Performance Downlights

Performance downlights are ideal for open areas and larger rooms such as living areas in a home, school or college communal areas as well as commercial premises, where the required lux levels need to be achieved using the fewest number of luminaries possible. Performance downlights produce a high level of light and can be used in areas where low glare and viewing comfort is not a requirement.

Specification / Application

Architectual Downlights

Architectural downlights are predominantly used in areas where glare control and viewing comfort is a high priority, such as in classrooms, in offices above workers desks and in retail applications. A more comfortable light can be achieved by using more glare control luminaries in a space to achieve a better quality and more comfortable light to work in.

Solid Timber

The Solid Timber joist is the traditional ceiling joist used and typically is only found in domestic dwellings already constructed. They are widely used within internal floor and separating constructions for both residential and commercial applications.

Specification

30 minute construction	60 minute construction	90 minute construction
600mm Joist Centres	600mm Joist Centres	450mm Joist Centres

15mm Type A Wallboard Plasterboard	2 x 15mm Type F Fireline Plasterboard	2 x 15mm Type F Fireline Plasterboard

I-Joist

I-Joists are used on new builds throughout the UK and is a lightweight joist designed for domestic applications. I-Joist now dominate the housebuilding market and continue to grow in popularity as they have a greater strength to weight ratio compared other options.

Specification

30 minute construction	60 minute construction	90 minute construction
600mm Joist Centres	600mm Joist Centres	450mm Joist Centres
220mm x 63mm – 9mm OSB/3 'web'	220mm x 63mm – 9mm OSB/3 'web'	220mm x 63mm – 9mm OSB/3 'web'
15mm Type A Wallboard Plasterboard	2 x 15mm Type F Fireline Plasterboard	2 x 15mm Type F Fireline Plasterboard

Metal Web / Open Web / Posi Joist

Metal Web or Posi Joist as it is sometimes called, is a new joist type used in the UK. Posi Joist combines the lightness of timber with the strength of the Posi Strut steel web allowing you to span far greater distances. This joist type can be used across a wide range of applications for both floor and roof in domestic, industrial and commercial applications.

Specification

30 minute construction	60 minute construction

WiZ CONNECTED

WiFi and Bluetooth

Two protocols for versatility with a range of accessories and commissioning. Added reliability if one protocol connection is lost the other will allow normal use.

Advance Voice Control

Full voice control with smart speakers and now with Google Assistant and Siri Shortcuts on iOS 12, have full control of your lights by talking to any smartphone.

No Hub Needed

32-bit MCU chip provides smarter automation, as WiZ lighting is directly, constantly and reliably connected to the cloud there is no dependency on a hub or bridge.

Anti-**glare design**

Specifically designed baffle construction with recessed LED module and diffuser provide a steep cut-off angle ensuring maximum glare control and visual comfort.

Traditional **design**

Shallow cut-off angle provides much less glare control and reduced visual comfort

Prism Pro LED Trimless Bezel Kit

Supplied Less Prism Pro

- Trimless bezel kit designed for use with:
  APRILEDP/OCTOW
  APRILEDP/CW
  APRILEDP/WW
  APRILEDP/CCT
- Steep baffle construction recesses the downlight providing a deep cut-off angle ensuring maximum glare control and visual comfort
- Intelligent 2 part kit design is accessible from underneath the ceiling both during and after installation. The main body can be fixed to the ceiling whilst the internal 'push to release' main cone can be attached afterwards. This allows for quicker and easier installation and product maintenance
- Suitable for residential and commercial applications, providing an architectural and modern appearance
- Pre-drilled screw holes ensure a quick and easy installation
- Wide design allows suitability for retro-fit applications replacing hole cut-outs up to 160mm

Please note: This product comes supplied less downlight

	Code	Lamp	Description	Trade

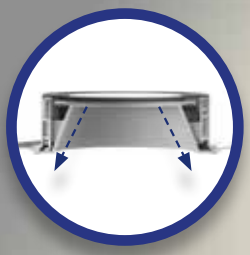
Prism Pro LED Trimless Bezel Kit

Simple **Installation**

The main body can be easily secured to the ceiling plasterboard, with the multiple holes allowing for flexible installation. The 'push to release' designed main cone ensures the Prism Pro can be accessed from underneath the ceiling both during and after installation.



Reduced Glare **Design**

Steep baffle construction recesses the LED module and diffuser providing a deep cut-off angle ensuring maximum glare control and visual comfort.

Versatile

The Trimless kit can be used with all Prism Pro LED Fire Rated Downlights. This includes our OCTO WiZ enabled downlight, 3000K, 4000K and colour temperature selectable models.

* Not applicable for use with gimbal or non-Prism Pro LED models

Sturdy spring clips provide tight and lasting position once installed
Aluminium heatsink for optimum thermal management to ensure long lifetime cycle
Protective spring clip covers for ceiling protection and ease of installation
High quality LED light engine
Mirror finished anodized reflector optimises light distribution providing an excellent and uniform output
Anti-glare diffuser provides visual comfort and optimum light distribution
Specially designed baffle construction with recessed LED module and diffuser provide a steep cut-off angle ensuring maximum glare control and visual comfort
Slim profile matt white bezel provides sleek and modern appearance

Unity 80 LED Downlight

Supplied c/w Remote Driver

Comfort LED Tunable White Downlight

Supplied c/w Remote Driver

Performance Downlight

- Economic high performance IP44 downlight
- Deep cut-off angle for glare control and comfort
- Osram LED technology and enhanced diffuser design for outstanding uniformity
- One product provides complete control of colour temperature selection, ranging between 2700K and 6500K. Colour selection achieved via the Casambi App
- Full dimming control via Casambi App
- Downlight design allows installation into existing hole cut-outs from 200mm to 220mm
- Emergency options available
- Polycarbonate housing with unique thermal management for durability and optimum lifespan
- LED lifespan L70 50,000 hours

Complete...
CCT Control

The Comfort LED Tunable White Downlight can achieve any specific colour temperature between 2700K and 6500K, ensuring suitability for a host of different application requirements. Full tunability of colour temperature controlled via the Casambi app.

OCTO

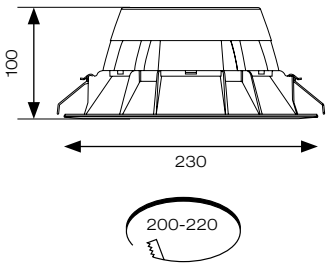
Project - Paper Assist
Dublin, Ireland

Comfort LED CCT Downlight

Supplied c/w Remote Driver

Performance Downlight

- Economic high performance IP44 downlight
- Deep cut-off angle for glare control and comfort
- Osram LED technology and enhanced diffuser design for outstanding uniformity
- One product provides both 3000K and 4000K colour temperature options
- Downlight design allows installation into existing hole cut-outs from 200mm to 220mm
- Polycarbonate housing with unique thermal management for durability and optimum lifespan
- LED lifespan L70 50,000 hours
- Dimmable and Emergency options



Selectable CCT

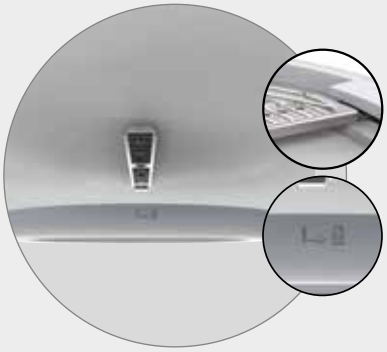
Adjustable
Bracket Design

Innovative bracket design allows installation into variable cut-out sizes between 65mm-205mm, allowing for a varied range of installation options

Surface
Mounting Option

Integral bracket also works as a surface mounting option. Simply disconnect from product housing and screw to the ceiling using the pre-drilled hole template guide, then using the easy twist and lock system twist the product into place



Easy Twist and
Lock System

Once the mounting bracket is fixed to the ceiling connect the AC mains cable and twist the product into place over the bracket using the twist and lock icon as a guide

Integral Wattage and
CCT Selectable Switches

Two integral switches located on the rear housing allow selection of 10W, 13W and 16W power output options. This coupled with the additional option of 3000K, 4000K and 6000K colour temperature options ensures suitability for a multitude of applications

Project - Private Residence
Abersoch, UK

Iris LED

Supplied Less Driver

- Micro recessed adjustable downlight with 40° tilt angle.
- Multiple uses, including general illumination, retail, cabinets and furniture applications
- LED lifespan L70 50,000 hours

Note: Provision should be made for fitting of driver due to minimal cut-out diameter

Terminals comfortably accept 2 x 1.5 Twin and Earth cables with screwless snap-fit cover and cable clamp, for ease and speed of installation

Patented intumescent disc

Open design of fitting allows lamp to 'breathe' providing optimum lamp life and allows for use of ALL suitable retrofit branded lamps

Sleeved AND double insulated high temperature cable

Supplied c/w GU10 Lampholder

Ultra slim bezel provides minimalistic look

Sprung clips for sturdy fixing in variable ceiling thicknesses providing tight and lasting positioning to ceiling

Protective polycarbonate spring clip covers for ceiling protection and ease of installation

Moisture seal

Twistlock operation for easy lamp installation and replacement

ANSELL LIGHTING PRODUCT LIFE TIME GUARANTEE

iCAGE MINI

INNOVATIVE INTUMESCENT ACTION

This patented and registered design, incorporates a unique intumescent reaction allowing a totally new concept as a cage constructed luminaire.

In comparison to existing fire rated enclosed can designs, iCage Mini and its components operate in a cooler environment and are not reliant on forward heat lamp to provide lower operating temperatures.

iCage Mini offers the installer and specifier comprehensive lamp options, including Part L Compliant LED as well as traditional halogen.

Reflector Accessories

Our extensive range of reflector accessories allow the installer to change the beam angle of the light output to suit the needs of different applications. Simply unscrew the front from the track head, remove the existing reflector and replace with the new reflector accessory.

20° Reflector

Creating a more focused and intense light, this reflector is perfect for use in galleries and museums where a narrow beam is required to create a focal point to highlight artwork or sculptures.

Three Circuit Unity LED Mains 4 - AUTRA/110/20 - p201

40° Reflector

Suitable for general use in settings such as restaurants, galleries, hotels, retail spaces and museums, this reflector can be used to highlight artwork on gallery walls and can create an ambient light for restaurants and bars.

Available for use with

Single Circuit Unity LED Mains 0 - AUTRA/50/40 - p182
Single Circuit Unity LED Mains 1 - AUTRA/50/40 - p183
Three Circuit Unity LED Mains 0 - AUTRA/50/40 - p195
Three Circuit Unity LED Mains 1 - AUTRA/50/40 - p196

60° Reflector

Ideal for use in larger, open spaces such as showrooms and retails spaces, the reflector provides excellent general lighting, with the beam angle covering a large area with light, whilst minimising shadows.

Available for use with

Single Circuit Unity LED Mains 3 - AUTRA/110/60 - p186
Single Circuit Unity LED Mains 4 - AUTRA/110/60 - p187
Three Circuit Unity LED Mains 3 - AUTRA/110/60 - p200
Three Circuit Unity LED Mains 4 - AUTRA/110/60 - p201

70° Reflector

The 70° reflector can be used in track lighting solutions where a large space needs to be filled with light. This size reflector is suitable for large retail spaces and commercial premises as it creates a large amount of light whilst reducing shadows.

Available for use with

Single Circuit Unity LED Mains 2 - AUTRA/80/70 - p184
Three Circuit Unity LED Mains 2 - AUTRA/80/70 - p199

Single Circuit Low Profile Unity 1 LED Track

Supplied c/w Integral Driver

AULEDLP1/W

AULEDLP1/B

- Low profile LED trackspot with integral driver
- 355° rotation with 0-180° tilt on the bracket
- Mirror finish anodized reflector for optimum efficiency
- Microprism diffuser for visual comfort and uniformity
- LED lifespan L80 68,000 hours
- Non-dimmable

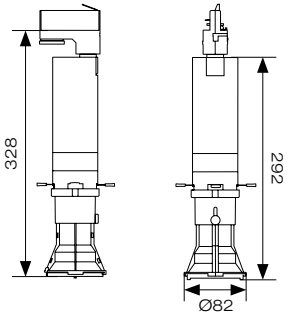
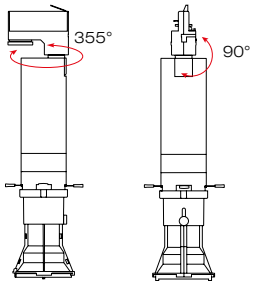
Three Circuit Compass LED Adjustable Projector Mains

Supplied c/w Integral Driver

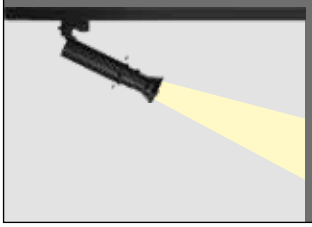
- Three circuit adjustable LED track projector
- Ideal for museums and art galleries
- Fully adjustable telescopic lens allows for exhibition framing
- Focus can be adjusted to allow for a softer frame or a sharp clear frame.
- Round, square, rectangular and triangular beam shapes customised via 4 individual controls
- 355° rotation with 0-90° tilt on the bracket
- LED lifespan L70 50,000 hours
- Non-dimmable



Rotate and Tilt



Luminaire Installation Guide



Shape \ Distance	1M	2M	3M	4M
●	Max: Ø 50cm	Max: Ø 110cm	Max: Ø 165cm	Max: Ø 221cm
■	Max: □ 35cmx35cm	Max: □ 75cmx75cm	Max: □ 120cmx120cm	Max: □ 156cmx156cm

* The above shapes and dimensions are measured and sampled while the axis of the Compass LED is precisely vertical to the projected facade

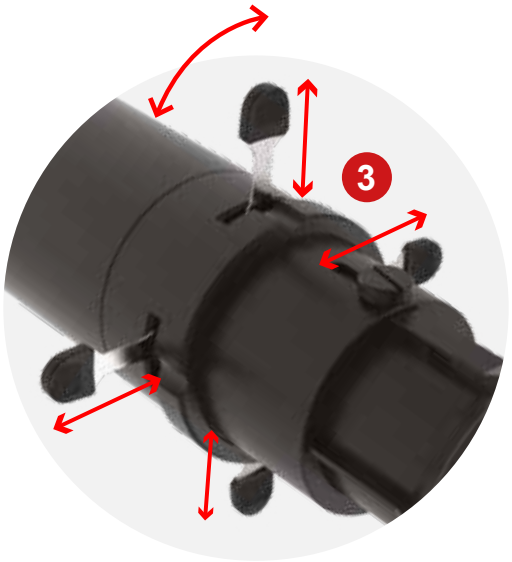
1 Adjustable 2 Focal Distance

Adjusting the focal distance will increase the sharpness of the light. The distance can be adjusted by moving the screw back and forth, and fixed by tightening the screw



3 Shaping the Light Output

The shape of the light can be manipulated to create round, square, rectangular and triangular light outputs. This is achieved by altering the 4 flap panels both in and out and left to right, as shown in the diagram above

Three Circuit Legion LED Emergency Trackspot

Supplied c/w Integral Driver and Battery Pack

ALEGLED/B

ALEGLED/W

Emergency Standby

Emergency Operation

- Three circuit non-maintained emergency trackspot
- 3 hour emergency output
- Simply clip onto existing track system for instant emergency lighting solution
- Power and green charge LED are discreetly incorporated within the head
- Available in black and white finishes
- 3.2W LED light source produces 250 lumens
- 105° beam angle

- Must be used in conjunction with the Unity 3 circuit track (see p195-p202)

Please note, this product will not work with single circuit track systems

LED Strip Made Easy...

Step 1:

Peel the adhesive back from the LED strip and place down on a clean and even surface, ensuring the entire length is firmly stuck down.

Step 2:

Utilising the plug and play connections, connect the end of the LED strip run to a mains lead **(sold separately).**

Step 3:

Connect the mains lead to your LED driver (the driver will depend on the length of LED strip being installed **(sold separately)** and ensure the LED driver is connected to the mains.

Step 4:

Switch on the power and enjoy your new LED strip lighting.

No Tools Required

All of our LED strip ranges are supplied with a self-adhesive back, meaning no adhesive or fixings are required to apply the strip to clean dry surfaces. Additionally all strips are fitted with plug-and-play connections, so no soldering or tools are needed, further aiding in a quick and easy installation.

Pre-Cut Lengths

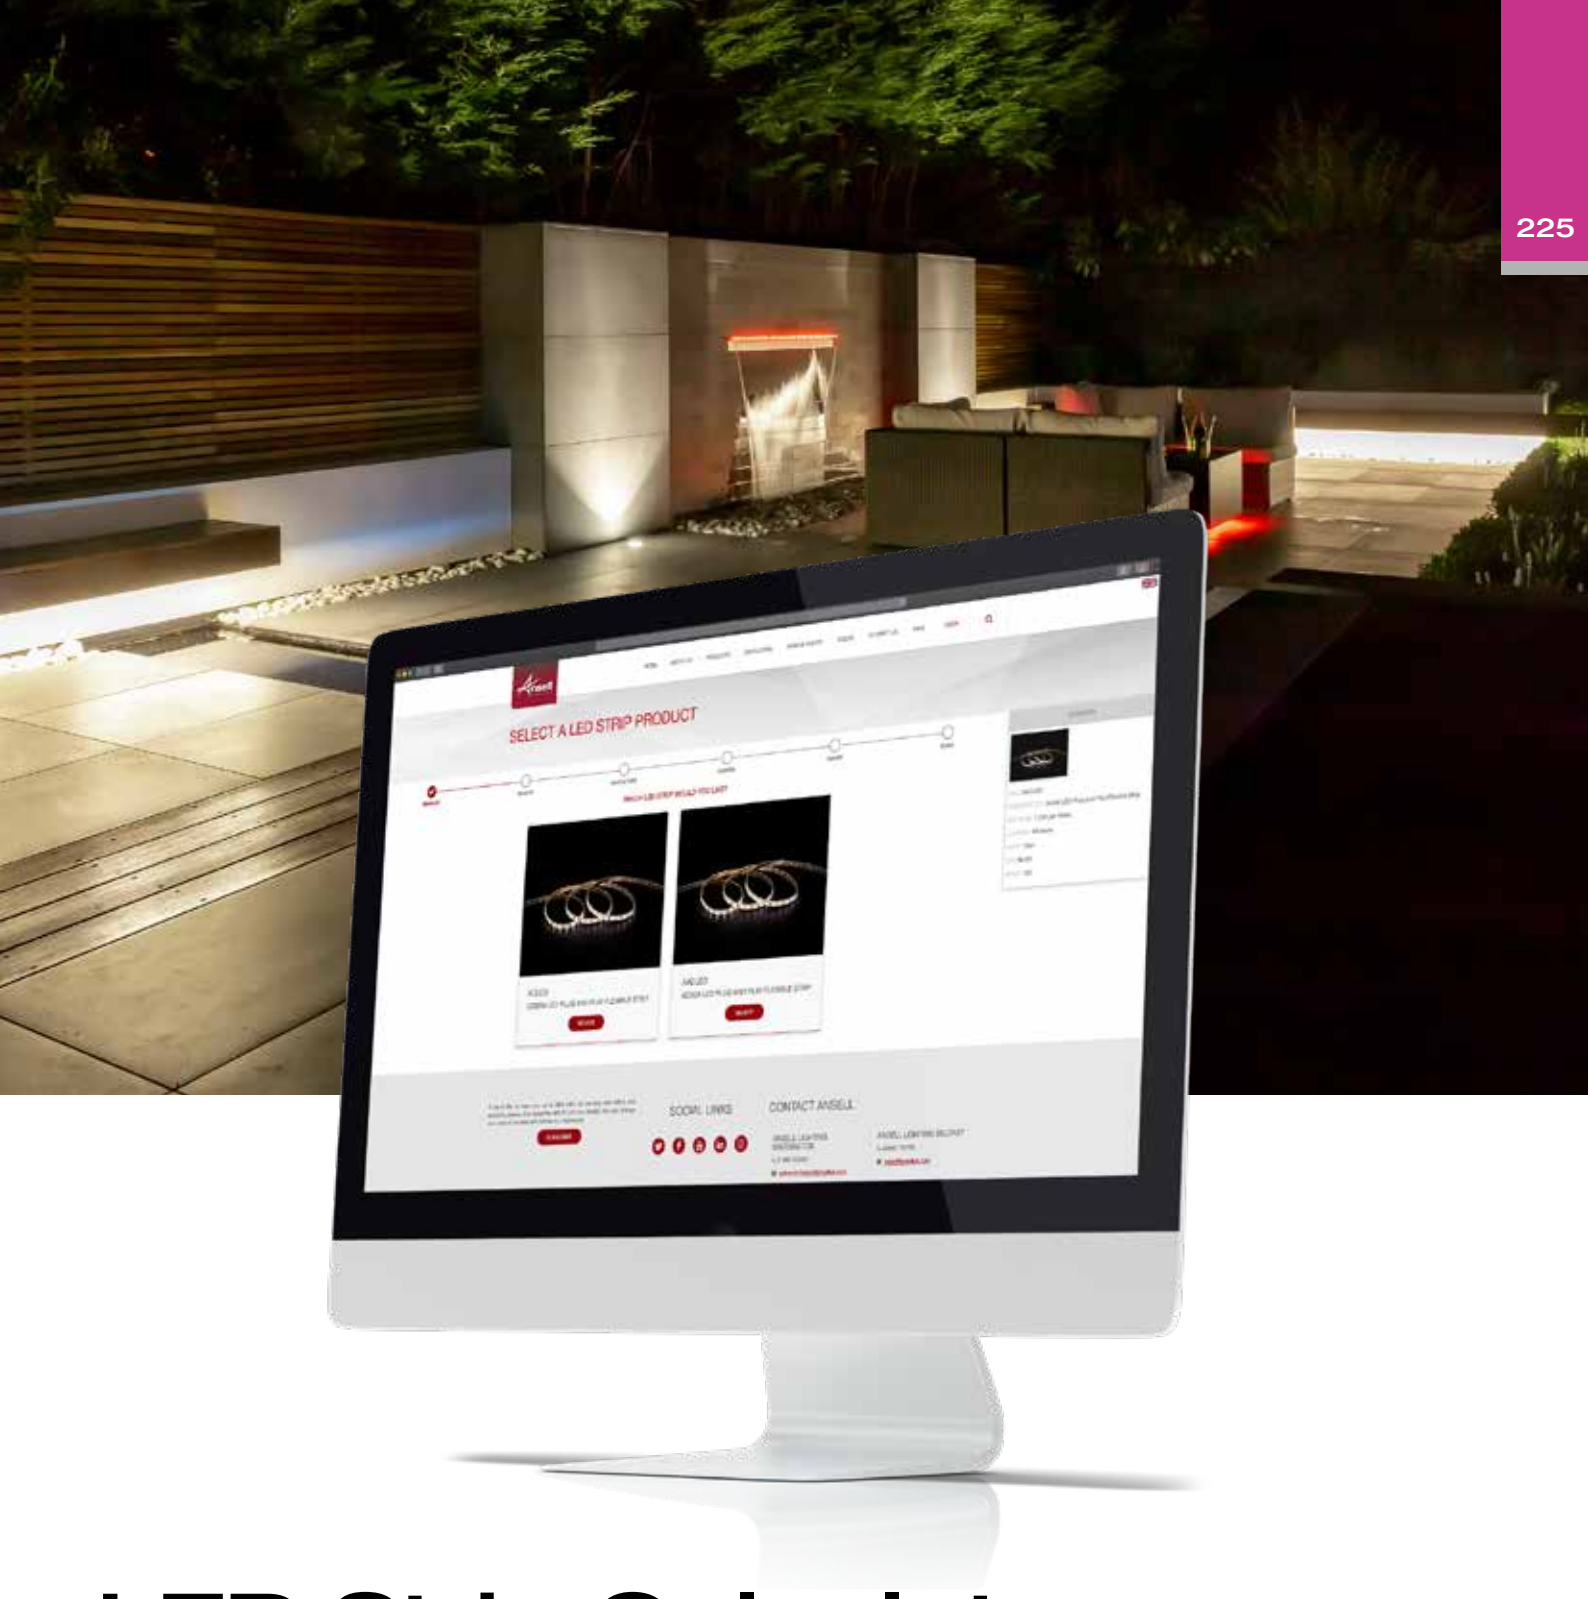
Strip comes in various pre-cut lengths from 100mm to 5 metres, offering complete versatility and ensuring a quick and easy installation. This coupled with designated cutting points allows total flexibility for every installation.

Complete Customisation

The vast range of different strip options are complimented by an equally impressive selection of accessories. Our comprehensive range of connector options allow an easy installation for even the most complex of configurations.

Connected

OCTO 12-24V bluetooth smart controller provides users with options for RGBW, RGB, tunable white and single colour. Settings are easily commissioned by a smart device via the OCTO app, this includes full control, dimming, scene setting and pre-set timers.



LED Strip Calculator

Our online LED strip calculator simplifies the process of choosing the correct strip and accessories for any job, no matter how big or small. The easy step-by-step process covers all aspects of selecting and ordering the correct products.

Simply run through your specification requirements and the calculator will work out all of the necessary parts you require. Add any accessories you will need and you are good to go. The calculator will produce a downloadable summary of everything you will need to order.

24V LED Strip

Our new 24V high-efficiency LED strip ranges, Boa and Krait, achieve incredibly high lumen outputs whilst reducing energy consumption. Utilising 2835 and 5050 LED chip technology, these run at the lowest possible current, resulting in minimum heat generation and therefore increasing overall efficiency. With additions of RGBW and tunable white, the range ensures any commercial application can be kitted out to ensure total colour and comfort.

Krait 24V 7.2W per Metre LED (p228-p229)

Highly efficient, lower lumens (600-700 Lm/M), twinned with uniform output across 10m runs, the Krait LED subtly highlights any commercial space. Highlighting display or feature pieces in retail, the Krait range is used by professional designers and lighting experts.

Suitable for use in

Residential Applications
Inside coving, small bedrooms and living spaces

Retail and Commercial Applications
General ambience lighting and small retail premises

Hotel Applications
Corridor lighting, hotel room ambience light

Boa 24V LED 14.4W per Metre (p230-p231)

High output (1200 Lm/M), with the option to dim or use our OCTO Smart Bluetooth controls, Boa LED strip is perfectly suited for any application. Offering maximum output pound-for-pound, the high brightness strip offers dynamic effects and uniformity across longer runs. High quality LED chips with a colour rendering index (CRI) value of Ra90 ensures highly accurate colour and consistency; perfect for setting that ideal ambiance in hospitality and retail.

All of this combined with the punchy output and high lumen per watt performance, enables Boa's use as a primary light source in domestic or commercial premises.

Suitable for use in

Residential Applications
Inside coving and large open living areas

Retail and Commercial Applications
Large open showrooms and retail premises

Hotel Applications
Reception areas. dining areas and large open spaces

24V LED Strip Accessories

- **Joints**
  Easy fast-fit range of plug-in connections

- **ACLED/RC/TOUCH**
  Visible colour spectrum for easy finger touch control. Memory function for colour, mode, speed and brightness. RF up to a maximum of 20 metres
  ****Only Compatible with RGB LED strip Not compatible with Tunable White or RGBW****

- **ACLED/AMP/TOUCH**
  RGB Amplifier (Repeater) for use with ACLED/RC/TOUCH. Repeater(s) can be added to synchronise larger installations

- **AOCTO/RGBW/BTC**
  12-24V Bluetooth smart controller.

12V LED Strip

Our super reliable, trusted 12V LED strip ranges, Cobra and Adder, are an installers dream. Solder free, plug and play connections across the family ensures the ranges are easily installed with no mess or waste. High and low output versions and a range of accessories and LED drivers to suit ensure you will be able to find the perfect basket of products for any shape or size kitchen or living space.

Adder 12V 7.2W per Metre LED

The Adder LED strip is the perfect solution for achieving the subtle accent lighting in any dwelling. The low output (around 500 Lm/M) allows the install to combine form and function; installing discreetly under kitchen cabinets, coving or kickboards in kitchens.

Suitable for use in

Residential Applications
Inside coving, small bedrooms and living spaces

Cobra 12V LED 14.4W per Metre

Slim profile, high output (1,000 Lm/M), easy to install utilising the self-adhesive back or in an extrusion, Cobra LED offers the versatility to be either your main light source or accent lighting at home.

Suitable for use in

Residential Applications
Inside coving and large open living areas

12V LED Strip Accessories

- **Joints**
  Easy fast-fit range of plug-in connections

- **ACLED/RC/TOUCH**
  Visible colour spectrum for easy finger touch control. Memory function for colour, mode, speed and brightness. RF up to a maximum of 20 metres
  ****Only Compatible with RGB LED strip Not compatible with Tunable White or RGBW****

- **ACLED/AMP/TOUCH**
  RGB Amplifier (Repeater) for use with ACLED/RC/TOUCH. Repeater(s) can be added to synchronise larger installations

- **AOCTO/RGBW/BTC**
  12-24V Bluetooth smart controller.
  Max. Wattage
  72W - 12V
  144W - 24V
  ****Compatible with all single CCT, Tunable white, RGB and RGBW****

	Code	Lamp	Description	Trade
	AMLED/KIT/TUNE	LED	5M 30W Tunable White LED Strip Kit	**£86.00**
Accessory	**AMLED/LC**		Flexible Quick-fit Joint	**£4.00**

LED Information

Total (Watts)	30W
CCT	2500K to 6500K
Input	230V
Hertz	50/60Hz
Operating Temp	-20°C to 45°C

UK CA CE IP20

Concho

IP65 AC LED
FLEXIBLE LIGHTING

NO DRIVER REQUIRED
- For ease and speed of installation
- No management costs

HIGH OUTPUT LED
- 1000lm per metre Warm White
- 1100lm per metre Cool White
- 100lm/W

MAINTENANCE FREE LED

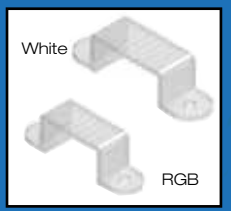
INSTALLATION LENGTH
- Ultra long runs
- 50 metres cool white and warm white
- 30 metres RGB

OPTICALLY CLEAR THERMOPLASTIC SLEEVE
For optimum performance

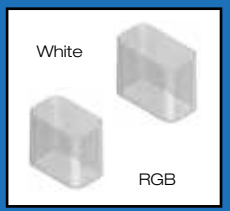
White LED Power Supply

RGB LED Power Supply

RGB Flexi-Bend



Fixing Clips



End Caps

Silicon Glue

- Not submersible • Not intended for applications where water can puddle
- Not intended for applications where product can be covered by snow • All connections must be sealed with silicon

IP65 Concho AC LED Strip (Up to 1100lm per metre)

No Driver Required

B

- High output LED strip for external applications
- Supplied as specific cut-lengths, cut to order
- AC LED strip does not require driver
- 3000K/4000K LED suitable for installations up 50 metres run length
- RGB LED suitable for installations up 30 metres run length
- Cutting points:-
  White LED 500mm
  RGB LED 1000mm
- Non-returnable product
- LED lifespan
  L70 35,000 hours
- 3000K/4000K non-dimmable
- Adjustable brightness control for RGB

White LED Cut-Lengths (1 Metre Multiples)

Code	Lamp	Description	Trade
ACONLED/CL/WW	LED	Warm White (Per Metre c/w 3 Fixing Clips)	**£29.70**
ACONLED/CL/CW	LED	Cool White (Per Metre c/w 3 Fixing Clips)	**£29.70**
ACONLED/CL/PS	LED	Power Supply (1 Required Per Cut Length)	**£18.15**

RGB LED Cut-Lengths (1 Metre Multiples)

ACONLED/CL/RGB	LED	RGB (Per Metre c/w 3 x Clips)	**£29.70**
ACONLED/CL/RGB/PS	LED	RGB Power Supply and Touch RF Control (1Required Per Cut Length)	**£87.50**

White LED 50 Metre Drums

Matrix LED CCT Linklight

Supplied c/w Integral Driver

- CCT Selectable LED linklight with integral driver
- Side mounted switch allows installer the choice of 3000K or 4000K colour temperature options
- Moulded spine fitted with integral switch and fixed diffuser
- c/w angled and straight fixing clips
- Supplied c/w 1.5m mains power lead
- Linkable up to a maximum of twelve fittings
- LED lifespan L70 25,000 hours
- Non-dimmable

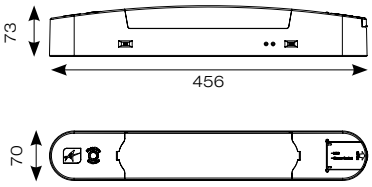
Profile Dual Voltage LED Razor Light

Supplied c/w Integral Driver

- Ultra-slim unobtrusive modern design
- Directional light output provides optimum facial illumination
- All switches SELV rated for ultimate safety
- Night light function with four minute timed override switch for full power output
- Only 1.8W power consumption in night light mode
- Optional wiring facility for remote bedside operation of night light function
- USB 2A charge port
- 110/230V selectable shaver output and isolating transformer
- LED lifespan L70 50,000 hours



Access to shaver connection and USB charge port via hinged protective cover. Simple SELV switch provides the ability to select required voltage.

Easy to operate SELV switch function provides the ability to select 100% brightness, night light mode and on/off settings.

Illuminated soft touch SELV switch for night light, with four minute timed override providing full brightness when required.
