

Adaptable Conduit Box

Part No. **NCP-27**

Overview

A bespoke alternative to standard metal conduit boxes.

Simplifies the installation of C-TEC manufactured fire detector bases and bases under/VADs on ceiling tiles, solid ceilings, wooden beams, etc.

Can be mounted directly onto a surface or in recesses behind ceiling tiles and plasterboard.

Multiple access wiring points and lots of working space.

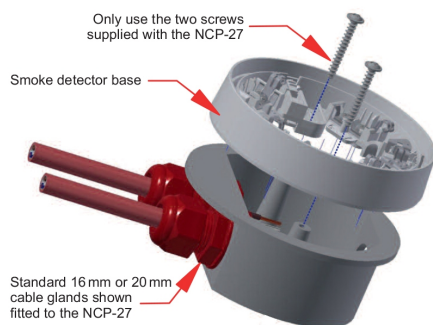

Features two anti-rotation spikes.

Easy termination of 16mm or 20mm cable glands via side and rear drill-out cable entry points.

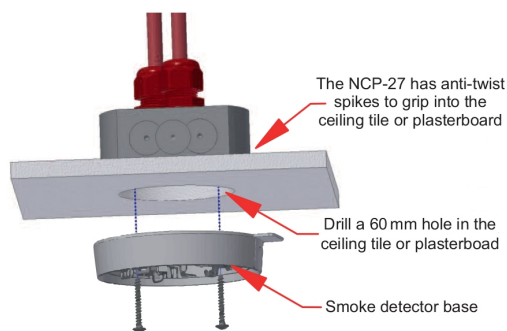

Technical Specifications
