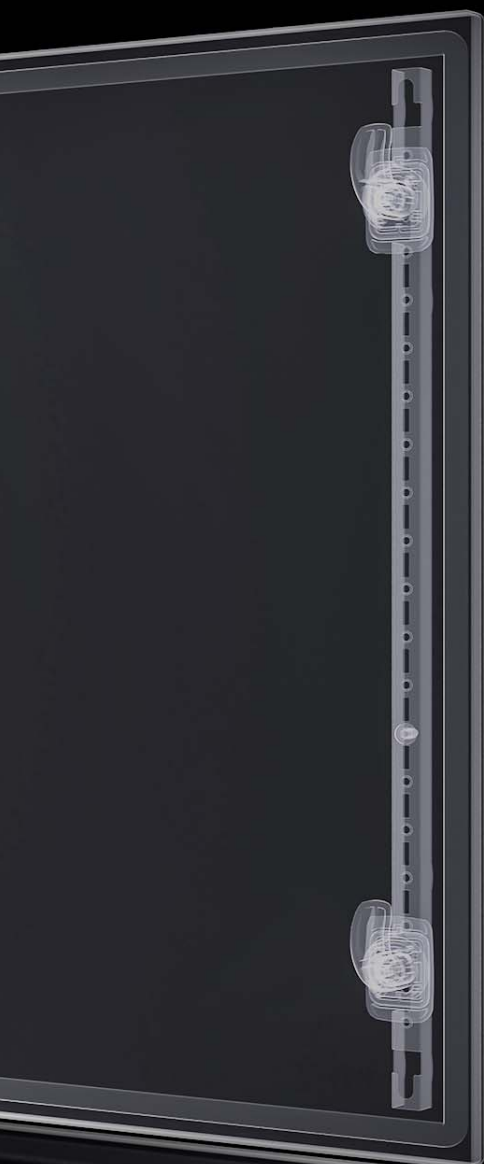

Quality management

Project handling with Rittal and Eplan tools

Software and services spanning the entire value chain

Boost your efficiency everywhere – with individual software and service modules from Rittal and Eplan

From small businesses and medium-sized companies to fully automated large-volume producers, our comprehensive portfolio provides every rack and controlgear manufacturer with a suitable selection of software and service modules tailored precisely to their individual production process. Optimum compatibility between all tools, even those that are not currently required or used, ensures maximum continuity and efficiency in both manual, semi-automated and fully automated production.

The benefits for you:

- Efficient software tools
- Plausibility-checked product and accessory configurations
- Plan cut-outs and drilled holes
- Generate tested manufacturing documents for the configured racks
- Transfer data into Eplan tools
- Enquire about configured products or order directly online
- Transfer data into Rittal machining centres
- Service modules tailored to individual requirements

Optimum value creation for all target groups

Tools that guide users simply and efficiently to their individual product configuration provide the starting-point for successful project planning. These are not complex engineering solutions but user-friendly software tools which in just a few minutes can help you to find the right product or simply redefine the parameters for a cooling unit.

A

Accessories			
– Data Rack	1079		
– for assembly frame	608 – 610		
– for LCP DX	785		
– for Wiring Station	621 – 628		
– Hole punches	602, 603		
– Hole punching tools	603		
– Hygienic Design	223 – 225		
– OCP	871 – 873		
Accessories – busbar machining			
– Electro-hydraulic pump	644		
– Hydraulic cylinder	645		
– Hydraulic hose	645		
– Ride-up roller	645		
Accessories for IT cooling			
– Connection hose	786		
– Fan module	787		
– Rear adaptor for LCP Inline CW	786		
Accessories for LCP CW/DX			
– Condensate pump	786		
– Shielding, vertical	786		
– Touchscreen display, colour	785		
Accommodation system, 2 U			
– for LSA installation kit	1102		
Acoustic component			
– for signal pillar, modular	1127		
Acrylic glazed cover	930		
Adaptors			
– 3 U	1090		
– 3-pole (185 mm)	372, 373		
– Blue e IoT adaptor	555		
– Circuit-breaker, 3-pole	314		
– Circuit-breaker, 4-pole	317		
– for air duct system	540		
– for connector cut-outs	908		
– for LCP Inline CW	786		
– for NH disconnectors, size 000	295		
– for spindle hoist	609		
– for support arm system	208		
– for tilt coupler	210		
– for twin castors and levelling feet	893		
– Metric to 482.6 mm (19")	1091		
– OM	307, 310, 312		
– RiLine Compact	286, 287, 289		
Adaptor bracket			
– for WS 540	624		
Adaptor kit, 3 U	1090		
Adaptor pieces, 482.6 mm (19")	1081		
Adaptor power pack for LED system light	1026		
Adaptor section, 482.6 mm (19")	1080		
Adhesive measurement strip, 482.6 mm (19")	1085		
Air baffle plates			
– for VX IT 482.6 mm (19") mounting angles, dynamic	1095		
– for VX IT 482.6 mm (19") mounting angles, standard	1094		
Air circuit-breaker support bar	412		
Air diverter	542		
Air duct	1096		
– for 482.6 mm (19") mounting level	1095		
– for wall-mounted cooling unit Blue e+ IT	784		
Air duct adaptor	540		
Air duct system			
– for air/water heat exchanger, roof-mounted	540		
– for roof-mounted cooling units	540		
Air routing			
– horizontal air routing	1095		
– side air routing	1096		
Air/air heat exchangers			
– Roof-mounted	470		
– TopTherm	469		
Air/water heat exchangers			
– Baying enclosure system VX25	518		
– Hygienic Design	515		
– Roof-mounted	516		
– Wall-mounted	510 – 514		
Aisle containment	788		
Allocation of lock systems	933 – 936		
Alternate frame, magnetic	957		
Aluminium strip TP	163, 1104		
Aluminium/sheet steel door, vented			
– for VX IT	922		
Angle bracket	405		
– for combination rail	1063		
– PE/PEN busbar system	1038		
Angle piece	1001		
Angular baying bracket	913		
Arcing chamber			
– for NH fuse-switch disconnectors	357		
Assembly components	1001		
Assembly frame			
– Mounting device	607		
Assembly parts			
– for earth straps	1033		
Assembly screws	1098		
Assembly tool			
– for cable gland HD	1057		
Attachment			
– Pole clamp, AX, AX IT	968		
Automatic door opener	817		
AX IT			
– Wall-mounted enclosures IT	719		
Base/plinth, complete			
– Sheet steel, for TP universal console	890		
– Stainless steel, for one-piece console	890		
Base/plinth, static			
– for PC, IW	890		
Basic enclosure with glazed door VX25	128		
Basic enclosures, outdoor	268		
Basic modules			
– CMC III Processing Unit	803		
– CMC III Processing Unit Compact	802		
Baying block, internal	912		
Baying bracket E-Cu	1039		
Baying bracket, internal	912		
Baying connector			
– for Data Rack	1079		
– for TS IT	913, 914		
– for VX	914		
– for VX IT	914		
Baying connector, external	912, 914		
Baying cover			
– for base/plinth VX	883		
Baying enclosure system VX25			
– Basic enclosure with glazed door	128		
– Distribution enclosure	135		
– Electronic enclosure	130		
– EMC enclosure	136		
– Fuse-switch-disconnector enclosure	134		
– IP 66/NEMA 4	131		
– IP 66/NEMA 4X	246		
– Modular enclosure	132		
– Sheet steel	116		
– Stainless steel	242		
– VX25 Blue e+ integration solution	505		
Baying enclosures			
– VX25, EMC enclosure	136		
Baying kit			
– for AX, KX	916		
– for TE/TE	916		
– VX25 to TS 8	916		
Baying plate			
– Blue e+	556		
Baying seal	914		
Baying system	911		
Bit for cordless screwdrivers	571		
Bit HD			
– Hygienic Design	224		
Bit holder			
– Magnetic	573		
– with handle, magnetic	572		
Bit set			
– with bit holder	572		
Bit set for cordless screwdrivers			
– Industry	572		
Blanking cover			
– for fan-and-filter units / outlet filters	538		
– for Network Cable Organizer	1071		
– Form 2b	409		
– ISV	428		
Blanking panel			
– Tool-free attachment, 482.6 mm (19")	1093		
Blanking panel, 482.6 mm (19")			
– Extension cover	1093		
Blanking plate, 482.6 mm (19")	1092		
Blue e			
– Chillers	526		
Blue e+			
– Chillers	522		
– Display frame	557		
– Electric condensate evaporator	543		
– Roof-mounted cooling units	504, 764		
– VX25 Blue e+ integration solution	505		
– Wall-mounted cooling units	486 – 489, 765		
Blue e+ app	559		
Board			
– RiLine Compact	284		
Bolts			
– for Maxi-PLS	403, 404		

- Bottom-mounted adaptor
 – for enclosure internal thermostat 548
 – for hygrostat 548
- Box
 – for modular outgoing section 411
- Box terminal
 – for NH fuse-switch disconnectors 357
 – for NH slimline switch-disconnectors 387
- Bracket
 – Wall bracket AX 97, 261
- Bracket/spacer 1001
- Brush kit
 – for cable entry 1068
 – for TE 963
 – for VX IT, TE 1068
- Brush strip 1055
 – for cable entry 963
 – Super-airtight 1055
 – Vertical 1096
- Built-in keyboard 19"¼ U 1111
- Bus enclosures KX
 – Sheet steel 70
 – Stainless steel 234
- Busbar claw 398
- Busbar connection adaptors
 – Mini-PLS 294
- Busbar connectors
 – for busbars 343, 380
 – for Mini-PLS 294
 – PLS 344
- Busbar machining CW 120
 – Accessories 643 – 645
 – Busbar bending and hole-punching unit CW 120-S 640
 – Busbar cutting unit CW 120-S 641
 – Foot-switch 644
 – Mobile CW 120-M 642
 – Stationary CW 120-S 640, 641
- Busbar module
 – ISV 427
 – N/PE 426
- Busbar supports
 – 1-pole 340
 – 2-pole 340
 – 40 mm busbar systems 294
 – 60 mm busbar systems 300, 302
 – Distribution busbar system 394
 – Flat copper busbars 300
 – for 100/150/185 mm bar systems 388
 – for 185 mm busbar system 368
 – for busbar baying (rear section) 396
 – for busbar baying (roof section) 395
 – for busbar entry (rear section) 395
 – for flat copper busbars 388
 – for fuse-switch disconnecter section 415
 – for Maxi-PLS 401
 – Mini-PLS 294
 – N conductor 1039
 – PLS 302, 340
- Busbar system
 – 185 mm 369
 – Connection components 406, 407
 – Flat-PLS 394 – 397
 – Maxi-PLS 401 – 403
 – Mini-PLS 294
 – RiLine 300, 302
 – RiLine Compact 284
- Busbar terminal
 – for NH slimline fuse-switch disconnectors 384
- Busbars
 – Cover section 343
 – CUPONAL 342
 – E-Cu 342
 – Maxi-PLS 401, 402
 – Mini-PLS 294
 – PLS 344
 – with integral punchings 1038
- Bus-mounting fuse base
 – for 60 mm busbar system 323, 324
 – for Mini-PLS 295
- C**
- C rail
 – 30/15 996
- Cable attachment 1061
- Cable chamber for VX, VX SE 884
- Cable clamp
 – for C rails 1060
 – for cable clamp rails 1059
- Cable clamp rail
 – C-section 1059
 – Right angle section 1059
- Cable clamp rail, depth-variable
 – for VX, VX IT, TE 1063
- Cable clamp strap 819
- Cable clamp strip, foam rubber 1045
- Cable clamping bracket 1060
- Cable clamping, vertical 1066
- Cable conduit/cable conduit holder 1060
- Cable cutter 585
- Cable duct 1058
 – for VX IT, TE 1068
- Cable entry gland
 – for roof plates 962
- Cable entry grommet 1044
- Cable entry module, round 1048
- Cable entry panel
 – 482.6 mm (19") 1074
- Cable entry plate 1044
- Cable finger
 – for VX IT 1069
- Cable gland
 – Brass 1056
 – EMC 1030
 – for IW worktops 1046
 – Polyamide 1056
 – Stainless steel, HD 1057
- Cable gland plate
 – Metal 1053, 1054
 – Plastic 1050, 1052
- Cable holder 1062
- Cable lock PSM 752
- Cable management enclosure
 – VX IT 701
- Cable management panel
 – with cable routing bars 1073
 – with front flap 1073
 – with plastic rings 1072
 – with steel rings 1072
- Cable manager 1064
- Cable organiser 963
- Cable route
 – for TE 1066
 – for VX, VX IT 1066
- Cable routing
 – Snap-in 1062
- Cable routing bars
 – 482.6 mm (19") attachment 1067
 – for universal use 1067
- Cable routing channel
 – 482.6 mm (19") 1073
- Cable routing kit for doors 948
- Cable set
 – for OM adaptors 354
- Cable shunting ring 1064
- Cable support, hinged 1011
- Cable ties 1061
- Cable tray
 – Depth-variable 1074
- CAD data 274
- Cage nut 1002
- Cam lock
 – for operating panel 932
 – Hygienic Design 224
- Cam lock, stainless steel
 – for AX, KX E-Box 943
- Captive nuts
 – 482.6 mm (19") fastener, 1 U 1097
- Cast aluminium enclosures GA 48
- Castor module
 – for VX, VX IT 894
- Castors 893
- CAT 6 cassettes
 – for Network Cable Organizer 1070
- Central earthing point 1034
- Chiller app 558
- Chiller configurator 558
- Chillers
 – Blue e 526
 – Blue e+ 522
 – TopTherm 519
- Circuit-breaker component adaptors
 – 3-pole 314
 – 4-pole 317
 – RiLine Compact 289
- Circuit-breaker module ISV 425
- Clamp rail for cables 1059
- Clamping unit
 – for assembly frame 608
- Clamp-type terminal
 – for NH slimline switch-disconnectors 386
- Clamp-type terminal connection
 – for NH slimline fuse-switch disconnectors 358
- Claw with threaded insert 398
- Claws
 – for busbars 398
- Climate control
 – Configurators 558
- Climate control doors 507
- Clipboard 1106
- CMC III
 – Accessories 806
 – Automatic Door Opening (ADO) 816
 – CAN bus connection cable 818
 – CAN bus unit 802
 – I/O unit 803
 – LTE unit 820
 – Online comfort handle VX 946
 – Power unit 803
 – Processing Unit/Compact 804
 – Wireless Unit 815
- Coded lock 813
- Combination angle 915
- Combination pliers 587
- Combination rails
 – for 482.6 mm (19") 1074
 – for VX, VX IT 1063

Index

Comfort handle	938	Condensate pump		Connection space cover	
– AX	939	– for LCP Rack/Inline CW	786	– for NH fuse-switch disconnectors	357
– AX Mini	940	Condenser for LCP CW/DX	785	– for NH slimline fuse-switch disconnectors	357, 383
– VX	937	Conductor connection clamps	349	– for NH slimline switch-disconnectors	383
– VX with code	946	– Push-in	349	Connection space cover, rear	
Comfort Panel	172, 173	Configurators		– for NH slimline switch-disconnectors	386
Command panel housing with door		– Chiller	558	Connection space extender	
– Stainless steel	254	– Command panel	273	– for bus-mounting fuse bases	356
Command panels		– DCIM	875	Connection terminal block ISV	423
– Comfort Panel	172	– IT cooling	875	Connector	
– Command panel housing with door	254	– IT infrastructure	874	– E-Cu	397
– Compact Panel	181	– Micro Data Center	874	– for busbars	343, 380
– Configurator	273	– PDU	875	– for enclosures	968
– Optipanel	174	– RiMatrix S	874	– for frame	969
– Premium Panel	253	– Rittal Configuration System	272	Connector gland	1046, 1047
– Stainless steel	253, 254	– Support arm	273	Connector grommets	1044
Compact enclosures		– VX25 Power Engineering	446	Connector kit	
– AX	94	Connection accessories		– for component adaptors	382
– Hygienic Design	222	– for LED compact system light	1026	– for Flat-PLS/Maxi-PLS	406, 407
– Plastic enclosures AX, with viewing window	95	– for LED system light	1023	Connector lock	
Compact enclosures AX		– for self-assembly	1023	– for C14 and C20 connectors	752
– Basic enclosure AX, sheet steel	84 – 91	Connection adaptors	208	Consoles	
– Basic enclosure AX, stainless steel	236 – 240	– 3-pole (185 mm)	370	– One-piece consoles TP	161
– Operating housing AX for desktop TFT up to 24"	180	– for 60 mm busbar system	304	– Universal consoles	162
– Operating housings AX with handle strips	178, 179	– for voltage supply	610	Contact cutter	1030
– with support arm connection and handle strips	178, 179	– RiLine Compact	285	Contact hazard protection	
– with support arm connection and TFT holder for desktop TFT up to 24"	180	Connection adaptor expansion set		– RiLine	347, 348
Compact infeed		– for 60 mm busbar system	306	Contact hazard protection cover plate	
– for Maxi-PLS	404	Connection block	351, 371	– for 185 mm busbar system	381
Compact Panel	181	Connection bracket		– for bus-mounting fuse bases	356
– Wall mounting bracket	969	– for circuit-breaker component adaptors	355	– for component adaptors	382
Compartment divider		– CAN bus	819	– for connection block	382
– for VX	411	– for power pack, TFT monitor	1109	– Form 2b	409
Compartment side panel		– for PSM busbars	751	Contact hazard protection module ISV	421
– for VX	410	– for SK BUS system	550	Contact paint	1030
Complete CAT 6 system		– Master/slave cable	550	Contact terminal	
– for Network Cable Organizer	1069	Connection cable for door-operated switch		– for NH slimline fuse-switch disconnectors	383
Complete earthing kits		– for LED system light	1024	– for NH slimline fuse-switch disconnectors/connection adaptors	384
– for TE	1036	Connection cable PSM		– for NH slimline switch-disconnectors	387
Component adaptors		– 3-phase	751	Contact washer	1033
– 3-pole	314	– single-phase	751	Container	856 – 861
– 3-pole (185 mm)	372, 373	Connection cable/extension	819	Cooling medium	
– 4-pole	317	Connection cables		– for air/water heat exchangers	545
– Mini-PLS	296	– for LED system lights	1026	– for chillers	545
– RiLine Compact	286, 287, 289	– for OM adaptors	354, 355	Cooling units	
– with connection cables	307	Connection clamp	349, 398	– for Micro Data Center	768, 769
– with plug-in cable outlet	312	– for laminated copper bars	350	– for network/server racks VX IT	768, 769
– with spring terminals	310	– for Maxi-PLS	403	– for refrigerant-based rack and suite cooling	774, 775
– without contact system	288	– for NH slimline fuse-switch disconnectors	384	– for water-based rack and suite cooling	780 – 783
Component shelf		– for NH slimline switch-disconnectors	386, 387	– Roof-mounted, Blue e	498
– 1 U, static installation, 482.6 mm (19")	1009	– Push-in	349	– Roof-mounted, Blue e+	504, 764
– 2 U, pull-out, 482.6 mm (19")	1010	Connection component		– Thermoelectric cooler	474
– 2 U, static installation, 482.6 mm (19")	1010	– for signal pillar, modular	1123	– UL Type 3R/4	494
– for frame attachment	1006	Connection components		– Wall-mounted	475, 476
– Pull-out for TE	1009	– for air circuit-breakers and busbar connections	406, 407	– Wall-mounted, Blue e	477 – 483
– Pull-out, 482.6 mm (19")	1008	Connection console	207	– Wall-mounted, Blue e+	486 – 489, 765
– Pull-out, VX SE, PC, IW	1007	– VESA 75/100	207	– Wall-mounted, NEMA 4X	490
– Static installation for TE	1008	Connection hose		Cooling units for cooling IT equipment	
– Static installation, 482.6 mm (19")	1008	– for LCP CW	786	– Blue e+	764, 765
– Static installation, VX SE, PC, IW	1007	Connection kit for separated frame	1005	Copper bar	
Component support		Connection pin		– with integral punchings	1038
– RiLine Compact	288	– for OM adaptor/support	354	Copper busbars	
Component support, left		Connection plate	208	– E-Cu	342
– for WS 540	621	– for laminated copper bars	399	– Laminated	346
Component support, right		– for Maxi-PLS	403	– Mini-PLS	294
– for WS 540	622	– for ring terminal	399	– PLS	344
Computer Room Air Conditioner (CRAC)	793	Connection set		Copper spacer roll	417

Index

K

Keyboard	
– Built-in keyboard with touchpad	1111
– pull-out	1110
Keyboard drawer	1113, 1114
– 1 U for	
two 482.6 mm (19") mounting levels	1114
– 2 U for	
one 482.6 mm (19") mounting level	1115
Keyboard support	1115

L

Label panel	
– for signal pillar, 3-way LED and signal pillar, modular	1127
Laminated copper bar	346
Large enclosures	
– Baying enclosure system VX25, sheet steel	116
– Baying enclosure system VX25, stainless steel	242
– Free-standing enclosure system VX SE, sheet steel 142	
– Free-standing enclosure system VX SE, stainless steel 248	
– VX25 electronic enclosure	130
– VX25 with glazed door	128
– VX25, IP 66/NEMA 4	131
– VX25, IP 66/NEMA 4X	246
Laser centre	
– Perforex LC	654
LCD display	334
LED compact system light	1025
LED light strip	821
LED system light	1014
LED system light for IT	1027
LED work light	
– for WS 540	623
Length-cutting machine C8+	
– Support rail cutting machine	632
Levelling component	
– for base/plinth VX	886
Levelling feet	892, 893
– Hygienic Design	223
– with internal adjustment	892
Lifting aid for mounting plate	
– for AX	591
Lights	
– IT LED system light	1027
– LED compact	1025
– LED system light	1014
Liquid Cooling Package	
– Adaptor	786
– for industry	518
– LCP Inline CW	782
– LCP Inline DX	775
– LCP Rack CW	780
– LCP Rack DX	774
Liquid Cooling Unit	
– LCU DX, redundant	769
– LCU DX, single	768
Lock and push-button inserts	942
Lock components	917
Lock cover	944

Lock cylinder inserts	943
Lock inserts	941, 942
Lock systems	
– for console systems and industrial workstation, sheet steel	935
– for enclosures and cases, stainless steel	936
– for large enclosures and PC enclosures, sheet steel 934	
– for small enclosures, compact enclosures and operating housings AX, sheet steel 933	
Lockable and adjacent door	917
Locking bar latch	937
Locking clip for seal inserts	1051
Longitudinal connector E-Cu LT 1000	397
– Storage and transport trolley	611

M

Magazine support	
– for WS 540	625
Male and female dies for slots	644
Male dies	
– for busbars	643
– for copper processing	643
Manual hydraulic punch	592
Manual hydraulic punch set	
– 90°, M16 - M40	593
– 90°, PG 9 - PG 48	593
– straight, M16 - M63	593
Master/slave cable	
– for SK BUS system	550
Maxi-PLS	
– Busbars	401, 402
Measurement module	
– for NH fuse-switch disconnectors	333
Membrane gland plate	1052
Metal filter	
– for air/air heat exchangers	534
– for chillers	534
– for climate control door/section door	534
– for cooling units	534
Metal gland plate	1053, 1054
Meter mounting board module	426
Micro Data Center	
– Level B	846
– Level E	844
Micro Data Center configurator	874
Micro-switch	
– for NH fuse-switch disconnectors	358
– for NH slimline fuse-switch disconnectors	358
– for NH slimline switch-disconnectors	387
Milling centre	
– Perforex BC	652
Mini fan	539
Mini-comfort handle AX	96, 940, 941
Mini-comfort handle EL	949
Mini-PC holder	
– for WS 540	628
Mini-PLS busbar adaptor	
– for NH fuse-switch disconnectors size 000	295
Mini-PLS busbar systems	294

Modular climate control concept	
– Climate control doors	507
– Cooling module	506
Modular enclosure	132
Modular front design	925
Module plates	907
– for TE	899
Monitor attachment	
– for WS 540	622
Monitor housings AX	
– for desktop TFT up to 24"	180
– with handle strips	178, 179
Monitor, flat	1109
Monitor/keyboard unit, 1 U	822
Motor controller	
– RiLine Compact	291
Mounting adaptor	948
Mounting adaptor PDU	752
Mounting angles	
– C rail	996
– for FlatBox	1085
– for VX IT	1081, 1082
Mounting angles additional	
fastening attachment	1084
Mounting angles ISV	429
Mounting braces, vertical	
– for WS 540	623
Mounting bracket	999, 1002
– for air circuit-breaker support rail	412
– for contact hazard protection cover	408
– for interior installation	1000
– for VX IT	1082
Mounting claw for second mounting level	998
Mounting clip	997
Mounting component	
– for signal pillar	1125, 1126
– for wall/base mounting	1125
Mounting frame	
– for Network Cable Organizer	1070
Mounting kit	
– for Comfort Panel	1108
– for door-operated switch	1024
– for LED system light	1024
– for Optipanel	1108
– Magnet	1024, 1025
Mounting kit AX	
– for installation kit for swing frame, small	1076
Mounting kit magnet	
– for LED compact system light	1025
Mounting kit PSM	
– for busbar	751
Mounting kit, 2 U	1084
Mounting panel, 482.6 mm (19")	1097
Mounting plate	
– Accessories	971 – 974, 981
– Attachment for TP one-piece console, TP pedestal	981
– Cross-brace for VX, VX SE	974
– EMC for VX, VX SE	1029
– for bus enclosures KX	970
– for compartment side panel	413
– for EX enclosures	970
– for outdoor Basic enclosure	981
– for terminal boxes HD	970
– for terminal boxes KX	970
– Locatable	998
– Screw-fastened, large	998
– Screw-fastened, small	999
– Slide rail	974
– Transport handle for VX, VX SE	981
– with integral top-hat rail	999
Mounting plate attachment	
– Type A, for VX	971
– Type B, for VX	972
– Type C, for VX	973
Mounting plate infill for VX	971
Mounting plate module	421

- Mounting plates
 – for cast aluminium enclosures 49
 – for polycarbonate enclosures 47
 – ISV module 421
 Mounting rail
 – Interior installation AX 989
 Mounting set
 – for connection terminal block ISV 423
 Mounting unit 819, 820
 Mouse holder 1116
 Mousepad
 – Support 1112, 1115, 1116
 Multifunction mounting kit VX,
 for mounting plate 974
 Multifunctional enclosures 271
 Multiple lock 944
 Multitool
 – for AX, VX 590
 Multi-tooth screw 1004

 – with electromechanical fuse monitoring 331
 – with electronic fuse monitoring 329
 NH measurement module
 – for NH fuse-switch disconnectors 333
 NH slimline fuse-switch disconnectors
 – Size 00 335
 – Sizes 00 to 3, 185 mm 374
 – with electronic fuse monitoring 336
 – with fuse monitoring, 185 mm 376
 NH slimline fuse-switch-disconnector
 module 425
 NH slimline switch-disconnectors
 – Sizes 00 to 3, 185 mm 377
 – with fuse monitoring, 185 mm 379
 Notching pliers 603
 Nut 1002, 1003
 Nylon loop 1061
 Nylon loop cable holder 1062
 Nylon tape 1061
 Nylon tape holder 1062
- ## P
- Paint 903
 Paper removal flap 1116
 Partial door
 – for VX 926
 Partial mounting plate holder 978
 Partial mounting plate VX
 – for VX, VX SE 980
 – for VX, VX SE, PC, IW 975
 Partial mounting plate, locatable
 – for TP 982
 Partial mounting plates
 – for compartment side panel 413
 Partition, horizontally divided, fastened
 – for VX IT 904
 Partition, one-piece, for slide-in fixing
 – for VX IT 904
 Patch panels
 – for fibre-optic splicing box, depth-variable,
 and fibre-optic breakout box, 1 U 1100
 – for fibre-optic splicing box, lockable 1101
 – for small fibre-optic distributors 1101
 PC enclosure system
 – Sheet steel 164
 – Stainless steel 252
 PDU 732 – 740
 – Accessories 752
 PDU configurator 875
 PDU mounting adaptor
 – for TE 752
 PE busbar 1036
 PE/PEN angle bracket 1038
 PE/PEN baying bracket E-Cu 1039
 PE/PEN busbar E-Cu 1038
 Pedestal
 – Complete 212
 – Modular 211
 – Open 213
 PEN/N/PE support 340
 Perforated door strip
 – for AX stainless steel 953
 Perforated mounting strip
 – for partial door 927
 Perforex BC
 – Deburring blade 590
 Perforex BC milling centre 652
 Perforex LC laser centre 654
 Pillar, small 213
 PinBlock
 – for starters with increased contactor
 attachment 354
 – for support frames (OM adaptor) 354
 Pipe kit
 – for DET-AC III/EFD III 826
 Pivot 210
 Plastic
 – Enclosures AX 94
 – Enclosures AX, with viewing window 95
 – Gland plates 1050, 1052
 – Handles 942
 Plastic enclosures AX
 – with viewing window 95
 – without viewing 94
 Plastic gland plate
 – for compartment side panel 410
 Plastic gland plate, modular and
 sealing frame, modular 1049
 Plate
 – for base mounting 885
 – for cable connection space 410
 Plate clamps
 – for laminated copper bars 350
 Pleated filter
 – Blue e+ roof-mounted cooling unit 536
 – VX25 Blue e+ integration solution 536
 Pliers 575 – 577, 583, 587, 588, 603
 PLS busbar connectors 344
 PLS busbar systems 302
 PLS expansion connectors 345
 PLS special busbars 344
 Pole clamp
 – for AX, KX, AX plastic 968
 Polycarbonate enclosures PK 44 – 46
 Positioner
 – RiLine Compact 293
 Potential equalisation kit 1035
 Potential equalisation kit, Plus version 1035
 Potential equalisation rail 1036
 Potential equalisation star 1034
 Power distribution
 – Configurators 446

Index

Power Distribution Unit PDU	732 – 740
– Accessories	752
Power measurement	753
Power pack	
– for CMC III monitoring system	818
– for LCD display	334
– for TFT monitor	1109
– RiLine Compact	292
Power supply	1040
Premium Panel	253
Pressure relief stopper	900
Pressure stoppers	
– for roof plates, for pressure relief	962
Primer/paint	
– Contact paint	1030
Prism terminal	
– for NH slimline fuse-switch disconnectors	384
Processing Unit Compact, CMC III	804
Processing Unit, CMC III	804
Product Scan app	274
Profile half-cylinders	942
Programming cable	818
Protective bar	924
Protective roof	
– for AX	958
PSM	744
PSM busbar	744
PSM measurement bar	
– for CMC III	747
PSM measurement modules	
– with CAN bus	749, 750
PSM socket modules	748
Punched rail	
– 18 x 39 mm	993
– 23 x 23 mm	994
– Cover, distribution busbar	416
Punched section with mounting flange	
– 14 x 39 mm	952, 990
– 17 x 73 mm	992
– 18 x 64 mm	990
– 23 x 64 mm	991
– 23 x 89 mm	991
Punched section without mounting flange,	
23 x 64 mm	993
Punching tools	592 – 603

Q

Quick-assembly block	1001
Quick-change frame	
– for roof-mounted cooling units	556
Quick-fit baying clamp, one-piece	913

R

Rack-mounted fans	
– for 482.6 mm (19")	466
Radio comfort handle VX	947
Rail mounting bracket	1002
Rails	
– Base configuration rail for TP	995
– for EMC shielding bracket and strain relief	1029
– for interior installation AX	989
– for interior installation HD	225
– for interior installation TP, HD	995
RCM measurement module for CMC III	753
Refrigerant lines	
– for LCU DX	785
Reinforcement	
– for enclosure	214
Retaining plate	
– for cable connection space	410
Ride-up roller	
– for busbars	645
– for door VX, VX SE, PC	956
RiDiag	559
RiLine busbar systems	
– Flat busbars	300
– PLS busbars	302
RiLine Compact	
– Board	284
– Circuit-breaker component adaptors	289
– Component adaptors	286, 287
– Connection adaptors	285
– Motor controller	291
– NH fuse-switch disconnectors	290
– Positioner	293
– Power pack	292
RiMatrix S	850
– Efficiency package	850, 851
RiMatrix S Selector	874
Rittal Configuration System	272
RiZone	830, 831
RJ45	
– Installation module and extension	1117
Roller conveyor	
– for assembly frame	609
Roof plate	
– for cable entry glands, for VX, VX IT	961
– IP 2X, with louvres, for VX, VX IT	961
– IP 55, solid, for VX, VX IT	961
– Two-piece, for VX, VX IT	963
– with mounting cut-out	784
Roof vent	464
Roof-mounted cooling unit Blue e+ IT bundle	764, 765
Roof-mounted cooling units	
– Blue e+	504
– TopTherm Blue e	498
Roof-mounted fans	464
– for the office sector	789
– with EC technology	465
Rubber cable clamp strip	1045

S

Safety lock	944
Scissors	
– Electrician	586
Screen, flat	1109
Screw adaptor	
– for spindle hoist	609
Screw connections	
– for Flat-PLS	400
Screw for interior installation	261
– for AX plastic	97
Screwdriver set	569
– insulated	567
– uninsulated	569
Screwdrivers	
– insulated	566
– uninsulated	568
Screws	602, 1004, 1098
– for connection brackets	405
– for connector kit	405
– M10	400, 405
– with ball bearing	602
Seal for support arm connection	1107
Seal inserts for plastic gland plate, modular and sealing frame, modular	1051
Sealing frame, modular	1048
Sealing kit	
– for VX IT	826
Secarex AC 18 cutting centre	650
Second pair of mounting angles	
– for Data Rack	1079
Sections for cable entry, centre	
– for VX, VX, SE, TP	1045
Sections for cable entry, rear	
– for VX, VX, SE, TP	1045
Selector	
– IT infrastructure	874
– RiMatrix S	874
Self-tapping screw	1004
Sensor	
– for speed control	548
Server racks	686 – 699
Server telescopic slides	1090
Service socket	1042
Set of brackets	
– for assembly frame	610
Shallow air duct system	
– for air/water heat exchanger, roof-mounted	541
– for roof-mounted cooling units	541
Sheet steel	
– Baying enclosure system VX25, basic enclosure	116 – 127
– Baying enclosure system VX25, basic enclosure with glazed door	128, 129
– Baying enclosure system VX25, electronic enclosure	130
– Baying enclosure system VX25, EMC enclosure	136
– Baying enclosure system VX25, IP 66/NEMA 4	131
– Bus enclosures KX	70
– Compact enclosures AX	84 – 91
– E-Box KX	64 – 67
– Free-standing enclosure system VX SE, basic enclosure	142 – 146
– Free-standing enclosure system VX SE, IP 66/NEMA 4	147
– Operating housings AX with handle strips	178, 179
– Terminal boxes KX, with gland plate	59, 60
– Terminal boxes KX, without gland plate	56 – 58

Sheet steel door			
– with mounting cut-out	784		
Sheet steel door, one-piece, solid			
– for VX IT	921		
Sheet steel door, one-piece, vented			
– for VX IT	922		
Sheet steel door, vertically divided, solid	921		
Sheet steel door, vertically divided, vented			
– for VX IT	923		
Shelf			
– for WS 540	621		
Shield bus, EMC	1030		
Shielding bracket	1029		
Shielding seal			
– EMC for VX	1028		
Shielding, vertical	786		
Shipping brace			
– for door VX	957		
Shunting ring	1064		
Shunting ring fibre-optic	1065		
Side cover			
– for bus-mounting fuse bases	356		
Side cutter	585		
Side panel			
– Compartment	410		
– EMC for VX	1028		
– for cable chamber	884		
– for TE 8000	903		
– for top-mounting module	960		
– Horizontally divided, for VX IT	902, 903		
– Screw-fastened, sheet steel for VX, VX IT	901		
– Screw-fastened, stainless steel for VX	901		
Signal pillar	1123		
Signal pillar, 3-way LED	1122		
Signal pillar, modular	1123		
Slide rail			
– for mounting plate	974		
– for swing frames	1078		
Slide rail VX			
– for adaptor section 482.6 mm (19")	1089		
Slide rail, heavy-duty	1087		
Slide rails			
– Depth-variable	1088		
– Depth-variable, 1 U	1089		
– for Data Rack	1079		
– for TE 8000	1088		
– Static installation, VX IT	1086, 1087		
Sliding blocks			
– for circuit-breaker component adaptors	355		
– for Maxi-PLS	403		
Sliding nut			
– for Maxi-PLS	404		
Sliding plate			
– for VX, VX IT, VX SE	896		
Slimline fuse-switch disconnectors			
– Size 00	335		
– Sizes 00 to 3, 185 mm	374, 375		
– with electronic fuse monitoring, 185 mm	376		
– with electronic fuse monitoring	336		
Slimline switch-disconnectors			
– Sizes 00 to 3, 185 mm	377, 378		
– with electronic fuse monitoring, 185 mm	379		
Slip-joint pliers	588		
Slot cover			
– for C13 and C19 slots	752		
Small enclosures			
– GA	48		
– PK	44 – 46		
– Switch housings	235		
Small enclosures KX			
– Bus enclosures KX, sheet steel	70		
– Bus enclosures KX, stainless steel	234		
– E-Box KX, sheet steel	64		
– E-Box KX, stainless steel	232, 233		
– Terminal boxes KX stainless steel, without gland plate	230, 231		
– Terminal boxes KX, with gland plate	59, 60		
– Terminal boxes KX, without gland plate	56 – 58		
Small equipment box			
– 482.6 mm (19")	1091		
Smart Lifter	616		
Smart monitoring system	333, 334		
Snap-in cable routing	1062		
Socket	1042		
Socket box			
– for LED system light	1022		
Socket strip	1040		
– for WS 540	625		
Software			
– Blue e+ app	559		
– Chiller app	558		
– RiDiag	559		
– Therm App	558		
Spacers	953		
– for roof plate	964		
Spacers for busbar supports			
– RiLine	341		
Spacing element for busbar supports	388		
Spare battery			
– for assembly frame	609		
Spare filter mats			
– for EMC fan-and-filter unit	535		
– for fan-and-filter units	535		
– for roof-mounted fans	535		
– for Thermolectric Cooler	535		
Spare key	945		
Special busbars			
– Mini-PLS	294		
– PLS	344		
Speed control			
– for air/air heat exchangers	549		
– for EC fan-and-filter units	548		
– for TopTherm fan-and-filter units	549		
Splicing boxes and accessories	1099		
Splitter hole punch			
– for sheet steel, round, with triple splitting	596		
– for stainless steel, round, with triple splitting	599		
Splitter hole punch set			
– for sheet steel, with triple splitting, M12 - M40	597		
– for sheet steel, with triple splitting, M16 - M40	597		
– for sheet steel, with triple splitting, PG 9 - PG 21	598		
– for stainless steel, round, with triple splitting	600		
Splitter hole punch set, metric			
– Splitter hole punch	600		
Spring nut			
– M5	1003		
– with screws M6	1099		
Stabiliser			
– for connector kit	405		
Stabiliser for VX IT	894		
Stainless steel			
– Base/plinth corner pieces with base/plinth trim panels, front and rear for VX, VX SE, PC	886		
– Base/plinth installation bracket for base/plinth VX	885		
– Base/plinth trim panels, sides, for base/plinth VX	887		
– Base/plinth, complete, for one-piece console, stainless steel	890		
– Baying enclosure system VX25	242		
– Bus enclosures KX	234		
– Cable gland HD	1057		
– Command panel housing with door	254		
– Compact enclosures AX	236 – 240		
– E-Box KX	232, 233		
– Ex enclosures	258, 259		
– Free-standing enclosure system VX SE	248		
– One-piece consoles	251		
– PC enclosure system	252		
– Premium Panel	253		
– Support arm system CP 40	188		
– Switch housings	235		
– Terminal boxes KX, without gland plate	230, 231		
– Viewing window	931		
– VX SE, IP 66/NEMA 4X	250		
– VX25, IP 66/NEMA 4X	246		
Stand systems	211 – 214		
Standalone enclosure VX SE			
– IP 66/NEMA 4	147		
– IP 66/NEMA 4X	250		
– Sheet steel	142		
– Stainless steel	248		
Standard R-OCP V2 rack	870		
Static base/plinth			
– for PC, IW	890		
Stay			
– for door	956		
– for door and escape routes	956		
Stay for trim panel, hinged at the top	928		
Steel blade			
– for deburring blade	590		
Stepped collar	1048		
Storage and transport trolley			
– LT 1000	611		
Storage box	954		
Storage box holder			
– for WS 540	624		
Straps, earth straps	1033		
Stripping machines			
– Crimping machine L8	635		
– Crimping machine R8 E	634		
– Crimping machine RC	636		
– Stripping machine S22	633		
Stripping machine console			
– for WS 540	628		
Stripping machine S22	633		
Stripping tool			
– for cables Ø 2.5 - 11 mm	583		
– for cables Ø 4.5 - 40 mm	584		
– for cables Ø 8 - 13 mm	583		
Supports			
– for flat copper busbars	300, 388		
– for keyboards	1115		
– for mousepad	1112, 1115, 1116		
– for PLS	302		
– for small appliances	1097		
– N conductor	1039		
– Wall bracket for VX, VX SE, VX IT	967		
Support arm configurator	273		
Support arm system			
– CP 40, steel	184 – 187		
– CP 40, stainless steel	188		
– CP 60	192 – 195		
– CP 120	196 – 199		
– CP 180	200 – 203		
– CP 40/60/120/180	207		
Support frame			
– for DIN rail-mounted devices	414		
Support panel			
– for cover section	348		
Support rail cutter MC3	605		
Support rail module ISV	422		

Index

Support rails	997	Terminal boxes HD		Transport castors	
– 48 x 26 mm	996	– Hygienic Design	220	– for base/plinth VX	884
– 65 x 42 mm	997	Terminal boxes KX		– for TE	895
– 75 x 20 mm	996	– Cover hinge	951	Transport handle for mounting plate	981
– for circuit-breaker component adaptors	353	– Sheet steel, with gland plate	59, 60	Transport kit	
– for circuit-breakers	412	– Sheet steel, without gland plate	56 – 58	– for VX empty enclosures	894
– for Comfort component adaptor	293	– Stainless steel, without gland plate	230, 231	Tray, drawer tray	1007
– for Mini-PLS component adaptors	352, 353	Terminal connection		Trim frame	
– for OM adaptor/support	352	– for NH slimline fuse-switch		– for slimline cooling units	556
– for VX IT	1084	disconnectors	358	Trim panel	
Support section, height-adjustable for		Terminal studs		– Bottom	927
support arm system CP	204 – 206	– for Maxi-PLS	403	– for TP	163
Support set (stabiliser)		Terminals	349, 383, 398	– Hinged at the top	928
– for connector kit	405	– for laminated copper bars	350	– Top	927
Support strip	994	– for Maxi-PLS	403	Trim strip	
– for AX with cam lock	952	– for NH fuse-switch disconnectors	357	– for NH slimline fuse-switch	
– for VX, VX SE, AX plastic, TP, PC, IW	952	disconnectors	358, 384	disconnectors	386
Support unit, 3 U		– for NH slimline fuse-switch		– for NH slimline switch-disconnectors	386
– for LSA strips	1102	disconnectors	358, 384	Twin castors	893
Supports		– for NH slimline switch-		Twin cord	
– for Mini-PLS	294	disconnectors	386, 387	– for OM adaptors	355
Surplus cable holder	1066	– Push-in	349		
Swing frame		TFT			
– 180° hinges for VX	1078	– Monitor	1109		
– Large	1077	– Operating housing AX for

– Stay	1078	TFT holder	1110		
Switch		Therm app	558		
– for NH fuse-switch disconnectors	358	Therm software	558		
– for NH slimline fuse-switch		Thermoelectric cooler	474		
disconnectors	358	Thermostat			
– Enclosure internal thermostat	547	Threaded block	1003		
Switch housings		Threaded bolts			
– Stainless steel	235	– for Maxi-PLS	404	U handle	1105
Switchgear assignment		Tilt coupler	210	U nut	1003
– Mini-PLS component adaptors	297	Tilting adaptor		UL Type 3R/4	
– OM adaptors	319 – 322	– +100°/-60°	209	– Wall-mounted cooling units	494
System attachment		– +/-45°	209	Universal bracket	1004
– 185 mm busbar systems	380	Tool bag		– for AX plastic	97
System cover		– Configured	565	– for Ex enclosure, plastic	97
– for connection clamps	350	– Unconfigured	565	Universal consoles TP	
System divider	895	Tool holder, round		– Sheet steel	162
System lights	1014 – 1027	– for WS 540	627	Universal support for	
System window	929	TopConsole system TP	156 – 160	laminated copper bars	346
		Top-mounting module	960	Universal utility shelf	
		TopTherm		– for WS 540	628
		– Air/air heat exchangers	469	USB extension	1117
		– Chillers	519	Utility bar, vertically hinged	1112
		– EMC fan-and-filter units	459	Utility lectern for VX, VX SE, TP, PC	953
		– Fan-and-filter units	456		
		– Fan-and-filter units with EC technology	461		
		– VX25 chillers	528		
		– Wall-mounted cooling units,			
		horizontal format	475		
		– Wall-mounted cooling units	476		
		TopTherm Blue e			
		– Roof-mounted cooling units	498		
		– Wall-mounted cooling units	477 – 482		
		– Wall-mounted cooling units, slimline	483		
		Toroidal transformer			
		– for air/water heat exchanger,			
		wall-mounted	550		
		Touchscreen	1109		
		TP			
		– Aluminium strip	163, 1104	V connection terminal	
		– Desk section	163	– for NH slimline fuse-switch	
		– One-piece consoles	161	disconnectors	384
		– TopConsole 3-part	156	Variable modular climate control concept	924
		– Universal consoles	162	Vario rack-mounted fan	
		Transformer		– for 482.6 mm (19")	467
		– for NH slimline fuse-switch		Vent cover	791
		disconnectors	385	Vent trim panel, 482.6 mm (19")	1093
		– for NH slimline switch-disconnectors	385	Ventilated front panels	1093
		Transponder card	814	– Width 482.6 mm (19")	1094
		Transponder reader	813	VerticalBox	712
		Transport and mounting handle for		Viewing window	930
		doors VX, VX SE	957	– Stainless steel	931
		Transport bracket	915	Voltage supply	
				– Connection adaptor	610
				– for assembly frame	610
				VX IT network/server racks	686 – 699

T

T distributor for LED system light	1023
T handle HD	
– Hygienic Design	223
T handles	943
Tangential fans	
– for 482.6 mm (19")	468
T-connector kit	406
TE 8000	
– Distributor racks	708
– Network racks	704 – 707
Technical information	1128 – 1131
Telescopic slide	
– for component shelves	1011
Temperature display and thermostat	546
Temperature sensor	
– for Blue e+ cooling units,	
Blue e+ chillers	549
Tension screw	602, 603
– with ball bearing	602
Terminal block ISV	423
Terminal block assembly centre	
– Athex TC 80 CS	658
Terminal box	
– for modular outgoing section	411

U

U handle	1105
U nut	1003
UL Type 3R/4	
– Wall-mounted cooling units	494
Universal bracket	1004
– for AX plastic	97
– for Ex enclosure, plastic	97
Universal consoles TP	
– Sheet steel	162
Universal support for	
laminated copper bars	346
Universal utility shelf	
– for WS 540	628
USB extension	1117
Utility bar, vertically hinged	1112
Utility lectern for VX, VX SE, TP, PC	953

V

V connection terminal	
– for NH slimline fuse-switch	
disconnectors	384
Variable modular climate control concept	924
Vario rack-mounted fan	
– for 482.6 mm (19")	467
Vent cover	791
Vent trim panel, 482.6 mm (19")	1093
Ventilated front panels	1093
– Width 482.6 mm (19")	1094
VerticalBox	712
Viewing window	930
– Stainless steel	931
Voltage supply	
– Connection adaptor	610
– for assembly frame	610
VX IT network/server racks	686 – 699

VX SE free-standing enclosure system		Wire end ferrules, loose	
– IP 66/NEMA 4	147	– DIN colour code	581, 582
– IP 66/NEMA 4X	250	– Rittal colour code	581, 582
– Sheet steel	142	Wire pack holder	
– Stainless steel	248	– for WS 540	626
VX25		Wire reel holder	
– Basic enclosure with glazed door	128	– for assembly frame	609
– Baying enclosure system, sheet steel	116	Wire routing	
– Baying enclosure system, stainless steel	242	– Component support, left	626
– Distribution enclosure	135	– for assembly frame	608
– Electronic enclosure	130	– Mounting braces, vertical	625
– EMC enclosure	136	– Wire dispenser	637
– Enclosure, sheet steel	116	Wire Station WS 540	620
– Enclosure, stainless steel	242	Wire stripper	583
– Fuse-switch-disconnector enclosure	134	Wire Terminal WT	656
– IP 66/NEMA 4	131	Wiring bracket ISV	428
– IP 66/NEMA 4X	246	Wiring duct	
VX25 Blue e+ integration solution		– for D-Switch bus-mounting fuse base	356
– Baying plate	556	Wiring duct cutter	604
VX25 chiller		Wiring plan lectern for VX, VX SE, TP, PC	954
– TopTherm	528	Wiring plan pocket	
VX25 Power Engineering	446	– Plastic	955
		– Sheet steel for VX, VX SE, TP pedestal, PC	955
		– Sheet steel, width-variable, for AX	954
		– with transparent pouch	955
		Wiring table	
		– Wire Station WS 540	620
		Wiring trim panel	417

W

Wall angle	
– for AX, KX, AX IT	967
Wall bracket	
– for VX, VX SE, VX IT	967
Wall mounting brackets	
– for AX plastic	97
– for AX sheet steel, KX sheet steel, AX IT, EL	965, 966
– for AX stainless steel, KX stainless steel	967
